

The George Washington University

UNIVERSITY BULLETIN

2020-2021

Columbian College of Arts and Sciences
School of Business
Graduate School of Education and Human Development
School of Engineering and Applied Science
Elliott School of International Affairs
Health Sciences Programs in the School of Medicine and Health Sciences
School of Nursing
College of Professional Studies
Milken Institute School of Public Health

This bulletin covers GW's degree programs and courses for the schools listed here, with the regulations that pertain to academic programs. For information on GW's professional schools that are not part of this bulletin, see the following websites: www.law.gwu.edu and www.smhs.gwu.edu. The website www.gwu.edu contains institutional information as well as updated and expanded information on all GW schools, departments, and programs.

Information in this Bulletin is generally accurate as of September 2020. The University reserves the right to change courses, programs, fees, and the academic calendar, or to make other changes deemed necessary or desirable, giving advance notice of change when possible.

TABLE OF CONTENTS

Academic Calendar 2020-2021	23
About the University	24
University Regulations	27
Undergraduate Education at GW	42
Undergraduate Admissions	45
Advanced Placement Equivalents	47
A-Level Equivalents	49
International Baccalaureate Equivalents	49
Assignment of Credits for Transfer Students	52
Fees and Financial Regulations	54
Financial Aid	58
Interdisciplinary and Special Programs	66
GWTeach Program and Minor in STEM Teaching	66
Minor in Linguistics	68
Naval Science	69
Sustainability	69
Minor in Sustainability	70
University Honors Program	73
Women's Leadership Program	76
Columbian College of Arts and Sciences	77
General Education Curriculum-Perspective, Analysis, Communication (G-PAC)	92
Africana Studies	92
Bachelor of Arts with a Major in Africana Studies	93
Minor in Africana Studies	95
American Studies	95
Bachelor of Arts with a Major in American Studies	102
Dual Bachelor of Arts with a major in American Studies and Master of Arts in the field of American Studies	104
Minor in American Studies	104
Master of Arts in the Field of American Studies	104
Doctor of Philosophy in the Field of American Studies	105
Anatomy and Cell Biology	105
Master of Science in the Field of Anatomical and Translational Sciences	108
Graduate Certificate in Anatomical and Translational Sciences	108

Anthropology	109
Bachelor of Arts with a Major in Anthropology	118
Bachelor of Arts with a Major in Archaeology	119
Bachelor of Science with a Major in Biological Anthropology	122
Dual Bachelor of Arts with a Major in Anthropology and Master of Arts in the Field of Anthropology	124
Dual Bachelor of Arts with a Major in Archaeology and Master of Arts in the Field of Anthropology	124
Dual Bachelor of Science with a Major in Biological Anthropology and Master of Arts in the Field of Anthropology	124
Dual Bachelor of Science with a Major in Biological Anthropology and a Master of Science in the Field of Human Paleobiology	125
Minor in Anthropology	125
Minor in Archaeology	125
Minor in Biological Anthropology	126
Minor in Cross-Cultural Communication	126
Minor in Sociocultural Anthropology	127
Master of Arts in the Field of Anthropology	128
Doctor of Philosophy in the Field of Anthropology	129
Art Therapy	130
Master of Arts in the Field of Art Therapy	133
Biochemistry and Molecular Medicine	134
Master of Science in the Field of Bioinformatics and Molecular Biochemistry	136
Biological Sciences	137
Bachelor of Arts with a Major in Biology	145
Bachelor of Science with a Major in Biology	148
Bachelor of Science with a Major in Neuroscience	151
Dual Bachelor of Science with a Major in Biology and Master of Science in the Field of Biological Sciences	153
Dual Bachelor of Science with a Major in Neuroscience and Master of Science in the Field of Biological Sciences	153
Minor in Biology	153
Master of Science in the Field of Biological Sciences	153
Doctor of Philosophy in the Field of Biological Sciences	154

Biomedical Sciences	155	Bachelor of Fine Arts with a Major in Fine Art Photography	195
Doctor of Philosophy in the Field of Cancer Biology	156	Bachelor of Fine Arts with a Major in Graphic Design	195
Doctor of Philosophy in the Field of Genomics and Bioinformatics	157	Bachelor of Fine Arts with a Major in Interaction Design	196
Doctor of Philosophy in the Field of Microbiology and Immunology	159	Bachelor of Fine Arts with a Major in Photojournalism	198
Doctor of Philosophy in the Field of Neuroscience	160	Dual Bachelor of Arts with a Major in Art History and Master of Arts in the Field of Art History	200
Doctor of Philosophy in the Field of Pharmacology and Physiology	162	Minor in Graphic Design	200
Biostatistics	163	Minor in Photography	200
Doctor of Philosophy in the Field of Biostatistics	164	Master of Arts in the Field of Decorative Arts and Design History	200
Master of Science in the Field of Biostatistics	166	Master of Arts in the Field of Exhibition Design	201
Chemistry	168	Master of Arts in the Field of Interaction Design	202
Dual Bachelor of Science with a Major in Chemistry/ Master of Forensic Sciences with a Concentration in Forensic Chemistry	173	Master of Arts in the Field of New Media Photojournalism	203
Bachelor of Arts with a Major in Chemistry	173	Master of Fine Arts in the Field of Social Practice	204
Bachelor of Science with a Major in Chemistry	174	Dual Master of Arts in the Field of Museum Studies and Graduate Certificate in Jewish Cultural Arts	204
Doctor of Philosophy in the Field of Chemistry	180	Data Science	204
Dual Bachelor of Science with a Major in Chemistry and Master of Science in the Field of Environmental and Green Chemistry	181	Bachelor of Science with a Major in Data Science	207
Master of Science in the Field of Chemistry	181	Minor in Data Science	209
Master of Science in the Field of Environmental and Green Chemistry	182	Dual Bachelor of Science in an Approved Columbian College Program and Master of Science in the Field of Data Science	210
Minor in Chemistry	183	Dual Master of Science in the Field of Data Science and Certificate in Geographic Information Systems	210
Classical Acting	183	Master of Science in the Field of Data Science	210
Master of Fine Arts in the Field of Classical Acting	185	Graduate Certificate in Data Science	211
Classical and Near Eastern Languages and Civilizations	186	East Asian Languages and Literatures	211
Bachelor of Arts with a Major in Arabic Studies	187	Bachelor of Arts with a Major in Chinese Language and Literature	212
Bachelor of Arts with a Major in Classical and Ancient Near Eastern Studies	188	Bachelor of Arts with a Major in Japanese Language and Literature	214
Minor in Arabic and Hebrew Languages and Cultures	189	Bachelor of Arts with a Major in Korean Language and Literature	215
Minor in Arabic Studies	190	Master of Arts in the Field of Chinese Language and Culture	217
Minor in Classical and Ancient Near Eastern Studies	190	Minor in Chinese Language and Literature	218
Minor in Hebrew	191	Minor in Japanese Language and Literature	219
Corcoran School of the Arts and Design	192	Minor in Korean Language and Literature	219
Bachelor of Fine Arts with a Major in Fine Art	193	Economics	220

Bachelor of Arts with a Major in Economics	227	English for Academic Purposes	253
Bachelor of Science with a Major in Economics	229	Environmental Studies	254
Dual BA or BS with a Major in Economics and Master of Public Policy	231	Bachelor of Arts with a Major in Environmental Studies	255
Minor in Economics	231	Dual Bachelor of Arts with a Major in Environmental Studies and Master of Arts in the Field of Environmental Resource Policy	257
Master of Arts in the Field of Applied Economics	231	Film Studies	257
Doctor of Philosophy in the Field of Economics	232	Minor in Film Studies	257
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Accountancy	233	Fine Arts and Art History	258
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Budget and Public Finance	233	Bachelor of Arts with a Dual Major in Art History and in Fine Arts	259
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Business Analytics	234	Bachelor of Arts with a Major in Art History	263
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Data Science	234	Bachelor of Arts with a Major in Fine Arts	266
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Digital Marketing and Communications	234	Dual Bachelor of Arts and Master of Arts programs in Fine Arts and Art History	267
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Environmental Resource Policy	234	Dual Minor in Art History and Fine Arts	268
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Financial Management	234	Master of Arts in the Field of Art History	268
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Geographic Information Systems	234	Master of Fine Arts in the Field of Fine Arts	269
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Sports Management	235	Minor in Art History	270
Dual Master of Arts in the Field of Applied Economics and Graduate Certificate in Walkable Urban Real Estate Development	235	Minor in Fine Arts	270
English	235	Forensic Sciences	271
Bachelor of Arts with a Major in Creative Writing and English	246	Graduate Certificate in Forensic Investigation	274
Bachelor of Arts with a Major in English	248	Master of Forensic Sciences	275
Doctor of Philosophy in the field of English with optional concentrations in English or American literature	251	Master of Forensic Sciences in the Field of Forensic Chemistry	275
Dual Bachelor of Arts with a major in English and Master of Arts in the field of English	251	Master of Forensic Sciences in the Field of Forensic Molecular Biology	276
Master of Arts in the Field of English with Optional Concentrations in English or American Literature	251	Master of Science in the Field of Crime Scene Investigation	277
Minor in Creative Writing	252	Geography	277
Minor in English	252	Bachelor of Arts with a Major in Geography	283
Minor in English for Business Students	253	Bachelor of Science with a Major in Environmental and Sustainability Science	285
		Graduate Certificate in Geographical Information Systems	287
		Master of Science in the Field of Geography	287
		Dual Master of Science in the Field of Geography and Graduate Certificate in Geographical Information Systems	288
		Minor in Geographic Information Systems	288
		Minor in Geography	289
		Geological Sciences	290

Bachelor of Arts with a Major in Geological Sciences	291	Combined Bachelor of Arts and Master of Arts and Bachelor of Arts and Master of Professional Studies	345
Bachelor of Science with a Major in Geological Sciences	293	Dual Bachelor of Arts in an SMPA Major and Master of Arts or Master of Professional Studies Degree Programs	346
Minor in Geological Sciences	294	Master of Arts in the Field of Media and Strategic Communication	346
History	294	Minor in Journalism and Mass Communication	347
Bachelor of Arts with a Major in History	308	Museum Studies	348
Doctor of Philosophy in the Field of American Religious History	310	Graduate Certificate in Museum Collections Management and Care	350
Doctor of Philosophy in the Field of History	311	Graduate Certificate in Museum Studies	350
Master of Arts in the Field of History	311	Master of Arts in the Field of Museum Studies	351
Minor in History	312	Music	351
Human Paleobiology	313	Bachelor of Arts with a Major in Music	355
Doctor of Philosophy in the Field of Human Paleobiology	313	Minor in Jazz Studies	356
Master of Science in the Field of Human Paleobiology	315	Minor in Music	356
Interior Architecture	316	Organizational Sciences and Communication	356
Bachelor of Fine Arts with a Major in Interior Architecture	318	Bachelor of Arts with a Major in Communication	357
Master of Fine Arts in the Field of Interior Architecture	319	Bachelor of Arts with a Major in Organizational Sciences	359
Judaic Studies	320	Doctor of Philosophy in the Field of Industrial/Organizational Psychology	361
Bachelor of Arts with a Major in Judaic Studies	321	Master of Arts in the Field of Communication Management	363
Graduate Certificate in Jewish Cultural Arts	322	Master of Arts in the Field of Leadership Education and Development	364
Minor in Judaic Studies	323	Master of Arts in the Field of Organizational Sciences	364
Mathematics	323	Minor in Communication	365
Bachelor of Arts with a Major in Mathematics	329	Minor in Organizational Communication	366
Bachelor of Science with a Major in Mathematics	331	Minor in Organizational Sciences	366
Doctor of Philosophy in the Field of Mathematics ...	332	Peace Studies	366
Graduate Certificate in Financial Mathematics	333	Bachelor of Arts with a Major in Peace Studies	367
Graduate Certificate in Mathematics	334	Minor in Peace Studies	370
Master of Arts in the Field of Mathematics	334	Philosophy	371
Master of Science in the Field of Applied Mathematics	335	Bachelor of Arts with a Major in Philosophy	378
Minor in Mathematics	336	Bachelor of Arts with a Major in Philosophy (Public Affairs Focus)	379
Media and Public Affairs	336	Dual Bachelor of Arts with a Major in Philosophy (Public Affairs Focus) and Master of Arts in the Field of Philosophy	380
Bachelor of Arts with a Major in Journalism and Mass Communication	342		
Bachelor of Arts with a Major in Political Communication	344		

Dual Bachelor of Arts with a Major in Philosophy (Public Affairs Focus) and Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Social Policy	380	Master of Arts in the Field of Political Science	413
Dual Bachelor of Arts with a Major in Philosophy and Master of Arts in the Field of Philosophy	381	Doctor of Philosophy in the Field of Political Science	416
Dual Bachelor of Arts with a Major in Philosophy and Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Social Policy	381	Professional Psychology	417
Master of Arts in the Field of Philosophy	381	Doctor of Psychology in the Field of Clinical Psychology	418
Master of Arts in the Field of Public Policy with a Concentration in Philosophy and Social Policy	382	Graduate Certificate in LGBT Health Policy and Practice	419
Minor in Applied Ethics	383	Master of Arts in the Field of Forensic Psychology	420
Minor in Logic	383	Psychological and Brain Sciences	420
Minor in Mind-Brain Studies	383	Bachelor of Arts with a Major in Psychological and Brain Sciences	427
Minor in Philosophy	384	Bachelor of Science with a Major in Cognitive Neuroscience	429
Physics	384	Dual Bachelor of Arts with a Major in Psychological and Brain Sciences and Master of Arts in the Field of Art Therapy	431
Bachelor of Arts with a Major in Physics	385	Minor in Psychological and Brain Sciences	431
Bachelor of Science with a Major in Astronomy and Astrophysics	386	Doctor of Philosophy in the Field of Applied Social Psychology	431
Bachelor of Science with a Major in Biophysics	388	Doctor of Philosophy in the Field of Clinical Psychology	432
Bachelor of Science with a Major in Physics	389	Doctor of Philosophy in the Field of Cognitive Neuroscience	434
Doctor of Philosophy in the Field of Physics	390	Public Policy and Public Administration	434
Master of Science in the Field of Physics	391	Doctor of Philosophy in the Field of Public Policy and Administration	441
Minor in Astronomy and Astrophysics	392	Dual Master of Public Administration and Graduate Certificate in Homeland Security Emergency Preparedness and Response	442
Minor in Biophysics	392	Dual Master of Public Administration and Graduate Certificate in Nonprofit Management	443
Minor in Physics	393	Dual Master of Public Policy and Doctor of Philosophy in the Field of Political Science	443
Political Science	393	Dual Master of Public Policy and Graduate Certificate in Data Science	443
Bachelor of Arts with a Major in Political Science	403	Graduate Certificate in Budget and Public Finance	443
Bachelor of Arts with a Major in Political Science (Public Policy Focus)	405	Graduate Certificate in Contexts of Environmental Policy	444
Bachelor of Science with a Major in Political Science	409	Graduate Certificate in Environmental Resource Policy	445
Dual Bachelor of Science with a Major in Political Science and Master of Public Policy	411	Graduate Certificate in Nonprofit Management	445
Dual Bachelor of Arts with a Major in Political Science (Public Policy focus) and Master of Public Policy	412	Master of Arts in the Field of Environmental Resource Policy	446
Dual Bachelor of Arts with a Major in Political Science and Master of Arts in the field of Political Science	412		
Dual Bachelor of Arts with a Major in Political Science and Master of Public Administration	412		
Minor in Political Science	412		
Minor in Public Policy	413		

Master of Arts in the Field of Environmental Resource Policy and Graduate Certificate in Geographical Information Systems	447	Doctor of Philosophy in the Field of Speech, Language, and Hearing Science	483
Master of Public Administration	447	Master of Arts in the Field of Speech-Language Pathology	484
Master of Public Policy	448	Minor in Speech, Language, and Hearing Sciences	485
Religion	448	Speech-Language Pathology Post-Baccalaureate Program	486
Bachelor of Arts with a Major in Religion	455	Statistics	486
Graduate Certificate in Islamic Studies	456	Bachelor of Science with a Major in Statistics	491
Master of Arts in the Field of Islamic Studies	457	Doctor of Philosophy in the Field of Statistics	492
Minor in Religion	458	Dual Master of Science in the Field of Statistics and Graduate Certificate in the Field of Data Science	493
Romance, German, and Slavic Languages and Literatures	459	Master of Science in the Field of Statistics	493
Bachelor of Arts with a Major in French Language, Literature, and Culture	460	Minor in Statistics	494
Bachelor of Arts with a Major in German Language and Literature	461	Theatre and Dance	494
Bachelor of Arts with a Major in Russian Language and Literature	463	Bachelor of Arts with a Major in Dance	499
Bachelor of Arts with a Major in Spanish and Latin American Languages, Literatures, and Cultures	464	Bachelor of Arts with a Major in Theatre	501
Minor in French Language, Literature, and Culture	466	Master of Fine Arts in the Field of Dance	502
Minor in German Language and Literature	467	Master of Fine Arts in the Field of Production Design	503
Minor in Italian Language and Literature	467	Minor in Dance	503
Minor in Russian Language and Literature	467	Minor in Theatre	504
Minor in Spanish and Latin American Languages, Literatures, and Cultures	468	University Writing	504
Sociology	469	Women's, Gender, and Sexuality Studies	506
Bachelor of Arts with a Major in Criminal Justice	469	Bachelor of Arts with a Major in Women's, Gender, and Sexuality Studies	510
Bachelor of Arts with a Major in Human Services and Social Justice	471	Dual Bachelor's and Master's Programs in Women's, Gender, and Sexuality Studies	513
Bachelor of Arts with a Major in Sociology	472	Graduate Certificate in Women's, Gender, and Sexuality Studies	513
Combined Programs, Sociology	473	Master of Arts in the Field of Public Policy with a Concentration in Women's, Gender, and Sexuality Studies	514
Master of Arts in the Field of Criminology	473	Master of Arts in the Field of Women's, Gender, and Sexuality Studies	515
Master of Arts in the Field of Sociology	474	Minor in LGBT and Sexuality Studies	515
Minor in Criminal Justice	475	Minor in Women's, Gender, and Sexuality Studies	516
Minor in Human Services and Social Justice	475	School of Business	517
Minor in Law and Society	476	Departments	
Minor in Sociology	476	Accountancy	523
Speech, Language, and Hearing Sciences	476	Decision Sciences	526
Bachelor of Arts with a Major in Speech, Language, and Hearing Sciences	481		

Finance	531	Dual Bachelor of Business Administration and Master of Accountancy	567
Information Systems and Technology Management	536	Dual Bachelor of Business Administration and Master of Human Resource Management	567
International Business	540	Dual Bachelor of Business Administration and Master of Science in the Field of Business Analytics	567
Management	543	Dual Bachelor of Business Administration and Master of Science in the Field of Information Systems Technology	567
Marketing	546	Dual Bachelor of Business Administration and Master of Science in the Field of Sports Management	567
Strategic Management and Public Policy	549	Dual Bachelor of Business Administration and Master of Tourism Administration	567
Undergraduate Programs	551	Dual Bachelor of Business Administration and Master's in Management	567
Bachelor of Science with a Major in Accountancy	551	Dual Bachelor of Science with a Major in Finance and Master of Science in the Field of Finance	567
Bachelor of Science with a Major in Business	553	Minor in Accountancy	568
Bachelor of Science with a Major in Business, Accountancy Concentration	554	Minor in Business	568
Bachelor of Science with a Major in Business, Business Analytics Concentration	555	Minor in Business Analytics	569
Bachelor of Science with a Major in Business, Business Economics and Public Policy Concentration	556	Minor in Creativity, Innovation, and Entrepreneurship	569
Bachelor of Science with a Major in Business, Finance Concentration	556	Minor in Management and Leadership	570
Bachelor of Science with a Major in Business, Information Systems Technology Management Concentration	557	Minor in Marketing	571
Bachelor of Science with a Major in Business, Innovation and Entrepreneurship Concentration	558	Minor in Real Estate	571
Bachelor of Science with a Major in Business, International Business Concentration	558	Master's Programs	571
Bachelor of Science with a Major in Business, Marketing Strategy and Analytics Concentration	559	Master in Management	572
Bachelor of Science with a Major in Business, Real Estate Concentration	560	Master of Accountancy	573
Bachelor of Science with a Major in Business, Sport, Event, and Hospitality Management Concentration	560	Master of Business Administration	574
Bachelor of Science with a Major in Business, Individualized Concentration	561	Master of Business Administration (STEM)	575
Bachelor of Science with a Major in Business Analytics (STEM)	561	Master of Business Administration, Security Technology Transition Concentration	577
Bachelor of Science with a Major in Finance	563	Master of Human Resource Management	578
Bachelor of Science with a Major in Information Systems	564	Master of Interdisciplinary Business Studies	579
Bachelor of Science with a Major in Marketing	566	Master of Interdisciplinary Business Studies (STEM)	579
Dual Bachelor of Accountancy and Master of Accountancy	567	Master of Science in Finance	580
		Master of Science in the Field of Applied Finance	580
		Master of Science in the Field of Business Analytics	581
		Master of Science in Information Systems and Technology	581

Master of Science in the Field of International Business	582	Graduate Certificate in Digital Marketing and Analytics	592
Master of Science in the Field of Project Management	583	Graduate Certificate in Financial Management	593
Master of Science in the Field of Sport Management	583	Graduate Certificate in Global Management	593
Master of Tourism Administration	584	Graduate Certificate in Government and Nonprofit Accounting	593
Dual Master of Business Administration and Master of Arts in Education and Human Development in the Field of Higher Education Administration	585	Graduate Certificate in Hospitality Management	594
Dual Master of Business Administration and Master of Human Resource Management	586	Graduate Certificate in Human Capital	594
Dual Master of Business Administration and Master of Science in the Field of Applied Finance	586	Graduate Certificate in Investments and Portfolio Management	595
Dual Master of Business Administration and Master of Science in the Field of Business Analytics	586	Graduate Certificate in Management Leadership	595
Dual Master of Business Administration and Master of Science in the Field of Finance	586	Graduate Certificate in Management of Technology and Innovation	595
Dual Master of Business Administration and Master of Science in the Field of Information Systems Technology	586	Graduate Certificate in Managing the Digital Organization	596
Dual Master of Business Administration and Master of Science in Project Management	586	Graduate Certificate in Marketing and Brand Management	596
Dual Master of Business Administration and Master of Science in the Field of Sport Management	586	Graduate Certificate in Project Management	597
Dual Master of Business Administration and Master of Science in the Field of Information Systems Technology	586	Graduate Certificate in Quantitative Business Foundations	597
Dual Master of Business Administration and Master of Science in Project Management	586	Graduate Certificate in Sports Management	597
Dual Master of Business Administration and Master of Science in the Field of Sport Management	586	Graduate Certificate in Strategic Management	598
Dual Master of Business Administration and Master of Science in the Field of Sport Management	586	Graduate Certificate in Tourism Management	598
Dual Master of Business Administration and Master of Science in the Field of Sport Management	586	Graduate Certificate in Walkable Urban Real Estate Development	599
Joint Master of Arts in the Elliott School and Master of Business Administration	587	Graduate School of Education and Human Development	600
Joint Master of Business Administration and Juris Doctor	587	Departments	
Doctoral Programs	587	Counseling and Human Development	607
Doctor of Philosophy in Business Administration	587	Curriculum and Pedagogy	611
Certificate Programs	588	Educational Leadership	616
Graduate Certificate in Accountancy	588	Human and Organizational Learning	626
Graduate Certificate in Analytics for Managers	589	Special Education and Disability Studies	629
Graduate Certificate in Artificial Intelligence	589	Master's Programs	634
Graduate Certificate in Business Analytics	590	Master of Education in the Field of Elementary Education	635
Graduate Certificate in Capital Markets	590	Master of Education in the Field of Secondary Education	636
Graduate Certificate in Cloud, Applications, and Information Technology	591	Master of Arts in Education and Human Development, Individualized Program	637
Graduate Certificate in Corporate Responsibility	591	Master of Arts in Education and Human Development in the Field of Assessment, Testing, and Measurement in Education	637
Graduate Certificate in Creativity, Innovation, and Entrepreneurship	592		

Master of Arts in Education and Human Development in the Field of Clinical Mental Health Counseling	638
Master of Arts in Education and Human Development in the Field of Rehabilitation Counseling with Licensure Eligibility	639
Master of Arts in Education and Human Development in the Field of Rehabilitation Counseling	640
Master of Arts in Education and Human Development in the Field of Curriculum and Instruction	640
Master of Arts in Education and Human Development in the Field of Curriculum and Instruction with a Concentration in Elementary Education	640
Master of Arts in Education and Human Development in the Field of Curriculum and Instruction with a Concentration in Interdisciplinary Studies of Literacy and Reading Education	641
Master of Arts in Education and Human Development in the Field of Curriculum and Instruction with a Concentration in Jewish Education	642
Master of Arts in Education and Human Development in the Field of Curriculum and Instruction with a Concentration in Secondary Education	642
Master of Arts in Education and Human Development in the Field of Early Childhood Special Education	643
Master of Arts in Education and Human Development in the Field of Education Policy Studies	643
Master of Arts in Education and Human Development in the Field of Educational Leadership and Administration	644
Master of Arts in Education and Human Development in the Field of Educational Technology Leadership	645
Master of Arts in Education and Human Development in the Field of Higher Education Administration	645
Master of Arts in Education and Human Development in the Field of Experiential Jewish Education	647
Master of Arts in Education and Human Development in the Field of Interdisciplinary Secondary Transition Services	648
Master of Arts in Education and Human Development in the Field of International Education	649
Master of Arts in Education and Human Development in the Field of Language Education, Teaching World Languages K-12 Licensure Concentration	650
Master of Arts in Education and Human Development in the Field of Language Education, Teaching World Languages Non-Licensure Concentration	651

Master of Arts in Education and Human Development in the Field of Language Education, TESOL K-12 Licensure Concentration	651
Master of Arts in Education and Human Development in the Field of Language Education, TESOL Non-Licensure Concentration	652
Master of Arts in Education and Human Development in the Field of Organizational Leadership and Learning	652
Master of Arts in Education and Human Development in the Field of School Counseling	653
Master of Arts in Education and Human Development in the Field of Secondary Special Education	654
Master of Arts in Education and Human Development in the Field of Special Education for Children with Emotional and Behavioral Disabilities	654
Master of Arts in Education and Human Development in the Field of Special Education for Culturally and Linguistically Diverse Learners	655
Master of Arts in Teaching in the Field of Museum Education	656
Dual BA with a Major in English and MEd in the Field of Secondary Education with a Concentration in English	656
Dual BA with a Major in History and MEd in the Field of Secondary Education with a Concentration in Social Studies	656
Dual BA with a Major in Spanish and Latin American Languages, Literatures, and Cultures and MEd in Secondary Education with a Concentration in Foreign Language Education	657
Dual MAEd&HD in Curriculum and Instruction, Elementary Education Concentration, and Graduate Certificate in Incorporating International Perspectives in Education	657
Dual MAEd&HD in Curriculum and Instruction, Elementary Education Concentration, and Graduate Certificate in TESOL	657
Dual MAEd&HD in Curriculum and Instruction, Secondary Education Concentration, and Graduate Certificate in Incorporating International Perspectives in Education	657
Dual MAEd&HD in Curriculum and Instruction, Secondary Education Concentration, and Graduate Certificate in TESOL	658
Dual MAEd&HD in International Education and Graduate Certificate in Assessment, Testing, and Measurement	658

Dual MAEd&HD in International Education and Graduate Certificate in Incorporating International Perspectives in Education	658	Graduate Certificate in Israel Education	673
Dual MAEd&HD in the Field of International Education and Graduate Certificate in TESOL	658	Graduate Certificate in Job Development and Placement	673
Joint MAEd&HD in Higher Education Administration and Juris Doctor	659	Graduate Certificate in Leadership Development ...	674
Joint MAEd&HD in the Field of Education Policy Studies and Juris Doctor	659	Graduate Certificate in Literacy Education	674
Education Specialist Programs	659	Graduate Certificate in Organizational Learning and Change	674
Education Specialist in the Field of Educational Leadership and Administration	659	Graduate Certificate in Special Education for Culturally and Linguistically Diverse Learners	675
Education Specialist in the Field of Special Education	660	Graduate Certificate in STEM Master Teacher	675
Doctoral Programs	660	Graduate Certificate in Teaching English to Speakers of Other Languages	676
Doctor of Education in the Field of Curriculum and Instruction	660	Graduate Certificate in Teaching Strategies and Classroom Management for Jewish Studies Educators	676
Doctor of Education in the Field of Educational Leadership and Administration	661	Graduate Certificate in Transition Special Education	677
Doctor of Education in the Field of Higher Education Administration	662	Post-Master's Certificate in Advanced Practice of Education Policy	677
Doctor of Education in the Field of Human and Organizational Learning	663	Post-Master's Certificate in Counseling	677
Doctor of Education in the Field of Special Education	665	Post-Master's Certificate in Educational Leadership and Administration	678
Doctor of Philosophy in Education	666	School of Engineering and Applied Science	679
Doctor of Philosophy in the Field of Counseling	667	Departments	691
Certificate Programs	668	Biomedical Engineering	692
Graduate Certificate in Assessment, Testing, and Measurement in Education	668	Civil and Environmental Engineering	696
Graduate Certificate in Autism Spectrum Disorders	669	Computer Science	704
Graduate Certificate in Brain Injury: Educational and Transition Services	669	Electrical and Computer Engineering	717
Graduate Certificate in Counseling and Life Transitions	670	Engineering Management and Systems Engineering	730
Graduate Certificate in Design and Assessment of Adult Learning	670	Mechanical and Aerospace Engineering	731
Graduate Certificate in Educational Technology Leadership	671	Undergraduate Programs	738
Graduate Certificate in Global Leadership in Teams and Organizations	671	Bachelor of Arts with a Major in Applied Science and Technology	738
Graduate Certificate in Incorporating International Perspectives in Education	672	Bachelor of Arts with a Major in Computer Science	740
Graduate Certificate in Instructional Design	672	Bachelor of Science with a Major in Biomedical Engineering	743
		Bachelor of Science with a Major in Civil Engineering	744
		Bachelor of Science with a Major in Civil Engineering, Environmental Engineering Option	747

Bachelor of Science with a Major in Civil Engineering, Medical Preparation Option	749	Dual Bachelor of Science with a major in Biomedical Engineering and Master of Science in the field of Biomedical Engineering	777
Bachelor of Science with a Major in Civil Engineering, Transportation and Sustainability Engineering Option	751	Dual Bachelor of Science with a Major in Biomedical Engineering and Master of Science in the Field of Computer Science	777
Bachelor of Science with a Major in Computer Engineering	753	Dual Bachelor of Science with a Major in Civil Engineering and Master of Science in the Field of Environmental Engineering	777
Bachelor of Science with a Major in Computer Science	755	Dual Bachelor of Science with a Major in Civil Engineering and Master of Science in the Field of Structural Engineering	777
Bachelor of Science with a Major in Electrical Engineering	759	Dual Bachelor of Science with a Major in Civil Engineering and Master of Science in the Field of Transportation Engineering	779
Bachelor of Science with a Major in Electrical Engineering, Energy Option	760	Dual Bachelor of Science with a Major in Computer Engineering and Master of Science in the Field of Computer Engineering	781
Bachelor of Science with a Major in Electrical Engineering, Medical Preparation Option	762	Dual Bachelor of Science with a Major in Computer Engineering and Master of Science in the Field of Electrical Engineering	781
Bachelor of Science with a Major in Mechanical Engineering	764	Dual Bachelor of Science with a Major in Computer Engineering and Master of Science in the Field of Telecommunications Engineering	782
Bachelor of Science with a Major in Mechanical Engineering, Aerospace Option	765	Dual Bachelor of Science with a Major in Computer Science and Master of Science in the Field of Computer Science	782
Bachelor of Science with a Major in Mechanical Engineering, Biomechanical Option	767	Dual Bachelor of Science with a Major in Computer Science and Master of Science in the field of Cybersecurity in Computer Science	782
Bachelor of Science with a Major in Mechanical Engineering, Medical Preparation Option	768	Dual Bachelor of Science with a Major in Electrical Engineering and Master of Science in the Field of Computer Engineering	782
Bachelor of Science with a Major in Mechanical Engineering, Patent Law Option	770	Dual Bachelor of Science with a Major in Electrical Engineering and Master of Science in the Field of Electrical Engineering	782
Bachelor of Science with a Major in Mechanical Engineering, Robotics Option	771	Dual Bachelor of Science with a Major in Mechanical Engineering and Master of Science in the Field of Mechanical Engineering	783
Bachelor of Science with a Major in Systems Engineering	773	Dual Bachelor of Science with a Major in Electrical Engineering and Master of Science in the Field of Telecommunications Engineering	784
Dual Bachelor of Arts with a Major in Applied Science and Technology and Master of Science in the Field of Computer Science	775	Dual SEAS Bachelor of Science and Master of Science in the Field of Computer Science	784
Dual Bachelor of Arts with a Major in Applied Science and Technology and Master of Science in the Field of Cybersecurity in Computer Science	776	Dual SEAS Bachelor of Science and Master of Science in the Field of Cybersecurity in Computer Science	785
Dual Bachelor of Arts with a Major in Applied Science and Technology and Master of Science in the Field of Data Analytics	776	Dual SEAS Bachelor of Science and Master of Science in the Field of Data Analytics	785
Dual Bachelor of Arts with a Major in Computer Science and Master of Science in the Field of Computer Science	776	Minor in Biomedical Engineering	786
Dual Bachelor of Arts with a Major in Computer Science and Master of Science in the Field of Cybersecurity in Computer Science	776		
Dual Bachelor of Science with a Major in Biomedical Engineering and Master of Engineering in the Field of Regulatory Biomedical Engineering	777		

Minor in Computer Engineering	786	Doctor of Philosophy in the Field of Computer Engineering	810
Minor in Electrical Engineering	787	Doctor of Philosophy in the Field of Computer Science	811
Minor in Mechanical Engineering	787	Doctor of Philosophy in the Field of Electrical Engineering	813
Minor in Operations Research	788	Doctor of Philosophy in the Field of Engineering Management	814
Minor in Systems Engineering	788	Doctor of Philosophy in the Field of Mechanical and Aerospace Engineering	816
Minor in Computer Science	788	Doctor of Philosophy in the Field of Systems Engineering	818
Master's Programs	789	Certificate Programs	820
Master of Engineering in the Field of Cloud Computing Management	789	Gateway to Computer Science Graduate Certificate	820
Master of Engineering in the Field of Construction Engineering	790	Graduate Certificate in Computer-Integrated Design in Mechanical and Aerospace Engineering	820
Master of Engineering in the Field of Cybersecurity Policy and Compliance	790	Graduate Certificate in Computer Security and Information Assurance	821
Master of Engineering in the Field of Cybersecurity Analytics	791	Graduate Certificate in Emergency Management and Public Health	821
Master of Engineering in the Field of Regulatory Biomedical Engineering	791	Graduate Certificate in Energy Engineering and Management	822
Master of Science in the Field of Biomedical Engineering	792	Graduate Certificate in Engineering and Technology Management	822
Master of Science in the Field of Civil and Environmental Engineering	793	Graduate Certificate in Environmental Engineering	823
Master of Science in the Field of Computer Engineering	794	Graduate Certificate in Environmental and Energy Systems Management	824
Master of Science in the Field of Computer Science	795	Graduate Certificate in Geoenvironmental Engineering	824
Master of Science in the Field of Cybersecurity in Computer Science	796	Graduate Certificate in High-Performance Computing	825
Master of Science in the Field of Data Analytics	798	Graduate Certificate in Homeland Security, Emergency Preparedness, and Response	826
Master of Science in the Field of Electrical Engineering	799	Graduate Certificate in Structural Engineering	826
Master of Science in the Field of Engineering Management	802	Graduate Certificate in Systems Engineering	827
Master of Science in the Field of Mechanical and Aerospace Engineering	804	Graduate Certificate in Systems Management	827
Master of Science in the Field of Systems Engineering	805	Graduate Certificate in Transportation Engineering	828
Master of Science in the Field of Telecommunications Engineering	807	Elliott School of International Affairs	830
Doctoral Programs	807	Undergraduate Programs	840
Doctor of Engineering in the Field of Engineering Management	807	Bachelor of Arts with a Major in Asian Studies	841
Doctor of Philosophy in the Field of Biomedical Engineering	808	Bachelor of Arts with a Major in International Affairs	853
Doctor of Philosophy in the Field of Civil and Environmental Engineering	809		

Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Africa Concentration	868	Dual Bachelor of Science in International Affairs and Master in Management	938
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Asia Concentration	869	Dual Bachelor of Science in International Affairs and Master of Science in Business Analytics	938
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Comparative Political, Economic, and Social Systems Concentration ...	871	Minor in International Affairs	938
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Conflict Resolution Concentration	873	Graduate Programs	943
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Contemporary Cultures and Societies Concentration	876	Master of Arts in the Field of Asian Studies	943
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Europe and Eurasia Concentration	878	Master of Arts in the Field of European and Eurasian Studies	952
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Global Public Health Concentration	879	Master of Arts in the Field of Global Communication	960
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, International Development Concentration	880	Master of Arts in the Field of International Affairs	970
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, International Economics Concentration	883	Master of Arts in the Field of International Affairs, Africa Concentration	972
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, International Environmental Studies Concentration	885	Master of Arts in the Field of International Affairs, Asia Concentration	973
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, International Politics Concentration	886	Master of Arts in the Field of International Affairs, Conflict and Conflict Resolution Concentration	974
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Latin America Concentration	890	Master of Arts in the Field of International Affairs, Europe, Eurasia, and Russia Concentration	974
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Middle East Concentration	891	Master of Arts in the field of International Affairs, Global Energy and Environmental Policy Concentration	975
Bachelor of Arts or Bachelor of Science with a Major in International Affairs, Security Policy Concentration	892	Master of Arts in the Field of International Affairs, Global Gender Policy Concentration	975
Bachelor of Arts with a Major in Latin American and Hemispheric Studies	895	Master of Arts in the Field of International Affairs, Global Health Concentration	976
Bachelor of Arts with a Major in Middle East Studies	907	Master of Arts in the Field of International Affairs, International Affairs and Development Concentration	977
Bachelor of Science with a Major in International Affairs	919	Master of Arts in the Field of International Affairs, International Economic Affairs Concentration	979
Dual Bachelor of Science in International Affairs and Master of Science in Information Systems Technology	938	Master of Arts in the Field of International Affairs, International Law and Organizations Concentration	980
		Master of Arts in the Field of International Affairs, International Security Studies Concentration	981
		Master of Arts in the Field of International Affairs, Latin America Concentration	983
		Master of Arts in the Field of International Affairs, Middle East Concentration	984
		Master of Arts in the Field of International Affairs, Nuclear Policy Concentration	984
		Master of Arts in the Field of International Affairs, Technology and International Affairs Concentration	984

Master of Arts in the Field of International Affairs, U.S. Foreign Policy Concentration	985
Master of Arts in the Field of International Development Studies	986
Master of Arts in the Field of International Economic Policy	999
Master of Arts in the Field of International Economic Policy, STEM Track	1000
Master of Arts in the Field of International Science and Technology Policy	1001
Master of Arts in the Field of International Trade and Investment Policy	1004
Master of Arts in the Field of Latin American and Hemispheric Studies	1006
Master of Arts in the Field of Middle East Studies ..	1012
Africa Specialization	1014
Asia Specialization	1015
Conflict and Conflict Resolution Specialization	1015
Europe, Eurasia, and Russia Specialization	1016
Global Energy and Environmental Policy Specialization	1016
Global Gender Policy Specialization	1017
Global Health Specialization	1018
International Affairs and Development Specialization	1019
International Economic Affairs Specialization ..	1021
International Law and Organizations Specialization	1022
International Security Studies Specialization	1022
Latin America Specialization	1025
Middle East Specialization	1025
Nuclear Policy Specialization	1026
Technology and International Affairs Specialization	1026
U.S. Foreign Policy Specialization	1026
Master of Arts in the Field of Security Policy Studies	1027
Master of International Policy and Practice	1032
Master of International Policy and Practice-Online	1033
Master of International Studies	1034
Dual Master of Arts in any Elliott School Program and Master of Public Health	1036

Joint Master of Arts in the Elliott School and Juris Doctor Degree	1036
Joint Master of Arts in the Elliott School and Master of Business Administration	1037
Certificate Programs	1037
Graduate Certificate in Global Gender Policy	1037
Graduate Certificate in International Science and Technology Policy	1038
Graduate Certificate in Nuclear Policy	1039
School of Medicine and Health Sciences	1041
Undergraduate Programs	1054
Bachelor of Science in Health Sciences with a Major in Bioinformatics	1054
Bachelor of Science in Health Sciences with a Major in Biomedical Informatics	1055
Bachelor of Science in Health Sciences with a Major in Clinical Embryology and Assisted Reproductive Technology	1056
Bachelor of Science in Health Sciences with a Major in Clinical Health Sciences	1057
Bachelor of Science in Health Sciences with a Major in Clinical Operations and Health Care Management	1059
Bachelor of Science in Health Sciences with a Major in Clinical Research Administration	1060
Bachelor of Science in Health Sciences with a Major in Emergency Medical Services Management	1061
Bachelor of Science in Health Sciences with a Major in Global Leadership in Disaster Response	1062
Bachelor of Science in Health Sciences with a Major in Leadership for Emergency Action and Disaster Response	1063
Bachelor of Science in Health Sciences with a Major in Medical Laboratory Science	1064
Bachelor of Science in Health Sciences with a Major in Molecular Diagnostic Sciences	1066
Dual Bachelor of Science in Health Sciences with a Major in Clinical Operations and Healthcare Management and Master of Science in Health Sciences in the Field of Health Care Quality	1067
Dual Bachelor of Science in Health Sciences in Clinical Research Administration and Master of Science in Health Sciences in Biomedical Informatics	1068
Dual Bachelor of Science in Health Sciences with a Major in Clinical Research Administration and Master of Science in Health Sciences in the Field of Clinical Research Administration	1068

Dual Bachelor of Science in Health Sciences in Clinical Research Administration and Master of Science in Health Sciences in Clinical and Translational Research	1068	Master of Science in Health Sciences in the Field of Regulatory Affairs	1078
Dual Bachelor of Science in Health Sciences in Clinical Research Administration and Master of Science in Health Sciences in Regulatory Affairs	1068	Master of Science in Health Sciences in the Field of Physician Assistant	1079
Dual Bachelor of Science in Health Sciences with a Major in Medical Laboratory Sciences and Master of Science in Health Sciences in the Field of Molecular Diagnostic Sciences	1068	Master of Science in Health Sciences in the Field of Translational Microbiology	1080
Dual Bachelor of Science in Health Sciences in Molecular Diagnostic Sciences and Master of Science in Health Sciences in Clinical Microbiology	1069	Joint Master of Science in Health Sciences in the Field of Physician Assistant and Master of Public Health	1081
Minor in Anatomy	1069	Doctoral Programs	1088
Minor in Blood Banking for Medical Laboratory Science	1069	Doctor of Health Sciences in the Field of Leadership in Clinical Practice and Education	1088
Minor in Emergency Health Services	1069	Doctor of Philosophy in the Field of Translational Health Sciences	1089
Master's Programs	1070	Doctor of Physical Therapy	1090
Master of Science in Health Sciences in the Field of Biomedical Informatics	1070	Advanced Practice Clinical Doctorate in Occupational Therapy	1092
Master of Science in Health Sciences in the Field of Clinical Microbiology	1071	Certificate Programs	1092
Master of Science in Health Science in the Field of Clinical Operations and Healthcare Management	1071	Graduate Certificate in Biomedical Informatics	1092
Master of Science in Health Sciences in the Field of Clinical Research Administration	1072	Graduate Certificate in Clinical Operations and Healthcare Management	1093
Master of Science in Health Sciences in the Field of Clinical and Translational Research	1073	Graduate Certificate in Clinical Research Administration	1093
Master of Science in Health Sciences in the Field of Correctional Health Administration	1074	Graduate Certificate in Clinical and Translational Research	1094
Master of Science in Health Sciences in the Field of Health Care Quality	1074	Graduate Certificate in Clinical Research Practice	1094
Master of Science in Health Sciences in the Field of Immunohematology	1075	Graduate Certificate in Correctional Health Administration	1095
Master of Science in Health Sciences in the Field of Immunohematology and Biotechnology	1075	Graduate Certificate in Health Care Quality	1095
Master of Science in Health Sciences in the Field of Integrative Medicine	1076	Graduate Certificate in Health Sciences	1096
Master of Science in Health Sciences in the Field of Laboratory Medicine	1077	Graduate Certificate in Health Services and Outcome Research	1096
Master of Science in Health Sciences in the Field of Medical Laboratory Science	1077	Graduate Certificate in Integrative Medicine	1096
Master of Science in Health Sciences in the Field of Molecular Diagnostic Science	1078	Graduate Certificate in Regulatory Affairs	1097
		Post-baccalaureate Certificate in Blood Banking for Medical Laboratory Science	1097
		Post-baccalaureate Certificate in Chemistry for Medical Laboratory Science	1098
		Post-baccalaureate Certificate in Clinical Microbiology	1098
		Post-baccalaureate Certificate in Hematology for Medical Laboratory Science	1099
		Post-baccalaureate Certificate in Medical Laboratory Science	1099
		Post-baccalaureate Certificate in Microbiology for Medical Laboratory Science	1099

Post-baccalaureate Certificate in Molecular Diagnostic Sciences	1100	Post-Master's Certificate in Family Nurse Practitioner	1138
Post-baccalaureate Certificate in Pre-Medicine	1101	Post-Master's Certificate in Psychiatric Mental Health Nurse Practitioner	1138
School of Nursing	1102	College of Professional Studies	1140
Undergraduate Programs	1124	Undergraduate Programs	1143
Bachelor of Science in Nursing	1124	Bachelor of Professional Studies with a Major in Cybersecurity	1143
Registered Nurse to Bachelor of Science in Nursing	1125	Bachelor of Professional Studies with a Major in Homeland Security	1144
Master's Programs	1127	Bachelor of Professional Studies with a Major in Information Technology	1145
Master of Science in Nursing in the Field of Adult-Gerontology Acute Care Nurse Practitioner	1127	Dual Bachelor of Arts with a Major in Political Communication and Master of Professional Studies in the Field of Political Management	1146
Master of Science in Nursing in the Field of Adult-Gerontology Primary Care Nurse Practitioner	1127	Dual Bachelor of Arts in Political Science and Master of Professional Studies in Legislative Affairs	1146
Master of Science in Nursing in the Field of Family Nurse Practitioner	1128	Dual Bachelor of Arts in Political Science and Master of Professional Studies in Political Management	1146
Master of Science in Nursing in the Field of Nurse-Midwifery	1129	Dual Bachelor of Professional Studies with a Major in Information Technology and Master of Science in the Field of Information Systems Technology	1146
Master of Science in Nursing in the Field of Nursing Leadership and Management	1129	Graduate Programs	1146
Master of Science in Nursing in the Field of Psychiatric Mental Health Nurse Practitioner	1130	Master of Professional Studies in the Field of Cybersecurity Strategy and Information Management	1147
Doctoral Programs	1131	Master of Professional Studies in the Field of Homeland Security	1150
Doctor of Nursing Practice in the Field of Adult-Gerontology Acute Care Nurse Practitioner	1131	Master of Professional Studies in the Field of Law Firm Management	1153
Doctor of Nursing Practice in the Field of Adult-Gerontology Primary Care Nurse Practitioner	1132	Master of Professional Studies in the Field of Law Firm Management	1153
Doctor of Nursing Practice in the Field of Executive Leadership	1133	Master of Professional Studies in the Field of Paralegal Studies	1155
Doctor of Nursing Practice in the Field of Family Nurse Practitioner	1133	Master of Professional Studies in the Field of Publishing	1157
Doctor of Nursing Practice in the Field of Health Policy	1134	Master of Professional Studies in the Field of Sustainable Urban Planning	1159
Doctor of Nursing Practice in the Field of Nursing Practice	1134	Certificate Programs	1162
Doctor of Nursing Practice in the Field of Psychiatric Mental Health Nurse Practitioner	1135	Graduate Certificate in California Paralegal Studies	1162
Doctor of Philosophy in the Field of Nursing	1136	Graduate Certificate in Health Care Corporate Compliance	1163
Certificate Programs	1137	Graduate Certificate in Paralegal Studies	1163
Graduate Certificate in Health Policy and Media Engagement	1137	Graduate Certificate in Sustainable Urban Planning	1163
Post-Master's Certificate in Adult-Gerontology Acute Care Nurse Practitioner	1137		
Post-Master's Certificate in Adult-Gerontology Primary Care Nurse Practitioner	1138		

Graduate School of Political Management	1164	Dual BS in Nutrition Science and MPH in Public Health Nutrition	1327
Master of Professional Studies in the Field of Legislative Affairs	1164	Dual BS with a Major in Public Health and Master of Public Health	1327
Master of Professional Studies in the Field of Political Management	1167	Minor in Bioinformatics	1327
Master of Professional Studies in the Field of Political Communication and Governance (offered in Spanish only)	1172	Minor in Exercise Science	1328
Master of Professional Studies in the Field of Strategic Public Relations	1173	Minor in Nutrition Science	1328
Graduate Certificate in Community Advocacy	1174	Minor in Public Health	1329
Graduate Certificate in Digital Communications ...	1175	Master's Programs	1329
Graduate Certificate in Digital Politics	1175	Health Services Administration Specialist	1330
Graduate Certificate in Global Public Relations	1176	Master of Health Administration	1331
Graduate Certificate in PACs and Political Management	1176	Master of Health Administration (MHA@GWU)	1333
Graduate Certificate in Public Relations	1176	Master of Public Health in the Field of Biostatistics	1334
Milken Institute School of Public Health	1178	Master of Public Health in the Field of Community Oriented Primary Care	1335
Departments	1185	Master of Public Health in the Field of Environmental Health Science and Policy	1336
Biostatistics and Bioinformatics	1185	Master of Public Health in the Field of Epidemiology	1338
Environmental and Occupational Health	1208	Master of Public Health in the Field of Global Environmental Health	1339
Epidemiology	1231	Master of Public Health in the Field of Global Health Policy	1341
Exercise and Nutrition Sciences	1255	Master of Public Health in the Field of Global Health Program Design, Monitoring, and Evaluation	1343
Global Health	1256	Master of Public Health in the Field of Global Health Epidemiology and Disease Control	1344
Health Policy and Management	1279	Master of Public Health in the Field of Health Policy	1346
Prevention and Community Health	1280	Master of Public Health in the Field of Health Promotion	1347
Undergraduate Programs	1304	Master of Public Health in the Field of Humanitarian Health	1349
Bachelor of Science with a Major in Exercise Science	1304	Master of Public Health in the Field of Maternal and Child Health	1350
Bachelor of Science with a Major in Exercise Science, Pre-Athletic Training/Sports Medicine Concentration	1307	Master of Public Health in the Field of Physical Activity in Public Health	1351
Bachelor of Science with a Major in Exercise Science, Pre-medical Professions Concentration	1310	Master of Public Health in the Field of Public Health Communication and Marketing	1353
Bachelor of Science with a Major in Exercise Science, Pre-Physical Therapy Concentration	1313	Master of Public Health in the Field of Public Health Nutrition	1355
Bachelor of Science with a Major in Nutrition Science	1316	Master of Public Health: MPH@GW	1357
Bachelor of Science with a Major in Nutrition Science, Pre-Medical Professions Concentration	1319	Master of Science in the Field of Biostatistics	1358
Bachelor of Science with a Major in Public Health .	1322		
Bachelor of Science with a Major in Public Health, Pre-Medical Professions Concentration	1324		

Master of Science in the Field of Epidemiology	1360	Courses A-Z Index	1394
Master of Science in the Field of Exercise Science with a Concentration in Strength and Conditioning	1361	Academy for Classical Acting (ACA)	1396
Master of Science in the Field of Public Health Microbiology and Emerging Infectious Diseases ...	1362	Accountancy (ACCY)	1398
Master of Science in the Field of Management of Health Informatics and Analytics	1364	Africana Studies (AFST)	1400
Dual Master of Public Health and Doctor of Medicine	1364	American Studies (AMST)	1400
Dual Master of Health Administration and Graduate Certificate in Health Care Corporate Compliance .	1365	Anatomy and Cell Biology (ANAT)	1407
Dual Master of Public Health in the Field of Health Policy and Graduate Certificate in Health Care Corporate Compliance	1366	Anthropology (ANTH)	1409
Joint Master of Science in Health Sciences in the Field of Physician Assistant and Master of Public Health	1366	Applied Science (APSC)	1417
Joint Master of Public Health or SPH Graduate Certificate and Juris Doctor or Master of Laws	1374	Arabic (ARAB)	1418
Doctoral Programs	1375	Art History (AH)	1419
Doctor of Philosophy in the Field of Biostatistics ...	1375	Art Therapy (ARTH)	1426
Doctor of Philosophy in the Field of Environmental Health	1378	Astronomy (ASTR)	1428
Doctor of Philosophy in the Field of Epidemiology	1379	Biochemistry (BIOC)	1429
Doctor of Philosophy in the Field of Exercise Physiology and Applied Nutrition	1381	Biological Sciences (BISC)	1431
Doctor of Philosophy in the Field of Health Policy .	1382	Biomedical Engineering (BME)	1438
Doctor of Philosophy in the Field of Social and Behavioral Sciences in Public Health	1383	Biomedical Sciences (BMSC)	1442
Doctor of Public Health in the Field of Environmental and Occupational Health	1384	Biostatistics (BIOS)	1443
Doctor of Public Health in the Field of Global Health	1386	Business Administration (BADM)	1443
Doctor of Public Health in the Field of Health Behavior	1387	Cancer Biology (CANC)	1444
Doctor of Public Health in the Field of Health Policy	1388	Capital Markets (CAMA)	1445
Certificate Programs	1390	Chemistry (CHEM)	1445
Graduate Certificate in Health Administration Generalist	1390	Chinese (CHIN)	1450
Graduate Certificate in Health Policy	1391	Civil Engineering (CE)	1454
Graduate Certificate in Long-Term Care	1392	Classical Studies (CLAS)	1461
Graduate Certificate in Public Health	1392	Clinical Embryology and Reproductive Technology (CERT)	1462
Dual Doctor of Medicine and Graduate Certificate in Public Health	1393	Clinical Management and Leadership (CML)	1463
		Clinical Operations and Healthcare Management (COHM)	1465
		Clinical Research Administration (CRA)	1466

ACADEMIC CALENDAR 2020-2021

Dates are subject to change. Updates can be found on the University website (<https://www.gwu.edu/academic-calendar/>) for the fall and spring semesters and Summer and Non-Degree Programs website (<https://summer.gwu.edu/summer-academic-calendar/>) for summer sessions.

Fall Semester 2020

Classes begin	Monday, August 31
Labor Day (no classes)	Monday, September 7
Fall break (no classes)	Friday, October 9
Thanksgiving break (no classes)	Wednesday, November 25–Saturday, November 28
Designated Friday	Tuesday, December 8
Last day of classes	Saturday, December 12
Final examinations	Monday, December 14–Tuesday, December 22

Spring Semester 2021

Classes begin	Monday, January 11
Martin Luther King Day (no classes)	Monday, January 18
Inauguration Day (no classes)	Wednesday, January 20
President's Day (no classes)	Monday, February 15
Spring break (no classes)	Monday, March 15–Saturday, March 20
Last day of classes	Monday, April 26
Make-up/reading day	Tuesday, April 27
Designated Monday	Wednesday, April 28
Make-up/reading days	Thursday, April 29–Friday, April 30
Final examinations	Monday, May 3–Tuesday, May 11
Commencement weekend	Thursday, May 13–Sunday, May 16
Spring degree conferral	Sunday, May 16

Summer Session 2021—dates to be announced

ABOUT THE UNIVERSITY

George Washington was determined to have a great national university in the nation's capital. His hope was that students from all parts of the country would gain a first-hand knowledge of the practice as well as the theory of republican government while being instructed in the arts and sciences. He bequeathed 50 shares of The Potomac Company "towards the endowment of a University to be established within the limits of the District of Columbia, under the auspices of the General Government, if that government should incline to extend a fostering hand towards it." Despite Washington's intentions, The Potomac Company folded and Congress never extended a "fostering hand," so the University did not take shape until a group of Baptist clergymen led by Reverend Luther Rice took up the cause. They raised funds for the purchase of a site and petitioned Congress for a charter. Congress insisted on giving the institution a nonsectarian charter stating "That persons of every religious denomination shall be capable of being elected Trustees; nor shall any person, either as President, Professor, Tutor, or pupil, be refused admittance into said College, or denied any of the privileges, immunities, or advantages thereof, for or on account of his sentiments in matters of religion."

Columbian College, as it was originally named, took up residence on College Hill, a 46-acre tract between the present 14th and 15th Streets extending from Florida Avenue to Columbia Road. The name of the institution was changed in 1873 to Columbian University and in 1904 to The George Washington University.

In 1912, the University purchased 2023 G Street and rented 2024 Street, NW, establishing what would become its Foggy Bottom campus. Today, more than 100 buildings are situated on 43 acres in the heart of Washington, DC, bordered by the White House, John F. Kennedy Center for the Performing Arts, State Department, and World Bank, as well as numerous federal agencies and national galleries and museums.

GW's Virginia Science and Technology Campus (<http://virginia.gwu.edu/>), initiated for graduate studies, research projects, and professional development programs, is located along the high-tech corridor on Route 7, just to the west of Route 28, in Loudoun County. In 1998, GW established The George Washington University at Mount Vernon College; the Mount Vernon Campus (<http://www.gwu.edu/mount-vernon-campus/>) is on Foxhall Road in Northwest Washington.

The University's enrollments total approximately 27,800 students, of which about 12,000 are undergraduate students, 15,220 are graduate and professional students, and 580 are non-degree students. GW students come from all 50 states, Washington, DC, Guam, Puerto Rico, Virgin Islands, and 139 countries.

MISSION

Mission Statement

The mission of the George Washington University is to educate individuals in liberal arts, languages, sciences, learned professions, and other courses and subjects of study, and to conduct scholarly research and publish the findings of such research.

ACCREDITATION

Accreditation

The George Washington University is accredited by its institutional accrediting agency, the Middle States Commission on Higher Education (<http://www.msche.org/>).

Columbian College of Arts and Sciences

In Columbian College of Arts and Sciences (<http://columbian.gwu.edu/>), the bachelor and master of fine arts degree programs in interior architecture are accredited by the Council for Interior Design Accreditation (<http://accredit-id.org/>). The Department of Chemistry is on the approved list of the American Chemical Society. (<http://www.acs.org/>) The doctor of philosophy program in clinical psychology in the Department of Psychological and Brain Sciences and the doctor of professional psychology degree program in clinical psychology in the Department of Professional Psychology are accredited by the American Psychological Association (<http://www.apa.org/>). The master of arts degree program in speech-language pathology is accredited by the Education and Training Board of the Boards of Examiners in Speech-Language Pathology and Audiology (<http://www.ncsb.info/>). The master in public administration and the master of public policy degree programs are on the approved list of the National Association of Schools of Public Affairs and Administration (<http://www.naspaa.org/>). The master of forensic science degree programs in forensic chemistry and forensic molecular biology degree programs are accredited by the Forensic Science Education Programs Accreditation Commission (<http://www.fepac-edu.org/>). The art therapy program is accredited by the American Art Therapy Association (<http://arttherapy.org/>). The Corcoran School of the Arts and Design (<https://corcoran.gwu.edu/>) is accredited by the National Association of Schools of Art and Design. (<https://nasad.arts-accredit.org/>)

School of Business

The School of Business (<http://business.gwu.edu/>) is a member of The Association to Advance Collegiate Schools of Business (<http://www.aacsb.edu/>) (AACSB International). AACSB International accredits the school's undergraduate and graduate business administration and accountancy degree programs. The programs in accountancy satisfy the educational requirements for the certified public accountant and the certified management accountant professional examinations.

Graduate School of Education and Human Development

The Graduate School of Education and Human Development (<http://gsehd.gwu.edu/>) is a charter member of the American Association of Colleges for Teacher Education (<http://aacte.org/>) and is accredited under the Council for the Accreditation of Educator Preparation (<http://www.ncate.org/>) as a National Council for the Accreditation of Teacher Education legacy program and the District of Columbia State Education Agency, Office of the State Superintendent of Education (<http://osse.dc.gov/>), for its eligible undergraduate, master's, specialist, and doctoral degree programs. The master's programs in school counseling, clinical mental health counseling, and rehabilitation counseling and the doctoral program in counseling are accredited by the Council for Accreditation of Counseling and Related Educational Programs (<http://www.cacrep.org/>).

School of Engineering and Applied Science

In the School of Engineering and Applied Science (<http://www.seas.gwu.edu/>), the bachelor of science degree programs in civil, mechanical, biomedical, systems, electrical, and computer engineering are accredited by the Engineering Accreditation Commission of ABET, Inc (<http://www.abet.org/>). The bachelor of science in computer science degree program is accredited by the Computing Accreditation Commission of ABET, Inc (<http://www.abet.org/>).

Elliott School of International Affairs

The Elliott School of International Affairs (<http://elliott.gwu.edu/>) is a member of the Association of Professional Schools of International Affairs (<http://www.apsia.org/>).

Law School

The Law School (<http://www.law.gwu.edu/>) is a charter member of the Association of American Law Schools (<http://www.aals.org/>) and is approved by the Section of Legal Education and Admissions to the Bar of the American Bar Association (https://www.americanbar.org/groups/legal_education/).

School of Medicine and Health Sciences

The School of Medicine and Health Sciences (<http://smhs.gwu.edu/>) has had continuous approval by its accrediting body, which is currently the Liaison Committee on Medical Education (<http://www.lcme.org/>), sponsored jointly by the American Medical Association (<http://www.ama-assn.org/>) and the Association of American Medical Colleges (<https://www.aamc.org/>). The bachelor of science in health sciences in the field of medical laboratory sciences, all post-baccalaureate certificates in medical laboratory sciences, and the master of science in health sciences in laboratory medicine are accredited by the National Accrediting Agency for Clinical Laboratory Science (<http://www.nacls.org/>). The master's degree program in physician assistant is accredited by the Accreditation Review Commission on Education for the

Physician Assistant (<http://www.arc-pa.org/about/>). The doctor of physical therapy program is accredited by the Commission on the Accreditation of Physical Therapist Education (<http://www.captconline.org/>) of the American Physical Therapy Association.

School of Nursing

In the School of Nursing (<https://nursing.gwu.edu/>), the bachelor of science and master of science in nursing and the doctor of nursing practice degree programs are accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation/>). The bachelor of science in nursing is approved by the Virginia Board of Nursing (<http://www.dhp.virginia.gov/nursing/>). The master of science and the doctor of nursing practice degree programs are approved by the Washington, DC, Board of Nursing (<http://doh.dc.gov/service/board-nursing/>).

College of Professional Studies

The master of professional studies in sustainable urban planning degree program in the College of Professional Studies (<https://cps.gwu.edu/>) is accredited by the Planning Accreditation Board (<https://www.planningaccreditationboard.org/?id=30>).

Milken Institute School of Public Health

The public health programs of the Milken Institute School of Public Health (<https://publichealth.gwu.edu/>) (SPH) are fully accredited by the Council on Education for Public Health (<https://ceph.org/>). In 2016, the Milken Institute SPH was awarded a seven-year accreditation through July 1, 2023. The program in health administration is fully accredited by the Commission on Accreditation of Healthcare Management Education (<https://www.cahme.org/>). The Milken Institute SPH is a member of the Association of Schools and Programs of Public Health (<https://www.aspph.org/>).

BOARD OF TRUSTEES

Board of Trustees

The University is privately endowed and is governed by a Board of Trustees of which the President of the University is an *ex officio* member.

Grace E. Speights, *Chair*
Ellen M. Zane, *Vice Chair*
Avram Tucker, *Secretary*

Christine Piorkowski Barth, *Trustee, Peabody School*
Charles R. Bendit, *Co-Chief Executive Officer, Taconic Partners*
Mollie Bowman, *Management Consultant, Deloitte*
Roslyn Brock, *Chief Advocacy Officer, Bon Secours Mercy Health System*
Mark Chichester, *Co-founder, Atlas Research, LLC and Vice Chair, Atlas Research Board of Directors*
Amr A. ElSawy, *President and Chief Executive Officer, Noblis, Inc.*

Peter Harrison, *Managing Partner, Sanderhill Capital*
Donna Hill Staton, *Co-founder and Principal, Decision Point Strategy Group, LLC and Staton & Nolan, LLC d.b.a. Decision Point Law*

A. Michael Hoffman, *Co-founder and Chairman, Palamon Capital Partners*

Madeleine Jacobs, *President, Strategic Science*

Todd Klein, *Partner, Revolution Growth*

Ali Kolaghassi, *President and Chairman, Kolaghassi International Holdings/Guernsey-U.K.; Chairman, Kolaghassi Capital/Dubai-U.A.E.; and Chairman, Ossia/Seattle U.S.A.*

Thomas J. LeBlanc, *President of the George Washington University*

Chelsea Lenhart, *U.S. Department of Justice*

Judith Lane Rogers, *Former Principal, Anne Bradstreet Early Childhood Center*

Grace Speights, *Partner, Morgan Lewis Labor and Employment Practice*

Avram Tucker, *Chief Executive Officer and Co-founder, TM Financial Forensics, LLC*

George W. Welde, Jr., *Former Vice Chairman of the Securities Division, Goldman Sachs & Co., LLC*

Ellen M. Zane, *Chief Executive Officer Emeritus and Vice Chairman, Board of Trustees, Tufts Medical Center*

OFFICERS OF ADMINISTRATION

Officers of Administration

The University

Thomas J. LeBlanc, *President*

M. Brian Blake, *Provost and Executive Vice President for Academic Affairs*

Mark Diaz, *Executive Vice President and Chief Financial Officer*

Beth Nolan, *Senior Vice President and General Counsel*

Deans of the Schools

Columbian College of Arts and Sciences—Paul Wahlbeck

School of Business—Anuj Mehrotra

Graduate School of Education and Human Development—Michael J. Feuer

School of Engineering and Applied Science—John Lach

Elliott School of International Affairs—Ilana Feldman, Interim Dean

Law School—Dayna Bowen Matthew, Dean

School of Medicine and Health Sciences—Barbara L. Bass

School of Nursing—Pamela R. Jeffries

College of Professional Studies—Christopher J. Deering, Interim Dean

Milken Institute School of Public Health—Lynn R. Goldman

DEGREES OFFERED

Degrees offered by the George Washington University

Columbian College of Arts and Sciences: Bachelor of Arts (B.A.), Bachelor of Fine Arts (B.F.A.), Bachelor of Science

(B.S.), Master of Arts (M.A.), Master of Fine Arts (M.F.A.), Master of Forensic Sciences (M.F.S.), Master of Public Administration (M.P.A.), Master of Public Policy (M.P.P.), Master of Science (M.S.), Master of Philosophy (M.Phil.), Master of Psychology (M.Psy.), Doctor of Philosophy (Ph.D.), and Doctor of Psychology (Psy.D.)

School of Medicine and Health Sciences: Bachelor of Science in Health Sciences (B.S.H.S.), Master of Science in Health Sciences (M.S.H.S.), Doctor of Health Sciences (D.HSc.), Doctor of Medicine (M.D.), Doctor of Occupational Therapy (O.T.D.), Doctor of Philosophy (Ph.D.), and Doctor of Physical Therapy (D.P.T.)

Law School: Juris Doctor (J.D.), Master of Laws (LL.M.), Master of Studies in Law (M.S.L.), and Doctor of Juridical Science (S.J.D.)

School of Engineering and Applied Science: Bachelor of Science (B.S.), Bachelor of Arts (B.A.), Master of Science (M.S.), Master of Engineering (M.Eng.), Engineer (Engr.), Applied Scientist (App.Sc.), Doctor of Engineering (D.Eng.), and Doctor of Philosophy (Ph.D.)

Graduate School of Education and Human Development: Master of Arts in Education and Human Development (M.A.Ed.&H.D.), Master of Arts in Teaching (M.A.T.), Master of Education (M.Ed.), Education Specialist (Ed.S.), Doctor of Education (Ed.D.), and Doctor of Philosophy (Ph.D.)

School of Business: Bachelor of Science in Business (B.S.), Master of Accountancy (M.Accy.), Master of Business Administration (M.B.A.), Master of Human Resource Management (M.H.R.M.), Master of Interdisciplinary Business Studies (M.I.B.S.), Master of Tourism Administration (M.T.A.), and Doctor of Philosophy (Ph.D.)

Elliott School of International Affairs: Bachelor of Arts (B.A.), Bachelor of Science (B.S.), Master of Arts (M.A.), Master of International Policy and Practice (M.I.P.P.), and Master of International Studies (M.I.S.)

Milken Institute School of Public Health: Bachelor of Science (B.S.), Master of Science (M.S.), Master of Public Health (M.P.H.), Master of Health Administration (M.H.A.), Doctor of Public Health (Dr.P.H.), and Doctor of Philosophy (Ph.D.)

College of Professional Studies: Associate in Professional Studies (A.P.S.), Bachelor of Professional Studies (B.P.S.), and Master of Professional Studies (M.P.S.)

School of Nursing: Bachelor of Science in Nursing (B.S.N.), Master of Science in Nursing (M.S.N.), Doctor of Nursing Practice (D.N.P.)

UNIVERSITY REGULATIONS

Students enrolled in the University are required to conform to the following regulations and to comply with the requirements and regulations of the school in which they are registered. Students who withdraw or are suspended, or who, for any other reason, are not registered at the University for one semester or more, may reapply and, if readmitted, continue their program only under the regulations and requirements in force at the time of return.

If a student knowingly makes a false statement or conceals material information on an application for admission or any other University document, the student's registration may be canceled. If such falsification is discovered after the student has matriculated at the University, the student may be subject to dismissal from the University. Such a student will be ineligible (except by special action of the faculty) for subsequent registration in the University.

Electronic Mail and Official University Communication

The University uses the GW e-mail address associated with your NetID to communicate academic, administrative, and emergency information to you. Other e-mail addresses cannot be used by the system that GW uses to send important notices to all users. If you do not intend to check your GW e-mail account frequently, be sure to log in to the GW e-mail system and set up e-mail forwarding to an account that you do check.

UNDERGRADUATE

Undergraduate Regulations

Registration

Information on registration procedures is stated on the Office of the Registrar's website (<http://registrar.gwu.edu/how-register/>) and in the Schedule of Classes (<http://my.gwu.edu/mod/pws/>), which is available in advance of each semester.

Registration in courses is open only to those persons formally admitted to the University by the appropriate admitting office and to continuing students in good standing. Students may not register concurrently in this University and another institution without the prior permission of the advising office of the school in which they are registered in this University. With the exception of students enrolled in a joint degree program, registration in more than one school of the University requires the written permission of the student advising offices concerned, prior to registration. Registration is not complete until all financial obligations have been met. Individuals without a valid registration may not attend class or earn any course credit.

Eligibility for Registration

Registration for the following categories of on-campus students is held on the days of registration indicated on the

Registrar's website (<https://registrar.gwu.edu/>). A student who is suspended or whose record is encumbered for any reason is not eligible to register. Registration in a given course may be denied to non-degree students by the Office of Non-Degree Students (<https://nondegree.gwu.edu/>) when space is needed for degree candidates.

New Student—Upon receipt of a letter of admission and payment of any required deposit, new students are eligible for registration on the stated days of registration. Registration for new first-year students is typically conducted on stated days as part of the New Student Orientation program (<https://students.gwu.edu/new-student-orientation/>).

Readmitted Student—A student previously registered in the University who was not registered for courses or continuous enrollment, or on an approved leave of absence, during the preceding semester must apply for and be granted readmission by the appropriate admitting office before being eligible for registration.

Continuing Student—A student registered on campus in the immediately preceding semester or the summer session preceding the fall semester is eligible to register assuming good standing and enrollment in a continuing program.

Completion of Registration

Students who register for courses in any semester or session incur a financial obligation to the University. Registration is not complete until all financial obligations have been fulfilled. Tuition and fees are due and must be paid in full by the first day of the University's fall and spring semesters and summer sessions as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar/>). Students may be de-registered for non-payment, but failure to drop registration, or to attend classes, does not exempt students from their financial obligation.

Registration for Consortium Courses

Degree students interested in taking courses at any of the other institutions in the Consortium of Universities of the Washington Metropolitan Area, Inc. (<https://www.consortium.org/>), should consult the program announcements of the other institutions. In order to participate in the Consortium program, students must obtain the approval of an advisor and should ascertain from the department of the institution where the course is taught, whether they are eligible for the course, and whether there is space in the course. Consortium registration forms and detailed information concerning Consortium policy and procedures are available on the Office of the Registrar's website (<http://registrar.gwu.edu/consortium/>). Specific inquiries should be addressed to the Office of the Registrar.

Adding, Dropping, and Withdrawing from Courses

The following information pertains to courses taught on a traditional 15-week schedule in the fall and spring semesters.

Academic deadlines for fall and spring semester courses taught on a traditional schedule are available on the Office of the Registrar's website (<http://registrar.gwu.edu/>). Academic deadlines for fall and spring semester courses taught on a non-traditional schedule can be found at the respective school's advising office.

Adding and Dropping Courses

During the registration period and before the end of the second week of classes, students may add or drop courses using the GWeb Information System. (<http://my.gwu.edu/>)

During the third and fourth weeks of classes (after the second week and prior to the end of the fourth week), students may continue to drop courses using the GWeb Information System (<http://my.gwu.edu/>). Students who wish to add a course must complete a Registration Transaction Form-EZ (RTF-EZ (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/RTF-EZ.pdf>)) and submit it in person to the Student Services Hub (<https://studentserviceshub.gwu.edu/visit-student-services-hub/>). Adding a course after the second week of classes requires the signature of the instructor or other authorized member of the department. A course dropped during the first four weeks of classes will not appear on the student's transcript.

After the fourth week of classes, students who wish to add a course must complete a Registration Transaction Form (https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf) (RTF) and submit it to their advising office. Adding a course after the fourth week of classes continues to require the signature of the instructor or other authorized member of the department.

Withdrawing from Courses

Students may withdraw from courses after the fourth week of classes. A course from which a student successfully withdraws will be assigned a notation of *W* (Authorized Withdrawal).

For undergraduate students in the School of Medicine and Health Sciences and School of Nursing the deadline for withdrawing from a course is the end of the tenth week of classes in the fall or spring semester in which the student is enrolled in the course. After the fourth week of classes but before the end of the tenth week, a student who wishes to withdraw from any or all courses for which they are registered must submit a petition, along with substantial supporting documentation, to their advising office for consideration. Submission of a petition does not guarantee approval.

For undergraduate students in the College of Professional Studies (CPS), information on withdrawing from courses can be found in the CPS regulations (p. 1140) section of this Bulletin.

Undergraduate students in Columbian College of Arts and Sciences, Elliott School of International Affairs, GW School of Business, Milken Institute School of Public Health, and School of Engineering and Applied Science may withdraw from any or all undergraduate courses in those schools through the last day of classes in the fall or spring semester in which the student

is enrolled in the course. In order to withdraw from a course after the tenth week of classes, the student must submit a Registration Transaction Form (https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf) (RTF) to their advising office, but no supporting documentation is required. The advising office will process the RTF unless withdrawing from the course would result in the student taking fewer credits than they are required to take.

Failure to withdraw by the stated deadlines can result in an extended financial obligation and the recording of a grade of *F* (Failure) or a notation of *Z* (Unauthorized Withdrawal).

All charges for courses from which a student withdraws are subject to the refund policy listed under Fees and Financial Regulations (p. 54) in this Bulletin.

Changes in Program of Study

Changes Within a School—A student may not substitute one course for another within an established program of study or change status from credit to audit or from audit to credit without the approval of the advising office of the school in which he or she is registered. Change from one major field to another within the same school may be made with the approval of the advising office.

Undergraduate Transfer Within the University—Students are admitted to a home school at the time of their admission to the University. Those who wish to change their home school must submit an internal transfer request (<https://registrar.gwu.edu/forms/>) to the Office of the Registrar. A university-wide graduation requirement is that students must be registered in the school in which their primary major is housed. Some schools may require that certain prerequisite courses have been taken and that minimum grades have been earned before the transfer is processed. Transfer into a school does not guarantee placement in a limited-enrollment major and students will be transferred into an undeclared major. Requests to transfer schools will not be accepted prior to the second semester of the student's enrollment at GW. Students should meet with an academic advisor in both their current school and the school into which they are requesting to transfer prior to submitting an internal transfer request. Additional information, including deadlines, limited-enrollment majors, and prerequisites for internal transfers, is available on the Office of the Registrar's website (<http://registrar.gwu.edu/undergraduate-internal-transfer/>).

Grades

Grades are made available to students through the GWeb Information System (https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin/) after the close of each semester.

Undergraduate Grading System

The following grading system is used for undergraduate students: *A*, Excellent; *B*, Good; *C*, Satisfactory; *D*, Low Pass; *F*, Fail; other grades that may be assigned are *A–*, *B+*, *B–*, *C+*, *C–*, *D+*, and *D–*. Symbols that may appear include *AU*, Audit;

I, Incomplete; *IPG*, In Progress; *R*, Need to Repeat Course; *RP*, Repeated Under Academic Forgiveness Policy; *W*, Authorized Withdrawal; and *Z*, Unauthorized Withdrawal.

Repeating Courses for Credit—For courses that do not specifically state that repetition for credit is permitted, an undergraduate student may, with permission of the instructor teaching the course in question, repeat for credit a course in which a grade of B- (2.75) or below was received. The student must complete an RTF form (https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf) to register. Credit for the repeated course will not count toward degree requirements; the grade earned in the repeated course will, however, be included in the student's cumulative grade-point average.

Students also may repeat a course under the Undergraduate Academic Forgiveness Policy, with the grade earned in the repeated course included in the student's cumulative grade-point average. See details of the policy, below.

Unauthorized Withdrawal—The symbol of *Z* is assigned when students are registered for a course that they have not attended or have attended only briefly, and in which they have done no graded work. The symbol of *Z* is not a grade but an administrative notation.

Incompletes

The symbol *I* (Incomplete) indicates that a satisfactory explanation has been given to the instructor for the student's inability to complete the required work of the course during the semester of enrollment. At the option of the instructor, the symbol *I* may be recorded if a student, for reasons beyond the student's control, is unable to complete the work of the course, and if the instructor is informed of, and approves, such reasons before the date when grades must be reported. This symbol may be used only if the student's prior performance and class attendance in the course have been satisfactory. Any failure to complete the work of a course that is not satisfactorily explained to the instructor before the date when grades must be turned in will be graded *F*, Failure. If acceptable reasons are later presented to the instructor, the instructor may initiate a grade change to the symbol *I*. The work must be completed within the designated time period agreed upon by the instructor, student, and school, but no more than one calendar year from the end of the semester in which the course was taken. All students who receive an Incomplete must maintain active student status during the subsequent semester(s) in which the work of the course is being completed. If not registered in other courses during this period, the student must register for continuous enrollment status.

When work for the course is completed, the instructor will complete a grade change form and submit it to the Office of the Registrar. The final grade will replace the symbol of *I*. If work for the course is not completed within the designated time, the grade is converted automatically to a grade of *F*,

Failure, 0 quality points, and the grade-point average and academic standing recalculated.

Grade-Point Average

The following credit values are used in computing the undergraduate grade-point average: A, 4.0; A-, 3.7; B+, 3.3; B, 3.0; B-, 2.7; C+, 2.3; C, 2.0; C-, 1.7; D+, 1.3; D, 1.0; D-, .7; F, 0. Quality points are computed based on the credit value for each credit taken. Quality points divided by the number of credits for which the student has registered as a degree-seeking student equals the GPA. Both quality points and credits used in this calculation are based on the student's record in this university.

Although credit value for a course in which a grade of *F* is earned appears on the transcript for the purpose of calculating the grade-point average, no academic credit is awarded. In the case of a student who is allowed to repeat a course, the first grade received remains on the student's record and both the first grade and that received in the repeated course are included in calculating the grade-point average. Courses marked *AU*, *I*, *IPG*, *P*, *NP*, *R*, *W*, or *Z* are not considered in determining the GPA; however, once a final grade is recorded for a course originally marked *I* or *RP*, the grade will be considered in that determination. With the exception of Consortium courses, grades in courses taken at other institutions are not considered in computing the grade-point average.

Undergraduate Academic Forgiveness Policy

Undergraduate students are eligible to repeat for credit and grade forgiveness three undergraduate-level courses taken at GW in which they received a grade of *D+* (1.3) or below (except if the failing grade was due to a violation of GW's Code of Academic Integrity). With the approval of their academic advisor, a student may repeat a course under this policy at any time during their enrollment at GW; however, a course is not eligible for this policy if the student has taken a subsequent course for which the initial course is a prerequisite. The student's registration, including the repeated course, may not exceed 18 credits in the semester in which the course is repeated; students in the School of Engineering and Applied Science may not exceed 19 credits.

Under this policy, the original grade remains on the transcript until the student repeats the course. Once the course is repeated, a permanent notation of *RP* replaces the grade for the first attempt of the course in the semester in which it was taken. The grade earned in the repeated course appears on the transcript in the semester in which the course was repeated. Only the grade earned for the repeat enrollment is factored into the student's cumulative grade-point average. The grade for the repeat enrollment is the final grade for the course, regardless of whether it is above or below the original grade. In the case that a student wishes to repeat more than three courses for academic forgiveness, they must first receive

approval from the chair of the department under which the course is housed

Undergraduate Degree Requirements

To earn a bachelor's degree, students must complete 120 academic credits; meet the University General Education Requirement; school-specific requirements of their home school and requirements of at least one major within their home school; fulfill the residence requirement; and have a cumulative grade-point average of at least 2.0. Additional school-specific regulations may apply.

University General Education Requirement

Under the University General Education Requirement, undergraduate are required to take five Tier One courses (for a total of 15 to 16 credits) in a range of disciplines drawn from the social sciences, humanities, natural or physical sciences with a laboratory component, and mathematics or statistics. The general education curriculum engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that meaningfully enhance their analytical skills, develop communication competencies, and familiarize them with modes of inquiry. See Undergraduate Education at GW (p. 42) for more information.

Assignment of Credits

A total of 37.5 hours of work per semester is required for each credit earned. Work for 1 credit consists of 50 minutes of direct or guided interaction, or one laboratory period, or 1.5 hours of studio class, plus 100 minutes of independent learning per week during the course of a normal 15-week semester, which includes one week for examinations. Other combinations of time are possible, where appropriate (for example, as a higher proportion of instructional/interactional time for a laboratory or a lower proportion of instructional/interactional time for independent research). Class and study time may exceed these minimums to ensure that students meet course learning goals. See the full policy (https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours_Final_Oct-2016.pdf) for additional information.

Residence Requirement

To earn a bachelor's degree, students must earn at least 60 credits at or through GW, which may include a University-authorized study abroad and study away program. At least 30 of the 60 credits earned at or through GW must be in upper-level courses (numbered 2000 or above); at least 12 credits in upper-level courses must be in the major field, and at least 6 credits in upper-level courses must be in the minor field, if sought.

Academic Workload and Student Status

For the purpose of defining student status, undergraduates taking 12 or more credits per semester are considered to be full-time, those taking 6 to 11 credits per semester are considered to be half-time, and all others are considered to be part-time. Generally, an undergraduate becomes a sophomore

upon completion of 30 credits, a junior upon completion of 60 credits, and a senior upon completion of 90 credits.

A full-time undergraduate student on academic probation may register for up to 13 credits.

Undergraduate students taking more than 18 credits per semester will be charged at the rate of 1 credit for each credit exceeding that limit, with the exception of students in the School of Engineering and Applied Science, who are not charged for a 19th credit if required by their program.

Unless otherwise indicated under the program, all programs of study are offered on both a full-time and part-time basis. International students in F-1 or J-1 immigration status may pursue only full-time programs of study, and such students must register for and complete a workload each semester as defined by federal regulations.

Academic Standing

Academic standing is determined at the end of each fall and spring semester. Undergraduate students are considered to be in good academic standing if at the end of any semester their grade-point average (GPA) for that semester and their cumulative GPA are 2.0 or above.

Academic probation: Undergraduate students are placed on academic probation if at the end of any semester their GPA for that semester or their cumulative GPA is below 2.0. Students on academic probation must fulfill all probation-related requirements of their home school in order to register for courses.

Suspension for poor scholarship: Undergraduate students who have attempted at least 24 credits at the University (to include all letter, I, NP, P, R, W, and Z grades) will be subject to suspension for poor scholarship if they meet any of the following criteria:

- The student's current semester GPA is below 1.0;
- The student has completed two successive semesters without achieving semester and cumulative GPAs of 2.0 or above; or
- The student has a semester or cumulative GPA below 2.0 in any three semesters at the University.

Readmission after suspension for poor scholarship: Students suspended for poor scholarship may apply for readmission after one semester following the term of suspension. To be considered for readmission, students must earn a minimum of 12 credits at an accredited institution of higher education and demonstrate a likelihood of future academic success at the University. Students are encouraged to meet with a GW academic advisor to discuss course options at the other institution that may strengthen their readmission application. Readmission is at the discretion of the school to which the student applies and is never guaranteed.

Credit will not be assigned for academic work completed while a student is suspended; however, readmitted students may petition their advising office to transfer credits from other colleges or universities in accordance with University regulations (see Earning Transfer Credit after Matriculation).

Students suspended twice for poor scholarship will not be readmitted to the University.

Dean's List

Undergraduate students who, in any one semester, earn 12 credits or more and attain a minimum semester grade point average of 3.75 in letter-graded coursework, pass all non-graded credit courses, and do not have any Unauthorized Withdrawals (Z) or Incompletes (I), are placed on the Dean's List for that semester.

Latin Honors

Bachelor's degrees with honors are awarded to students whose academic records give evidence of particular merit. The student's grade-point average determines the level of honors as follows: *cum laude*, 3.4–3.59; *magna cum laude*, 3.6–3.79; *summa cum laude*, 3.8–4.0. The grade-point average includes all coursework completed at GW. To be eligible for an honors designation, a student must complete at least 60 credits of coursework with letter grades (grades included in calculating the grade-point average) at GW.

The grade-point average is calculated, and the honors designation is entered on the transcript and diploma of those students who earn an honors designation. If Latin honors are entered in the commencement program, honors status will be determined on the basis of work completed by the term prior to the ceremony and entered only for those students who have completed seven-eighths of the credits required for the degree. Latin honors indicated on the diploma are calculated on the basis of all coursework completed. The diploma and transcript are the official indication that a degree was conferred and Latin honors awarded.

Special Honors

Special Honors may be awarded by the faculty to any undergraduate member of the graduating class for outstanding achievement in the student's major field on recommendation of the major department. The student must fulfill all of the following requirements: (1) Candidacy for Special Honors must be approved by the faculty member representing the major department or field no later than the beginning of the semester following that in which the student completes 90 credits; (2) such other conditions as may be set at the time the candidacy is approved must be met; (3) at least one-half of the courses required for the degree must have been completed at GW; and, (4) the specific minimum requirement of the school in which the student is registered must be fulfilled as follows: (a) Columbian College of Arts and Sciences—a minimum grade-point average of 3.0 on all coursework taken at GW; (b) the Elliott School of International Affairs—a minimum grade-point

average of 3.7 on all coursework taken at GW; (c) the Milken Institute School of Public Health—a minimum grade-point average of 3.25 on all coursework taken at GW. Special Honors awards appear on the transcript.

Double Majors

Undergraduates can declare no more than two majors; they can pursue no more than two minors in addition to the two majors if they wish, but generally are advised against pursuing too many specializations.

Students who graduate with the requisite credits for one degree, having fulfilled the major requirements in more than one department, program, and/or school, will receive one degree. They must select a primary degree and major, as only the primary degree will be noted on the transcript, along with the two majors.

Students who complete the major requirements in their home school and the major requirements in a second school will receive the degree in the major of their home school and a notation on the transcript that testifies to completion of requirements for a secondary major. It is understood that requirements of the secondary major do not include the general education requirements of the second school.

Students who complete the major requirements for a degree different from the one they will receive in their home school will receive the degree of the relevant major in their home school. For example, a SEAS student completing the degree requirements for a BS in computer science and the major requirements for a BA in fine arts will receive a BS in computer science with a secondary major in fine arts.

Students who complete two majors in the same school also receive one degree with two majors; if one major leads to a BA and one to a BS, the student must declare a primary major and will receive the degree associated with that major.

Students whose first major leads to a BS degree must complete the BS curriculum for a second major if the second major offers both a BA and BS curriculum. For example, students whose primary degree and major is a BS in finance who want a second major in economics, chemistry, biology, or computer science, must complete the BS curriculum for these majors.

Minors

Undergraduates can declare no more than two minors. Students may not declare a minor in the same subject in which they have declared a major. Students should address specific questions about this policy to the school's advising office.

Double Degrees

To earn two bachelor's degrees at the same time, students must be admitted to the school that offers the second degree; satisfy the general and major requirements for both degrees; complete at least 30 additional credits beyond the credits required to earn one degree or a total of 150 credits; and earn

90 credits in residence at GW. Students interested in pursuing this option must have a cumulative grade-point average of at least 3.3. Requests for consideration should be sent to the student's advising office.

Study Abroad and Other Forms of Study Away

The University distinguishes between study abroad and all other forms of study away from campus that may contribute to a GW degree. Study abroad programs are GW programs either run directly by the University or through agreements between GW and other schools or educational providers. These programs have rules for transferring credit that are different from other forms of study away from campus either in the United States or another country. Other forms of study away might include courses taken at universities within the United States or summer or winter break programs in other countries.

Study Abroad

Undergraduates who wish to study abroad during the academic year should contact the Office for Study Abroad (<https://studyabroad.gwu.edu/>) concerning eligibility, procedures, and requirements for participation. Semester and academic year participants are billed GW tuition and a study abroad program fee rather than the tuition and fees indicated by the visited school or program. To be eligible for the transfer of academic credit from study abroad, GW students must select a program from the University's authorized list of study abroad programs and enroll in a full-time equivalent workload while abroad. Students must have a 2.75 cumulative grade-point average at the time of application and must have completed 45 credits prior to departure. Students who have a significant disciplinary history or who are on academic or disciplinary probation at the time of their planned study abroad are not eligible to participate. Non-GW course credits earned in authorized programs with a minimum grade of C are transferable toward the appropriate degree at GW, provided there is no duplication of previous coursework and the designated faculty member determines a GW equivalent for each course. Participants agree to abide by all procedures and regulations for study abroad as indicated in the Study Abroad Handbook and Participation Agreement, which are included in the GW Passport application (<http://passport.gwu.edu/?FuseAction=programs.AdvancedSearch>). In addition to semester and academic year programs, study abroad is available at varying locations during the summer.

Other Forms of Study Away

Other forms of study away from GW that may contribute to a degree include summer or temporary study at a university within the United States; summer or temporary study in another country through direct student enrollment at a foreign university or with an educational provider; and all study in any location and of any duration that is not billed through GW and not shown on the student's individual account.

Students may earn a maximum of 9 credits (or 3 courses to a maximum of 12 credits) combined in all such study away

programs to be applied toward an undergraduate degree at GW.

For non-GW credit earned in a study away program to be applied toward a GW degree, domestic transfer credit must have been taken at a institutionally-accredited institution. International transfer credit must have been taken at an institution recognized by the country's Ministry of Education. Such credit also must be pre-approved by the relevant GW faculty member(s) and school-based advisors and the Office of the Registrar. Procedures for transferring credit from other universities can be found on the Office of the Registrar (<https://registrar.gwu.edu/transfer/>) website.

Graduate students who wish to study away should consult their program's advising office.

Continuous Enrollment Status

Once entered in a degree program, a student is expected to be continuously enrolled and actively engaged in fulfilling the requirements for the degree each semester of the academic year until such time as the degree is conferred. A student is considered to be continuously enrolled when registered for courses through GW or when registered for continuous enrollment and engaged in and appropriately registered for activities such as the following, with the prior approval of the school in which the student is enrolled: cooperative work semester; study abroad program; attendance at another institution with prior approval to have work transferred back to the GW program; completion of outstanding work in courses in which a grade of Incomplete or In Progress was received; or non-course instructional activities unique to the particular school. This status is generally limited to one year. Should the student break continuous enrollment at the University and not request and be granted a leave of absence (see below), they must apply for readmission and, if granted, be subject to the requirements and regulations then in force.

Leave of Absence

A degree student who finds it necessary to interrupt active pursuit of the degree may petition their advising office for a leave of absence for a specific period of time, generally limited to one calendar year. A degree student who discontinues active enrollment in degree studies without being granted a leave of absence, or a student granted a leave who does not return to active study at the close of the period of approved absence, must apply for readmission and be subject to the regulations and requirements then in force. The right to the use of University facilities is suspended while the leave is in effect.

Policy Regarding Students Called to Active Military Duty

Any student who is a member of a military reserve unit or the National Guard and is activated or called to active duty early in a semester or summer session automatically will be entitled to a full refund of all tuition and fees that they have paid toward the expenses of that academic term. If the notification of the

call to active duty comes after the mid-term examinations or after other substantial graded work has been completed, the student will have the option of either taking a full refund of tuition and fees or taking an Incomplete in their courses with the privilege of returning to complete all required coursework at some future date without payment of any further tuition and fee charges. It is the responsibility of the student to present evidence of their activation to the Office of Student Accounts (<http://studentaccounts.gwu.edu/>) and to request the appropriate refund.

Should a degree student called up for active duty find it necessary to interrupt active pursuit of the degree, the student may petition their advising office for a leave of absence for a specified period that may not exceed five years. Student advisors are encouraged to grant any request to extend the leave of absence beyond the customary one-year period if required by the duration of military service.

Eligibility for Graduation

Degrees are conferred in January, May, and August. To be eligible for graduation a student must have met the admission requirements of the school in which registered; completed satisfactorily the scholarship, curriculum, residence, and other requirements for the degree as stated in this bulletin; filed an application for graduation by the published deadline date; and be free from all indebtedness to the University. Enrollment is required for the semester or summer session at the close of which the degree is to be conferred; all degree requirements must be completed by the last day of final examinations for that semester or summer session. Undergraduates who pursue a double major across two schools must complete the primary major in their home school in order to graduate. A second major may supplement the primary major but may not substitute for it.

The minimum cumulative grade-point average required for graduation is 2.0 for undergraduate students.

Participation in the Commencement Ceremony

Participation in the annual commencement ceremony held in May is open to students who have applied to graduate in the current spring semester or who graduated the preceding fall semester or summer session. With the exception of doctoral candidates, all students, graduate or undergraduate, who need no more than 9 credits to complete their degree requirements, may participate in May commencement ceremonies if there is a reasonable expectation that they will be able to obtain the needed credits during the following summer. The maximum of 9 credit is firm and not subject to petition.

Complete Withdrawal from the University

Undergraduate degree-seeking students who wish to withdraw from all courses during a given semester must submit the Complete Withdrawal Form for Undergraduates (<https://registrar.gwu.edu/forms/>) to their advisor and contact the Office for Student Success (<https://studentsuccess.gwu.edu>)

for assistance in finalizing their withdrawal. The deadline for complete withdrawal from all courses is the end of the tenth week of classes. Complete withdrawal after the tenth week requires a petition to the student's advising office. Submission of a petition does not guarantee approval.

All charges for courses from which the student withdraws are subject to the refund policy (<https://registrar.gwu.edu/withdrawals-refunds/>) found on the website of the Office of the Registrar. Failure to complete the Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) can result in an extended financial obligation and the recording of grades of *F* (Failure) or notations of *Z* (Unauthorized Withdrawal).

The University is authorized to award the degree of associate in general studies under designated circumstances. This degree may be awarded to students in good standing who must leave GW after completing 60 credits in residence in a degree-granting GW school. Students should consult their school's advising office for additional requirements for awarding of the associate in general studies.

Non-Degree Students

The Office of Non-Degree Students (<https://nondegree.gwu.edu/>) makes credit-bearing courses available to those who are not degree candidates at GW and to students who have been admitted to the University for a future semester. Non-degree students may enroll for a maximum of 18 credits per semester at the undergraduate level, except in special circumstances as approved by the Director of the Office of Non-Degree Students. Special program credit limits may vary. A limited number of credits taken as a non-degree student may be applied toward a GW degree program, subject to determination by the school or college that offers the program. Some medical and law courses are available to non-degree students. Contact the Law School (<https://www.law.gwu.edu/information-non-degree-students/>) or School of Medicine and Health Sciences (<https://smhs.gwu.edu/>) for more information.

Non-degree applicants must have appropriate academic preparation prior to enrollment. This includes course prerequisites, which are specified in course descriptions in this Bulletin. An applicant who previously attended this or another institution of higher education must be in good standing prior to enrolling as a non-degree student. The University determines, on a case-by-case basis, whether an applicant who has been suspended or dismissed from any educational institution is eligible to enroll as a non-degree student. An applicant who has been denied admission to any school or college of this university is not eligible to enroll as a non-degree student for the same semester for which the application was denied. The University reserves the right, at its sole discretion, to deny admission to any applicant if the University determines that admission is not in the best interest of either the applicant or the University. Application and registration information is available on the Office of Non-Degree Students (<https://nondegree.gwu.edu/>) website. Non-

degree students are subject to enrollment, withdrawal, and refund policies stated on the Office of the Registrar (<https://registrar.gwu.edu/non-degree-students/>) website.

University Policies and Definitions

Right to Change Rules and Programs

The University reserves the right to modify or change requirements, rules, and fees. Such regulations shall go into force whenever the proper authorities may determine. The University reserves the right to make changes in programs without notice whenever circumstances warrant such changes.

University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the University, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the University's Office of Equal Employment Opportunity and Affirmative Action (<http://hr.gwu.edu/equal-employment-opportunity/>) at (202) 994-9656. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the University's Title IX Coordinator, the Vice Provost for Diversity, Equity, and Community Engagement at (<http://diversity.gwu.edu/>) (202) 994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the University's Disability Services Coordinators (<https://disabilitysupport.gwu.edu/our-team/>). Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students at (202) 994-6710; and other members of the University community may contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at (202) 994-8250 or dss@gwu.edu. Employees and other members of the University community should contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9656 or eeo@gwu.edu.

Academic Integrity

The University community, in order to fulfill its purposes, must establish and maintain guidelines of academic behavior. All members of the community are expected to exhibit honesty and competence in their academic work. Incoming students have a special responsibility to acquaint themselves with, and make use of, all proper procedures for conducting research, writing papers, and taking examinations. Members of the community will be presumed to be familiar with the proper academic procedures and held responsible for applying them. Deliberate failure to act in accordance with such procedures will be considered academic dishonesty. Acts of academic dishonesty are a legal, moral, and intellectual offense against the community and will be prosecuted through the proper University channels. The University Code of Academic Integrity can be found at the Office of Academic Integrity (<https://studentconduct.gwu.edu/code-academic-integrity/>).

Patent and Copyright Policies

Students who produce creative works or make scientific discoveries while employed or supported by the University or through substantial use of University resources are subject to the University's patent and copyright policies. See The Office of the Vice President for Research (<https://research.gwu.edu/>).

Human Research Requirements

Students who are planning to conduct research involving the use of human subjects (for a thesis, dissertation, journal article, poster session, etc.) must obtain Institutional Review Board (IRB) (<https://humanresearch.gwu.edu/>) approval before collecting any data. For more information see The Office of the Vice President for Research (<http://research.gwu.edu/>).

English for Academic Purposes

Undergraduate international students whose TOEFL, IELTS, or PTE scores fall below established cut-off points are required to take one or more courses in the English for Academic Purposes (EAP) program. Undergraduate students receive credit for EAP courses. For detailed information concerning this requirement consult the English for Academic Purposes Program website (<http://eap.columbian.gwu.edu/placement-eap-courses/>).

Name of Record

A student's name of record includes the first name, middle initial or full middle name, and the family name. Nicknames may not be used. The University will change the name of a currently enrolled student on its official records but will require satisfactory evidence of a legal basis for the change. The diploma is awarded under the official name of record at the time of graduation.

Attendance

Students may attend only those courses for which they are officially registered. Regular attendance is expected. Students may be dropped from any course for undue absence. A student suspended for any cause may not attend classes during the period of suspension. Students are held responsible for all of the work of the courses in which they are registered, and all

absences must be excused by the instructor before provision is made to make up the work missed.

Credit

A credit may be defined as one 50-minute class period, one laboratory period, or 1.5 hours of studio class a week for one semester. Credit is given only after completion of registration in a course and satisfactory completion of the required work, or upon the assignment of advanced standing in accordance with the regulations of the school concerned. Credit that has been applied to the completion of a degree may not subsequently be applied to another degree.

Auditing

An individual who has been admitted to the University may be registered, with the permission of the instructor, as an auditor in a course (no academic credit). An auditor is not required to take active part or to pass examinations. A student who takes a course as an auditor may not repeat it later for credit. Tuition is charged at the prevailing rate. A student may not change from audit to credit status or vice versa after the end of the eighth week of classes.

Earning Transfer Credit after Matriculation

All students who plan to attend another institution while enrolled at GW and apply credits earned at that institution toward GW degree requirements must complete an Undergraduate Transfer Credit Approval Form (https://registrar.gwu.edu/sites/g/files/zaxdzs2171/f/Transfer_Credit_Approval_Form2018.pdf) and secure the written approval of the GW department that offers a comparable course and from the student's advising office. With the exception of credits earned from GW study abroad and GW domestic study away programs, no more than 9 credits (or 3 courses to a maximum of 12 credits total) may be transferred from colleges or universities after matriculation.

Transcripts of Record

Official transcripts of student records are issued upon written request of the student or former student who has paid all charges, including any student loan installments, due the University at the time of the request. A nominal fee is charged for each official transcript. Unofficial copies of transcripts are available to students, by written request, at a nominal fee. Partial transcripts are not issued. Students have access to their unofficial student record through the GWeb Information System (https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin/).

Student Conduct

All students, upon enrolling and while attending this University, are subject to the provisions of the *Guide to Student Rights and Responsibilities*, which outlines student freedoms and responsibilities of conduct, including the Code of Student Conduct (<http://studentconduct.gwu.edu/code-student-conduct/>), and other policies and regulations as adopted and promulgated by appropriate University authorities. Copies of these documents may be obtained from the Division of Student Affairs (<http://students.gwu.edu/>) or from advising

offices. Sanctions for violation of these regulations may include permanent expulsion from the University. Regulations or requirements applicable only to a particular program, facility, or class of students may not be published generally, but such regulations or requirements shall be published in a manner reasonably calculated to inform affected students.

Right to Dismiss Students

The University reserves the right to dismiss or exclude any student from the University, or from any course or courses, whenever, in the interest of the student or the University, the University Administration deems it advisable.

University Policy on the Release of Student Information

The Family Educational Rights and Privacy Act (FERPA) (<http://registrar.gwu.edu/university-policies/#ferpa>) applies to institutional policies governing access to and release of student education records.

The University may release the following directory information upon request: name, local address including e-mail, and telephone number; name and address of emergency contact; dates of attendance; school of enrollment; field of study; enrollment status; credits earned; degrees earned; honors received; participation in University-recognized organizations and activities (including intercollegiate athletics); and height, weight, and age of members of athletic teams, as well as likenesses used in University publications. Date of birth will be considered directory information only for the purpose of complying with applicable laws. A student who does not wish such directory information released must file written notice to this effect in the Office of the Registrar (<http://registrar.gwu.edu/>).

The University's full policy statement on the release of student information is published in the *Guide to Student Rights and Responsibilities*, available in the Office of the Dean of Student Affairs or the offices of the academic deans. The full statement also appears on the Office of the Registrar's website.

Student Identification Number/Social Security Number

The University has converted from use of the Social Security Number (SSN) to identify records pertaining to individual students, although the SSN is still needed to identify the student for purposes of financial aid eligibility and disbursement and repayment of financial aid and other debts payable to the University. The SSN is required when applying for financial aid. The Internal Revenue Service requires the University to file information that includes a student's SSN and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used to help determine whether a student, or a person claiming a student as a dependent, may take credit or deduction to reduce federal and/or state income taxes. Many efforts are made to protect the privacy of this number, and a student may request an alternate personal identifier. Further information may be obtained by contacting the Office of the Registrar (<https://registrar.gwu.edu/transfer/>).

Property Responsibility

The University is not responsible for the loss of personal property. A Lost and Found Office is maintained on campus in the University Police Department. (<https://safety.gwu.edu/police/>)

GRADUATE

Graduate Regulations

Registration

Information on registration procedures is stated on the Office of the Registrar's website (<http://registrar.gwu.edu/how-register/>) and in the Schedule of Classes (<http://my.gwu.edu/mod/pws/>), which is available in advance of each semester.

Registration in courses is open only to those persons formally admitted to the University by the appropriate admitting office and to continuing students in good standing. Students may not register concurrently in this University and another institution without the prior permission of the advising office of the school in which they are registered in this University. With the exception of students enrolled in a joint degree program, registration in more than one school of the University requires the written permission of the student advising offices concerned, prior to registration. Registration is not complete until all financial obligations have been met. Individuals without a valid registration may not attend class or earn any course credit.

Eligibility for Registration

Registration for the following categories of on-campus students is held on the days of registration indicated in the Schedule of Classes (<http://my.gwu.edu/mod/pws/>). A student who is suspended or whose record is encumbered for any reason is not eligible to register. Registration in a given course may be denied to non-degree students by the Office of Non-Degree Students (<https://nondegree.gwu.edu/>) when space is needed for degree candidates.

New Student—Upon receipt of a letter of admission and payment of any required deposit, new students are eligible for registration on the stated days of registration.

Readmitted Student—A student previously registered in the University who was not registered during the preceding semester must apply for and be granted readmission by the appropriate admitting office before being eligible for registration.

Continuing Student—A student registered on campus in the immediately preceding semester or the summer session preceding the fall semester is eligible to register assuming good standing and enrollment in a continuing program.

Completion of Registration

Students who register for courses in any semester or session incur a financial obligation to the University. Registration is not complete until all financial obligations have been fulfilled. Tuition and fees are due and must be paid in full by the first day of the University's fall and spring semesters and summer sessions as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar/>). Students may be de-registered for non-payment, but failure to drop registration, or to attend classes, does not exempt students from their financial obligation.

Registration for Consortium Courses

Degree students interested in taking courses at any of the other institutions in the Consortium of Universities of the Washington Metropolitan Area (<https://www.consortium.org/>) should consult the program announcements of the other institutions. In order to participate in the Consortium program, students must obtain the approval of an advisor and should ascertain from the department of the institution where the course is taught whether they are eligible for the course and whether there is space in the course. Consortium registration forms and detailed information concerning Consortium policy and procedures are available on the Office of the Registrar's website (<http://registrar.gwu.edu/consortium/>). Specific inquiries should be addressed to the Office of the Registrar.

Adding, Dropping, and Withdrawing from Courses

The following information pertains to courses taught on a traditional 15-week schedule in the fall and spring semesters. Academic deadlines for fall and spring semester courses taught on a traditional schedule are available on the Office of the Registrar's website (<http://registrar.gwu.edu/>). Academic deadlines for fall and spring semester courses taught on a non-traditional schedule can be found at the respective school's advising office.

Dropping and Adding Courses

During the registration period and before the end of the second week of classes, students may add or drop courses using the GWeb Information System. (<http://my.gwu.edu/>)

During the third and fourth weeks of classes (after the second week and prior to the end of the fourth week), students may continue to drop courses using the GWeb Information System (<http://my.gwu.edu/>). Students who wish to add a course must complete a Registration Transaction Form-EZ (RTF-EZ (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/RTF-EZ.pdf>)) and submit it in person to the Student Services Hub (<https://studentserviceshub.gwu.edu/visit-student-services-hub/>). Adding a course after the second week of classes requires the signature of the instructor or other authorized member of the department. A course dropped during the first four weeks of classes will not appear on the student's transcript.

After the fourth week of classes, students who wish to add a course must complete a Registration Transaction Form (https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/reg_transaction_form.pdf) (RTF) and submit it to their advising office. Adding a course after the fourth week of classes continues to require the signature of the instructor or other authorized member of the department.

Withdrawing from Courses

A course from which a student withdraws after the fourth week but before the end of the tenth week will be assigned a notation of *W* (Authorized Withdrawal). The deadline for withdrawing from a course is the end of the tenth week of classes in the fall and spring semesters.

After the end of the tenth week of classes, graduate students who wish to withdraw from any or all of their courses must submit a petition, along with substantial supporting documentation, to their advising office for consideration. Submission of a petition does not guarantee approval. Appropriate withdrawal forms are available online (<http://registrar.gwu.edu/forms/>). Failure to withdraw by the stated deadlines can result in an extended financial obligation and the recording of a grade of *F* (Failure) or a notation of *Z* (Unauthorized Withdrawal).

All charges for courses from which a student withdraws are subject to the refund policy listed under Fees and Financial Regulations (<http://bulletin.gwu.edu/fees-financial-regulations/>) in this Bulletin.

Changes in Program of Study

Changes Within a School—A student may not substitute one course for another within an established program of study or change status from credit to audit or from audit to credit without the approval of the advising office of the school in which they are registered. Change from one major field to another within the same school may be made with the approval of the advising office.

Graduate Transfer Within the University—Application for transfer to another school must be made to the appropriate admitting office on the form provided by the office concerned.

Grades

Grades are made available to students through the GWeb Information System (https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin/) after the close of each semester.

Graduate Student Grading System

The following grading system is used for graduate students: *A*, Excellent; *B*, Good; *C*, Satisfactory; *F*, Fail; other grades that may be assigned are *A–*, *B+*, *B–*, *C+*, *C–*. Symbols that may appear include *AU*, Audit; *I*, Incomplete; *IPG*, In Progress; *W*, Authorized Withdrawal; *Z*, Unauthorized Withdrawal; *CR*, Credit; *NC*, No Credit.

Unauthorized Withdrawal—The symbol of *Z* is assigned when students are registered for a course that they have not attended or have attended only briefly, and in which they have done no graded work. The symbol of *Z* is not a grade but an administrative notation.

Except for courses that specifically state that repetition for credit is permitted, a candidate for a degree at this University may not repeat a course in which a grade of *C–* or above was received, unless required to do so by the department concerned. A written statement, indicating that the student is required to repeat the course, must be submitted to the student's advising office by the appropriate department chair.

Assignment of Credits

A total of 37.5 hours of work per semester is required for each credit earned. Work for 1 credit consists of 50 minutes of direct or guided interaction, or one laboratory period, or 1.5 hours of studio class, plus 100 minutes of independent learning per week during the course of a normal 15-week semester, which includes one week for examinations. Other combinations of time are possible, where appropriate (for example, as a higher proportion of instructional/interactional time for a laboratory or a lower proportion of instructional/interactional time for independent research). Class and study time may exceed these minimums to ensure that students meet course learning goals. See the full policy (https://provost.gwu.edu/files/downloads/Resources/Assignment-of-Credit-Hours_Final_Oct-2016.pdf) for additional information.

Incompletes

The symbol *I* (Incomplete) indicates that a satisfactory explanation has been given to the instructor for the student's inability to complete the required work of the course during the semester of enrollment. At the option of the instructor, the symbol *I* may be recorded if a student, for reasons beyond the student's control, is unable to complete the work of the course, and if the instructor is informed of, and approves, such reasons before the date when grades must be reported. This symbol may be used only if the student's prior performance and class attendance in the course have been satisfactory. Any failure to complete the work of a course that is not satisfactorily explained to the instructor before the date when grades must be turned in will be graded *F*, Failure. If acceptable reasons are later presented to the instructor, that instructor may initiate an appropriate grade change, which in all cases will include the symbol *I*. The work must be completed within the designated time period agreed upon by the instructor, student, and school, but no more than one calendar year from the end of the semester in which the course was taken. All students who receive an Incomplete must maintain active student status during the subsequent semester(s) in which the work of the course is being completed. If not registered in other courses during this period, the student must register for continuous enrollment status.

When work for the course is completed, the instructor will complete a grade change form and turn it in to the Office of the Registrar. Beginning with courses taken in the fall 2014 semester, the final grade will replace the symbol of *I*. If work for the course is not completed within the designated time, the grade will be converted automatically to a grade of *F*, Failure, 0 quality points, and the grade-point average and academic standing recalculated.

The Grade-Point Average

The following credit values are used in computing the graduate grade-point average: A, 4.0; A–, 3.7; B+, 3.3; B, 3.0; B–, 2.7; C+, 2.3; C, 2.0; C–, 1.7; and F, 0. Quality points are computed based on the credit value for each credit taken. Quality points divided by the number of credits for which the student has registered as a degree-seeking student equals the GPA. Both quality points and credits used in this calculation are based on the student's record in this university.

Although credit value for a course in which a grade of *F* is earned appears on the transcript for the purpose of calculating the grade-point average, no academic credit is awarded. In the case of a student who is allowed to repeat a course, the first grade received remains on the student's record and is included in the grade-point average. Courses marked *AU*, *CR/NC*, *I*, *IPG*, *W*, or *Z* are not considered in determining the average; however, once a final grade is recorded for a course originally marked *I*, the grade will be considered in that determination. With the exception of Consortium courses, grades in courses taken at other institutions are not considered in computing the grade-point average.

Eligibility for Graduation

Degrees are conferred in January, May, and August. To be eligible for graduation a student must have met the admission requirements of the school in which registered; completed satisfactorily the scholarship, curriculum, residence, and other requirements for the degree as stated in this bulletin; filed an application for graduation by the published deadline date; and be free from all indebtedness to the University. Enrollment is required for the semester or summer at the close of which the degree is to be conferred, and all degree requirements must be completed by the last day of final examinations for that semester or summer session.

The minimum cumulative grade-point average required for graduation is 3.0 for graduate students.

Columbian College of Arts and Sciences (CCAS) graduate students—For the purpose of graduation from the University, CCAS graduate students must maintain a minimum cumulative grade-point average of 3.0 in coursework counting toward the degree program.

Participation in the Commencement Ceremony

Participation in the annual commencement ceremony held in May is open to students who have applied to graduate in the current spring semester or who graduated the preceding fall

semester or summer session. With the exception of doctoral candidates, all graduate students who need no more than 9 credit to complete their degree requirements, may participate in May commencement ceremonies if there is a reasonable expectation that they will be able to obtain the needed credits during the following summer. The maximum of 9 credits is firm and not subject to petition.

Graduate Thesis or Dissertation

Graduate students whose program includes a thesis or dissertation must meet published Electronic Theses and Dissertations (ETD) deadlines (<https://library.gwu.edu/etd/>) for graduation in a given semester or summer session.

Doctoral candidates who have not successfully defended their dissertation and met the ETD deadline may not participate in either the May commencement or hooding ceremony.

Students who apply after the published deadlines are not guaranteed commencement materials. Summer graduates who elect to attend the preceding May ceremony must apply for graduation no later than February 1.

Graduate Thesis or Dissertation—A thesis or dissertation submitted in partial fulfillment of requirements for a degree must be presented in its final form by the deadline set by the school concerned. Accepted theses and dissertations, with accompanying files, become the property of the University. Accepted theses and dissertations are submitted electronically; the student pays a processing fee directly to Proquest. See the appropriate school in this Bulletin for regulations governing theses and dissertations.

Academic Workload

Graduate students should consult with their program's advising office to determine an academic workload that meets the requirements for their degree program.

Study Abroad

Graduate students who wish to study abroad should consult their program's advising office.

Continuous Enrollment Status

Once entered in a degree program, a student is expected to be continuously enrolled and actively engaged in fulfilling the requirements for the degree each semester of the academic year until such time as the degree is conferred. A student is considered to be continuously enrolled when registered for courses through GW or when registered for continuous enrollment and engaged in and appropriately registered for activities such as the following, with the prior approval of the school in which the student is enrolled: cooperative work semester; study abroad program; attendance at another institution with prior approval to have work transferred back to the GW program; completion of outstanding work in courses in which a grade of Incomplete or In Progress was received; or non-course instructional activities unique to the particular school. This status is generally limited to one year. Should the

student break continuous enrollment at the University and not request and be granted a leave of absence (see below), they must apply for readmission and, if granted, be subject to the requirements and regulations then in force.

Leave of Absence

A degree student who finds it necessary to interrupt active pursuit of the degree may petition their advising office for a leave of absence for a specific period of time, generally limited to one calendar year. A degree student who discontinues active enrollment in degree studies without being granted a leave of absence, or a student granted a leave who does not return to active study at the close of the period of approved absence, must apply for readmission and be subject to the regulations and requirements then in force. The right to use of University facilities is suspended while the leave is in effect.

Policy Regarding Students Called to Active Military Duty

Any student who is a member of a military reserve unit or the National Guard and is activated or called to active duty early in a semester or summer session automatically will be entitled to a full refund of all tuition and fees that they have paid toward the expenses of that academic term. If the notification of the call to active duty comes after the mid-term examinations or after other substantial graded work has been completed, the student will have the option of either taking a full refund of tuition and fees or taking an Incomplete in their courses with the privilege of returning to complete all required coursework at some future date without payment of any further tuition and fee charges. It is the responsibility of the student to present evidence of their activation to the Office of Student Accounts (<http://studentaccounts.gwu.edu/>) and to request the appropriate refund.

Should a degree student called up for active duty find it necessary to interrupt active pursuit of the degree, the student may petition their advising office for a leave of absence for a specified period that may not exceed five years. Student advisors are encouraged to grant any request to extend the leave of absence beyond the customary one-year period if required by the duration of military service.

Complete Withdrawal from the University

Graduate degree-seeking students who wish to withdraw from all courses during a given semester must submit the Complete Withdrawal Form for Graduate students (<https://registrar.gwu.edu/forms/>) to the Office of the Registrar (<https://registrar.gwu.edu>) before the end of the tenth week of classes. The deadline for complete withdrawal from all courses is the end of the tenth week of classes. Complete withdrawal after the tenth week requires a petition to the student's advising office. Submission of a petition does not guarantee approval.

All charges for courses from which the student withdraws are subject to the refund policy (<https://registrar.gwu.edu/withdrawals-refunds/>) found on the website of the Office of

the Registrar. Failure to complete the Complete Withdrawal Form (<https://registrar.gwu.edu/sites/registrar.gwu.edu/files/downloads/completewithdrawal.pdf>) can result in an extended financial obligation and the recording of grades of F (Failure) or notations of Z (Unauthorized Withdrawal).

Non-Degree Students

The Office of Non-Degree Students (<https://nondegree.gwu.edu/>) makes credit-bearing courses available to those who are not degree candidates at GW and to students who have been admitted to the University for a future semester. Non-degree students may enroll for a maximum of 12 credits per semester at the graduate level, except in special circumstances as approved by the Director of the Office of Non-Degree Students. Special program credit limits may vary. A limited number of credits taken as a non-degree student may be applied toward a GW degree program, subject to determination by the school or college that offers the program. Some medical and law courses are available to non-degree students. Contact the Law School (<https://www.law.gwu.edu/information-non-degree-students/>) or School of Medicine and Health Sciences (<https://smhs.gwu.edu/>) for more information.

Non-degree applicants must have appropriate academic preparation prior to enrollment. This includes course prerequisites, which are specified in course descriptions in this Bulletin. An applicant who previously attended this or another institution of higher education must be in good standing prior to enrolling as a non-degree student. The University determines, on a case-by-case basis, whether an applicant who has been suspended or dismissed from any educational institution is eligible to enroll as a non-degree student. An applicant who has been denied admission to any school or college of this university is not eligible to enroll as a non-degree student for the same semester for which the application was denied. The University reserves the right, at its sole discretion, to deny admission to any applicant if the University determines that admission is not in the best interest of either the applicant or the University. Application and registration information is available on the Office of Non-Degree Students (<https://nondegree.gwu.edu/>) website. Non-degree students are subject to enrollment, withdrawal, and refund policies stated on the Office of the Registrar (<https://registrar.gwu.edu/non-degree-students/>) website.

University Policies and Definitions

Right to Change Rules and Programs

The University reserves the right to modify or change requirements, rules, and fees. Such regulations shall go into force whenever the proper authorities may determine. The University reserves the right to make changes in programs without notice whenever circumstances warrant such changes.

University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color,

religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the University, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the University's Office of Equal Employment Opportunity and Affirmative Action (<http://hr.gwu.edu/equal-employment-opportunity/>) at (202) 994-9656. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the University's Title IX Coordinator, the Vice Provost for Diversity, Equity, and Community Engagement at (<http://diversity.gwu.edu/>) (202) 994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the University's Disability Services Coordinators (<https://disabilitysupport.gwu.edu/our-team/>). Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students at (202) 994-6710; and other members of the University community may contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at (202) 994-8250 or dss@gwu.edu. Employees and other members of the University community should contact the Office of Equal Employment Opportunity and Affirmative Action at (202) 994-9656 or eeo@gwu.edu.

Academic Integrity

The University community, in order to fulfill its purposes, must establish and maintain guidelines of academic behavior. All members of the community are expected to exhibit honesty and competence in their academic work. Incoming students have a special responsibility to acquaint themselves with, and make use of, all proper procedures for conducting research, writing papers, and taking examinations. Members of the community will be presumed to be familiar with the proper academic procedures and held responsible for applying them. Deliberate failure to act in accordance with such procedures will be considered academic dishonesty. Acts of academic dishonesty are a legal, moral, and intellectual offense against the community and will be prosecuted through the proper University channels. The University Code of Academic Integrity can be found at the Office of Academic Integrity (<https://studentconduct.gwu.edu/code-academic-integrity/>).

Patent and Copyright Policies

Students who produce creative works or make scientific discoveries while employed or supported by the University or through substantial use of University resources are subject to the University's patent and copyright policies. See The Office of the Vice President for Research (<https://research.gwu.edu/>).

Human Research Requirements

Students who are planning to conduct research involving the use of human subjects (for a thesis, dissertation, journal article, poster session, etc.) must obtain Institutional Review Board (IRB) (<https://humanresearch.gwu.edu/>) approval before collecting any data. For more information see The Office of the Vice President for Research (<http://research.gwu.edu/>).

English for Academic Purposes

Graduate international students whose TOEFL, IELTS, or PTE scores fall below established cut-off points are required to take one or more courses in the English for Academic Purposes (EAP) program. Graduate students do not receive credit for EAP courses. For detailed information concerning this requirement consult the English for Academic Purposes Program website (<http://eap.columbian.gwu.edu/placement-eap-courses/>).

Name of Record

A student's name of record includes the first name, middle initial or full middle name, and the family name. Nicknames may not be used. The University will change the name of a currently enrolled student on its official records but will require satisfactory evidence of a legal basis for the change. The diploma is awarded under the official name of record at the time of graduation.

Attendance

Students may attend only those courses for which they are officially registered. Regular attendance is expected. Students may be dropped from any course for undue absence. A student suspended for any cause may not attend classes during the period of suspension. Students are held responsible for all of the work of the courses in which they are registered, and all absences must be excused by the instructor before provision is made to make up the work missed.

Credit

A credit may be defined as one 50-minute class period, one laboratory period, or 1.5 hours of studio class a week for one semester. Credit is given only after completion of registration in a course and satisfactory completion of the required work, or upon the assignment of advanced standing in accordance with the regulations of the school concerned. Credit that has been applied to the completion of a degree may not subsequently be applied to another degree.

Auditing

An individual who has been admitted to the University may be registered, with the permission of the instructor, as an auditor in a course (no academic credit). An auditor is not required to take active part or to pass examinations. A student who takes a course as an auditor may not repeat it later for credit. Tuition is

charged at the prevailing rate. A student may not change from audit to credit status or vice versa after the end of the eighth week of classes.

Earning Transfer Credit after Matriculation

Graduate students who wish to attend another institution while enrolled at GW and apply credits earned at that institution toward GW degree requirements should confer with their school or college regarding restrictions, limitations, and process for approval.

Transcripts of Record

Official transcripts of student records are issued upon written request of the student or former student who has paid all charges, including any student loan installments, due the University at the time of the request. A nominal fee is charged for each official transcript. Unofficial copies of transcripts are available to students, by written request, at a nominal fee. Partial transcripts are not issued. Students have access to their unofficial student record through the GWeb Information System (https://banweb.gwu.edu/PRODCartridge/twbkwbis.P_WWWLogin/).

Student Conduct

All students, upon enrolling and while attending this University, are subject to the provisions of the *Guide to Student Rights and Responsibilities*, which outlines student freedoms and responsibilities of conduct, including the Code of Student Conduct (<http://studentconduct.gwu.edu/code-student-conduct/>), and other policies and regulations as adopted and promulgated by appropriate University authorities. Copies of these documents may be obtained from the Division of Student Affairs (<http://students.gwu.edu/>) or from advising offices. Sanctions for violation of these regulations may include permanent expulsion from the University. Regulations or requirements applicable only to a particular program, facility, or class of students may not be published generally, but such regulations or requirements shall be published in a manner reasonably calculated to inform affected students.

Right to Dismiss Students

The University reserves the right to dismiss or exclude any student from the University, or from any course or courses, whenever, in the interest of the student or the University, the University Administration deems it advisable.

University Policy on the Release of Student Information

The Family Educational Rights and Privacy Act (FERPA) (<http://registrar.gwu.edu/university-policies/#ferpa>) applies to institutional policies governing access to and release of student education records.

The University may release the following directory information upon request: name, local address including e-mail, and telephone number; name and address of emergency contact; dates of attendance; school of enrollment; field of study; enrollment status; credits earned; degrees earned; honors received; participation in University-recognized organizations and activities (including intercollegiate athletics); and height,

weight, and age of members of athletic teams, as well as likenesses used in University publications. Date of birth will be considered directory information only for the purpose of complying with applicable laws. A student who does not wish such directory information released must file written notice to this effect in the Office of the Registrar (<http://registrar.gwu.edu/>).

The University's full policy statement on the release of student information is published in the *Guide to Student Rights and Responsibilities*, available in the Office of the Dean of Student Affairs or the offices of the academic deans. The full statement also appears on the Office of the Registrar's website.

Student Identification Number/Social Security Number

The University has converted from use of the Social Security Number (SSN) to identify records pertaining to individual students, although the SSN is still needed to identify the student for purposes of financial aid eligibility and disbursement and repayment of financial aid and other debts payable to the University. The SSN is required when applying for financial aid. The Internal Revenue Service requires the University to file information that includes a student's SSN and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used to help determine whether a student, or a person claiming a student as a dependent, may take credit or deduction to reduce federal and/or state income taxes. Many efforts are made to protect the privacy of this number, and a student may request an alternate personal identifier. Further information may be obtained by contacting the Office of the Registrar (<http://registrar.gwu.edu/>).

Property Responsibility

The University is not responsible for the loss of personal property. A Lost and Found Office is maintained on campus in the University Police Department (<http://police.gwu.edu/>).

UNDERGRADUATE EDUCATION AT GW

An undergraduate education at GW provides students with a wide range of opportunities to pursue both professional and liberal arts degrees. These degrees ensure that students leave the University with a body of knowledge that shows a depth of understanding in at least one field. In addition, the General Education Requirement that is common to the education of students in all schools of the University, ensure that students develop key analytical abilities that transcend disciplinary boundaries. These analytical abilities provide students with cornerstones for their personal development, civic consciousness, and successful careers.

To earn an undergraduate degree, students must:

- Complete at least 120 credits,
- Fulfill the University General Education Requirement (Tier One),
- Fulfill school-specific general education and distribution requirements (Tier Two), and
- Fulfill the requirements of at least one major in their home school (Tier Three).

Tier One: General Education Requirements

All undergraduate students at GW are required to fulfill Tier One of the University's General Education Requirement. The General Education curriculum trains students to engage in active intellectual inquiry across a variety of disciplines by developing a range of analytical skills, including critical thinking, quantitative reasoning, and scientific reasoning.

- **Critical thinking in the social sciences and in the humanities** refers to the analysis and evaluation of complex information (systems of theory or thought) as well as the formulation of logical arguments based on that analysis.
- **Quantitative reasoning** refers to the process of modeling problems of the real world within a formal abstract system, solving those problems using systematic numerical methods of analysis, and interpreting the results.
- **Scientific reasoning** refers to consistent, logical thought patterns that are employed during the process of scientific inquiry that enables individuals to propose relationships between observed phenomena, design experiments to assess the validity of these relationships, and evaluate the results of these experiments, all using the tools, skills, and techniques of quantitative reasoning.

In addition to these elements of inquiry, students are trained to communicate effectively in both written and oral formats, not only in their general education course sequence, but in their majors.

- The **written communication** requirement trains students in the effective use of language to express critical thinking that evaluates rhetorical situations, identifies significant lines of

inquiry, investigates and analyzes available knowledge, and develops rigorous arguments appropriate to the intended audience.

- The **oral communication** requirement trains students in the effective interpretation, composition, and presentation of information, ideas, and values to a specific audience.

Only those courses that are designed specifically to meet the objectives outlined above, and that are assessed for their outcomes in these areas, count for general education credit. See the CCAS Academic Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>) for lists of courses.

While students learn these analytical and communicative skills in a range of disciplines, not all courses in each discipline are designed to teach these skills. Many courses are focused more on content or on other intellectual goals. It is expected that students will not only learn these skills in their general education courses, but also will employ them in their pursuit of their majors and, when they leave the University, their pursuit of their professions and participation in the world around them.

All students are required to take five Tier One courses (for a total of 15 to 16 credits) in a range of disciplines drawn from the social sciences, humanities, natural or physical sciences with a laboratory component, and mathematics or statistics.

- In some cases, these courses may be used to satisfy school-specific requirements and/or major requirements. Students should check with their schools and/or departments to determine which courses may be double counted.
- Students who are contemplating transferring from one school to another should carefully consult the Tier One requirements for the school of origin and the school of transfer to ensure that the general education courses selected for one school also count for the other school.

For their writing requirement, all students are required to take three courses: UW 1020 University Writing and two Writing in the Disciplines (WID) courses. WID courses are designated with a 'W' appended to the course number. WID courses may also fulfill general education, distribution, school-specific, or major requirements, if the courses are designated for that purpose. Students should check with their schools and/or departments to determine which courses may be double counted.

Tier Two: School-Specific General Education and Distribution Requirements

In each school, students must fulfill additional general education or distribution requirements. These Tier Two requirements differ by school. Columbian College of Arts and Sciences (CCAS) provides a liberal arts education, and as such, requires additional general education courses that lead students to deepen the skills developed in Tier One courses. GW School of Business (GWSB), the Elliott School of International Affairs (ESIA), and School of Engineering and Applied Science (SEAS) are professional schools. As such,

they require different courses in Tier Two from those of a general liberal arts education, focusing their requirements on courses appropriate to the professional development of their students as outlined in Tier Three. The Milken Institute School of Public Health (GWSPH) is a hybrid school, offering both liberal arts and professional majors. As a result, GWSPH has limited Tier Two courses and, instead, differentiates additional requirements at the major-level (Tier Three).

CCAS requires additional general education courses at the Tier-Two level. Students continue to develop their skills in critical thinking as well as quantitative and scientific reasoning. They also continue to develop skills in written communication and incorporate global and cross-cultural perspectives as well as civic engagement into some of their learning. Students take approximately 9 to 18 credits to satisfy remaining General Education Requirement in a variety of disciplines and with respect to global perspectives, civic engagement, and oral communication. The courses that satisfy this requirement can be found here (<https://advising.columbian.gwu.edu/general-education-courses/>).

GWSB requires that all students complete the Four Year Development Program, which consists of taking BADM 1001 First-Year Development Course I, BADM 1002 First-Year Development Course II, BADM 3001 Career Management Strategy, and BADM 4001 Leadership and Career Launch.

ESIA requires a minimum of 19 credits at the Tier-Two level. These credits are included within the school's introduction to the major requirement. These courses, which are required for students in all five of ESIA's undergraduate programs, ensure that students are provided with foundational training in disciplines central to international affairs, including economics, history, political science, and anthropology or geography. Introduction to the major requirements also include the Elliott School's signature course, IAFF 1001 First-Year Experience.

ESIA also requires all students to fulfill 25 to 26 credits in the school's supporting courses in the liberal arts requirement. Many course options that fulfill these credits can be applied simultaneously to University-wide Tier One requirements, but technically are unique requirements within ESIA.

Specific information regarding introduction to the major and supporting courses in the liberal arts requirement can be found here (p. 853). Students should consult their program's major requirements page here (p. 833) for information about program-specific foreign language requirements

SEAS requires the course SEAS 1001 (Engineering Orientation) as well as three additional social science and humanities courses at the Tier-Two level to provide intellectual breadth for students. The courses that satisfy this distribution requirement can be found here (p. 680). Students are also required to take two additional mathematics courses and two additional science courses to provide adequate grounding for their engineering and computer science training. Depending on the major,

bachelor of science (BS) students have additional requirements in mathematics and science.

GWSPH requires all students to take PUBH 1101 Introduction to Public Health and Health Services.

Tier Three: Major Requirements for the Degree

Each school requires students to take the required courses for a major.

CCAS: Students are required to select a major and to successfully complete the courses needed to fulfill degree requirements for that major. BS and BA requirements vary by major. Information about program-specific Tier Three requirements can be found by visiting individual program major requirements pages here (p. 83).

GWSB: Students are required to select a major and to successfully complete courses needed to fulfill degree requirements for that major. Information about program-specific Tier Three requirements can be found by visiting individual program major requirements pages here (<http://bulletin.gwu.edu/business/#undergraduatetext>).

ESIA: All ESIA students must demonstrate third-year proficiency in a foreign language and to take school-specific regional foundations courses to develop an understanding of diverse international cultures. The specific means of fulfilling language and regional foundations requirements differ across regional and non-regional programs (e.g., BA and BS in International Affairs students need to fulfill ESIA advanced fundamentals requirements while others do not). All students are required to select a major and to successfully complete the courses needed to fulfill degree requirements for that major. The Elliott School's BS degree, as opposed to its BA degrees, generally requires completion of an additional 18 credits in approved upper-level (2000-level or above) STEM coursework. Information about program-specific Tier Three requirements can be found by visiting individual program major requirements pages here (p. 840).

SEAS: Students are required to select a major and to successfully complete courses needed to fulfill degree requirement for that major. All students are required to complete a capstone project. Information about program-specific Tier Three requirements and recommended program of study for each major can be found by visiting individual program major requirements pages here (p. 688).

GWSPH: Students are required to select a major and to successfully complete the courses needed to fulfill degree requirements for that major. Exercise science students also have the option to select a concentration. Requirements differ across majors and concentrations. In addition, students may have non-GWSPH prerequisites attached to courses required

for their major or concentration. Information about program-specific Tier Three requirements can be found on individual program major requirements pages here (p. 1183).

UNDERGRADUATE ADMISSIONS

The goal of GW's Office of Undergraduate Admissions (<http://undergraduate.admissions.gwu.edu/>) is to create a community of students who pursue academic excellence, thrive in a dynamic environment, and make lasting contributions to GW and the world. In order to identify these students, the admissions review process is holistic and thoughtful, taking many factors into consideration. GW receives applications from every state and nearly 100 countries, allowing us to enroll a bright, talented, and diverse student body.

The Office of Undergraduate Admissions recruits students for Columbian College of Arts and Sciences (including Corcoran School of the Arts and Design and School of Media and Public Affairs), Elliott School of International Affairs, School of Business, School of Engineering and Applied Science, and the Milken Institute School of Public Health. Other schools/colleges at GW have their own admissions offices and policies.

First-Year Students—Early Decision

The University offers two Early Decision options for students who have chosen GW as their first choice school. The deadline for submission of all required documents is November 1 for Early Decision I and January 5 for Early Decision II. Both Early Decision options are binding; if admitted, students agree to attend GW, submit a nonrefundable enrollment deposit by the deadline detailed in their acceptance packet, and withdraw all applications submitted to other colleges.

First-Year Students—Regular Decision

The Regular Decision application deadline is January 5. A complete application file, including the Common Application and writing supplement, official secondary school transcript/academic record, counselor recommendation, teacher recommendation, and application fee must be submitted by that date. The secondary school transcript must be submitted to GW directly from the school in order to be considered official. Incoming first-year students must have their secondary school submit a final transcript that shows all final grades and certification of graduation before enrolling at GW in the fall semester. Failure to submit an official final high school transcript to the Undergraduate Admissions Office could impact a student's ability to move into on-campus housing.

Portfolio Requirement

Applicants for admission to bachelor of fine arts (BFA) programs in the Corcoran School of the Arts and Design (<http://corcoran.gwu.edu/>) (except for the BFA in interior architecture) are required to submit a portfolio of 10 to 15 completed works of art as part of the application process. Once a student indicates an interest in a BFA program at the Corcoran School on their Common Application, they are directed to a third-party website, SlideRoom, to submit their portfolio. The Undergraduate Admissions Office reviews

portfolios only for students who are applying to a BFA program.

Entrance Examinations

As a test-optional institution, GW allows most applicants to decide whether to submit scores on either the College Board Scholastic Assessment Test (https://sat.collegeboard.org/SAT/next-steps-toward-college/?s_kwcid=AL%214330%213%2170927704644%21b%21%21g%21%21collegeboard&ef_id=VYB-rgAABKpqtRg9:20150831144404:s) (SAT) or on the American College Testing (<http://www.act.org/>) (ACT) to be included in their application.

This test-optional policy does not apply to the following groups of applicants:

- Applicants to the accelerated seven-year BA/MD program; such students also are required to submit SAT Subject Tests in mathematics and science.
- Applicants who are homeschooled.
- Applicants from secondary schools that provide only narrative evaluations rather than grades based on some form of grading scale.
- Recruited NCAA Division I athletes.

Students who choose to submit scores must have them sent by the testing agency directly to the Office of Undergraduate Admissions. All entering students who have scores are asked to submit these scores to GW prior to enrolling for their first year at GW.

International Students

In addition to the Common Application and the supporting credentials listed above, international students must submit the following documents in order to be considered for admission:

Required Records

International students must have all previously attended educational institutions send copies of official certificates and records listing subjects studied, examinations taken, grades received, and degrees received directly to the Office of Undergraduate Admissions. Certified copies of diplomas and certificates from all secondary schools, colleges, and universities attended as well as records of state examinations and certificates are also required. These records become the property of the University and cannot be returned. In addition, documents must be in the language in which the institution keeps its official records. If they are in a language other than English, the copies sent must be accompanied by a certified English translation. Documents must be submitted for the years of 9th through 12th grades or the equivalent in countries other than the United States.

Language Tests

Applicants who indicate on their Common Application that their first language is not English are required to submit scores

from the Test of English as a Foreign Language (TOEFL), the International English Language Testing System (IELTS), or the PTE Academic, regardless of citizenship or country of residence. The minimum required scores are 90 on the Internet-based TOEFL and 6.5 on the IELTS; however, strong applicants to GW typically score much higher than the required minimums, and scores of at least 100 on the TOEFL and 7.0 on the IELTS are recommended. The TOEFL/IELTS/PTE Academic requirement may be waived for applicants who score 650 or above on the Critical Reading section of the SAT or a 29 or above on the Reading section of the ACT. The Office of Undergraduate Admissions may, at its discretion, require additional English language proficiency results for students who have taken ESL/ELL courses in their high school.

Students should plan to take the test in question well in advance of the application deadline in order for scores to be available in time and should request to have the scores sent to the GW Office of Undergraduate Admissions directly from the testing agency. TOEFL scores more than two years old are not be considered valid.

GW's application review process is holistic, paying close attention to the strength of the student's high school curriculum and achievement in the classroom over time. The University reserves the right to make exceptions to the stated English proficiency standards, or to waive submission of required official test results, when considering a student's candidacy for admission.

If a student's application suggests that they might benefit from additional English language support, they may be required to take additional English language courses at GW through the University's English for Academic Purposes (EAP) Program (<http://eap.columbian.gwu.edu/>).

Financial Certification

All international students planning to study on either a student (F) visa or exchange visitor (J) visa must complete and submit a George Washington University financial certificate. The completed and signed financial certificate and a bank letter are required for the issuance of Form I-20 or DS-2019, one of which is needed to apply for the F or J visas.

Transfer Students

GW considers for transfer admission any student who has completed at least one college course since secondary school graduation. Transfer applicants must submit the Common Application and supporting credentials (including official college transcripts, the Transfer College Report for each institution attended, and a faculty recommendation) by April 15 for fall admission and October 15 for spring admission.

Transfer applicants must be in good standing in terms of academic record and conduct at all post-secondary institutions previously attended. Applicants who have attended one or more institutions of higher education must submit official transcripts from each institution even if credit was not sought

or earned or if advanced standing is not desired. In addition, applicants must submit an official secondary school transcript if they have earned fewer than 30 credits at the time of application. Prior to enrolling at GW, incoming transfer students must submit final official transcripts with grades for all courses pursued from any college or university previously attended.

All international transcripts must be evaluated by a professional evaluation agency and include an English translation if the transcript is in a language other than English. It is the sole responsibility of the student to obtain and cover the cost of this service. GW's Office of Undergraduate Admissions accepts evaluations from any company recognized by the National Association of Credential Evaluation Services (NACES) (www.naces.org) but recommends the World Education Services (www.wes.org) and Educational Credential Evaluators (www.ece.org).

Assignment of Credit for Transfer Students

Note: Separate policies (p. 52) apply to undergraduate programs in the School of Nursing, School of Medicine and Health Sciences, and College of Professional Studies.

Provided there is no duplication involved through coursework or examination, domestic transfer credit may be granted for coursework successfully completed at other regionally accredited institutions of higher learning. International transfer credit may be granted for coursework successfully completed at an institution of higher learning recognized by the relevant country's ministry of education or equivalent body. Transfer credit is not awarded for the Joint Services Transcript (JST) to undergraduate students admitted to these schools.

Assignment of transfer credit depends on the grade earned, the appropriateness of the coursework, the standing of the institution at which the coursework was completed, and the regulations of the school or college to which the student is transferring. Coursework completed at another institution must have received a minimum grade of C- to be accepted for transfer credit.

While there is no limit to the number of credits that can be transferred to the University, GW's residence requirement limits the number of transfer credits that can be applied toward a degree. Students must complete at least 60 credits of the total credits required for their degree at or through the University. Credits earned through GW study abroad, GW satellite campuses, GW distance education, and the Consortium of Universities of the Washington Metropolitan Area are treated as in residence.

Transfer credit must satisfy the requirements for the degree sought as stated in this Bulletin. The University reserves the right to determine course equivalency and degree applicability. Transfer credit is not assigned for coursework completed in vocational/technical programs (e.g., secretarial studies) or

sub-freshman level remedial work. Each GW school or college reserves the right to refuse credit for transfer in whole or in part. If a grade earned in a course is below the minimum to be accepted for transfer credit, the course may satisfy a curriculum requirement.

Transfer credit that is accepted and applied to a student's GW academic record counts toward the number of credits completed only. The grades from these courses are not used in calculating a student's GW grade-point average.

See separate policies (p. 52) applicable to undergraduate programs in the School of Nursing, School of Medicine and Health Sciences, and College of Professional Studies.

Advanced Standing and Advanced Placement

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded upon admission to the University for any combination of Advanced Placement (AP) and International Baccalaureate (IB) examinations. An incoming student also may be granted advanced placement in a sequence of courses or waiver of a course requirement based on additional college-level coursework taken in secondary school or before matriculation; however, this does not affect the number of credits needed for the degree.

College Board Advanced Placement (<https://apstudent.collegeboard.org/home/>) (AP) Tests
Credit may be awarded for Advanced Placement tests with certain score results, typically 4s and 5s. (Refer to the GW Undergraduate Admissions website for the AP credit assignment chart (<https://undergraduate.admissions.gwu.edu/bring-credits-gw/>).) Students must have AP score reports sent directly from the College Board to the Office of Undergraduate Admissions.

International Baccalaureate (<http://www.ibo.org/>) (IB)
GW typically awards 6 to 8 credits for scores of 6 or 7 on the higher-level examinations. (Refer to the GW Undergraduate Admissions website for the IB credit assignment chart (<https://undergraduate.admissions.gwu.edu/bring-credits-gw/>).) Students must have IB score reports sent directly from International Baccalaureate to the Office of Undergraduate Admissions.

Enrollment Deposit

After notification of admission, all new undergraduate students are required to submit a nonrefundable enrollment deposit. This deposit is due May 1 for first-year students. For transfer students and full-time readmitted students, the deposit usually is due two to three weeks after notification of admission.

Readmission

This policy is in effect for students previously enrolled in and wishing to return to Columbian College of Arts and Sciences (including Corcoran School of the Arts and Design and School

of Media and Public Affairs), Elliott School of International Affairs, School of Business, School of Engineering and Applied Science, and the Milken Institute School of Public Health. A student wishing to enroll in another GW school or college should refer to that school/college's readmission policy. Students who previously were registered at GW who wish to resume studies at the University after discontinuing enrollment for one or more semesters (summer sessions and leaves of absence excluded) must apply for readmission. Deadlines for applications for readmission from students in good academic standing are March 15 for the fall semester and October 31 for the spring semester. Students seeking readmission must have official transcripts sent to the Office of Undergraduate Admissions from all other institutions of higher education they attended in the interim. Students seeking readmission as degree candidates after previous enrollment in non-degree status at GW must submit the Common Application and all required credentials that were not submitted previously or required for non-degree admission.

Applicants for readmission are subject to the University regulations in effect at the time of readmission. The application fee is waived for students applying for readmission after previous enrollment as a degree candidate.

ADVANCED PLACEMENT EQUIVALENTS

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded on the basis of work completed while enrolled in high school through examinations such as AP, IB, and A-Levels.

Credit through Examination

In order to receive credit for College Board Advanced Placement (AP) examinations, students must have official score results forwarded directly to GW Office of Undergraduate Admission from the College Board. GW's College Board code is 5246.

Be aware that credit earned by examination at other colleges or universities or examinations taken after having taken the appropriate college-level course will not transfer credit to GW.

Please refer to the following charts for GW's course equivalents:

Advanced Placement Equivalents

Advanced Placement (AP) Examination	Score	Credits Awarded	GW Course Equivalent
Arts			
AP Art History	4 or 5	6	AH 1031 and AH 1032

*If there is no direct GW course equivalent, credits are transferred in using course number 1099 under the appropriate departmental designation.

The University reserves the right to change its policy regarding advanced placement credit without advance notice.

A-LEVEL EQUIVALENTS

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded based on work completed while enrolled in high school through examinations such as AP/IB/A-Levels.

Credit through Examination

In order to receive credit for Advanced-Level (A-Level) examinations, students must have their final (not provisional), official exam results sent directly from the exam board or their secondary school to the GW Office of the Registrar as soon as they are available.

Be aware that credit earned by examination at other colleges or universities or examinations taken after having taken the appropriate college-level course does not transfer credit to GW.

INTERNATIONAL BACCALAUREATE EQUIVALENTS

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded based on work completed while enrolled in high school through examinations such as AP/IB/A-Levels.

Credit through Examination

In order to receive credit for International Baccalaureate (IB) examinations, students must have their official score results sent to GW Office of Undergraduate Admissions as soon as they are available. Official International Baccalaureate (IB) results should be sent as soon as they are available.

Be aware that credit earned by examination at other colleges or universities or examinations taken after having taken the appropriate college-level course does not transfer credit to GW.

Please refer to the following charts for GW's course equivalents:

International Baccalaureate Equivalents

*If there is no direct GW course equivalent, credits are transferred in using course number 1099 under the appropriate departmental designation.

The University reserves the right to change its International Baccalaureate Equivalents policy without advance notice.

ASSIGNMENT OF CREDITS FOR TRANSFER STUDENTS

The University has different policies for transfer credit depending on the school or college to which the student is transferring.

Columbian College of Arts and Sciences, Elliott School of International Affairs, GW School of Business, Milken Institute School of Public Health, and School of Engineering and Applied Sciences admit both incoming freshmen and students who have attended a post-secondary institution after completing a high school diploma. These schools share the same transfer policy for undergraduate students (see below).

The School of Nursing (SON), School of Medicine and Health Sciences (SMHS), and College of Professional of Professional Studies (CPS) admit only students who have attended an institution of higher learning after earning a high school diploma. Each of these schools applies its own transfer policy for undergraduate students (see below).

For the Following GW Schools:

- Columbian College of Arts and Sciences (CCAS)
- Elliott School of International Affairs (ESIA)
- GW School of Business (GWSB)
- Milken Institute School of Public Health (GWSPH)
- School of Engineering and Applied Science (SEAS)

Provided there is no duplication involved through coursework or examination, domestic transfer credit may be granted for coursework successfully completed at other regionally accredited institutions of higher learning. International transfer credit may be granted for coursework successfully completed at an institution of higher learning recognized by the relevant country's ministry of education or equivalent body. Transfer credit is not awarded for the Joint Services Transcript (JST) to undergraduate students admitted to these schools. Students admitted to other GW schools (School of Medicine and Health Sciences, School of Nursing, and College of Professional Students) should contact the respective school's admissions office to inquire about JST credit.

Assignment of transfer credit depends on the grade earned, the appropriateness of the coursework, the standing of the institution at which the coursework was completed, and the regulations of the school or college to which the student is transferring. For CCAS, ESIA, GWSB, GWSPH, and SEAS, coursework completed at another institution must have received a grade of C- or above to be accepted for transfer credit.

While there is no limit to the number of credits that can be transferred to the University, GW's residence requirement limits the number of transfer credits that can be applied toward a degree. Students must complete at least 60 credits of the total credits required for their degree at or through the University. Credits earned through GW Study Abroad, GW satellite campuses, GW distance education, and the Consortium of Universities of the Washington Metropolitan Area are treated as in residence.

Transfer credit must satisfy the requirements for the degree sought as stated in this Bulletin. The University reserves the right to determine course equivalency and degree applicability. Transfer credit is not assigned for coursework completed in vocational/technical programs (e.g., internships and practicums) or pre-college level remedial work. Each GW school or college reserves the right to refuse credit for transfer in whole or in part. If a grade earned in a course is eligible to be accepted for transfer credit, the course may satisfy a curriculum requirement and counts toward the number of credits completed. The grades from these courses are not used in calculating a student's GW grade-point average.

Pre-Matriculation Credit for Incoming Freshmen

Assuming there is no duplication of coursework, a maximum of 24 credits may be awarded based on coursework completed while enrolled in high school through examinations such as Advanced Placement (AP), International Baccalaureate (IB), and Advanced Level (A Level). While there is no limit to the number of pre-matriculation credits a high school student may transfer to GW from a post-secondary institution, students must complete at least 60 credits of the total credits required for their degree at or through the University. Coursework taken at another institution must have received a grade of C- or above to be accepted for transfer credit.

School of Medicine and Health Sciences

Transfer credit may be awarded for coursework completed at other accredited institutions provided minimum grade requirements have been met and the coursework is appropriate to the degree. Coursework completed at another institution must have received a grade of C or above to be accepted for transfer credit. Transfer credit also may be considered from Advanced Placement (AP) and International Baccalaureate (IB) examinations. Please refer to GW undergraduate admissions for information on maximum credits, minimum scores, and GW course equivalents for AP and IB credits. Advanced standing also may be awarded for non-traditional classroom or clinical experience as determined by each individual program. The School of Medicine and Health Sciences reserves the right to determine course equivalency and degree applicability.

Health sciences degree programs vary in the number of advanced standing credits they will award. For bachelor's programs, no more than 66 credits will be accepted as advanced standing from a two-year institution. Degree candidates who currently are enrolled at GW and wish to take courses at other regionally accredited institutions for transfer credit must first obtain program approval.

Transfer credit that is accepted and applied to a student's GW academic record counts toward the number of credits completed only. The grades from these courses are not used in calculating a student's GW grade-point average.

School of Nursing

Transfer credit may be awarded for coursework completed at other accredited institutions provided minimum grade requirements have been met and the coursework is appropriate to the degree. Coursework completed at another institution must have received a grade of C or above to be accepted for transfer credit. Students must complete at least 60 credits of the total credits required for their degree at GW. The School of Nursing reserves the right to determine course equivalency and degree applicability.

Transfer credit that is accepted and applied to a student's GW academic record counts toward the number of credits

completed only. The grades from these courses are not used in calculating a student's GW grade-point average.

College of Professional Studies

Subject to individual program requirements, transfer credit may be awarded for coursework completed at other accredited institutions provided minimum grade requirements have been met and the coursework is appropriate to the degree. No more than 60 credits from a regionally accredited institution may be accepted for transfer. Coursework completed at another institution must have received a grade of C or above to be accepted for transfer credit.

The College of Professional Studies reserves the right to determine course equivalency and degree applicability. Once enrolled, CPS students are not permitted to transfer credit from coursework taken outside the University, except under extraordinary circumstances and with the advance permission of the Dean.

Transfer credit that is accepted and applied to a student's GW academic record counts toward the number of credits completed only. The grades from these courses are not used in calculating a student's GW grade-point average.

FEES AND FINANCIAL REGULATIONS

The following fees and financial regulations were adopted for the academic year 2020-21. Information on tuition and fees for the 2020 summer sessions is available on the Summer and Special Programs website (<http://summer.gwu.edu/>).

Tuition and Fees

Tuition

For undergraduates entering GW in academic year 2020-21, tuition for full-time* undergraduate study for students entering Columbian College of Arts and Sciences, GW School of Business, Elliott School of International Affairs, Milken Institute School of Public Health, and School of Engineering and Applied Science is \$58,550.

The fixed-rate tuition remains in effect as previously stated for undergraduates in the schools listed above for those who entered GW in 2019-20 (\$56,845), 2018-19 (\$55,140); 2017-18 (\$53,435); and 2016-17 (\$51,875).

Half-time and part-time undergraduate students are charged \$1,675 per credit. Non-degree students are charged \$1,750.

Tuition stated here excludes undergraduate programs in professional studies, nursing, and health sciences. Applicable rates for the College of Professional Studies, School of Nursing, and health sciences programs in the School of Medicine and Health Sciences are available on the Student Accounts Office website (<https://studentaccounts.gwu.edu/undergraduate-tuition/>).

Tuition for students admitted to the BA/MD program are indicated in the letter of admission.

The schedule of tuition and fees adopted for graduate programs for the academic year 2020-21 appears on the Student Accounts Office website (<https://studentaccounts.gwu.edu/graduate-tuition/>).

* A full-time program is defined as 12 to 18 credits per semester. Undergraduates taking more than 18 credits per semester are charged at the rate of 1 credit for each credit exceeding that limit, with the exception of students in the School of Engineering and Applied Science, who are not charged for the 19th credit if required by their program.

Student Association Fee

Undergraduate students entering in the fall 2020 semester and all graduate students are assessed a nonrefundable student association fee of \$3.00 per credit to a maximum of \$45.00 per semester. Returning undergraduate students are assessed the fee as follows: for those who entered GW

in 2019-20—\$3.00 per credit to a maximum of \$45.00 per semester; 2018-19—\$3.00 per credit to a maximum of \$45.00 per semester; 2017-18—\$2.75 per credit to a maximum of \$41.25 per semester; 2016-17—\$2.50 per credit to a maximum of \$37.50 per semester.

Housing and Dining

The fee structures for University housing and dining plans can be found at Campus Living and Residential Education (<https://living.gwu.edu/>) and GW Campus Dining (<http://gwcampusdining.com/>) websites.

Continuing Research

All master's and doctoral students who have completed their required number of credits (including coursework and thesis or dissertation research) must register each subsequent fall and spring semester for 1 credit of Continuing Research as specified by the regulations of the school concerned.

Payment of tuition for thesis or dissertation research entitles the candidate, during the period of registration, to the advice and direction of the member of the faculty under whom the thesis or dissertation is to be written. Accepted dissertations and theses are submitted electronically; the student pays a processing fee directly to Proquest.

Additional Course Fees

Some courses carry additional fees, such as a laboratory or material fee, which are charged by semester. The amount appears in the Schedule of Classes (<http://my.gwu.edu/mod/pws/>).

Special Fees and Deposits (nonrefundable)

Application fee	\$80
Advance deposit, charged each entering or readmitted full-time undergraduate student	\$800
Matriculation fee, charged each entering full-time undergraduate (matriculation and enrollment fees for graduate students are provided on the Student Accounts Office website)	\$350
International student fee, charged each fall and spring semester to students on F-1 or J-1 visas entering in or after 2016-17	\$45
Registration for off-campus and online programs	\$35
Late payment fees (see Past Due Accounts, below)	\$150
Late authorization fee for third-party payment (see Third-Party Payment, below)	\$100
Returned payment fee, charged a student whose payment is improperly drafted, incomplete, or returned by the bank for any reason	\$35
Electronic transcript fee	\$8
Mailed transcript fee (additional fees may apply for mail services)	\$11
In person pickup transcript fee	\$15

Replacement of lost or stolen picture identification \$25 card

Replacement of diploma \$50

Study Abroad Fees for Academic Year 2020-21*

Tier 1 Programs GW Tuition + \$850 program fee

Tier 2 Programs GW Tuition + \$1,850 program fee

Tier 3 Programs GW Tuition + \$5,735 program fee

Tier 4 Programs GW Tuition + \$6,260 program fee

Tier 5 Programs GW Tuition + \$6,785 program fee

Tier 6 Programs GW Tuition + \$7,310 program fee

Tier 7 Programs GW Tuition + \$8,150 program fee

Withdrawal Fee \$575**

* The fees listed above are for the 2020-21 academic year. Fees for the 2021-22 academic year are subject to change.

** See Office of Study Abroad withdrawal policy (<http://studyabroad.gwu.edu/withdrawal-policy/>) for more details.

Postdoctoral Study

Those who have graduated from George Washington University with a PhD, EdD, DSc, or DEng may continue studies in the University without payment of tuition (contingent upon the availability of space) and may enjoy all University library privileges. Such graduates pay the prevailing charge for 1 credit in order to establish their active membership in the University. The graduate pays for the use of laboratory or special library material. Special arrangements for such privileges must be made with the dean two months in advance of the semester in which the graduate wishes to register. Postdoctoral work taken under this privilege may not be taken for credit.

Payment of Tuition and Fees

Students who register for courses in any semester incur a financial obligation to the University. Tuition and fees are due and must be paid in full by the first day of the University semester as indicated on the Academic Calendar (<http://bulletin.gwu.edu/academic-calendar/>); students on the monthly payment plan are exempt from this regulation. The University reserves the right to revoke the registration, effective to the beginning of the semester, of any student who fails to make full payment; however, failure to attend classes does not exempt students from their financial obligation. Students whose registration privileges have been disallowed for failure

to make timely payments are not permitted to attend classes and may not occupy University housing.

Department of Veteran Affairs Payments

GW students who are eligible to receive benefits from the Department of Veteran Affairs (VA) under Chapter 31 Vocational Rehabilitation and Services (VR&E) and/or Chapter 33 Post 9/11 GI Bill must submit a request for certification for each semester or summer session in which they elect to receive funding. Once the certification is approved, GW will not impose any penalty upon students unable to meet their financial obligations to the University due to delayed tuition and fees payment and/or delayed disbursement funding from the VA. This includes, but is not limited to, assessing late fees, denying access to classes, libraries or other institutional facilities, or requiring any covered students to borrow additional funds to cover past due balances caused by delays in VA funding.

Monthly Payment Plan

This payment plan is open to all students and is available on a semester basis, with four-month plans for the fall and spring semesters and a three-month plan for the summer session. To participate in the plan, students must be registered for classes and enroll in the plan before the start of the applicable semester. Upon enrollment in the plan, students pay a non-refundable payment plan set up fee. The monthly payment plan for the fall semester begins in July and ends in October, the spring semester plan begins in December and ends in March, and the summer session plan begins in April and ends in June. Under the plan, all payments are due on the 10th of each month; if payments are received by that date, no interest or late fees will be incurred. Students who enroll in the plan after the first month of scheduled payments must make up all payments retroactive to the first month of scheduled payments as a down payment on the plan. No additional fees will be charged while the student is actively participating in the plan; missed payments will result in the deactivation of a student's plan and the accrual of interest and late fees. After the first day of the semester, all plans will be updated to reflect the student's actual remaining balance, less pending financial aid. Any balance remaining at the conclusion of the payment plan are subject to interest and late fees. For more information, see the monthly payment plan (<http://studentaccounts.gwu.edu/monthly-payment-plan/>) page.

Third-Party Payment

The University accepts employer vouchers or purchase orders that are not contingent upon receipt of grades. Under all circumstances, the charges for tuition and fees remain the responsibility of the student. Authorization from a sponsor to be billed for a student's charges must be received in the Student Accounts Office by the end of the first week of the fall or spring semester. A late authorization fee may be incurred for responses received after the deadline. Bills are mailed to sponsors in October for the fall semester and in February for the spring semester. Should a sponsor fail to remit payment to the University, the University will contact the student for

payment. Students whose employers or sponsors reimburse them for tuition and fees after receipt of grades must pay in full before the first day of the semester or at the time of registration to avoid interest, late fees, holds, and/or cancellation of registration. Students whose tuition and fees are paid in full or in part by a third party must pay any remaining balance by the stated due date to avoid interest, late fees, holds, and/or cancellation of registration.

Past Due Accounts

Accounts that are past due are encumbered by the University. A student whose account is encumbered (balance greater than \$1,000 while registered or any balance amount remaining without a future registration) may not register for future semesters, or access grades, housing assignments, diplomas, transcripts, or other University services. Late payment fees and interest also may be assessed each month that the account has an overdue outstanding balance or if payment plan payments are missed. See the University’s Tuition Payment Disclosure Statement (<http://studentaccounts.gwu.edu/disclosures/>) for more information regarding these fees and billing practices. Accounts that are more than 90 days past due are eligible for collections activity, including referral to a collection agency and/or attorney. Students whose registration privileges have been disallowed for failure to make timely payments are not permitted to attend classes and may not occupy University housing.

Disputes must be submitted to the Student Accounts office within 60 days of the charge being applied. If the University deems the disputed amounts to be correct, the student is liable for any interest and late fees accrued during the review period.

Dishonored/Returned Payments

A student whose payment is returned unpaid by the bank for any reason will be charged a returned payment fee and will be responsible for any associated costs and/or attorney’s fees incurred by the University should a civil lawsuit or other collection effort be instituted to collect on such dishonored payment. This fee will also be charged to students who initiate a successful chargeback, in addition to the processing fee. An account hold will be in place for 10 days after subsequent payment is made. If multiple payments are returned, the University may require all future payments to be made with certified funds. In any case where the University has reason to believe that a student presented a dishonored payment in bad faith, the University may, in addition to any collection efforts, refer the matter to the proper authorities for criminal prosecution.

Withdrawals and Refunds

Applications for withdrawal from the University or from a course after the registration period must be made in accordance with procedures outlined under University Regulations (<http://bulletin.gwu.edu/university-regulations/>) in the sections Complete Withdrawal from the University and Adding, Dropping, and Withdrawing from Courses, respectively.

Financial aid recipients must notify the Office of Student Financial Assistance (<https://financialaid.gwu.edu/>) in writing. The tuition deposit required of entering students will not be refunded.

In the case of authorized withdrawals and changes in registration schedule, cancellations of semester tuition charges and fees will be made in accordance with the following schedule for the fall and spring semesters:

1. Complete withdrawal from all courses (on-campus students):

Withdrawal dated on or before the end of the first week of the semester	90%
Withdrawal dated on or before the end of the second week of the semester	60%
Withdrawal dated on or before the end of the third week of the semester	40%
Withdrawal dated on or before the end of the fourth week of the semester	25%
Withdrawal dated after the fourth week of the semester	None

2. Partial withdrawal: If the change in workload results in a lower tuition charge, the refund schedule above applies to the difference.

3. Regulations governing student withdrawals as they relate to University housing and dining services charges are contained in the specific lease arrangements.

4. Summer sessions: In cases of authorized withdrawals from courses, refunds of 85% of tuition and fees will be made for on-campus courses dropped within the first seven calendar days of the start of a session. No refund will be made for courses dropped thereafter.

Certain programs or courses or those with non-traditional semesters may have special refund schedules. Students are encouraged to consult with their program office to determine if a special schedule applies.

Federal regulations require that financial aid recipients use refunds to repay financial aid received for that semester’s attendance. This policy applies to institutional aid as well.

If a recipient of federal financial aid withdraws from the University or reduces their workload, federal regulations require that the University reevaluate the student’s eligibility to determine the amount of aid the student is allowed to retain. If there is a credit balance on the student’s account after the federal funds have been adjusted, institutional funds will be recovered from that amount.

See the University’s complete Return of Title IV funds policy (<http://go.gwu.edu/returntitleivpolicy/>).

In no case will tuition be reduced or refunded because of the student’s absence from classes. Authorization to withdraw and

certification for work done will not be provided to a student whose account is not in good standing.

FINANCIAL AID

Office of Student Financial Assistance

Location: 800 21st Street NW, Colonial Central, Marvin Center/
Ground Floor, Washington, DC 20052. Email: finaid@gwu.edu.
Phone: 202-994-6620. Online (<https://financialaid.gwu.edu/>).

The George Washington University offers financial assistance to all eligible students from a variety of resources. In addition to GW assistance, the University participates in federal student aid programs from the U.S. Department of Education and student financial assistance programs from other U.S. government agencies such as the U.S. Department of Veterans Affairs and the U.S. Department of Defense. Some states offer student financial assistance for undergraduate enrollment at GW.

In general, consideration for student financial assistance is restricted to students in good academic standing at the University who meet minimum grade-point average and satisfactory academic progress requirements for specific awards and not financially encumbered by any other University office. Failure to meet and maintain satisfactory academic progress requirements may result in rescinding of awards.

GW reserves the right to request documentation to determine aid eligibility. Documents submitted as part of the aid application become the property of the University and cannot be returned. Such documents are protected under the Family Educational Rights and Privacy Act (FERPA), as amended. Federal regulation requires the University to report cases of suspected fraud or misrepresentation to appropriate federal, state, and local authorities.

Gift aid, such as grants, scholarships, fellowships, is student financial assistance not required to be repaid. Gift aid is taxable under federal regulation to the extent that it exceeds the allowable costs of tuition, fees, and required books and supplies, or is dedicated to other costs such as room and board. Federal grants may be taxable if, together with other gift aid, they exceed allowable costs. For complete information on IRS rules regarding educational costs, see IRS Publication 970, *Tax Benefits for Education*.

Self-help aid is aid that students undertake on their own behalf, either in the form of earnings via the Federal Work-Study program or through borrowing. Loans must be repaid.

Eligibility for student aid is processed under cost of attendance budgets for various categories of students, per federal statutory requirements. Refer to the policy on cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance/>) for details. A complete student aid package cannot exceed a student's cost of attendance budget. GW will review and potentially adjust awards for students receiving student financial assistance from more than one source. Receipt of student financial assistance from multiple sources cannot

exceed tuition charges. If institutional aid is involved, adjustments will be made.

Non-degree and certificate programs that are approved for federal student aid programs must provide "gainful employment" disclosures under federal regulation. Such disclosures are found on the respective academic programs' website. Continued Title IV certification for these programs are reviewed annually.

For complete information on student financial assistance at GW, visit the Office of Student Financial Assistance website (<http://financialaid.gwu.edu/>).

Information in this section of the Bulletin is accurate as of the date of its publication and is subject to change based on changes in federal and/or state statute, regulation, policies and procedures (which may, in turn, necessitate changes to application procedures and policies). The University reserves the right to change student financial assistance policies.

UNDERGRADUATE

Undergraduate Financial Aid

All freshmen automatically are considered for a merit-based scholarship, which is awarded to the most competitive applicants in the applicant pool. Complete information on merit-based awards (awards based on academic criteria) are available on the website of the Office of Undergraduate Admissions (<http://undergraduate.admissions.gwu.edu/scholarships/>).

The Office of Student Financial Assistance (<http://financialaid.gwu.edu/>) (OSFA) awards various need-based GW institutional financial aid funds: The largest fund awarded is the University and Alumni Award (<http://financialaid.gwu.edu/university-and-alumni-award/>). In addition, the Office awards University Scholarships (see the section below) and the One-Year Award (<http://financialaid.gwu.edu/one-year-award/>).

The following scholarships programs are also available:

The J.B. and Maurice C. Shapiro Scholarship to the University of Oxford is awarded each spring to a graduating senior or recent graduate through a competitive process upon the nominee's acceptance to Oxford. To be eligible, applicants must have applied for the Rhodes or British Marshall Scholarships. All of these competitions require high academic standing, evidence of leadership, and dedication to the larger society through community service. The Shapiro Scholarship provides for up to two years of study at Oxford, equivalent to the Rhodes Scholarship. The J.B. and Maurice C. Shapiro Endowment funds two scholarships per year—one new and one renewal.

The Pembroke/CW Program. GW has a special relationship with Pembroke College in Oxford, whereby up to six GW juniors are placed at the College for one year and enrolled as fully matriculated students of the University of Oxford. These

placements are determined in an annual competition that takes place at GW in the fall. The committee evaluating candidates forwards the finalists' applications to Pembroke College, and Pembroke makes the final decision on placements. Many GW students have spent a year at Oxford in this program.

Need-Based Financial Aid

All freshman and transfer students are required to file both the College Scholarship Service PROFILE (<https://student.collegeboard.org/css-financial-aid-profile/>)—which is not an application for funds, but provides a need analysis that many schools use to awards its own funds—and the Free Application for Federal Student Aid (<https://fafsa.ed.gov/>) (FAFSA), which is the application for federal student aid programs (and which many states use as application for their own funds). Applicants must designate GW as recipient of their need analysis data. All applicants must also provide to GW directly copies of their signed federal income tax returns and W-2 Forms for the current tax year for the student and the student's parents (if a dependent student). Non-custodial parents are also required to provide disclosures. See policies on Parental Contribution for Dependent Students (<http://financialaid.gwu.edu/policy-parental-contribution-dependent-students/>).

Complete application information is available on the OSFA website (<http://financialaid.gwu.edu/>) under the section titled "Getting Assistance."

Application deadlines depend on whether a new undergraduate or continuing undergraduate student. See the OSFA website (<http://financialaid.gwu.edu/>) for complete details on respective application deadlines (<https://financialaid.gwu.edu/deadlines/>).

Students must reapply for any need-based aid, including need-based scholarships, and must meet/maintain satisfactory academic progress requirements per specific student aid program requirements.

Federal Student Aid Programs

The following federal student aid programs are available to eligible students at GW: Federal Pell Grants (<http://financialaid.gwu.edu/federal-pell-grant/>), Federal Supplemental Educational Opportunity Grants (<http://financialaid.gwu.edu/federal-supplemental-educational-opportunity-grant/>) (FSEOG), Federal Work-Study (<http://financialaid.gwu.edu/work-study/>) (FWS), Federal Direct Stafford Loans (<http://financialaid.gwu.edu/federal-direct-loans/>), Federal Direct PLUS Loans (<http://financialaid.gwu.edu/federal-direct-parent-plus-loan/>), and TEACH Grants (<https://gsehd.gwu.edu/admissions/#tuition-and-scholarships>). The U.S. Department of Education's Federal Student Aid (<https://studentaid.ed.gov/sa/>) website includes complete program details. We especially recommend that you download, review and retain the various student loan publications from the U.S. Department of Education, which are available on

the Federal Student Aid Resources (<https://studentaid.ed.gov/sa/resources/>) website.

Federal Direct Stafford Loans

Federal Direct Stafford Loans are student loans from the U.S. Department of Education in which the student is the borrower. Annual loan limits are as follows:

Dependent undergraduates (most students under the age of 24):

- \$5,500 as freshmen (No more than \$3,500 of this amount may be in subsidized loans)
- \$6,500 as sophomores (No more than \$4,500 of this amount may be in subsidized loans)
- \$7,500 as junior and seniors (No more than \$5,500 of this amount may be in subsidized loans)

Independent undergraduates (students 24 years or age and older) and dependent students whose parents are unable to borrow under the Federal Direct PLUS Loan program:

- \$9,500 as freshmen (No more than \$3,500 of this amount may be in subsidized loans)
- \$10,500 as sophomores No more than \$4,500 of this amount may be in subsidized loans)
- \$12,500 as juniors and seniors (No more than \$5,500 of this amount may be in subsidized loans)

Federal student loan programs also have aggregate (lifetime) loan limits (<https://studentaid.ed.gov/sa/types/loans/subsidized-unsubsidized/>).

- For **dependent students** (except student whose parents are unable to borrow under the Federal Direct PLUS Loan program), the subsidized and unsubsidized aggregate loan limit is \$31,000, with no more than \$23,000 of this amount being subsidized loans.
- **Independent students** (and dependent undergraduate students whose parents are unable to obtain PLUS Loans) - the undergraduate aggregate loan limit is \$57,500, and no more than \$23,000 of this amount may be in subsidized loans.

For students who receive subsidized Stafford loans as part of their need-based financial aid award, the government pays the interest while they are enrolled in school at least half time and for six months after they leave school. Students ineligible, or only partly eligible, for subsidized funds may apply for an unsubsidized Stafford Loan up to the same limits to cover their family contribution. Terms and conditions are the same, except that the student borrower is responsible for all interest that accrues on the unsubsidized loan from the date it is disbursed; deferments are available. Independent students (and students whose parents are denied a PLUS loan) are eligible to borrow additional unsubsidized Stafford funds of \$4,000 as freshmen and sophomores and \$5,000 as juniors and seniors.

There are fees associated with both subsidized and unsubsidized Stafford loans. Interest rates and fees are set on an annual basis by federal statute, usually by June 1 and taking effect on July 1 through the following June 30. See the U.S. Department of Education's Federal Student Aid (<https://studentaid.ed.gov/sa/types/loans/interest-rates/>) website for up-to-date information on interest rates and associated loan fees.

Federal Direct PLUS Loans

The Federal Direct PLUS Loan is a government-sponsored, credit-based, fixed-rate loan that can be used to supplement the student's Federal Direct Stafford Loan or to help with their family contribution. The U.S. Department of Education is the lender. Each academic year, parents without an adverse credit history may apply for a Federal Direct PLUS loan up to the cost of education, minus financial aid, for each dependent child attending college at least half-time. Loan repayment begins within 60 days of the last disbursement and the maximum repayment term is ten years.

Origination fees are deducted from loan proceeds prior to disbursement. Families who intend to use loan funds for payment of University charges at time of registration should submit a loan application and all supporting documents to OSFA no later than May 1 for the fall semester, October 1 for the spring semester, and March 1 for summer sessions. See the OSFA website (<http://financialaid.gwu.edu/federal-direct-parent-plus-loan/>) for details and application procedures. See also The U.S. Department of Education's information on Federal Direct PLUS Loans (<https://studentaid.ed.gov/sa/types/loans/plus/>).

Private Education Loans

Private lenders provide additional loan options to qualified students. These loans offer varying interest rates and repayment options. Such loans allow the student to borrow up to 100% of GW's annual undergraduate cost of attendance less any current financial assistance. They typically have variable rates, rates within rate tiers according to credit worthiness, and application fees.

Private education loans must be reported to OSFA to be considered as a resource against federal student aid eligibility, per federal regulation.

Students are strongly advised to consider federal student loans before alternative loans due to the former's generally more favorable interest rates, fees, and repayment options. Consider reviewing the OSFA Private Student Loan Counseling Checklist (<http://financialaid.gwu.edu/private-student-loan-counseling-checklist/>).

Other Loan Funds

GW has several emergency loan funds for degree students with short-term needs. These funds include:

- Jessie B. Martin Loan Fund
- Barney Plotnick, M.D., Student Loan Fund
- University Student Emergency Loan Fund
- Peter and Doris Firsht Loan Fund

For more information and how to apply for emergency loans see the OSFA website (<https://financialaid.gwu.edu/emergency-funding/>).

Student Employment

The University participates in the Federal Work-Study Program (<http://financialaid.gwu.edu/work-study/>). Students should address questions concerning eligibility to OSFA. GW's Center for Career Services (<http://careerservices.gwu.edu/>) handles Federal Work-Study placement and also maintains a registry of both full- and part-time positions available in the DC Metropolitan Area.

International Students

International students are eligible to receive merit scholarship consideration from the Office of Admissions and are automatically considered during the admissions process. Non-U.S. students should check with their home country for potential national and/or local student aid options for enrollment in the United States. Visit the U.S. Department of State's Education USA web-site (<https://educationusa.state.gov/>) for a database of potential resources. Private education loans for international students are usually only available with a credit-worthy U.S. co-signer. The Office of Student Financial Assistance uses cost of attendance budgets for the processing of international student financial assistance. Details are available on the OSFA website (<http://financialaid.gwu.edu/>).

Military Education Financing

Veterans Education Benefits

GW's Office of Military and Veteran Student Services processes applications for entitlement payments under the various classes of veterans' educational benefits from the U.S. Department of Veterans Affairs. For more information consult the Office of Military and Veteran Student Services website (<https://services.military.gwu.edu/>).

Tuition Assistance Program

Funds from the various branches of the armed services under the Tuition Assistance Program are processed by the GW Student Accounts Office (<https://studentaccounts.gwu.edu/>).

ROTC Scholarships

Navy ROTC (<http://nrotc.gwu.edu/scholarships/>) is available at GW. Army and Air Force ROTC is available at Georgetown University and Howard University, respectively. All ROTC programs are handled by the GW Student Accounts Office (<https://studentaccounts.gwu.edu/>). Further details are available on the Office of Student Financial Aid website (<http://financialaid.gwu.edu/military-educational-benefits/>) and from the Office of the Registrar (<http://registrar.gwu.edu/rotc/>).

Required Disclosures and Notices

University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the university, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the university's Office of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9656, eeo@gwu.edu. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission, or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the university's Title IX Coordinator, the Vice Provost for Diversity and Inclusion, 813 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the university's Disability Services Coordinators. Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students, 401 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-6710, and other members of the university community may contact the Executive Director of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at 202-994-8250 or dss@gwu.edu. Employees and other members of the university community should contact the Office of Equal Employment Opportunity and Affirmative Action at 202-994-9656 or eeo@gwu.edu.

Availability of U.S. Department of Education Loan Publications

Students pursuing federal student loans are advised to review, download, and retain the loan publications from the U.S. Department of Education which are available on the Federal Student Aid resources page (<https://studentaid.ed.gov/sa/resources/>).

GW Policy on Student Loans and Code of Conduct

GW does not maintain a preferred lender list and will certify loan presented that requires certification. Refer to GW's HEA-compliant code of conduct for student loans (<http://financialaid.gwu.edu/policy-student-loan-code-conduct/>).

Role of the National Student Loan Data System (NSLDS)

Data on federal student loans and Federal Pell Grants are reported to the National Student Loan Data System (NSLDS), which is accessible by GW and U.S. Department of Education personnel and servicers of federal student loans. Students can access their data on the NSLDS website (https://nslds.ed.gov/nslds/nslds_SA/).

Title IV Eligibility and Drug Convictions

Under federal law a recipient of Title IV student financial assistance who is convicted for possession and/or sale of illegal drugs while enrolled as a student at GW will be ineligible for further Title IV funds for a fixed period of time. Refer to the University's complete policy on the Impact of Drug Conviction on Title IV eligibility (<http://financialaid.gwu.edu/policy-impact-drug-conviction-title-iv-eligibility/>).

Return of Title IV Funds Policy

The University is required by the HEA to recalculate the eligibility for federal Title IV student financial assistance for students who withdraw, drop out, are dismissed, or take a leave of absence, prior to completing 60% of a semester. Title IV funds include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work-Study, Federal Perkins* Loans, Federal Direct Subsidized Stafford Loans, Federal Direct Unsubsidized Stafford Loans, and Federal Direct PLUS Loans.

The required sequence for return of Title IV funds, as specifically published in Federal Student Aid program regulations, is:

1. Unsubsidized Federal Stafford Loans (no longer active since June 30, 2010)
2. Subsidized Federal Stafford Loans (no longer active since June 30, 2010)
3. Unsubsidized Direct Stafford Loans (other than PLUS Loans)
4. Subsidized Direct Stafford Loans
5. Federal Perkins* Loans
6. Federal PLUS Loans (no longer active since June 30, 2010)
7. Direct PLUS Loans
8. Federal Pell Grants for which a return of funds is required
9. Academic Competitiveness Grants for which a return of funds is required (program no longer active since June 30, 2011)
10. National SMART Grants for which a return of funds is required (program no longer active June 30, 2011)
11. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required
12. TEACH Grants for which a return of funds is required; and
13. Iraq-Afghanistan Service Grant for which a return is required.

See the Student Accounts website (<https://studentaccounts.gwu.edu/>) for the complete policy statement on Return of Title IV funds (<http://go.gwu.edu/>)

returntitleivfunds/). This applies only to federal student aid and does not pertain to the University's refund policy, as noted in the Fees and Financial Regulations section of this Bulletin.

(Note: while no longer available, Federal Perkins Loans are listed in this sequence as it is still noted in the federal regulations).

Title IV Credit Balances

Students have the right to exercise authorizations to hold or release a hold pertaining to Title IV credit balances. Similarly, parents have the right to do so pertaining to Federal Direct PLUS Loans. See the pertinent Title IV credit balance authorization form:

Student Title IV credit balance authorization form (https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_StudentNEWLOGO.pdf)

Parent Title IV credit balance authorization form (https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_ParentNEWLOGO.pdf)

HEA Disclosures Portal

Visit the University's Consumer Information (<https://financialaid.gwu.edu/consumer-information/>) portal for complete disclosures information.

GRADUATE

Graduate Financial Aid

The George Washington University offers a variety of financial support for graduate students that includes assistantships, fellowships, traineeships, graduate school scholarships, research appointments, and part-time employment, in addition to eligibility for Federal student aid programs.

Several forms of aid not based on financial need are available. Graduate assistantships are fully taxable, and gift aid (scholarships, grants, fellowships, assistantships, tuition awards, etc.) is taxable to the extent that it exceeds the allowable costs of tuition, fees, and required books and supplies or is dedicated to other costs, such as room and board. Federal grants may be taxable if, together with other gift assistance, they exceed the allowable costs. For complete information on IRS rules regarding educational costs, see IRS Publication 970, *Tax Benefits for Education*.

Eligibility for student aid is processed under cost of attendance budgets for various categories of students, per requirements of federal statute. See the Office of Student Financial Assistance (OSFA) policy on cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance/>) for details. A complete student aid package cannot exceed a student's cost of attendance budget. GW will review and potentially adjust awards for students receiving student financial assistance from more than one source. Receipt of student financial

assistance from multiple source cannot exceed tuition charges. If institutional aid is involved, adjustments will be made.

Application and correspondence concerning assistantships, fellowships, traineeships, or graduate scholarships should be sent directly to the GW school or college. Unless otherwise specified, applications and supporting credentials should be submitted no later than the February 1 prior to the academic year for which the award is made. Application for admission to graduate study is a prerequisite for consideration.

Office of Graduate Student Assistantships and Fellowships

The Office of Graduate Student Assistantships and Fellowships (<http://www.gwu.edu/~fellows/>) (OGSAF) provides services to entering and enrolled graduate students; detailed information on awards that may be used in support of graduate study is available on the office's website. Such awards generally are sponsored by foundations, professional and learned societies, industries, and other organizations. Services are provided to entering and enrolled graduate students.

Assistantships

Available to students in master's and doctoral programs in most academic departments, graduate assistantships provide financial compensation for a designated unit of service to the assistant's major department of instruction. All new graduate assistants must attend an orientation program and are enrolled in an online course.

International students applying for graduate teaching assistantships must have minimum TOEFL scores of 600 (paper-based) or 100 (Internet-based) or an overall band score of 7.0 on the Academic International English Language Testing System (IELTS) with no individual band score below 6.0. International students may be appointed to graduate assistantships. Those found to have difficulties with English are referred to the Speech and Hearing Center's speech enhancement program; such students are assigned nonteaching duties in place of classroom instruction and are re-evaluated each semester. If a student is not designated as qualified to give classroom instruction by the end of one academic year, the assistantship is not renewed.

Graduate Research Assistantships

Available to students in masters and doctoral programs in some GW academic departments. A graduate research assistant receives compensation for research assistance provided to a professor.

Resident Assistantships

Resident assistantships are available to graduate students in any field of study who are interested in working in University residence halls. Specific duties vary with the position, but basically consist of counseling, advising student groups, and administrative duties. Remuneration includes salary and a furnished room for the academic year. All positions are part

time, and staff members are required to enroll as full-time students in degree programs. For further information, see the Campus Living and Residential Education website (<https://living.gwu.edu/staffing-opportunities/>).

Fellowships and Other Funding Opportunities

Available to graduate students in master's and doctoral programs in most GW academic departments, fellowships are based on scholarship and each fellow may receive a stipend and/or tuition allowance. OGSAF (<http://www.gwu.edu/~fellows/>), provides a database of internal GW fellowships as well as external national fellowships and study abroad opportunities.

Federal Loans

Federal Direct Stafford Loans

Graduate students enrolled at least half time may apply for Federal Direct Stafford Loan funds each academic year. Unsubsidized loans require the student borrower to pay all interest that accrues on loan during the in-school period. Deferments are available. Students must file the Free Application for Federal Student Aid (<https://fafsa.ed.gov/>) (FAFSA) to determine their eligibility.

Federal Direct PLUS Loans

Graduate and professional students may apply for funds under the Federal Direct PLUS Loan Program. Eligible students may borrow up to the full cost of attendance, including tuition, fees, books, and living and transportation expenses, less any financial assistance received (which includes all student loans). Students must first apply for the Federal Direct Stafford Loan and the amount of the Stafford Loan eligibility must be included in the calculation to determine the amount of the Graduate PLUS loan.

Annual and Aggregate Loan Limits

Graduate and professional students can borrow up to \$20,500 in unsubsidized Federal Direct Stafford Loan funds on an annual basis. Some academic programs may have additional loan eligibility; see the list on the OSFA website of Graduate Programs eligible for Higher Loan Limits (<https://financialaid.gwu.edu/graduate-federal-direct-loan-limits/>).

Graduate and professional students have maximum aggregate (lifetime) loan limits of \$138,500, with \$65,500 maximum subsidized limit within the total aggregate limit. Health professions students have a maximum aggregate (lifetime) limit of \$224,000, with \$65,500 maximum subsidized limit within the total aggregate limit.

Loan Fees

Both Federal Direct Stafford Loans and Federal Direct PLUS Loans carry loan fees. Current rates are available on the U.S. Department of Education's Federal Student Aid website for interest rates for federal student loans (<https://studentaid.ed.gov/sa/types/loans/interest-rates/>).

Private Education Loans

Private lenders provide additional loan options to qualified students. These loans offer varying interest rates and repayment options. Such loans allow the student to borrow up to 100% of GW's annual cost of attendance less any current financial assistance. They typically have variable rates, rates within rate tiers according to credit worthiness, and application fees.

Private education loans must be reported to OSFA to be considered as a resource against federal student aid eligibility, per federal regulation.

Students are strongly advised to consider federal student loans before alternative loans due to generally more favorable interest rates, fees, and repayment options. Consider reviewing the OSFA Private Student Loan Counseling Checklist (<http://financialaid.gwu.edu/private-student-loan-counseling-checklist/>).

Other Loan Funds

GW has several emergency loan funds for degree students with short-term needs. These funds include the Jessie B. Martin Loan Fund; the Barney Plotnick, M.D., Student Loan Fund; the University Student Emergency Loan Fund; and the Peter and Doris Firsh Loane Fund. For more information and how to apply see the section of OSFA's website on emergency loans (<https://financialaid.gwu.edu/emergency-funding/>).

Student Employment

The University participates in the Federal Work-Study Program (<https://financialaid.gwu.edu/work-study/>). Students should address questions concerning eligibility to OSFA. GW's Center for Career Services (<https://careerservices.gwu.edu/>) handles Federal Work-Study placement and maintains a registry of both full- and part-time positions available in the DC Metropolitan Area.

TEACH Grants

The Teacher Education Assistance for College and Higher Education (TEACH) program provides grants to students who become teachers in high-need fields and low-income areas in an elementary school, secondary school or an educational service agency. More information on TEACH Grants (<https://gsehd.gwu.edu/admissions/#tuition-and-scholarships>) is available from the Graduate School of Education and Human Development (GSEHD).

International Students

International students are advised to download and reference The Office of Graduate Scholarships and Fellowships brochure, Funding for International Students (<https://graduate.seas.gwu.edu/sites/g/files/zaxdzs1526/f/downloads/International%20Funding%20Brochure.pdf>), a guide for international students on potential education funding. Non-U.S. students should check with their home country for potential national and/or local student aid options for enrollment in

the United States. Private education loans for international students are usually only available with a credit-worthy U.S. co-signer. The Office of Student Financial Assistance uses cost of attendance budgets (<http://financialaid.gwu.edu/cost-of-attendance/>) for the processing of international student financial assistance.

Deadlines

Graduate students applying for federal student aid must have respective application materials submitted by specific dates per academic term. See OSFA's website (<https://financialaid.gwu.edu/deadlines/>) for complete details on application deadlines.

Military Education Financing

Veterans Education Benefits

GW's Office of Military and Veteran Student Services (<http://services.military.gwu.edu/>) processes applications for entitlement payments under the various classes of veterans' educational benefits from the U.S. Department of Veterans Affairs.

Tuition Assistance Program

Funds from the various branches of the armed services under the Tuition Assistance Program are processed by the GW Office of Student Accounts (<https://studentaccounts.gwu.edu/>).

ROTC Scholarships

Navy ROTC (<http://nrotc.gwu.edu/scholarships/>) is available at GW. Army and Air Force ROTC is available at Georgetown University and Howard University, respectively. All ROTC programs are handled by the GW Student Accounts Office (<https://studentaccounts.gwu.edu/>). Further details are available here (<http://financialaid.gwu.edu/military-educational-benefits/>) and from the Office of the Registrar (<http://registrar.gwu.edu/rotc/>).

Required Disclosures and Notices

University Policy on Equal Opportunity

The George Washington University does not unlawfully discriminate against any person on any basis prohibited by federal law, the District of Columbia Human Rights Act, or other applicable law, including without limitation, race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, or gender identity or expression. This policy covers all programs, services, policies, and procedures of the university, including admission to education programs and employment.

Inquiries concerning this policy and federal and local laws and regulations concerning discrimination in education and employment programs and activities may be directed to the university's Office of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9656, eeo@gwu.edu. Inquiries may also be directed to the U.S. Department of Education Office for Civil Rights, the U.S. Equal Employment Opportunity Commission,

or the applicable state or local agency (for example, the District of Columbia Office of Human Rights).

Questions regarding protections against discrimination on the basis of sex may be directed to the university's Title IX Coordinator, the Vice Provost for Diversity and Inclusion, 813 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-7440.

Questions regarding the protections against discrimination on the basis of disability may be directed to the university's Disability Services Coordinators. Students may contact the Associate Dean of Students, Administrative Services, Office of the Dean of Students, 401 Rice Hall, 2121 Eye Street, NW, Washington, DC 20052, 202-994-6710, and other members of the university community may contact the Executive Director of Equal Employment Opportunity and Affirmative Action, 2121 Eye Street, NW, Washington, DC 20052, 202-994-9633.

To request disability accommodations, students should contact the Office of Disability Support Services at 202-994-8250 or dss@gwu.edu. Employees and other members of the university community should contact the Office of Equal Employment Opportunity and Affirmative Action at 202-994-9656 or eeo@gwu.edu.

Availability of State Grant Assistance for Undergraduate Education

Before they pursue loan options undergraduate students are advised to pursue the potential for state grant assistance in their home state to help finance their GW education. The U.S. Department of Education (ED) maintains a website listing state agencies (<http://www2.ed.gov/about/contacts/state/>) and respective contact information. The Brookings Institution has an Inventory of State Grants (<https://www.brookings.edu/research/beyond-need-and-merit-strengthening-state-grant-programs/>) as well.

Satisfactory Academic Progress for Student Financial Assistance

Federal student aid programs require satisfactory academic progress. See OSFA's complete Title IV satisfactory academic progress policy (<http://financialaid.gwu.edu/policy-satisfactory-academic-progress/>).

Availability of U.S. Department of Education Loan Publications

Students pursuing federal student loans are advised to review, download, and retain the loan publications from the U.S. Department of Education, which are available on the Federal Student Aid resources page (<https://studentaid.ed.gov/sa/resources/>).

GW Policy on Student Loans and Code of Conduct

GW does not maintain a preferred lender list and will certify loan presented that requires certification. Refer to GW's HEA-compliant code of conduct for student loans (<http://financialaid.gwu.edu/policy-student-loan-code-conduct/>).

Role of the National Student Loan Data System (NSLDS)

Data on federal student loans and Federal Pell Grants are reported to the National Student Loan Data System (NSLDS), which is accessible by GW and U.S. ED personnel and servicers of federal student loans. Students can access their data on the NSLDS website (https://nsls.ed.gov/nsls/nsls_SA/).

Title IV Eligibility and Drug Convictions

Under federal law a recipient of Title IV student financial assistance who is convicted for possession and/or sale of illegal drugs while enrolled as a student at GW is ineligible for further Title IV funds for a fixed period of time. Refer to the University's complete policy on the Impact of Drug Conviction on Title IV eligibility (<http://financialaid.gwu.edu/policy-impact-drug-conviction-title-iv-eligibility/>).

Return of Title IV Funds Policy

The University is required by the HEA to recalculate the eligibility for federal Title IV student financial assistance for students who withdraw, drop out, are dismissed, or take a leave of absence, prior to completing 60% of a semester. Title IV funds include Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (SEOG), Federal Work-Study, Federal Perkins Loans*, Federal Direct Subsidized Stafford Loans, Federal Direct Unsubsidized Stafford Loans, and Federal Direct PLUS Loans. The priority sequence for return of Title IV funds is as follows:

1. Unsubsidized Federal Stafford Loans
2. Subsidized Federal Stafford Loans
3. Unsubsidized Direct Stafford Loans (other than PLUS Loans)
4. Subsidized Direct Stafford Loans
5. Federal Perkins Loans*
6. Federal PLUS Loans
7. Direct PLUS Loans
8. Federal Pell Grants for which a return of funds is required
9. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required
10. TEACH Grants for which a return of funds is required
11. Iraq-Afghanistan Service Grant for which a return is required

For the complete policy statement on Return of Title IV funds, see the Student Accounts Office website (<https://studentaccounts.gwu.edu/>). This applies only to federal student aid and does not pertain to the University's refund policy, as noted in the Fees and Financial Regulations section of this Bulletin.

(Note: while no longer available, Federal Perkins Loans are listed in this sequence as it is still noted in the federal regulations).

Title IV Credit Balances

Students have the right to exercise authorizations to hold or release a hold pertaining to Title IV credit balances, using the Student Title IV credit balance authorization form (https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_StudentNEWLOGO.pdf).

Similarly, parents have the right to do so pertaining to Federal Direct PLUS Loans, using the Parent Title IV credit balance authorization form (https://studentaccounts.gwu.edu/sites/studentaccounts.gwu.edu/files/downloads/Title_IV_Credit_Auth_ParentNEWLOGO.pdf).

HEA Disclosures Portal

See the University's Consumer Information portal (<https://financialaid.gwu.edu/consumer-information/>) for complete disclosures information.

INTERDISCIPLINARY AND SPECIAL PROGRAMS

While GW offers many interdisciplinary programs within and across its schools and departments, those listed here are independent of any other academic unit at GW.

- Digital Technology (<http://bulletin.gwu.edu/interdisciplinary-special-programs/digital-technology-certificate/>)
- GWTeach and the STEM Teaching Minor (p. 66)
- Linguistics (p. 68)
- Naval Science (p. 69)
- Sustainability (p. 69)
- University Honors Program (p. 73)
- Women's Leadership Program (p. 76)

GWTEACH PROGRAM AND MINOR IN STEM TEACHING

The GWTeach program is designed for undergraduate science, technology, engineering, and mathematics (STEM) majors interested in exploring careers in teaching. GWTeach, which is based on the nationally recognized UTeach (<http://www.uteach-institute.org/>) program, integrates secondary school teacher preparation into the student's major studies.

GW undergraduate students can complete one of two pathways toward the minor in STEM teaching through the GWTeach program. Through the first pathway, GW students with a STEM major complete all requirements for their major as well as 25 to 28 credits in required GWTeach coursework. Upon graduation, students who have completed all GWTeach requirements are eligible for licensure by the District of Columbia as middle or high school teachers. A second pathway allows students to complete 18 credits of GWTeach coursework to earn a minor in STEM teaching without the eligibility for teacher licensure.

The first two courses in the program, GTCH 1001 and GTCH 1002, are open to all undergraduate students at GW. In these 1 to 2 credit courses, students are introduced to the basics of teaching and experience teaching firsthand in local classrooms. Alternatively, students may choose to start the program sequence with GTCH 2003, which combines the coursework of GTCH 1001 and 1002 into one 3-credit course. Students who wish to complete the GWTeach program work with their departmental advisor and the GWTeach advisor to integrate the remaining GWTeach courses into their major program of study. Science, technology, engineering, and math majors (including pre-med students) are eligible for the teacher licensure pathway, with exceptions made for some additional majors that are heavy in STEM coursework.

Students are encouraged to begin the GWTeach program during their freshman or sophomore year. Visit the GWTeach

Program (<http://gwteach.gwu.edu/>) website for additional information and to schedule a meeting with a GWTeach advisor to discuss program options.

STEM Teaching Minor Pathways

There are two pathways to earn a STEM teaching minor:

1. GW students with a STEM major complete all requirements for their major as well as 25 or 28 credits in required GWTeach coursework to earn a minor in STEM teaching. Upon graduation, students who have completed all GWTeach requirements are eligible for licensure by the District of Columbia as a middle or high school teacher.
2. Any GW student can complete 18 credits of GWTeach coursework to earn a minor in STEM teaching without the eligibility for teacher licensure. The 18-credit pathway comprises core courses and a choice of elective courses.

MINOR REQUIREMENTS

Minor in STEM Teaching

The following requirements must be fulfilled: 18 credits in required and elective courses for the minor in STEM teaching; 25 credits in required courses for the minor in STEM teaching with science teacher licensure eligibility; or 28 credits in required courses for the minor in STEM teaching with math teacher licensure eligibility.

Code	Title	Credits
Minor in STEM teaching: 18 credits		
Required		
GTCH 1001 & GTCH 1002	GWTeach Step 1: Inquiry Approaches to Teaching and GWTeach Step 2: Inquiry-based Lesson Design	
or GTCH 2003	Step 1 and 2 Hybrid: Inquiry Approaches to Teaching and Lesson Design	
GTCH 3101	Knowing and Learning in Mathematics and Science	
GTCH 3102	Classroom Interactions	
GTCH 3103	Project-Based Learning	
Electives		
6 credits in elective courses selected from the following:		
GTCH 3201W	Perspectives on Mathematics and Science	
GTCH 3202	Research Methods in Mathematics and Science	
GTCH 3203	Functions and Modeling	

GTCH 3500	Topics in STEM Teaching
GTCH 3600	Pedagogy for Learning Assistants
GTCH 4000	Apprentice Teaching

Minor in STEM teaching (with science teacher licensure eligibility): 25 credits

Required

GTCH 1001 & GTCH 1002	GWTeach Step 1: Inquiry Approaches to Teaching and GWTeach Step 2: Inquiry-based Lesson Design
or GTCH 2003	Step 1 and 2 Hybrid: Inquiry Approaches to Teaching and Lesson Design

GTCH 3101	Knowing and Learning in Mathematics and Science
-----------	---

GTCH 3102	Classroom Interactions
-----------	------------------------

GTCH 3103	Project-Based Learning

FACULTY

Courses in the GWTeach program are taught by a blend of faculty, with experts from the Graduate School of Education and Human Development and the Columbian College of Arts and Sciences (CCAS).

Directors G. Feldman, M. Feuer, J. Grooms, L. Medsker
Master Teachers A. Bitler, S. Choi, M. Hollibaugh Baker
CCAS Faculty G. Feldman, M. Friend, L. McClary, L. Medsker
GSEHD Faculty J. Grooms, C. Pyke, T. Sikorski

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GTCH 1001. GWTeach Step 1: Inquiry Approaches to Teaching. 1 Credit.

First experiential course in the GWTeach program. Introduces the basics of teaching, with a focus on using inquiry to teach lessons. Includes teaching experiences in a local elementary school.

GTCH 1002. GWTeach Step 2: Inquiry-based Lesson Design. 2 Credits.

Builds on the basics of teaching learned in GTCH 1002, with a focus on inquiry-based lesson design, teaching with technology, classroom management, and analyzing student performance data. Includes teaching experiences in a local middle school. Prerequisites: GTCH 1001.

GTCH 2003. Step 1 and 2 Hybrid: Inquiry Approaches to Teaching and Lesson Design. 3 Credits.

Combination of GTCH 1001 and GTCH 1002, with emphasis on inquiry lesson design, teaching with technology, classroom management, and analyzing student performance. Includes teaching experiences in a local middle school.

GTCH 3101. Knowing and Learning in Mathematics and Science. 3 Credits.

Introduction to models of knowing and learning for classroom practice. Focus on secondary mathematics and science.

GTCH 3102. Classroom Interactions. 3 Credits.

Use of curriculum and technology in the classroom. Interplay between teachers, students, content, and the world beyond schools. Design, implement, and evaluate outcomes of instructional activities. Includes local high school teaching experiences. Prerequisites: GTCH 1001 and GTCH 1002; or GTCH 2003.

GTCH 3103. Project-Based Learning. 3 Credits.

Design of full units of connected lessons. Integration of mathematics and science content. Intensive field-based high school teaching experiences in a local school are embedded into the course. Restricted to Students in the GWTeach program with junior or senior standing or with permission of the instructor. Prerequisites: GTCH 3102. Recommended background: This is a service learning course, for more information email gwteach@gwu.edu.

GTCH 3201. Perspectives on Math and Science. 3 Credits.

Topics and episodes in the history of science and math. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Same As: PHIL 3201.

GTCH 3201W. Perspectives on Mathematics and Science. 3 Credits.

Topics and episodes in the history of mathematics and science. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Prerequisites: GTCH 1001 or permission of the instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GTCH 3202. Research Methods in Mathematics and Science. 3 Credits.

Designing experiments to answer scientific questions and reduce systematic and random errors; using statistics to interpret experimental results. Application and implementation of science and math research in K-12 classrooms. Restricted to students in the GWTeach program with sophomore or higher standing and others with permission of the instructor. Prerequisites: GTCH 1001 and 1002; or GTCH 2003.

GTCH 3203. Functions and Modeling. 3 Credits.

Designed to strengthen and expand knowledge of secondary mathematics topics and address the unique needs of future math teachers. Explores models using linear, exponential, polynomial, and trigonometric functions. Euclidean geometry. Prerequisites: GTCH 1001 and MATH 1231 or permission of the instructor.

GTCH 3500. Topics in STEM Teaching. 1 Credit.

Issues in STEM research and education. Topics vary by semester. May be repeated for credit if topic differs. Consult the Schedule of Classes for more details. Restricted to GWTeach and minor in STEM teaching students with permission of the GWTeach Associate Director.

GTCH 3600. Pedagogy for Learning Assistants. 2 Credits.

For learning assistants in large undergraduate science courses. Integrating educational theory, pedagogy, and practice to facilitate productive classroom interactions. Credit cannot be earned for this course and CPED 6100.

GTCH 4000. Apprentice Teaching. 7 Credits.

Culminating experience for teacher certification. Twenty-five hours per week of field experience in a local school teaching in content certification area are required. Students attend a weekly seminar to discuss topics related to the profession of teaching. Restricted to GWTeach apprentice teachers with junior or senior standing. Prerequisites: GTCH 3101 and GTCH 3102; or GTCH 3103.

MINOR IN LINGUISTICS

The linguistics minor at GW is designed to provide students with training in the analysis of both the formal structures and social functions of language. Through critical analysis of key readings and approaches in linguistics, students learn how to interpret linguistic data, and apply these analyses to theoretical debates and practical issues in both linguistics and related fields.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses (6 credits in each of two groups of elective options).

Code	Title	Credits
Required		
ANTH 1004	Language in Culture and Society	
SPHR 1071	Foundations of Human Communication	
Elective options		
Language, form, and cognition group		
6 credits (two courses) from the following:		
CSCI 3907	Special Topics (Natural Language Processing))	
PHIL 1153	The Meaning of Mind	
SPHR 2101	Research Methods	
SPHR 2130	Phonetics and Phonological Development	
SPHR 2131	Language Acquisition and Development	
SPHR 2133	Autism	

or LING 3691	Special Topics in Linguistic Anthropology
or ANTH 3691	Special Topics in Linguistic Anthropology
SPHR 2135	Language: Structure, Meaning, and Use
SPHR 2136	
SPHR 3116	Brain and Language
Social and cultural contexts of language group	
6 credits (two courses) from the following:	
ANTH 3601	Language, Culture, and Cognition
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3603	Psycholinguistics
ANTH 3691	Special Topics in Linguistic Anthropology (Language and Media)
ANTH 3691	Special Topics in Linguistic Anthropology (Language and Religion)
ANTH 6104	Proseminar in Linguistic Anthropology
ENGL 3860	Topics in the History of the English Language

NAVAL SCIENCE

Naval Reserve Officers Training Corps Program

The Naval Reserve Officers Training Corps (NROTC) offers young men and women the opportunity to qualify for a full scholarship and a commission in the US Navy or Marine Corps. NROTC midshipmen are required to complete the Naval Science courses and attend weekly professional seminars and physical training sessions. During the summer, NROTC midshipmen participate in active duty at sea or shore-based training cruises for approximately four weeks. Upon receiving their baccalaureate degrees and completing the NROTC program, qualified midshipmen are commissioned as Ensigns in the US Navy or Second Lieutenants in the Marine Corps. Commissioned naval officers go on to training in various warfare specialties and serve as surface or submarine officers, naval aviators, or SEALs. Restricted line positions (intelligence, law, medicine, supply) are not normally offered through NROTC. Marine Corps officers attend The Basic School in Quantico, Virginia, and serve in fields such as infantry, artillery, logistics, intelligence, and aviation.

Information concerning enrollment (<https://nrotc.gwu.edu/enrollment/>), scholarships (<https://nrotc.gwu.edu/scholarships/>), and academic requirements (<https://nrotc.gwu.edu/academic-requirements/>) is available on the Naval Reserve Officer Training Corps website.

Enrollment in NROTC is not a requirement for taking Naval Science (p. 1705) (NSC) courses. Any GW student may take such courses with the approval of the Professor of Naval Science.

Visit the GW NROTC Program website (<https://nrotc.gwu.edu/>) for additional information.

SUSTAINABILITY

Students at GW come from around the world to connect to diverse ideas, cultures, and ways of life. The 18-credit minor in sustainability offers students a rigorous platform to examine critical sustainability issues and solutions. The program begins with Introduction to Sustainability, a team-taught course that equips students with a strong foundation in global sustainability principles and paradigms. Students build on this foundation by further investigating sustainability through the lenses of ecosystems, economies, communities, and practices. The capstone experience provides students with a structure for applying what they've learned through a semester-long research, service, and/or internship project. Students are empowered to consider the competing perspectives of stakeholders, the unintended consequences of decisions, and how interventions at different levels and scales affect systems and their component parts. Ultimately, students gain the tools necessary for creating healthy and thriving resource systems.

Minor program requirements

All students in the minor program are required to take SUST 1001 Introduction to Sustainability, at least one course in each of the four pillars (below), and at least 3 credits in experiential learning. At least 9 credits have to be unique to the minor (i.e. SUST 1001 Introduction to Sustainability, SUST 3096 Research in Sustainability or SUST 3097 Culminating Experience in Sustainability, and one pillar course). This means that 9 credits cannot be double-counted to fulfill the requirements of another major and/or minor program. At least 6 credits must be at the 2000-level or above (i.e. SUST 3096 or SUST 3097 and one pillar course).

The four pillars of the sustainability minor are:

- Pillar I: Sustainable Ecosystems—Earth Sciences and Public Health
- Pillar II: Sustainable Economies—Business, Markets, Technology, and Trade
- Pillar III: Sustainable Communities—Culture, Politics, and Society
- Pillar IV: Sustainable Practices—Leadership, Values, Norms, and Behaviors

The experiential learning experience is required as a capstone for the minor. Students may fulfill this requirement in their junior or senior year through directed research, fieldwork, an internship (paid or unpaid), or community service. Students may enroll in either SUST 3096 or SUST 3097 to fulfill the

requirement. Successful completion of SUST 1001 and approval of the Program Director are required prior to enrollment in SUST 3096 or SUST 3097.

Each semester, GW departments and programs offer special topics courses that may fulfill the pillar requirement. Topics relevant to the concentration must be approved by the Program Director prior to enrollment. Consult the Schedule of Classes (<https://my.gwu.edu/mod/pws/>) for topics offered.

With prior approval of the Program Director, courses taken in study abroad programs may be used to fulfill one of the pillar requirements.

MINOR

Minor

- Minor in sustainability (p. 70)

FACULTY

Lead sustainability faculty: L. Benton-Short, K. Merrigan, R. Orttung, L. Paddock, D. Rain, M. Svoboda

In addition there are over 300 faculty involved in teaching sustainability related courses. Courses with sustainability content can be found by using the course attribute SUST in course search.

COURSES

The GW Sustainability Collaborative offers interdisciplinary team-taught courses on subjects related to sustainability. In addition there are over 350 courses at GW with sustainability related content. The "SUST" attribute has been applied to related courses from all of GW's colleges and schools and most departments and programs. These courses can be found by searching for the course attribute "SUST."

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SUST 1001. Introduction to Sustainability. 3 Credits.

The concept of sustainability is both broad and specific as it is applied to areas ranging from social systems to law, engineering, public health, and natural systems. The course considers goals, principles, and practical applications, with a multidisciplinary perspective on major environmental and social issues growing out of these concerns.

SUST 1099. Variable Topics. 1-36 Credits.

SUST 2002. The Sustainable City. 3 Credits.

This course explores the connection between cities and sustainability. We consider sustainability from a variety of theoretical and practical perspectives and examine some of the most pressing and critical issues that must be addressed in order to create a sustainable city.

SUST 3003. World on a Plate. 3 Credits.

How dietary choices affect not just health, but the environment and those involved in the production of food as well; interdisciplinary perspective on the impact of food on the future of the environment, the economy, and society. Recommended background: Prior completion of SUST 1001.

SUST 3096. Research in Sustainability. 1-3 Credits.

Directed research under faculty supervision. The faculty member directing the research assigns work, such as papers and assigned reading, as appropriate. Prerequisites: SUST 1001.

SUST 3097. Culminating Experience in Sustainability. 3 Credits.

A paid or unpaid internship, fieldwork, directed research, or community service with an organization engaged in two or more of the three major goals of sustainability: economic development, social equality, or environmental protection. Students complete a series of reflection essays, career preparations, and other assignments throughout the semester. Some study abroad programs and some research or service courses at GW can be used to fulfill the outside work requirement for SUST 3097, but students may still be asked to register for 1 credit of SUST 3097 to complete the reflective essays, career preparations, and/or outreach assignments. These special arrangements must be approved in advance by the director of the minor. Prerequisites: SUST 1001.

SUST 5099. Variable Topics. 1-99 Credits.

MINOR IN SUSTAINABILITY

Students at GW come from around the world to connect to diverse ideas, cultures, and ways of life. The 18-credit minor in sustainability offers students a rigorous platform to examine critical sustainability issues and solutions. The program begins with Introduction to Sustainability, a team-taught course that equips students with a strong foundation in global sustainability principles and paradigms. Students build on this foundation by further investigating sustainability through the lenses of ecosystems, economies, communities, and practices. The capstone experience provides students with a structure for applying what they've learned through a semester-long research, service, and/or internship project. Students are empowered to consider the competing perspectives of stakeholders, the unintended consequences of decisions, and how interventions at different levels and scales affect systems and their component parts. Ultimately, students gain the tools necessary for creating healthy and thriving resource systems.

Students in the minor program are required to take SUST 1001 Introduction to Sustainability, at least one course in each of the four pillars (below), and at least 3 credits in experiential learning. At least 6 credits must be at the 2000 level or above, e.g., SUST 3096 Research in Sustainability or SUST 3097 Culminating Experience in Sustainability and one pillar course. At least 9 credits, e.g., SUST 1001, and SUST 3096 or SUST 3097, and one pillar course, must be unique to the minor and cannot be double-counted to fulfill the requirements of another major and/or minor program. The unique course requirement does not apply to SEAS students, who are governed by their school's policy regarding unique/double-counting course requirements with the minor program.

Pillars

- Pillar I: Sustainable Ecosystems – Earth Sciences and Public Health
- Pillar II: Sustainable Economies – Business, Markets, Technology, and Trade
- Pillar III: Sustainable Communities – Culture, Politics, and Society
- Pillar IV: Sustainable Practices – Leadership, Values, Norms, and Behaviors

The experiential learning experience is required as a capstone for the minor. Students may fulfill this requirement in their junior or senior year through directed research, fieldwork, an internship (paid or unpaid), or community service. Students may enroll in either SUST 3096 or SUST 3097 to fulfill the requirement. Successful completion of SUST 1001 (<http://bulletin.gwu.edu/search/?P=SUST%201001>) and approval of the Program Director are required prior to enrollment in SUST 3096 and SUST 3097.

Each semester, GW departments and programs offer special topics courses that may fulfill the pillar requirement. Topics relevant to the concentration must be approved by the Program Director prior to enrollment. Consult the Schedule of Classes (<https://my.gwu.edu/mod/pws/>) for topics offered.

With prior approval of the Program Director, courses taken in study abroad programs may be used to fulfill one of the pillar requirements.

PILLAR I

Sustainable Ecosystems: Earth Sciences and Public Health Pillar

Required

One 3-credit course from this pillar must be selected as part of the minor program.

The following list of course options for this pillar does not include special topics courses, which also may count toward the minor with the prior approval of the Program Director. Topics relevant to the concentration must be approved by the

Program Director prior to enrollment. Visit the sustainability minor [website \(http://sustainability.gwu.edu/sustainability-minor/\)](http://sustainability.gwu.edu/sustainability-minor/) for current course offerings.

UNIVERSITY HONORS PROGRAM

The University Honors Program (<https://honorsprogram.gwu.edu/about-university-honors-program/>) offers exceptional entering students the opportunity to engage in a distinctive, participatory program of study

designed to prepare them—whatever their gifts and interests might be—to meet the challenges of the 21st century. The program invites students to develop a humane perspective on the world while honing their analytical and expressive powers and deepening their understanding of complex issues and questions. Built upon an interdisciplinary curriculum, the program is fully integrated into and reinforcing of the highest academic aspirations of University schools and departments. Components of the program include:

- Small seminar-style classes, capped at 15 to 20 students, provide an opportunity to probe a variety of evolving issues and eternal questions.
- Students enroll in a series of unique courses in the humanities, natural sciences, and social sciences that address both cross-cultural and cross-disciplinary questions and issues. In their senior year, students participate in an Honors capstone experience that provides an opportunity to apply and reflect on what they have learned as undergraduates.
- The Honors experience is enriched by distinctive co-curricular programming, including off-campus activities with faculty members and discussions in the program's Club Room. Events may include student-faculty dinners, hikes, visits to local museums, day trips throughout the region, theater performances, film screenings, guest speakers and debates, and career information sessions. Students may also have an opportunity for summer study abroad.
- The program offers all Honors students the option of living in an Honors residential community.
- Designated Honors academic advisors assist students with academic, career, and personal planning.
- Honors program members have early course registration privileges during their second, third, and fourth semesters.
- Membership in the Honors program is indicated on the student's transcript.

REQUIREMENTS

The University Honors Program (<https://honorsprogram.gwu.edu/>) serves approximately 500 selected students, or five percent of the undergraduate student body. Incoming students may apply to the Honors Program at the time they apply to the University; a small group of rising sophomores may also apply.

The program is characterized by small, seminar-style classes with enrollments capped at 15 to 20 students; faculty who serve as mentors, models, and guides in the learning process; classroom approaches that call upon students to initiate inquiry, work collaboratively, and drive the exploration and learning process; interdisciplinary tools and modes of inquiry; and global or cross-cultural perspectives and course content.

Code	Title	Credits
In their first year, along with other courses, Honors Program students take:		
HONR 1015	Honors Seminar: UW 1020: Origins and Evolution of Modern Thought	
HONR 1016	Honors Seminar: Origins and Evolution of Modern Thought	
HONR 1033	Honors Seminar: Scientific Reasoning and Discovery	
HONR 1034	Honors Seminar: Scientific Reasoning and Discovery	

****** In place of HONR 1033 and HONR 1034, students may take an approved alternative science course.

Students who join the Honors Program in spring of their freshman year take HONR 2016 Enlightenment East and West in place of the first year seminars.

In their second, third, and fourth years they take:

Two Self and Society courses taken as follows: two offerings of HONR 2047 or two offerings of HONR 2048 or one offering each of HONR 2047 and HONR 2048. Topics may not be repeated.

and

Two Arts and Humanities courses taken as follows: two offerings of HONR 2053 or two offerings of HONR 2054 or one offering each of HONR 2053 and HONR 2054. Topics may not be repeated.

In addition, they pursue coursework in their majors, including special or departmental honors and/or independent or mentored research. All Honors Program students participate in HONR 4199 (<http://bulletin.gwu.edu/search/?P=HONR%204199>) Honors Capstone Experience, and complete a departmental or Honors senior thesis or project. The Honors proseminars meet certain general curriculum and elective requirements of the respective undergraduate schools. HONR 1015 (<http://bulletin.gwu.edu/search/?P=HONR%201015>) Honors Proseminar: UW 1020: Origins and Evolution of Modern Thought is the required University Writing course for Honors students.

In order to remain in good standing, Honors Program students must enroll in at least academic 12 credits each semester and, except for the first year, maintain a cumulative GPA that ensures it is mathematically possible to graduate with 3.0 or above. First-year students must achieve a minimum cumulative GPA of 3.0. Successful participation in the program is recognized and recorded on a student's official transcript.

FACULTY

Director I. Creppell

Associate Professors T. Christov, B. Kung, M. Ralkowski, E.M. Restrepo

Assistant Professors E. Aviv, L. Hammond, J. Trullinger, W. Winstead

University Honors Advisory Committee T. Wallace (Chair), E. Anker, E. Arnesen, G. de los Reyes, A. Helm, C. Jordan, B. Narahari, M. Modaro, J. Teitlebaum

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HONR 1015. Honors Seminar: UW 1020: Origins and Evolution of Modern Thought. 4 Credits.

Exploration of significant exemplars, milestones, and developments of human thought. Foundational and representative thinkers and texts from Western and Eastern traditions provide an indication of the diversity and complexity of attempts to articulate responses to universal questions, problems, and aspirations. Credit cannot be earned for this course and UW 1020.

HONR 1016. Honors Seminar: Origins and Evolution of Modern Thought. 3 Credits.

Continuation of HONR 1015. Key developments and trajectories in human thought and inquiry into modern times.

HONR 1033. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.

Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 1034. Honors Seminar: Scientific Reasoning and Discovery. 4 Credits.

Continuation of HONR 1033. Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 1099. Variable Topics. 1-36 Credits.

HONR 1120. Introduction to Biomolecular Research. 2 Credits.

Research methods in the studies of proteins and DNA; exploration of faculty research to help prepare students for conducting their own research. Prerequisite or concurrent registration: BISC 1115 and BISC 1125. Permission of the instructor is required. Laboratory fee.

HONR 2016. Enlightenment East and West. 4 Credits.

This course replaces HONR 1016 for students who enter the Honors Program as sophomores.

HONR 2043. Honors Microeconomics. 3 Credits.

An introductory microeconomics course that considers both the philosophical basis of economics as well as its methods and applications. Same as ECON 1011.

HONR 2044. Honors Macroeconomics. 3 Credits.

An accelerated introductory macroeconomics course that includes the study of special topics. (Same as ECON 1012).

HONR 2047. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2047W.

HONR 2047W. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena by using the tools and modes of inquiry of the social and behavioral sciences; relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2047.

HONR 2048. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. May be repeated for credit provided the topic differs. See program for more details.

HONR 2048W. Self and Society Seminar. 3 Credits.

Understanding significant social and political phenomena through the use of social and behavioral sciences tools and modes of inquiry; relationships between individuals and among collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See program for more details. Same As: HONR 2048.

HONR 2053. Arts and Humanities Seminar. 3 Credits.

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details. Same As: HONR 2053W.

HONR 2053W. Arts and Humanities Seminar. 3 Credits.

Inter- or multi-disciplinary approaches to topics in the arts and humanities. Exploration of the relationship between literature, religion, art, film, photography, philosophy, or other humanistic fields of study. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HONR 2053.

HONR 2054. Arts and Humanities Seminar. 3 Credits.

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credits provided the topic differs. See program for more details. Credit cannot be earned for this course and HONR 2054W.

HONR 2054W. Arts and Humanities Seminar. 3 Credits.

In-depth exposure to an area of literature, art, film, philosophy, or other humanistic field of study, often placing the subject matter in cultural and historic contexts. Topics vary by semester. May be repeated for credit provided the topic differs. See program for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HONR 2054.

HONR 2175. Honors Special Topics. 6 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

HONR 2182. Honors Internship. 4 Credits.

The Honors Program allows credit to Honors students for academic work that puts an internship in a broader scholastic context. Each student must have a GW faculty member oversee his or her project. The Honors internship faculty member determines the student's grade. May be repeated for credit.

HONR 2184. Honors Undergraduate Research. 4 Credits.

Independent or faculty-mentored research resulting in a significant written or other product. May be repeated for credit.

HONR 2185. Honors Research Assistantship. 4 Credits.

Students provide substantive assistance to a faculty member engaged in scholarly or scientific research. May be repeated for credit.

HONR 4198. Honors Senior Thesis. 3-4 Credits.

One- or two-semester thesis under faculty guidance. May be repeated for credit.

HONR 4199. Honors Capstone Experience. 1 Credit.

Students re-engage with core questions and issues related to the Honors Program curriculum, reflecting on their learning in relation to enduring questions and challenges of our world.

WOMEN'S LEADERSHIP PROGRAM

The Women's Leadership Program (WLP) (<http://wlp.gwu.edu/>) is a selective, year-long, living and learning program for freshmen women of any GW school. Offered at the Mount Vernon Campus, WLP commemorates and preserves the vision of the founder of Mount Vernon College and Seminary, Elizabeth J. Somers. WLP students have the benefit of small classes, close contact with faculty and women in leadership roles, and strong community ties within the program.

The dynamic curriculum emphasizes exploration and development of women's leadership through academic courses and weekly symposia. WLP symposia offer special lectures, workshops, and experiential learning that draw on the unique resources of Washington, DC, to bring students together with women of achievement in leadership roles from many professional fields. Membership in the WLP program is indicated on the student's transcript.

FACULTY

Director M. Buckley, Associate Professor

Associate Professor J. Donovan

Assistant Professors M. Allendoerfer, E. Hovander, C. Jordan, S. Salchak

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

WLP 1020. Writing, Literature, and Society. 3 Credits.

Critical reading skills, concepts of disciplinarity, and processes of producing and legitimating knowledge. Writing intensive. Texts and emphasis vary according to cohort. Restricted to students in the women's leadership program with the permission of the instructor.

WLP 1110. Women and Leadership Symposium (I). 1 Credit.

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

WLP 1111. Women and Leadership Symposium (II). 1 Credit.

A weekly symposium that includes a wide variety of leadership-building workshops, cultural events of cross-disciplinary interest, and guest speakers.

WLP 4198. WLP Independent Study. 3 Credits.

COLUMBIAN COLLEGE OF ARTS AND SCIENCES

Dean P. Wahlbeck

Vice Deans K. Gross, J. Philbeck

Associate Deans E. Downie, C. Heap, R. Riedner

Since its founding in 1821, Columbian College, the original college of liberal arts and sciences of The George Washington University, has been the cornerstone of the campus community. The University awarded its first Doctor of Philosophy degree in 1888, one of the first institutions in the United States to do so. Columbian College of Arts and Sciences today houses all undergraduate and graduate programs in the arts and sciences, offering associate's, bachelor's, master's, and doctoral degrees and graduate certificates.

The rich and diverse arts and sciences curriculum is designed to strengthen the student's ability to analyze the social, cultural, and physical environment and to communicate findings in an articulate fashion. These purposes are accomplished by means of the study of various disciplines within the humanities, social sciences, and mathematical and natural sciences.

Students may elect one of more than 50 departmental or interdisciplinary majors; they may also elect double majors or individualized degree programs. The College offers its undergraduates opportunities for pre-professional education in many fields and for internships in a stimulating urban environment. Graduate students are offered more than 40 master's programs, 20 doctoral programs, and 15 certificate programs.

REGULATIONS

Undergraduate Programs

Columbian College of Arts and Sciences offers undergraduate programs leading to the degrees of associate of arts, bachelor of arts, bachelor of science, and bachelor of fine arts. In cooperation with the School of Medicine and Health Sciences, Columbian College offers a seven-year integrated bachelor of arts/doctor of medicine.

One hundred and twenty hours of academic coursework must be passed with a cumulative grade-point average of at least 2.0. Note that some courses outside Columbian College do not count toward the 120-credit requirement. General education, major, and other requirements described below must be met.

Each student must declare a major during the sophomore year, no later than the registration period during the fourth full-time semester or the semester following completion of 45 credits, whichever comes first. A student may change the major with the consent of the Dean and of the department or committee concerned; the student must meet the requirements for the new major in effect at the time the change is approved.

General Education Curriculum Requirement

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC (<http://bulletin.gwu.edu/university-regulations/general-education/>). Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one course in university writing and two writing-in-the-disciplines (WID) courses.
- Humanities—one approved humanities course that involves critical thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for G-PAC is distributed as follows:

- Arts—one approved arts course that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Oral Communication—one approved course in oral communication.
- Natural or Physical Science—one additional approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Humanities—one additional approved humanities course that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC requirements may also be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington

University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

Lists of approved courses in the above categories are included on each undergraduate major's Bulletin page.

Majors

Each student must declare a major during the sophomore year, no later than the registration period during the fourth full-time semester or the semester following completion of 45 credits, whichever comes first. Students must complete the major requirements in effect at the time of declaration. Students may change their major with the consent of the College and of the department or committee concerned; the student must meet the requirements for the new major in effect at the time the change is approved. Students may pursue at most two majors per degree.

Scholarship Performance in the Major

Major fields are defined by a set of required courses. The required curricula for majors are outlined under each department's heading in this Bulletin. A minimum grade of C– must be attained in all courses numbered 2000 or above that are required for the major. If a student receives a grade of D+, D, or D– the student may either repeat the course until a satisfactory grade (C– or above) is attained, or with the permission of the department, substitute another course numbered 2000 or above.

Minors

Students who wish to familiarize themselves with a field outside their major may graduate with a minor in addition to the major. Not all Columbian College departments offer undergraduate minors; the requirements prescribed by those that do are listed under the applicable department. Columbian College students may pursue minors in other schools of the University, as well as those in naval science and in sustainability. Students interested in a minor should consult a faculty mentor in the applicable department and declare through the Office of Undergraduate Studies. Students may pursue at most two minors per degree.

Scholarship Performance in the Minor

Courses numbered 2000 or above passed with a grade below C– may be used to fulfill a minor field curricular requirement but may not be counted toward the total number of credits required for the minor.

Advising

Students entering Columbian College are assigned an advising team, or "POD," that advises them from first arrival on campus through graduation. Students engage with advisors to successfully navigate their academic experience, through conversations about understanding University and College requirements, exploring major options, overcoming academic

challenges, and setting goals. Students are empowered to take ownership of, and responsibility for, their educational experiences. Specialized advising is provided to students interested in health professions or law.

Students who have not declared a major should consult with their advising POD before registering for classes. Once students declare their major, they also are advised by a faculty mentor in their major department.

Students need to build a support system that ensures academic success. Professors, faculty mentors, professional advisors, tutors, and/or counselors should be part of that support system. Assistance is available through the Division of Student Affairs (<http://students.gwu.edu/>), Mental Health Services (<http://counselingcenter.gwu.edu/>), Multicultural Student Services Center (<https://mssc.gwu.edu/>), International Services Office (<http://internationalservices.gwu.edu/>), and Writing Center (<http://www.gwu.edu/%7Egwriter/>).

Preparation for Medical/Dental School

Students who plan to apply to medical school fulfill both the University General Education Requirement and the Columbian College general education curriculum. They may select any major at GW. Advice about academic preparation for medical school is provided by the health professions advisors in the Pre-Health Advising Office (<https://prehealth.gwu.edu/>). For admission to most medical schools, students must earn a bachelor's degree that includes the following coursework:

- Biology—8 credits of introductory biology, including laboratory. Students who receive credit for AP biology must complete 8 credits of upper-level biology coursework, including laboratory.
- Chemistry—8 credits of general inorganic chemistry, including laboratory.
- Organic Chemistry—8 credits, including laboratory.
- Biochemistry—3 credits.
- Physics—8 credits, including laboratory.
- English—6 credits in introductory English composition courses (fulfilled by the University Writing Program (<https://writingprogram.gwu.edu/>)).
- Social Sciences—6 credits (courses in psychology and sociology are highly recommended).

Many medical schools have additional entrance requirements, which might include courses in genetics, statistics, and mathematics; even when such courses are not required, they are strongly recommended. Beyond the specified requirements, applicants are urged to follow their personal interests in developing their course of study.

Students interested in applying to another health program should refer to the Pre-health Advising (<https://prehealth.gwu.edu/>) and Undergraduate Admissions (<https://undergraduate.admissions.gwu.edu/>) websites for required and recommended courses for their program of interest.

Preparation for Law School

A broad liberal arts education is the best undergraduate preparation for law school. Advice about academic preparation for law school is provided by Pre-Law Advising (<https://prelaw.gwu.edu/>).

Seven-Year Integrated Bachelor of Arts/Doctor of Medicine

The BA/MD program is a seven-year integrated program for students of high ability and maturity who have decided, prior to applying to college, that they wish to become physicians and want to accomplish that goal in a shorter time period. Students who are accepted into this program are expected to fully participate in the undergraduate life of the University during their first three years in the program. Students in an undergraduate program in Columbian College must complete all G-PAC requirements. Regardless of the chosen major field, students in this program also must complete the School of Medicine requirement of 8 credits, including 2 credits in a lab, in each of the following areas:

- General Chemistry: CHEM 1111 and CHEM 1112. Students who have received AP credit for the general chemistry sequence are required to take organic chemistry at GW
- Organic Chemistry: CHEM 2151, CHEM 2152, CHEM 2153, and CHEM 2154
- General Biology: BISC 1111 and BISC 1112. Students who have received AP credit for a general biology sequence are required to take two upper-level courses in biology, one of which must have a laboratory component.
- General Physics: PHYS 1011 and PHYS 1012; or PHYS 1021 and PHYS 1022; or PHYS 1025 and PHYS 1026. Students who received AP credit for physics are not required to further their knowledge in this area.
- Biochemistry: BIOC 3261, or BISC 3261, or CHEM 3165.
- Social/Behavioral Science: two to three courses.

Students planning to register for science courses during the summer and/or at other institutions must receive advance permission to be accepted for transfer and for the program.

Students are permitted to transfer in AP credits to apply towards their degree requirements as permitted by CCAS with no cap on the number of credits that they may transfer. Students must declare a major in one of the arts and sciences disciplines and work towards completion of the major. A three-year course plan must be presented to the associate dean of admissions in the School of Medicine during the first semester of the freshman year. All major requirements must be determined by the department. Minors are permitted, but must be completed in full if they are to appear on a transcript.

Students in this full-time program must maintain a 3.6 cumulative GPA and may not earn a grade below B- in any science course. Students have the option of participating in the University Honors Program. Students in the program are required to become involved in community service and

health-care related experiences each academic year. Before matriculation in the MD portion of the program, all students must have recent patient-related experiences. Students are required to graduate with an undergraduate degree at the end of the third year of the seven-year program. All requirements must be completed for the BA or BS degree, including those for the major field as well as the University General Education Requirement. Students interested in enhancing their academics with a study abroad program may do so, but it is not required. As a part of this program, students are required to complete a practice MCAT (<https://smhs.gwu.edu/academics/md-program/admissions/dual-programs/bamd/>) and receive a satisfactory score as determined by the program.

Students must understand that any warnings of disciplinary or institutional actions, or convictions of a legal violation must be reported immediately to the associate dean of admissions in the School of Medicine. Students must maintain good academic standing following the academic regulations stated in the University Bulletin as well as the Academic Regulations for the BA/MD and professional comportment as listed the MD Honor Code (<https://smhs.gwu.edu/academics/md-program/current-students/policies/>). A criminal background check will be conducted at the time the student receives the contract to the MD program. All students will have an undergraduate experience performance review by the admissions office of GW's School of Medicine and Health Sciences (<https://smhs.gwu.edu/academics/md-program/admissions/>), must submit all requested application materials, and must meet all requirements before the seat in the MD program is tendered.

The GW Early College Program—School Without Walls

The The GW Early College Program (GWECP) was created in order to provide opportunities to DC high school students to complete an associate's degree in general studies within the Columbian College of Arts and Sciences concurrently with their high school degree. Students admitted to the program are required to complete 60 credits in residence, which include the following in accordance with the University General Education Requirement (p. 27) and the college's G-PAC Requirements (p. 92):

- UW 1015 Writing Seminar Summer Scholars
- UW 1020 University Writing
- One writing in the discipline (WID) course
- One approved mathematics or statistics course
- Two approved natural/physical science courses
- Two approved social science courses
- Two approved humanities courses
- One approved arts course
- One approved global/cross-cultural course
- One approved local/civic engagement course

Students must meet the college's academic standing requirement, whereby a 2.0 cumulative GPA is required for

completion of the associate's degree. Students also must adhere to the GWECF Academic Performance Policy. In accordance with this policy, failure of one core course (any course identified to meet a District of Columbia Public School (DCPS) graduation requirement) will result in being placed on academic alert for the following semester. The student will be required to retake the course. Any subsequent core course failures may result in a student returning to the School Without Walls (SWW) for completion of high school requirements. Failure of two or more courses (core or otherwise) in a single semester will result in automatic withdrawal from the program and returning to SWW.

Academic suspension by the University will result in automatic withdrawal from the program. Second-year students may appeal an academic suspension and seek approval from the University to complete any outstanding core courses required to meet the DCPS graduation requirements.

Students in the GWECF program are assigned an academic advisor within CCAS with whom they work for the duration of the program. GWECF students interested in continuing on to a bachelor's degree program at the University must complete the Common Application (<https://www.commonapp.org/>) as well as a separate Continuing to BA Application through the Office of Undergraduate Admissions (<https://undergraduate.admissions.gwu.edu/>).

General CCAS Policies

Academic Workload—Undergraduate students may register for up to 18 credits through the normal registration process. After a student's first semester, a full-time student may request to register for more than 18 credits. To encourage academic performance of high quality, the College asks undergraduate students to reflect on their prior academic performance and make intentional, informed decisions when requesting a course overload. All students who meet the requirements may request a course overload but note that no request is guaranteed approval. Students should also be aware that registering for more than 18 credits in a semester will incur additional tuition charges at the per-credit rate established by the University. Students who wish to register for a 19th credit or more must be in good academic standing; have earned a 3.5 semester GPA, having taken at least 12 credits in the prior semester or have earned a cumulative GPA of 3.3; have no pending Incompletes and have no grades of *F*, *W*, *Z*, or *NP* from the previous semester. Students can apply for a course overload (<https://advising.columbian.gwu.edu/course-overload-application/>) online through the CCAS Office of Undergraduate Advising.

Pass/No Pass Option—A junior or senior student in Columbian College who is in good academic standing may, with the approval of the instructor and the Office of Undergraduate Studies, take one course per semester that is usually graded on a letter-grade basis for a grade of *P*, Pass, or *NP*, No Pass. Students may not elect to take more than four *P/NP* courses under this regulation. Students may, however, also receive

grades of *P/NP* in courses that are graded on a *P/NP* basis only. Courses taken under the *P/NP* option are not counted toward the G-PAC requirement or the requirements for any major or minor field. Transfer students may not elect this option until the second semester of enrollment in the University. Under no circumstances may a student change from *P/NP* status to graded status, or vice versa, after the end of the eighth week of class.

Preliminary Placement Examinations—All foreign language departments require students to take placement tests to determine their level of proficiency in languages studied prior to enrollment at the University. The student is placed in an appropriate course on the basis of these tests. Students may not register for a course other than that determined by the placement test without written permission of the language department. There is no charge to the student for placement tests, and no credit (advanced standing) is awarded for courses waived as a result of these tests. Students who wish to register for ECON 1011, MATH 1051 (<http://bulletin.gwu.edu/search/?P=MATH%201051>), MATH 1220 (<http://bulletin.gwu.edu/search/?P=MATH%201220>), MATH 1231 (<http://bulletin.gwu.edu/search/?P=MATH%201231>), or MATH 1252 (<http://bulletin.gwu.edu/search/?P=MATH%201252>) are required to take the placement test administered by the Department of Mathematics to determine eligibility based on their achieved score. In some cases, AP test scores or SAT II scores may be substituted for the placement test. See Interpreting Your Placement Score (<https://math.columbian.gwu.edu/aleks-math-placement-test/>) for more information.

Courses Outside of Columbian College—No more than 3 credits of Health and Wellness (HLWL) courses and 3 credits of Lifestyle, Sport, and Physical Activity (LSPA) courses may count toward the 120 credits required for the bachelor's degree in Columbian College.

Earning an Additional Credit—In exceptional circumstances and with the prior approval of the instructor and Office of Undergraduate Advising, a student may register for and earn an additional credit in upper-division courses within the College by doing a significant amount of extra work as assigned and supervised by the instructor of record and by submitting a completed/signed Add a Credit form to the Office of Undergraduate Advising.

Graduate Programs

CCAS Regulations

CCAS provides an online Graduate Student Handbook (<https://columbian.gwu.edu/graduate-students/>) that contains additional updated information on policies, regulations, and other matters of concern to enrolled and admitted students. It is the responsibility of the student to be aware of the information contained in both this Bulletin and the

Handbook. Students should also consult departmental/program handbooks and guidelines.

Admission Requirements

A detailed description of the policies that follow is available at the Columbian College website (<http://columbian.gwu.edu/graduate-studies/>). Applicants must hold an undergraduate degree from an accredited institution of higher learning. Applicants should have a strong academic background, usually with a major, or equivalent, in the field in which they intend to study for an advanced degree. Normally, a *B* average or equivalent from an accredited college is required. With evidence of special promise, such as high Graduate Record Examination (GRE) scores, an applicant whose academic record falls short of a *B* average may be accepted on a conditional basis. Meeting the minimum requirements does not assure acceptance. The departments/programs may, and often do, set higher admission standards. Students who apply in their senior year must provide evidence of the completion of their baccalaureate work before registration is permitted.

Many programs require applicants to submit scores on the GRE general test. In addition, some programs require scores on a GRE subject test. The applicant must have the Educational Testing Service send the required score reports directly to George Washington University. GRE scores are valid for five years.

Some programs require students to take prerequisite or deficiency courses within the first year of starting the degree program; such courses do not count toward degree requirements or the degree GPA. Prerequisite and/or deficiency courses are listed in the applicant's letter of admission.

English Language Requirements for International Students

Applicants who are not citizens of countries where English is the official language or who do not hold a degree from a regionally accredited U.S. institution of higher learning are required to submit scores from the Test of English as a Foreign Language (TOEFL), the academic International English Language Testing System (IELTS), or the Pearson Test of English-Academic (PTE). English language scores are valid for two years. The most recent test scores are used for applicants who submit multiple scores. Specified possible exemptions from this policy can be found on the Graduate Admissions website (<https://columbian.gwu.edu/graduate-applicants/>). The required minimum score for admission to a program is 80 on the Internet-based or 550 on the paper-based TOEFL, or an overall band score of 6.0 on the IELTS with no individual band score below 5.0, or a score of 53 on the PTE. Some programs have higher minimum scores. Applicants who have a TOEFL score of at least 70, but lower than 80, or an IELTS overall band score of at least 5.0, but lower than 6.0, may be considered for admission on the condition that they successfully complete the Applied English Studies program prior to beginning their graduate studies.

Applicants for graduate assistantships must have a minimum score of 100 on the Internet-based TOEFL or 600 on the paper-based TOEFL, or an overall band score of 7.0 on the IELTS with no individual band score below 6.0, or a score of 68 on the PTE.

Students with the following English language test scores are exempt from taking GW English for Academic Purposes (EAP) courses: TOEFL, 100 Internet-based or 600 paper-based; IELTS, overall band score of 7.0 with no individual band score below 6.0; or a score of 68 on the PTE. Students with test scores below these minimums must register for an EAP course during their first semester. Students assigned EAP courses should anticipate additional tuition expenses as well as a possible extended period of time required to complete their degree program. EAP courses do not count toward degree requirements.

Readmission

A student who wishes to resume a graduate program that has been interrupted for a period of two years or more must file a new application for admission and provide supporting documentation to be considered for readmission. Readmission and transfer of credits are not guaranteed, and the application is subject to review by the department concerned and/or the associate dean for graduate studies. The student may be required to take additional coursework and qualifying examinations on the coursework completed. A student who wishes to resume a graduate program that has been interrupted for a period of less than two years must petition the department and the associate dean. Readmission and transfer of credits are not guaranteed, and back-registration may be required.

Grades

Information on grades and computing the grade-point average is found under University Regulations (p. 27).

The symbol *IPG* (In Progress) is given for all thesis and dissertation research courses until the thesis or dissertation is completed. Upon the satisfactory completion of the thesis or dissertation, the symbol *IPG* is changed by the Columbian College to *CR* (Credit). *IPG* may also be used in other courses, including advanced reading and research courses, externships, independent research courses, internships, and practicums, if the required coursework is not ordinarily completed within a single semester; in such cases, the department must submit a grade change upon completion of the coursework. *CR* may be indicated for advanced reading and research courses and independent research courses.

Incompletes

The symbol *I* (Incomplete) indicates that only a small portion of the required coursework remains to be completed and that a satisfactory explanation has been given to the instructor for the student's failure to complete the required work for a course. The conditions of the Incomplete must be detailed in a formal contract signed by the student and instructor and

submitted to the department prior to recording the *I*. A student who receives an Incomplete will have one additional semester to complete the required coursework, unless the instructor sets a shorter deadline. An instructor who wishes to grant a student more than one semester to complete the required coursework may do so by submitting a signed, formal contract to the CCAS Office of Graduate Studies and the department, but all coursework must be completed no more than one calendar year from the end of the semester in which the course was taken. Failure to follow the conditions of the incomplete contract will result in a grade of *F*. All other policies governing Incompletes are indicated under University Regulations (p. 27).

Academic Standing Requirements

Graduate students are required to maintain a minimum cumulative grade-point average of 3.0 (*B*) in all coursework taken following admission to a graduate program in the Columbian College. This includes credit taken for dual and joint degrees but excludes prerequisite and deficiency coursework. A cumulative GPA below 3.0 results in academic dismissal from the program unless the department successfully petitions the associate dean for graduate studies for academic probation rather than dismissal. If, after one semester of probation, a student's cumulative GPA remains below 3.0, they are subject to academic dismissal. Individual departments/programs may require a higher average. Once a student has matriculated at GW, graduate coursework that is taken at the University or through the Consortium and forms part of the student's departmentally-approved program of studies will be included in the cumulative GPA. When a grade of *F* is received for a course, the grade is included in the student's cumulative GPA whether or not the course is repeated. Receiving a grade of *F* in a graduate course may be grounds for probationary status or academic dismissal from the program.

Repeating Courses

A student may repeat a course in which a grade of *C-* or above was received only when permitted to do so by the associate dean for graduate studies and the department concerned, unless the course description states that the course may be repeated for credit. A written statement of permission must be submitted for approval to the CCAS Office of Graduate Studies by the program's director of graduate studies. If such a course is repeated, both grades received remain on the student's record and are included in the student's cumulative GPA. The second taking of the course does not count toward degree requirements.

Graduate Credit for Undergraduate Courses

A graduate student may take an advanced (2000-level or higher) undergraduate course for graduate credit only upon the approval of the student's graduate program at the time of registration. Such approval is granted only with the provision that the student complete additional work in order to receive graduate credit. Advanced undergraduate courses taken for graduate credit may be used to fulfill no more than 25 percent of credits required for any graduate program. No 1000-level

undergraduate courses (including language courses) will be considered for graduate credit.

Program of Studies

The program of studies is a formal agreement between a student and a department/program of the requirements to be met in completing a specific degree program as well as the dates by which each requirement must be completed. Students should consult their program's director of graduate studies to outline their program of studies as soon as they begin graduate work.

Students must ensure that they are fully informed of the requirements of the Columbian College of Arts and Sciences as well as the requirements of their department or program. Students who must complete additional requirements as specified in their letter of admission must consult their program's director of graduate studies early in their first semester.

Academic Workload

All graduate degree candidates must be registered for a minimum of 3 credits in the spring and fall semesters unless they are eligible for continuing research. Students finishing in the summer may contact the CCAS Office of Graduate Studies to register for 0 credits of continuous enrollment; continuous enrollment is not an option during the fall and spring semesters. Full-time students register for 9 to 12 credits each fall and spring semester; half-time students, for 5 to 8 credits; and part-time students, for 3 or 4 credits. In the summer, full-time status requires 6 credits and half-time status requires 3 credits. These enrollment requirements do not apply to students who have fewer than the stated number of credits remaining to complete their programs. No more than 15 credits may be taken during any one semester without permission of the department and the associate dean for graduate studies. Students who are employed more than 20 hours per week should not register for more than 6 credits in any semester.

Continuous Enrollment

All students must be continuously enrolled while working toward a degree, except during the summer sessions (unless required by the program or if the student intends to graduate in the summer). Students who have completed all coursework and thesis or dissertation research requirements and are within CCAS deadlines must register for 1 credit of continuing research (CCAS 0920 for master's students, CCAS 0940 for doctoral students) each semester until completion of the program; the course reference numbers are found in the Schedule of Classes under Columbian College. If continuous registration is not maintained, the student is dropped from the degree program unless they are registered for an approved leave of absence by the CCAS Office of Graduate Studies.

Leave of Absence

A student who is temporarily unable to continue their program of studies may request leave of absence for a specific period of time, not to exceed two semesters during the total period of degree candidacy. If the request is approved by the program and the associate dean for graduate studies, CCAS will register the student for a leave of absence for each semester. Leaves of absence are normally granted for medical or family reasons and may be granted for other reasons at the discretion of the department and associate dean.

Special Program Requirements

Certain programs require degree candidates to demonstrate a reading knowledge of an appropriate foreign language or languages, a competence in quantitative methods, or some other special subject requirement. Courses taken at the undergraduate level to fulfill these requirements may not be counted in the number of graduate credits required for these programs.

Graduation Requirements

All students must submit an online Application for Graduation (<http://registrar.gwu.edu/online-graduation-application-instructions/>) early in the semester or summer session in which they intend to graduate. Students must be registered in active status in the College during the semester or summer session in which they plan to graduate. Degrees are conferred in January, May, and August. Students who have completed the requirements for a degree but have not yet been awarded the degree are issued a letter to this effect upon request to the CCAS Office of Graduate Studies. A commencement ceremony is held annually in May.

Fellowships and Financial Aid

Many departments offer merit-based graduate assistantships and fellowships; students should consult their department/program concerning funding opportunities. Graduate assistants and University Fellows are appointed by the associate dean for graduate studies. Other kinds of sponsored and University awards are available. Awards are based on academic excellence, and only full-time graduate degree candidates in Columbian College are eligible to be considered. Doctoral candidates may be funded for a maximum of five years, MA and MS candidates for a maximum of two years, and MFA candidates for a maximum of three years.

Students applying for admission who also wish to apply for an assistantship/fellowship should submit a completed application for admission before the funding admission deadline. Currently enrolled students who wish to apply for graduate student support should consult their departmental requirements.

International students applying for graduate assistantships/fellowships should refer to the International Student Financial Aid section (p. 62) of this Bulletin for regulations governing the appointment of international graduate assistants.

Students who wish to apply for loans should indicate their intent to do so on the application for admission. An overview of funding opportunities is available from the University's Office of Graduate Student Assistantships and Fellowships (<http://www.gwu.edu/~fellows/>).

Partnerships

CCAS graduate programs have long-term partnerships with important Washington-area institutions that include the Smithsonian Institution; the National Institute of Standards and Technology and other federal agencies; the Folger Shakespeare Library; the Shakespeare Theatre; the Phillips Collection, the George Washington University Museum and the Textile Museum.

MAJORS

Undergraduate Majors

The Columbian College of Arts and Sciences offers the bachelor's degrees listed below.

All fields listed below (except where indicated) may lead to the Bachelor of Arts degree.

- Africana Studies (p. 93)
- American Studies (p. 102)
- Anthropology (p. 118)
- Arabic Studies (p. 187)
- Archaeology (p. 119)
- Art History (p. 263)
- Art History and Fine Arts (p. 259)
- Astronomy and Astrophysics (p. 386)
- Biological Anthropology (p. 122)
- Biology, Bachelor of Arts (p. 145)
- Biology, Bachelor of Science (p. 148)
- Biophysics (p. 388)
- Chemistry, Bachelor of Arts (p. 173)
- Chemistry, Bachelor of Science (p. 174)
- Chinese Language and Literature (p. 212)
- Classical and Ancient Near Eastern Studies (p. 188)
- Cognitive Neuroscience, Bachelor of Science (p. 429)
- Communication (p. 357)
- Creative Writing and English (p. 246)
- Criminal Justice (p. 469)
- Dance (p. 499)
- Data Science (p. 207)
- Economics, Bachelor of Arts (p. 227)
- Economics, Bachelor of Science (p. 229)
- English (p. 248)
- Environmental and Sustainability Science, Bachelor of Science (p. 285)
- Environmental Studies (p. 255)

- Fine Arts, Bachelor of Arts (p. 266)
- Fine Art, Bachelor of Fine Arts (p. 193)
- French Language, Literature, and Culture (p. 460)
- Geography (p. 283)
- Geological Sciences, Bachelor of Arts (p. 291)
- Geological Sciences, Bachelor of Science (p. 293)
- German Language and Literature (p. 461)
- Graphic Design, Bachelor of Fine Arts (p. 195)
- History (p. 308)
- Human Services and Social Justice (p. 471)
- Interaction Design, Bachelor of Fine Arts (p. 196)
- Interior Architecture, Bachelor of Fine Arts (p. 318)
- Japanese Language and Literature (p. 214)
- Journalism and Mass Communication (p. 342)
- Judaic Studies (p. 321)
- Korean Language and Literature (p. 215)
- Mathematics, Bachelor of Arts (p. 329)
- Mathematics, Bachelor of Science (p. 331)
- Music (p. 355)
- Neuroscience, Bachelor of Science (p. 151)
- Organizational Sciences (p. 359)
- Peace Studies (p. 367)
- Philosophy (p. 378)
- Philosophy: Public Affairs Focus (p. 379)
- Photojournalism, Bachelor of Fine Arts (p. 198)
- Physics, Bachelor of Arts (p. 385)
- Physics, Bachelor of Science (p. 389)
- Political Communication (p. 344)
- Political Science, Bachelor of Arts (p. 403)
- Political Science, Bachelor of Arts: Public Policy Focus (p. 405)
- Political Science, Bachelor of Science (p. 409)
- Psychological and Brain Sciences (p. 427)
- Religion (p. 455)
- Russian Language and Literature (p. 463)
- Sociology (p. 472)
- Spanish and Latin American Languages, Literatures, and Cultures (p. 464)
- Speech, Language, and Hearing Sciences (p. 481)
- Statistics (p. 491)
- Theatre (p. 501)
- Women's, Gender, and Sexuality Studies (p. 510)

Scholarship Performance in the Major

Major programs are defined by a set of required courses that can be internal to the home department or external to that department but still required in the major program. The prescribed curricula and minimum specific requirements for majors are outlined under each department's heading in this

Bulletin. For all majors in all departments, a minimum grade of C– must be attained in all upper-level courses numbered in the 2000s through 4000s that are required for the major, regardless of whether those courses are internal or external to the home department.

If a student receives a grade of D+, D, or D– in such a course, the major department may permit that course to satisfy a curricular requirement (such as a prerequisite), but it will not count toward the minimum number of credits required for the major until the course is repeated and a satisfactory grade (C– or better) is attained. Once the student has completed the course with a satisfactory grade, credits earned the first time the course was taken will count toward the minimum number of credits required in the major program. Credit earned for the repetition does not count toward the degree.

This condition of C– or better does not apply to introductory-level courses (numbered in the 1000s) that may apply to the major, although a department may choose to implement such a restriction based on its own discretion.

Double Majors

Students who complete the requirements of two majors in Columbian College (such as mathematics and physics or history and economics) may graduate with a double major. Students must consult with advisors in the two departments concerned before officially declaring both majors with Columbian Undergraduate Academic Advising (<https://advising.columbian.gwu.edu/>).

A Columbian College student may declare a second major in the School of Business, School of Engineering and Applied Science, Elliott School of International Affairs, or Milken Institute School of Public Health. Students in other schools may declare a second major in Columbian College. Students wishing to pursue one of these options must request approval through the appropriate department and Columbian Undergraduate Academic Advising (<https://advising.columbian.gwu.edu/>). In all cases, students must complete the general education requirements and a major in their home school in order to graduate.

Double majors do not result in two degrees. See Double Majors (p. 31) and Double Degrees (p. 31) under University Regulations (p. 27).

Special Interdisciplinary Majors

A student may propose a special interdisciplinary major, in consultation with appropriate academic advisors. The proposed major must have valid and clearly defined academic goals to be considered for approval. Only students with a 3.0 or better cumulative grade-point average are eligible to propose a special interdisciplinary major. The proposal must be submitted for approval by the end of the fourth semester or the

semester following completion of 45 credits, whichever comes first.

Approval of the proposed major rests with the Committee on Undergraduate Studies (<https://advising.columbian.gwu.edu/>), which must also approve the proposed name of the major and the composition of the committee that will oversee it. At least 45 credits of the major must be completed in Columbian College. Because of the broad scope of an interdisciplinary program, it may not be part of a double major although students are allowed to declare a minor with approval of the Committee on Undergraduate Studies.

At the discretion of the committee overseeing the major, the student must either write an acceptable senior thesis or pass a comprehensive examination in the last semester of study toward the degree. To be eligible, students must meet the requirements for Special Honors (p. 31) stated under University Regulations, must have a minimum cumulative grade-point average of 3.5, and must receive a Pass With Distinction from all members of the major committee on the final project or thesis through the required CCAS 4191 Special Interdisciplinary Major Capstone course.

MINORS

Minors

Students who wish to familiarize themselves with a field outside their major may graduate with a minor in addition to the major. Not all Columbian College departments offer undergraduate minors; the requirements prescribed by those that do are listed under the department concerned. A student interested in a minor should consult a faculty advisor in the applicable department and declare both major and minor programs through the Office of Undergraduate Studies. Students may pursue at most two minors.

At least one-half of the coursework required for a minor must be done in residence. Grades of C– or better must be earned in upper-division courses, including such courses transferred as advanced standing from another institution. Courses passed with a grade below C– may be used to fulfill a minor field curricular requirement but may not be counted toward the total number of credits required for the minor.

Columbian College students can pursue minors in other schools of the University, as well as those in naval science and in sustainability.

Columbian College offers minors in the following fields:

- Africana Studies (p. 95)
- American Studies (p. 104)
- Anthropology (p. 125)
- Applied Ethics (p. 383)
- Arabic Studies (p. 190)
- Arabic and Hebrew Languages and Cultures (p. 189)

- Archaeology (p. 125)
- Art History (p. 270)
- Art History and Fine Arts (p. 268)
- Astronomy and Astrophysics (p. 392)
- Biological Anthropology (p. 126)
- Biology (p. 153)
- Biophysics (p. 392)
- Chemistry (p. 183)
- Chinese Language and Literature (p. 218)
- Classical and Ancient Near Eastern Studies (p. 190)
- Communication (p. 365)
- Creative Writing (p. 252)
- Criminal Justice (p. 475)
- Cross-Cultural Communication (p. 126)
- Dance (p. 503)
- Data Science (p. 209)
- Economics (p. 231)
- English (p. 252)
- English for Business Students (p. 253)
- Film Studies (p. 257)
- Fine Arts (p. 270)
- French Language, Literature, and Culture (p. 466)
- Geographic Information Systems (p. 288)
- Geography (p. 289)
- Geological Sciences (p. 294)
- German Language and Literature (p. 467)
- Graphic Design (p. 200)
- Hebrew (p. 191)
- History (p. 312)
- Human Services and Social Justice (p. 475)
- Italian Language and Literature (p. 467)
- Japanese Language and Literature (p. 219)
- Journalism and Mass Communication (p. 347)
- Judaic Studies (p. 323)
- Korean Language and Literature (p. 219)
- Law and Society (p. 476)
- LGBT and Sexuality Studies (p. 515)
- Linguistics (p. 68)
- Logic (p. 383)
- Mathematics (p. 336)
- Mind-Brain Studies (p. 383)
- Music (p. 356)
- Organizational Communication (p. 366)
- Organizational Sciences (p. 366)
- Peace Studies (p. 370)
- Philosophy (p. 384)
- Photography (p. 200)
- Physics (p. 393)

- Political Science (p. 412)
- Psychological and Brain Sciences (p. 431)
- Public Policy (p. 413)
- Religion (p. 458)
- Russian Language and Literature (p. 467)
- Sociocultural Anthropology (p. 127)
- Sociology (p. 476)
- Spanish and Latin American Languages, Literatures, and Cultures (p. 468)
- Speech, Language, and Hearing Science (p. 485)
- Statistics (p. 494)
- Theatre (p. 504)
- Women's, Gender, and Sexuality Studies (p. 516)

MASTER'S

Master's Programs

See Requirements listed below.

- Master of Arts in the field of American studies (p. 104)
- Master of Arts in the field of anthropology (p. 128)
- Master of Arts in the field of applied economics (p. 231)
- Master of Arts in the field of art history (p. 268)
- Master of Arts in the field of art therapy (p. 133)
- Master of Arts in the field of Chinese language and culture (p. 217)
- Master of Arts in the field of communication management (p. 363)
- Master of Arts in the field of criminology (p. 473)
- Master of Arts in the field of decorative arts and design history (p. 200)
- Master of Arts in the field of English (p. 251)
- Master of Arts in the field of environmental resource policy (p. 446)
- Master of Arts in the field of exhibition design (p. 201)
- Master of Arts in the field of forensic psychology (p. 420)
- Master of Arts in the field of history (p. 311)
- Master of Arts in the field of interaction design (p. 202)
- Master of Arts in the field of interior architecture (<http://bulletin.gwu.edu/arts-sciences/corcoran/ma-interior-architecture/>)
- Master of Arts in the field of Islamic studies (p. 457)
- Master of Arts in the field of leadership education and development (p. 364)
- Master of Arts in the field of mathematics (p. 334)
- Master of Arts in the field of media and strategic communication (p. 346)
- Master of Arts in the field of museum studies (p. 351)
- Master of Arts in the field of new media photojournalism (p. 203)
- Master of Arts in the field of organizational sciences (p. 364)
- Master of Arts in the field of philosophy (p. 381)
- Master of Arts in the field of political science (p. 413)
- Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 382)
- Master of Arts in the field of public policy-women's, gender, and sexuality studies (p. 514)
- Master of Arts in the field of sociology (p. 474)
- Master of Arts in the field of speech-language pathology (p. 484)
- Master of Arts in the field of women's, gender, and sexuality studies (p. 515)
- Master of Fine Arts in the field of classical acting (p. 185)
- Master of Fine Arts in the field of fine arts (p. 269)
- Master of Fine Arts in the field of interior architecture (p. 319)
- Master of Fine Arts in the field of production design (p. 503)
- Master of Fine Arts in the field of social practice (<http://bulletin.gwu.edu/arts-sciences/corcoran/social-practice-mfa/>)
- Master of Forensic Sciences (p. 275)
- Master of Forensic Sciences in the field of forensic molecular biology (p. 276)
- Master of Forensic Sciences in the field of forensic chemistry (p. 275)
- Master of Public Administration (p. 447)
- Master of Public Policy (p. 448)
- Master of Science in the field of anatomical and translational sciences (p. 108)
- Master of Science in the field of applied mathematics (p. 335)
- Master of Science in the field of biological sciences (p. 153)
- Master of Science in the field of bioinformatics and molecular biochemistry (p. 136)
- Master of Science in the field of biostatistics (p. 166)
- Master of Science in the field of chemistry (p. 181)
- Master of Science in the field of crime scene investigation (p. 277)
- Master of Science in the field of data science (p. 210)
- Master of Science in the field of environmental and green chemistry (p. 182) (p. 181)
- Master of Science in the field of geography (p. 287)
- Master of Science in the field of human paleobiology (p. 315)
- Master of Science in the field of physics (p. 391)
- Master of Science in the field of statistics (p. 493)

Unless otherwise specified, the requirements listed below are applicable to candidates for all master's degrees offered by the Columbian College of Arts and Sciences.

General Requirements

Minimum credit requirements follow, but it should be noted that many departments set credit requirements well above the number of credits stated here. Specific requirements appear under the name of the department or program concerned in this Bulletin. For a master's degree program that includes a thesis, satisfactory completion of a minimum of 30 credits of approved graduate coursework is required. For a master's degree program that does not include a thesis, the number of credits of approved graduate coursework is determined by the department. Some departments offer a choice between a thesis option and a non-thesis option. Undergraduate courses taken without additional graduate-level work, deficiency coursework, and EAP courses are not counted toward program requirements or the cumulative degree GPA.

Upon approval, up to one-half of the required graduate work may be taken in courses offered by another degree-granting division of this University. With approval, up to one-quarter of work toward a master's degree may be taken in courses offered by the other affiliated institutions of the Consortium of Universities of the Washington Metropolitan Area. In all cases, at least one-half of the credits counting toward the master's degree must be taken after entering the program, in graduate courses offered by the Columbian College of Arts and Sciences.

Master's students have an overall four-year time limit for completion of all degree requirements. An approved leave of absence is not counted towards the time limit requirement. Students must apply and be approved for an extension of time by the associate dean for graduate studies if they wish to study beyond the time limit.

Transfer of Credit

A maximum of one-quarter of the credits of graduate coursework required for a degree may be approved for transfer to a graduate program in the Columbian College from enrollment in non-degree status at GW or from another degree-granting school of this University or another accredited college or university. For a transfer of credit to be approved, *all* of the following conditions must be met:

1. The coursework must be from an accredited institution and must have been taken within the five years prior to matriculation;
2. The transfer requests must be approved by the department as part of the student's program of studies;
3. The credits must not have been applied to the completion of requirements for another degree;

4. The credits must be post-baccalaureate graduate-level coursework; and
5. All coursework must have received a minimum grade of B.

Requests for transfer credit must be submitted in writing and approved by the department's director of graduate studies and the associate dean for graduate studies during the student's first year in the program. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit will not be counted toward the graduate degree GPA, except in the case of approved non-degree GW credits.

Once enrolled in the Columbian College of Arts and Sciences, students are not permitted to enroll in another university, except under extraordinary circumstances; permission must be sought from the department and the associate dean in advance.

Master's Comprehensive Examination

Many programs require degree candidates to pass a master's comprehensive examination in the major subject. The nature and form of the examination are the responsibility of the department or program. A student who fails to pass the master's comprehensive examination may, with the approval of the department, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

The Thesis

The main purposes of a master's thesis are to demonstrate the student's ability to make independent use of information and training and to furnish objective evidence of constructive powers in a chosen field. The student normally registers for 3 to 6 credits of thesis research supervised by a director and a reader. Registration for thesis research entitles the student to the advice and direction of the member of the faculty under whom the thesis is to be written. If a student has completed the credits required for the degree but has not yet completed their thesis, they may register for one credit of Continuing Research (CCAS 0920). The thesis subject must be approved by the faculty members who will direct the thesis. All theses must be submitted electronically by the stated deadlines and meet the formatting and other requirements set forth on the Electronic Theses and Dissertation (<http://library.gwu.edu/etd/>) webpage.

DOCTORAL

Doctoral Programs

- Doctor of Philosophy (p. 87)
- Doctor of Psychology (p. 89)

Doctor of Philosophy Programs

- Doctor of Philosophy in the field of American studies (p. 105)

- Doctor of Philosophy in the field of American religious history (p. 310)
- Doctor of Philosophy in the field of anthropology (p. 129)
- Doctor of Philosophy in the field of applied social psychology (p. 431)
- Doctor of Philosophy in the field of biological sciences (p. 154)
- Doctor of Philosophy in the field of biostatistics (p. 164)
- Doctor of Philosophy in the field of cancer biology (p. 156)
- Doctor of Philosophy in the field of chemistry (p. 180)
- Doctor of Philosophy in the field of clinical psychology (p. 432)
- Doctor of Philosophy in the field of cognitive neuroscience (p. 434)
- Doctor of Philosophy in the field of economics (p. 232)
- Doctor of Philosophy in the field of English (p. 251)
- Doctor of Philosophy in the field of genomics and bioinformatics (p. 157)
- Doctor of Philosophy in the field of history (p. 311)
- Doctor of Philosophy in the field of human paleobiology (p. 313)
- Doctor of Philosophy in the field of mathematics (p. 332)
- Doctor of Philosophy in the field of microbiology and immunology (p. 159)
- Doctor of Philosophy in the field of neuroscience (p. 160)
- Doctor of Philosophy in the field of pharmacology and physiology (p. 162)
- Doctor of Philosophy in the field of physics (p. 390)
- Doctor of Philosophy in the field of political science (p. 416)
- Doctor of Philosophy in the field of industrial/organizational psychology (p. 361)
- Doctor of Philosophy in the field of public policy and administration (p. 441)
- Doctor of Philosophy in the field of speech, language, and hearing science (p. 483)
- Doctor of Philosophy in the field of statistics (p. 492)

The doctor of philosophy program is divided into two parts: pre-candidacy and candidacy. During pre-candidacy, a student completes the general requirements and the general examination. Once admitted to candidacy, the student prepares, submits, and defends the dissertation.

General requirements

The programs leading to the degree of doctor of philosophy require the satisfactory completion of a minimum of 72 credits of approved graduate coursework, including at least 6 and at most 27 credits of dissertation research. Students must receive the permission of the associate dean for graduate studies to complete fewer than 6 credits of dissertation research. A minimum of 45 of the 72 credits must be taken in the pre-candidacy stage, in preparation for the general examination.

A maximum of 12 of these credits may be taken in courses offered by the other affiliated members of the Consortium of Washington Area Universities. The exact number of credits required for any part of the total program is assigned by each department and may exceed the minimum required by the Columbian College.

PhD students have an overall eight-year time limit for completion of all degree requirements. An approved leave of absence is not counted toward the time limit requirement. Students must apply and be approved for an extension of time by the associate dean for graduate studies if they wish to study beyond the time limit.

Transfer of credit

Entering students who hold a master's degree from an accredited institution and in a field relevant to the proposed doctoral field of study may request transfer of up to 30 credits toward a doctoral degree. For those who do not hold a master's degree, a maximum of 30 credits may be transferred, provided the conditions below are met:

1. The coursework must be from an accredited institution and must have been taken within five years prior to matriculation.
2. The transfer requests must be approved by the department as part of the student's program of studies.
3. The credits must not have been applied to the completion of requirements for another degree.
4. The credits must be in post-baccalaureate, graduate-level coursework.
5. All coursework must have received a minimum grade of *B*.

Requests for transfer credit must be submitted in writing and approved by the department and the associate dean for graduate studies during the student's first year at GW. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit will not be counted toward the graduate degree GPA, except in the case of approved non-degree GW credits.

The general examination

The general examination is composed of an examination in each of the areas of study comprising the student's program. A student who fails to pass any part of the general examination may, with the approval of the department, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

Satisfactory performance on the general examination is required for admission to candidacy but does not guarantee it. A department recommends advancement to candidacy only if satisfied with the student's performance in every aspect of the program, only after a dissertation advisor has been selected and a dissertation area determined, and only if the department

is confident of the student's ability to complete the dissertation within the allotted time.

Master of philosophy degree

Upon departmental recommendation and approval of the associate dean for graduate studies, the degree of master of philosophy may be awarded to students who have been advanced to candidacy and successfully completed all requirements for the doctor of philosophy degree up to and including the general examination. Not all departments recommend students for this degree. Students requesting the MPhil must contact the CCAS Office of Graduate Studies and submit an online application for graduation (<http://registrar.gwu.edu/online-graduation-application-instructions/>). The degree is not automatically conferred upon advancing to candidacy. Students must have completed at least 18 credits of coursework at GW to be eligible for the master of philosophy degree.

Dissertation and final examination

A dissertation directed or co-directed by a member of the GW faculty is required of each doctoral candidate as evidence of ability to perform scholarly research and interpret its results. The student's core research committee is composed of a director and two readers who advise the student during the dissertation research process. It is permissible for the dissertation director to be drawn from outside of the academic unit in which the student is enrolled. If the director is from outside the academic unit, then the committee must also have a co-director from inside the unit.

The student normally enrolls for 6 to 27 credits of dissertation research after admission to candidacy. Dissertation Research must be taken in units of no fewer than 3 credits per semester. When the dissertation has been approved by the director and the members of the Dissertation Research Committee, the candidate takes the Final Examination (the defense). A committee of examiners composed of Columbian College faculty and outside scholars conducts the examination. This examination committee consists of the director (and co-director, if applicable) and the two readers who made up the research committee, as well as two additional examiners and a chair. The examiners cannot have had a direct role in the dissertation research process. One examiner must be from within the academic unit, with the other examiner coming from outside the academic unit. The chair of the examination cannot be drawn from the research committee or examiners. If the candidate passes, they are recommended to Columbian College for the degree of doctor of philosophy. The dissertation must be submitted electronically by the stated deadline and meet the formatting and other requirements set forth on the Electronic Theses and Dissertations website (<http://library.gwu.edu/etd/>).

Dual doctor of medicine/doctor of philosophy degree program

A dual degree program is available to qualified students who seek both the doctor of medicine and doctor of philosophy degrees. The requirements that must be fulfilled for both

degrees are identical to those currently and separately established in the School of Medicine and Health Sciences and the Columbian College of Arts and Sciences. A student working toward these degrees may apply a maximum of 24 credits of approved coursework in the School of Medicine and Health Sciences toward the doctor of philosophy degree. The estimated time for the completion of this dual program is six years. In order to enter the dual degree program, a prospective student must apply for and gain admission both to the Columbian College and to the School of Medicine and Health Sciences separately through established procedures. Upon admission to both schools, the student may then apply for affiliation with the dual degree program.

Doctor of Psychology Program

- Doctor of Psychology in the field of professional psychology (p. 418)

General requirements

The program leading to the degree of doctor of psychology requires the satisfactory completion of a minimum of 83 credits of approved graduate work. A maximum of 12 credits may be taken in courses offered by the other affiliated members of the Consortium of Universities. Doctor of psychology students have an overall five-year time limit for completion of all degree requirements. An approved leave of absence is not counted toward the time limit requirement. Students must apply and be approved for an extension of time by the associate dean for graduate studies if they wish to study beyond the time limit.

Transfer of credit

Provisions are the same as those of the doctor of philosophy program, above.

General examination

Each student is required to complete the general examination no later than the beginning of the final semester of the program. A student who fails to pass any part of the general examination may, in exceptional circumstances, and with the approval of the program, repeat the examination at the next scheduled examination date. If the student fails a second time, no further opportunity to take the examination is permitted, and the student's degree candidacy is terminated.

The master of psychology degree

Students who have earned 53 credits toward the PsyD may receive the MPsy degree. Further information on the requirements of the doctor of psychology degree appears under Professional Psychology (<http://bulletin.gwu.edu/arts-sciences/professional-psychology/>). Students requesting the MPsy degree must contact the CCAS Office of Graduate Studies and submit an online application for graduation (<http://registrar.gwu.edu/online-graduation-application-instructions/>). The degree is not automatically conferred after completion of 53 credits

CERTIFICATES

Graduate certificate programs

The Columbian College of Arts and Sciences offers a range of graduate certificate programs. Departments and programs offering graduate certificates are indicated in italics.

- Anatomical and (p. 108)translational sciences—*Institute of Biomedical Sciences*
- Budget and public finance (p. 443)—*Public Policy and Public Administration*
- Contexts of environmental policy (p. 444)—*Public Policy and Public Administration/Environmental Resource Policy*
- Data science (p. 211)—*Data Science*
- Documentary filmmaking (p. 336)—*Media and Public Affairs*
- Environmental resource policy (p. 445)—*Public Policy and Public Administration/Environmental Resource Policy*
- Financial mathematics (p. 333)—*Mathematics*
- Forensic investigation (p. 274)—*Forensic Sciences*
- Geographical information systems (p. 287)—*Geography*
- Islamic studies (p. 456)—*Religion*
- Jewish cultural arts (p. 322)—*Judaic Studies*
- LGBT health policy and practice (p. 419)—*Professional Psychology*
- Mathematics (p. 334)—*Mathematics*
- Museum collections management and care (p. 350)—*Museum Studies*
- Museum studies (p. 350)—*Museum Studies*
- Nonprofit management (p. 445)—*Trachtenberg School of Public Policy and Public Administration*
- Women's, gender, and sexuality studies (p. 513)—*Women's, Gender, and Sexuality Studies*

Admission

Certificate students are not automatically admitted to a master's or doctoral program; they must submit an application for admission, meet the admission requirements, and be admitted to the degree program.

With departmental and Columbian College approval, students may concurrently register for a certificate and another Columbian College degree. If the certificate is conferred by another school, students must secure permission from both schools and apply and be admitted to both schools.

Certificate Completion

The Columbian College of Arts and Sciences requires all certificate candidates, both full-time and part-time, to complete all academic requirements within a maximum of three calendar years from admission. An approved leave of absence is not counted towards the time limit requirement. Students must apply and be approved for an extension of time by

the associate dean for graduate studies if they wish to study beyond the time limit.

To be eligible for a graduate certificate, students must complete all course requirements with a minimum GPA of 3.0, with no grades of F.

Transfer of Credit

Requests for transfer credit must be submitted in writing and approved by the department's director of graduate studies and the associate dean for graduate studies during the student's first year in the program. An official transcript of the coursework must be on file before the request can be considered. Grades from transfer credit are not part of the graduate GPA.

Once enrolled in the Columbian College of Arts and Sciences, students are not permitted to transfer coursework taken outside the University, except under extraordinary circumstances; permission must be sought from the associate dean for graduate studies in advance.

Transfer of credit to the certificate

All courses transferred in to a graduate certificate program must meet the following conditions:

1. The coursework must be from an accredited institution and must have been taken within the five years prior to matriculation.
2. The transfer requests must be approved by the department as part of the student's program of studies.
3. The credits must be from post-baccalaureate, graduate-level coursework.
4. All coursework must have received a minimum grade of B.

In addition, the following restrictions apply:

1. A maximum of one course from outside GW can be transferred in.
2. A maximum of two courses that have been used toward a previously completed CCAS program can be transferred in.
3. No course may count toward more than one graduate certificate.

Transfer of credit from certificate to degree programs

Students may transfer up to 100 percent of coursework (maximum of 18 credits) from a CCAS certificate program to a CCAS degree program if the curriculum for the certificate is wholly a subset of the degree, providing the conditions below are met:

1. The coursework must have been taken within the five years prior to matriculation.
2. The course must have received a minimum grade of B.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
 - Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
 - Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
 - The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
-
- Africana Studies (AFST) (p. 1400)
 - American Studies (AMST) (p. 1400)
 - Anthropology (ANTH) (p. 1409)
 - Arabic (ARAB) (p. 1418)
 - Art Therapy (ARTH) (p. 1426)
 - Astronomy (ASTR) (p. 1428)
 - Biochemistry and Molecular Medicine (BIOC) (p. 1429)
 - Biological Sciences (BISC) (p. 1431)
 - Biomedical Sciences (BMSC) (p. 1442)
 - Biostatistics (BIOS) (p. 1443)
 - Chemistry (CHEM) (p. 1445)
 - Chinese (CHIN) (p. 1450)
 - Classical Acting (ACA) (p. 1396)
 - Classical Studies (CLAS) (p. 1461)
 - Columbian College of Arts and Sciences (CCAS) (p. 1468)
 - Communication (COMM) (p. 1468)
 - Corcoran Art History (CAH) (p. 1483)
 - Corcoran Continuing Education (CCE) (p. 1491)
 - Corcoran Decorative Arts and Design (CDAD) (p. 1491)
 - Corcoran Exhibition Design (CEX) (p. 1492)
 - Corcoran First Year Foundation (CFN) (p. 1493)
 - Corcoran Graphic Design (CGD) (p. 1494)
 - Corcoran Interior Architecture (IA) (p. 1658)

GENERAL EDUCATION CURRICULUM-PERSPECTIVE, ANALYSIS, COMMUNICATION (G-PAC)

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

AFRICANA STUDIES

The Africana Studies program promotes an interdepartmental, interdisciplinary examination of the diverse histories, cultures, politics, and peoples of the African diaspora. Regional coverage includes the United States, Africa, the Caribbean, Latin America, Europe, and the Middle East. Students are introduced to methodology from core areas of the humanities and social sciences to develop skills in comparative, cross-cultural analysis and research. A student's course of study might range from Caribbean cultures, the literature of Black America, the historical evolution of African independence movements, or the sociology of power and equality in the United States, to an anthropological approach to the transatlantic slave trade.

Visit the department website (<https://africanastudies.columbian.gwu.edu/>) for more information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in Africana studies (p. 93)

Minor

- Minor in Africana studies (p. 95)

FACULTY

Committee on Africana studies J. James (*Director*), N. Blyden, H.G. Carrillo, S. Lubkemann, J.A. Miller, G. Squires, G. Wald, A. Zimmerman

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

AFST 1001. Introduction to Africana Studies. 3 Credits.

An interdisciplinary introduction to the study of people of Africa and the African diaspora in historical context. Links in the cultural, political, and intellectual experiences of people of African descent in the Americas, Caribbean, Europe, and Africa.

AFST 1099. Variable Topics. 36 Credits.

AFST 3001. Documenting Black Lives. 3 Credits.

Students complete and present an original research project pertaining to black history and culture; research strategies, including the use of digital material, historical archives, and public history sites. Recommended background: completion of a prior course in any Africana-related topic and an interest in research.

AFST 3099. Variable Topics. 1-12 Credits.

AFST 5099. Variable Topics. 1-99 Credits.

BACHELOR OF ARTS WITH A MAJOR IN AFRICANA STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
Required for the major—39 credits:		
AFST 1001	Introduction to Africana Studies (taken within three semesters of declaring the major)	
African American studies:		
HIST 3360	African American History to 1865	
SOC 2179	Race and Minority Relations	
ENGL 3570	Nineteenth-Century Black Literature	
or ENGL 3950	Cultural Theory and Black Studies	
Another course from the following designated courses: *		
AMST 2440	The American City	
ENGL 3940	Topics in African American Literary Studies	
ENGL 3945	African American Poetry	

HIST 3360	African American History to 1865
HIST 3361	African American History Since 1865
HIST 3362	African American Women's History
HIST 2312	The American Civil War and Reconstruction, 1850-1877
MUS 1108	History of Jazz
MUS 3175	Topics in Music History and Literature
SOC 2151	Jackie Robinson: Race, Sports, and the American Dream
SOC 2170	Class and Inequality in American Society
SOC 2179	Race and Minority Relations
SOC 2169	Urban Sociology

Four courses in African studies:

ANTH 3708	Anthropology of Africa
HIST 3520	Africans in the Making of the Atlantic World
or HIST 3540	West Africa to Independence

Two additional courses from the following list of designated courses *

HIST 3501	Topics: Africa
HIST 3510	African History to 1880
HIST 3520	Africans in the Making of the Atlantic World
HIST 3530	Women in Africa
HIST 3540	West Africa to Independence
ANTH 3801	African Roots from Australopithecus to Zimbabwe
IAFF 2093	Africa: Problems and Prospects
PSC 2381	Comparative Politics of Sub-Saharan Africa
PSC 2482	African International Politics
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
FREN 3560	Topics in Contemporary Francophone Literature and Cinema

GEOG 3154	Geography of the Middle East and North Africa
-----------	---

GEOG 3164	The Geography of Africa
-----------	-------------------------

Two courses in Latin American, Latino, and Caribbean studies:

HIST 3710	History of Latin America I
-----------	----------------------------

Another course from the following list of designated courses *

ENGL 3920	U.S. Latina/o Literature and Culture
-----------	--------------------------------------

ENGL 3930	Topics in U.S. Latina/o Literature and Culture
-----------	--

FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation
-----------	--

FREN 3560	Topics in Contemporary Francophone Literature and Cinema
-----------	--

GEOG 3161	Geography of Latin America
-----------	----------------------------

IAFF 2090	Latin America: Problems and Promise
-----------	-------------------------------------

HIST 3711	History of Latin America II
-----------	-----------------------------

SPAN 3600	Special Topics
-----------	----------------

An upper-division course in gender studies from the following list of designated courses (this course may also count toward one of the above categories) *

ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
-----------	---

HIST 3530	Women in Africa
-----------	-----------------

HIST 3362	African American Women's History
-----------	----------------------------------

PHIL 2125	Philosophy of Race and Gender
-----------	-------------------------------

REL 3481	Women in Islam
----------	----------------

One additional course from above or from the following:

AMST 2020	Washington, DC: History, Culture, and Politics
-----------	--

AMST 2410	Twentieth Century U.S. Immigration
-----------	------------------------------------

HIST 2803	The Ancient Near East and Egypt to 322 B.C.
-----------	---

REL 3475	Islamic Religion and Art
----------	--------------------------

REL 3414	Islamic Philosophy and Theology
----------	---------------------------------

GEOG 2133	People, Land, and Food
-----------	------------------------

GEOG 2141	Cities in the Developing World
-----------	--------------------------------

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

MINOR IN AFRICANA STUDIES REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including a 3-credit required course and 18 credits in elective courses.

Code	Title	Credits
Required		
AFST 1001	Introduction to Africana Studies	
Electives		
18 credits in courses to be selected in consultation with the program director.		

Visit the program website (<https://africanastudies.columbian.gwu.edu/minor-africana-studies/>) for additional information.

AMERICAN STUDIES

American Studies explores the culture and politics of the United States and the role of the United States in the world. Faculty and students analyze issues of race, gender, sexuality, and other forms of power in American life; transnational flows of culture, ideas, and religious beliefs; the development and transformation of public cultures and spaces; and the ways that policy interacts with each of these areas of inquiry. At both the undergraduate and graduate levels, students are prepared for careers in academic and popular education, media, journalism, cultural resource management, museums, and preservation, as well as for further education in law, medicine, academia, and a wide range of disciplines.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in American studies (p. 102)

Combined program

- Dual Bachelor of Arts with a major in American studies and Master of Arts in the field of American Studies (p. 104)

Minor

- Minor in American studies (p. 104)

GRADUATE

Master's program

- Master of Arts in the field of American studies (p. 104)

Doctoral program

- Doctor of Philosophy in the field of American studies (p. 105)

FACULTY

University Professor V.N. Gamble

Professors D. Bjelajac, M. McAlister, T.A. Murphy, G. Wald

Associate Professors E. Anker, J.N. Cohen-Cole, T. Guglielmo (Chair), C. Heap, A. Musser, D. Orenstein, S. Osman, E. Peña

Assistant Professor N. Ivy

Professorial Lecturers K. Ott, J. Deutsch

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

AMST 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

AMST 1050. Explorations in American Culture. 3 Credits.

Exploration of different aspects of American culture depending on the topic. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

AMST 1070. The American Cinema. 3 Credits.

History and criticism of American films. The course enables the student to recognize and evaluate cinema techniques, to express the evaluation clearly in writing, and to understand the role of films in the context of American culture. Laboratory fee. (Same as AH 1070).

AMST 1099. Variable Topics. 1-36 Credits.**AMST 1100. Politics and Film. 3 Credits.**

How American films interpret and challenge political power in America.

AMST 1160. Race, Gender, and Law. 3 Credits.

Significant civil rights cases, critical race theory, feminist theory, and current public policy debates on domestic violence, mass imprisonment, sexual assault, and racial profiling.

AMST 1200. The Sixties in America. 3 Credits.

A survey of American society, culture, and politics during the decade of the 1960s. Topics include the civil rights movement, the student movement, the Vietnam War, and the counterculture.

AMST 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

AMST 2010. Early American Cultural History. 3 Credits.

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same as HIST 2010.

AMST 2011. Modern American Cultural History. 3 Credits.

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as HIST 2011.

AMST 2020. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same As: AMST 2020W, HIST 2020, HIST 2020W.

AMST 2020W. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2020, HIST 2020, HIST 2020W.

AMST 2071. Introduction to the Arts in America. 3 Credits.

A survey of American art from the period of colonial exploration and settlement to the postmodern present. Political and social meanings of painting, sculpture, architecture, prints, and photographs. The relationship of art to religion and nationalism; issues of class, race, and gender. Same as AH 2071.

AMST 2120W. Freedom in American Thought and Popular Culture. 3 Credits.

America was founded on the premise of providing freedom to its people. But what, exactly, is freedom? The question has been debated in America since its founding and continues today; this course examines varied answers provided by American political thought and popular culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and PSC 2120W.

AMST 2125. Varieties of Feminist Theory. 3 Credits.

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Same as WGSS 2125. Prerequisites: WGSS 1020 or WGSS 2120.

AMST 2144. Explorations in Historical Geography. 3 Credits.

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as GEOG 2144.

AMST 2210. The African American Experience. 3 Credits.

This course provides a survey of the historical, political, and cultural dimensions of the African American experience in the U.S. The course is organized chronologically and thematically and covers topics such as American slavery, medical experimentation, Hurricane Katrina, aesthetics, hip-hop, and Afro-futurism.

AMST 2320. U.S. Media and Cultural History. 3 Credits.

History and analysis of twentieth-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. (Same as HIST 2320).

AMST 2350. U.S. Religion and Politics. 3 Credits.

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as HIST 2350.

AMST 2380. Sexuality in U.S. History. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as HIST 2380 and WGSS 2380.

AMST 2385. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics.

AMST 2385W. Sex and Citizenship. 3 Credits.

How gender and sexuality have shaped Americans' understanding of citizenship; the state regulation of marriage, reproduction, military service, immigration, and access to other government resources and benefits; the cultural representation of women, LGBTQ individuals, and other sexual and gender minorities as second-class citizens; and the efforts of women, LGBTQ groups, and others to claim full equality in American culture and politics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

AMST 2410. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Same As: AMST 2410W, HIST 2410, HIST 2410W.

AMST 2410W. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2410, HIST 2410, HIST 2410W.

AMST 2430. Capitalism and Culture. 3 Credits.

Cultural and political history of American capitalism from Wall Street to Whole Foods, including advertising, automation, baseball, Fordism, graffiti, housework, punk, real estate, strike-breaking, sex work, and slavery.

AMST 2440. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as HIST 2440.

AMST 2440W. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2440, HIST 2440, HIST 2440W.

AMST 2490. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. (Same as HIST 2490).

AMST 2490W. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 2490W).

AMST 2495. Special Topics in African American History. 3 Credits.

Concentration on specific issues central to the African American experience. Consult the Schedule of Classes for issues to be addressed.

AMST 2520. American Architecture I. 3 Credits.

Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns are introduced as a means of interpretation of historic meaning. Buildings are analyzed both as artifacts and as signifiers of social, cultural, and economic tendencies. 1600-1860. (Same as AH 2154, CAH 2154).

AMST 2521. American Architecture II. 3 Credits.

Continuation of AMST 2520. Stylistic properties, form and type characteristics, technological developments, and urbanistic patterns are introduced as a means of interpretation of historic meaning; analysis of buildings both as artifacts and as signifiers of social, cultural, and economic tendencies. 1860 to present. (Same as AH 2155, CAH 2155).

AMST 2533. Material Culture in America. 3 Credits.

Review and analysis of the cultural messages embedded in our material surroundings. Consideration of a range of humanly created artifacts, ranging from specific objects to vast landscapes. Same as ANTH 2533.

AMST 2600. U.S. Popular Music and Culture. 3 Credits.

Interdisciplinary approach to U.S. popular music as a means for thinking critically about identity, culture, and history from the nineteenth century to the present; popular music as a cultural reflection of society and a key means through which Americans enact and negotiate social opportunities, challenges, and struggles.

AMST 2610. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late 19th century to the present.

AMST 2610W. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2610, HIST 2610, HIST 2610W.

AMST 2620. Human Mind and Artificial Intelligence. 3 Credits.

The history of computers, robots, and artificial intelligence; visions of the future presented in science fiction; how human perceptions of machines affect their perceptions of the human mind.

AMST 2630. Discovering the Mind. 3 Credits.

Introduction to the ways in which the mind sciences have shaped how we understand ourselves, human nature, sex and race, morals, politics, and power.

AMST 2680W. Hashtag America. 3 Credits.

Influential technoskeptic and techno-utopian writing about social media and new media; the relationship between the Internet and society from various scholarly perspectives. Includes a significant engagement with writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

AMST 2710. The United States in the World. 3 Credits.

U.S. cultural and political engagement with the rest of the world in the twentieth and twenty-first centuries. Global culture, transnational ideas and social movements, travel and tourism, and the impact of media. Same As: HIST 2710.

AMST 2730. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Same as HIST 2730.

AMST 2730W. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 2730).

AMST 2750. Latinos in the United States. 3 Credits.

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations. Same As: AMST 2750W, ANTH 2750, ANTH 2750W.

AMST 2750W. Latinos in the United States. 3 Credits.

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2750, ANTH 2750, ANTH 2750W.

AMST 3099. Variable Topics. 1-12 Credits.**AMST 3151. American Art in the Age of Revolution. 3 Credits.**

Same as AH 3151.

AMST 3152. American Art in the Era of National Expansion. 3 Credits.

American art from the opening of the Erie Canal in 1825 to the Spanish-American War in 1898. Emphasis on the role of art in the expansion of the United States, exploring issues of race, class, and gender; art, and religion. (Same as AH 3152).

AMST 3324. U.S. Urban History. 3 Credits.

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as HIST 3324.

AMST 3351. U.S. Social History. 3 Credits.

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as HIST 3351).

AMST 3352. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352).

AMST 3352W. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352) Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

AMST 3353. U.S. Women's History II. 3 Credits.

Continuation of AMST 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. Same as HIST 3353/ WGSS 3353. (Same as HIST 3353, WGSS 3353).

AMST 3360. African American History to 1865. 3 Credits.

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as HIST 3360).

AMST 3361. African American History Since 1865. 3 Credits.

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as HIST 3361).

AMST 3362. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late twentieth century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as AMST 3362W, HIST 3362, HIST 3362W, WGSS 3362, WGSS 3362W).

AMST 3362W. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late 20th century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 3362, HIST 3362, HIST 3362W, WGSS 3362, WGSS 3362W).

AMST 3367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people. (Same as HIST 3367).

AMST 3600. Popular Music and Politics. 3 Credits.

The interactions and intersections of music and politics, focusing on the twentieth-century United States; music as political expression, music in social protest movements, and music as a tool of political organizing.

AMST 3625. Ethnographic and Historical Perspectives on Data Ethics. 3 Credits.

An introduction to ethics of data sciences from two disparate perspectives: historical and ethnographic. For students in all fields interested in understanding and evaluating the ethical implications of data and algorithms. Same As: ANTH 3625.

AMST 3810. Planning Cities. 3 Credits.

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as GEOG 3810. Prerequisite: GEOG 1001.

AMST 3811. Historical Archaeology. 3 Credits.

Survey of the basic data and methods of research in the material culture of recent history. Same as ANTH 3811.

AMST 3835. Historical Archaeology Field Program. 3 Credits.

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as ANTH 3835.

AMST 3900. Critiquing Culture. 3 Credits.

Modes of analysis, including ethnography and other cultural studies methods, applied to examination of the interaction of cultural texts and practices with structures of power. Theories and themes central to American studies; scholarly debate about mass culture, ideology, visuality, discourse, and affect. Restricted to American studies majors or American studies minors with permission of the instructor.

AMST 3901. Examining America. 3 Credits.

Modes of power and forms of identification within and across U.S. national borders. Social constructions of the nation; forms of diversity and identity, such as race, gender, and sexuality; and the transnational flow of people, ideas, culture, and religion. Restricted to students in the American studies program.

AMST 3950. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs. Topics announced in the Schedule of Classes.

AMST 3950W. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs. Topic announced in the Schedule of Classes. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HIST 3301W.

AMST 4400. Independent Study. 1-3 Credits.

Open to a limited number of American studies majors as directed research or as an internship with a Washington museum or historical society. Approval of advisor required.

AMST 4450. Internship. 1-3 Credits.

Open to a limited number of American studies majors pursuing an internship directly related to the study of American culture. Students must make the case for a scholarly project that emerges from the internship and must write a significant final paper. Approval of a supervising faculty member required for registration. P/NP grading only.

AMST 4500. Proseminar in American Studies. 3 Credits.

Directed research and writing on special topics. May be repeated for credit provided the topic differs. Restricted to students in the American studies program. Prerequisites: AMST 2010, AMST 2011, AMST 3900 and AMST 3901.

AMST 4500W. Proseminar in American Studies. 3 Credits.

Directed research and writing on special topics. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Students select two of the prerequisite courses. Restricted to students in the American studies program. Prerequisites: AMST 2010, AMST 2011, AMST 3900 and AMST 3901.

AMST 4701W. Epidemics in American History. 3 Credits.

The history of epidemics in the United States from the late nineteenth to the early twentieth century. The development of medical and public health responses to epidemics, and their social, political, cultural, and economic impacts. Sources include primary documents, historical accounts, memoirs, fiction, and films. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

AMST 4702W. Race, Medicine, and Public Health. 3 Credits.

The experiences of African Americans as patients and health care providers; the history of the relationship between race, American medicine, and public health. Emphasis on the importance of understanding the historical roots of contemporary policy dilemmas such as racial and ethnic disparities in health and health care. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

AMST 5099. Variable Topics. 1-99 Credits.**AMST 6100. Scope and Methods in American Studies. 3 Credits.**

Consideration of American studies as an area for research and teaching; introduction to bibliography. Required of candidates for the degree of Master of Arts in the field of American studies.

AMST 6110. Cultural Theory and American Studies. 3 Credits.

Major issues in critical and cultural theory as they relate to American culture. Various interpretive approaches including discourse analysis, cultural studies, new historicism, anthropological theory, etc. Prerequisites: AMST 6100 or permission of the instructor.

AMST 6120. Theories and Practices in the Study of Media. 3 Credits.

Examination of theories and methods in the study of media and popular culture; case studies explore specific issues related to cultural products such as film, television, music, and the Internet.

AMST 6190. Topics in American Studies. 1-4 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Credit cannot be earned for this course and ANTH 6591, ENGL 6451, HIST 6001.

AMST 6195. Research Seminar in American Studies. 3 Credits.

May be repeated for credit provided the topic differs.

AMST 6210. The United States in a Global Context. 3 Credits.

Analysis of the cultural constructions of the nation and international power, comparing the context of the eighteenth and nineteenth century, European colonialism, and U.S. expansion in the twentieth century. The role of literature and mass media in furthering the logic of globalization. Readings are both theoretical and historical.

AMST 6220. Theory and Emotions. 3 Credits.

Interdisciplinary exploration of politics of emotion, with an emphasis on the emotions that attach to race, gender, and sexuality.

AMST 6230. The Politics of Freedom. 3 Credits.

This seminar examines critical interventions into the theories, rhetorics, and practices of freedom. The seminar focuses on the politics of freedom in relation to an array of themes that may include liberalism, slavery, imperialism, political economy, individualism, and neoliberalism.

AMST 6240. Borders and Boundaries. 3 Credits.

Exploration of borders (the literal edge or limit of a territory) and boundaries (intra-societal differences). Readings from cultural anthropology, political science, and social history examine classic tensions between state formation and nation building. The U.S.-Mexico border and other border zones across the globe are used to assess and challenge what is local and particular about border space.

AMST 6410. Readings in American Cultural History. 3 Credits.

Studies in the cultural history of the United States.

AMST 6420. Religion and American Culture. 3 Credits.

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as HIST 6420.

AMST 6430. Gender, Sexuality, and American Culture I. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. (Same as HIST 6430, WGSS 6430).

AMST 6431. Gender, Sexuality, and American Culture II. 3 Credits.

Continuation of AMST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as HIST 6431/ WGSS 6431.

AMST 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as HIST 6435/ WGSS 6435.

AMST 6450. Race in America. 3 Credits.

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as HIST 6450.

AMST 6455. American Social Movements. 3 Credits.

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as HIST 6455.

AMST 6460. Popular Music Studies. 3 Credits.

Readings in popular music studies; varying methodologies for American studies work on sound and popular music; cultural histories of popular music; American music transnationally. Restricted to graduate students.

AMST 6470. Cityscapes. 3 Credits.

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as HIST 6470.

AMST 6475. U.S. Urban History. 3 Credits.

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as HIST 6475.

AMST 6480. Theory and Practice of Public History. 3 Credits.

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as HIST 6480.

AMST 6495. Historic Preservation: Principles and Methods. 3 Credits.

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as HIST 6495.

AMST 6496. Historic Preservation: Principles and Methods. 3 Credits.

Continuation of AMST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as HIST 6496.

AMST 6520. Economics of Preservation. 3 Credits.

Analysis of economic techniques and benefits used to encourage the retention and reuse of historic buildings and districts in the United States. Emphasis on revitalization of older commercial centers and the Mainstreet program. Permission of the instructor required prior to enrollment.

AMST 6525. The Politics of Historic Preservation. 3 Credits.

Overview of the political issues, forces, events, and players that have shaped contemporary preservation practice, with an emphasis on public policy issues that have not been resolved and continue to confront preservation objectives. Permission of the instructor required prior to enrollment.

AMST 6530. Field Methods in Architectural Documentation. 3 Credits.

In-depth thematic examination of cultural landscape, focusing on field techniques for recording, analysis, and interpretation of historic properties. Work at field sites is supplemented by lectures, discussion, and readings. Restricted to graduate students.

AMST 6550. Seminar in American Architecture. 3 Credits.

Advanced research problems addressing artistic, cultural, social, technical, and urbanistic aspects of American architecture in the 19th and 20th centuries. Topics vary. Prerequisites: AMST 2520 or AMST 2521, or permission of the instructor.

AMST 6560. Vernacular Architecture. 3 Credits.**AMST 6650. Advanced Workshop in American Studies. 1-4 Credits.**

Required for first- and second-year PhD students; open to other graduate students. Provides instruction and guidance in the process of writing, revising, and submitting journal articles, conference papers, and dissertations. Faculty and peer review of written work. Students are expected to enroll for the full academic year. Restricted to American studies graduate students.

AMST 6709. Interpretation in the Historic House Museum. 3 Credits.

Seminar integrating advanced practices of museum education with current scholarship in architectural history, material culture, and social history. Extensive use of Washington museum resources. Admission by permission of instructor. Same as EDUC 6709.

AMST 6710. American Material Culture. 3 Credits.

Opportunities for research and publication based on historical objects in the collections of the Smithsonian Institution.

AMST 6720. American Decorative Arts I. 3 Credits.

Recognition and evaluation of domestic artifacts from the 17th, 18th, and 19th centuries.

AMST 6721. American Decorative Arts II. 3 Credits.

Continuation of AMST 6720. Recognition and evaluation of domestic artifacts from the 17th, 18th, and 19th centuries.

AMST 6730. Studies in American Art and History. 3 Credits.

Selected problems and themes in American cultural history involving the use of artistic materials in different media; emphasis on methodology and analytic techniques. May be repeated for credit. Same as AH 6255.

AMST 6835. Historical Archaeology Field Program. 3 Credits.

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as ANTH 6835.

AMST 6930. Independent Study. 3 Credits.

Permission of the instructor required prior to enrollment. Restricted to master's and doctoral candidates.

AMST 6998. Thesis Research. 3 Credits.**AMST 6999. Thesis Research. 3 Credits.****AMST 8998. Advanced Reading and Research. 1-9 Credits.**

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

AMST 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN AMERICAN STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
Required		
AMST 2010	Early American Cultural History	
AMST 2011	Modern American Cultural History	
AMST 3900	Critiquing Culture	
AMST 3901	Examining America	
AMST 4500	Proseminar in American Studies	
Electives		
Five additional AMST courses selected from the following, no more than two of which may be at the 1000 level.		
AMST 1000	Dean's Seminar	
AMST 1050	Explorations in American Culture	
AMST 1070	The American Cinema	

AMST 1100	Politics and Film
AMST 1160	Race, Gender, and Law
AMST 1200	The Sixties in America
AMST 2000	Sophomore Colloquium
AMST 2020	Washington, DC: History, Culture, and Politics
or AMST 2020W	Washington, DC: History, Culture, and Politics
AMST 2071	Introduction to the Arts in America
AMST 2120W	Freedom in American Thought and Popular Culture
AMST 2125	Varieties of Feminist Theory
AMST 2144	Explorations in Historical Geography
AMST 2210	The African American Experience
AMST 2320	U.S. Media and Cultural History
AMST 2350	U.S. Religion and Politics
AMST 2380	Sexuality in U.S. History
AMST 2385	Sex and Citizenship
or AMST 2385W	Sex and Citizenship
AMST 2410	Twentieth Century U.S. Immigration
AMST 2410W	Twentieth Century U.S. Immigration
AMST 2430	Capitalism and Culture
AMST 2440	The American City
or AMST 2440W	The American City
AMST 2490	Themes in U.S. Cultural History
or AMST 2490W	Themes in U.S. Cultural History
AMST 2495	Special Topics in African American History
AMST 2520	American Architecture I
AMST 2521	American Architecture II
AMST 2533	Material Culture in America
AMST 2600	U.S. Popular Music and Culture
AMST 2610	Science, Technology, and Politics in Modern America

or AMST 2610W	Science, Technology, and Politics in Modern America
AMST 2620	Human Mind and Artificial Intelligence
AMST 2630	Discovering the Mind
AMST 2680W	Hashtag America
AMST 2710	The United States in the World
AMST 2730	World War II in History and Memory
or AMST 2730W	World War II in History and Memory
AMST 2750W	Latinos in the United States
AMST 3151	American Art in the Age of Revolution
AMST 3152	American Art in the Era of National Expansion
AMST 3324	U.S. Urban History
AMST 3351	U.S. Social History
AMST 3352	U.S. Women's History to 1865
or AMST 3352W	U.S. Women's History to 1865
AMST 3353	U.S. Women's History II
AMST 3360	African American History to 1865
AMST 3361	African American History Since 1865
AMST 3362	African American Women's History
or AMST 3362W	African American Women's History
AMST 3367	The American Jewish Experience
AMST 3600	Popular Music and Politics
AMST 3810	Planning Cities
AMST 3811	Historical Archaeology
AMST 3835	Historical Archaeology Field Program
AMST 3950	Special Topics
or AMST 3950W	Special Topics
AMST 4701W	Epidemics in American History
AMST 4702W	Race, Medicine, and Public Health

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education

curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may

count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in American Studies, a major must receive a grade of A on the senior paper written for AMST 4500 Proseminar in American Studies.

DUAL BACHELOR OF ARTS WITH A MAJOR IN AMERICAN STUDIES AND MASTER OF ARTS IN THE FIELD OF AMERICAN STUDIES

The Department of American Studies offers a dual bachelor of arts with a major in American studies (p. 102) and master of arts in the field of American studies (p. 104) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://americanstudies.columbian.gwu.edu/combined-bama-american-studies/>) for additional information.

MINOR IN AMERICAN STUDIES REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
AMST 2010	Early American Cultural History	
AMST 2011	Modern American Cultural History	
Electives		

12 credits in AMST courses taken at the 2000-3000 level.

MASTER OF ARTS IN THE FIELD OF AMERICAN STUDIES

Housed in the Columbian College of Arts and Sciences, American studies at GW is one of the nation's most rigorous

and innovative programs. With a core of 15 full-time and 20 affiliated faculty members, the program emphasizes interdisciplinary cultural analysis with approaches from anthropology, architectural history, art history, English, folklife, geography, media studies, history, performance studies and political theory. The department's particular strengths are in cultural history and cultural studies, art and culture, race and ethnicity, gender and sexuality, transnational American studies, urban studies of space and place, political and public cultures and religion.

Students in the master's program can pursue a general degree in American studies or a concentration in museums and material culture. The general M.A. prepares students for advanced PhD. work. The material culture M.A., which draws on the department's interdisciplinary strengths in the analysis of culture, provides pre-professional training with strong links to pertinent D.C. cultural resource management institutions, including the Smithsonian Institution. Both degree programs stress professional-level research and writing skills.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Completion of course and other requirements in either general studies or in the museums and material culture concentration.

General studies—30 credits, including a 3-credit required course, 6 credits in research seminar courses, and 21 credits in elective courses; museums and material culture concentration—30 credits, including 6 credits in required courses, 6 credits in research seminars, and 18 credits in elective courses.

General studies requirements

Code	Title	Credits
AMST 6100	Scope and Methods in American Studies	
At least six credits in research seminars. This may include AMST 6195 taken twice or other approved research courses.		
A minimum of 21 credits in elective courses pertaining to the study of American culture approved by the department. These may include graduate courses in anthropology, English, fine arts and art history, geography, history, media and public affairs, and political science.		
An optional thesis may be undertaken for 6 credits as part of these 21 credits.		

Concentration in museums and material culture requirements

This concentration, offered in association with the Smithsonian Institution, emphasizes the use of physical objects and spaces in historical research.

Code	Title	Credits
Required		
AMST 6100	Scope and Methods in American Studies	
AMST 6710	American Material Culture	
At least 6 credits in designated research seminars.		
At least 18 additional credits in courses pertaining to the study of American culture, museum studies, and museum education		

DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN STUDIES

Housed in the Columbian College of Arts and Sciences, American studies at GW is one of the nation's most rigorous and innovative programs. With a core of 15 full-time and 20 affiliated faculty members, the program emphasizes interdisciplinary cultural analysis with approaches from anthropology, architectural history, art history, English, folklife, geography, media studies, history, performance studies and political theory. The department's particular strengths are in cultural history and cultural studies, art and culture, race and ethnicity, gender and sexuality, transnational American studies, urban studies of space and place, political and public cultures and religion.

Students in the PhD program construct a comprehensive plan of study in three related fields tailored to their interests. These interdisciplinary fields highlight major problems in American studies and in related disciplines, such as art history, English, history and political science. Students develop research agendas early in their studies through participation in seminars and workshops, often drawing on the rich resources of Washington-based archives and research institutes. The department strongly supports the acquisition of foreign language skills.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Code	Title	Credits
Required		
AMST 6100	Scope and Methods in American Studies	
At least two designated research seminars.		
At least one course in theory approved by the advisor.		

Degree candidates must pass a general examination in three areas, to be taken over the course of one month, by the end of the third year from matriculation. The three fields are elected with approval of the advisory committee and should constitute a coherent, interdisciplinary program of study; one field may be devoted to the comparative study of a non-U.S. culture.

ANATOMY AND CELL BIOLOGY

The Department of Anatomy and Cell Biology offers two pre-medicine academic enhancer programs for candidates interested in applying to medical schools, physician assistant programs, or biomedical sciences doctoral programs: the graduate certificate in anatomical and translational sciences (GCATS) and master of science in the field of anatomical and translational sciences (M-ATS), a pre-med special master's program. Both programs are designed to enhance a graduate's competitiveness when applying to medical school or physician assistant programs, or to transition to an advanced graduate degree in the biomedical sciences. Applicants select a program based on their level of readiness for admission to a health professional school.

Visit the (<http://gsehd.gwu.edu/programs/museum-education/>)Department of Anatomy and Cell Biology website (<http://smhs.gwu.edu/anatomy/>) for additional information.

GRADUATE

Master's program

- Master of Science in the field of anatomical and translational sciences (p. 108)

CERTIFICATE

Certificate Program

- Graduate certificate in anatomical and translational sciences (p. 108)

FACULTY

Professors R.G. Hawley, Y. Hu, K.E. Johnson, S.A. Moody (*Chair*), R.H. Miller, K. Peusner, M.A. Stepp

Associate Professors K. Brown, A. Chiaramello, A. Tzatsos, X. Zheng

Assistant Professors I. Chung, N. DeVaul, K. DeVeau, T. Efimova, A. Pajooohesh-Ganji, M. Shibata, M. Spencer, V. Taylor

Research Assistant Professor A. Tavares

Adjunct Instructor K. Lashley

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ANAT 1099. Variable Topics. 1-36 Credits.

ANAT 2130. Human Embryology. 3 Credits.

Development of the basic organ systems; molecular control of development, congenital birth defects, and assisted reproductive technologies.

ANAT 2150. Human Microscopic Anatomy. 3 Credits.

Normal histological structure of cells, tissues, and organs. Structural-functional correlates; the relationship between histological structure-function and the etiology of disease states.

ANAT 2160. Human Functional Neuroanatomy. 3 Credits.

Intensive introductory course on human central (CNS) and peripheral nervous systems, focusing on CNS pathways, connections, effects of lesions, and recent research findings. Restricted to juniors and seniors. Prerequisites: BISC 2202, BISC 2214, and BISC 2322 (may be waived with course director's permission).

ANAT 2181. Human Gross Anatomy. 3 Credits.

The structural organization of the human body and how it relates to regional and systems-based functions. Emphasis on the macroscopic structure of the body. Prerequisites: BISC 1111 and BISC 1112; except by permission of the instructor. Same As: BISC 2581.

ANAT 3099. Variable Topics. 1-12 Credits.

ANAT 5099. Variable Topics. 1-99 Credits.

ANAT 6130. Clinically Oriented Human Embryology. 3 Credits.

The mechanisms of human embryology with clinical correlations of embryological development. Developmental control mechanisms and development of basic organ systems. Molecular control of development. Assisted reproductive technologies. Congenital birth defects. Demonstration labs and online animations for clinical correlates. Restricted to students in the graduate certificate in anatomical and translational sciences program. Recommended background: Introductory course in biology. Credit cannot be earned for this course and ANAT 2130.

ANAT 6150. Clinically Oriented Human Microscopic Anatomy. 4 Credits.

The normal histological structure of cells, tissues, and organs of the human body with emphasis on clinical relevance; structural/functional correlates at both the light and electron microscopic levels; alterations in normal histology through disease or injury and the etiology of various disease states; integration of histological concepts with clinical correlates. Restricted to students in the graduate certificate in anatomical and translational sciences (GCATS) or master's in anatomical and translational sciences (M-ATS) programs. Prerequisites: BISC 1111 and BISC 2202.

ANAT 6160. Human Clinical Neuroanatomy. 3 Credits.

Anatomy and function of the human central and peripheral nervous systems. Emphasis on clinical relevance. Gross and microscopic structure, embryology, and neurophysiology of the brain, spinal cord, and nerves with descriptions of alterations in normal anatomy through disease or injury. Completion of an introductory biology course for science or non-science majors is required prior to enrollment. Restricted to students in the anatomical and translational sciences graduate certificate and Institute for Biomedical Sciences PhD programs or with the permission of the course director.

ANAT 6181. Clinically Oriented Human Gross Anatomy. 4 Credits.

Structural organization of the human body and the relationship of the organization to regional and systems-related functions; application of normal anatomical structure/function relationships to understand clinical implications of disease or injury. The laboratory is used for cadaveric dissection to learn anatomical relationships and basic knowledge of radiographic imaging. Restricted to students in the graduate certificate and master's programs in anatomical and translational sciences and other graduate students with the permission of the course director. Recommended background: Completion of higher-level science courses during the student's undergraduate degree program. Credit cannot be earned for this course and ANAT 2181.

ANAT 6182. Fundamentals of Translational Science. 4 Credits.

Fundamentals of organ development and study; how molecular defects during development can lead to disease. Restricted to students in the graduate certificate in anatomical and translational sciences program.

ANAT 6203. Human Developmental Anatomy. 1 Credit.

ANAT 6204. Neuroanatomy. 2 Credits.

ANAT 6215. Anatomy for Physician Assistant Students. 3 Credits.

Lecture and student examination of prosected cadavers. Provides foundational anatomical knowledge for future courses in the physician assistant curriculum. Restricted to students enrolled in the physician assistant program.

ANAT 6216. Cellular Anatomy and Histology. 2 Credits.

ANAT 6219. Biomedical Ethics for Translational Sciences. 2 Credits.

Ethical issues relevant to the practice of medicine and biomedical research involving human subjects. Permission of the instructor required prior to enrollment. Restricted to graduate students. Recommended background: ANAT 6130, ANAT 6150, ANAT 6160, ANAT 6181 and ANAT 6292.

ANAT 6221. Special Topics in Stem Cell Biology. 1-3 Credits.

ANAT 6222. Special Topics in Stem Cell Biology. 1-3 Credits.

ANAT 6223. Special Topics in Regenerative Medicine. 2 Credits.

Students attend seminars given by invited lecturers to present their research findings and breakthroughs on topics of regenerative medicine. Seminars can be sponsored by the Department of Anatomy and Regenerative Biology, the Stem Cell Interest Group Journal and Data Club, the Molecular Medicine Graduate Program (MMED 8214), and the GW Institute for Neuroscience. Restricted to Graduate Certificate in Anatomical and Translational Sciences only. Prerequisites: Introductory Biology for Science or non-Science Majors.

ANAT 6249. Introduction to Anatomical Research. 1 Credit.

ANAT 6252. Human Variation. 1 Credit.

ANAT 6253. Developmental Neurobiology. 3 Credits.

ANAT 6260. Developmental Genetics. 2 Credits.

ANAT 6262. Gross Anatomy of Upper and Lower Extremities. 2 Credits.

ANAT 6264. Gross Anatomy of Head and Neck. 2 Credits.

ANAT 6266. Gross Anatomy of Thorax and Abdomen. 2 Credits.

ANAT 6268. Gross Anatomy of Pelvis, Perineum, and Lower Extremities. 2 Credits.

ANAT 6275. Advanced Studies in Translational Sciences. 3 Credits.

Semester-long rotation in a research laboratory conducting translational researching, applying fundamental concepts learned in didactic courses, and developing versatility with new technologies. Permission of the program director is required. Restricted to students in the graduate certificate and master of science in anatomical and translational sciences programs. Prerequisites: Prior completion of an introductory-level course in biology for science or non-science majors.

ANAT 6276. Advanced Studies in Anatomy. 1 Credit.

Detailed study of an anatomic topic tailored to the needs of the individual student. Restricted to graduate students who are in the Graduate Certificate in Anatomical and Translational Sciences program or who have permission of the program director and medical students.

ANAT 6279. Applied Regional Anatomy. 1-5 Credits.

Regional dissection, guided readings.

ANAT 6284. Applied Surface Anatomy and Radiology. 5 Credits.

ANAT 6291. Special Projects in Anatomy. 1-12 Credits.

Independent study on any aspect of gross anatomy.

ANAT 6292. Projects in Anatomical Sciences: Introduction to Neuroradiology. 1 Credit.

Various imaging techniques and approaches to visualize normal neuroanatomy toward development and application of skills in teamwork, presentation, discussion, and literature searches. Restricted to students in the graduate certificate in anatomical and translational sciences program.

ANAT 8120. Graduate Human Gross Anatomy. 5 Credits.

An in-depth introduction to human gross anatomy with cadaveric dissection. The structural organization of the human body, including its regional and systems-related functions. The relationship between normal human anatomical variation in structure and function and how disease and/or injury affect these relationships. Permission of the instructor is required prior to enrollment. Offered spring semester in even years. Restricted to doctoral students with permission of the instructor. Recommended background: Prior coursework in the biological sciences or anthropology.

ANAT 8501. Didactic Anatomy. 3 Credits.

Development of a didactic program to include human developmental anatomy, microscopic anatomy, gross anatomy, and/or neuroanatomy. May also include interdepartmental study.

ANAT 8802. Summer Remedial: Human Developmental Anatomy. 1 Credit.

MASTER OF SCIENCE IN THE FIELD OF ANATOMICAL AND TRANSLATIONAL SCIENCES

The master of science in anatomical and translational sciences (M-ATS) is a two-year, non-thesis program designed to give students advanced knowledge in basic medical sciences, clinical studies, and clinical and translational research methods. The program provides students with an in-depth understanding of human gross anatomy, embryology, functional histology, neuroanatomy, genomic medicine, bioinformatics, systems physiology, pharmacology, pharmacogenomics, and modern stem cell biology. It also provides students with a solid background in personalized medicine and the methodological aspects of translational research and clinical investigation. This program is designed to maximize students' academic and career opportunities by enhancing competitiveness of applications to medical schools, physician assistant programs, or advanced graduate degree programs. The M-ATS program has an interdisciplinary curriculum drawing upon the unique strengths and collective expertise of three departments of the GW School of Medicine and Health Sciences—Anatomy and Regenerative Biology, Pharmacology and Physiology, and Clinical Research and Leadership.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The following requirements must be fulfilled: 40 credits in required courses.

Code	Title	Credits
Required		
Year 1		
ANAT 6130	Clinically Oriented Human Embryology	
ANAT 6150	Clinically Oriented Human Microscopic Anatomy	
ANAT 6160	Human Clinical Neuroanatomy	
ANAT 6181	Clinically Oriented Human Gross Anatomy	
ANAT 6292	Projects in Anatomical Sciences: Introduction to Neuroradiology	

And one or both of the following*

ANAT 6223 Special Topics in Regenerative Medicine

ANAT 6275 Advanced Studies in Translational Sciences

Year 2

ANAT 6182 Fundamentals of Translational Science

ANAT 6219 Biomedical Ethics for Translational Sciences

MICR 6236 Fundamentals in Geonomics and Proteomics I

PHAR 6205 Pharmacology

PHAR 6206 Advanced Pharmacology

PHAR 6116 Pharmacogenomics and Personalized Medicine

*As part of the required curriculum, students choose one of the following options in Year 1: ANAT 6223 taken twice; or, ANAT 6275 taken twice; or, ANAT 6223 and ANAT 6275, each taken once. Students must consult the academic advisor before enrolling in either of these two courses.

GRADUATE CERTIFICATE IN ANATOMICAL AND TRANSLATIONAL SCIENCES

The graduate certificate in anatomical and translational sciences (GCATS) in the Columbian College of Arts and Sciences educates students in translational sciences with an understanding of human gross anatomy, embryology, functional histology, neuroanatomy, modern stem cell and developmental biology, and technology for biomedical molecular imaging. GCATS offers a contemporary clinical emphasis using problem-based learning. This two-semester program is designed to maximize career opportunities in the health fields, to enhance competitiveness of applications to medical school or physician assistant programs, or to transition into an advanced graduate degree program in the biomedical sciences.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 19 credits in required courses.

Code	Title	Credits
Required:		
ANAT 6130	Clinically Oriented Human Embryology	
ANAT 6150	Clinically Oriented Human Microscopic Anatomy	
ANAT 6160	Human Clinical Neuroanatomy	
ANAT 6181	Clinically Oriented Human Gross Anatomy	
ANAT 6292	Projects in Anatomical Sciences: Introduction to Neuroradiology	

One of the following options:

ANAT 6223 taken twice; or ANAT 6275 taken twice; or ANAT 6223 and ANAT 6275 each taken once. Students must consult the academic advisor before selecting one of these options.

ANTHROPOLOGY

The Anthropology program includes four concentrations:

- Biological anthropology explores human evolution, anatomy and primatology.
- Sociocultural anthropology examines the role culture plays in shaping human action.
- Linguistic anthropology considers the role of language in human thought.
- Archaeology examines both human origins and more recent issues of state formation and urbanization.

In teaching and research, the program collaborates with the Smithsonian Institution's National Museum of Natural History, as well as departments within the University.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in anthropology (p. 118)
- Bachelor of Arts with a major in archaeology (p. 119)
- Bachelor of Science with a major in biological anthropology (p. 122)

Combined Programs

- Bachelor of Arts with a major in anthropology and Master of Arts in the field of anthropology (p. 124)
- Bachelor of Arts with a major in archaeology and Master of Arts in the field of anthropology (p. 124)
- Bachelor of Science with a major in biological anthropology and Master of Arts in the field of anthropology (p. 124)

- Bachelor of Science with a major in biological anthropology and Master of Science in the field of human paleobiology (p. 125)

Minors

- Minor in anthropology (p. 125)
- Minor in archaeology (p. 125)
- Minor in biological anthropology (p. 126)
- Minor in cross-cultural communication (p. 126)
- Minor in linguistics (p. 68) (interdisciplinary)
- Minor in sociocultural anthropology (p. 127)

GRADUATE

Master's program

- Master of Arts in the field of anthropology (p. 128)

Doctoral program

- Doctor of Philosophy in the field of anthropology (p. 129)

FACULTY

University Professor B. Wood

Professors D.R. Braun, A.S. Brooks, E.H. Cline, I. Feldman, R.R. Grinker, J.C. Kuipers, B.D. Miller, M. Schanfield, C.C. Sherwood

Associate Professors A. Ahmad, J.P. Blomster, B.J. Bradley, A.S. Dent (Chair), M.C. Edberg, S.C. Lubkemann, S.C. McFarlin, C.M. Murray, S.E. Wagner

Assistant Professors W.A. Barr, D. Pardo Pedraza, K. Quave

Professorial Lecturers S.M. Ali, A. Antohin, R. Asmi, J. Bell, P.J. Cressey, C. Greene, D. Hunt, S. Johnston, M. London, M. Merritt, D.K. Thulman, D.H. Ubelaker, E.C. Wortham

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ANTH 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

ANTH 1001. Biological Anthropology. 4 Credits.

Survey of human evolution, genetics and physical variation, and primatology. Regular laboratory exercises. Laboratory fee.

ANTH 1002. Sociocultural Anthropology. 3 Credits.

Survey of the world's cultures, illustrating the principles of cultural behavior. Credit cannot be earned for this course and HONR 2047W.

ANTH 1002W. Sociocultural Anthropology. 3 Credits.

Survey of the world's cultures, illustrating the principles of cultural behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ANTH 1003. Archaeology. 3 Credits.

Introduction to archaeological survey and excavation techniques and laboratory methods of dating and analysis. Brief history of archaeology and survey of world prehistory. Films and laboratory exercises.

ANTH 1004. Language in Culture and Society. 3 Credits.

Comparison and analysis of how cultures use language to communicate. The relationship of language to issues of human nature, gender, race, class, artistic expression, and power.

ANTH 1005. The Biological Bases of Human Behavior. 4 Credits.

Human behavior from an evolutionary perspective, including issues such as communication, intelligence, reproductive behavior, parental behavior, aggression, and cooperation, and drawing on an understanding of the behavior and biology of the nonhuman primates. Laboratory fee.

ANTH 1099. Variable Topics. 1-36 Credits.**ANTH 2000. Sophomore Colloquium. 3 Credits.**

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

ANTH 2008. Foundations of Anthropological Thought. 3 Credits.

The development of anthropological thought in historical context. Exploration of selected basic concepts and theories of contemporary anthropology. To be taken in the junior or senior year. Prerequisite: ANTH 1002.

ANTH 2008W. Foundations of Anthropology. 3 Credits.

The development of anthropological thought in historical context. Exploration of selected basic concepts and theories of contemporary anthropology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors. Prerequisites: ANTH 1002 or ANTH 1002W.

ANTH 2406. Human Evolutionary Genetics. 3 Credits.

Introduction to the patterns and processes of human genetic variation. Topics include human origins and migration; molecular adaptations to environment, lifestyle, and disease; ancient and forensic DNA analyses; and genealogical reconstructions.

ANTH 2501. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. Same as WGSS 2121.

ANTH 2502. Anthropology of Science and Technology: Twenty-First Century Brave New Worlds. 3 Credits.

The relationship between science and society, with consideration of how scientific knowledge and emergent technologies affect our lives, identities, social relations, and material conditions. The sociopolitical context in which scientific knowledge is produced and the ethnographic study of biotechnology, especially genetics and its various applications.

ANTH 2505. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor. Application and critique of models in the design and execution of student independent field research. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004 or permission of the instructor. (Same as MUS 2105).

ANTH 2506. Religion, Myth, and Magic. 3 Credits.

Anthropological approaches to religion from a cross-cultural perspective; ethnographic examples of religious beliefs and activity, with emphasis on non-Western societies; religious process and change.

ANTH 2533. Material Culture in America. 3 Credits.

Review and analysis of the cultural messages embedded in our material surroundings. Consideration of a range of humanly created artifacts, ranging from specific objects to vast landscapes. Same as AMST 2533.

ANTH 2750. Latinos in the United States. 3 Credits.

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2750, AMST 2750W, ANTH 2750W.

ANTH 2750W. Latinos in the United States. 3 Credits.

Exploration of the term Latino and its impact on discussions of race, identity, and citizenship expectations throughout U.S. history. How geographic, linguistic, aesthetic, political, and economic factors construct Latino identity and influence policymaking and international relations. Same As: AMST 2750, AMST 2750W, ANTH 2750.

ANTH 2821. Myths and Mysteries in Archaeology. 3 Credits.

How archaeological methods and techniques can falsify, or support, exotic beliefs about the past. Topics range from King Arthur to Atlantis.

ANTH 2822. Archaeology in Film and Television. 3 Credits.

The relationships between archaeology, the media, and popular culture; nationalism, descendant communities, gender, race, and colonialism.

ANTH 3099. Variable Topics. 1-12 Credits.

ANTH 3401. Human Functional Anatomy. 3 Credits.

The anatomy of the human body, how it works, and how it differs from other animals, especially other primates. Principles and approaches of functional morphology and biomechanics and how function can be reconstructed from fossils, with special focus on the musculoskeletal system. No prior knowledge of anatomy is required. Laboratory fee. Prerequisite: ANTH 1001.

ANTH 3402. Human Evolutionary Anatomy. 3 Credits.

The structure and function of human anatomy, as compared to our closest relatives, the great apes. Using this comparative approach, the course investigates the fossil record of human evolution, with an emphasis on reconstructing relationships, function, behavior, and adaptation in fossil hominins. Prerequisite: ANTH 1001.

ANTH 3403. Forensic Anthropology Laboratory. 2 Credits.

Identification of human skeletal remains by body part, age, sex, race, and individual disease or trauma history; study of skeletal variation in modern and recent populations. Taught at the Smithsonian. Corequisite: ANTH 3404.

ANTH 3404. Human Variation. 1 Credit.

An overview of human variation, with special emphasis on the skeleton. Includes history of physical anthropology, individual and population variations, archaeological recovery of human remains, paleodemography, growth, paleopathology, and forensic anthropology. Corequisite: ANTH 3403 Prerequisite: ANTH 1001. Same As: ANAT 6252.

ANTH 3406. Advanced Human Osteology. 3 Credits.

Advanced techniques in determination of age, sex, ancestry, and pathological conditions using the skeleton. Taught at the Smithsonian. Prerequisites: ANTH 3403 and ANTH 3404.

ANTH 3407. Conservation in a Changing World: Human and Animal Behavior. 3 Credits.

How humans and animals interact in a wide variety of settings, how human and animal welfare can be ensured, and how we can create a scientifically sound, yet socially and economically acceptable, conservation of the planet's biodiversity. Prerequisites: ANTH 1001.

ANTH 3408. The Evolution of Human Families. 3 Credits.

Human parental behavior considered from an evolutionary perspective, including parental care among mammals, concepts of parental investment, and parent-offspring conflict. Focus on parenting in the human lineage from early hominins to hunter-gatherers to the modern context. Prerequisites: ANTH 1001.

ANTH 3409. Evolution of Primate Life Histories. 3 Credits.

Human and non-human primate life histories and their evolution; factors such as body size, brain size, fertility, and life span. Features of modern human life histories, proposed explanations for them, and pertinent fossil evidence. Prerequisite: ANTH 1001.

ANTH 3411. Primatology. 3 Credits.

Physical and behavioral characteristics of the various primate groups and their relationship to human physical and cultural evolution. Prerequisite: ANTH 1001.

ANTH 3412. Hominin Evolution. 3 Credits.

The fossil record of human evolution, including its context. Review of the fossil evidence that concentrates on the distinctive features of each taxon. Pleistocene remains. Laboratory fee. Prerequisite: ANTH 1001.

ANTH 3412W. Hominin Evolution. 3 Credits.

The fossil record of human evolution, including its context. Review of the fossil evidence that concentrates on the distinctive features of each taxon. Pleistocene remains. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisite: ANTH 1001.

ANTH 3413. Evolution of the Human Brain. 3 Credits.

Examination of how the human brain is unique in comparison to other animals, with an emphasis on understanding our species' distinctive neurobiology in terms of the evolution of cognitive abilities such as language, social comprehension, tool making, and abstract thinking.

ANTH 3491. Topics in Biological Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. Instructors are drawn from GW faculty and Smithsonian Institution staff. May be repeated for credit if topic varies. Prerequisite: ANTH 1001.

ANTH 3501. Anthropology of Development. 3 Credits.

The impact of the world economy on nonindustrial societies. Analysis of the role of anthropology in international development programs aimed at alleviating problems in the Third World. Prerequisites: ANTH 1002 or ANTH 1002W.

ANTH 3502. Cultural Ecology. 3 Credits.

Basic principles of cultural ecology. Human interaction with the ecosystem both past and present; emphasis on the application of anthropological precepts to current environmental problems. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004 or ANTH 1004W or permission of the instructor.

ANTH 3503. Psychological Anthropology. 3 Credits.

The cross-cultural study of the relationship between culture and personality. Topics include emotion, conceptions of the self, mental health and illness, sexuality, marriage and parenting, and cognition. Psychobiological, cultural, ecological, and psychoanalytical theories are examined. Prerequisites: ANTH 1002 or permission of the instructor.

ANTH 3504. Illness, Healing, and Culture. 3 Credits.

Introduction to medical anthropology. What the record of human evolution and prehistory tells about human health; the epidemiology of health and illness; how different cultures define disease; understanding illness and healing systems cross-culturally; and the role of medical anthropology in health care and international development. Prerequisites: ANTH 1002 or permission of the instructor.

ANTH 3506. Politics, Ethnicity, and Nationalism. 3 Credits.

Comparative analysis of political systems; political processes, such as factionalism, styles of leadership, and political ritual. Prerequisites: ANTH 1002 or ANTH 1002W; or ANTH 1004 or ANTH 1004W; or permission of the instructor.

ANTH 3507. Kinship, Family, and Community. 3 Credits.

Cross-cultural analysis of how people form, maintain, and transform social groups and boundaries. Focus on how communities such as family, ethnic group, and nation are defined in moral terms. Prerequisites: ANTH 1002 or permission of the instructor.

ANTH 3508. Art and Culture. 3 Credits.

The role of art in culture, with emphasis on small-scale societies. Influences upon the artist, and beliefs and practices associated with art production. Prerequisites: ANTH 1002 or ANTH 1002W; or ANTH 1004 or ANTH 1004W; or permission of the instructor.

ANTH 3513. Anthropology of Human Rights. 3 Credits.

Issues of basic human rights and their violation by different cultures, states, and organizations. Genocide, ecocide, abuses on the basis of ethnicity, religion, or similar factors, and treatment of those seeking asylum. Rights of informants and groups studied in anthropological research. Prerequisites: ANTH 1002 or ANTH 1002W; or ANTH 1004 or ANTH 1004W; or permission of the instructor.

ANTH 3513W. Anthropology of Human Rights. 3 Credits.

Issues of basic human rights and their violation by different cultures, states, and organizations. Genocide, ecocide, abuses on the basis of ethnicity, religion, or similar factors, and the treatment of those seeking asylum. Rights of informants and groups studied in anthropological research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ANTH 1002 or ANTH 1002W.

ANTH 3521. Visual Anthropology and the Social Lives of Images. 3 Credits.

Exploration of what still and moving images do in different cultural contexts, their social lives as they circulate, and how they are transformed as objects and a technology in diverse settings. Prerequisites: ANTH 1002 or ANTH 1002W.

ANTH 3531. Methods in Sociocultural Anthropology. 3 Credits.

Approaches to field research. Conceptual bases and biases in the delineation of problems and in the selection, analysis, and organization of data. Students design and carry out their own field projects in the Washington area. Prerequisite: ANTH 1002.

ANTH 3601. Language, Culture, and Cognition. 3 Credits.

The role of language and culture in the organization of human experience. Beginning with debates about linguistic relativity, the course explores the way language use shapes cognition and practice in a variety of cultures and social contexts. Same as LING 3601. Prerequisite: ANTH 1004. Laboratory fee.

ANTH 3602. Ethnographic Analysis of Speech. 3 Credits.

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Prerequisites: ANTH 1004. (Same as LING 3602).

ANTH 3602W. Ethnographic Analysis of Speech. 3 Credits.

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1004.

ANTH 3603. Psycholinguistics. 3 Credits.

Language as species-specific property of the human mind. Psychological processes involved in the encoding and decoding of language; first and second language acquisition and bilingualism. Same as LING 3603.

ANTH 3625. Ethnographic and Historical Perspectives on Data Ethics. 3 Credits.

An introduction to ethics of data sciences from two disparate perspectives: historical and ethnographic. For students in all fields interested in understanding and evaluating the ethical implications of data and algorithms. Same As: AMST 3625.

ANTH 3691. Special Topics in Linguistic Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ANTH 1004 or permission of the instructor. (Same as LING 3691).

ANTH 3701. Native Peoples - North America. 3 Credits.

Comparative study of Indian groups representative of the different culture areas of the United States and Canada. Contemporary issues involving indigenous groups, the wider society, and the state. Prerequisite: ANTH 1002 or permission of instructor.

ANTH 3702. Anthropology of Latin America. 3 Credits.

Culture history and ways of life in a selected region of Central or South America. Regional focus to be announced in the Schedule of Classes. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

ANTH 3703. Cultures of the Pacific. 3 Credits.

Culture history and ways of life among native peoples of Melanesia, Micronesia, and Polynesia. Prerequisites: ANTH 1002 or ANTH 1004.

ANTH 3704. Cultures of Southeast Asia. 3 Credits.

Anthropological introduction to the cultures of Southeast Asia; the role of biocultural evolution, political economy, gender, colonialism, nationalism, and globalization, particularly in Vietnam, Myanmar, Thailand, Malaysia, Indonesia, and the Philippines.

ANTH 3705. Anthropology of East Asia. 3 Credits.

Intensive study of the culture and history of selected peoples of East or Central Asia. Specific area to be announced in the Schedule of Classes. May be repeated for credit. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

ANTH 3707. Anthropology of the Middle East. 3 Credits.

Geographic environment, language, religion, and social structure of settled and nomadic peoples of the Middle East; emphasis on the Arab world. Prerequisites: ANTH 1002 or ANTH 1004.

ANTH 3708. Anthropology of Africa. 3 Credits.

Comparative examination of the history, cultural development, and contemporary problems of sub-Saharan African cultures. New World African cultures are also considered. Prerequisites: ANTH 1002 or ANTH 1004.

ANTH 3709. Japanese Culture Through Film. 3 Credits.

Survey of the Japanese cultural heritage presented through films. Topics include literature, philosophy, art, religion, and social history from premodern times to the modern era. Lectures and discussion in English. Same as JAPN 3162.

ANTH 3710. Latin America Cinema, Indigenous Media, and Social Movements. 3 Credits.

Major topics in Latin American film and media studies. Political, economic, social, and cultural forces that have shaped Latin American cinema. The role indigenous artists, activists, and social organizations play in shaping Latin American cinema. Same As: ANTH 6710.

ANTH 3791. Topics in Regional Anthropology. 3-4 Credits.

Culture, history, and ways of life in a selected region of the world. Topics vary. Consult the Schedule of Classes for more details. Prerequisites: ANTH 1002 or ANTH 1002W or ANTH 1004.

ANTH 3801. African Roots from Australopithecus to Zimbabwe. 3 Credits.

The development and contributions of Africa from human beginnings through medieval states. Topics include human evolution, origins of art, technology, trade, and animal/plant domestication, rise of African states, early relations with Europe and Asia, antecedents of contemporary African diversity. Prerequisites: ANTH 1003 or permission of the instructor.

ANTH 3801W. African Roots from Australopithecus to Zimbabwe. 3 Credits.

The development and contributions of Africa from human beginnings through medieval states. Topics include human evolution, origins of art, technology, trade, animal/plant domestication, rise of African states, early relations with Europe and Asia, antecedents of contemporary African diversity. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

ANTH 3802. Human Cultural Beginnings. 3 Credits.

Survey of prehistory in Europe, Africa, and Asia from the earliest hominid cultures to the beginnings of agriculture. Prerequisite: ANTH 1003.

ANTH 3802W. Human Cultural Beginnings. 3 Credits.

Survey of prehistory in Europe, Africa, and Asia from the earliest hominid cultures to the beginnings of agriculture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

ANTH 3803. Old World Prehistory: First Farmers to First Cities. 3 Credits.

Archaeology of the Near East, Egypt, Europe, and other areas, from the beginnings of agriculture to the rise of Babylon. Prerequisites: ANTH 1003.

ANTH 3803W. Old World Prehistory: First Farmers to First Cities. 3 Credits.

Archaeology of the Near East, Egypt, Europe, and other areas, from the beginnings of agriculture to the rise of Babylon. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

ANTH 3804. Origins of the State and Urban Society. 3 Credits.

Emergence of urbanism and the state in the prehistory of various world regions. Regions covered might include India, China, Mexico, and the Pacific, among others. Prerequisites: ANTH 1003.

ANTH 3805. Archaeology of Israel and Neighboring Lands. 3 Credits.

The archaeology of Israel and adjacent areas (Syria, Jordan, Lebanon). Examination of many major sites and monuments. Significant problems and current debates. Same as AH 3106.

ANTH 3806. Art and Archaeology of the Aegean Bronze Age. 3 Credits.

Excavational and multidisciplinary aspects of classical archaeology. Minoan and Mycenaean civilizations (1700–1200 B.C.) Same as AH 3104.

ANTH 3808. Archaeology and the Celts. 3 Credits.

The archaeology and history of the Celtic peoples, particularly how ethnicities and identities are defined and how these can be recovered from material culture; how archaeological ideas of the Celts have informed modern group identities
Prerequisites: ANTH 1003.

ANTH 3811. Historical Archaeology. 3 Credits.

Survey of the basic data and methods of research in the material culture of recent history. Same as AmSt 3811.

ANTH 3812. The Aztec Empire. 3 Credits.

Using archaeology, art, and ethnohistoric documents, this course focuses on the importance of power in Aztec society and how the normalization of violence created a form of social cohesion central to the state. Prerequisite: ANTH 1003. (Same as AH 3116, CAH 3116).

ANTH 3813. Archaeology of North America. 3 Credits.

History of American archaeology; survey of North American culture history from human entry into the Americas during the Pleistocene period until the time of the first European contacts. Focus on peoples north of Mexico. Prerequisite: ANTH 1003.

ANTH 3814. Ancient Mexican Civilizations. 3 Credits.

Cultural history of pre-Columbian societies in Middle America; the emergence of Mesoamerican civilization from the earliest hunter-gatherers and first farmers to the Aztec Empire. Prerequisite: ANTH 1003. (Same as AH 3107, CAH 3107).

ANTH 3823. Archaeology of Ritual and Religion. 3 Credits.

Archaeological and ethnographic examples from around the world are used to critically evaluate how archaeologists make inferences about ritual practices and the religious lives of past peoples. Issues include the origins of symbolic behavior, sacred landscapes, shamanism, ancestor veneration, and sorcery/witchcraft.

ANTH 3831. Paleoanthropological Field Program. 0 Credits.

Field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Conducted at selected sites in Eurasia, Africa, or Australia. Departmental approval required. Restricted to fellowship students. Credit cannot be earned for this course and ANTH 3832.

ANTH 3832. Paleoanthropological Field Program. 4 Credits.

Field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Conducted at selected sites in Eurasia, Africa, or Australia. Visits to comparative sites and collections in the region.

ANTH 3833. Field Research: New World. 1-6 Credits.

Survey, excavation, and/or laboratory analysis at localities in North or South America. See Schedule of Classes for details.

ANTH 3834. Field Research: Old World. 1-6 Credits.

Survey, excavation, and/or laboratory analysis at Neolithic or later localities in Eurasia, Africa, or Oceania. See Schedule of Classes for details.

ANTH 3835. Historical Archaeology Field Program. 3 Credits.

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as AMST 3835.

ANTH 3836. Koobi Fora Field School (Fellowship). 0 Credits.

Field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Visits to comparative sites and collections in the region. Instructor approval required. Restricted to fellowship students.

ANTH 3838. Theory and Practice in Archaeology. 3 Credits.

The primary literature in archaeology theory since the 1960s. Ethics, topical issues, and archaeological practice. Prerequisite: ANTH 1003.

ANTH 3838W. Theory and Practice in Archaeology. 3 Credits.

The primary literature in archaeology theory since the 1960s. Ethics, topical issues, and archaeological practice. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: ANTH 1003.

ANTH 3839. Lab Research Methods in Archaeology. 3 Credits.

Research methods and techniques used by archaeologists. Emphasis on hands-on experience in one or more techniques. Prerequisite: ANTH 1003.

ANTH 3891. Special Topics in Archaeology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ANTH 1003 or permission of the instructor.

ANTH 3991. Special Topics. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ANTH 3991W. Special Topics. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AMST 2490W.

ANTH 3995. Undergraduate Research. 1-12 Credits.

Individual research problems to be arranged with a member of the faculty. May be repeated for credit. Permission of the instructor required prior to enrollment.

ANTH 4008. Seminar: Contemporary Anthropological Theory. 3 Credits.

The development of major trends in anthropological theory. How anthropologists from the four fields—sociocultural, linguistic, biological, and archaeology—have deployed and developed the ideas of theorists in their own empirical research and theorizing about specific processes. Prerequisite: ANTH 2008.

ANTH 4008W. Seminar: Contemporary Anthropological Theory. 3 Credits.

The development of major trends in anthropological theory. How anthropologists from the four fields -- sociocultural, linguistic, biological, and archaeology -- have deployed and developed the ideas of theorists in their own empirical research and theorizing about specific processes. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ANTH 2008 or ANTH 2008W.

ANTH 5099. Variable Topics. 1-99 Credits.

ANTH 6101. Proseminar in Biological Anthropology. 3 Credits.

Comprehensive overview of theory and practice in biological anthropology.

ANTH 6102. Proseminar in Sociocultural Anthropology. 3 Credits.

Comprehensive overview of theory and practice in sociocultural anthropology.

ANTH 6103. Proseminar in Archaeology. 3 Credits.

Survey of the most recent archaeological techniques and theoretical approaches to reconstructing and interpreting the cultures of the past.

ANTH 6104. Proseminar in Linguistic Anthropology. 3 Credits.

Contemporary anthropological studies of language in biological, social, and historical perspectives.

ANTH 6200. Museum Anthropology. 3 Credits.

How anthropological collections take shape in the past and carry meaning in the present. Critical examination of artifacts and forms of documentation. Application of material culture theory to museum records, collected objects, the changing meaning given to objects, and the context of collecting.

ANTH 6201. Methods in Museum Anthropology. 3 Credits.

How anthropological collections take shape in the past and carry meaning in the present. Research and analysis of existing collections; issues in museum anthropology.

ANTH 6203. Preventive Conservation Concepts. 3 Credits.

Historical development of preventive conservation in museums, conservation ethics, team approaches to conservation, interactions of various materials with agents of deterioration. Basics of materials testing, preparation of condition reports, choosing museum storage and exhibition materials, and risk assessment. Same as MSTD 6203/ AH 6286.

ANTH 6204. Preventive Conservation Techniques. 3 Credits.

Practical applications of preventive conservation of materials, monitoring environmental conditions, conducting risk assessments, evaluation of exhibit and storage areas; developing plans, policies, and procedures for collections care; grant proposal preparation for collections care initiatives. Same as MSTD 6204/ AH 6287.

ANTH 6205. Problems in Conservation. 3 Credits.

Individual conservation projects to determine composition, construction, decomposition of materials, and possible stabilization techniques. Conservation laboratory experience. AH 6286 or ANTH 6203 may be taken as a corequisite. Prerequisites: AH 6286 or ANTH 6203.

ANTH 6230. Internship in Museum Anthropology. 1-6 Credits.

Supervised individual research and/or field work at the Smithsonian Institution or other area museums, arranged in consultation with the museum and the Anthropology Department. Admission by arrangement with the department chair or museum training advisor. May be repeated for credit up to a maximum of 6 credits.

ANTH 6291. Special Topics in Museum Anthropology. 3 Credits.

The social context and changing meaning of selected cultural processes or aspects of material culture that are represented in museums or public monuments. Topics vary by semester. See department for more details.

ANTH 6301. The Anthropology of Development. 3 Credits.

Theoretical perspectives that distinguish the contribution of anthropology to understanding processes of change in the Third World. Focus on health, population, environment, gender, and tourism issues. The role of anthropology in planning and implementing projects and policy.

ANTH 6302. Issues in Development. 3 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ANTH 6330. Internship in Development Anthropology. 3 Credits.

Supervised participation in a selected development agency or other relevant organization. Opportunity to observe agency procedures and gain practical experience. Admission by permission of instructor or department chair.

ANTH 6331. Research Methods in Development Anthropology. 3 Credits.

Anthropologists' roles in research-related activities, such as feasibility studies, social soundness analysis, and evaluations. Innovative research techniques, such as interactive data gathering, team survey methods, and rapid rural appraisal. Admission by permission of instructor.

ANTH 6391. Anthropology and Contemporary Problems. 3 Credits.

Exploration of anthropological perspectives on a current issue, such as refugees, ethnic violence, national mythologies, and women's health in developing countries. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ANTH 6401. Human Functional Anatomy. 3 Credits.

Growth and function of the musculoskeletal system, including the development, anatomy, and histology of bone, biomechanics of muscle and skeletal tissue, craniofacial and dental growth and morphology, and locomotion. No prior knowledge of anatomy required. Laboratory fee.

ANTH 6403. Primate Behavior. 3 Credits.

Behavioral diversity and trends found in primates, both within and between primate species. How ecology relates to behavior, biology, and individual fitness. Presents pertinent theoretical models and draws from non-primate examples as appropriate. Restricted to Students in the MS and PhD in human paleobiology and MA and PhD in anthropology programs (other graduate students and undergraduates with the permission of the instructor).

ANTH 6404. The Evolution of Primate Life Histories. 3 Credits.

Recent developments in the study of human and non-human life histories. Life history theory. Life history traits compared among primate groups in order to determine how selective pressures have shaped extant primate life history patterns. Laboratory fee.

ANTH 6406. Human Genetic Variation. 3 Credits.

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as FORS 6246.

ANTH 6407. Anthropological Genetics. 3 Credits.

Molecular approaches to understanding human evolution and diversity; current research findings and new methodologies; social and ethical issues, including commercial DNA testing and ownership of biological samples.

ANTH 6412. Paleoanthropology. 1-3 Credits.

Survey of current research in hominid and hominoid evolution, focusing on the integrated nature of the field. Contributions from the geological and biological sciences are stressed, together with innovative geochemical techniques for establishing chronological sequences. Prerequisites: ANTH 3412 or BISC 2450.

ANTH 6413. Analytical Methods in Human Evolutionary Studies. 3 Credits.

A survey of methods and approaches for data collection and analysis in human evolutionary biology research. Topics include comparative methods and basic and multivariate statistics.

ANTH 6491. Topics in Biological Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. Instructors are drawn from GW faculty and Smithsonian Institution staff. May be repeated for credit if topic varies. Credit cannot be earned for this course and FORS 6290.

ANTH 6501. Gender and Sexuality. 3 Credits.

Study of new theoretical and methodological approaches developed in the anthropology of gender; postcolonialism, sexuality, and literary representations of gender. Same as WGSS 6257.

ANTH 6504. Social Study of Science and Technology. 3 Credits.

Concepts, theories, and cases in contemporary science and technology studies with an emphasis on the public and policy relevance of theory. Ethnographic material includes studies of laboratories, technomedicine, and environmental controversies.

ANTH 6505. Medical Anthropology. 3 Credits.

Concepts and theories in contemporary medical anthropology, including "critical" versus "conventional" medical anthropology, changes in approaches since the mid-twentieth century; structural and cultural construction of illness and suffering; ethnographic and epidemiological perspectives.

ANTH 6506. Topics in Medical Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies.

ANTH 6507. Nationalism and Ethnicity. 3 Credits.

Major theoretical and ethnographic issues in the study of nationalism worldwide. Explores how ethnic groups emerge in colonial and contemporary plural societies and how states attempt to integrate ethnic groups into nations.

ANTH 6508. Ethics and Cultural Property. 3 Credits.

Survey of ethical issues in anthropology, focusing on cultural property and repatriation; the epistemological, ethical, and political dilemmas of excavating, collecting, and owning cultural artifacts.

ANTH 6510. War and Memory. 3 Credits.

The lived experiences of violent conflict through an anthropological lens. Focus on war's toll and theories of memory; witnessing and reckoning with genocide; diasporic memory; memorials, monuments, and the missing. Restricted to graduate students.

ANTH 6531. Methods in Sociocultural Anthropology. 3 Credits.

Epistemology; the definition of research problems; selection of research subjects and sites; techniques of data collection (e.g., surveys, interviews); data management and organization; ethical protocols; issues of safety; grant writing and funding.

ANTH 6561. American Folklife. 3 Credits.

The materials of American folk culture, concentrating on folk architecture, crafts, and art. Major organizing themes are regionalism and the use of objects as indicators of cultural intention. Same as AMST 6561.

ANTH 6562. Folklore Theory. 3 Credits.

An intellectual history of American folklore research; analysis of particular theories and methods. Same as AMST 6562.

ANTH 6591. Topics in Sociocultural Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies. Credit cannot be earned for this course and AMST 6190.

ANTH 6691. Topics in Linguistic Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic varies.

ANTH 6702. Issues in Latin American Anthropology. 3 Credits.

Intensive study of a selected topic in the anthropology of Central and/or South America. Topic to be announced.

ANTH 6707. Issues in Middle East Anthropology. 3 Credits.

Selected topics in the anthropology of the Middle East. Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ANTH 6710. Latin America Cinema, Indigenous Media, and Social Movements. 3 Credits.

Major topics in Latin American film and media studies. Political, economic, social, and cultural forces that have shaped Latin American cinema. The role indigenous artists, activists, and social organizations play in shaping Latin American cinema. Same As: ANTH 3710.

ANTH 6801. Paleolithic Archaeology. 3 Credits.

Current problems relating to materials from the Old World.

ANTH 6802. Problems in Eurasian and African Archaeology. 3 Credits.

Topic announced in the Schedule of Classes. Topics may include Bronze Age conflict, the Celts, etc. May be repeated for credit.

ANTH 6803. Problems in New World Archaeology. 3 Credits.

Current archaeological problems relating to the origin and development of aboriginal cultures. Specific topic to be announced in the Schedule of Classes. May be repeated for credit.

ANTH 6804. Problems in Mesoamerican Archaeology. 3 Credits.

Topics range from specific civilizations, such as the Olmec, to pan-Mesoamerican topics, such as religion and exchange. May be repeated for credit.

ANTH 6806. Technology. 3 Credits.

Cross-cultural examination of the form, function, meaning, and use of material culture (such as ceramics or stone tools) and the behavior patterns involved in its production. Topic vary by semester. Consult the Schedule of Classes for more details.

ANTH 6807. Public Archaeology. 3 Credits.

The use and creation of the past and the relationship between archaeologists and different publics.

ANTH 6832. Paleoanthropological Field Program. 4 Credits.

Intensive course on field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Conducted at selected sites in Eurasia, Africa, or Australia. Visits to comparative sites and collections in the region.

ANTH 6833. Field Research: New World. 1-6 Credits.

Survey, excavation, and/or laboratory analysis at localities in North or South America. Consult the Schedule of Classes for more details.

ANTH 6835. Historical Archaeology Field Program. 3-6 Credits.

Practical experience with a variety of excavation and laboratory techniques in historical archaeology; specific site and topics announced in the Schedule of Classes. Same as AMST 6835.

ANTH 6836. Koobi Fora Field School (Fellowship). 0 Credits.

Field research in paleoanthropology, including excavation methods, identification and analysis of materials, paleoecology, archaeology, and human anatomy. Visits to comparative sites and collections in the region. Instructor approval required. Restricted to fellowship students.

ANTH 6838. Archaeological Theory. 3 Credits.

Overview of major theories and positions in American archaeology; examination of new issues and directions in which the field appears to be moving.

ANTH 6839. Lab Research Methods in Archaeology. 3,4 Credits.

Research methods and techniques used by archaeologists. Emphasis on hands-on experience in one or more techniques. Laboratory fee.

ANTH 6891. Topics in Archaeology. 3 Credits.

Major issues related to the theory and practice of archaeology. Topic announced in the Schedule of Classes.

ANTH 6995. Research. 1-12 Credits.

May be repeated for credit.

ANTH 6998. Thesis Research. 3 Credits.**ANTH 6999. Thesis Research. 3-9 Credits.**

Development of a thesis project and accompanying research.

ANTH 8695. Linguistic Field Methods. 3 Credits.

The relationship between language and thought in dialogue with the study of a particular foreign language. Ethnographic study of language and cognition and the application of linguistic theory and method to anthropological research. Methods of elicitation and textual analysis, and technologies used for storing and analyzing linguistic data. Restricted to graduate students.

ANTH 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ANTH 8999. Dissertation Research. 3-12 Credits.
May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN ANTHROPOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

The following curriculum requirements:

Code	Title	Credits
Prerequisite courses:		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	

Code	Title	Credits
Required courses in other areas:		
Two-year proficiency in a single foreign language, as demonstrated by completion of four semesters of college-level language study or the equivalent		

6-12 credits of coursework in related departments approved by the advisor. Recommended for sociocultural emphasis are courses in economics, history, political science, psychology, religion, and sociology; for archaeological emphasis, courses in American studies, art history, geography, geological sciences, and history; for emphasis in biological anthropology, courses in anatomy, biological sciences, chemistry, and physical geography; for emphasis in linguistic anthropology, courses in linguistics and in speech and hearing science. Courses in statistics are strongly recommended for all anthropology majors

Requirements for the major:		
In addition to the four prerequisite courses, 24-36 credits in anthropology courses, including:		
ANTH 2008	Foundations of Anthropological Thought	

At least one course from three of the following four categories:

Sociocultural anthropology (ANTH 2500s, 2700s, 3500s, and 3700s)		
--	--	--

Linguistics (ANTH/LING 3600s)

Biological anthropology (ANTH 2400s and 3400s)		
--	--	--

Archaeology (ANTH 3800s)

An approved methods course in any category, including but not limited to the courses listed below. (Methods courses can be double-counted as courses in their subject categories.)		
--	--	--

ANTH 3406	Advanced Human Osteology
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3832	Paleoanthropological Field Program
ANTH 3833	Field Research: New World
ANTH 3834	Field Research: Old World
ANTH 3835	Historical Archaeology Field Program
ANTH 3839	Lab Research Methods in Archaeology
ANTH 6806	Technology

In addition, a senior capstone experience is required; it may be met by taking ANTH 4008, ANTH 3995 (for 3 credits), or an approved 6000-level course. Qualified seniors may enroll in graduate-level courses with the permission of the instructor.		
--	--	--

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.

- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in anthropology, archaeology, or biological anthropology, students must have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research, and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

BACHELOR OF ARTS WITH A MAJOR IN ARCHAEOLOGY

REQUIREMENTS

The bachelor of arts with a major in archaeology is an interdepartmental program offered by the Department of Anthropology (<http://anthropology.columbian.gwu.edu/>) in cooperation with the Department of Arts and Art History (<http://art.gwu.edu/>) and the Department of Classical and Near Eastern Languages and Civilizations (<http://departments.columbian.gwu.edu/cnelc/>).

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Additional curriculum requirements:

Code	Title	Credits
------	-------	---------

Language requirement

Students must complete 12 credits or demonstrate equivalent skill in French, Spanish, German, Italian, Arabic, Hebrew, Latin, or Greek.

Students whose preparation allows them to waive this requirement are encouraged to begin study of a second language. Graduate study in archaeology usually requires knowledge of two or more languages besides English, and students intending advanced study should consult with an advisor early in their program.

Course requirements

Core courses

ANTH 1002	Sociocultural Anthropology
-----------	----------------------------

ANTH 1003	Archaeology
-----------	-------------

ANTH 3838	Theory and Practice in Archaeology
-----------	------------------------------------

or ANTH 3838W	Theory and Practice in Archaeology
---------------	------------------------------------

Field and laboratory work

One or two courses (3 or 6 credits) from the following:

ANTH 3832	Paleoanthropological Field Program
-----------	------------------------------------

ANTH 3833	Field Research: New World
-----------	---------------------------

ANTH 3834	Field Research: Old World
-----------	---------------------------

ANTH 3835	Historical Archaeology Field Program
-----------	--------------------------------------

ANTH 3839	Lab Research Methods in Archaeology
-----------	-------------------------------------

ANTH 3995	Undergraduate Research (With the advisor's approval.) *
ANTH 6806	Technology (Qualified juniors and seniors with departmental approval.)
Anthropological archaeology	
Four or five courses (12 or 15 credits) selected from the following. Students must take at least one course marked by an asterisk. A course taken toward this requirement cannot also count toward the "ancient civilizations" requirement, below. Either ANTH 2821 or ANTH 2822 and either ANTH 3812 or ANTH 3814 may count toward this requirement, but not both.	
ANTH 2821	Myths and Mysteries in Archaeology
ANTH 2822	Archaeology in Film and Television
ANTH 3801	African Roots from Australopithecus to Zimbabwe
or ANTH 3801W	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
ANTH 3803	Old World Prehistory: First Farmers to First Cities
or ANTH 3803W	Old World Prehistory: First Farmers to First Cities
ANTH 3805	Archaeology of Israel and Neighboring Lands *
or AH 3106	Art and Archaeology of Israel and Neighboring Lands
ANTH 3806	Art and Archaeology of the Aegean Bronze Age *
or AH 3104	Art and Archaeology of the Aegean Bronze Age
ANTH 3808	Archaeology and the Celts *
or AH 3104	Art and Archaeology of the Aegean Bronze Age
ANTH 3811	Historical Archaeology
ANTH 3812	The Aztec Empire *
or AH 3116	The Aztec Empire
ANTH 3813	Archaeology of North America *
ANTH 3814	Ancient Mexican Civilizations *

or AH 3107	Ancient Mexican Civilizations
ANTH 3823	Archaeology of Ritual and Religion
ANTH 3891	Special Topics in Archaeology
Ancient civilizations	
Five courses (15 credits) from the following, including at least one in each category below. Courses marked with an asterisk can count in only one category.	
Art history	
AH 3101	Ancient Art of the Bronze Age and Greece
AH 3102	Ancient Art of the Roman Empire
AH 3103	Art and Archaeology of Egypt and the Near East
AH 3104	Art and Archaeology of the Aegean Bronze Age
or ANTH 3806	Art and Archaeology of the Aegean Bronze Age
AH 3105	Topics in Ancient Art and Archaeology *
or CLAS 3115	Topics in Ancient Art and Archaeology
AH 3106	Art and Archaeology of Israel and Neighboring Lands *
or ANTH 3805	Archaeology of Israel and Neighboring Lands
AH 3107	Ancient Mexican Civilizations
AH 3117	Special Topics in Precolumbian Art and Archaeology *
or ANTH 3891	Special Topics in Archaeology
Classics	
CLAS 2105	Special Topics
CLAS 2106	Mythology of the Classical World
CLAS 2107	Greek and Roman Drama
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology *
or AH 3105	Topics in Ancient Art and Archaeology
History	
HIST 2112	History of Ancient Greece

or CLAS 2112	History of Ancient Greece
HIST 2113	The Roman World to 337 A.D.
or CLAS 2113	The Roman World to 337 A.D.
HIST 2803	The Ancient Near East and Egypt to 322 B.C.
or CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
HIST 2804	History of Ancient Israel
or CLAS 2804	History of Ancient Israel
HIST 3111	Topics in Ancient History
Archaeology of ancient civilizations	
ANTH 2821	Myths and Mysteries in Archaeology
ANTH 3804	Origins of the State and Urban Society
ANTH 3805	Archaeology of Israel and Neighboring Lands *
or AH 3106	Art and Archaeology of Israel and Neighboring Lands
ANTH 3806	Art and Archaeology of the Aegean Bronze Age *
or AH 3104	Art and Archaeology of the Aegean Bronze Age
ANTH 3808	Archaeology and the Celts *
or AH 3116	The Aztec Empire
ANTH 3812	The Aztec Empire *
ANTH 3813	Archaeology of North America *
ANTH 3814	Ancient Mexican Civilizations *
or AH 3107	Ancient Mexican Civilizations
ANTH 3891	Special Topics in Archaeology *
or AH 3117	Special Topics in Precolumbian Art and Archaeology

No course may count toward more than one requirement for the major.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the

liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW

courses that have been approved by the University and the College.

SPECIAL HONORS

For Special Honors in anthropology, archaeology, or biological anthropology, a major must meet the special honors requirements stated under University Regulations (<http://bulletin.gwu.edu/university-regulations/>), have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGICAL ANTHROPOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
Introductory courses (21 credits)		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
or ANTH 1002W	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
Code	Title	Credits
Required		
12 credits from the following courses:		
ANTH 2406	Human Evolutionary Genetics	
ANTH 3401	Human Functional Anatomy	

ANTH 3402	Human Evolutionary Anatomy
ANTH 3403	Forensic Anthropology Laboratory
ANTH 3404	Human Variation
ANTH 3406	Advanced Human Osteology
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
ANTH 3408	The Evolution of Human Families
ANTH 3409	Evolution of Primate Life Histories
ANTH 3411	Primatology
ANTH 3412	Hominin Evolution
or ANTH 3412W	Hominin Evolution
ANTH 3413	Evolution of the Human Brain
ANTH 3491	Topics in Biological Anthropology
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
ANTH 3832	Paleoanthropological Field Program
9 credits in biology (BISC) courses numbered 2000 or above, including at least one course from each of the following categories:	
Cell/molecular biology	
BISC 2202	Cell Biology
BISC 2207	Genetics
BISC 2208	Genetics Laboratory
BISC 2213	Biology of Cancer
BISC 2214	Developmental Biology
BISC 2220	Developmental Neurobiology
BISC 3209	Molecular Biology
BISC 3210	Nanobiotechnology
BISC 3211	Nanobiotechnology Laboratory
BISC 3212	Immunology
BISC 3261	Introductory Medical Biochemistry
BISC 3262	Biochemistry Laboratory
BISC 3263	Special Topics in Biochemistry
Organismal/sub-organismal biology	

BISC 2320	Neural Circuits and Behavior
BISC 2322	Human Physiology
BISC 2332	Comparative Vertebrate Anatomy
BISC 2333	Evolution and Extinction of Dinosaurs
BISC 2334W	Integrative Biology of Fishes
BISC 2337	Introductory Microbiology Laboratory
or BISC 2337W	Introductory Microbiology
BISC 2339	Parasitology
BISC 3320	Human Neurobiology
Ecology/evolution	
BISC 2581	Human Gross Anatomy
BISC 2450	Organic Evolution
BISC 2451	History of Life
BISC 2452	Animal Behavior
BISC 2454	General Ecology
BISC 3458	Plant Comparative Structure and Function
BISC 3460	Conservation Biology
BISC 3461	Plant-Animal Interactions
BISC 3462	Plant-Animal Interactions Laboratory
BISC 3463	Ecological and Evolutionary Genetics
BISC 3464	Ecology and Evolution of Societies
One course from the following:	
CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
CHEM 2085	Environmental Chemistry
CHEM 3140	Geochemistry
or GEOL 3140	Geochemistry
CHEM 3165	Biochemistry I
CHEM 3166	Biochemistry II
PSYC 2014	Cognitive Psychology
PSYC 2015	Biological Psychology
PSYC 3112	Psychology of Adolescence

PSYC 3118	Neuropsychology
BISC 1005	The Biology of Nutrition and Health
or BISC 1007	Food, Nutrition, and Service
BISC 1006	The Ecology and Evolution of Organisms
or BISC 1008	Understanding Organisms through Service Learning
GEOL 1001	Physical Geology
or GEOL 1005	Environmental Geology
GEOL 1002	Historical Geology
STAT 1127	Statistics for the Biological Sciences

And 6 credits in anthropology (ANTH) courses numbered 2000 or above, excluding courses in the 3400-3499 or the 3802 or 3832 range

Note: The major in biological anthropology may not be pursued in conjunction with the major in anthropology.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in anthropology, archaeology, or biological anthropology, a major have a grade-point average of 3.5 or better in courses required for the major, register for 3 credits of ANTH 3995 Undergraduate Research, and write a paper of special distinction arising out of a program of directed reading or research. Students must confer with an advisor before beginning the work.

DUAL BACHELOR OF ARTS WITH A MAJOR IN ANTHROPOLOGY AND MASTER OF ARTS IN THE FIELD OF ANTHROPOLOGY

The Department of Anthropology offers a dual bachelor of arts with a major in anthropology (p. 118) and master of arts in the field of anthropology (p. 128) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the

number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the combined program should confer with their major advisor regarding the details of their course of study. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bachelorsmasters-programs/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN ARCHAEOLOGY AND MASTER OF ARTS IN THE FIELD OF ANTHROPOLOGY

The Department of Anthropology offers a dual bachelor of arts with a major in archaeology (p. 119) and master of arts in the field of anthropology (p. 128) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the combined program should confer with their major advisor regarding the details of their course of study. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bachelorsmasters-programs/>) for additional information.

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGICAL ANTHROPOLOGY AND MASTER OF ARTS IN THE FIELD OF ANTHROPOLOGY

The Department of Anthropology offers a dual bachelor of science with a major in biological anthropology (p. 122) and master of arts in the field of anthropology (p. 128) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the combined program should confer with their major advisor regarding the details of their course of study. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bachelorsmasters-programs/>) for additional information.

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGICAL ANTHROPOLOGY AND A MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

The Department of Anthropology offers a dual bachelor of science with a major in biological anthropology (p. 122) and master of science in the field of human paleobiology (p. 315) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the combined program should confer with their major advisor regarding the details of their course of study. Visit the program website (<https://anthropology.columbian.gwu.edu/combined-bachelorsmasters-programs/>) for additional information.

MINOR IN ANTHROPOLOGY

REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 12 credits in required courses and 9 credits in additional ANTH courses.

Code	Title	Credits
Required		
ANTH 1001	Biological Anthropology	
ANTH 1002	Sociocultural Anthropology	
ANTH 1003	Archaeology	
ANTH 1004	Language in Culture and Society	
Three additional anthropology (ANTH) courses, which must be taken in different subdisciplines. For the purposes of this minor, ANTH courses may be divided into subdisciplines as follows:		
Biological anthropology—courses in the 3400s and ANTH 1005.		
Archaeology—courses in the 3800s.		
Anthropological linguistics—courses in the 2600s and 3600s.		
Sociocultural anthropology—all other upper-division courses, with the exception of ANTH 3995.		

MINOR IN ARCHAEOLOGY

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ANTH 1003	Archaeology	
ANTH 3838	Theory and Practice in Archaeology	
Four courses from the following. An independent study course in archaeology or an approved art history course may be substituted for one of the four courses.		
ANTH 2821	Myths and Mysteries in Archaeology	
ANTH 2822	Archaeology in Film and Television	
ANTH 3801	African Roots from Australopithecus to Zimbabwe	
ANTH 3801W	African Roots from Australopithecus to Zimbabwe	
ANTH 3802	Human Cultural Beginnings	
ANTH 3802W	Human Cultural Beginnings	
ANTH 3803	Old World Prehistory: First Farmers to First Cities	
ANTH 3803W	Old World Prehistory: First Farmers to First Cities	
ANTH 3804	Origins of the State and Urban Society	
ANTH 3805	Archaeology of Israel and Neighboring Lands	
ANTH 3806	Art and Archaeology of the Aegean Bronze Age	
ANTH 3808	Archaeology and the Celts	
ANTH 3811	Historical Archaeology	
ANTH 3812	The Aztec Empire	
ANTH 3813	Archaeology of North America	
ANTH 3814	Ancient Mexican Civilizations	
ANTH 3823	Archaeology of Ritual and Religion	
ANTH 3832	Paleoanthropological Field Program	
ANTH 3833	Field Research: New World	

ANTH 3834	Field Research: Old World
ANTH 3835	Historical Archaeology Field Program
ANTH 3838W	Theory and Practice in Archaeology
ANTH 3839	Lab Research Methods in Archaeology
ANTH 3891	Special Topics in Archaeology

MINOR IN BIOLOGICAL ANTHROPOLOGY

REQUIREMENTS

The following requirements must be fulfilled: 16 credits in required courses.

Code	Title	Credits
Required		
ANTH 1001	Biological Anthropology	
At least four additional upper-level courses totaling at least 12 credits from the following:		
ANTH 2406	Human Evolutionary Genetics	
ANTH 3401	Human Functional Anatomy	
ANTH 3402	Human Evolutionary Anatomy	
ANTH 3403	Forensic Anthropology Laboratory	
ANTH 3404	Human Variation	
ANTH 3406	Advanced Human Osteology	
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior	
ANTH 3408	The Evolution of Human Families	
ANTH 3409	Evolution of Primate Life Histories	
ANTH 3411	Primatology	
ANTH 3412	Hominin Evolution	
or ANTH 3412W	Hominin Evolution	
ANTH 3412W	Hominin Evolution	
ANTH 3413	Evolution of the Human Brain	
ANTH 3491	Topics in Biological Anthropology	
ANTH 3802	Human Cultural Beginnings	
or ANTH 3802W	Human Cultural Beginnings	

Students also must take at least one approved field experience, which may be ANTH 3832 or ANTH 3839 or, with prior approval of the undergraduate advisor, a course in a related field, such as biological sciences, geology, psychology, or statistics:

ANTH 3832	Paleoanthropological Field Program
ANTH 3839	Lab Research Methods in Archaeology
BISC 1005	The Biology of Nutrition and Health
BISC 1006	The Ecology and Evolution of Organisms
BISC 1111	Introductory Biology: Cells and Molecules
BISC 1112	Introductory Biology: The Biology of Organisms
GEOL 1001	Physical Geology
GEOL 1002	Historical Geology
GEOL 1005	Environmental Geology
PSYC 2014	Cognitive Psychology
PSYC 2015	Biological Psychology
PSYC 3112	Psychology of Adolescence
PSYC 3118	Neuropsychology
PSYC 3122	Cognitive Neuroscience
STAT 1127	Statistics for the Biological Sciences

MINOR IN CROSS-CULTURAL COMMUNICATION

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ANTH 1002	Sociocultural Anthropology	
ANTH 1004	Language in Culture and Society	
Two courses (6 credits) from the following, at least one of which must be ANTH 3601 or ANTH 3602/ANTH 3602W:		
ANTH 3601	Language, Culture, and Cognition	

ANTH 3602	Ethnographic Analysis of Speech
or ANTH 3602W	Ethnographic Analysis of Speech
ANTH 3603	Psycholinguistics
ANTH 3691	Special Topics in Linguistic Anthropology

One course (3 credits) from the following:

ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
ANTH 2502	Anthropology of Science and Technology: Twenty-First Century Brave New Worlds
ANTH 2505	Introduction to Ethnomusicology
ANTH 2506	Religion, Myth, and Magic
or REL 2506	Religion, Myth, and Magic
ANTH 2533	Material Culture in America
or AMST 2533	Material Culture in America
ANTH 3501	Anthropology of Development
ANTH 3502	Cultural Ecology
ANTH 3503	Psychological Anthropology
ANTH 3504	Illness, Healing, and Culture
ANTH 3506	Politics, Ethnicity, and Nationalism
ANTH 3507	Kinship, Family, and Community
ANTH 3508	Art and Culture
ANTH 3513	Anthropology of Human Rights
ANTH 3521	Visual Anthropology and the Social Lives of Images
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3991	Special Topics

One course (3 credits) from the following:

ANTH 3701	Native Peoples - North America
ANTH 3702	Anthropology of Latin America
ANTH 3703	Cultures of the Pacific
ANTH 3704	Cultures of Southeast Asia
ANTH 3705	Anthropology of East Asia

ANTH 3707	Anthropology of the Middle East
ANTH 3708	Anthropology of Africa
ANTH 3709	Japanese Culture Through Film
or JAPN 3162	Japanese Culture Through Film

MINOR IN SOCIOCULTURAL ANTHROPOLOGY

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required introductory course (3 credits):

ANTH 1002	Sociocultural Anthropology
-----------	----------------------------

Five courses (15 credits) from the following:

ANTH 2008	Foundations of Anthropological Thought
or ANTH 2008W	Foundations of Anthropology
ANTH 2501	The Anthropology of Gender: Cross-Cultural Perspectives
or WGSS 2121	The Anthropology of Gender: Cross-Cultural Perspectives
ANTH 2502	Anthropology of Science and Technology: Twenty-First Century Brave New Worlds
ANTH 2505	Introduction to Ethnomusicology
or MUS 2105	Introduction to Ethnomusicology
or MUS 2105W	Introduction to Ethnomusicology
ANTH 2506	Religion, Myth, and Magic
or REL 2506	Religion, Myth, and Magic
ANTH 2533	Material Culture in America
or AMST 2533	Material Culture in America
ANTH 2750	Latinos in the United States
or ANTH 2750W	Latinos in the United States
ANTH 3501	Anthropology of Development
ANTH 3502	Cultural Ecology

ANTH 3503	Psychological Anthropology
ANTH 3504	Illness, Healing, and Culture
ANTH 3506	Politics, Ethnicity, and Nationalism
ANTH 3507	Kinship, Family, and Community
ANTH 3508	Art and Culture
ANTH 3513 or ANTH 3513W	Anthropology of Human Rights Anthropology of Human Rights
ANTH 3521	Visual Anthropology and the Social Lives of Images
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3701	Native Peoples - North America
ANTH 3702	Anthropology of Latin America
ANTH 3703	Cultures of the Pacific
ANTH 3704	Cultures of Southeast Asia
ANTH 3705	Anthropology of East Asia
ANTH 3707	Anthropology of the Middle East
ANTH 3708	Anthropology of Africa
ANTH 3709 or JAPN 3162	Japanese Culture Through Film Japanese Culture Through Film
ANTH 3991	Special Topics

MASTER OF ARTS IN THE FIELD OF ANTHROPOLOGY

Anthropology is the study of human difference and diversity in the present and the past. In its broad focus on humanity, anthropology brings together the humanities, natural sciences, and social sciences.

GW's anthropology program is committed to integrating humanistic and scientific perspectives while pursuing advanced research of the highest quality. The master of arts (MA) in anthropology signals that the holder can synthesize diverse data about human beings, a skill increasingly valued in a variety of professions and academic settings.

The graduate programs in anthropology take advantage of the resources available in the nation's capital, including the University's 120-year-old relationship with the Smithsonian Institution. This location puts students in a prime position for studying and collaborating with refugee and immigrant communities, policymakers, nongovernmental organizations,

the news media, and numerous scientific and educational organizations.

The MA in anthropology is offered with three optional concentrations:

- The international development concentration provides an understanding of world problems such as hunger, health, and economic change, thus preparing students for work in development projects. This non-thesis program normally is completed in two years.
- The museum training concentration prepares students for research and careers in the scholarly and curatorial aspects of museum work. In this concentration, 12 to 15 credits derive from museum-related courses, including internships.
- The health, science, and society concentration focuses on cross-cultural patterns of health, illness, and healing within the context of cultural change. Students take at least 15 credits of courses related to medical anthropology and public health.

Students interested in biological anthropology are encouraged to consider the master of science program in human paleobiology.

Visit the program website (<https://anthropology.columbian.gwu.edu/ma-anthropology/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
------	-------	---------

The minimum requirement consists of:

36 credits of approved graduate coursework including the following:

At least three of the following four proseminars:

ANTH 6101	Proseminar in Biological Anthropology
ANTH 6102	Proseminar in Sociocultural Anthropology
ANTH 6103	Proseminar in Archaeology
ANTH 6104	Proseminar in Linguistic Anthropology

Students with significant background in a field, as determined by evaluation of a petition to the proseminar instructor, may waive one proseminar. Those who are permitted to waive a proseminar must take two courses from the following:

ANTH 6101	Proseminar in Biological Anthropology
-----------	---------------------------------------

or ANTH 6103 Proseminar in Archaeology

ANTH 6102 Proseminar in Sociocultural
 Anthropology

or ANTH 6104 Proseminar in Linguistic Anthropology

An approved methods course.

In addition to 30 to 33 credits of approved graduate-level coursework, 3 to 6 credits of research for a thesis or other culminating project.

Students with fewer than four undergraduate semesters of a major foreign language must demonstrate a reading knowledge of an approved language before beginning the third semester of graduate work.

Museum training concentration

The program of study is the same as that described above for the general degree, but must include 12 to 15 credits of work in museum-related courses, 6 credits of which may be in an internship. Students whose primary interest is in museum techniques, rather than anthropology, are advised to apply to the master's program in museum studies (see Master of Arts in the field of museum studies in this Bulletin). Note that a program in museum education is also available through the Graduate School of Education and Human Development.

International development concentration

The program is designed to improve the student's understanding of development problems, such as economic change, population, health, education, migration, and ecology, within an anthropological framework. Note that the Elliott School of International Affairs offers a program in international development studies with a disciplinary specialization in anthropology.

The program of study is the same as that described above for the general degree, but must include the following:

ANTH 6301 The Anthropology of Development

ANTH 6331 Research Methods in Development
 Anthropology

Two courses from the following:

ANTH 6302 Issues in Development

ANTH 6330 Internship in Development
 Anthropology

ANTH 6391 Anthropology and Contemporary
 Problems

ANTH 6501 Gender and Sexuality

ANTH 6507 Nationalism and Ethnicity

One approved graduate-level course in quantitative analysis.

Health, science, and society concentration

The program of study is the same as that described for the general degree, but must include:

One course from the following:

ANTH 6504 Social Study of Science and Technology

ANTH 6505 Medical Anthropology

Two courses from the following:

ANTH 6302 Issues in Development

ANTH 6391 Anthropology and Contemporary
 Problems

ANTH 6501 Gender and Sexuality

ANTH 6506 Topics in Medical Anthropology

One of the following research methods options:

Option A

ANTH 6331 Research Methods in Development
 Anthropology

PUBH 6003 Principles and Practices of
 Epidemiology

Option B

Two courses from the following:

PUBH 6410 Global Health Study Design

PUBH 6411 Global Health Qualitative Research
 Methods

PUBH 6412 Global Health Quantitative Research
 Methods

DOCTOR OF PHILOSOPHY IN THE FIELD OF ANTHROPOLOGY

Anthropology is the study of human difference and diversity in the present and the past. In its broad focus on humanity, anthropology brings together the humanities, natural sciences and social sciences.

GW anthropology is committed to integrating humanistic and scientific perspectives while pursuing advanced research of the highest quality. Our graduate programs in anthropology take advantage of the resources available in the nation's capital, including our 120-year-old relationship with the Smithsonian Institution. Our location places us in a prime position for studying and collaborating with refugee and immigrant communities, policymakers, nongovernmental organizations,

the news media and numerous scientific and educational organizations.

THE PhD program trains students in the four fields of sociocultural anthropology, archaeology, linguistic anthropology, and biological anthropology while providing training in areas of more specialized interest. Students pursue independent research in preparation to become practicing anthropologists. The curriculum develops intellectual creativity, effective communication skills, and rigorous scholarship with a focus on applying anthropological theory and method to the study of contemporary social problems.

All students are strongly encouraged to complete an internship where they communicate anthropology to a general public. Students admitted to the program receive a fellowship and may take advantage of GW's partnerships with the Smithsonian Institution and Washington, D.C.'s archival collections and policy-making institutions. All PhD candidates must complete a dissertation that demonstrates their ability to do original research.

There are two separate PhD programs affiliated with the Anthropology department (Anthropology and Human Paleobiology), with separate admissions procedures. Please be sure that you are submitting your application to the correct program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits.

Requirements for the first phase of the program

Code	Title	Credits
Required		
Core proseminars		
Students are expected to take three of the four offered proseminars; however, students with significant background in a field, as determined through petition to the instructor, may waive one proseminar.		
ANTH 6101	Proseminar in Biological Anthropology	
ANTH 6102	Proseminar in Sociocultural Anthropology	
ANTH 6103	Proseminar in Archaeology	

ANTH 6104

Proseminar in Linguistic Anthropology

One research methods seminar

One professional skills and ethics seminar

Elective courses

All students must demonstrate proficiency in one foreign language; an additional language may be required if it is needed for fieldwork or archival research. An internship in anthropology and public life at an institution responsible for communicating anthropological knowledge to diverse audiences is recommended.

Requirements for the second phase of the program

In the second phase, students prepare a research proposal that meets funding agency guidelines and take the general examination in at least three major areas (e.g., a general field in anthropological theory, a geographic area, and a thematically defined field). Following successful completion of the general examination, an oral defense of the student's research proposal is held. Those who pass advance to candidacy for the PhD and engage in completion and defense of the dissertation.

ART THERAPY

The graduate program in art therapy trains highly skilled therapists whose professional practice is grounded in a broad understanding of current clinical art therapy, counseling, and trauma theories. Students are taught the application of effective research and evaluation methodologies, clinical skills, and studio expertise, within a diverse, integrative, and culturally-responsive format. The program's student-focused approach allows each student to cultivate a unique identity as an art therapist.

Visit the department website (<https://arttherapy.columbian.gwu.edu/>) for more information.

GRADUATE

Master's program

- Master of Arts in the field of art therapy (p. 133)

FACULTY

Associate Professors H. Bardot (*Director*), D. Betts

Assistant Professors L. Garlock, J. Potash, T. Tripp (*Teaching*).

Professorial Lecturers R. Albert, K. Baasch, J. Baldwin, D. Brancheau, D. Bunkley, T. Council, A. Di Maria, A. Herrera, P. Howie, C. Knebel, O. Kraybill, L. Milofsky, L. Mowry-Hesler, S. Nelson, D. Preston-Dillon, M.E. Ruff, D. Sabados, M. Scher-Phillips, A. VanBrunt, J. Wager, A. Zurayk.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: The following courses are open to non-art therapy students:

ARTH 6201 Survey of Art Therapy

ARTH 5099. Variable Topics. 1-99 Credits.

ARTH 6201. Survey of Art Therapy. 3 Credits.

The use of the visual arts to enhance personal development and growth; illustrated lectures, readings, discussion, and studio work presented by experts in the field. Instruction is delivered online via Blackboard. No previous art experience is necessary.

ARTH 6205. History and Theory of Art Therapy. 2 Credits.

Art therapy history and theory, milestones and practitioners. The development of art therapy as a distinct therapeutic practice. Overview of psychotherapy theories relevant to art therapy. Open only to art therapy students.

ARTH 6206. Human Development and Art Therapy. 3 Credits.

Psychological and artistic development across the life span; theories of personality development; cultural and environmental influences; and human behavior, including developmental crises, disability, exceptional behavior, and addictive behavior. Restricted to students in the art therapy program.

ARTH 6207. Human Development and Art Therapy I: Child and Adolescent. 2 Credits.

Practical and developmental considerations when working with adults and senior adults in art therapy; psychological, cultural, environmental, and artistic influences and expectations; life span impacts of human behavior, developmental crises, disability, and exceptional behavior. Restricted to students in the art therapy program.

ARTH 6208. Human Development and Art Therapy II: Adults and Senior Adults. 2 Credits.

Practical and developmental considerations when working with adults and senior adults in art therapy; psychological, cultural, environmental, and artistic influences and expectations; life span impacts of human behavior, developmental crises, disability, and exceptional behavior. Restricted to students in the art therapy program. Prerequisite: ARTH 6207.

ARTH 6210. Counseling/Art Therapy Process. 3 Credits.

Theoretical and clinical dimensions of counseling and art therapy explored through study of current research concerning the diverse elements affecting the therapeutic process. The goals of each phase of treatment; development of the therapeutic alliance; assessment of client readiness; therapeutic techniques and interventions as practiced in short- and long-term treatment.

ARTH 6211. Process of Counseling and Art Therapy: Theory. 3 Credits.

Major theories in counseling and art psychotherapy through the lens of the creative process and other aspects of clinical practice; the influence of multicultural issues, contemporary and evidence-based practices, and various settings on art-making and the therapeutic encounter. Restricted to students in the art therapy program. Prerequisite: ARTH 6210.

ARTH 6212. Creativity, Symbolism, and Metaphor. 2 Credits.

Theories of creative development, aesthetics, and art interpretive strategies for engaging metaphor, symbolism, and personal association to client artwork; integrating personal, familial, cultural, and social meanings for insight and revelation. Restricted to students in the art therapy program.

ARTH 6221. Studio/Technique of Art Therapy. 3 Credits.

Direct experience of the therapeutic utility and psychological influence of art processes and materials. Identifying the effect of art-making leading to assessment and intervention strategies. Open only to art therapy students.

ARTH 6231. Child Art Therapy. 2 Credits.

Practical, theoretical, and ethical considerations involved in treating children in clinical, community, and educational settings; application of art therapy and counseling principles and practices for diverse child populations; development of interventions for varied DSM diagnoses. Restricted to graduate students in the art therapy program.

ARTH 6232. Art Therapy with Adolescents. 2 Credits.

Practical, theoretical, and ethical considerations in treating adolescents in clinical, community and educational settings. Assessment and treatment issues in art therapy. Application of art therapy and counseling principles and practices for diverse adolescent populations. Development of interventions for varied DSM diagnoses. Restricted to art therapy students. Restricted to students in the art therapy program.

ARTH 6233. Marital and Family Art Therapy/Counseling. 3 Credits.

Principles of working with families and couples, including an overview of systems theories and stages of family life cycle development; art techniques for evaluating of family dynamics; intervention strategies and cultural and ethical considerations. Restricted to art therapy students. Restricted to students in the art therapy program.

ARTH 6234. Group Process. 3 Credits.

Theoretical and experiential understanding of group art therapy and counseling methods and skills. Principles of group dynamics, therapeutic factors, member roles and behaviors, leadership styles and approaches, selection criteria, and short- and long-term group process.

ARTH 6235. Social and Cultural Diversity. 3 Credits.

Exploration of the therapist's heritage, expectations, worldview and values; racial/cultural identity development; skills for multicultural counseling. Stereotypes and biases that interfere with effective treatment of culturally different clients. The role of the art therapist or counselor in conflict resolution, advocacy, and social justice. May be repeated for credit if taken through the study abroad course option. Restricted to art therapy students.

ARTH 6241. Assessment Procedures. 3 Credits.

Instruments and procedures used in assessment of psychological health and psychopathology; diagnostic and developmental criteria as manifested in artwork and art-making; statistical concepts, including reliability and validity; selection and administration of assessment tools; treatment planning; report writing. Restricted to students in the art therapy program.

ARTH 6242. Psychopathology: Art and Diagnosis. 3 Credits.

Criteria of psychiatric diagnoses, such as the Diagnostic and Statistical Manual multiaxial system, theories of psychopathology, and relevant literature evaluation of potential indicators of functional and organic disorders in behavior and artwork of clients; ethical issues; cultural and environmental influences on diagnostic categorization; basic introduction to psychopharmacology. Restricted to students in the art therapy program or with permission of the instructor.

ARTH 6243. Substance Abuse and Addictions. 3 Credits.

Overview of substance abuse and addictions for art therapy and counseling, including theory and treatment applications; screening and assessment tools; treatment models specific to the field of addictions; art therapy techniques in the treatment of substance abuse for adolescents and adults in a variety of treatment settings. Restricted to students in the art therapy program.

ARTH 6251. Research Methods. 3 Credits.

Planning, conducting, and evaluating relevant methodologies, including qualitative and quantitative approaches and basic statistics; the importance of research in the psychotherapy professions; ethical and legal considerations; and the use of research to assess effectiveness of mental health and art therapy services. Restricted to graduate students in the art therapy program.

ARTH 6261. Ethics and Professionalism. 3 Credits.

Professional identity and the role of the therapist; the ethical practice of counseling and art therapy, including familiarity with ethical standards of various professional organizations; credentialing and licensure; public policy and advocacy for patients and for the profession. Restricted to graduate students in the art therapy program.

ARTH 6262. Career Counseling and Art Therapy. 3 Credits.

Theoretical foundation and practical experience necessary to understand and support career development needs for diverse individual clients and groups; career development over the lifespan; assessments, tools, and resources; occupational and labor market trends and resources; specific art therapy techniques applicable to career counseling in educational and work settings. Restricted to students in the art therapy program.

ARTH 6263. Ethics and Professionalism I: Principles. 1 Credit.

The ethical standards of art therapy, counseling and related mental health professions. Restricted to students in the art therapy program.

ARTH 6264. Ethics and Professionalism II: Applications. 2 Credits.

Applying ethical principles and values for professional identity and the role of the therapist; credentialing and licensure; public policy and advocacy for patients and for the profession. Restricted to students in the art therapy program. Prerequisite: ARTH 6263.

ARTH 6265. Advanced Issues in Psychotherapy and Art Therapy. 1-3 Credits.

Overview and application of one or more treatment models or theories to various mental and emotional disorders. Connections between the practice of art therapy and the techniques of other disciplines.

ARTH 6271. Art Psychotherapy and Trauma I: Theory and Approaches to Treatment. 3 Credits.

Introduction and overview of theory, practice, and treatment related to complex, trauma-related problems; psychobiology of traumatic stress, impact of traumatic stress on individuals, and specific treatment modalities in clinical setting; somatic (body-based) and nonverbal (art and image-based) treatment modalities. Supervised treatment or observation of treatment of clients with trauma histories. Restricted to art therapy students. Restricted to students in the art therapy program.

ARTH 6272. Art Psychotherapy and Trauma II: Loss, Countertransference, and Resiliency. 3 Credits.

Multi-modal treatment of acute, serial, or complex trauma; theoretical, practical, moral, cross cultural, and personal aspects as seen through an art therapy and counseling lens. Supervised treatment or observation of treatment of clients with trauma histories. Restricted to students in the art therapy program. Prerequisite: ARTH 6271.

ARTH 6281. Practicum in Art Therapy. 1-2 Credits.

Supervised clinical experience with clients or patients in psychiatric, rehabilitation, and education settings with children, adolescents, and adults. On-site individual supervision by clinical instructors; on-campus group supervision by faculty. A total of six semesters of practicum are required while completing 900 internship hours, 400 of which must be direct client contact. Restricted to graduate students in the art therapy program.

ARTH 6292. Special Projects in Art Therapy. 1-12 Credits.

Individual work based on research. Empirical, clinical, and library research may be undertaken, as well as the development of new procedures. Details to be worked out with each student. May be repeated for credit with advisor's approval. Open only to art therapy students.

ARTH 6998. Thesis Research. 3 Credits.

ARTH 6999. Thesis Research. 3 Credits.

MASTER OF ARTS IN THE FIELD OF ART THERAPY

Students in the Master of Arts in art therapy program are prepared for careers in schools, healthcare institutions, research centers, and more. Under the mentorship of faculty who are credentialed art therapists, students explore their artistic identity as well as the varying aspects of art therapy, trauma training, diagnosis, and assessment. The curriculum also builds a theoretical foundation in individual, family and group counseling, psychopathology, and human development.

By the end of the program, students complete nearly 1,000 hours of required internship, and they have the option to deepen their focus on an area with a thesis. Graduates leave prepared to earn professional licensure in art therapy and counseling.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

61 credits including 900 internship hours.

Code	Title	Credits
Required		
ARTH 6205	History and Theory of Art Therapy	
ARTH 6207	Human Development and Art Therapy I: Child and Adolescent	
ARTH 6208	Human Development and Art Therapy II: Adults and Senior Adults	
ARTH 6210	Counseling/Art Therapy Process	
ARTH 6211	Process of Counseling and Art Therapy: Theory	
ARTH 6212	Creativity, Symbolism, and Metaphor	
ARTH 6221	Studio/Technique of Art Therapy	
ARTH 6233	Marital and Family Art Therapy/ Counseling	
ARTH 6234	Group Process	
ARTH 6235	Social and Cultural Diversity	
ARTH 6241	Assessment Procedures	
ARTH 6242	Psychopathology: Art and Diagnosis	
ARTH 6243	Substance Abuse and Addictions	
ARTH 6251	Research Methods	
ARTH 6262	Career Counseling and Art Therapy	
ARTH 6263	Ethics and Professionalism I: Principles	
ARTH 6264	Ethics and Professionalism II: Applications	
ARTH 6265	Advanced Issues in Psychotherapy and Art Therapy (taken four times for 1 credit for a total of 4 credits)	
ARTH 6271	Art Psychotherapy and Trauma I: Theory and Approaches to Treatment (taken for 3 credits)	
ARTH 6272	Art Psychotherapy and Trauma II: Loss, Countertransference, and Resiliency	
ARTH 6281	Practicum in Art Therapy (taken six times for 1 credit for a total of 6 credits)	
ARTH 6292	Special Projects in Art Therapy (taken for 1 credit)	

BIOCHEMISTRY AND MOLECULAR MEDICINE

GRADUATE

Master's program

- Master of Science in the field of bioinformatics and molecular biochemistry (p. 136)

FACULTY

University Professor F. Murad

Professors P. Berg, V. Hu, A. Kumar, R. Kumar (*Chair*), Z. Lu (*Research*), W. Niernan, M. Sharma (*Research*), J. Vanderhoek (*Director of MS program*), G. Walker, W. Weglicki

Associate Professors K. Bian (*Research*), G. Dimri, M. Elliott, Z. Han, J. Kramer (*Research*), I.T. Mak (*Research*), R. Mazumder

Assistant Professors J. Chmielinska (*Research*), M. Dimri (*Research*), J.-H. Kim, A. Kots (*Research*), K. Ohshiro (*Research*), M.-Y. Wu (*Research*), R.-C. Wu, J. Zhou (*Research*), W. Zhu

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

BIOC 1099. Variable Topics. 1-36 Credits.

BIOC 3099. Variable Topics. 1-12 Credits.

BIOC 3261. Introductory Medical Biochemistry. 4 Credits.

Introduction to structures of biological macromolecules, enzyme catalysis, cellular bioenergetics, and metabolism. (Same as BISC 3261, CHEM 3165).

BIOC 3262. Biochemistry Laboratory. 2 Credits.

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Same as BISC 3262 and CHEM 3262. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261.

BIOC 3263. Special Topics in Biochemistry. 2 Credits.

In-depth discussion of current biochemically relevant topics, including cancer and HIV chemotherapy, immune response, photosynthesis, signal transduction, hormone regulation and nutrition. Prerequisites: BIOC 3261 or BISC 3261. (Same as BISC 3263).

BIOC 3263W. Special Topics in Biochemistry. 2 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

BIOC 3560. Diet, Health, and Longevity. 3 Credits.

Biochemical and molecular explanations of how calorie intake affects health; scientific principles of dieting. Prerequisites: BISC 1005 or BIOC 3261.

BIOC 3564. Lipid Biotechnology. 2 Credits.

Same as BISC 3564 and CHEM 3564. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261.

BIOC 3820. Bioinformatics and Computational Biochemistry. 2 Credits.

How biomedical researchers integrate information from molecular biology resources for analysis and testing of hypotheses. Prerequisites: BISC 1111 and STAT 1127.

BIOC 3821. Projects in Biomedical Informatics. 1-2 Credits.

BIOC 4195. Undergraduate Research. 1 Credit.

Research conducted under a mentor who is a member of the department. May be repeated for credit (only 1 credit may count toward the minor). Permission of the instructor required prior to enrollment.

BIOC 4701. Science and Medicine. 4 Credits.

A broad overview of several biomedical discoveries made in the twentieth century and the often profound influence they have had on medical technology and on new directions in science and medicine, science administration, politics, ethics, and philosophy.

BIOC 5099. Variable Topics. 1-99 Credits.

BIOC 6201. Medical Biochemistry. 7 Credits.

Required for medical students. Lecture and laboratory; emphasis on basic principles and their relation to medicine.

BIOC 6209. Research Elective in Medical Biochemistry. 1-12 Credits.

BIOC 6211. Biochemistry-Health Science Students. 3,4 Credits.

Basic concepts of biochemistry and their relation to health sciences.

BIOC 6221. Proteins, Pathways, and Human Health. 4 Credits.

A comprehensive course in general biochemistry for graduate students in biomedical sciences. Prerequisites: CHEM 2152 and CHEM 2154.

BIOC 6222. Biochemical Genetics and Medicine. 3 Credits.

Continuation of BIOC 6221. A comprehensive course in general biochemistry for graduate students in biomedical sciences. Prerequisites: CHEM 2152 and CHEM 2154.

BIOC 6223. Bioinformatics. 2 Credits.

The application of bioinformatics concepts and methods through the use of molecular biology databases and tools, covering molecular evolution, and protein sequence, structural, functional analysis. Recommended background: Prior completion of an undergraduate course in biochemistry.

BIOC 6224. Molecular Biology and Protein Methods. 3 Credits.

Common laboratory techniques used in life science laboratories to separate and characterize proteins, including chromatography, gel electrophoresis, immunoassays, spectroscopy, and centrifugation. Corequisite: BIOC 6221. Laboratory fee.

BIOC 6227. Biochemistry Seminar. 1 Credit.

Current literature in biochemistry. May be repeated for credit. Restricted to graduate students in the biochemistry and molecular medicine program.

BIOC 6230. New Technologies in Scientific Research. 2 Credits.

New technologies for conducting meaningful scientific inquiry and research. How such technologies have evolved and become essential to investigative research. Prerequisites: BIOC 6221. Corequisites: BIOC 6222.

BIOC 6234. Biochemical and Bioinformatic Approaches to Protein Structure and Function. 3 Credits.

Molecular biological, biophysical, chemical, and bioinformatic approaches to understanding protein structure and function. Protein folding, interactions, and ligand binding.

BIOC 6235. Seminar in Genomics, Proteomics, and Bioinformatics. 1 Credit.**BIOC 6236. Medical Genomics. 2 Credits.**

The structure and function of genes and genomes; genomic theories, methods, and data analysis including bioinformatics and database mining. BIOC 6221 and BIOC 6222 may be taken as corequisites. Prerequisites: BIOC 6221 and BIOC 6222.

BIOC 6237. Proteomics and Biomarkers. 2 Credits.

Experimental proteomics, protein/proteome analysis, bioinformatics of proteomics, systems biology and structural genomics. Prerequisite: BIOC 6236.

BIOC 6238. Experimental Genomics Lab. 3 Credits.

Research applications of knowledge in genomics and proteomics. Prerequisite: BIOC 6236. Laboratory fee.

BIOC 6240. Next Generation Sequencing. 2 Credits.**BIOC 6242. Bioscience Big Data Statistics. 2 Credits.**

Modern bioscience big data from generation to analysis and interpretation; data structures and data types and objects; and challenges in big data storage, access, and computation.

BIOC 6250. Molecular Biology. 3 Credits.

Content includes the organization and replication of genetic material, transcriptional and translational machinery, regulation of eukaryotic gene expression, and other special topics. BIOC 6221 and BIOC 6222 may be taken as corequisites. Prerequisites: BIOC 6221 and BIOC 6222.

BIOC 6252. Current Laboratory Methods in Molecular Biology. 3 Credits.

Corequisite: BIOC 6221. Laboratory fee.

BIOC 6254. Fundamentals of Molecular Biology. 3 Credits.

An intermediate-level molecular biology survey course. Prerequisite: BIOC 6221.

BIOC 6260. Analytic Methods for Lipids and Carbohydrates. 3 Credits.

Basic techniques in the biotechnology of lipids and carbohydrates. Prerequisite: BIOC 6221.

BIOC 6262. Genes, Diets, and Aging. 3 Credits.

.

BIOC 6264. Membrane-Associated Complex Lipids. 1 Credit.

.

BIOC 6281. Topics. 1,2 Credit.

Directed readings in biochemistry, molecular biology, and genetics. May be repeated for credit. Restricted to graduate students in the biochemistry and molecular medicine program.

BIOC 6290. Extramural Biochemistry Elective. 1-12 Credits.**BIOC 6291. Extramural Biochemistry Elective. 1-12 Credits.****BIOC 6295. Research. 1-12 Credits.**

Participation in a project under investigation or in a field suggested by the student and approved by the staff. May be repeated for credit. Laboratory fee.

BIOC 6298. Advanced Reading. 1-6 Credits.

Advanced reading in biochemistry. Restricted to students in the MS in molecular biochemistry and bioinformatics program.

BIOC 6998. Thesis Research. 3 Credits.**BIOC 6999. Thesis Research. 3 Credits.****BIOC 8225. Metabolism. 4 Credits.**

Metabolic pathways and integration of metabolic processes. Limited to PhD students in the Institute for Biomedical Sciences.

BIOC 8231. Biochemical Basis of Human Diseases. 3 Credits.

Biochemical perspectives on disorders involving metabolic alterations, immunological dysregulation, problems of environmental/toxicological etiology, genetic/epigenetic dysfunction, neglected tropical diseases. Prerequisites: BMSC 8210 and BMSC 8212.

BIOC 8232. Molecular and Cellular Signaling. 3 Credits.

.

BIOC 8501. Issues in Clinical Nutrition. 3 Credits.

BIOC 8502. Molecular Biology of Oncogenes. 1-12 Credits.

BIOC 8503. Readings in Immunology. 3 Credits.

BIOC 8800. Summer Remedial Biochemistry. 8 Credits.

MASTER OF SCIENCE IN THE FIELD OF BIOINFORMATICS AND MOLECULAR BIOCHEMISTRY

The curriculum is designed to provide students with advanced skills in either Molecular Biochemistry or Bioinformatics. Since the complete sequencing of the human genome, the health science discipline of genomics/proteomics has unfolded and evolved, increasingly improving the diagnosis and treatment of human diseases. Emerging in tandem with genomics is the field of bioinformatics, associated with massive databases of gene and protein sequences and other biological information. Modern science utilizes bioinformatics not only to process and mine the data, but also to generate new testable hypotheses.

The curriculum is designed to provide students with advanced skills in either Molecular Biochemistry or Bioinformatics. Since the complete sequencing of the human genome, the health science discipline of genomics/proteomics has unfolded and evolved, increasingly improving the diagnosis and treatment of human diseases. Emerging in tandem with genomics is the field of bioinformatics, associated with massive databases of gene and protein sequences and other biological information. Modern science utilizes bioinformatics not only to process and mine the data, but also to generate new testable hypotheses.

Master's Degree

Students in this program can choose to follow either a Molecular Biochemistry track or a Bioinformatics path. Students following the Biochemistry option take advanced biochemistry and molecular medicine courses as well as several hands-on laboratory techniques classes and gain exposure to a myriad of laboratories and research initiatives. Students selecting the Bioinformatics track, one of the first in the United States devoted exclusively to teaching important genome-wide approaches to medicine and biology, will focus on the use of current bioinformatics technologies for analyzing high-throughput data from genomics and proteomics experiments. Course topics include leveraging Big Data for biomarker discovery in the era of personalized medicine, role of statistics in bioinformatics, gene function prediction, algorithm and software development.

Each track offers the option of preparing a thesis by completing research at GW Medical Center, NIH, FDA or the Children's National Medical Center. Alternatively, the non-thesis program requires a hands-on practicum at participating institutions. Upon graduation, students are aptly prepared for careers in any field from advanced biomedical research, genomics, bioinformatics, medicine, public health to law and policy.

This is a STEM-designated degree program.

Visit the School of Medicine and Health Sciences website for more information regarding the biochemistry (<https://smhs.gwu.edu/biochemistry-molecular-medicine/educational-programs/ms-biochemistry-track/>) and bioinformatics tracks (<https://smhs.gwu.edu/biochemistry-molecular-medicine/educational-programs/ms-bioinformatics-track/>).

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Code	Title	Credits
Required		
BIOC 6221	Proteins, Pathways, and Human Health	
BIOC 6222	Biochemical Genetics and Medicine	
BIOC 6223	Bioinformatics	
BIOC 6227	Biochemistry Seminar (taken twice for a total of 2 credits)	
Required for bioinformatics track		
BIOC 6236	Medical Genomics	
BIOC 6237	Proteomics and Biomarkers	
BIOC 6240	Next Generation Sequencing	
Required for biochemistry track		
BIOC 6224	Molecular Biology and Protein Methods	
BIOC 6260	Analytic Methods for Lipids and Carbohydrates	
Thesis option		
Required for students selecting the thesis option:		
BIOC 6998	Thesis Research	
BIOC 6999	Thesis Research	
Electives		
Non-thesis option: 13 credits in elective courses.		
Thesis option: 7 credits in elective courses.		
Comprehensive examination		

All students must pass, or be exempted from, a comprehensive examination.

Students who wish to pursue the thesis option should contact the department for details.

BIOLOGICAL SCIENCES

Biological sciences explore the science of life, from biomolecules to ecosystems. Courses and ongoing research programs are focused in three general areas: cell and molecular biology, ecology, and evolution and systematics. In research laboratories, students and faculty members work together on projects that range from dinosaur evolution through an investigation of how misfolded proteins interfere with insulin production. Many departmental faculty members have working relationships with scientists in surrounding education and federal institutions, and the program has a collaboration of more than 100 years standing with the Smithsonian Institution National Museum of Natural History.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in biology (p. 145)
- Bachelor of Science with a major in biology (p. 148)
- Bachelor of Science with a major in neuroscience (p. 151)

Combined Program

- Dual Bachelor of Science with a major in biology and Master of Science in the field of biological sciences (p. 153)
- Dual Bachelor of Science with a major in neuroscience and Master of Science in the field of biological sciences (p. 153)

Minor

- Minor in biology (p. 153)

GRADUATE

Master's program

- Master of Science in the field of biological sciences (p. 153)

Doctoral program

- Doctor of Philosophy in the field of biological sciences (p. 154)

FACULTY

Professors J.M. Clark, K.A. Crandall, C.A. Forster, P. Hernandez, G. Hormiga, J.T. Lill, G. Ortí, L.C. Smith, R.P. Tollo

Associate Professors I. Eleftherianos, A. Jeremic, D. O'Halloran, S. Powell, R.A. Pyron, A. Smith, A. Zanne

Assistant Professors H.G. Döebel, K. Gedan, L. Grayfer, L. Hammond, C. Jordan, S. Kawano, A. Martin, M. Manier, J. Saw, T. Scully

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: BISC 1115 Introductory Biology: Cells and Molecules and BISC 1125 Introduction to Cells and Molecules Laboratory, and BISC 1116 Introductory Biology: The Biology of Organisms and BISC 1126 Introduction to Organisms Laboratory or equivalent are prerequisite to all upper-division biological sciences courses except by permission of the instructor.

BISC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

BISC 1001. Departmental Seminar. 0 Credits.

BISC 1005. The Biology of Nutrition and Health. 3 Credits.

A study of the human body and food-related health issues through the examination of the nutritional needs of the human body, digestion, genetics, and life experiences/exposures. Laboratory fee. Credit cannot be earned for both BISC 1005 and BISC 1007. Credit cannot be earned for this course and BISC 1007.

BISC 1006. The Ecology and Evolution of Organisms. 3 Credits.

Introduction to ecology and evolution, including human being's impact on other plants and animals, and an overview of Earth's biodiversity. For non-majors. Credit may not be earned for both BISC 1006 and BISC 1008. Credit cannot be earned for this course and BISC 1008.

BISC 1007. Food, Nutrition, and Service. 3 Credits.

A study of biology and nutrition that uses service learning to reinforce course concepts. Topics include the need for humans to consume other organisms, processing of consumed nutrients, unexpected effects of nutritional consumption, and measures to improve nutrition. Credit cannot be earned for both BISC 1007 and BISC 1005. Credit cannot be earned for this course and BISC 1005.

BISC 1008. Understanding Organisms through Service Learning. 3 Credits.

The evolution of life on earth; the value of other organisms, their role in our world, and how humans can cause harm to this infrastructure. Students work with a community partner to perform activities that assist the partner while reinforcing course concepts. Credit may not be earned for both BISC 1008 and BISC 1006. Credit cannot be earned for this course and BISC 1006.

BISC 1099. Variable Topics. 1-36 Credits.

BISC 1111. Introductory Biology: Cells and Molecules. 4 Credits.

Nutrition and metabolism, cellular and developmental biology, genetics, and molecular biology of plants and animals. BISC 1111 is equivalent to the combination of BISC 1115 and its lab component BISC 1125. Same As: BISC 1115. Credit cannot be earned for this course and BISC 1125.

BISC 1112. Introductory Biology: The Biology of Organisms. 4 Credits.

Concepts and methods in the study of whole organisms. Evolutionary theory; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. Restricted to students in the Women's Leadership Program if registering for BISC 1112W. Same As: BISC 1112W.

BISC 1112W. Introductory Biology: The Biology of Organisms. 4 Credits.

Concepts and methods in the study of whole organisms. Evolutionary theory; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. BISC 1112 is equivalent to the combination of BISC 1116 and its lab component BISC 1126. Restricted to students in the Women's Leadership Program if registering for BISC 1112W. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: BISC 1112.

BISC 1115. Introductory Biology: Cells and Molecules. 3 Credits.

Structures and functional interactions of biomolecules and cells in microorganisms, animals, and plants. BISC 1115 and its lab component, BISC 1125, together are equivalent to BISC 1111.

BISC 1116. Introductory Biology: The Biology of Organisms. 3 Credits.

Concepts and methods in the study of whole organisms; evolutionary theory; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. BISC 1116 and its lab component, BISC 1126, together are equivalent to BISC 1112.

BISC 1120. Laboratory Introduction to Biomolecular Research. 2 Credits.

Research methods in the study of proteins and DNA; focus on preparation for working with faculty members on their research. Permission of the instructor required prior to enrollment. Prerequisites: BISC 1111. Credit cannot be earned for this course and BISC 1115, BISC 1125, HONR 1120.

BISC 1125. Introduction to Cells and Molecules Laboratory. 1 Credit.

Laboratory associated with BISC 1115. Experimental methods in the study of cells and molecules, proteins, enzymes, DNA, and molecular genetics. BISC 1115 and BISC 1125 together are equivalent to BISC 1111. Prerequisite: BISC 1115.

BISC 1126. Introduction to Organisms Laboratory. 1 Credit.

Laboratory associated with BISC 1116. Experimental methods in the study of whole organisms; population biology; diversity of plants, animals, fungi, and microorganisms; ecology and behavior; and animal structure and function. BISC 1116 and BISC 1126 together are equivalent to BISC 1112. Prerequisite: BISC 1116.

BISC 2000. The Wonder of Life: Biodiversity studies in a changing planet. 3 Credits.

Topics in biological diversity from the perspective of species and within the conceptual framework of evolutionary biology; the explanatory power, simplicity, and grandeur of evolution and its products; how questions and hypotheses are empirically addressed. Topic subject to change. Prerequisites: BISC 1111 and BISC 1112.

BISC 2010. Global Change Biology. 3 Credits.

The impacts and implications of global climate change on biological systems; affected biological processes and their basic underlying physical and chemical principles. Focus on organismal physiological adaptations in aquatic and terrestrial ecosystems and ecological consequences. Prerequisites: BISC 1111 and BISC 1112.

BISC 2194. The Hidden Life of the Chesapeake Bay. 3 Credits.

The rise and fall of populations in the bay. Physiological adaptations of organisms; ecological interactions and trophic relationships; physiogeography and anthropogeography of the bay; and environmental concerns and human impacts. Credit cannot be earned for this course and GEOG 3194.

BISC 2202. Cell Biology. 3 Credits.

Structure and function of biological molecules and cellular organelles; cellular interactions. Prerequisites: BISC 1111, BISC 1112, and CHEM 2151.

BISC 2207. Genetics. 3 Credits.

Introduction to genetics, with emphasis on the integration of transmission of genetic traits and the molecular basis of gene action. Also includes cytogenetics, gene regulation, and examples of current applications of genetic technology. Prerequisites: BISC 1111 and BISC 1112.

BISC 2208. Genetics Laboratory. 1 Credit.

Study of genetic principles and genetic and molecular techniques in *Drosophila* and *E. coli*. Benchwork and comparative genomics using bioinformatics. Prerequisites: BISC 1111, BISC 1112, and BISC 2207. Corequisites: BISC 2207 may be taken concurrently.

BISC 2213. Biology of Cancer. 3 Credits.

Cancer is a complex category of diseases caused in large part by genetic or genomic, transcriptomic, and epigenomics alterations leading to abnormal cell proliferation. This course will provide a basic overview of cancer biology including cellular and molecular basis of cancer, cancer development and progression as well as a brief overview of cancer diagnostics and therapy. Prerequisites: BISC 2202 or BISC 2207.

BISC 2214. Developmental Biology. 3 Credits.

The molecular processes and cellular phenomena that result in the formation of organized tissues and functional organisms; formation of early body plan, cell type determination, organogenesis, morphogenesis, stem cells, cloning, and issues in human development. Prerequisites: BISC; BISC 1112; and BISC 2202 or BISC 2207 or BISC 2213.

BISC 2215. Genome Editing Laboratory. 1 Credit.

Practical training in genome editing in, from sequence design to molecular biology, generation of edited animals, and phenotypic analysis. Students undertake individual research projects involving CRISPR. In addition to the stated prerequisites, prior or concurrent enrollment in BISC 2214 required. Laboratory fee. Prerequisites: BISC 1111; BISC 1112.

BISC 2216. Scanning Electron Microscopy Laboratory. 1 Credit.

Practical training in scanning electron microscopy (SEM), from specimen preparation and mounting to SEM imaging and interpretation and presentation of data. Each student is assigned an independent research project and after receiving SEM training. Prerequisites: BISC 1111 and BISC 1112.

BISC 2220. Developmental Neurobiology. 3 Credits.

The molecular mechanisms that guide neural development: events surrounding the birth of neurons, how specific neurons are determined, how neurons find the correct targets, how cell death guides proper neural development, and how synapses are formed and maintained. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126.

BISC 2305. Plant Biology. 3 Credits.

Plant metabolism and molecular biology: photosynthesis, nitrogen metabolism, membrane transport, mechanisms of hormone action, protein targeting, biotechnology, and current research topics. Prerequisites: BISC 1111; and BISC 1112; CHEM 1111 and CHEM 1112; or permission of the instructor.

BISC 2320. Neural Circuits and Behavior. 3 Credits.

The cellular and molecular properties of neural circuits that form the basis of behavior. Circuit properties and behaviors across a variety of invertebrate and vertebrate taxa. Individual neuronal units, the organizational principles and emergent properties of neural circuits, and how these neuronal ensembles influence behavior. Instructor's permission may be substituted for prerequisites. Prerequisites: BISC 1111; and BISC 1112.

BISC 2322. Human Physiology. 3 Credits.

Introduction to the function of organ systems of the human body. Prerequisites: CHEM 1111 and CHEM 1112; and BISC 1111 or BISC 1115 and BISC 1125; and BISC 1112 or BISC 1116 and BISC 1126.

BISC 2331. Insect Biology. 3 Credits.

Overview of the class Insecta, focusing on insect external and internal morphology, classification, ecology/behavior, collection, and specimen preparation. Prerequisites: BISC 1111 and BISC 1112.

BISC 2332. Comparative Vertebrate Anatomy. 4 Credits.

BISC 2332 provides a thorough introduction into the study of functional vertebrate anatomy. Lectures combined with intensive laboratory assignments will introduce students to the structure and function of most vertebrate organ systems. Prerequisites: BISC 1111; and BISC 1112; or permission of the instructor.

BISC 2333. Evolution and Extinction of Dinosaurs. 3 Credits.

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125, and BISC 1112 or BISC 1116 and BISC 1126; or GEOL 1001 and GEOL 1002; or GEOL 1002 and GEOL 1005. Credit cannot be earned for this course and GEOL 2333.

BISC 2334W. Integrative Biology of Fishes. 3 Credits.

Concepts in anatomy, biomechanics, physiology, developmental biology, biomechanics and hydrodynamics, adaptive radiation, evolutionary biology, and ecology using fish as model organisms. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; and BISC 1112 or BISC 1116 and BISC 1126.

BISC 2335. Insect Biology Lab. 1 Credit.

An overview of insects, with an emphasis on ecology, behavior, economic importance, and the key adaptations that characterize the evolution of this diverse group. This lab teaches basic internal and external anatomy, field collection methods, insect identification, and discussion of the primary literature. BISC 2331 Insect Biology must be taken either prior or concurrently with BISC 2335 Insect Biology Lab. Laboratory fee. Prerequisite: BISC 2331.

BISC 2336. Introductory Microbiology. 3 Credits.

Lecture. Survey of the major groups of microorganisms with emphasis on structure, physiology, ecology, evolution, pathogenesis, and biotechnology. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; BISC 1112 or BISC 1116 and BISC 1126; and CHEM 1111 and CHEM 1112. Same As: BISC 2337W.

BISC 2337. Introductory Microbiology Laboratory. 1 Credit.

Laboratory associated with BISC 2336. Survey of the major groups of microorganisms with emphasis on structure, physiology, ecology, evolution, pathogenesis, and biotechnology. Prerequisites: BISC 1111; BISC 1112; CHEM 1111 and CHEM 1112; and BISC 2336. Credit cannot be earned for this course and BISC 2337W.

BISC 2337W. Introductory Microbiology. 4 Credits.

Lecture (2 hours), laboratory (4 hours). Survey of the major groups of microorganisms with emphasis on structure, physiology, ecology, pathogenesis, and biotechnology. Antibiotic resistance and emerging diseases. Laboratory fee. Prerequisites: BISC 1111; and BISC 1112; and CHEM 1111 and CHEM 1112. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and BISC 2337.

BISC 2339. Parasitology. 4 Credits.

Introduction to animal parasitology; survey of parasitic types from protozoa through arthropods. Prerequisites: BISC 1111; and BISC 1112.

BISC 2401. Biodiversity in A Changing World. 3 Credits.

Topics on biological diversity from the perspective of species and within the conceptual framework of evolutionary biology. The explanatory power, simplicity, and grandeur of evolution and its products. Consideration of how questions and hypotheses are empirically addressed. Prerequisites: BISC 1111 and BISC 1112. Credit cannot be earned for this course and BISC 2000.

BISC 2450. Organic Evolution. 3 Credits.

Synthetic theory of organic evolution, including population biology, speciation, adaptation, macroevolution, systematics, biogeography, and the geologic record. Prerequisites: BISC 1111; and BISC 1112.

BISC 2451. History of Life. 3 Credits.

Overview of life through time; the origin of life, evolution of major groups of organisms, and important methodologies used in paleontology. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; or permission of the instructor. (Same as GEOL 2151).

BISC 2452. Animal Behavior. 3 Credits.

An evolutionary approach to the study of animal behavior, emphasizing behavioral ecology and sociobiology. Prerequisites: BISC 1111 and BISC 1112; or permission of the instructor.

BISC 2453. Animal Behavior Lab. 1 Credit.

Methods used in the study of animal behavior; observation, basic statistical analysis, and experimental design; review and evaluation research materials. Prerequisites: BISC 1111 and BISC 1112. Recommended background: Prior or concurrent enrollment in BISC 2452.

BISC 2454. General Ecology. 3 Credits.

The core concepts of the field of ecology across different hierarchical scales of ecological systems. Prerequisites: BISC 1111 and BISC 1112; or permission of the instructor.

BISC 2456. General Ecology Laboratory. 1 Credit.

Practical exercises and field-trips are used to explore the core concepts of the field of ecology across different hierarchical scales of ecological systems. Laboratory fee. Prerequisites: BISC 1111 and BISC 1112; and BISC 2454 taken previously or concurrently.

BISC 2581. Human Gross Anatomy. 3 Credits.

The structural organization of the human body and how it relates to regional and systems-based functions. Emphasis on the macroscopic structure of the body. Prerequisites: BISC 1111 and BISC 1112; except by permission of the instructor. Same As: ANAT 2181.

BISC 2583. Biology of Proteins. 3 Credits.

About half of the proteins in the human genome have unknown functions. Are some related to cancers, muscle degeneration, infectious disease? How can evolutionary relationships among proteins from other organisms help us discover functions of unknown proteins? Laboratory fee. Prerequisite: AP or IB Biology or Chemistry.

BISC 2584. Introduction to Bioinformatics. 3 Credits.

The use of computational techniques in molecular biology, genetics, and evolution; techniques and software for database searching, sequence alignment, gene finding, phylogenetics, genomics, and proteomics. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126. (Same as CSCI 3571).

BISC 2585. Biometry. 3 Credits.

The application of statistics to problems in biology, including experimental and field work and environmental science and biometry. Designed for program majors. Prerequisites: MATH 1220. Recommended background: Familiarity with basic command-line applications and introductory calculus.

BISC 3099. Variable Topics. 1-12 Credits.**BISC 3122. Human Physiology. 3 Credits.**

Introduction to the function of organ systems of the body. Prerequisites: CHEM 1111 and CHEM 1112; and BISC 2202 or BISC 2207.

BISC 3123. Human Physiology Lab. 1 Credit.

Basic physiology laboratory techniques; emphasis on the experimental study of homeostatic mechanisms in humans. Laboratory fee. Prerequisites: BISC 1111 and BISC 1112.

BISC 3165. Biochemistry I. 3 Credits.

Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126, CHEM 2151 and CHEM 2152; course equivalents may be substituted for BISC 1115 and 1125; and BISC 1116 and BISC 1126 at the discretion of the instructor. (Same as CHEM 3165).

BISC 3166. Biochemistry II. 3 Credits.**BISC 3208. Molecular Biology Laboratory. 1 Credit.**

Techniques in molecular biology; traditional and modern methods in recombinant DNA technology, gene and protein characterization methods. Prerequisites: BISC 1111; BISC 1112; and CHEM 1111 and CHEM 1112.

BISC 3209. Molecular Biology. 3 Credits.

Theories and concepts in molecular biology; biosynthesis and structure of DNA, RNA, and proteins, relationships among gene function and expression; transcription and translation; regulation of gene expression in prokaryotes and eukaryotes; theory of traditional and modern methods in recombinant DNA technology, gene and protein characterization methods. Prerequisites: BISC 1111; BISC 1112; and CHEM 1111 and CHEM 1112.

BISC 3210. Nanobiotechnology. 3 Credits.

Theory and application of nanotechnologies in biology and medicine. Strategies for studying the organization, function, and complexity of biological systems at nanometer scale. Several areas of research are covered, including high-resolution cellular and molecular imaging, spectroscopy, and optical tweezers. Prerequisites: BISC 2202 or BISC 3261.

BISC 3211. Nanobiotechnology Laboratory. 1 Credit.

Modern instrumental techniques for analyzing biological structures and processes at the nanometer level; combining nano- and conventional techniques to answer scientific questions. Students formulate, design, and implement a research project. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; and BISC 1112 or BISC 1116 and BISC 1126.

BISC 3212. Immunology. 3 Credits.

Introduction to mammalian immunology covering the progression of immune responses from initial pathogen contact to immune memory. Prerequisites: BISC 1111; BISC 1112; BISC 2202 or BISC 2207; and CHEM 1111 and CHEM 1112. Recommended background: prior completion of CHEM 2151 and CHEM 2153.

BISC 3214. Developmental Biology. 3 Credits.

The molecular processes and cellular phenomena that result in the formation of organized tissues and functional organisms; formation of early body plan, cell type determination, organogenesis, morphogenesis, stem cells, cloning, and issues in human development. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; BISC 1112 or BISC 1116 and BISC 1126; and BISC 2202 or BISC 2207 or BISC 2213. Same As: BISC 2214.

BISC 3215. Genome Editing Laboratory. 1 Credit.

Practical training in genome editing in, from sequence design to molecular biology, generation of edited animals, and phenotypic analysis. Students undertake individual research projects involving CRISPR. Prerequisites: BISC 1111 and BISC 1112; and BISC 2202 or BISC 2207. Same As: BISC 3215W. Credit cannot be earned for this course and BISC 2215.

BISC 3215W. Genome Editing Laboratory. 1 Credit.

Practical training in genome editing in, from sequence design to molecular biology, generation of edited animals, and phenotypic analysis. Students undertake individual research projects involving CRISPR. Prerequisites: BISC 1111 and BISC 1112; and BISC 2202 or BISC 2207. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: BISC 3215. Credit cannot be earned for this course and BISC 2215.

BISC 3261. Introductory Medical Biochemistry. 4 Credits.

Introduction to structures of biological macromolecules, enzyme catalysis, cellular bioenergetics, and metabolism. Prerequisites: CHEM 2151 and CHEM 2152. (Same as BIOC 3261, CHEM 3165).

BISC 3262. Biochemistry Laboratory. 2 Credits.

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Laboratory fee. Prerequisites: BISC 1115 and BISC 1125; BISC 1116 and BISC 1126; and BISC 3261. Same As: BIOC 3262, CHEM 3262.

BISC 3263. Special Topics in Biochemistry. 2 Credits.

In-depth discussion of current biochemically relevant topics, including cancer and HIV chemotherapy, immune response, photosynthesis, signal transduction, hormone regulation, and nutrition. Topics vary by semester. May be repeated for credits provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: BISC 1111; BISC 1112; and BISC 3261. Credit cannot be earned for this course and BIOC 3263.

BISC 3270. Developmental Neurobiology. 3 Credits.

Fundamental principles of neural development organized by ontogeny, from early neural development to patterning, axonal targeting, and synapse formation. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; and BISC 1112 or BISC 1116 and BISC 1126. Same As: BISC 2220.

BISC 3320. Human Neurobiology. 3 Credits.

Introduction to the function of the human nervous system, gross and microscopic structure, and neurophysiology of the brain, spinal cord, and nerves; alterations caused by disease or injury. Prerequisites: BISC 2202 or BISC 3261.

BISC 3450. Evolutionary Medicine. 3 Credits.

The application of evolutionary principles, including natural selection, adaptation, phylogenetics, and evolutionary constraints, to understanding health, disease, and the biology of disease-causing organisms (viruses, bacteria, and parasites). How natural selection and phylogeny influence pathogen-host interactions, human genetics, immunology, development, cancer, and diseases of senescence. Prerequisites: BISC 1111 and BISC 1112. Recommended background: BISC 2207 and BISC 2450. Same As: BISC 3450W.

BISC 3450W. Evolutionary Medicine. 3 Credits.

The application of evolutionary principles, including natural selection, adaptation, phylogenetics, and evolutionary constraints, to understanding health, disease, and the biology of disease-causing organisms (viruses, bacteria, and parasites). How natural selection and phylogeny influence pathogen-host interactions, human genetics, immunology, development, cancer, and diseases of senescence. Prerequisites: BISC 1111 and BISC 1112. Recommended background: BISC 2207 and BISC 2450. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: BISC 3450.

BISC 3453. Plant Comparative Structure and Function Lab. 2 Credits.

Core concepts and techniques in comparative plant structure and function. Prerequisites: BISC 2454. Recommended background: Concurrent enrollment in BISC 3458.

BISC 3454. Marine Ecology. 3 Credits.

Abiotic and biotic factors in marine environments in general and ecological theory behind how they shape communities, biomes, and patterns in marine biodiversity; major marine habitats and the important organisms, physical environment, and major interactions in each; threats to marine environments and effective conservation strategies.

BISC 3455. Marine Ecology Laboratory. 1 Credit.

Study of marine ecology through experiential learning and an introduction to ecological research in the marine environment and using large datasets collected by marine scientists. By visiting marine ecosystems, students learn about marine resource use and conservation strategies in the coastal zone.

BISC 3458. Plant Comparative Structure and Function. 3 Credits.

Fundamental principles of how organisms are built, investigating trade-offs and coordination in design, how variation in structure influences physiological function in different ecological settings, and how relations among plants shape structure and function and responses to ecological gradients. Prerequisites: BISC 1111; BISC 1112; or permission of instructor. Recommended background: BISC 2454 General Ecology.

BISC 3459. Field Biology. 4 Credits.

Overview of the approaches and techniques used by contemporary field biologists for cataloging, quantifying, and comparing patterns of biodiversity across plants, animals, and fungi at multiple spatial and temporal scales. Prerequisites: BISC 1111 and BISC 1112. Recommended background: Prior completion of BISC 2454.

BISC 3460. Conservation Biology. 3 Credits.

Theory and practice of conserving biological diversity. Ecological patterns of biodiversity, biology of small populations, and conservation case studies. Use of ecological modeling software to explore various topics. Prerequisites: BISC 1111; BISC 1112.

BISC 3460W. Conservation Biology. 3 Credits.

Theory and practice of conserving biological diversity. Ecological patterns of biodiversity, biology of small populations, and conservation case studies. Use of ecological modeling software to explore various topics. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1111 or BISC 1115 and BISC 1125; and BISC 1112 or BISC 1116 and BISC 1126. Same As: BISC 3460.

BISC 3461. Plant-Animal Interactions. 3 Credits.

Review of the major ecological and evolutionary interactions that occur between plants and animals in natural and managed ecosystems. Prerequisites: BISC 1111; BISC 1112; or permission of the instructor. Recommended background: BISC 2450 or BISC 2454.

BISC 3462. Plant-Animal Interactions Laboratory. 1 Credit.

Field and laboratory study of temperate interactions between plants and animals. Group projects focus on original data collection, analysis, and interpretation. The stated prerequisites may be taken as corequisites; consult the instructor. Laboratory fee. Prerequisites: BISC 1111; BISC 1112; and BISC 3461.

BISC 3463. Ecological and Evolutionary Genetics. 3 Credits.

An analysis of the ecological and genetic basis of evolutionary change. Topics include the organization and maintenance of genetic variation within and among natural populations, the genetic basis of complex traits, molecular ecology analyses, and genotype by environment interactions. Prerequisites: BISC 2450 or permission of instructor; BISC 1111; BISC 1112; except by permission of the instructor.

BISC 3464. Ecology and Evolution of Societies. 3 Credits.

Study of broadly important ecological and evolutionary patterns and processes exemplified by organisms that have undergone the major evolutionary transition to living in societies. Prerequisites: BISC 1111; BISC 1112. Recommended background: Prior completion of BISC 2454.

BISC 3565. Plant Ecology and Evolution. 3 Credits.

How plants are built; how this construction shapes their physiological function in different ecological settings; how plants are related revolutionarily, and how these relations shape their structure, function, and responses to their environment. Prior completion of BISC 2454 is recommended. Prerequisites: BISC 1111; BISC 1112; or permission of the instructor.

BISC 3584. Introduction to Bioinformatics. 3 Credits.

The use of computational techniques in molecular biology, genetics, and evolution; techniques and software for database searching, sequence alignment, gene finding, phylogenetics, genomics, and proteomics. Prerequisites: BISC 1115 and 1125; and BISC 1116 and BISC 1126. Same As: CSCI 3571.

BISC 4132. Advanced Cellular-Molecular Biology. 3 Credits.

Advanced cell biology with emphasis on biochemistry and molecular biology; illustrations are drawn from different organisms and human biology. For upper-level undergraduates and beginning graduate students. Permission of the instructor required prior to enrollment. Prerequisite: BISC 3209. Recommended background: Six credits in the Cellular and Molecular category.

BISC 4171. Undergraduate Research. 1-12 Credits.

Admission by permission of the staff member concerned. May be repeated for credit. Laboratory fee. Prerequisites: BISC 1111 and BISC 1112 except by permission of the instructor; 16 credits in biological science courses.

BISC 4171W. Undergraduate Research. 1-12 Credits.

Admission by permission of the staff member concerned. May be repeated for credit. Laboratory fee. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: BISC 1115 and BISC 1125; and BISC 1116 and BISC 1126; and CHEM 2152 except by permission of the instructor; 16 credits in biological science courses.

BISC 4172. Independent Study. 1-3 Credits.

Prescribed reading list and consultations with staff advisor culminating in a written report and/or examination. Prerequisites: BISC 1111; and BISC 1112; and permission of the instructor.

BISC 4180. Undergraduate Research Seminar. 1 Credit.

Preparation for writing in diverse areas of modern biology; development of the skills needed to effectively communicate findings, publish research, and successfully obtain research funding. Same As: BISC 4180W.

BISC 4180W. Undergraduate Research Seminar. 1 Credit.

Preparation for writing in diverse areas of modern biology; development of the skills needed to effectively communicate findings, publish research, and successfully obtain research funding. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: BISC 4180.

BISC 4212. Virology and Antiviral Immunity. 3 Credits.

Comprehensive overview of the infection, replication, and immune evasion strategies of distinct classes of viruses; hands-on survey into the molecular techniques in virology. Prerequisites: BISC 2202 or BISC 2207 or BISC 3209 or BISC 3212. Credit cannot be earned for this course and BISC 6212.

BISC 4213. Virology and Antiviral Immunity Lab. 1 Credit.

Lab component designed to familiarize students with the current experimental approaches in molecular biology used to study host immune interactions with viral pathogens. Course equivalents to stated prerequisite may be permitted by the instructor. Prerequisites: BISC 2202 or BISC 2207; and BISC 3209 and BISC 3212.

BISC 4219. Host-Microbe Interactions. 3 Credits.

Overview of the molecular, genetic, cellular and physiological basis of symbiotic and pathogenic interactions between plants, invertebrate and vertebrate animals with various microbial organisms including bacteria, fungi, viruses as well prokaryotic and eukaryotic parasites. Prerequisites: BISC 2202 and BISC 2337. Credit cannot be earned for this course and BISC 6219.

BISC 4234. Microbial Genomics Laboratory. 3 Credits.

Development of computational skills needed to analyze microbial genomes and metagenomes. In addition to the prerequisite course, either basic understanding of Unix/Linux commands or permission of the instructor is prior to enrollment. Prerequisites: BISC 2336. Same As: BISC 6234.

BISC 5099. Variable Topics. 1-99 Credits.**BISC 6101. Responsible Research. 1 Credit.**

This course provides an introduction to the ethical, social, and legal foundations of scientific practice. It is intended to provide a forum for graduate students and postdocs to discuss almost every aspect of the academic life of a scientist, except specific disciplinary topics that are treated in regular courses. Ensuring ethical conduct is an essential part of basic, applied, and clinical research, especially in the context of competitive, collaborative, and international settings so common nowadays. Students are exposed to case studies typifying complex social, ethical, and legal dilemmas that may arise in the conduct of research.

BISC 6102. Scientific Presentation. 1 Credit.

This course allows students to perfect their Scientific Presentation skills. In this course, students present, in front of peers and faculty, their current research projects and plans for future work leading towards a complete thesis or dissertation. Student presentations are designed to address a general audience of biologists, containing sufficient background information to provide perspective insights into the fundamental questions being asked, and at the same time providing enough detail on technical issues and analytical procedures to allow evaluation of potential outcomes. The class provides a friendly forum for students to collect feedback and comments, to discuss project design, content, and general significance of their research.

BISC 6132. Advanced Cellular-Molecular Biology. 3 Credits.

Advanced cellular biology for upper-level undergraduates and beginning graduate students; emphasis on biochemistry and molecular biology; organisms and human biology with emphasis on oral and written analysis of research literature. Permission of the instructor required prior to enrollment. Restricted to students who have completed 16 credits of 2000-4000 level biology courses, including 6 credits in the cell and molecular category. Prerequisites: Graduate standing or undergraduates with 16 credits of 2000-4000 level biology courses, including 6 credits in the Cell and Molecular category and permission of instructor. Recommended background: 4 to 6 upper level biology courses, including 2 cell and molecular courses. Credit cannot be earned for this course and BISC 4132.

BISC 6205. Current Topics in Cell Smith, Donaldson, Eleftherianos, Jeremic. 1-2 Credits.

May be repeated for credit. Prerequisite: BISC 2202 or BISC 3209.

BISC 6206. Current Topics in Evolutionary Ecology. 1-2 Credits.

May be repeated for credit.

BISC 6207. Seminar: Current Topics in Systematic Biology. 1-2 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Prerequisite: BISC 6210.

BISC 6210. Methods of Study of Evolution. 4 Credits.

A rigorous and up-to-date treatment of the theory and methods of systematics, including phylogenetic inference and its applications in evolutionary biology. Laboratory fee. Prerequisite: BISC 2450 .

BISC 6211. Biogeography and Speciation. 3 Credits.

Survey of methods, techniques, and theory in biogeography. Geological and paleontological aspects of biogeography; large-scale biogeographic patterns; speciation and phylogeography. Prerequisites: BISC 2451 or BISC 2452.

BISC 6212. Virology and Antiviral Immunity. 3 Credits.

Overview of the infection, replication, and immune evasion strategies of distinct classes of viruses, as well the host antiviral immune responses to these pathogens. Credit cannot be earned for this course and BISC 4212.

BISC 6213. Descriptive Systematics: Documenting Biodiversity. 3 Credits.

Study of those aspects of systematic biology concerned with description and inventory of biodiversity. Prerequisite: BISC 6210.

BISC 6214. The Phylogenetic Basis of Comparative Biology. 3 Credits.

The use of phylogenetic hypotheses to study questions in evolutionary biology and ecology. Prerequisites: BISC 6210 and STAT 1127.

BISC 6215. Vertebrate Phylogeny. 4 Credits.

A survey of vertebrate diversity, emphasizing evolutionary relationships and adaptations of the major groups. Prerequisite: BISC 2450. Recommended background: BISC 2332.

BISC 6216. Morphological Systematics. 3 Credits.

Methods of studying organismal morphology as a means of inferring phylogeny, emphasizing the concept of homology. Prerequisite: BISC 6210.

BISC 6218. Innate Immunity. 3 Credits.

Discussion of innate immune systems in a wide variety of organisms; from sponges to vertebrates plus higher plants. Prerequisite: BISC 3212. Recommended background: BISC 2202, BISC 2207, BISC 3209 and BISC 2330.

BISC 6219. Host-Microbe Interactions. 3 Credits.

Overview of the molecular, genetic, cellular, and physiological basis of symbiotic and pathogenic interactions between plants, invertebrate, and vertebrate animals with various microbial organisms including bacteria, fungi, viruses as well prokaryotic and eukaryotic parasites. Prerequisites: BISC 2202 and BISC 2337.

BISC 6224. Molecular Evolution. 3 Credits.**BISC 6225. Molecular Phylogenetics. 4 Credits.**

Review of molecular phylogenetic methods including data recovery, alignment, weighting, character optimization, and phylogenetic inference methods. Prerequisites: BISC 2207, BISC 2450 and BISC 6210.

BISC 6227. Seminar: Genetics. 3 Credits.

Review of selected topics in genetics, with emphasis on current literature; topics of special interest to participants encouraged. May be repeated for credit. Prerequisite: BISC 2207.

BISC 6228. Population Genetics. 3 Credits.

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as FORS 6247. Prerequisite: BISC 2207.

BISC 6230. Human Genetics. 3 Credits.

Genetic mechanisms of transmission and expression of human traits, with emphasis on biochemical and cytogenetic aspects. Prerequisite: BISC 2207. Recommended background: Previous coursework in cell biology or cell biochemistry.

BISC 6234. Microbial Genomics Laboratory. 3 Credits.

Development of computational skills needed to analyze microbial genomes and metagenomes. In addition to the prerequisite course, either basic understanding of Unix/Linux commands or permission of the instructor is prior to enrollment. Prerequisites: BISC 2336. Same As: BISC 4234.

BISC 6243. Seminar: Ecology. 3 Credits.

In-depth study of selected topics, including reports on original publications. May be repeated for credit. Prerequisite: BISC 2454.

BISC 6249. Seminar: Developmental Biology. 3 Credits.

Discussion and reports on recent research on the endocrinological, genetic, and biochemical aspects of animal development. Prerequisite: a course in developmental biology or cell biology.

BISC 6251. Evolutionary Developmental Biology. 3 Credits.

Developmental mechanisms involved in the morphological changes that occur during the course of evolution.

BISC 6252. Seminar: Neurobiology. 3 Credits.

Study of current publications in functional neurobiology. May be repeated for credit with instructor's permission.

BISC 6274. Gene Regulation and Genetic Engineering. 3 Credits.

The control of gene expression as illustrated by several prokaryotic and eukaryotic model systems: discussions of recombinant DNA techniques. Prerequisite: BISC 2207.

BISC 6275. Introduction to Recombinant DNA Techniques. 3 Credits.

Lecture, 1 hour; laboratory, 4 hours. Basic techniques of genetic manipulation: cloning of genes, transformation of bacteria, PCR procedures, DNA sequencing, and other techniques. Prerequisite: BISC 2202 or BISC 2207 or BISC 2337 and permission of instructor. Laboratory fee.

BISC 6276. Foundations in Evolution. 3 Credits.

Rigorous introduction to the major conceptual area within micro- and macroevolution. Prerequisites: BISC 2450 for undergraduate students only.

BISC 6295. Research. 1-12 Credits.

Investigation of special problems. May be repeated for credit.

BISC 6998. Thesis Research. 3 Credits.**BISC 6999. Thesis Research. 3 Credits.****BISC 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

BISC 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN BIOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
BISC 2202	Cell Biology	
BISC 2207	Genetics	
BISC 2450	Organic Evolution	
BISC 2454	General Ecology	
or BISC 2452	Animal Behavior	
or BISC 3460	Conservation Biology	
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2151 & CHEM 2152	Organic Chemistry I and Organic Chemistry II	
CHEM 2153 & CHEM 2154	Organic Chemistry Laboratory I and Organic Chemistry Laboratory II	
CHEM 3165	Biochemistry I	
or BISC 3261	Introductory Medical Biochemistry	

Laboratory and elective course requirements

At least three courses must be a laboratory or have a laboratory component. These laboratory courses must numbered at the 2000 level or above. Students who complete 1 credit of BISC 4171 or BISC 4171W may count this experience as one of their required laboratory courses. A maximum of 6 credits of BISC 4171 or BISC 4171W may count towards degree requirements.

At least one 3-credit additional course from each of the four elective categories below:

Biology electives

Code	Title	Credits
Systems category		
BISC 2208	Genetics Laboratory *	
BISC 2213	Biology of Cancer	
BISC 2214	Developmental Biology	
BISC 2215	Genome Editing Laboratory	

BISC 2220	Developmental Neurobiology
BISC 2320	Neural Circuits and Behavior
BISC 3122	Human Physiology
BISC 3123	Human Physiology Lab *
BISC 3165	Biochemistry I
BISC 3208	Molecular Biology Laboratory *
BISC 3209	Molecular Biology
BISC 3210	Nanobiotechnology
BISC 3211	Nanobiotechnology Laboratory *
BISC 3212	Immunology
BISC 3262	Biochemistry Laboratory *
BISC 3263	Special Topics in Biochemistry
BISC 3320	Human Neurobiology
BISC 4132	Advanced Cellular-Molecular Biology
BISC 4212	Virology and Antiviral Immunity
BISC 6205	Current Topics in Cell Smith, Donaldson, Eleftherianos, Jeremic
BISC 6218	Innate Immunity
BISC 6219	Host-Microbe Interactions
PUBH 3202	Introduction to Genomics
Organisms category	
BISC 2000	The Wonder of Life: Biodiversity studies in a changing planet
BISC 2305	Plant Biology
BISC 2331	Insect Biology
BISC 2335	Insect Biology Lab *
BISC 2332	Comparative Vertebrate Anatomy *
BISC 2333	Evolution and Extinction of Dinosaurs
BISC 2334W	Integrative Biology of Fishes
BISC 2336	Introductory Microbiology
BISC 2337	Introductory Microbiology Laboratory *
BISC 2339	Parasitology *
BISC 2401	Biodiversity in A Changing World

BISC 6215	Vertebrate Phylogeny *
BISC 6249	Seminar: Developmental Biology
Evolution, ecology, and environment category	
BISC 2010	Global Change Biology
BISC 2451	History of Life
BISC 2452	Animal Behavior
BISC 2453	Animal Behavior Lab *
BISC 2454	General Ecology
BISC 2456	General Ecology Laboratory **, **
BISC 3450	Evolutionary Medicine
BISC 3450W	Evolutionary Medicine
BISC 3453	Plant Comparative Structure and Function Lab **, **
BISC 3454	Marine Ecology
BISC 3455	Marine Ecology Laboratory **
BISC 3458	Plant Comparative Structure and Function
BISC 3458	Plant Comparative Structure and Function
BISC 3459	Field Biology **, **
BISC 3460	Conservation Biology
BISC 3461	Plant-Animal Interactions
BISC 3462	Plant-Animal Interactions Laboratory **, **
BISC 3464	Ecology and Evolution of Societies
BISC 6210	Methods of Study of Evolution
BISC 6211	Biogeography and Speciation
BISC 6243	Seminar: Ecology
Quantitative category	
BISC 2585	Biometry
MATH 1231	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
PUBH 3201	Introduction to Bioinformatics

or BISC 2584	Introduction to Bioinformatics
STAT 1127	Statistics for the Biological Sciences

*Laboratory course.

**Field component.

Code	Title	Credits

BISC 3453	Plant Comparative Structure and Function Lab	
BISC 3455	Marine Ecology Laboratory	
BISC 3459	Field Biology	
BISC 3462	Plant-Animal Interactions Laboratory	
BISC 4171	Undergraduate Research	
or BISC 4171W	Undergraduate Research	
BISC 4234	Microbial Genomics Laboratory	

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication

competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a cumulative 3.5 grade-point average in biological sciences courses and at least a 3.0 cumulative overall grade-point average. Students who meet these criteria and wish to pursue special honors must complete an approved research project under faculty direction.

BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGY REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
BISC 2202	Cell Biology	
BISC 2207	Genetics	
BISC 2450	Organic Evolution	
CHEM 1111	General Chemistry I	
BISC 2452	Animal Behavior	
or BISC 2454	General Ecology	
or BISC 3460	Conservation Biology	
CHEM 1112	General Chemistry II	
PHYS 1011	General Physics I	
or PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	

Concentration requirement

Students must fulfill the requirements of one of the three concentrations shown below. All concentrations require a minimum of 18 credits in upper-level Biology (BISC) courses.

Laboratory course requirements*

At least three BISC courses numbered 2000 or above must have a laboratory component, either built into the course or as a separate course number. Students who complete 1 credit of BISC 4171 or BISC 4171W, Undergraduate Research, may count this experience toward one of their laboratory requirements. A maximum of 6 credits of BISC 4171 or BISC 4171W may be applied toward degree requirements.

Honors thesis

Students who qualify based on academic performance are strongly encouraged to develop an honors thesis based on their research experience.

Concentrations

General Biology Concentration

Code	Title	Credits
Required		
CHEM 2151 & CHEM 2152	Organic Chemistry I and Organic Chemistry II	
CHEM 2153 & CHEM 2154	Organic Chemistry Laboratory I and Organic Chemistry Laboratory II	
CHEM 3165	Biochemistry I	
or BISC 3261	Introductory Medical Biochemistry	

Electives

At least one 3-credit course from each of the four elective category listed below for a total of 12 credits, in addition to the courses satisfying the core course requirements. These 12 credits count toward the 18 required upper-level biology credits.

Cellular and Molecular Biology Concentration

Code	Title	Credits
Required		
BISC 3209 & BISC 3208	Molecular Biology and Molecular Biology Laboratory	
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
BISC 3261	Introductory Medical Biochemistry	
or CHEM 3165	Biochemistry I	

Electives

In addition to the courses satisfying the core course requirements, at least one 3-credit course from each of the four elective categories listed below for a total of 12 credits. These 12 credits count toward the 18 required upper-level biology credits.

Ecology, Evolution, and Environment Concentration

Code	Title	Credits
Required		

In addition to the courses satisfying the core course requirements, at least one 3-credit course from both the systems electives and organism electives lists; at least 6 credits from the evolution, ecology, and environment electives list, including one course with a field component; and 6 credits from the quantitative electives list, including at least one statistics course.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with special honors, a student must maintain a cumulative 3.5 grade-point average in biological sciences courses and at least a 3.0 cumulative overall grade-point average. Students who meet these criteria and wish to pursue special honors must complete an approved research project under faculty direction.

BACHELOR OF SCIENCE WITH A MAJOR IN NEUROSCIENCE REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
------	-------	---------

Required

Eleven basic science courses (41 credits):

BISC 1111	Introductory Biology: Cells and Molecules
-----------	---

BISC 1112	Introductory Biology: The Biology of Organisms
-----------	--

BISC 2207	Genetics *
-----------	------------

or BISC 2202	Cell Biology
--------------	--------------

CHEM 1111	General Chemistry I
-----------	---------------------

CHEM 1112	General Chemistry II
-----------	----------------------

CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I
-----------------------	--

CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II
-----------------------	--

PHYS 1025	University Physics I with Biological Applications
-----------	---

or PHYS 1011	General Physics I
--------------	-------------------

or PHYS 1021	University Physics I
--------------	----------------------

PHYS 1026	University Physics II with Biological Applications
-----------	--

or PHYS 1012	General Physics II
--------------	--------------------

or PHYS 1022	University Physics II
--------------	-----------------------

MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II
-----------------------	--

or MATH 1231	Single-Variable Calculus I
--------------	----------------------------

Two courses in quantitative methods (6 credits) from the following:

BISC 2584	Introduction to Bioinformatics
-----------	--------------------------------

CSCI 1012	Introduction to Programming with Python
-----------	---

STAT 1127	Statistics for the Biological Sciences *
-----------	--

Three gateway courses (9 credits) that introduce core neuroscience concepts, from the following:

ANAT 2160	Human Functional Neuroanatomy
-----------	-------------------------------

or SPHR 2106	Neural Substrates of Speech, Language, and Hearing
--------------	--

BISC 2320	Neural Circuits and Behavior
-----------	------------------------------

BISC 3320	Human Neurobiology
-----------	--------------------

PSYC 2015	Biological Psychology
-----------	-----------------------

Five advanced content courses from the following. These must include two courses in cellular/molecular/systems neuroscience (6 credits), two courses in cognitive neuroscience (6 credits) and one course in advanced biochemistry (3 to 4 credits).

Cellular/molecular/systems neuroscience

ANTH 3413 Evolution of the Human Brain

BISC 2220 Developmental Neurobiology

BISC 3320 Human Neurobiology

PSYC 3199 Current Topics in Psychology

Cognitive neuroscience

PSYC 3118 Neuropsychology

PSYC 3121 Memory and Cognition

PSYC 3122 Cognitive Neuroscience

PSYC 3124 Visual Perception

SPHR 2133 Autism

SPHR 3116 Brain and Language

Advanced biochemistry

BISC 3261 Introductory Medical Biochemistry

CHEM 3165 Biochemistry I *

CHEM 3166 Biochemistry II

One research/laboratory experience course (3 to 4 credits).

This may be one semester of guided or independent research in ANTH, CHEM, PHIL, PSYC, or SPHR**, or one of the following options:

Laboratory experience

BISC 2452 & BISC 2453 Animal Behavior and Animal Behavior Lab

PSYC 4107W Research Lab in Cognitive Neuroscience

BISC 4171 Undergraduate Research

BISC 4171W Undergraduate Research

BISC 4172 Independent Study

BISC 4180 Undergraduate Research Seminar

* Recommended for premed students. In addition, premed students are advised to take SOC 1001 Introduction to

Sociology, BISC 2322 Human Physiology, and BISC 2337 Introductory Microbiology Laboratory.

** For SPHR, available only to students with a minimum 3.5 GPA in major courses and/or the permission of the instructor.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a cumulative 3.5 grade-point average in biological sciences courses and at least a 3.0 cumulative overall grade-point average. Students who meet these criteria and wish to pursue special honors must complete an approved research project under faculty direction.

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN BIOLOGY AND MASTER OF SCIENCE IN THE FIELD OF BIOLOGICAL SCIENCES

The Department of Biological Sciences offers a dual bachelor of science with a major in biology (p. 148) and master of science in the field of biological sciences (p. 153) degree program. 6 credits may be shared between programs, thereby decreasing the total number of credits normally required. All requirements for both programs must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate advisor early in their junior year. Visit the program website (<https://biology.columbian.gwu.edu/undergraduate-degree-programs/>) for additional information.

DUAL BS IN NEUROSCIENCE AND MS IN BIOLOGICAL SCIENCES

The Department of Biological Sciences offers a dual bachelor of science with a major in neuroscience (p. 151) and master of science in the field of biological sciences (p. 153) degree program. The program allows students to take 6 graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

Students interested in the dual degree program should confer with the department's graduate advisor early in their junior year. Visit the program website (<https://biology.columbian.gwu.edu/undergraduate-degree-programs/>) for additional information.

biology.columbian.gwu.edu/undergraduate-degree-programs/) for additional information.

MINOR IN BIOLOGY REQUIREMENTS

The following requirements must be fulfilled: 20 credits, including 8 credits in prerequisite courses and 12 credits in elective courses.

Code	Title	Credits
Prerequisites		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
Electives		
12 credits in biological sciences (BISC) courses taken at the 2000 to 4000 levels and/or from the following approved non-BISC courses:		
BIOC 3261	Introductory Medical Biochemistry	
BIOC 3262	Biochemistry Laboratory	
BIOC 3263	Special Topics in Biochemistry	
BIOC 3564	Lipid Biotechnology	
CHEM 3165	Biochemistry I	
CHEM 3166W	Biochemistry II	
CHEM 3262	Biochemistry Laboratory	
CHEM 3564	Lipid Biotechnology	
GEOL 2151	Introduction to Paleontology	

*Honors Program students and those who have been invited to join the Scholars in Quantitative and Natural Sciences (SQNS) Program take BISC 1120 instead of BISC 1125 for the lab component.

MASTER OF SCIENCE IN THE FIELD OF BIOLOGICAL SCIENCES

Our departmental graduate program is highly interactive in which students move easily among disciplines within the department and interact with other programs and institutions. Graduate research is generally in one of two areas 1) cell and molecular biology, and 2) systematics, evolution, and ecology. Students in the program often take advantage of other researchers, faculty, and facilities at GW and elsewhere in the Washington area. These include the National Institutes of

Health (NIH) and the Smithsonian Institution's National Museum of Natural History.

A strong background in cell and molecular biology is essential for many competitive careers. Graduate students in this area conduct research on both well-studied model systems and non-model organisms, and often use comparative approaches. Common research themes among department faculty include cell signaling processes, and the genetic and cellular mechanisms governing virulence, behavior, immune responses, neurobiology, development, and the phenotypic expression of a variety of morphological traits. Students are trained in both experimental and comparative approaches and use a diverse array of modern research methods, ranging from precision imaging to gene editing to the assembly and analysis of genomes/proteomes/metabolomes.

Amid increasing concern about global change and biodiversity decline, expertise in systematics and ecology is more important than ever. GW's Systematics, Evolution, and Ecology (SEE) program is one of the few in the world specializing in the principles and methods of phylogenetic analysis and comparative biology, putting the university at the forefront of biodiversity studies. Departmental research in evolution and ecology spans a wide array of taxa and study systems, including both vertebrate (amphibians, reptiles, fishes) and invertebrate (social and non-social insects, arachnids, oysters) animals, plants, fungi, and bacteria. In addition to systematics, students can join labs conducting research on behavioral, ecosystem, community, and population ecology as well as ecomorphology and biomechanics.

To complement their classroom education, students can get involved in ongoing field research at both terrestrial and aquatic field sites around the world. Recent graduate students have studied termites and wood decomposition in Australian rainforests, collected ants in Brazilian savannas, discovered new reptiles and amphibians in Sri Lanka, and unearthed rare dinosaur fossils in the Gobi Desert of China.

The department regularly supports graduate student attendance at graduate short courses offered around the US and abroad, including those available through our membership in the Organization for Tropical Studies as well as regularly offered short courses at Friday Harbor, Southwestern Research Station, and Woods Hole.

The MS program has a thesis or non-thesis option, allowing students to pursue laboratory or classwork-only research in one of the two areas described above.

The MS is a STEM-designated programs.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits: Thesis option—24 credits in approved elective courses and 6 credits in thesis; non-thesis option—with departmental approval, 36 credits in approved elective courses; for all students—successful completion of a master's comprehensive examination.

DOCTOR OF PHILOSOPHY IN THE FIELD OF BIOLOGICAL SCIENCES

Our departmental graduate program is highly interactive in which students move easily among disciplines within the department and interact with other programs and institutions. Graduate research is generally in one of two areas 1) cell and molecular biology, and 2) systematics, evolution, and ecology. Recent graduate students have studied termites and wood decomposition in Australian rainforests, collected ants in Brazilian savannas, discovered new reptiles and amphibians in Sri Lanka, and unearthed rare dinosaur fossils in the Gobi Desert of China.

The department regularly supports graduate student attendance at graduate short courses offered around the US and abroad, including those available through our membership in the Organization for Tropical Studies (OTS) as well as regularly offered short courses at Friday Harbor, Southwestern Research Station, and Woods Hole.

The M.S. program has a thesis or non-thesis option, allowing students to pursue laboratory or classwork-only research in one of the two areas described above.

The Ph.D. and M.S. in Biological Sciences are STEM-designated programs.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

The required curriculum and program requirements as outlined below:

Code	Title	Credits
Requirements for students entering with a bachelor's degree:		
	72 credits prior to graduation.	
	48 credits of approved graduate-level coursework to be advanced to candidacy.	
	6 to 24 credits of dissertation research (BISC 8999).	
	Successful completion of a general examination, comprising both written and oral examinations, to be advanced to candidacy.	
Requirements for students entering with a master's degree:		
	72 credits prior to graduation.	
	48 credits of approved graduate-level coursework to be advanced to candidacy (includes up to 30 credits transferred from the master's degree).	
	6 to 24 credits of dissertation research (BISC 8999).	
	Successful completion of a general examination, comprising both written and oral examinations, to be advanced to candidacy.	

The program of study and fields of study are determined in consultation with an advisory committee appointed for each candidate.

- Major research fields**
- Cell and molecular biology
 - Systematics
 - Evolution
 - Ecology

BIOMEDICAL SCIENCES

The interdisciplinary doctoral programs in the biomedical sciences are organized within GW's Institute for Biomedical Sciences (<https://smhs.gwu.edu/ibs/>). The first full year of study toward the PhD programs in biochemistry and systems biology, microbiology and immunology, and molecular medicine is offered through the Institute. All programs are taken on a full-time basis. Faculty are drawn from the Columbian College of Arts and Sciences and the School of Medicine and Health Sciences, including scientists from the Children's Research Institute of Children's National Health System.

Students are admitted directly into the Institute for Biomedical Sciences through the Columbian College of Arts and Sciences. At the end of the first year of study, students select one of the five PhD fields— cancer biology, genomics and bioinformatics, microbiology and immunology, neuroscience, and pharmacology and physiology—and complete remaining degree requirements in the selected program.

Visit the Institute for Biomedical Sciences website (<https://smhs.gwu.edu/ibs/>) for additional information.

GRADUATE

Master's Program

- Master of Science in the field of bioinformatics and molecular biochemistry (p. 136)

Doctoral Programs

- Doctor of Philosophy in the field of cancer biology (p. 156)
- Doctor of Philosophy in the field of genomics and bioinformatics (p. 157)
- Doctor of Philosophy in the field of microbiology and immunology (p. 159)
- Doctor of Philosophy in the field of neuroscience (p. 160)
- Doctor of Philosophy in the field of pharmacology and physiology (p. 162)

FACULTY

Committee on Biomedical Sciences L. Werling (*Director*), L. Caldovic, A. Chiaramello, A. Colberg-Poley, R.P. Donaldson, V. Gallo, A. Jeremic, D. Mendelowitz, N. Lee, D. Leitenberg, E. Villain.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Biomedical Sciences (BMSC) (p. 1442)
- Microbiology (MICR) (p. 1704)
- Molecular Medicine (MMED) (p. 1705)
- Pharmacology (PHAR) (p. 1719)

DOCTOR OF PHILOSOPHY IN THE FIELD OF CANCER BIOLOGY

The PhD in the field of cancer biology program focuses on the disease of cancer, ranging from molecular signaling underlying carcinogenesis to cancer genomics for improving detection, diagnosis, and treatment. While the training of cancer researchers has historically been accomplished by individual investigators in the traditional departments, the rapidly expanding knowledge base and complexity of modern genetic and molecular approaches necessitate an approach that is both broader-based, with respect to scientific discipline, and more focused, with respect to this disease entity.

The program begins with interdisciplinary coursework in genes, cells and systems in biomedical sciences, professional development in scientific communication and science careers, and laboratory rotations offered through GW's Institute for Biomedical Sciences. After the first year of study, students work with their research advisor to complete remaining degree requirements, including the dissertation.

Program faculty are drawn largely from the GW School of Medicine and Health Sciences, including scientists from Children's Research Institute of Children's National Health System.

Students have access to extensive research facilities and libraries on campus and in the greater Washington, DC. This include the School of Medical and Health Sciences, GW's Gelman Library and Himmelfarb Health Sciences Library, Children's Research Institute, the National Institutes of Health, and numerous other research institutions.

The PhD in cancer biology is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits, including required core, dissertation, and elective coursework. Successful completion of a grant-style qualifier examination is required for advancement to candidacy. In addition, students perform full-time research in faculty laboratories for the duration of their program. In GW laboratories, they are hired as paid research assistants/associates in the third year and beyond of the program.

Students are advised to complete up to 48 credits comprising required interdisciplinary core courses, required cancer biology core courses, electives, and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students then register for up to 24 credits of dissertation research through completion and successful oral defense of a written dissertation.

Code	Title	Credits
Required interdisciplinary core*		
BMSC 8210	Genes to Cells	
BMSC 8212	Systems Physiology

PUBH 6278	Public Health Virology
PUBH 6861	Public Health Genomics

*Required courses may be waived at the discretion of the graduate program director based on written documentation of prior equivalent coursework. Any waiver increases the number of elective courses required by the number of credits waived.

DOCTOR OF PHILOSOPHY IN THE FIELD OF GENOMICS AND BIOINFORMATICS

The PhD in genomics and bioinformatics program is designed to develop research scientists in areas where the principles and methods of cell and systems biology, biochemistry and genetics are applied to the study of human diseases.

Investigators in the program use the latest technologies in genomics, proteomics, high-resolution imaging, bioinformatics and pre-clinical (murine) trials. The training program includes research opportunities in autism spectrum disorders, muscular dystrophies, biomarkers, asthma, airway diseases, brain tumors, microRNA processing, dysregulation of mitochondrial functions and protein trafficking.

The program begins with interdisciplinary coursework in genes, cells and systems in biomedical sciences, professional development in scientific communication and science careers, and laboratory rotations offered through GW's Institute for Biomedical Sciences. After the first year of study, students work with their research advisor to complete remaining degree requirements, including the dissertation.

Program faculty are drawn largely from the GW School of Medicine and Health Sciences, including scientists from Children's Research Institute of Children's National Health System.

Students have access to extensive research facilities and libraries on campus and in the greater Washington, DC. This include the School of Medical and Health Sciences, GW's Gelman Library and Himmelfarb Health Sciences Library, Children's Research Institute, the National Institutes of Health, and numerous other research institutions.

The PhD in genomics and bioinformatics is a STEM-designated program.

DOCTOR OF PHILOSOPHY IN THE FIELD OF MICROBIOLOGY AND IMMUNOLOGY

OVERVIEW

The PhD in microbiology and immunology program provides flexible, rigorous training that prepares students to become independent research scientists in the areas of molecular virology, molecular parasitology, and immunology.

The program begins with interdisciplinary coursework in genes, cells and systems in biomedical sciences, professional development in scientific communication and science careers, and laboratory rotations offered through GW's Institute for Biomedical Sciences. After the first year of study, students work with their research advisor to complete remaining degree requirements, including the dissertation.

Faculty are drawn largely from the GW School of Medicine and Health Sciences, including scientists from Children's Research Institute of Children's National Health System. Research strengths and training opportunities include the study of host-pathogen relationships, inflammation, vaccine development, T lymphocyte activation, cancer immunology, molecular parasitology, molecular retrovirology (HIV/AIDS), and microbial genomics and proteomics.

Students have access to extensive research facilities and libraries on campus and in the greater Washington, DC. This include the School of Medical and Health Sciences, GW's Gelman Library and Himmelfarb Health Sciences Library,

Children's Research Institute, the National Institutes of Health, and numerous other research institutions.

The PhD in microbiology and immunology is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

DOCTOR OF PHILOSOPHY IN THE FIELD OF NEUROSCIENCE

Neuroscience uses tools in a wide variety of disciplines—psychology, anatomy, electrophysiology, molecular biology, medicine, pharmacology, and biochemistry—to provide critical scientific breakthroughs for the millions of individuals affected by neurologic illnesses.

In the PhD in neuroscience program, the principal areas of research training include developmental neurobiology, molecular mechanisms of action of drugs of abuse, neural transplant, neurotransmitter systems, and the psychobiology of learning, memory, and communication.

The program begins with interdisciplinary coursework in genes, cells and systems in biomedical sciences, professional development in scientific communication and science careers, and laboratory rotations offered through GW's Institute for Biomedical Sciences (<https://smhs.gwu.edu/ibs/>). After the first year of study, students work with their research advisor to complete remaining degree requirements, including the dissertation.

Program faculty are drawn largely from the GW School of Medicine and Health Sciences, including scientists from Children's Research Institute of Children's National Health System.

Students have access to extensive research facilities and libraries on campus and in the greater Washington, DC. This include the School of Medical and Health Sciences, GW's Gelman Library and Himmelfarb Health Sciences Library,

Children's Research Institute, the National Institutes of Health, and numerous other research institutions.

The PhD in neuroscience is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

The requirements for the Doctor of Philosophy program (<http://bulletin.gwu.edu/arts-sciences/#doctoraltext>).

72 credits, including required core and elective courses. Successful completion of a grant-style qualifier examination is required for advancement to candidacy. In addition, students perform full-time research in faculty laboratories for the duration of their program. In GW laboratories, they are hired as paid research assistants/associates in the third year and beyond of the program.

Students are advised to complete up to 48 credits comprising required interdisciplinary core courses, required neuroscience core courses, electives, and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students register for up to 24 credits of dissertation research through completion and successful oral defense of a written dissertation.

DOCTOR OF PHILOSOPHY IN THE FIELD OF PHARMACOLOGY AND PHYSIOLOGY

The PhD in pharmacology and physiology program centers on biological systems, including the interaction of molecules (drugs), function integration of organ systems and how cells regulate ionic metabolic fluxes under normal and pathophysiological states.

The program begins with interdisciplinary coursework in genes, cells and systems in biomedical sciences, professional development in scientific communication and science careers, and laboratory rotations offered through GW's Institute for Biomedical Sciences. After the first year of study, students work with their research advisor to complete remaining degree requirements, including the dissertation.

Program faculty are drawn largely from the GW School of Medicine and Health Sciences, including scientists from Children's Research Institute of Children's National Health System.

Students have access to extensive research facilities and libraries on campus and in the greater Washington, DC. This include the School of Medical and Health Sciences, GW's Gelman Library and Himmelfarb Health Sciences Library, Children's Research Institute, the National Institutes of Health, and numerous other research institutions.

The PhD in pharmacology and physiology is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext>).

The requirements for the Doctor of Philosophy program (<http://bulletin.gwu.edu/arts-sciences/#doctoralstext>).

72 credits, including required core and elective courses. Successful completion of a grant-style qualifier examination is required for advancement to candidacy. In addition, students perform full-time research in faculty laboratories for the duration of their program. In GW laboratories, they are hired as paid research assistants/associates in the third year and beyond of the program.

Students are advised to complete up to 48 credits comprising required interdisciplinary core courses, required pharmacology and physiology core courses, electives, and advanced readings and research in the first two years of PhD study. Upon successful completion of a grant-style qualifier, students register for up to 24 credits in dissertation research through completion and successful oral defense of a written dissertation.

Code	Title	Credits
Required courses*		
Interdisciplinary core		
BMSC 8210	Genes to Cells	
BMSC 8212	Systems Physiology	
BMSC 8215	Lab Rotations	
BMSC 8216	Scientific Writing, Presentation Skills, and Seminar Planning	
BMSC 8217	Ethics and Grant Writing	
BMSC 8218	Career Options in the Biomedical Sciences	
BMSC 8230	Molecular Basis of Human Disease	
BMSC 8235	Applied Biostatistics for Basic Research	
Pharmacology and physiology core		
PHAR 6205	Pharmacology	
PHAR 6116	Pharmacogenomics and Personalized Medicine	
PHAR 8211	Physiology	
PHAR 8214	Physiology and Pharmacology Seminar	
PHAR 8281	Molecular Pharmacology and Neurobiology of Excitable Tissues	

Electives

12 credits in elective courses selected from the following in consultation with graduate program advisor:

ANAT 6130 Clinically Oriented Human Embryology

ANAT 6150 Clinically Oriented Human Microscopic Anatomy

ANAT 6160 Human Clinical Neuroanatomy

ANAT 6182 Fundamentals of Translational Science

ANAT 6275 Advanced Studies in Translational Sciences

ANAT 6292 Projects in Anatomical Sciences: Introduction to Neuroradiology

BIOC 6240 Next Generation Sequencing

BIOC 6242 Bioscience Big Data Statistics

BIOC 8225 Metabolism

BIOC 8232 Molecular and Cellular Signaling

BMSC 8219 Writing the Grant-Style Qualifier

CANC 8221 The Basic Science of Oncology

CANC 8222 Molecular Oncology and Cancer Epigenetics

CANC 8223 Immunology and Immunotherapy of Cancer

GENO 6223 Bioinformatics

GENO 6236 Medical Genomics

GENO 6237 Proteomics and Biomarkers

GENO 8231 Introduction to Genomics, Proteomics, and Bioinformatics

MICR 8210 Infection and Immunity

MICR 8230 Molecular and Cellular Immunology

MICR 8270 Advanced Topics in Immunology

NRSC 8284 Foundations of Experimental Neuroscience I

NRSC 8285 Foundations of Experimental Neuroscience II

PHAR 6206 Advanced Pharmacology

PHAR 6208 Pharmacology in Disease Pathophysiology For Health Sciences Students

PHAR 6322 Advanced Professional and Communication Skills

PHAR 8998 Advanced Reading and Research

PUBH 6276 Public Health Microbiology

PUBH 6278 Public Health Virology

PUBH 6861 Public Health Genomics

Dissertation research

PHAR 8999 Dissertation research

*Required courses may be waived at the discretion of the graduate program director based on written documentation of prior equivalent coursework. Any waiver increases the number of electives required, by the number of credits waived.

BIOSTATISTICS

The Columbian College of Arts and Sciences (CCAS) offers the degrees of master of science and doctor of philosophy in the field of biostatistics. These degree programs are a collaboration between CCAS's Department of Statistics (<https://statistics.columbian.gwu.edu/>) and the Milken Institute School of Public Health's Department of Epidemiology (<http://publichealth.gwu.edu/departments/epidemiology-and-biostatistics/>) and Biostatistics Center (<http://www.bsc.gwu.edu/bsc/>).

Visit the Department of Epidemiology and Biostatistics website (<https://publichealth.gwu.edu/departments/epidemiology-and-biostatistics/>) for additional information.

GRADUATE

Programs are administered jointly by the Department of Statistics (<https://statistics.columbian.gwu.edu/>) in the Columbian College of Arts and Sciences and the Department of Epidemiology and Biostatistics (<http://publichealth.gwu.edu/departments/epidemiology-and-biostatistics/>) in the Milken Institute School of Public Health.

Master's program

- Master of Science in the field of biostatistics (p. 166)

Doctoral program

- Doctor of Philosophy in the field of biostatistics (p. 164)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

BIOS 5099. Variable Topics. 1-99 Credits.

BIOS 6295. Reading and Research. 1-12 Credits.

May be repeated for credit.

BIOS 6998. Thesis Research. 3 Credits.

BIOS 6999. Thesis Research. 3 Credits.

BIOS 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

BIOS 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

DOCTOR OF PHILOSOPHY IN THE FIELD OF BIostatISTICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Required preparatory courses

Code	Title	Credits
Undergraduate course requirements (or equivalents to these GW courses) for admission consideration:		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
STAT 2118	Regression Analysis	
MATH 2233	Multivariable Calculus	

Code	Title	Credits
------	-------	---------

Additional course requirements* (or equivalents to these GW courses):

MATH 2184	Linear Algebra I	
-----------	------------------	--

One of the following courses:

PUBH 6853	Use of Statistical Packages for Data Management and Data Analysis	
-----------	---	--

STAT 2183	Intermediate Statistics Lab/Packages	
-----------	--------------------------------------	--

*Applicants lacking these courses (or equivalents to these GW courses) will be considered for admission, but, if admissible, will be admitted conditionally with the expectation that these courses will be satisfactorily completed within two semesters following matriculation in the program. These credits do not count as credit toward the 72-credit graduation requirement nor are grades earned in additional courses reflected in the overall grade-point average.

Doctoral program requirements

The following requirements must be fulfilled: 72 credits, including a minimum of 51 credits in required and elective courses and a minimum of 12 credits in dissertation research; successful completion of the general and final examinations; and completion of the professional enhancement requirement. See below for additional information.

Code	Title	Credits
------	-------	---------

Required

Statistics core		
-----------------	--	--

STAT 6201	Mathematical Statistics I	
-----------	---------------------------	--

STAT 6202	Mathematical Statistics II (* Comprehensive Exam)	
-----------	---	--

STAT 6210	Data Analysis	
-----------	---------------	--

STAT 6213	Intermediate Probability and Stochastic Processes (* Comprehensive Exam)	
-----------	--	--

PUBH 8365	Design of Medical Studies	
-----------	---------------------------	--

PUBH 8366	Biostatistical Methods (* Comprehensive Exam)	
-----------	---	--

STAT 8226	Advanced Biostatistical Methods

STAT 6227	Survival Analysis	
-----------	-------------------	--

STAT 8263	Advanced Statistical Theory I	
-----------	-------------------------------	--

STAT 6218	Linear Models	
-----------	---------------	--

Public health core

PUBH 6003	Principles and Practices of Epidemiology
One of the following:	
PUBH 6247	Design of Health Studies
PUBH 6299	Topics in Epidemiology
PUBH 6007	Social and Behavioral Approaches to Public Health
or PUBH 6006	

Electives

9 credits in electives from the following approved lists of STAT and PUBH courses.

Approved statistics electives (at least 3 credits must be selected from among the first three courses below):

STAT 6231	Categorical Data Analysis
STAT 8262	Nonparametric Inference
STAT 6214	Applied Linear Models
STAT 6207	Methods of Statistical Computing I
STAT 6208	Methods of Statistical Computing II
STAT 6215	Applied Multivariate Analysis I
STAT 6216	Applied Multivariate Analysis II
STAT 6217	Design of Experiments
STAT 6223	Bayesian Statistics: Theory and Applications
STAT 6242	Modern Regression Analysis
STAT 6287	Sample Surveys
STAT 6289	Topics in Statistics
STAT 8257	Probability
STAT 8258	Distribution Theory
STAT 8263	Advanced Statistical Theory I
STAT 8264	Advanced Statistical Theory II
STAT 8265	Multivariate Analysis
STAT 8273	Stochastic Processes I
STAT 8274	Stochastic Processes II
STAT 8281	Advanced Time Series Analysis

STAT 8288	Topics in Sample Surveys
BIOS 8998	Advanced Reading and Research (see advisor)
Approved public health electives:	
PUBH 6242	Clinical Epidemiology and Public Health: Reading the Research (recommended)
PUBH 6244	Cancer Epidemiology
PUBH 6245	Infectious Disease Epidemiology
PUBH 8419	Measurement in Public Health and Health Services

Consulting

Consulting courses may be waived by the Biostatistics Program Director, based on written documentation of prior equivalent coursework or relevant work experience. Waiver of the consulting course increases the total number of elective to be taken by the number of consulting credits waived.

PUBH 8283	Doctoral Biostatistics Consulting Practicum
PUBH 6258	Principles of Biostatistical Consulting

Dissertation research

BIOS 8999	Dissertation Research (taken for 6 to 24 credits)
-----------	--

General and final examinations

The general examination is given in two parts:

- Part I is the qualifying exam, a written comprehensive examination based on the course content of STAT 6201, STAT 6202 (administered by faculty of the Department of Statistics), and PUBH 8366 (administered by the faculty of the Department of Epidemiology and Biostatistics).
- The qualifying examination is given over a two-day period in the beginning of the fall semester of every academic year and consists of one four-hour theory exam and one two-hour biostatistical methods/applications exam. Students are expected to take the comprehensive examination within 24 months from the date of enrollment in the program. A student who fails to pass the comprehensive examination may, with the approval of the faculty, repeat the examination the following year. Failure on the second attempt results in termination from the PhD program.
- All examination questions focus on material that a person seeking a PhD in biostatistics is expected to know, regardless of subsequent specialization. The examination encompasses material in core mathematical statistics –STAT 6201 and STAT 6202–and biostatistical methods

courses—PUBH 8366—in the PhD program in biostatistics. Specifically,

1. The theory portion of the exam—STAT 6201 and STAT 6202—is based on the first 10 chapters of Casella G and Berger RL (1990). *Statistical Inference*. Second Edition, Duxbury Press.
 2. The biostatistical methods portion of the exam—PUBH 8366—is based on chapters 1 to 8 of Lachin J.M. (2010) *Biostatistical Methods: The Assessment of Relative Risks*, 2nd Edition, Wiley.
- Part II, the research proposal, consists of an oral examination based on a written dissertation research proposal. As soon as feasible after successful completion of the comprehensive exam, students are encouraged to identify a dissertation advisor and a topic of research. The written dissertation proposal is then submitted to the student's Dissertation Research Committee, and the student makes an oral presentation of their proposal to the Committee. The Committee determines the student's readiness to pursue and successfully complete the proposed research, in addition to the appropriateness of the specific problem for dissertation-level research.

Upon successful completion of the required coursework and both parts of the general examination, the candidate is generally recommended to the Associate Dean for Graduate Affairs of the Columbian College of Arts and Sciences (CCAS) for promotion to PhD candidacy—the dissertation research. A candidate must file an approved dissertation research plan with CCAS before being admitted to PhD candidacy. Prior to completion of the general examination, a student may register for at most 6 credits of BIOS 8999.

Consult with the Biostatistics Program Director or academic advisor for dissertation guidelines.

Professional enhancement requirement: 8 hours

Professional enhancement activities supplement the academic curriculum and help prepare students to participate actively in the professional community. They enhance practical knowledge and awareness of public health issues – either in general or in a student's specific area of study.

Students can fulfill this requirement by attending workshops, seminars, or other relevant professional meetings, which are often held at the Milken Institute School of Public Health (SPH) and in the metropolitan Washington, DC, area. Examples of conference sponsors include the National Academy for State Health Policy, the Pan American Health Organization, the American Public Health Association, the American College of Healthcare Executives, the Area Health Education Center, the American College of Sports Medicine, and the National Athletic Trainer's Association. Opportunities for professional enhancement are regularly publicized via the SPH Listserv and through the department or the biostatistics academic advisor.

Students must submit documentation of professional enhancement activities to the biostatistics academic advisor, which includes a **prior** approval, a description of the program agenda, and proof of attendance before applying for graduation.

MASTER OF SCIENCE IN THE FIELD OF BIOSTATISTICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including 27 credits in required courses and 6 credits in elective courses, and successful completion of a master's comprehensive examination.

Admission Considerations

The courses listed below (or equivalents) are prerequisites for admission consideration and must appear on the student's transcript. Students may apply to the program only after they have fulfilled this requirement:

Code	Title	Credits
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
STAT 2118	Regression Analysis	

Applicants lacking the courses listed below (or equivalents) are considered for admission; however, if admitted, the student is required to complete these courses within two semesters of matriculation in the program. Credit earned in these courses does not count toward the 33 credits required for the degree and grades earned are not reflected in the overall grade-point average.

Code	Title	Credits
MATH 2184	Linear Algebra I	
MATH 2233	Multivariable Calculus	

One of the following:

PUBH 6853	Use of Statistical Packages for Data Management and Data Analysis *	
STAT 2183	Intermediate Statistics Lab/Packages	

*Previously PUBH 6249.

Degree Requirements

Code	Title	Credits
Required statistics courses		
PUBH 6266	Biostatistical Methods	
or PUBH 8877	Generalized Linear Models in Biostatistics	
STAT 6201	Mathematical Statistics I	
STAT 6202	Mathematical Statistics II	
STAT 6210	Data Analysis	
STAT 6227	Survival Analysis	
STAT 6255	Clinical Trials	
or PUBH 6866	Principles of Clinical Trials	
Public health courses		
PUBH 6003	Principles and Practices of Epidemiology	
2 credits (two courses) selected from the following:		
PUBH 6262	Introduction to Geographic Information Systems	
PUBH 6263	Advanced GIS	
PUBH 6850	Introduction to SAS for Public Health Research	
PUBH 6851	Introduction to R for Public Health Research	
PUBH 6852	Introduction to Python for Public Health Research	
PUBH 6856	Advanced SAS for Public Health Research	
2 additional credits in any PUBH course(s) in the 6800 range.		
Approved Electives		
6 credits in elective courses selected from the following:		
PUBH 6854	Applied Computing in Health Data Science	
PUBH 6859	High Performance and Cloud Computing	
PUBH 6860	Principles of Bioinformatics	
PUBH 6861	Public Health Genomics	
PUBH 6862	Applied Linear Regression Analysis for Public Health Research	

PUBH 6863	Applied Meta-Analysis
PUBH 6865	Applied Categorical Data Analysis
PUBH 6879	Propensity Score Methods for Causal Inference in Observational Studies
PUBH 6884	Bioinformatics Algorithms and Data Structures
PUBH 6886	Statistical and Machine Learning for Public Health Research
PUBH 6887	Applied Longitudinal Data Analysis for Public Health Research
STAT 3187	Introduction to Sampling
STAT 4181	Applied Time Series Analysis
STAT 4188	Nonparametric Statistics Inference
STAT 6197	Fundamentals of SAS Programming for Data Management
STAT 6214	Applied Linear Models
STAT 6215	Applied Multivariate Analysis I
STAT 6216	Applied Multivariate Analysis II
STAT 6217	Design of Experiments
STAT 6223	Bayesian Statistics: Theory and Applications
STAT 6225	Longitudinal Data Analysis
STAT 6231	Categorical Data Analysis
STAT 6240	Statistical Data Mining
STAT 6242	Modern Regression Analysis
STAT 6252	Statistical Methods in Bioinformatics and Computational Biology
STAT 6254	Statistical Genetics
STAT 6287	Sample Surveys
STAT 6289	Topics in Statistics
STAT 8226	Advanced Biostatistical Methods
STAT 8265	Multivariate Analysis
STAT 8273	Stochastic Processes I
STAT 8281	Advanced Time Series Analysis
STAT 8288	Topics in Sample Surveys

Consulting

PUBH 6883	Biostatistics Consulting Practicum
PUBH 6869	Principles of Biostatistical Consulting

Master's Comprehensive Examination

Students must successfully complete a master's comprehensive examination, a written examination in the field of biostatistics and is based on the material covered in PUBH 6266 or PUBH 8877. The examination is administered by the faculty of the Department of Biostatistics and Bioinformatics in the Milken Institute School of Public Health.

Visit the program website (<https://publichealth.gwu.edu/programs/biostatistics-ms/>) for additional information.

CHEMISTRY

Part of the Columbian College of Arts and Sciences, the Department of Chemistry has a history that traces back to the very founding of the University. Bridging the sciences of biology, geology, and physics, chemistry is the central science that studies the composition, structure, properties, and behavior of matter at a molecular level. Students and faculty engage in a collaborative setting to address research problems of contemporary importance, focusing on biomolecular chemistry, energy and the environment, and materials chemistry.

Visit the Department of Chemistry website (<https://chemistry.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in chemistry (p. 173)
- Bachelor of Science with a major in chemistry (p. 174)

Combined programs

- Dual Bachelor of Science with a major in chemistry/Master of Forensic Sciences with a concentration in forensic chemistry (p. 173)
- Dual Bachelor of Science with a major in chemistry/Master of Science in the field of environmental and green chemistry (p. 181)

Minor

- Minor in chemistry (p. 183)

GRADUATE

Master's programs

- Master of Science in the field of chemistry (p. 181)
- Master of Science in the field of environmental and green chemistry (p. 182) (p. 181)

Doctoral program

- Doctor of Philosophy in the field of chemistry (p. 180)

FACULTY

Professors C.L. Cahill (*Chair*), C.S. Dowd, S. Licht, J.H. Miller, M. Schofield (*Research*), A. Vertes

Professor Emeritus M. King

Associate Professors S. Boyes, M.A. Massiah, V. Sadtschenko, A.M. Voutchkova, M.J. Wagner, M.G. Zysmilich (*Deputy Chair*)

Assistant Professors C. Besson, G. Clements (*Teaching*), L. Hao, J. Kostal, L.M. McClary, J. Meisel, E. Rodriguez,

Visiting Assistant Professor T. Razunguzwa

Professorial Lecturers E. Libelo

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CHEM 1000. Dean's Seminar. 3 Credits.

Contemporary topics in chemistry.

CHEM 1003. Contemporary Science for Nonscience Majors. 3 Credits.

Contemporary topics in physical, biological, and medical science. CHEM 1003 is not a prerequisite to CHEM 1004. Laboratory fee.

CHEM 1004. Contemporary Science for Nonscience Majors. 3 Credits.

Continuation of CHEM 1003. Contemporary topics in physical, biological, and medical science. CHEM 1003 is not a prerequisite to CHEM 1004. Laboratory fee.

CHEM 1099. Variable Topics. 1-36 Credits.**CHEM 1110. Fundamentals of Chemistry. 2 Credits.**

Central concepts of chemistry including the metric system, unit conversions, classification of matter, periodicity, atomic structure, chemical bonding, chemical reactions, stoichiometry, and chemical equilibrium. Emphasis on mathematical and analytical skills required for effective problem solving. Restricted to students who successfully completed high school algebra prior to matriculation and have completed the ALEKS chemistry preparatory course at GW without achieving at least 95 percent mastery.

CHEM 1111. General Chemistry I. 4 Credits.

Atomic structure and properties; stoichiometry; gas, liquid, and solid state; chemical bonding; solutions; chemical kinetics and equilibria; thermodynamics; acids and bases; electrochemistry; descriptive chemistry. Restricted to students who have successfully completed high school algebra prior to matriculation and have completed the ALEKS chemistry preparatory course at GW and achieved at least 95 percent mastery.

CHEM 1112. General Chemistry II. 4 Credits.

Continuation of CHEM 1111. Atomic structure and properties; stoichiometry; gas, liquid, and solid state; chemical bonding; solutions; chemical kinetics and equilibria; thermodynamics; acids and bases; electrochemistry; descriptive chemistry. Laboratory fee. Prerequisite: CHEM 1111.

CHEM 1113. General Chemistry for Engineers. 4 Credits.

Basic quantitative chemistry concepts, atomic and molecular structure, chemical kinetics, chemical equilibrium, acid-base chemistry, electrochemistry, thermodynamics and nuclear chemistry. Restricted to Students in applied science and technology, biomedical engineering, environmental engineering, or pre-med track should take CHEM 1111 and CHEM 1112 in lieu of this course. Recommended background: High-school algebra and at least 95 percent (learned and mastered) in the department's ALEKS chemistry prep course.

CHEM 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

CHEM 2010. History of Chemistry. 2,3 Credits.**CHEM 2085. Environmental Chemistry. 3 Credits.**

Chemistry and physics of the environment, with emphasis on water and air pollution; environmental analysis and modeling and their limitations.

CHEM 2118W. Practicing Science Communications. 3 Credits.

Development of science communications methods through frequent practice with instructor and peer feedback: presentations, video, policy briefings, editorial, and short review articles. Tips for different audience types, from experts to public. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

CHEM 2122. Introductory Quantitative Analysis. 3 Credits.

Theory and practice of quantitative analysis by modern methods; evaluation of analytical data emphasizing detection and correction of experimental errors. CHEM 2123 may be taken as a corequisite. Prerequisite: CHEM 1112.

CHEM 2123. Introductory Quantitative Analysis Laboratory. 1 Credit.

Laboratory complement to CHEM 2122. Laboratory fee. CHEM 2122 may be taken as a corequisite. Prerequisite: CHEM 2122.

CHEM 2123W. Introductory Quantitative Analysis Laboratory. 1 Credit.

Laboratory complement to CHEM 2122. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. CHEM 2122 may be taken as a corequisite. Prerequisite: CHEM 2122.

CHEM 2151. Organic Chemistry I. 3 Credits.

Systematic treatment of the structure, preparation, properties, and reactions of the principal classes of organic compounds. Fundamental principles of stereochemistry, reaction mechanisms, and spectroscopic methods of analysis. Prerequisite: CHEM 1112.

CHEM 2152. Organic Chemistry II. 3 Credits.

Continuation of CHEM 2151. Systematic treatment of the structure, preparation, properties, and reactions of the principal classes of organic compounds. Fundamental principles of stereochemistry, reaction mechanisms, and spectroscopic methods of analysis. Prerequisite: CHEM 2151.

CHEM 2153. Organic Chemistry Laboratory I. 1 Credit.

Laboratory component of CHEM 2151. Introduction to and practice in basic skills of synthesis, separation, purification, and identification of organic compounds. CHEM 2151 may be taken as a corequisite. Laboratory fee. Prerequisite: CHEM 2151.

CHEM 2154. Organic Chemistry Laboratory II. 1 Credit.

Continuation of CHEM 2153. Laboratory component of CHEM 2152. Introduction to and practice in basic skills of synthesis, separation, purification, and identification of organic compounds. CHEM 2152 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 2152 and CHEM 2153.

CHEM 3099. Variable Topics. 1-12 Credits.

CHEM 3140. Geochemistry. 3 Credits.

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Prerequisites: GEOL 1001 or GEOL 1005; and CHEM 1111 and CHEM 1112. Same As: GEOL 3140.

CHEM 3165. Biochemistry I. 3 Credits.

Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Credit toward the degree cannot be earned for both CHEM 3165 and BIOC 3261 or BISC 3261. Prerequisites: CHEM 2151 and CHEM 2152. Same As: BISC 3165. Credit cannot be earned for this course and BIOC 3261, BISC 3261.

CHEM 3166. Biochemistry II. 3 Credits.

Continuation of CHEM 3165. Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Credit toward the degree cannot be earned for both CHEM 3166 and BIOC 3263/BISC 3263. Prerequisite: CHEM 3165.

CHEM 3166W. Biochemistry II. 3 Credits.

Continuation of CHEM 3165. Introduction to the chemistry of living cells; structure and function of proteins, lipids, carbohydrates, and nucleic acids; enzyme structure, mechanism, and regulation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit toward the degree cannot be earned for both CHEM 3166W and BIOC 3263/BISC 3263. Prerequisite: CHEM 3165.

CHEM 3170. Introduction to Physical Chemistry. 3 Credits.

Thermodynamics, chemical and physical equilibria, kinetics, and spectroscopy. Examples taken from biological systems. May not be taken for credit by students who have received credit for CHEM 3171 and CHEM 3172 or an equivalent course. Restricted to non-chemistry majors. Prerequisites: CHEM 1111 and CHEM 1112; and MATH 1231; and PHYS 1012 or PHYS 1022 or PHYS 1026; or permission of the instructor. Credit cannot be earned for this course and CHEM 3171, CHEM 3172.

CHEM 3171. Physical Chemistry I. 3 Credits.

Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Prerequisites: CHEM 1112, MATH 1231 and PHYS 1022; or permission of the instructor.

CHEM 3172. Physical Chemistry II. 3 Credits.

Continuation of CHEM 3171. Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Prerequisite: CHEM 3171.

CHEM 3173. Physical Chemistry Laboratory. 2 Credits.

Laboratory complement to CHEM 3171 and CHEM 3172. Exploration of molecular structure and bonding as revealed through observation. CHEM 2123 and CHEM 3171 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 2123 and CHEM 3171.

CHEM 3262. Biochemistry Laboratory. 2 Credits.

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Same as BIOC 3261/ BISC 3261. Prerequisite: CHEM 3165 or BIOC 3261/ BISC 3261. Laboratory fee.

CHEM 3263W. Special Topics in Biochemistry. 2 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

CHEM 3564. Lipid Biotechnology. 2 Credits.

Study of common experimental techniques used in life science laboratories to separate and characterize biological macromolecules. Laboratory fee. Prerequisites: BIOC 3261 or BISC 3261 or CHEM 3165. (Same as BIOC 3564).

CHEM 4113. Chemical Instrumentation. 3 Credits.

Electronic analog measurements and control of electrical quantities in chemical instrumentation; digital and analog data conversion and optimization of electronic measurements in chemical instrumentation; computer interfacing and programming using PC-based systems. Prerequisite: CHEM 3172 and CHEM 4122. Laboratory fee.

CHEM 4122. Instrumental Analytical Chemistry. 3 Credits.

Theory of instrumental methods in qualitative and quantitative analysis, determination of structure, with emphasis on atomic and molecular spectrophotometry, infrared spectroscopy, nuclear magnetic resonance, mass spectrometry, chromatography, and electroanalysis. Corequisite: CHEM 4123. CHEM 3171 may be taken as a corequisite. Prerequisites: CHEM 3171 or permission of the instructor.

CHEM 4123. Instrumental Analytical Chemistry Laboratory. 2 Credits.

Laboratory complement to CHEM 4122. CHEM 3171 and CHEM 4122 may be taken as a corequisite. Laboratory fee. Prerequisites: CHEM 3171 and CHEM 4122.

CHEM 4134. Inorganic Chemistry. 3 Credits.

Periodic trends and structure and reactivity of transitional metal complexes. Prerequisite: CHEM 2122.

CHEM 4195. Undergraduate Research. 1-3 Credits.

Research on problems approved by the staff. Approval must be obtained prior to registration. A final written report on the work is required. For students requesting Special Honors in chemistry, a poster or oral presentation is also required. May be repeated for credit. Majors are encouraged to take the course for two semesters. Laboratory fee.

CHEM 4195W. Undergraduate Research. 1-3 Credits.

Research on problems approved by the staff. Approval must be obtained prior to registration. A final written report on the work is required. For students requesting Special Honors in chemistry, a poster or oral presentation is also required. May be repeated for credit. Majors are encouraged to take the course for two semesters. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee.

CHEM 5099. Variable Topics. 1-99 Credits.**CHEM 6221. Spectrochemical Analysis. 3 Credits.**

Theory and application of recent spectrometric methods of analysis, including advances in optimization techniques, optical instrumentation, atomic spectrometry, laser-based analytical techniques, X-ray methods, and surface analysis techniques. Prerequisite: CHEM 4122.

CHEM 6222. Biomedical Mass Spectrometry. 3 Credits.

Principles, instrumentation, methods, and applications of mass spectrometry; selected state-of-the-art methods demonstrate basic principles to show how new methods of analysis are developed; typical applications highlight solutions of biomedical problems, including proteomics and metabolomics. Prerequisite: CHEM 4122.

CHEM 6233. Organometallic Chemistry and Catalysis. 3 Credits.

Transition metal organometallic chemistry, including structure and bonding, ligands, their reactivity and application to catalysis. Students design and synthesize organometallic complexes applicable to organic synthesis and industrial catalysis and evaluate improvement in efficiency and environmental impact. Prerequisites: CHEM 2151, CHEM 2152 and CHEM 4134. Recommended background: prior completion of college-level organic and inorganic chemistry.

CHEM 6235. Advanced Inorganic Chemistry I. 3 Credits.

Application of modern chemical theories to inorganic substances and reactions; detailed study, developed from the periodic table, of the chemistry of the more common elements; electronic spectra and reaction mechanisms of complexes; organometallic chemistry; homogeneous and heterogeneous catalysis; bioinorganic chemistry. Prerequisites: CHEM 3172 and CHEM 4134.

CHEM 6236. Advanced Inorganic Chemistry II. 3 Credits.

Continuation of CHEM 6235. Application of modern chemical theories to inorganic substances and reactions; detailed study, developed from the periodic table, of the chemistry of the more common elements; electronic spectra and reaction mechanisms of complexes; organometallic chemistry; homogeneous and heterogeneous catalysis; bioinorganic chemistry. Prerequisites: CHEM 3172 and CHEM 4134.

CHEM 6238. Chemistry of Inorganic Materials. 3 Credits.

Synthesis, structure, and properties of materials such as ceramics, superconductors, ionic conductors, nanomaterials, and magnetic, optical, and electronic materials. Emphasis on traditional and low-temperature routes. Prerequisites: CHEM 3171 and CHEM 3172.

CHEM 6251. Advanced Organic Chemistry I. 3 Credits.

Synthesis, reactions, and properties of organic compounds; fundamental theories of organic chemistry, emphasis on reaction mechanisms. Prerequisite: CHEM 2152.

CHEM 6252. Advanced Organic Chemistry II. 3 Credits.

Continuation of CHEM 6251. Synthesis, reactions, and properties of organic compounds; fundamental theories of organic chemistry, emphasis on reaction mechanisms. Prerequisite: CHEM 6251.

CHEM 6256. Medicinal Chemistry. 3 Credits.

Introduction to topics in drug design and discovery. Fundamental mechanisms of drug action, and techniques of drug design and drug development. Prerequisites: CHEM 2151 and CHEM 2152.

CHEM 6257. Physical-Organic Chemistry. 3 Credits.

The transition state theory of chemical kinetics, applications to reaction mechanisms; kinetic isotope effects, linear-free energy relationships, concentrated and "super" acids, Woodward-Hoffman rules, free radical reactions. Prerequisites: CHEM 6251 or permission of the instructor.

CHEM 6259. Polymer Chemistry. 3 Credits.

A study of the preparation, properties, and structure of macromolecules. Prerequisites: CHEM 2152 and CHEM 3170; or CHEM 3171; or permission of the instructor.

CHEM 6273. Chemical Thermodynamics. 3 Credits.

Application of thermodynamics to chemical problems. Emphasis on statistical calculation of thermodynamic properties. Prerequisite: CHEM 3172 or CHEM 6372.

CHEM 6277. Chemical Bonding. 3 Credits.

Quantum mechanics, approximate methods, electron spin, Pauli principle, atomic and molecular structure. Prerequisite: CHEM 3172 or CHEM 6372.

CHEM 6278. Molecular Spectroscopy. 3 Credits.

Applications of quantum mechanics and group theory to the interpretation of electronic, vibrational, rotational, and magnetic resonance spectroscopy. Prerequisite: CHEM 6277.

CHEM 6280. Energy and the Environment. 3 Credits.

Fundamentals of energy conversion in thermomechanical, thermochemical, electrochemical, and photoelectric processes in existing and future power and transportation systems, with emphasis on efficiency, environmental impact, and performance.

CHEM 6281. Environmental Chemistry: Air, Water, and Soil. 3 Credits.

Survey of the behavior, movement and impact of natural and man-made chemicals in all layers of the environment in the context of the atmosphere, hydrosphere, and lithosphere; the effects of acid rain, sewage treatment, ozone destruction, anthropogenic climate change, air pollution, and eutrophication.

CHEM 6282. Green Industrial Chemistry. 3 Credits.

Introduction to the basic design principles for greener chemical technologies; widely used practices, including catalysis, use of renewable starting materials, minimization of energy inputs, and use of greener solvents.

CHEM 6283. Chemical Toxicology and Rational Design of Safer Chemicals. 3 Credits.

Introduction to the basic tools and paradigms of toxicology in the context of chemical design for minimizing potential toxicity of commercial chemicals; computational methods for prediction of bioavailability, reactivity, bioaccumulation and different types of toxicity; application of in silico methods to the rational re-design of functional and safer chemicals.

CHEM 6284. Environmental Analytical Chemistry. 3 Credits.

Advanced analytical methodology for environmental assessment; analytical instrumentation, techniques for remote measurements, determination of trace atmospheric constituents of anthropogenic and natural origin, measurement uncertainty analysis, detection and identification of organic and inorganic pollutants in air, water, soil and biota, and the determination of heavy metals and radionuclides in the environment.

CHEM 6298. Capstone Seminar in Environmental and Green Chemistry. 3 Credits.

Group projects carried out with an external partner or client—such as a government agency, nonprofit group, or chemistry laboratory research project—that identify and solve real world scientific problems related to environmental and green chemistry.

CHEM 6314. Fundamental-Computational Chemistry. 3 Credits.

CHEM 6315. Computational Chem-Biomolecule. 3 Credits.

CHEM 6318. Science Communications in Practice. 3 Credits.

Communicating science beyond one's immediate peers can prove challenging. This course will provide examples and plenty of opportunities for students to develop (science) communications skills, including presenting to non-scientist audiences.

CHEM 6320. Selected Topics in Analytical Chemistry. 1-3 Credits.

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of analytical chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

CHEM 6330. Selected Topics in Inorganic Chemistry. 1-3 Credits.

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of inorganic chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

CHEM 6350. Selected Topics in Organic Chemistry. 1-3 Credits.

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field in organic chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

CHEM 6358. Synthesis and Structure Determination in Organic Chemistry. 3 Credits.

The design of syntheses for complex organic molecules; survey of modern synthetic methods, including asymmetric induction; spectroscopic methods of structure determination. Prerequisites: CHEM 6251 or permission of the instructor.

CHEM 6370. Selected Topics in Physical Chemistry. 1-3 Credits.

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field of physical chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

CHEM 6371. Physical Chemistry I. 1-3 Credits.

Gas laws, chemical thermodynamics, chemical equilibrium, kinetics, quantum chemistry, atomic and molecular spectra, structure of solids, liquids, and macromolecules. Students enrolled at the graduate level are expected to do additional work. Permission of the department required prior to enrollment.

CHEM 6372. Physical Chemistry II. 1-3 Credits.

Continuation of CHEM 6371. Basic concepts of quantum chemistry and molecular spectroscopy; application of modern physical chemistry theory to exploration of a wide range of physical properties for open and closed chemical systems in the gas and condensed phases. Restricted to students with permission of the department. Prerequisite: CHEM 6371. Same As: CHEM 3172.

CHEM 6390. Selected Topics in Chemistry. 3 Credits.

Advanced topics offered in a modular format to allow an in-depth examination of a self-selected field in chemistry. One to three topics may be chosen for a given semester. May be repeated for credit.

CHEM 6395. Research. 1-12 Credits.

Limited to master's degree candidates. Survey of a topic approved by departmental staff and resulting in a written report and presentation of a seminar. Open to qualified students with advanced training. May be repeated for credit.

CHEM 6998. Thesis Research. 1-9 Credits.

Limited to students in the master's degree program.

CHEM 6999. Thesis Research. 3 Credits.

Limited to students in the Master's Degree program.

CHEM 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

CHEM 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY/ MASTER OF FORENSIC SCIENCES WITH A CONCENTRATION IN FORENSIC CHEMISTRY

The Department of Chemistry offers a dual bachelor of science with a major in chemistry (p. 174) and master of forensic sciences with a concentration in forensic chemistry (p. 275) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<http://chemistry.columbian.gwu.edu/bs-chemistrymfs-concentration-forensic-chemistry/>) for additional information.

BACHELOR OF ARTS WITH A MAJOR IN CHEMISTRY

REQUIREMENTS

The Department of Chemistry offers the bachelor of arts degree, which is designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical. It should meet the needs of students preparing to enter the fields of medicine, law, dentistry, and business, among others.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum, below:

Code	Title	Credits
Prerequisite courses for the bachelor of arts degree:		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	

MATH 1231	Single-Variable Calculus I *
MATH 1232	Single-Variable Calculus II
PHYS 1021 & PHYS 1022	University Physics I and University Physics II
or PHYS 1025	University Physics I with Biological Applications

*Or MATH 1220 (<http://bulletin.gwu.edu/search/?P=MATH%201220>) Calculus with Precalculus I and MATH 1221 (<http://bulletin.gwu.edu/search/?P=MATH%201221>) Calculus with Precalculus II

Code	Title	Credits
Required courses:		
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II	
CHEM 3173	Physical Chemistry Laboratory	
CHEM 3165	Biochemistry I	
CHEM 4122	Instrumental Analytical Chemistry	
CHEM 4134	Inorganic Chemistry	

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

First Year

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
MATH 1231*	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II

Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151 CHEM 2153	Organic Chemistry I Organic Chemistry Laboratory I
CHEM 2152 CHEM 2154	Organic Chemistry II Organic Chemistry Laboratory II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II

MATH 1232 (if not taken in the first year) Single-Variable Calculus II

Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171	Physical Chemistry I
CHEM 3172	Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory

Fourth Year

CHEM 3165 (if not taken in the junior year)	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

* Or MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in chemistry must maintain a cumulative 3.0 grade-point average in chemistry courses and take CHEM 4195 Undergraduate Research or CHEM 4195W Undergraduate Research for at least 3 credits over two semesters. In addition to the final report for CHEM 4195 or CHEM 4195W, a poster or oral presentation is required.

BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY

OPTION 1

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

Option 1 provides considerable concentration in chemistry while permitting a wider selection of electives. It should meet the needs of students preparing to enter the fields of medicine, law, dentistry, and business, among others.

The following requirements must be fulfilled: The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
------	-------	---------

Prerequisite courses for the bachelor of science degree:

CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231 or MATH 1220 & MATH 1221	Single-Variable Calculus I Calculus with Precalculus I and Calculus with Precalculus II	
MATH 1232	Single-Variable Calculus II	
PHYS 1021 or PHYS 1025	University Physics I University Physics I with Biological Applications	
PHYS 1022 or PHYS 1026	University Physics II University Physics II with Biological Applications	
Two additional semesters of approved coursework in the natural sciences or mathematics, such as one of the following:		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
GEOL 1001 or GEOL 1005	Physical Geology * Environmental Geology	
GEOL 1002	Historical Geology	

*Credit toward the degree cannot be earned for both
GEOL 1001 and GEOL 1005.

Code	Title	Credits
------	-------	---------

Required courses:

CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I	
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II	
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II	

CHEM 3173	Physical Chemistry Laboratory
-----------	-------------------------------

CHEM 3165	Biochemistry I
-----------	----------------

CHEM 4122	Instrumental Analytical Chemistry
-----------	-----------------------------------

CHEM 4134	Inorganic Chemistry
-----------	---------------------

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

First Year

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
MATH 1231*	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II

Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151	Organic Chemistry I
CHEM 2153	Organic Chemistry Laboratory I
CHEM 2152	Organic Chemistry II
CHEM 2154	Organic Chemistry Laboratory II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171	Physical Chemistry I
CHEM 3172	Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory

Fourth Year

CHEM 3165 (if not taken in the junior year)	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

* Or MATH 1220 Calculus with Precalculus I and MATH 1221
Calculus with Precalculus II

OPTION 2

The Department of Chemistry offers four options for bachelor
of science degree, all designed to give students a broad

background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

Option 2 is for students preparing for graduate study in chemistry or those planning to enter the chemical profession and wishing to be certified by the American Chemical Society as having met the minimum requirements for professional training.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
Prerequisite courses for the bachelor of science degree:		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231	Single-Variable Calculus I	
or MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II	
MATH 1232	Single-Variable Calculus II	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1026	University Physics II with Biological Applications	
Two additional semesters of approved coursework in the natural sciences or mathematics, such as one of the following:		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
GEOL 1001	Physical Geology *	
or GEOL 1005	Environmental Geology	
GEOL 1002	Historical Geology	

*Credit toward the degree cannot be earned for both GEOL 1001 and GEOL 1005.

Code	Title	Credits
------	-------	---------

Required courses:

CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II
CHEM 3171 & CHEM 3172	Physical Chemistry I and Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory
CHEM 3165	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134	Inorganic Chemistry
CHEM 4195	Undergraduate Research (Research for credit, either CHEM 4195 or CHEM 4195W, may begin as early as second year)
or CHEM 4195W	Undergraduate Research

A course in a structured computer programming language is recommended

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

First Year

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
MATH 1231 *	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II

Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151	Organic Chemistry I
CHEM 2153	Organic Chemistry Laboratory I
CHEM 2152	Organic Chemistry II
CHEM 2154	Organic Chemistry Laboratory II
PHYS 1021 or 1025	University Physics I
PHYS 1022 or 1026	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171	Physical Chemistry I
CHEM 3172	Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory

Fourth Year

CHEM 3165	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry

* Or MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II.

Students are encouraged to consider 6000-level CHEM courses in consultation with their advisor.

OPTION 3

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

Option 3 prepares students to meet the needs of federal and state forensic sciences laboratories.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
Prerequisite courses		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
CHEM 2122 & CHEM 2123W	Introductory Quantitative Analysis and Introductory Quantitative Analysis Laboratory	
MATH 1231	Single-Variable Calculus I	
or MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II	
MATH 1232	Single-Variable Calculus II	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	

PHYS 1022	University Physics II
or PHYS 1026	University Physics II with Biological Applications

Code	Title	Credits
Required courses		

CHEM 2151 & CHEM 2153 Organic Chemistry I and Organic Chemistry Laboratory I

CHEM 2152 & CHEM 2154 Organic Chemistry II and Organic Chemistry Laboratory II

CHEM 3171 & CHEM 3172 Physical Chemistry I and Physical Chemistry II

CHEM 3173 Physical Chemistry Laboratory

CHEM 3165 Biochemistry I

CHEM 4122 Instrumental Analytical Chemistry

CHEM 4134 Inorganic Chemistry

BISC 1111 Introductory Biology: Cells and Molecules ‡

BISC 1112 Introductory Biology: The Biology of Organisms

Choose any four 6000-level FORS courses in consultation with a Forensic Sciences advisor. Students may begin taking certain FORS courses after completion of CHEM 2152.

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

First Year

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
MATH 1231*	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
BISC 1111 (May be taken in second year instead)	Introductory Biology: Cells and Molecules
BISC 1112 (May be taken in second year instead)	Introductory Biology: The Biology of Organisms

Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151	Organic Chemistry I
CHEM 2153	Organic Chemistry Laboratory I
CHEM 2152	Organic Chemistry II

CHEM 2154	Organic Chemistry Laboratory II
PHYS 1021 or 1025 (May be taken in first year instead)	University Physics I
PHYS 1022 or 1026 (May be taken in first year instead)	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

Third Year

CHEM 2123	Introductory Quantitative Analysis Laboratory
CHEM 3171	Physical Chemistry I
CHEM 3172	Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory

Fourth Year

CHEM 3165	Biochemistry I
CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory

CHEM 4134 (if not taken in the junior year) Inorganic Chemistry

* Or MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II

OPTION 4

The Department of Chemistry offers four options for bachelor of science degree, all designed to give students a broad background in the basic divisions of chemistry: analytical, biochemistry, inorganic, organic, and physical.

Option 4 includes additional courses in biochemistry and fulfills the American Chemical Society requirement for a certified degree program in chemistry with a biochemistry option.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the required curriculum.

Code	Title	Credits
Prerequisite courses for the bachelor of science degree:		
BISC 1111	Introductory Biology: Cells and Molecules ‡	
BISC 1112	Introductory Biology: The Biology of Organisms	
CHEM 1111	General Chemistry I

CHEM 4195	Undergraduate Research (Research for credit, either CHEM 4195 or CHEM 4195W, may begin as early as second year)
-----------	---

or CHEM 4195W Undergraduate Research

The following are recommended:

BISC 2202	Cell Biology
-----------	--------------

BISC 2207	Genetics
BISC 2322	Human Physiology

Suggested Program of Study:

Students should follow this sequence in general and are urged to consult with the chemistry and premedical advisors concerning their academic program.

First Year

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
MATH 1231*	Single-Variable Calculus I
MATH 1232	Single-Variable Calculus II
BISC 1111 (May be taken in second year instead)	Introductory Biology: Cells and Molecules
BISC 1112 (May be taken in second year instead)	Introductory Biology: The Biology of Organisms

Second Year

CHEM 2122	Introductory Quantitative Analysis
CHEM 2151	Organic Chemistry I
CHEM 2153	Organic Chemistry Laboratory I
CHEM 2152	Organic Chemistry II
CHEM 2154	Organic Chemistry Laboratory II
PHYS 1021 or 1025 (May be taken in first year instead)	University Physics I
PHYS 1022 or 1026 (May be taken in first year instead)	University Physics II
MATH 1232 (if not taken in the first year)	Single-Variable Calculus II

Third Year

CHEM 2123W	Introductory Quantitative Analysis Laboratory
CHEM 3171	Physical Chemistry I
CHEM 3172	Physical Chemistry II
CHEM 3173	Physical Chemistry Laboratory
CHEM 3165	Biochemistry I
CHEM 3166W	Biochemistry II

Fourth Year

CHEM 4122	Instrumental Analytical Chemistry
CHEM 4123	Instrumental Analytical Chemistry Laboratory
CHEM 4134 (if not taken in the junior year)	Inorganic Chemistry
CHEM 3262	Biochemistry Laboratory

* Or MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II

Students are encouraged to consider 6000-level CHEM courses in consultation with their advisor.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement.
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, a candidate for graduation with Special Honors in chemistry must maintain a cumulative 3.0 grade-point average in chemistry courses and take CHEM 4195 or CHEM 4195W for at least 3 credits over two semesters. In addition to the final report required for CHEM 4195 or CHEM 4195W, a poster or oral presentation is required.

DOCTOR OF PHILOSOPHY IN THE FIELD OF CHEMISTRY

Housed in the Columbian College of Arts and Sciences, GW's chemistry program fosters active learning through a research-based curriculum.

Beginning with advanced coursework and training in the discipline as a whole and one or more selected subdisciplines, our award-winning graduate students engage in cutting-edge research alongside expert faculty. Research areas include proteomics, and bioanalytical methods development, synthetic medicinal chemistry and drug design, combustion, battery chemistry and renewable energy sources, laser and molecular spectroscopies, nano- and biomaterials, modeling, coordination chemistry and novel inorganic framework structures.

The PhD program is designed to develop students who are able to plan and carry out original research in analytical, biochemical, inorganic, materials and organic or physical chemistry. Studies begin with core courses in focus areas, with students quickly moving on to join research groups that match their interests. Opportunities abound for research presentations, publications and award achievement. Collaborations with colleagues in medicine, engineering and nearby federal research laboratories—including the National Institutes of Health, Naval Research Laboratory and the National

Institute of Standards and Technology—provide rich research experiences.

The PhD program is a designated STEM program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits in a program of study developed in consultation with the doctoral committee.

Students develop their program of studies in consultation with their doctoral committee, subject to the approval of the department's Graduate Affairs Committee. The program of studies must include coursework in a minimum of five graduate-level courses; at least three of the courses must be core courses as defined in the department's Guide for Graduate Students; at least three must be offered by the Chemistry Department. These course requirements cannot be fulfilled by achievement on placement exams. At least two graduate-level courses must be taken outside the student's subdiscipline and in at least two other subdisciplines/disciplines. Equivalent courses offered by another university may be substituted at the discretion of the Graduate Affairs Committee. Students must pass a cumulative examination system and an oral defense of the doctoral research plan.

Research fields

- Analytical chemistry—analytical neuroscience, analytical spectroscopy, biomedical analysis, chemical imaging, chemical instrumentation, chemical separations, electrochemical analysis, electrospray ionization, lab-on-a-chip devices, high-performance liquid chromatography (LC), laser-material interactions, mass spectrometry, nanophotonic structures, nmr spectroscopy, post-translational modifications, proteomics and metabolomics, single cell analysis;
- Biochemistry—biological sensing via nanoparticles, biomaterials, biomolecular analysis, biophysical topics, enzymology, lipids chemistry, proteomics and metabolomics, enzyme expression and inhibition, structural biology;
- Inorganic (materials) chemistry—battery chemistry, coordination chemistry, f-element chemistry, green chemistry, hydrothermal chemistry, mineral surface geochemistry, magnetochemistry, molecular spintronics, nanoscale and nanostructured materials, organometallic chemistry, small-molecule crystallography, solid-state materials;
- Organic chemistry—biomaterials and lipids, catalysis, computational docking and ligand design, green chemistry,

heterocyclic chemistry, molecules of biological interest, synthesis;

- Physical chemistry—CO₂ removal, combustion chemistry, elemental and molecular spectroscopies, fuel cells, laser analytics, renewable energy conversion, solar chemical syntheses, surface chemistry, theoretical chemistry, thermochemical energy cycles.

PhD students in chemistry may substitute up to 12 hours of Dissertation Research in the form of coursework jointly approved by the Chemistry Department and the Forensic Sciences Department, the Environmental Resource Policy Program, or the International Science and Technology Policy program. The 12 hours may be selected from specified courses offered by Forensic Sciences, Information Systems and Technology Management, Political Science, Public Policy and Public Administration, and the Elliott School of International Affairs.

Note: All entering students in graduate chemistry programs are required to take the American Chemical Society Graduate Level Placement Examinations, given by the Department of Chemistry, prior to matriculation. The four placement examinations (in the disciplines of analytical, organic, inorganic, and physical chemistry) are designed to cover the subject matter in the disciplines generally taught in undergraduate programs preparatory for graduate work in chemistry, and the results are used by the department to advise the individual student in planning a program of courses appropriate to the student's background. All graduate students are required to participate in the seminar and colloquium programs. Upon consultation with course instructors, specific course prerequisites may be waived.

With permission, a limited number of upper-level undergraduate courses in the department may be taken for graduate credit; additional coursework is required. See the Undergraduate programs for course listings.

Visit the program website (<https://chemistry.columbian.gwu.edu/phd-chemistry/>) for additional information.

DUAL BACHELOR OF SCIENCE WITH A MAJOR IN CHEMISTRY AND MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

The Department of Chemistry offers a dual bachelor of science with a major in chemistry (p. 173) and master of science in the field of environmental and green chemistry (p. 182) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the

master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should consult the Department of Chemistry in their sophomore year. Visit the program website (<https://chemistry.columbian.gwu.edu/ms-environmental-and-green-chemistry/>) for additional information.

MASTER OF SCIENCE IN THE FIELD OF CHEMISTRY

GW's graduate chemistry program fosters active learning through a research-based curriculum. Beginning with advanced coursework and training in the discipline as a whole and one or more selected subdisciplines, our award-winning graduate students engage in cutting-edge research alongside expert faculty. Research areas include proteomics, and bioanalytical methods development, synthetic medicinal chemistry and drug design, combustion, battery chemistry and renewable energy sources, laser and molecular spectroscopies, nano- and biomaterials, modeling, coordination chemistry and novel inorganic framework structures.

The MS program offers thesis and non-thesis tracks to prepare individuals for distinctive career or professional paths. All students take core courses and comprehensive examinations in the fields of analytical, inorganic, organic and physical chemistry.

The MS is a STEM designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

Thesis option—30 credits of approved courses are required, including CHEM 6998 Thesis Research—CHEM 6999 Thesis Research, which may be in analytical, inorganic, organic, or physical chemistry.

Nonthesis option—36 credits of approved courses are required, including CHEM 6395 Research. Up to 9 credits in other departments related to the student's area of interest (e.g., Forensic Sciences) may be included in the program, subject to the approval of the Department of Chemistry. Students who are or will be employed in organizations dealing with science and technology policy programs may select from specified courses offered by Information Systems and Technology Management, Political Science, Public Policy and Public Administration, and the Elliott School of International Affairs.

Coursework must include a minimum of five graduate-level courses; at least four of these courses must be core courses as defined in the department's Guide for Graduate Students; at

least three must be offered by the Department of Chemistry. At least two graduate-level courses must be taken outside of the student's subdiscipline and in at least two other subdisciplines/disciplines. Candidates are required to pass a master's comprehensive examination as described in the department's Guide for Graduate Students.

Note: All entering students in graduate chemistry programs are required to take the American Chemical Society graduate level placement examinations, given by the Department of Chemistry, prior to matriculation. The four placement examinations (in the disciplines of analytical, organic, inorganic, and physical chemistry) are designed to cover the subject matter in the disciplines generally taught in undergraduate programs preparatory for graduate work in chemistry, and the results are used by the department to advise the individual student in planning a program of courses appropriate to the student's background. All graduate students are required to participate in the seminar and colloquium programs. Upon consultation with course instructors, specific course prerequisites may be waived.

Visit the program website (<https://chemistry.columbian.gwu.edu/ms-chemistry/>) for additional information.

MASTER OF SCIENCE IN THE FIELD OF ENVIRONMENTAL AND GREEN CHEMISTRY

Growing public awareness about the state of the environment, chemical product safety, and new chemical regulatory policies is driving demand for leaders who are able to understand the science underlying environmental challenges and thus develop innovative solutions. The Master of Science in Environmental and Green Chemistry, offered through GW's Department of Chemistry, develops the experts needed with an interdisciplinary curriculum that fosters proficiency in evaluating the state of the environment and designing greener technologies.

Unlike many existing graduate programs in environmental chemistry, this unique 30-credit hour program places an emphasis on green chemistry—the design of new chemicals and chemical processes with minimal environmental impact. Students pursue five core focus areas: energy, environmental analytical chemistry, air/water chemistry, green chemical processing, and chemical toxicology. For a broader perspective, the curriculum can be tailored to students' interests, and courses in public health, science policy, and business are encouraged. A capstone project enables students to apply the knowledge gained from other coursework and develop the interpersonal and communication skills needed to collaborate with scientists and laypeople alike.

Being in Washington, D.C. allows for unique opportunities, including proximity to a hotspot for green careers, and

potential capstone partners such as the Environmental Protection Agency, Department of Energy, and Food and Drug Administration. Graduates will find employment as well-rounded chemists in government and the private sector, environmental and sustainability consultants, health professionals, new product developers, engineers, or project managers across industries and business sectors.

This is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

30 credits, including 18 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
CHEM 6280	Energy and the Environment	
CHEM 6281	Environmental Chemistry: Air, Water, and Soil	
CHEM 6282	Green Industrial Chemistry	
CHEM 6283	Chemical Toxicology and Rational Design of Safer Chemicals	
CHEM 6284	Environmental Analytical Chemistry	
CHEM 6298	Capstone Seminar in Environmental and Green Chemistry	
or PPPA 6198	Environmental Resource Policy Capstone	
Electives		
12 credits in elective courses selected from the following*:		
CHEM 6238	Chemistry of Inorganic Materials	
CHEM 6251	Advanced Organic Chemistry I	
CHEM 6257	Physical-Organic Chemistry	
CHEM 6278	Molecular Spectroscopy	
CHEM 6320	Selected Topics in Analytical Chemistry	
CHEM 6350	Selected Topics in Organic Chemistry	
ECON 6237	Economics of the Environment and Natural Resources	

EMSE 6200	Policy Factors in Environmental and Energy Management
ENRP 6101	Environmental Sciences I: Physical Sciences
ENRP 6102	Environmental Sciences II: Life Sciences
IAFF 6141	International Science and Technology Policy Cornerstone
IAFF 6142	Technology Creation/Diffusion
IAFF 6151	Environmental Policy
IAFF 6153	Science, Technology, and National Security
IAFF 6158	Special Topics in International Science and Technology Policy **
PPPA 6066	U.S. Environmental Policy
PUBH 6002	Biostatistical Applications for Public Health
PUBH 6126	Assessment and Control of Environmental Hazards
SMPP 6290	Special Topics **
STAT 6202	Mathematical Statistics II

*Alternate elective courses may be selected subject to the program director's approval.

**Approved topics only. Consult the Schedule of Classes for current semester offerings. Permission of the advisor must be received prior to enrollment.

Visit the program website (<https://chemistry.columbian.gwu.edu/ms-environmental-and-green-chemistry/>) for additional information.

MINOR IN CHEMISTRY REQUIREMENTS

The following requirements must be fulfilled: 22 credits, including 19 credits in required courses and one 3-credit elective course.

Code	Title	Credits
Required		
CHEM 1111	General Chemistry I	
CHEM 1112	General Chemistry II	
CHEM 2122	Introductory Quantitative Analysis	

CHEM 2123 Introductory Quantitative Analysis Laboratory

CHEM 2151 Organic Chemistry I

CHEM 2152 Organic Chemistry II

CHEM 2153 Organic Chemistry Laboratory I

CHEM 2154 Organic Chemistry Laboratory II

One of the following:

CHEM 3170 Introduction to Physical Chemistry

CHEM 3171 Physical Chemistry I

CHEM 3165 Biochemistry I

CHEM 4134 Inorganic Chemistry

Visit the program website (<https://chemistry.columbian.gwu.edu/minor-chemistry-13/>) for additional information.

CLASSICAL ACTING

GW's Department of Classical Acting—part of the Columbian College of Arts and Sciences—works in conjunction with the Shakespeare Theatre Company's Academy for Classical Acting (ACA) to offer the master's of fine arts in the field of classical acting degree program. Students in the program are in class full-time, 40 hours or more per week, for approximately 44 weeks. As actors and acting teachers, graduates help transform the way classical theater is performed on Broadway and in regional theaters around the country.

Visit the Shakespeare Theatre Company Academy for Classical Acting website (<http://aca.shakespearetheatre.org/>) for additional information.

GRADUATE

Master's program

- Master of Fine Arts in the field of classical acting (p. 185)

FACULTY

Director L. Jacobson

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ACA 5099. Variable Topics. 1-99 Credits.

ACA 6201. Acting I. 3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

ACA 6202. Acting II. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

ACA 6203. Acting: Classical Comedy. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

ACA 6204. Acting: Master Class. 2,3 Credits.

The focus of the acting sequence shifts with each session, providing a studio structure to explore and meet the demands of the classical canon. Portions of the sequence focus on the history plays and tragedies, classic comedy, high comedy, the Jacobean, and master classes.

ACA 6205. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

ACA 6206. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

ACA 6207. Topics in Classical Drama and Culture. 2 Credits.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

ACA 6208. Topics in Classical Drama and Culture. 1 Credit.

Plays and other writings from the Elizabethan, Jacobean, and Restoration eras and the eighteenth century. The historical world in which the plays were written as well as the imaginary worlds created in the plays themselves.

ACA 6209. Text I. 2 Credits.

Textual analysis emphasizing development of aesthetic expression. The forms and rules of verse: its meter, scansion, and overall structure in the early, middle, and late Shakespeare plays, as well as the intricacies of the prose.

ACA 6210. Text II. 2 Credits.

Textual analysis emphasizing development of aesthetic expression. The forms and rules of verse: its meter, scansion, and overall structure in the early, middle, and late Shakespeare plays, as well as the intricacies of the prose.

ACA 6211. Voice and Speech I. 3 Credits.

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

ACA 6212. Voice and Speech II. 2,3 Credits.

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

ACA 6213. Voice and Speech III. 3 Credits.

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

ACA 6214. Voice and Speech IV. 2 Credits.

The development of clear, supported speech and sound that can meet the demands and challenges of classical texts. Resonators, articulators, breathing, and placement; phonetics and ear training; defining the character through the voice.

ACA 6215. Movement I. 1,2 Credit.

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

ACA 6216. Movement II. 1,2 Credit.

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

ACA 6217. Movement III. 1,2 Credit.

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

ACA 6218. Movement IV. 1,2 Credit.

The development of an awareness of the body and its expressive abilities through an integrated approach that includes ballet, modern dance, Hatha Yoga, and Feldenkrais for coordination, focus, and expression.

ACA 6219. Alexander Technique I. 1,2 Credit.
Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

ACA 6220. Alexander Technique II. 1,2 Credit.
Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

ACA 6221. Alexander Technique III. 1,2 Credit.
Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

ACA 6222. Alexander Technique IV. 1,2 Credit.
Through group work and individual sessions, students develop a further awareness of the body toward expression of imagination and the creative process, enabling powerful characterization without stress or personal physical distortion.

ACA 6223. Stage Combat I. 2 Credits.
Skills in stage combat techniques, including unarmed combat and broadsword, buckler, rapier, dagger, and other lighter weapons, toward development of greater physical strength and an awareness of safety issues. The course is designed to lead to certification as an actor/combatant through the Society of American Fight Directors.

ACA 6224. Stage Combat II. 2 Credits.
Skills in stage combat techniques, including unarmed combat and broadsword, buckler, rapier, dagger, and other lighter weapons, toward development of greater physical strength and an awareness of safety issues. The course is designed to lead to certification as an actor/combatant through the Society of American Fight Directors.

ACA 6225. Practicum I. 2 Credits.
This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

ACA 6226. Practicum II. 1-6 Credits.
This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

ACA 6227. Practicum III. 1-6 Credits.
This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

ACA 6228. Practicum IV. 1-6 Credits.
This sequence of courses includes scene preparation, rehearsal/production, clown class, and other performance skills.

ACA 6229. Audition Techniques. 3 Credits.
A set of workshops to help students develop strong audition skills. Business aspects of acting, such as selection of agents, Equity status, and taxation issues. The workshop concludes with a showcase performance for casting directors, agents, and theatre directors.

ACA 6595. Selected Topics. 1 Credit.

MASTER OF FINE ARTS IN THE FIELD OF CLASSICAL ACTING

The program features an unprecedented collaboration between two leading D.C. institutions. The Shakespeare Theatre Company brings to the partnership world-class artists/teachers, a comprehensive training program and a distinguished reputation as a nationally and internationally recognized leader in classical repertory, under the guidance of Artistic Director Michael Kahn. GW brings to the partnership its resources and reputation as a major research university, with strong links to the Folger Shakespeare Library and the Library of Congress, as well as shared faculty and space resources.

Located in one of the most vibrant cultural centers in the nation today—considered by many to be the second most important theater center after New York—the Academy for Classical Acting (ACA) is the only Masters of Fine Arts program in the United States dedicated solely to classical acting. Students are in class full-time, 40 hours or more a week, for about 44 weeks. Since 2000, the ACA has been graduating between 12 and 18 students each year who are helping transform the way classical theater is performed on Broadway, in regional theaters and on teaching faculties around the country.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

59 credits in required courses.

CLASSICAL AND NEAR EASTERN LANGUAGES AND CIVILIZATIONS

The Department of Classical and Near Eastern Languages and Civilizations offers undergraduate instruction in Greek, Latin, Hebrew, Arabic, Persian, and Turkish, as well as courses in ancient history and civilizations and the modern Middle East.

The curriculum is designed to strengthen a student's ability to communicate, reason, and understand the social, cultural, and physical environment of the ancient and modern worlds. The department fosters careful and creative thinking in its students, based in the linguistic, cultural, and historical roots of the rich, varied, and strategically important societies of the Mediterranean basin.

Classroom study is supplemented by the diverse resources of Washington, DC, through field trips, foreign films, special lectures, and cultural programs at embassies. Students have opportunities to study abroad, including Greece, Italy, Israel,

and Morocco, and to participate in excavations around the world.

Visit the Department of Classical and Near Eastern Languages and Civilizations website (<https://cnelc.columbian.gwu.edu/>) for additional information.

BACHELOR OF ARTS WITH A MAJOR IN ARABIC STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

In addition to course requirements, students must complete 10 credits (one semester) of study abroad in an Arabic-speaking country, including 6 credits in modern standard Arabic and 4 credits in a spoken Arabic dialect. Students must attain proficiency in speaking, reading, listening, and writing at the advanced level on the ACTFL scale as measured by exit examinations administered by the department.

Code	Title	Credits
Required		
26 credits from the following:		
ARAB 3001	Advanced Arabic	
ARAB 3301	Modern Arabic Literature	
ARAB 3302	Media Arabic	
ARAB 3311	Business Arabic	
ARAB 3501	Arabic and Arab Identity	
ARAB 3502	Arab Film and Culture in English	
ARAB 3503	Fundamentals of Arabic Linguistics	
ARAB 4001	Genres in Modern Arabic Literature	
ARAB 4002	Arabic Narratives Through the Ages	
ARAB 4501	Arabic-English Translation	
ARAB 4502	Arabic-English Advanced Translation and Editing	

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication

competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained a 3.7 grade-point average in the major and at least a 3.25 average overall by the end of the junior year. No later than the beginning of the senior year, students must consult a departmental faculty member about a research project to be prepared under the supervision of that faculty member through CLAS 3901 Directed Project-CLAS 4901 Directed Project. Only if a committee of two faculty members approves the completed project, which must be graded A or A–, will Special Honors be recommended.

BACHELOR OF ARTS WITH A MAJOR IN CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

Code	Title	Credits
------	-------	---------

Ancient language proficiency

In addition to course requirements, students must complete the language proficiency requirement, which includes Greek (GREK) or Latin (LATN) language study through the 2002 level, or one classical language through the 1002 level and the other through the 2001 level. Students who have scored a 4 or 5 on the AP Latin examination are encouraged to contact the program coordinator.

Core course requirements

Two of the following courses (6 credits): ¹

CLAS 2112	History of Ancient Greece
-----------	---------------------------

or HIST 2112	History of Ancient Greece
--------------	---------------------------

CLAS 2113	The Roman World to 337 A.D.
-----------	-----------------------------

or HIST 2113	The Roman World to 337 A.D.
--------------	-----------------------------

CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
-----------	---

or HIST 2803	The Ancient Near East and Egypt to 322 B.C.
--------------	---

One of the following courses (3 credits):

AH 3101	Ancient Art of the Bronze Age and Greece
---------	--

AH 3102	Ancient Art of the Roman Empire
---------	---------------------------------

AH 3103	Art and Archaeology of Egypt and the Near East
---------	--

Capstone (3 credits)

CLAS 4111	Capstone Study
-----------	----------------

Additional course requirements

21 credits (7 courses) in electives taken as follows: ²

12 credits (four courses) selected from Group A, including at least two courses at the 3000 level or above. ¹

9 credits (three courses) selected from Groups A and/or B. All 9 credits may be taken from Group B, but no more than 9 credits in this group can be counted toward degree requirements.

Group A: CLAS, GREK, and LATN

CLAS 2104	Ancient Medicine and Modern Medical Terms
-----------	---

CLAS 2105	Special Topics
-----------	----------------

CLAS 2105W	Special Topics
------------	----------------

CLAS 2106	Mythology of the Classical World
-----------	----------------------------------

or CLAS 2106W	Mythology of the Classical World
---------------	----------------------------------

CLAS 2107	Greek and Roman Drama
-----------	-----------------------

CLAS 2112	History of Ancient Greece
-----------	---------------------------

or HIST 2112	History of Ancient Greece
--------------	---------------------------

CLAS 2113	The Roman World to 337 A.D.
-----------	-----------------------------

or HIST 2113	The Roman World to 337 A.D.
--------------	-----------------------------

CLAS 2802	Gods and Goddesses of the Ancient Near East
-----------	---

CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
-----------	---

or HIST 2803	The Ancient Near East and Egypt to 322 B.C.
--------------	---

CLAS 2804	History of Ancient Israel ³
-----------	--

or HIST 2804	History of Ancient Israel
--------------	---------------------------

CLAS 3104	Dead Sea Scrolls
-----------	------------------

CLAS 3105	Topics in Classical Studies
-----------	-----------------------------

CLAS 3107	Law and Diplomacy in the Ancient Near East and Mediterranean
-----------	--

CLAS 3111	Topics in Ancient History
or HIST 3111	Topics in Ancient History
CLAS 3112	Art and Archaeology of Pompeii
CLAS 3113	Greece and Rome in the Art and Architecture of Washington D.C.
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology
CLAS 3116	Identity in the Greco-Roman World
or HIST 3116	Identity in the Greco-Roman World
CLAS 3117	Alexander The Great
or HIST 3117	Alexander The Great
CLAS 3119	The Ancient Economy
or HIST 3119	The Ancient Economy
CLAS 3901	Directed Project
or CLAS 3901W	Directed Project
CLAS 4901	Directed Project
GREK 3001	Major Greek Authors I
or GREK 3001W	Major Greek Authors II
GREK 3002	Major Greek Authors II
or GREK 3002W	Major Greek Authors II
LATN 3001	Major Latin Authors I
or LATN 3001W	Major Latin Authors I
LATN 3002	Major Latin Authors II
or LATN 3002W	Major Latin Authors II
Group B: Up to 9 credits (see note, above).	
AH 3101	Ancient Art of the Bronze Age and Greece
AH 3102	Ancient Art of the Roman Empire
AH 3103	Art and Archaeology of Egypt and the Near East
AH 3104	Art and Archaeology of the Aegean Bronze Age ³
or ANTH 3806	Art and Archaeology of the Aegean Bronze Age

AH 3106	Art and Archaeology of Israel and Neighboring Lands
or ANTH 3805	Archaeology of Israel and Neighboring Lands
AH 3111	
ANTH 3834	Field Research: Old World
PHIL 2111	History of Ancient Philosophy
or PHIL 2111W	History of Ancient Philosophy
PSC 2105	Major Issues of Western Political Thought I
REL 1009	The Hebrew Scriptures
REL 1010	The New Testament
REL 3341	Christianity in the Ancient World

¹A course taken as part of the core requirement may not also count as a Group A course selection.

²Students may also earn credit from directed study or coursework abroad if approved by appropriate faculty in Classical Studies.

³Only one course from the following can be counted toward major requirements: AH 3106, ANTH 3805, CLAS 2804, or HIST 2804.

MINOR IN ARABIC AND HEBREW LANGUAGES AND CULTURES

REQUIREMENTS

The following requirements must be fulfilled: A minimum of 18 credits, including 9 to 10 credits in one focus area and 9 credits in elective courses. Students must have completed two years of the primary language or equivalent and one year of the secondary language or equivalent before beginning the minor program.

Code	Title	Credits
Required		
All courses in one following focus areas (9 to 10 credits):		
Arabic		
ARAB 3001	Advanced Arabic	
ARAB 3301	Modern Arabic Literature	
ARAB 3302	Media Arabic	
Hebrew		

HEBR 3001	Hebrew Conversation and Writing
HEBR 3301	Modern Hebrew Fiction
or HEBR 3301W	Modern Hebrew Fiction
HEBR 3302	The Israeli Media
or HEBR 3302W	The Israeli Media

Electives

9 credits (three courses) from the following. At least one course must be in the student's focus area.

HEBR 3101	Modern Hebrew Literary Classics in Translation
HEBR 3102	Israeli Society and Culture: Literary Perspectives
HEBR 3103	Israeli Cinema (in English)
HEBR 3104W	Gender and Sexuality in Israel
ARAB 3501	Arabic and Arab Identity
ARAB 3502	Arab Film and Culture in English

MINOR IN ARABIC STUDIES REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 15 credits in required courses and 6 credits in elective courses. In addition, the student must meet the language prerequisite of ARAB 1001 Beginning Arabic I and ARAB 1002 Beginning Arabic II or their equivalent.

Code	Title	Credits
Required		
ARAB 2001	Intermediate Arabic I	
ARAB 2002	Intermediate Arabic II	
ARAB 3001	Advanced Arabic	
ARAB 3302	Media Arabic	
Electives		
One specialized language course from the following:		
ARAB 3301	Modern Arabic Literature	
ARAB 3311	Business Arabic	
One culture or linguistics course from the following:		
ARAB 3501	Arabic and Arab Identity	

ARAB 3502	Arab Film and Culture in English
ARAB 3503	Fundamentals of Arabic Linguistics

MINOR IN CLASSICAL AND ANCIENT NEAR EASTERN STUDIES

The following requirements must be fulfilled: 18 credits.

Code	Title	Credits
Required language proficiency		
Students must demonstrate proficiency in one of the ancient languages by successfully completing one course (3 credits) in Latin or in ancient Greek numbered 1002 or above. The same course may not be used to satisfy the language proficiency requirement and also count toward the elective course requirement.		
Electives		
Five courses (15 credits) from the following:		
AH 3101	Ancient Art of the Bronze Age and Greece	
AH 3102	Ancient Art of the Roman Empire	
AH 3106	Art and Archaeology of Israel and Neighboring Lands	
or ANTH 3805	Archaeology of Israel and Neighboring Lands	
AH 3104	Art and Archaeology of the Aegean Bronze Age	
or ANTH 3806	Art and Archaeology of the Aegean Bronze Age	
ANTH 3834	Field Research: Old World	
CLAS 2104	Ancient Medicine and Modern Medical Terms	
CLAS 2105	Special Topics	
CLAS 2105W	Special Topics	
CLAS 2106	Mythology of the Classical World	
CLAS 2106W	Mythology of the Classical World	
CLAS 2107	Greek and Roman Drama	
CLAS 2112	History of Ancient Greece	
or HIST 2112	History of Ancient Greece	
CLAS 2113	The Roman World to 337 A.D.	

or HIST 2113	The Roman World to 337 A.D.
CLAS 2802	Gods and Goddesses of the Ancient Near East
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.
or HIST 2803	The Ancient Near East and Egypt to 322 B.C.
CLAS 2804	History of Ancient Israel
or HIST 2804	History of Ancient Israel
CLAS 3107	Law and Diplomacy in the Ancient Near East and Mediterranean
CLAS 3111	Topics in Ancient History
or HIST 3111	Topics in Ancient History
CLAS 3112	Art and Archaeology of Pompeii
CLAS 3113	Greece and Rome in the Art and Architecture of Washington D.C.
CLAS 3114	Topics in Ancient Literatures and Cultures
CLAS 3115	Topics in Ancient Art and Archaeology
CLAS 3116	Identity in the Greco-Roman World
or HIST 3116	Identity in the Greco-Roman World
CLAS 3117	Alexander The Great
or HIST 3117	Alexander The Great
CLAS 3119	The Ancient Economy
or HIST 3119	The Ancient Economy
CLAS 3901	Directed Project
CLAS 3901W	Directed Project
CLAS 4901	Directed Project
GREK 2001	Intermediate Classical Greek I
GREK 2002	Intermediate Classical Greek II
GREK 3001	Major Greek Authors I
GREK 3002	Major Greek Authors II
LATN 2001	Intermediate Latin
LATN 2002	Poetry of Empire
or LATN 2002W	Poetry of Empire

LATN 3001 Major Latin Authors I

or LATN 3001W Major Latin Authors I

LATN 3002 Major Latin Authors II

or LATN 3002W Major Latin Authors II

MINOR IN HEBREW

The following requirements must be fulfilled: 20 credits, including 14 credits in required courses and 6 credits in elective courses. In addition, students must complete HEBR 1001 and HEBR 1002, or their equivalent, before beginning the minor program.

Code	Title	Credits
Prerequisites *		
HEBR 1001	Beginning Hebrew I	
HEBR 1002	Beginning Hebrew II	
Required		
HEBR 2001	Intermediate Hebrew I	
HEBR 2002	Intermediate Hebrew II	
HEBR 3001	Hebrew Conversation and Writing	
HEBR 3301	Modern Hebrew Fiction **	
or HEBR 3301W	Modern Hebrew Fiction	
or HEBR 3302	The Israeli Media	
or HEBR 3302W	The Israeli Media	
Electives		
Two elective courses from the following:		
HEBR 3101	Modern Hebrew Literary Classics in Translation	
HEBR 3102	Israeli Society and Culture: Literary Perspectives	
HEBR 3103	Israeli Cinema (in English)	
HEBR 3104W	Gender and Sexuality in Israel	
HEBR 3105	Special Topics	
HEBR 3301	Modern Hebrew Fiction **	
or HEBR 3301W	Modern Hebrew Fiction	
or HEBR 3302	The Israeli Media	

or HEBR 3302W	The Israeli Media
HEBR 4001	Advanced Hebrew Literature I
HEBR 4002	Advanced Hebrew Literature II
HIST 2812	History of Zionism
or JSTD 2812	History of Zionism
REL 1009	The Hebrew Scriptures

* HEBR 1001 and HEBR 1002 or equivalent must be completed prior to beginning the minor program.

**HEBR 3301 or HEBR 3301W or HEBR 3302 or HEBR 3302W may be taken as an elective only if not taken as a required course.

CORCORAN SCHOOL OF THE ARTS AND DESIGN

Interim Director Kym Rice

Assistant Director for Academic Affairs Susan Sterner

The Corcoran School of the Arts and Design bridges the University's academically robust programs in the arts with Corcoran's creative and inspired scholarship. Part of the Columbian College of Arts and Sciences, the School functions as an incubator for artists and practitioners in arts-related fields, and serves to enrich students who are taking classes in other areas of the University. As such, it provides a platform for engagement that bridges creative expression and practical application with the breadth and depth of the larger liberal arts education.

Program heads

Catherine Anderson—Design, including undergraduate graphic design and interaction design and graduate exhibition design and interaction design

Robert Baker—Dance, music, and theatre (including classical acting)

Barbara von Barghahn—Art history

Dean Kessmann—Studio arts, including fine art, new media photojournalism, photojournalism, and social practice

Stephanie Travis—Interior architecture

Laura Schiavo—Museum studies and decorative arts and design history

Faculty advisors

Catherine Anderson—Interior Architecture (graduate)

Susan Anderson—Museum studies*

Mary Coughlin—Museum studies online certificate program in collections care

Andrea Hunter Dietz—Exhibition design

Zan Dumbadze—Art history (undergraduate)

Matt Eich—Photojournalism and photography (undergraduate)

Leslie Jacobson—Classical acting

Sara Jamshidi—Graphic design

Erin Kuykendall—Decorative arts and design history

Michele Carlson—Fine art, dual BA in fine art and art history (all undergraduate)

Maria del Carmen Montoya—Fine art and social practice (graduate)

Eugene Montague—Music

Kevin Patton—Interaction design (undergraduate and graduate)

Lilien Robinson—Art history (graduate)

Laura Schiavo—Museum studies*

Susan Sterner—New media photojournalism (graduate)

Max van Balgooy—Museum studies*

Nadia Volchansky—Interior architecture (undergraduate)

Matt Wilson—Theatre (undergraduate) and classical acting (graduate)

Maida Withers—Dance

*Co-advisors in museum studies.

Visit the Corcoran School of the Arts and Design website (<https://corcoran.gwu.edu/>) for additional information

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in art history (p. 263)
- Bachelor of Arts with a dual major in art history and in fine art (p. 259)
- Bachelor of Arts with major in dance (p. 499)
- Bachelor of Arts with major in fine arts (p. 266)
- Bachelor of Arts with major in music (p. 355)
- Bachelor of Arts with major in theatre (p. 501)
- Bachelor of Fine Arts with a major in fine art (p. 193)
- Bachelor of Fine Arts with a major in graphic design (p. 195)
- Bachelor of Fine Arts with a major in interaction design (p. 196)
- Bachelor of Fine Arts with a major in interior architecture (p. 318)
- Bachelor of Fine Arts with a major in photojournalism (p. 198)

Combined Program

- Dual Bachelor of Arts with a major in art history and Master of Arts in the field of art history (p. 200)

Minors

- Minor in art history (p. 270)
- Dual minor in art history and fine arts (p. 268)
- Minor in dance (p. 503)
- Minor in fine arts (p. 270)
- Minor in graphic design (p. 200)
- Minor in music (p. 356)

- Minor in photography (p. 200)
- Minor in theatre (p. 504)

GRADUATE

Master's programs

- Master of Arts in the field of art history (p. 268)
- Master of Arts in the field of decorative arts and design history (p. 200)
- Master of Arts in the field of exhibition design (p. 201)
- Master of Arts in the field of interaction design (p. 202)
- Master of Arts in the field of interior architecture (<http://bulletin.gwu.edu/arts-sciences/corcoran/ma-interior-architecture/>)
- Master of Arts in the field of museum studies (p. 351)
- Master of Arts in the field of new media photojournalism (p. 203)
- Master of Fine Arts in the field of classical acting (p. 185)
- Master of Fine Arts in the field of fine arts (p. 269)
- Master of Fine Arts in the field of interior architecture (p. 319)
- Master of Fine Arts in the field of social practice (p. 204)

Combined program

- Dual Master of Arts in the field of museum studies and Graduate Certificate in Jewish cultural arts (p. 204)

CERTIFICATES

Certificate programs

- Graduate certificate in museum studies (<https://current.bulletin.gwu.edu/arts-sciences/museum-studies/certificate/>)
- Graduate certificate in museum collections management and care (<https://current.bulletin.gwu.edu/arts-sciences/museum-studies/museum-collections-management-care-certificate/>)

FACULTY

Visit the Corcoran School of the Arts and Design website (<https://corcoran.gwu.edu/faculty/>) for a list of current faculty.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Some of the courses listed below may not correspond with a degree program. For example, ceramics is not a degree program, ceramics courses are part of the fine arts program. See the faculty advisor for guidance regarding courses.

- Art History (AH) (p. 1419)
- Corcoran Art History (CAH) (p. 1483)
- Corcoran Continuing Education (CCE) (p. 1491)
- Corcoran Decorative Arts and Design History (CDAD) (p. 1491)
- Corcoran Exhibition Design (CEX) (p. 1492)
- Corcoran First-Year Foundation (CFN) (p. 1493)
- Corcoran Graphic Design (CGD) (p. 1494)
- Corcoran Interior Architecture (IA) (p. 1658)
- Corcoran Interior Architecture (CIAR) (p. 1498)
- Corcoran Interaction Design (CIXD) (p. 1496)
- Corcoran Museum Studies (CMST) (p. 1500)
- Corcoran Music (MUS) (p. 1502)
- Corcoran Photojournalism (CPJ) (p. 1506)
- Corcoran Studio Arts (CSA) (p. 1509)
- Corcoran Theatre and Dance (TRDA) (p. 1517)

BACHELOR OF FINE ARTS WITH A MAJOR IN FINE ART

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses.

Recommended Program of Study

Code	Title	Credits
Required		
12 credits in foundational courses		
CFN 1090	First-Year Studio 1: Drawing and Surface	
CFN 1091	First-Year Studio 2: Form and Materials	
CFN 1092	First Year Studio 3: Time and Light	
CFN 1093	First-Year Studio 4: Interaction	
12 credits in fine art studio courses		
CSA 1090	Fine Art Fundamentals I	

CSA 1091	Fine Art Fundamentals II
CSA 2092	Fine Art Studio Experimental Materiality
CSA 3092	Fine Art Studio Critical Practices in Making
9 credits in introductory studio electives, selected from the following:	
CSA 1101	Introduction to Handbuilt Ceramics
CSA 1102	Introduction to Wheelthrown Ceramics
CSA 1501	Black and White Photography Fundamentals
CSA 1502	Introduction to Digital Color Photography
CSA 1502	Introduction to Digital Color Photography
CSA 1701	Printmaking Medium and Materials Workshop
9 credits in studio electives taken from at the 1000 level or above, selected from studio areas CDE, CGD, CIAR, CIXD, CPJ, and CSA.	
9 credits in studio arts electives taken at the 2000 to 4000 levels, selected from studio areas CPJ or CSA.	
3 credits in cross-disciplinary studio electives, selected from the following:	
CSA 3901	Special Topics: Cross-Disciplinary Studio Arts
CSA 3911	Collaborative Practices: Social Practices of Art
CSA 3912	The Cinematic in Contemporary Art
CSA 3913	Painting Off the Wall
CSA 3914	Art Outside the Gallery
CSA 3915	Public Spectacle in Socially Engaged Art
CSA 3951	Creative Photovoltaics
3 credits in professional practices, selected from the following:	
CSA 4070	Professional Practices for Lens-Based Media
CSA 4170	Professional Practices for Artists
6 credits in thesis coursework. Students participate in a thesis exhibition as part of their thesis.	

CSA 4092	Fine Art Thesis I
CSA 4093	Fine Art Thesis II
6 credits in introductory art history courses	
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts
CAH 1091	Art History II: Historical Perspectives in the Visual Arts
3 credits in an art history elective, selected from any AH or CAH course (Writing in the Discipline courses are recommended).	
6 credits in seminars, selected from the following:	
CSA 3020W	Topics in Photography and Photojournalism
CSA 3021W	Topics in Fine Art Seminar
CSA 4020W	Photography and Photojournalism Studio Seminar
CSA 4021	Fine Art Studio Seminar

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.

- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

BACHELOR OF FINE ARTS WITH A MAJOR IN GRAPHIC DESIGN REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

Code	Title	Credits
Required		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	

CAH 1091	Art History II: Historical Perspectives in the Visual Arts

----------	-------------------------

CGD 4091	Graphic Design Thesis II
----------	--------------------------

CGD 4170	Professional Practices for Designers
----------	--------------------------------------

6 credits of courses in art and design history

Required

CAH 3150	Theories and History of Graphic Design
----------	--

One of the following:

CAH 3060	History of Design
----------	-------------------

CAH 3065	Digital Media Culture
----------	-----------------------

CAH 4179	Topics in Design History and Theory
----------	-------------------------------------

Electives

12 credits in advanced CGD elective courses at the 3000 or 4000 level.

9 credits in elective courses from any art or design studio area (CGD, CIXD, CPJ, and CSA).

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement,

G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW

courses that have been approved by the University and the College.

BACHELOR OF FINE ARTS WITH A MAJOR IN INTERACTION DESIGN

Interaction Design is an interdisciplinary field that uses human-centered processes to create meaningful, usable, and desirable design solutions for sites of interaction. Interaction designers shape the everyday behaviors of digital and physical environments, services, products and systems.

REQUIREMENTS

Track 1:

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

78-credits in studio and art/design history coursework:

Code	Title	Credits
Required		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	
CAH 1091	Art History II: Historical Perspectives in the Visual Arts	
CDE 1090	Design Fundamentals I	
CDE 1091	Design Fundamentals II	
CFN 1090	First-Year Studio 1: Drawing and Surface	
CFN 1091	First-Year Studio 2: Form and Materials	
CFN 1092	First Year Studio 3: Time and Light	
CFN 1093	First-Year Studio 4: Interaction	
CIXD 2090	Narrative Media for Interaction	
CIXD 2091	Systems Thinking for Interaction Design	
CIXD 2111	Creative Code	
CIXD 3090	Human Centered Design for Social Engagement	
CIXD 3091	Prototyping and Fabrication for Interaction	
CIXD 3820	Engagement Lab (taken twice for a total of 6 credits)	

CIXD 3910	Collaborative Design Project
CIXD 4090	Interaction Design Thesis I
CIXD 4091	Interaction Design Thesis II
CIXD 4193	Topics in Design Leadership
9 credits of time-based media or computational media electives in CIXD, CDM, or from the following:	
CGD 4120	Environmental Design
CSA 2601	
CSA 3202	Sculpture Digital Forms
6 credits of studio electives in any art or design area	
3 credits in design history course at the 3000-4000 level from the following:	
CAH 3060	History of Design
CAH 3065	Digital Media Culture
CAH 4179	Topics in Design History and Theory
CAH 4410	
A 3-credit design research seminar at the 3000-4000 level from the following:	
CAH 4179	Topics in Design History and Theory
CIXD 4020	Topics in Design Research

Track 2:

For program Option 2, the following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

87 credits in program-specific coursework. This includes completion of a minor program with at least 18 credits.

Code	Title	Credits
Required		
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts	
CAH 1091	Art History II: Historical Perspectives in the Visual Arts	
CDE 1090	Design Fundamentals I	
CDE 1091	Design Fundamentals II	

CFN 1090	First-Year Studio 1: Drawing and Surface
CFN 1091	First-Year Studio 2: Form and Materials
CFN 1092	First Year Studio 3: Time and Light
CFN 1093	First-Year Studio 4: Interaction
CIXD 2090	Narrative Media for Interaction
CIXD 2091	Systems Thinking for Interaction Design
CIXD 2111	Creative Code
CIXD 3090	Human Centered Design for Social Engagement
CIXD 3091	Prototyping and Fabrication for Interaction
CIXD 3820	Engagement Lab (taken for 3 credits)
CIXD 3910	Collaborative Design Project
CIXD 4090	Interaction Design Thesis I
CIXD 4091	Interaction Design Thesis II
CIXD 4193	Topics in Design Leadership

Electives

6 credits in time-based media or computational media courses selected from any CDM or CIXD course and/or CFA 2611, CFA 3202, and CGD 4120.

One 3-credit studio course in any art or design area.

One 3-credit design history course selected from the following:

CAH 3060	History of Design
CAH 3065	Digital Media Culture
CAH 4179	Topics in Design History and Theory
CAH 4410	
One 3-credit design research seminar selected from the following:	
CAH 4179	Topics in Design History and Theory
CIXD 4020	Topics in Design Research

Required minor program

All students pursuing this option must successfully complete a minor program in a related field. Students should consult with the advisor concerning this requirement.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

BACHELOR OF FINE ARTS WITH A MAJOR IN PHOTOJOURNALISM REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

78 credits in program-specific courses, including 54 credits in required courses and 24 credits in elective courses. Students should contact their advisor for a sample program of study.

Recommended Program of Study

Code	Title	Credits
G-PAC requirement		
In addition to the major requirements listed below, students must take the following course in fulfillment of the G-PAC requirement in social science:		
SMPA 2101	Journalism: Theory & Practice	
Major requirements		
Foundation courses (12 credits)		
CFN 1090	First-Year Studio 1: Drawing and Surface	
CFN 1091	First-Year Studio 2: Form and Materials	
CFN 1092	First Year Studio 3: Time and Light	
CFN 1093	First-Year Studio 4: Interaction	
Photo/photojournalism studios (21 credits)		
CSA 1501	Black and White Photography Fundamentals	
CSA 1502	Introduction to Digital Color Photography	
CPJ 2091	Photojournalism Studio Sequencing and Narrative Strategies	
CSA 2502	Time-based Media Lab	

CPJ 3090	Photojournalism Studio Visual Reportage
CPJ 3091	Photojournalism Studio Multimedia Storytelling
CPJ 4340	Project-Driven Website Design
Studio electives	
9 credits in CGD, CIAR, CIXD, CPJ, or CSA courses taken at any level.	
Upper-level studio electives	
12 credits from any CPJ course at the 2000 to 4000 level; and/or any CSA courses with 5 as the second digit of the course number; and/or any time-based electives selected from the following:	
CSA 2611	Video Art
CSA 3601	Special Topics: Time-Based and Electronic Media
CSA 3606	Performative Media
CSA 3612	Video: Remixing the Archive
CSA 3613	Site and Sound
CSA 3912	The Cinematic in Contemporary Art
CSA 3915	Public Spectacle in Socially Engaged Art
Professional practices (6 credits)	
CSA 4070	Professional Practices for Lens-Based Media
or CSA 4170	Professional Practices for Artists
SMPA 2173	Media Law
Thesis (6 credits)	
CPJ 4090	Photojournalism Thesis I
CPJ 4091	Photojournalism Thesis II
Note that students participate in a thesis exhibition as part of their thesis coursework.	
Art history and lens-based seminars (18 credits)	
18 credits in art history and lens-based seminars, with 12 credits in art history and 6 credits in lens-based.	
Art history seminars (12 credits)	
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts

CAH 1091	Art History II: Historical Perspectives in the Visual Arts
or CAH 1031	Survey of Art and Architecture I
CAH 2162W	History of Photography
SMPA 2110W	Introduction to News Writing and Reporting
Lens-based seminars (6 credits)	
CSA 3020W	Topics in Photography and Photojournalism
or CSA 3021W	Topics in Fine Art Seminar
CSA 4020W	Photography and Photojournalism Studio Seminar
or CSA 4021	Fine Art Studio Seminar

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or

interpretation of artistic traditions or knowledge of art in a contemporary context.

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

DUAL BACHELOR OF ARTS WITH A MAJOR IN ART HISTORY AND MASTER OF ARTS IN THE FIELD OF ART HISTORY

The Corcoran School of the Arts and Design offers a dual bachelor of arts with a major in art history (<https://current.bulletin.gwu.edu/arts-sciences/fine-arts-art-history/ba-art-history/>) and master of arts in the field of art history (<https://current.bulletin.gwu.edu/arts-sciences/fine-arts-art-history/ma-art-history/>) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Visit the program website (<https://corcoran.gwu.edu/art-history-undergraduate/>) for additional information.

MINOR IN GRAPHIC DESIGN REQUIREMENTS

The following requirements must be met: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
Required		
CGD 1090	Design Fundamentals I	
CGD 1091	Design Fundamentals II	
CGD 2050	Typography I	
CGD 2060	Typography II	
Electives		
6 credits (two courses) from the CGD or CIXD subject areas at the 2000 level or above.		

MINOR IN PHOTOGRAPHY

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
AH 2162	History of Photography	
One course from the following:		
CSA 1501	Black and White Photography Fundamentals	
CSA 1502	Introduction to Digital Color Photography	
Electives		
3 credits in any photography, photojournalism, or other studio course taken at any level in the CPJ or CSA subject areas.		
9 credits in photography or photojournalism in any CPJ courses taken at the 2000 to 4000 level and/or any CSA courses numbered with 5 as the second digit.		

MASTER OF ARTS IN THE FIELD OF DECORATIVE ARTS AND DESIGN HISTORY

The master of arts in the field of decorative arts and design history degree program is offered through a partnership between the Corcoran School of the Arts and Design and the Smithsonian Associates. This unique graduate program covers a range of historical, cultural, and material topics. Through object-based study, students develop expertise in the history of cultural and stylistic influences, techniques and technology, and makers and materials.

Courses are taught at the Smithsonian Institution by curators, scholars, and leading museum professionals in Washington, DC. In addition to classes, students also participate in internships with arts institutions, organizations, and museum professionals. The internship experience complements the formal curriculum, enabling students to hone their research and writing skills in both professional and academic settings.

For some students, the MA in decorative arts and design history is a terminal degree leading to professional careers as curators and scholars in galleries and museums. For others, the degree is completed in preparation for doctoral study.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs.

42 credits, as follows: Thesis option—21 credits in required courses, a 3-credit internship, 6 credits in thesis research, and 12 credits in elective courses; non-thesis option—21 credits in required courses, a 3-credit internship, 18 credits in elective courses, and successful completion of a comprehensive oral and written examination. All students must demonstrate competency in a language other than English, to be assessed by examination. Students must maintain a 3.0 GPA in order to graduate from the program.

Code	Title	Credits
Required		
Foundation courses		
CDAD 6570	Proseminar in Decorative Arts and Design	
CDAD 6571	Survey of Decorative Arts and Design I	
CDAD 6572	Survey of Decorative Arts and Design II	
Core courses		
CDAD 6573	Material Culture Theory	
CDAD 6574	Topics in Medium-Based Decorative Arts and Design	
CDAD 6575	Non-Western Influences in Decorative Arts and Design	
CDAD 6902	Internship	
CMST 6201	Introduction to Museum Collections	
or CMST 6301	Museum Exhibition Curatorial Research and Planning	
or CMST 6304	Exhibition Development and Scriptwriting	

or CMST 6305 Visitor Perspectives: Museum Evaluation

Thesis

Students pursuing the thesis option take the following:

CDAD 6998 Thesis Research

CDAD 6999 Thesis Research

Electives

Thesis option: Students who choose the thesis option take 4 elective courses (12 credits).

Non-thesis option: Students who choose to take the master's comprehensive exam instead of writing a thesis take 6 elective courses (18 credits).

MASTER OF ARTS IN THE FIELD OF EXHIBITION DESIGN

The Master of Arts in Exhibition Design (MA-EX) program explores the intersection of design and public communications, in the nation's capital, at a critical moment in the history of cultural discourse and spatial practice.

Exhibition design, in the MA-EX program at GW's Corcoran School, is more than the design of spaces that convey information, share stories, or promote products. It does more than relate artworks, objects, and audiences in experiential compositions. It has the potential to tell us about how we are living and how we could be living.

MA-EX students take up the charge to rethink connections in the world. They find shapes for ideas and identities and orient them for diverse publics. They choreograph forms, facts, and fictions that put people in touch with each other and with the (built) environment. They design exhibitions as sites of material expression and activism.

The interdisciplinarity of the MA-EX program prepares students to innovate through exhibitions. Students work with curators, artists, and institutions. You will design in dialogue—drawing on multiple art, design, and social practices. And, you will develop dexterity, through training in analog craft and digital fabrication, studies in history and theory and exercises in real-world application.

The MA-EX program coordinates with Washington, DC's extensive network of national museums. It also engages the city at-large, identifying opportunities for exhibition in its places of memory and monument, performance and protest, and commerce and leisure.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

48 credits, including 36 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
CAH 6400	History of Exhibitions	
CEX 6010	Exhibition Design Studio 1	
CEX 6011	Spatial Representation and Making I	
CEX 6012	Spatial Representation and Making II	
CEX 6014	Materials, Detailing, and Fabrication/Installation	
CEX 6020	Exhibition Design Studio 2	
CEX 6030	Exhibition Design Studio 3	
CEX 6040	Exhibition Design Studio 4	
CEX 6100	Lighting, Acoustics, and Design for the Senses	
CEX 6210	Special Topics in Exhibition Design	
CEX 6220	Exhibition Design Research	
CEX 6230	Art and Design Writing	
Electives		
One 3-credit studio practice elective course.		
One 3-credit curatorial or exhibition elective course.		
One 3-credit design skills elective course.		
One 3-credit arts/design business or management elective course.		

MASTER OF ARTS IN THE FIELD OF INTERACTION DESIGN

Interaction design seeks solutions to complex human and environmental challenges—from designing smart devices to reimagining educational environments. A unique and growing field, it explores the ways people engage with technology and their environments in their daily lives.

The Master of Arts in Interaction Design, offered by the Corcoran School of the Arts and Design, trains leaders who can analyze and create meaningful digital and physical design solutions. Students have the opportunity to develop their design practice in a real-world context by working with

community organizations through the program's innovative Engagement Lab. This curricular component enables students to embrace a human-centered collaborative approach to design that is mindful of social and environmental impact.

With the program's focus on human services and the role of interaction design in public policy, graduates are equipped to make a difference across the non-profit, government and business sectors.

REQUIREMENTS

The Corcoran master of arts in interaction design at the concentrates on preparing students to enter fields connected to the design of interactive services with a social or civic imperative. The course of study consists of four primary components: studio based skill-building; academic study connecting theoretical, historical, and practice in human-centered design; collaborative project-based work with partners in the Washington, DC, region; and strategic design thinking.

Code	Title	Credits
Required		
CIXD 6010	Interaction Design for Service	3
CIXD 6011	Narrative Media Design for Interaction	3
CIXD 6012	Prototyping Interaction	3
CIXD 6020	Topics in Human Centered Design	3
CIXD 6021	Topics in Design Leadership	3
CIXD 6080	Engagement Lab (Taken four times for a total of 12 credits)	3-6
Thesis		
Completion of a written thesis.		
CIXD 6998	Interaction Design Thesis I	3
CIXD 6999	Interaction Design Thesis II	3
Completion of a creative thesis project and exhibition.		
Electives		
9 credits in elective courses.		
Total Credits		24-27

MASTER OF ARTS IN THE FIELD OF NEW MEDIA PHOTOJOURNALISM

The New Media Photojournalism program is a high-energy, immersive experience grounded in the fundamentals of photojournalism and documentary photography. Emphasizing strong storytelling skills and fluency in multimedia platforms, the Master of Arts in New Media Photojournalism program incorporates writing, photography, audio, video, and web design to prepare students to work as freelancers, visual reporters, editors, and producers.

The program emphasizes the individual as a visual reporter and encourages experimentation with new ways of storytelling, documentation, and editing. The program also encourages its students to explore the latest digital practices taught in conjunction with the enduring fundamentals of visual reporting, editing, and ethics. Through intensive faculty mentoring along with a broad and flexible program of study and internship opportunities, students choose and develop their professional paths.

In addition to the Washington Post, National Public Radio, National Geographic, and Discovery Communications, countless newspapers, magazines, trade journals and major media outlets are located within a five-mile radius of the Corcoran's downtown campus. Graduates of the program are prepared to excel in careers in a wide range of visual media—including photography, picture and video editing, documentary production and multimedia management—and go on to lead a new generation of photojournalists as the field evolves in tandem with technology.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
Required		
CPJ 6010	New Media Photojournalism Image and Impact	
CPJ 6020	Topics in Photo Editing Studio Seminar	
or CPJ 6225	Making Meaning Through the Photography Book	
CPJ 6050	Advanced Multimedia Lab I	
CPJ 6060	Advanced Multimedia Lab II: Editing and Production	

CPJ 6100	Research, Reporting, and Writing: Contemporary Journalism Practice
CPJ 6110	Story and Narrative in Photojournalism
CPJ 6500	New Media Photojournalism Capstone Production Workshop
CPJ 6501	New Media Photojournalism Capstone Post-Production Workshop
CPJ 6550	New Media Photojournalism Capstone Research and Reporting

Electives

15 credits in any graduate-level Corcoran School studio, seminar, art history, internship, and directed study courses, or other graduate-level courses offered in Columbian College. Only 3 credits in internships may be applied toward the degree.

Recommended program of study

Code	Title	Credits
First semester		
CPJ 6010	New Media Photojournalism Image and Impact	
CPJ 6110	Story and Narrative in Photojournalism	
CPJ 6100	Research, Reporting, and Writing: Contemporary Journalism Practice	
CPJ 6050	Advanced Multimedia Lab I	
Second semester		
CPJ 6020	Topics in Photo Editing Studio Seminar	
CPJ 6060	Advanced Multimedia Lab II: Editing and Production	
Third semester		
CPJ 6500	New Media Photojournalism Capstone Production Workshop	
CPJ 7010		
Fourth semester		
CPJ 7900

MASTER OF FINE ARTS IN THE FIELD OF SOCIAL PRACTICE

The Master of Fine Arts in Social Practice with a focus in public policy is a unique program that connects art, policy and collective action. The program is designed for emerging artists and creative thinkers looking to develop skills in both the arts and public policy sectors during an intensive, two-year, 60-credit degree. The program brings together artists, designers, organizers, researchers and policymakers to initiate learning opportunities and projects that address the critical questions of our time.

It combines study in experimental, relational and performative creative practices with academic research, collaborative work and field-based experiential learning in Washington, D.C. - a global hub for policy makers, tech leaders, NGO's and cultural institutions. To support their creative work, students in the program take academic coursework across the university, including the departments of the Columbian College of Arts and Sciences and the Trachtenberg School of Public Policy and Administration.

Students who are especially interested in working with diverse populations and who wish to create a hybrid studio practice focused on issues of social justice, collaborative methodology and ethical innovation are candidates for this MFA in Social Practice. We particularly seek applicants whose statement and/or portfolio demonstrates a broad-based creative practice, which may include professional work outside the arts; an understanding of the challenges and opportunities of working with diverse communities in an art context; and familiarity with more than one language. **Note: This program will begin accepting applications for the Fall 2020 term.**

REQUIREMENTS

The following requirements must be fulfilled: 60 credits, including 45 credits in required courses (including thesis) and 15 credits in elective courses.

Code	Title	Credits
Required		
CSA 6010	Social Practice Workshop (taken four times, once per semester, for a total of 16 credits)	
CSA 6015	History and Theory of Art in the Public Realm	
CSA 6016	Field and Research Methodologies for Artists	
CSA 6080	Social Practice Field Studio (taken twice for a total of 6 credits)	

CSA 6097	Topics in Public Strategies (taken four times, once per semester, for a total of 8 credits)
----------	---

PPPA 6006	Policy Analysis
-----------	-----------------

Thesis

CSA 6999	Thesis Research (taken twice for a total of 6 credits)
----------	--

A thesis exhibition consisting of the execution of creative work along with a critical statement about this work must be completed under the supervision of a committee consisting of at least two full-time faculty members in the department.

Electives

3 credits in studio electives in any art or design area.

12 credits of supporting academic or studio coursework, in any area of the University, selected in consultation with the Director of Graduate Studies.

DUAL MA IN MUSEUM STUDIES AND GC IN JEWISH CULTURAL ARTS

The Museum Studies Program offer a dual master of arts in the field of museum studies (p. 351) and graduate certificate in Jewish cultural arts (p. 322) program. 9 credits may be shared between programs, thereby decreasing the total number of credits normally required. All requirements for both programs must be fulfilled.

Visit the Museum Studies program website (<https://corcoran.gwu.edu/graduate-museum-studies/>) for additional information.

DATA SCIENCE

Developed through a collaborative effort between the Statistics (<http://statistics.columbian.gwu.edu/>), Mathematics (<http://math.columbian.gwu.edu/>), Physics (<http://physics.columbian.gwu.edu/>), Economics (<http://economics.columbian.gwu.edu/>), Geography (<http://geography.columbian.gwu.edu/>), and Political Science (<http://politicalscience.columbian.gwu.edu/>) Departments, the Data Science program offers the master of science in data science and graduate certificate in data science. The program teaches students to understand data and contribute important insights with the goal of changing the way in which people live, work, and communicate. Through a structured curriculum that provides foundational knowledge as well as application skills, students learn how to confront the most complex problems facing government and private industry

Visit the Department of Data Science website (<https://datasci.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Science with a major in data science (p. 207)

Minor

- Minor in data science (p. 209)

GRADUATE

Master's program

- Master of Science in the field of data science (p. 210)

Combined programs

- Dual Bachelor of Science in an approved Columbian College program and Master of Science in the field of data science (p. 210)
- Dual Master of Science in the field of data science and certificate in geographic information systems (p. 210)

CERTIFICATES

Graduate certificate

- Graduate certificate in data science (p. 211)

FACULTY

Associate Professors R. Engstrom (*Program Director*), E. Lawrence

Assistant Professors Y. Huang, N. Zahadat

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

DATS 1001. Data Science for All. 3 Credits.

Cross-disciplinary perspective on topics ranging from an introduction and overview of standard data science tools through to frontier research topics in real-world systems. R is introduced.

DATS 2101. Ethical Life in a Digital World. 3 Credits.

Introduction to ethical perspectives and policies in an increasingly digital world. Topics include generation, recording, curation, processing, sharing, and use of data; algorithms; programming; hacking; and professional codes.

DATS 2102. Data Visualization for Data Science. 3 Credits.

Working with data and code to engage data science questions. Students develop coding, data visualization, and data presentation skills. Prerequisites: DATS 1001; and STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

DATS 2103. Data Mining for Data Science. 3 Credits.

Basic concepts, principles, methods, implementation techniques, and applications of data mining, with a focus on Python and data mining algorithms. Overview of data mining techniques and skills to explore and analyze data. Prerequisites: CSCI 1012, DATS 1001, MATH 1232, and STAT 1053.

DATS 2104. Data Warehousing for Data Science. 3 Credits.

Fundamental concepts of databases and data warehousing. Database management; extract, transform, load (ETL) processes; and SQL. Ethical considerations, including privacy, data stewardship, and database security. Prerequisites: CSCI 1012 and DATS 1001.

DATS 4001. Data Science Capstone. 3 Credits.

Capstone experience for data science majors. Application of theoretical knowledge and practical skills gained in major courses to a real-world problem. Review of ethical issues and current topics in data science. Restricted to data science majors. Prerequisites: DATS 1001, DATS 2101W, DATS 2102, DATS 2103, and DATS 2104.

DATS 6001. Algorithm Design for Data Science. 3 Credits.

Theory and implementation of the most important problems in algorithm design. Tailored to the needs of non-computer science students.

DATS 6101. Introduction to Data Science. 3 Credits.

Basic techniques of data science. Algorithms for data mining, basics of statistical modeling, and concepts, abstractions, and practical techniques.

DATS 6102. Data Warehousing. 3 Credits.

Fundamentals and practical applications of data warehousing, including planning requirements, infrastructure, design, and maintenance. Prerequisites: STAT 2118 or permission of the instructor. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics.

DATS 6103. Introduction to Data Mining. 3 Credits.

Concepts, principles, and techniques related to data mining; strengths and limitations of various data mining techniques, including classification, association analysis, and cluster analysis.

DATS 6201. Numerical Linear Algebra and Optimization. 3 Credits.

Linear and quadratic programming, nonlinear equations, global and unconstrained optimization, and general linearly and nonlinearly constrained optimization as used in data science. Restricted to students in the MS in data science program or with the permission of the instructor. Prerequisites: MATH 2184 or MATH 2185. Recommended background: An undergraduate degree with a strong foundation in science, mathematics, or statistics.

DATS 6202. Machine Learning I: Algorithm Analysis. 3 Credits.

Practical approach to fundamentals of algorithm design associated with machine learning; techniques of statistical and probability theory, combinatorial optimization, and factor graph and graph ensemble as used in machine learning. Prerequisites: DATS 6101 and DATS 6103. Credit cannot be earned for this course and PHYS 6620.

DATS 6203. Machine Learning II: Data Analysis. 3 Credits.

This course is a practical approach to fundamentals of machine learning with an emphasis on data analysis; i.e., how to extract useful information from different datasets. Topics include linear models, error and noise, training and testing methods, and generalization as used in machine learning. Restricted to Designed primarily for students in the Data Science program, however other students with appropriate backgrounds can register for the course with permission of the instructor. Prerequisite: DATS 6101. Recommended background: An undergraduate degree with a strong background in science, mathematics, or statistics. Credit cannot be earned for this course and PHYS 6720.

DATS 6311. Bayesian Methods in Data Science. 3 Credits.

Introduction to Bayesian data analysis. Parameter estimation (using formal analysis, grid approximation, and Markov chain Monte Carlo), hierarchical models, generalized linear models, JAGS, and Stan. Prerequisites: DATS 6101 and DATS 6103.

DATS 6312. Natural Language Processing for Data Science. 3 Credits.

Introduction to natural language processing and its basic techniques and methods. Natural language processing techniques used to explore, analyze, and leverage natural language data stored in text, covering commonly used text analysis techniques and tools. Prerequisite: DATS 6202.

DATS 6401. Visualization of Complex Data. 3 Credits.

This course is a practical approach to fundamentals of data visualization specifically for data science professional. It covers all significant topics, including graphics, discrete and continuous variables, clustering and classification. Restricted to candidates for the MS or graduate certificate in data science; permission of the instructor may be substituted. Prerequisites: DATS 6101, DATS 6102, and DATS 6103.

DATS 6402. High Performance Computing and Parallel Computing. 3 Credits.

Practical approach to high performance computing specifically for the data science professional. Topics such as parallel architectures and software systems, and parallel programming. Restricted to students in the MS or graduate certificate in data science programs or with permission of the instructor. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

DATS 6450. Topics in Data Science. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to students in the master's and graduate certificate in data science programs. Restricted to students in the master's and graduate certificate programs in data science. Prerequisites: DATS 6101 or permission of the instructor.

DATS 6499. Data Science Applied Research. 3 Credits.

Students conduct research projects under the supervision of the instructor. Project topics build on the knowledge and skills acquired during the data science program. Permission of the instructor required prior to enrollment.

DATS 6501. Data Science Capstone. 3 Credits.

Practical application of the knowledge and skills acquired during the master's program. Capstone team projects are chosen in consultation with the instructor. In addition to the specific prerequisite courses, completion of five pre-approved data science courses is required prior to enrollment. Restricted to students in their final semester of the MS in data science program. Prerequisites: DATS 6101, DATS 6102 and DATS 6103.

DATS 6810. Hot Topics in Big Data Analytics. 3 Credits.

This course will enhance students' big-data analysis and statistical skills, and is aimed at upper-level undergraduate and graduate students from the physical, biological and social sciences. In addition to over-viewing standard tools using R, it will expose students to current thinking about real data, analysis and modeling in our 'non-normal' world where distributions are fat-tailed rather than approximately normal, and where processes are bursty rather than approximately Poisson. Its cross-disciplinary approach will also help address the likely challenge facing next-generation researchers and employees, to 'understand' real-world data not only through statistical tests, but also by building generative simulations (e.g. in C) that reproduce the statistical stylized facts of real-world data sets. Other topics to be discussed include networks, machine-learning, as well as web-scraping of data – e.g. from social media sources. Restricted to Graduate and advance undergraduate students with permission of the instructor. Prerequisite: MATH 2184. Recommended background: Competency in single-variable calculus; MATH 2233 would be beneficial but is not strictly necessary. (Same as PHYS 6810).

BACHELOR OF SCIENCE WITH A MAJOR IN DATA SCIENCE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses (15 credits)		
CSCI 1012	Introduction to Programming with Python	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2184	Linear Algebra I	
STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or STAT 1127	Statistics for the Biological Sciences	
Core courses (18 credits)		
DATS 1001	Data Science for All	
DATS 2101	Ethical Life in a Digital World	
DATS 2102	Data Visualization for Data Science	
DATS 2103	Data Mining for Data Science	
DATS 2104	Data Warehousing for Data Science	
DATS 4001	Data Science Capstone	
Domain concentration (9 credits)		
Students must complete a 9-credit domain concentration. Domain options are astronomy and astrophysics; biology-biodiversity and global change; biology-biotechnology; data journalism; geospatial data science; mathematical modeling; physics; and science, technology, and society.		
Students may petition to substitute a second major or a minor in another discipline for the domain.		
Astronomy and astrophysics domain		
Prerequisites		

PHYS 1011 & PHYS 1021	General Physics I and University Physics I
PHYS 1012 & PHYS 1022	General Physics II and University Physics II
Required	
ASTR 2121	Introduction to Modern Astrophysics
One course from the following:	
ASTR 2131	Astrophysics Seminar
ASTR 3141	Data Analysis in Astrophysics
ASTR 3161	Space Astrophysics
Biology-biodiversity and global change domain	
Prerequisites	
BISC 1111	Introductory Biology: Cells and Molecules
BISC 1112	Introductory Biology: The Biology of Organisms
Required	
BISC 2450	Organic Evolution
Two courses from the following:	
BISC 2010	Global Change Biology
BISC 2332	Comparative Vertebrate Anatomy
BISC 2333	Evolution and Extinction of Dinosaurs
BISC 2454	General Ecology
BISC 3454	Marine Ecology
BISC 3458	Plant Comparative Structure and Function
BISC 3460	Conservation Biology
Biology-biotechnology domain	
Prerequisites	
BISC 1111	Introductory Biology: Cells and Molecules
BISC 1112	Introductory Biology: The Biology of Organisms
BISC 2202	Cell Biology
BISC 2337	Introductory Microbiology Laboratory

CHEM 1111	General Chemistry I
CHEM 1112	General Chemistry II
BISC 3209	Molecular Biology
BISC 3209	Molecular Biology
Required	
BISC 2207	Genetics
Two courses from the following:	
BISC 2202	Cell Biology
BISC 2213	Biology of Cancer
BISC 2337	Introductory Microbiology Laboratory
BISC 3209	Molecular Biology
PUBH 3201	Introduction to Bioinformatics
Data journalism domain	
Prerequisite	
SMPA 2110W	Introduction to News Writing and Reporting
Required	
SMPA 2111W	Advanced News Reporting
SMPA 3230	Reporting in the Digital Age
One course from the following:	
SMPA 3233	Photojournalism
SMPA 3234	Editing and Design for Print and Web
SMPA 3235W	Broadcast News Writing
SMPA 3240W	Washington Reporting
SMPA 3241W	Campaign Reporting
SMPA 3242	Investigative Reporting
SMPA 3246	Specialized Reporting
Geospatial data science domain	
Required	
GEOG 2104	Introduction to Cartography and GIS
GEOG 3105	Techniques of Spatial Analysis
One course from the following:	

GEOG 3106	Intermediate Geographic Information Systems
GEOG 3107	Introduction to Remote Sensing
GEOG 3196	Special Topics in Techniques (Mathematical modeling domain)
Mathematics domain	
Prerequisite	
MATH 2233	Multivariable Calculus
Required	
Three courses from the following:	
MATH 3553	Introduction to Numerical Analysis
MATH 3359	Introduction to Mathematical Modeling
MATH 4981	Seminar: Topics in Mathematics (Complex Networks)
MATH 4981	Seminar: Topics in Mathematics (Bioinformatics Algorithms)
MATH 4981	Seminar: Topics in Mathematics (Wavelets and Fourier Analysis)
STAT 4197	Fundamentals of SAS Programming for Data Management
Physics domain	
Prerequisites	
MATH 2233	Multivariable Calculus
MATH 3342	Ordinary Differential Equations
PHYS 1021 & PHYS 1025	University Physics I and University Physics I with Biological Applications
PHYS 1022 & PHYS 1026	University Physics II and University Physics II with Biological Applications
Required:	
PHYS 2023	Modern Physics
PHYS 3161	Mechanics
PHYS 3181	Computational Physics
Science, technology, and society domain	
Three courses from the following:	

AMST 2610	Science, Technology, and Politics in Modern America
or HIST 2610	Science, Technology, and Politics in Modern America
AMST 2620	Human Mind and Artificial Intelligence
AMST 2680W	Hashtag America
ANTH 2502	Anthropology of Science and Technology: Twenty-First Century Brave New Worlds
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3691	Special Topics in Linguistic Anthropology
SMPA 3476	Media, Technology, and Culture
SMPA 3477	Information Technology and Politics

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

MINOR IN DATA SCIENCE

The following requirements must be fulfilled: 21 credits including 9 credits in prerequisite courses and 12 credits in required courses.

Code	Title	Credits
Prerequisite courses for the minor (9 credits)		
CSCI 1012	Introduction to Programming with Python	
MATH 1231	Single-Variable Calculus I ¹	
STAT 1051	Introduction to Business and Economic Statistics ²	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or STAT 1127	Statistics for the Biological Sciences	
Required courses for the minor (12 credits)		
DATS 1001	Data Science for All	

DATS 2101	Ethical Life in a Digital World
DATS 2102	Data Visualization for Data Science
One of the following:	
DATS 2103	Data Mining for Data Science
DATS 2104	Data Warehousing for Data Science

DUAL BS IN AN APPROVED COLUMBIAN COLLEGE PROGRAM AND MS IN THE FIELD OF DATA SCIENCE

The Columbian College of Arts and Sciences and the Department of Data Science work in coordination to offer a dual bachelor of science in an approved Columbian College program and master of science in the field of data science (p. 210) degree program. This dual program allows students the opportunity to study fundamental ideas that underlie the process of using data and problem solving and to apply the knowledge they gain to real-world scenarios. This is accomplished through elective coursework and partnerships with organizations in a variety of market areas, including health sciences, geography, cybersecurity, and public policy, to name a few. The program allows students to take up to 7.5 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://datasci.columbian.gwu.edu/ms-degree/>) for additional information.

DUAL MASTER OF SCIENCE IN THE FIELD OF DATA SCIENCE AND CERTIFICATE IN GEOGRAPHIC INFORMATION SYSTEMS

The Data Science Program and the Department of Geography (<https://geography.columbian.gwu.edu/>) work in conjunction to offer a dual Master of Science in Data Science and Graduate Certificate in Geographical Information Systems (GIS).

The graduate certificate program helps students acquire the knowledge and skills to move directly from the classroom into the workplace as environmental scientists, civil engineers and public health officials in the public and private sectors.

The curriculum guides students through all aspects of GIS theory and practice, from the science of cartography to database design and geospatial modeling.

Visit the Department of Data Science (<https://datasci.columbian.gwu.edu/ms-degree/>) website for additional information.

MASTER OF SCIENCE IN THE FIELD OF DATA SCIENCE

The explosion of data in today's world is rapidly shaping the landscape of our lives. This has led to an urgent need to process massive amount of information and obtain meaningful insights. Data scientists are trained to meet such challenges. Through a structured curriculum that provides foundational knowledge as well as application skills, students in the Data Science program learn how to confront the most complex problems across both government and private industry using data-driven decisions.

Data Science is an emerging field that aims to draw actionable conclusions from data. It uses techniques and theories from the broader areas of statistics, computer science, and mathematics. Its applications are in many fields including business, engineering, natural sciences, social sciences, humanities, and health care.

The STEM-designated Master of Science degree in Data Science provides a deep foundation in statistical analysis and programming. It also offers knowledge of the application domain, in addition to project management skills. Graduates of the MS in Data Science apply data science techniques to the solution of real world problems, communicate findings, and effectively present results using data visualization tools.

Developed through a collaborative effort between the Departments of Statistics, Mathematics, Physics, Economics, Geography and Political Science, the Data Science Program gives students cutting-edge tools for analyzing "Big Data" and teaches them how to extract the insights that are changing the way we live, work, and communicate.

Visit the program website (<https://datasci.columbian.gwu.edu/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits, including 18 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
DATS 6101	Introduction to Data Science	
DATS 6102	Data Warehousing	
DATS 6103	Introduction to Data Mining	
DATS 6501	Data Science Capstone	
DATS 6202	Machine Learning I: Algorithm Analysis	
DATS 6401	Visualization of Complex Data	
Electives		

12 credits in elective courses in DATS numbered 6000 or above.

GRADUATE CERTIFICATE IN DATA SCIENCE

The explosion of data in today's world is rapidly shaping the landscape of our lives. This has led to an urgent need to process massive amount of information and obtain meaningful insights. Data scientists are trained to meet such challenges. Through a structured curriculum that provides foundational knowledge as well as application skills, students in the Data Science program learn how to confront the most complex problems across both government and private industry using data-driven decisions.

Data Science is an emerging field that aims to draw actionable conclusions from data. It uses techniques and theories from the broader areas of statistics, computer science, and mathematics. Its applications are in many fields including business, engineering, natural sciences, social sciences, humanities, and health care.

Data Science, and the associated areas referred to as big data and data analytics, is a rapidly emerging technology field fueled by the dramatic growth in the amount of data involved in most areas of society. The 12-credit graduate certificate in data science program allows students to study fundamental ideas that underlie large data systems and document a knowledge base for work in data intensive jobs. Credit earned in the certificate program may be applied to the master of science in the field of data science degree program.

Visit the program website (<https://datasci.columbian.gwu.edu>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
Two courses from the following:		
DATS 6101	Introduction to Data Science	
DATS 6102	Data Warehousing	
DATS 6103	Introduction to Data Mining	
Electives		

Two additional DATS courses numbered 6000 or above.

EAST ASIAN LANGUAGES AND LITERATURES

OVERVIEW

The Department of East Asian Languages and Literatures offers instruction in the languages and cultures of China, Japan, and Korea. Courses in the fields of language, literature, and cultural studies introduce students to the long and unique civilizations of the East Asian peoples. The curriculum prepares students for careers in academia, business, diplomacy, government, medicine, and law, among other fields where knowledge of East Asia is critically important.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in Chinese language and literature (p. 212)
- Bachelor of Arts with a major in Japanese language and literature (p. 214)
- Bachelor of Arts with a major in Korean language and literature (p. 215)

Minors

- Minor in Chinese language and literature (p. 218)
- Minor in Japanese language and literature (p. 219)
- Minor in Korean language and literature (p. 219)

GRADUATE

Master's program

- Master of Arts in the field of Chinese language and culture (p. 217)

FACULTY

Professors J. Chaves, S. Hamano (*Chair, fall 2020*)

Associate Professors H. Dong, I. Kim (*Chair, spring 2021*), T. Tsujioka (*Teaching*), H. Zhang, P. N. Zhang

Assistant Professors B. Morley, L. Chen, I. Ko (*Teaching*), B. Morley, M.D. Pak, M. Wei (*Teaching*)

Professorial Lecturers Y. Kang, C. Yang

Lecturers W.K. Cavanaugh, M.Coss, M. Ichikawa, Q. Zhou

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Chinese (CHIN) (p. 1450)
- East Asian Languages and Literature (EALL) (p. 1537)
- Japanese (JAPN) (p. 1671)
- Korean (KOR) (p. 1673)
- Vietnamese (VIET) (p. 1856)

BACHELOR OF ARTS WITH A MAJOR IN CHINESE LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

39 credits in required courses.

Code	Title	Credits
Prerequisite courses		
CHIN 1001	Beginning Chinese I	
CHIN 1002	Beginning Chinese II	
CHIN 2003	Intermediate Chinese I	
CHIN 2004	Intermediate Chinese II	
Required for the major		
CHIN 3105	Intermediate Chinese III	
CHIN 3106	Intermediate Chinese IV	

CHIN 3109	Introduction to Classical Chinese I
CHIN 3110	Introduction to Classical Chinese II
CHIN 3111	Chinese Literature in Translation I
CHIN 3112	Chinese Literature in Translation II
CHIN 4107	Readings in Modern Chinese I
or CHIN 4108	Readings in Modern Chinese II
CHIN 4121W	Advanced Conversation and Composition I
or CHIN 4122W	Advanced Conversation and Composition II
or CHIN 4119W	Business Chinese
Three additional upper-level courses (9 credits) in Chinese language and culture, selected from the following list:	
CHIN 3116	Language Policy of China
CHIN 3123	Introduction to Chinese Linguistics
CHIN 3124	Introduction to Chinese Linguistics
CHIN 3136W	Chinese Women in Myth, Literature, and Film
or WGSS 3136	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
CHIN 3163	Taiwanese Literature and Film
CHIN 3171	Poetry of the Tang and Song Periods I
CHIN 3172	Poetry of the Tang and Song Periods II
CHIN 3173	Chinese Drama and Theatre
CHIN 4108	Readings in Modern Chinese II
CHIN 4119W	Business Chinese
CHIN 4122W	Advanced Conversation and Composition II
CHIN 4179	Twentieth-Century Chinese Literature I
CHIN 4180W	Twentieth-Century Chinese Literature II
CHIN 4185	Directed Reading I
CHIN 4186W	Directed Reading II
CHIN 4198	Proseminar: Readings for the Major in Chinese Language and Literature
CHIN 4199	Proseminar: Readings for the Major in Chinese Language and Literature

Two additional courses related to China (6 credits), selected from the following:

AH 2190	East Asian Art
ANTH 3705	Anthropology of East Asia
EALL 3811	Confucian Literature in East Asia
or REL 2811	Confucian Literature in East Asia
EALL 3814	Religion and Philosophy in East Asia
or EALL 3814W	Religion and Philosophy in East Asia
or REL 2814	Religion and Philosophy in East Asia
ECON 2169	Introduction to the Economy of China
HIST 3610	China to 1800
HIST 3611	History of Modern China
HIST 3614	Writing Modern Chinese History
or HIST 3614W	Writing Modern Chinese History
HIST 3615	History of Chinese Communism
IAFF 2091	East Asia-Past and Present
JAPN 3111	Japanese Literature in Translation I
JAPN 3112	Japanese Literature in Translation II
JAPN 3162	Japanese Culture Through Film
or ANTH 3709	Japanese Culture Through Film
KOR 3111	Korean Literature in Translation
KOR 3112	Korean Literature in Translation
PSC 2370	Comparative Politics of China and Northeast Asia
PSC 2371	Politics and Foreign Policy of China
PSC 2475	International Relations of East Asia
REL 2601	Buddhism
REL 2831	Introduction to Daoism
or EALL 3831	Introduction to Daoism
or EALL 3831W	Introduction to Daoism

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education

curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may

count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

East Asian Languages and Literatures faculty recommend students for ALL departmental special honors based on the following criteria:

In addition to the general requirements stated under University Regulations, candidates for special honors must have attained by the end of the fall semester of the senior year:

- A minimum 3.7 grade-point average in courses in the major.
- A minimum 3.4 overall grade-point average.
- A minimum grade of C- in all courses taken at GW.
- Qualified students may be invited, by the beginning of the fall semester of the senior year, to write an honors thesis, under the supervision of a faculty member, through CHIN 4199 Proseminar. Only if a committee of three faculty members approves the completed project are special honors recommended; the research project must be graded A or A-.

BACHELOR OF ARTS WITH A MAJOR IN JAPANESE LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
JAPN 1001	Beginning Japanese I	
JAPN 1002	Beginning Japanese II	
JAPN 2003	Intermediate Japanese I	
JAPN 2004	Intermediate Japanese II	
Required for the major		
JAPN 3105	Intermediate Japanese III	
JAPN 3106	Intermediate Japanese IV	
JAPN 3111	Japanese Literature in Translation I	

JAPN 3112	Japanese Literature in Translation II
JAPN 4109	Introduction to Bungo, Literary Japanese
Six additional JAPN courses (18 credits) numbered 3000 or above.	
Two additional courses (6 credits) selected from the following:	
AH 2190	East Asian Art
ANTH 3705	Anthropology of East Asia
CHIN 3111	Chinese Literature in Translation I
CHIN 3112	Chinese Literature in Translation II
CHIN 3136W	Chinese Women in Myth, Literature, and Film
or WGSS 3136	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
EALL 3811	Confucian Literature in East Asia
or REL 2811	Confucian Literature in East Asia
EALL 3814	Religion and Philosophy in East Asia
or REL 2814	Religion and Philosophy in East Asia
EALL 3831	Introduction to Daoism
or REL 2831	Introduction to Daoism
ECON 2170	Introduction to the Economy of Japan
HIST 3610	China to 1800
HIST 3611	History of Modern China
HIST 3621	History of Modern Japan
IAFF 2091	East Asia-Past and Present
KOR 3111	Korean Literature in Translation

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

EALL faculty will recommend students for EALL departmental special honors based on the following criteria:

In addition to the general requirements stated under University Regulations, candidates for special honors must have attained by the end of the fall semester of the senior year:

- a 3.7 grade-point average in the Japanese major
- at least a 3.4 average overall
- a minimum of C- in every course that they have taken at GW

The Japanese program selects two students at the most based on the students' overall performance in the program.

BACHELOR OF ARTS WITH A MAJOR IN KOREAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

39 credits in required courses.

Code	Title	Credits
Prerequisite courses		
KOR 1001	Beginning Korean I	
KOR 1002	Beginning Korean II	
KOR 2003	Intermediate Korean I	
KOR 2004	Intermediate Korean II	
Required for the major		
KOR 3105	Intermediate Korean III	
KOR 3106	Intermediate Korean IV	
KOR 3111	Korean Literature in Translation	

KOR 3112	Korean Literature in Translation
KOR 4107	Readings in Modern Korean I
KOR 4108	Readings in Modern Korean II
KOR 4121W	Advanced Korean Conversation and Composition I
or KOR 4122W	Advanced Korean Conversation and Composition II
Four additional upper-level courses (12 credits) selected from the following:	
KOR 3123	Introduction to Korean Linguistics
KOR 3124	Introduction to Korean Linguistics
KOR 3162	Korean Culture through Film
KOR 4109	Introduction to the History of the Korean Language
KOR 4190	North Korean Society and Culture
Two courses (6 credits) related to Korea selected from the following:	
AH 2190	East Asian Art
ANTH 3705	Anthropology of East Asia
CHIN 3111	Chinese Literature in Translation I
CHIN 3112	Chinese Literature in Translation II
EALL 3811	Confucian Literature in East Asia

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or

interpretation of artistic traditions or knowledge of art in a contemporary context.

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

The East Asian Languages and Literatures faculty recommends students for all departmental special honors based on the following criteria:

In addition to the general requirements stated under University Regulations, candidates for special honors must have attained by the end of the fall semester of the senior year:

- A 3.7 grade-point average in courses in the major.
- At least a 3.4 overall grade-point average.
- A minimum grade of C- in all courses taken at GW.

The Korean program selects at most two students for special honors based on the students' overall performance in the program.

MASTER OF ARTS IN THE FIELD OF CHINESE LANGUAGE AND CULTURE

The Master of Arts degree in Chinese Language and Culture (CLC) offers students the opportunity to deepen intellectual and cultural understanding of China as well as to learn the Chinese language. It prepares students for careers in various fields such as academia, consulting, government, business, non-profit, or education. Being in the heart of the nation's

capital, our program allows students the opportunity to interact with many leading organizations, business headquarters, consulting firms, and government and media agencies based in D.C. Students can enrich their learning experiences with additional activities.

Here are the program highlights:

- The only MA program of its kind in the greater D.C. region
- Customized curriculum to suit personal interests and career goals
- Close mentorship from well-established scholars and award-winning teachers in the department
- Competitive teaching assistant or internship positions
- Numerous China-related events and lectures on and off campus
- Preparation for the pursuit of either a professional career or doctoral studies
- Access to the many resources of downtown Washington, D.C.
- Building a professional network to support career opportunities

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs.

30 credits for the thesis option, 33 credits for the non-thesis option.

Program Requirements

Course List	Code	Title	Credits
-------------	------	-------	---------

Required

Language Proficiency

Students whose Chinese language skills are determined by examination to be below the advanced level must take CHIN 4108: Readings in Modern Chinese. Students whose skills are determined to be at the required level take an alternative 3-credit course, which must be pre-approved.

Major Field Courses

A minimum of 18 credits from the following:

CHIN 6109	Introduction to Classical Chinese
CHIN 6110	Introduction to Classical Chinese 2
CHIN 6111	Chinese Literature in Translation
CHIN 6112	Chinese Literature in Translation II

CHIN 6123	Structure of Chinese
CHIN 6125	History of the Chinese Language
CHIN 6126	Chinese Phonology
CHIN 6128	Chinese Semantics
CHIN 6163	Taiwanese Literature and Film
CHIN 6171	Poetry of the Tang and Song Periods I
CHIN 6172	Poetry of the Tang and Song Periods II
CHIN 6173	Traditional Chinese Theatre and Drama
CHIN 6179	Twentieth-Century Chinese Literature I
CHIN 6180	Twentieth-Century Chinese Literature II
CHIN 6199	Graduate Seminar
CHIN 6201	Second Language Acquisition of Mandarin Chinese
CHIN 6210	Introduction to Teaching Chinese as a Foreign Language
CHIN 6310	Practicum in Chinese Language Instruction

Electives

A minimum of 6 credits from the following:

CHIN 6550	Independent Study for Chinese Language and Culture (Thesis Option) *
CHIN 6841	Religion and Politics in China
CPED 6557	Second Language Acquisition
CPED 6627	Teaching Second Language Reading and Writing
EALL 6811	Confucian Literature in East Asia
EALL 6831	Introduction to Daoism
EALL 6832	Myth, Ritual, and Popular Religion in China
EALL 6881	Women, Gender, and Religion in China

HIST 6610 Readings Seminar: Late Imperial China (Thesis Option (3 credits)) *

Thesis option

For students pursuing the thesis option a total of 3 credits from the following:

CHIN 6999	Thesis Research
-----------	-----------------

*Or an alternative pre-approved course.

**Students must submit a research proposal before enrolling in CHIN 6550.

Visit the program website for additional information.

MINOR IN CHINESE LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

18 credits in required courses.

Code	Title	Credits
Prerequisite courses		

CHIN 1001	Beginning Chinese I
CHIN 1002	Beginning Chinese II
CHIN 2003	Intermediate Chinese I
CHIN 2004	Intermediate Chinese II

Code	Title	Credits
Required for the minor		

CHIN 3105	Intermediate Chinese III
CHIN 3106	Intermediate Chinese IV

One upper-level language course (3 credits) selected from the following:

CHIN 4107	Readings in Modern Chinese I
CHIN 4108	Readings in Modern Chinese II
CHIN 4119W	Business Chinese
CHIN 4121W	Advanced Conversation and Composition I

CHIN 4122W	Advanced Conversation and Composition II
------------	--

Three additional courses (9 credits) in Chinese language and literature selected from the following:

CHIN 3109	Introduction to Classical Chinese I
CHIN 3110	Introduction to Classical Chinese II
CHIN 3111	Chinese Literature in Translation I
CHIN 3112	Chinese Literature in Translation II
CHIN 3116	Language Policy of China

CHIN 3123	Introduction to Chinese Linguistics
CHIN 3124	Introduction to Chinese Linguistics
CHIN 3136W	Chinese Women in Myth, Literature, and Film
or WGSS 3136W	Chinese Women in Myth, Literature, and Film
CHIN 3163	Taiwanese Literature and Film
CHIN 3171	Poetry of the Tang and Song Periods I
CHIN 3172	Poetry of the Tang and Song Periods II
CHIN 3173	Chinese Drama and Theatre
CHIN 4179	Twentieth-Century Chinese Literature I
CHIN 4180W	Twentieth-Century Chinese Literature II

Visit the program website (<https://eall.columbian.gwu.edu/major-and-minor-chinese/>) for additional information.

MINOR IN JAPANESE LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

Code	Title	Credits
Prerequisite courses		
JAPN 1001	Beginning Japanese I	
JAPN 1002	Beginning Japanese II	
JAPN 2003	Intermediate Japanese I	
JAPN 2004	Intermediate Japanese II	
Required for the minor		
Six JAPN courses (18 credits) numbered 3000 or above, at least one of these must be selected from the following:		
JAPN 4107	Readings in Modern Japanese I	
JAPN 4108	Readings in Modern Japanese II	
JAPN 4109	Introduction to Bungo, Literary Japanese	
JAPN 4110	Readings in Classical Japanese	
JAPN 4121W	Advanced Conversation and Composition I	

JAPN 4122W	Advanced Conversation and Composition II
------------	--

MINOR IN KOREAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

18 credits in required courses.

Code	Title	Credits
Prerequisite courses		
KOR 1001	Beginning Korean I	
KOR 1002	Beginning Korean II	
KOR 2003	Intermediate Korean I	
KOR 2004	Intermediate Korean II	
Required for the minor		
KOR 3105	Intermediate Korean III	
KOR 3106	Intermediate Korean IV	
One course (3 credits) selected from the following:		
KOR 4107	Readings in Modern Korean I	
KOR 4108	Readings in Modern Korean II	
KOR 4121W	Advanced Korean Conversation and Composition I	
KOR 4122W	Advanced Korean Conversation and Composition II	
Three courses (9 credits) in Korean language and literature selected from the following. At least one course must be in Korean literature.		
KOR 3111	Korean Literature in Translation	
KOR 3112	Korean Literature in Translation	
KOR 3123	Introduction to Korean Linguistics	
KOR 3124	Introduction to Korean Linguistics	
KOR 3162	Korean Culture through Film	

ECONOMICS

The study of economics investigates the consequences of scarcity, which forces people, organizations, and governments to choose among competing objectives. Economics looks at these choices and how they affect the production of goods and services, market prices, national output, unemployment, inflation, economic growth, and the use and distribution of resources within and across nations. Part of the social and behavioral sciences in the Columbian College of Arts and Sciences, the economics program exposes students to macroeconomics, microeconomics, labor economics, the economics of industry, international finance, international trade and development, money and banking, the economics of government and public policy, and econometrics.

Visit the Department of Economics website (<https://economics.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in economics (p. 227)
- Bachelor of Science with a major in economics (p. 229)

Combined programs (<http://bulletin.gwu.edu/arts-sciences/economics/combined-bs-ma/>)

- Dual Bachelor of Arts or Bachelor of Science with a major in economics and Master of Public Policy (p. 231)

Minor

- Minor in economics (p. 231)

GRADUATE

Master's programs

- Master of Arts in the field of applied economics (p. 231)

Doctoral program

- Doctor of Philosophy in the field of economics (p. 232)

Combined programs

- Dual Master of Arts in the field of applied economics and graduate certificate in accountancy (p. 233)
- Dual Master of Arts in the field of applied economics and graduate certificate in budget and public finance (p. 233)
- Dual Master of Arts in the field of applied economics and graduate certificate in business analytics (p. 234)

- Dual Master of Arts in the field of applied economics and graduate certificate in data science (p. 234)
- Dual Master of Arts in the field of applied economics and graduate certificate in digital marketing and communications (p. 234)
- Dual Master of Arts in the field of applied economics and graduate certificate in environmental resource policy (p. 234)
- Dual Master of Arts in the field of applied economics and graduate certificate in financial management (p. 234)
- Dual Master of Arts in the field of applied economics and graduate certificate in geographic information systems (p. 234)
- Dual Master of Arts in the field of applied economics and graduate certificate in sports management (p. 235)
- Dual Master of Arts in the field of applied economics and graduate certificate in walkable urban real estate development (p. 235)

FACULTY

Professors M.D. Bradley, M.X. Chen, B.R. Chiswick, J.J. Cordes, V. Fon, J.E. Foster, S. Joshi (*Chair*), F.L. Joutz, G.L. Kaminsky, P. Labadie, A.S. Malik, M.O. Moore, D.O. Parsons, J. Pelzman, R.F. Phillips, R.M. Samaniego, J.C. Shambaugh, S.C. Smith, N. Vonortas, A.M. Yezer

Associate Professors P. E. Carrillo, I.R. Foster, R.C. Jedwab, W.P. Mullin, T. Sinclair, S.M. Suranovic, C. Wei, J. Weiner

Assistant Professors S. Hamilton, E.W.K. Hovander, D. Mackay, B.A. Stuart, P. Tien, O. Timoshenko, B.D. Williams, T. Williams

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental Prerequisite: ECON 1011 Principles of Economics I-ECON 1012 Principles of Economics II is prerequisite to all other undergraduate courses offered by the Department of Economics.

Courses at the 8000 level are specifically designed for economics graduate students and typically require knowledge of calculus and one or more of the core theory and econometrics courses. Less-well-prepared graduate students in other disciplines may register for 6000-level courses

after having completed ECON 6217 Survey of Economics I-ECON 6218 Survey of Economics II, or ECON 6218 Survey of Economics II and ECON 6219 Managerial Economics, or ECON 2101 Intermediate Microeconomic Theory and ECON 2102 Intermediate Macroeconomic Theory, or ECON 2103 Intermediate Microeconomic Theory: A Mathematical Approach and ECON 2104 Intermediate Macroeconomic Theory: A Mathematical Approach, unless the course description indicates that these prerequisites have been waived. Intermediate-level micro and macro courses taken elsewhere usually satisfy this requirement, but introductory or first-year courses do not. Graduate students in economics can take 6000-level courses only with permission of their advisor.

ECON 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

ECON 1001. Principles of Mathematics for Economics. 3 Credits.

Prepares students for college instruction in principles of microeconomic and macroeconomic theory, as well as instruction in business, social science, and basic science courses that do not require knowledge of calculus. Restricted to students who have successfully completed high school algebra I and basic geometry prior to matriculation and who have taken the Assessment and Learning in Knowledge Spaces (ALEKS) placement examination at GW; No minimum ALEKS score is required for this course.

ECON 1011. Principles of Economics I. 3 Credits.

Major economic principles, institutions, and problems in contemporary life. Microeconomics—supply and demand, the price system and how it works, competitive and monopolistic markets. Credit cannot be earned for this course and HONR 2043.

ECON 1012. Principles of Economics II. 3 Credits.

Continuation of ECON 1011. Major economic principles, institutions, and problems in contemporary life. Topics in macroeconomics, including national income concepts, unemployment and inflation, institutions of monetary control. Prerequisite: ECON 1011 OR HONR 2043. Credit cannot be earned for this course and HONR 2044.

ECON 1099. Variable Topics. 1-36 Credits.

ECON 2101. Intermediate Microeconomic Theory. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions. Analysis of firm behavior, including derivation of supply frameworks. Demand and supply interaction under various market structures and in factor markets. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2103.

ECON 2102. Intermediate Macroeconomic Theory. 3 Credits.

Investigation of the determinants of national income, inflation, unemployment, and interest rates. Alternative business cycle theories, with emphasis on the role of imperfect information, uncertainty, and expectations. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2104.

ECON 2103. Intermediate Microeconomic Theory: A Mathematical Approach. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions, and of firm behavior, including derivation of supply frameworks; demand and supply interaction under various market structures and in factor markets; reliance on constrained and unconstrained optimization techniques when analyzing household and firm behavior. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2101.

ECON 2104. Intermediate Macroeconomic Theory: A Mathematical Approach. 3 Credits.

Development and application of mathematical models of aggregate economic behavior with a focus on the intertemporal choices made by households, firms, and governments. Corequisite: MATH 1232. Recommended for students pursuing the BS degree in economics. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044; and MATH 1221 or MATH 1231 or MATH 1252. Credit cannot be earned for this course and ECON 2102.

ECON 2121. Financial Economics. 3 Credits.

Economic analysis of key financial institutions, markets, and variables. Investigation of the performance of asset markets and the roles of money, credit, interest rates, and exchange rates. Examination of private sector institutions like equity markets and the banking system and the roles of regulators like the Federal Reserve. Credit cannot be earned for both ECON 2121 and ECON/FINA 3301. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044. Credit cannot be earned for this course and FINA 3301.

ECON 2122. Monetary Theory and Policy. 3 Credits.

Analysis of classic and modern monetary theories and their application to current economic conditions. The links between theory and policy. The altered role of money over time; the new money technology. Prerequisites: ECON 1011 and ECON 1012.

ECON 2123. Introduction to Econometrics. 3 Credits.

Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231; and STAT 1051 or STAT 1053 or STAT 1111. Same As: STAT 2123.

ECON 2136. Environmental and Natural Resource Economics. 3 Credits.

Analysis of a variety of environmental and natural resource problems. The economic causes of these problems, their consequences, and the relative merits of alternative policies for dealing with them. Prerequisites: ECON 1011 and ECON 1012; or HONR 2043 and HONR 2044.

ECON 2148. Survey of Health Economics. 3 Credits.

Economic analysis of the determinants of demand, supply, output, and distribution in the health care sector, with special emphasis on current policy issues of access, quality, and cost. Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 1011 and ECON 1012. Credit cannot be earned for this course and ECON 3148.

ECON 2151. Economic Development. 3 Credits.

Theories and empirical studies of the economic problems of developing countries. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 6250.

ECON 2151W. Economic Development. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: ECON 1011 and ECON 1012.

ECON 2157. Urban and Regional Economics. 3 Credits.

Analysis of the determinants of urban growth and development; firm location; the functioning of urban land and housing markets. Prerequisites: ECON 1011 and ECON 1012.

ECON 2158. Industrial Organization. 3 Credits.

Analysis of market structure, conduct, and performance of firms in a market economy, with emphasis on case studies of U.S. industries. Prerequisite: ECON 1011- ECON 1012.

ECON 2159. Government Regulation of the Economy. 3 Credits.

Economic analysis of antitrust and regulation in the American economy. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103 or ECON 2158.

ECON 2160. Surv:Finance&Engineering Econ. 3 Credits.

ECON 2167. Economics of Crime. 3 Credits.

Analysis of crime, both empirical and theoretical, that examines the links between law and economics, the economics of criminal participation, and the economics of law enforcement. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

ECON 2169. Introduction to the Economy of China. 3 Credits.

Background, organization, and operation of the economy. Appraisal of performance and analysis of problems of development. Prerequisites: ECON 1011 or HONR 2043 and ECON 1012 or HONR 2044.

ECON 2170. Introduction to the Economy of Japan. 3 Credits.

Analysis of the structure and growth of the Japanese economy. Prerequisites: ECON 1011 and ECON 1012.

ECON 2180. Survey of International Economics. 3 Credits.

Basic concepts of international trade and international finance, with emphasis on policy issues. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 6280.

ECON 2181. International Trade Theory and Policy. 3 Credits.

The basis for international trade and the effect of trade on consumers, producers, and workers; causes and effects of the international movement of factors including foreign direct investment, outsourcing, and migration; and the impacts of trade policies and trade agreements. Credit may not be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044. Credit cannot be earned for this course and ECON 3181, ECON 6283.

ECON 2182. International Macroeconomic Theory and Policy. 3 Credits.

Topics include the balance of payments, the determination of exchange rates and prices in open economies, the interaction of the exchange rate and domestic economic activity, international financial markets, and exchange rate and financial crises. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044. Credit cannot be earned for this course and ECON 6284.

ECON 2185. Economic History and Problems of Latin America. 3 Credits.

Analysis of present structures and problems of Latin American economies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044.

ECON 2195W. Special Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ECON 2198. Special Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 and ECON 1012.

ECON 2199. Special Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044.

ECON 3098. Variable Topics - Regional Economics. 1-9 Credits.

.

ECON 3099. Variable Topics. 1-12 Credits.**ECON 3105. Economic Forecasting. 3 Credits.**

Theory and empirical analyses of economic trends and fluctuations; use of economic indicators and simple econometric models. Prerequisites: ECON 1011 and ECON 1012; and ECON 2102 or ECON 2104; and ECON 2123.

ECON 3142. Labor Economics. 3 Credits.

Analysis of labor supply and demand; measurement and theory of unemployment; occupational choice; wage differentials; labor market issues and policies. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

ECON 3148. Health Economics. 3 Credits.

Analysis of economic theories and applications to the demand for and supply of health care. Examination of the role of government in health care, public health, and unhealthy behavior (e.g., smoking). Credit cannot be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 2101 or ECON 2103. Credit cannot be earned for this course and ECON 2148.

ECON 3161. Public Finance: Expenditure Programs. 3 Credits.

Economic analysis of government spending and social regulation program; public goods, externalities, income transfer and social insurance programs, and benefit-cost analysis of government programs. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3162. Public Finance: Taxation. 3 Credits.

Economic analysis of taxes. Topics include individual and corporate income taxes, payroll taxes, sales and excise taxes, property and wealth taxes, design of tax systems, and effects of taxation on labor and capital markets. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 and HONR 2044; and ECON 2101 or ECON 2103.

ECON 3165. Economics of Human Resources. 3 Credits.

Economic analysis of education and training, labor market discrimination, marriage and the family, and social security. Prerequisites: ECON 1011 and ECON 1012; and ECON 2101 or ECON 2103.

ECON 3181. International Trade Theory. 3 Credits.

Rigorous examination of theories of international trade that explain why countries trade and their gains from trade. Theories include comparative advantage, the factor-proportions theory of trade, and recent theoretical developments. The course also deals with the theory of trade policies, such as tariffs and quotas. Credit cannot be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103; and MATH 1221, MATH 1231, or MATH 1252. Credit cannot be earned for this course and ECON 2181.

ECON 3190. Law and Economics. 3 Credits.

An introduction to the economic analysis of legal systems. How laws alter behavior and how laws might be designed to satisfy efficiency and fairness criteria. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3191. Game Theory. 3 Credits.

Introduction to game theory, covering concepts such as Nash equilibrium, evolutionary games, backward induction and subgame perfection, Bayesian-Nash games of imperfect information, adverse selection, and moral hazard. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and ECON 2101 or ECON 2103.

ECON 3198. Advanced Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON 2104) or ECON 2123.

ECON 3199. Advanced Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON 2104) or ECON 2123.

ECON 4198W. Proseminar in Economics. 3 Credits.

Preparation and presentation of a research paper in any field of economics agreed upon by the student and instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the economics program. Prerequisites: ECON 2101 or ECON 2103; and ECON 2102 or ECON 2104. Recommended background: Prior or concurrent enrollment in ECON 2123 or STAT 2112 or STAT 2118.

ECON 4199. Independent Research - Economics. 3 Credits.

Independent research. Prerequisites: ECON 1011 and ECON 1012; and completion of 12 credits of upper-division economics courses, including ECON 2101 or ECON 2103 and ECON 2102 or ECON 2104, with a minimum grade-point average of 3.4; and approval of an independent research project by a faculty member of the economics department.

ECON 5099. Variable Topics. 1-99 Credits.**ECON 6217. Survey of Economics I. 3 Credits.**

Intermediate-level microeconomic theory for graduate students in fields other than economics.

ECON 6218. Survey of Economics II. 3 Credits.

Continuation of ECON 6217. Intermediate-level macroeconomic theory for graduate students in fields other than economics. (ECON 6217 and ECON 6218--).

ECON 6219. Managerial Economics. 3 Credits.

Intermediate microeconomic theory, with emphasis on production and costs, market structure and pricing, risk analysis, and investment theory and capital budgeting. Credit can be earned for only one of ECON 6217 or ECON 6219.

ECON 6237. Economics of the Environment and Natural Resources. 3 Credits.

Analysis of public policy problems relating to the environment and natural resources development and management.

Prerequisite: ECON 6217.

ECON 6239. Economics of Defense. 3 Credits.

Economic analysis applied to national security planning and objectives. Analysis of defense establishment problems, including manpower, the defense industry base, procurement policy.

ECON 6248. Health Economics. 3 Credits.

Demand for medical care; organization of the health care delivery industry; policy issues on regulation, efficiency, and allocation of health care services.

ECON 6249. Industrial Org-TComm Industry. 3 Credits.**ECON 6250. Survey of Economic Development. 3 Credits.**

An introduction to economic problems faced by less developed countries. Emphasis on applications to policymaking and evaluation. Prerequisite: ECON 6217 or ECON 6280 or equivalent. Credit cannot be earned for this course and ECON 2151.

ECON 6255. Economics of Technological Change. 3 Credits.

Economics of research and development; innovation and growth; the role of government in the development and use of new technology.

ECON 6269. Economy of China I. 3 Credits.

Analysis of organization, operation, policies, and problems. Development of the economy since 1949.

ECON 6270. Economy of China II. 3 Credits.

Continuation of ECON 6269. Examination of critical problems of development. Prerequisites: ECON 6269 or permission of the instructor.

ECON 6271. Economy of Japan. 3 Credits.

Analysis of Japanese economic institutions and their contribution to Japan's development.

ECON 6280. Survey of International Economics. 3 Credits.

Introductory international trade and finance, primarily for students in the Elliott School. Topics include the economic effects of trade liberalization and protection, exchange rate determination, and macroeconomic policies in an open economy. Recommended background: introductory microeconomics and macroeconomics. Credit cannot be earned for this course and ECON 2180.

ECON 6283. Survey of International Trade Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Survey of international economics and policy; application of comparative advantage and other arguments for trade; impact of trade on a domestic economy; new arguments for protectionism; and regional trading blocs. Credit cannot be earned for this course and ECON 2181.

ECON 6284. Survey of International Macroeconomics and Finance Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Open economy macroeconomics; international finance; balance of payments accounting; exchange markets; alternative models of balance of payments determination and adjustment; behavior of flexible exchange rate systems. Credit cannot be earned for this course and ECON 2182.

ECON 6285. Economic Development of Latin America. 3 Credits.

Diversity of structures of Latin American economies; import substituting industrialization; inflation; problems of underemployment and income distribution.

ECON 6286. Economic Development of Latin America. 3 Credits.

Continuation of ECON 6285. Structure of trade; protection, exports, and economic development; regional and global economic integration; foreign investment, multinational enterprise, and technology transfer.

ECON 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as GEOG 6290/ SOC 6290/ STAT 6290.

ECON 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as GEOG 6291/ SOC 6291/ STAT 6291.

ECON 6292. Topics in International Trade. 3 Credits.

Topics on international trade issues and policy. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6293. Topics in International Finance. 3 Credits.

Topics on macroeconomic issues and policies in open economies, including exchange rate regimes, determinants of international capital flows, currency crises, financial contagion, current account sustainability and sovereign crises, fiscal problems, and macro-policies in emerging markets and mature economies.

ECON 6294. Topics in Economic Development. 3 Credits.

Topics on economic development issues and policy vary depending on faculty availability and interest. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6295. Special Topics. 3 Credits.

Topics vary, depending on current issues of interest and faculty availability.

ECON 6298. Reading and Research. 3 Credits.

Independent research. Restricted to master's candidates.

ECON 6300. Mathematical Methods for Economics. 3 Credits.

Instruction in the mathematical background required to appreciate and understand the use of mathematics in economic analysis, including multivariable calculus, integral calculus, and linear algebra. Emphasis on techniques for solving systems of equations, unconstrained and constrained optimization, comparative static analysis, difference equations, and analysis of dynamic models and their application to a range of economic problems. Restricted to students in the MA in applied economics program.

ECON 6301. Applied Microeconomic Theory. 3 Credits.

The principal areas of microeconomic theory: consumer demand, decision making under uncertainty, production and costs, game theory, and product markets; both competitive and imperfectly competitive, factor markets, and market failures. Emphasis on the application of theory to microeconomic issues of interest to the private and public sectors, such as product pricing, market entry and deterrence, competition policy, tax policy, and environmental regulation. ECON 6301 may be taken as a corequisite. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

ECON 6305. Applied Macroeconomic Theory. 3 Credits.

Development of an integrated framework for analyzing the determination of macroeconomic variables such as total production, unemployment, interest rates and inflation; interpreting macroeconomic data and macroeconomic policy; linking economic theory and current economic policy. The level of mathematical rigor is above that in a typical intermediate undergraduate macroeconomics course, but below that in a first-year PhD course. ECON 6300 may be taken as a corequisite. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6300.

ECON 6321. Applied Managerial Economics. 3 Credits.

The application of economic principles and methodologies to key management decisions within organizations. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6323. Applied Behavioral Economics. 3 Credits.

The application of economic principles and methodologies to key management decisions within organizations. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6325. Applied Game Theory. 3 Credits.

Equilibrium concepts based on the Nash Equilibrium; application of these concepts to oligopolistic markets, long-term relationships in repeated games, auctions, reputation formation, and others. Recommended background: Prior completion of a course in intermediate microeconomics and one semester of undergraduate calculus.

ECON 6330. Applied Macroeconomics and Money. 3 Credits.

Motivations for employing the modern, expanded tools of a central bank; historical and present limitations. Recommended background: Prior completion of a course in intermediate macroeconomics.

ECON 6335. Applied Financial Derivatives. 3 Credits.

Introduction to the theoretical and practical aspects of financial and derivative markets; application of quantitative and statistical approaches to a variety of problems. Recommended background: Prior completion of a course in intermediate microeconomics.

ECON 6340. Applied Labor Economics and Public Policy. 3 Credits.

Topics in labor economics, including unemployment, unions, immigration, the minimum wage, pensions, worker mobility, and inequality. ECON 6300 may be taken as a corequisite. Prerequisite: ECON 6300.

ECON 6344. Applied Industrial Organization. 3 Credits.

The behavior of firms and implications of market structure and resource allocation; market participants, the role of transaction costs, product differentiation, imperfect knowledge, and market contestability. Public policy related to monopoly regulation and antitrust law. Use of standard microeconomic empirical and theoretical tools, including an introduction to game theory. Recommended background: Prior completion of a course in intermediate microeconomics and one semester of undergraduate calculus.

ECON 6350. Applied Development Economics. 3 Credits.

The complex causes of underdevelopment and contemporary ideas about how to make development succeed; theory underlying development economics, as well as the analytical tools used in development research. Students are expected to have a working understanding of the concepts of calculus. Recommended background: Prior completion of a course in intermediate microeconomics or intermediate macroeconomics.

ECON 6374. Probability and Statistics for Economics. 3 Credits.

Basics of research design, probability theory, mathematical expectations, univariate and bivariate statistical comparison tools, and a brief introduction to regression analysis. Restricted to students in the MA in applied economics program or with the permission of the instructor.

ECON 6375. Applied Econometrics. 3 Credits.

Introduction to the skills needed to critically evaluate and conduct econometric analysis. Multiple regression analysis; theoretical underpinnings of the ordinary least squares estimator; interpreting regression results and how to address common issues that arise in regression analysis; econometric methods to estimate and test economic models and to address causal questions using observational data. Restricted to students in the MA in applied economics program. Prerequisite: ECON 6374.

ECON 6376. Time Series Analysis. 3 Credits.

The tools required to understand, implement, and interpret common models used in time series econometrics. Emphasis on intuition and application. Students become proficient with performing basic time series analysis and forecasting using time series statistical software. Restricted to students in the MA in applied economics program. Prerequisites: ECON 6305 and ECON 6374.

ECON 6997. Independent Research. 1-3 Credits.

This course is limited to master's degree candidates in Economics. Before permission is granted to register for ECON 6997, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. The written plan must also be approved by the program director. This course may be repeated once for credit but to no more than a total of 6 credits.

ECON 6998. Thesis Research. 3 Credits.**ECON 6999. Thesis Research. 3 Credits.****ECON 8301. Microeconomic Theory I. 3 Credits.**

Theory of unconstrained optimization; optimization subject to equality and inequality constraints, along with applications. Profit maximization, utility maximization and cost minimization, concave and quasi-concave functions, monotone comparative statics, duality theory, the envelope theorem and Le Chatelier principle, and the Kuhn-Tucker conditions.

ECON 8302. Microeconomic Theory II. 3 Credits.

Expected utility theory, general equilibrium in a pure exchange economy and economy with production, welfare theorems and the core theory of the competitive firm in the short run and long run, monopoly and price discrimination, models of oligopoly. Prerequisite: ECON 8301.

ECON 8303. Microeconomic Theory III. 3 Credits.

Theory of games, including Nash equilibrium and its refinements and comparative statics, evolutionary game theory, multistage games and subgame perfection, repeated games and oligopolistic supergames, static and dynamic Bayesian games, auction theory, and bargaining theory. Prerequisite: ECON 8301 and ECON 8302.

ECON 8305. Macroeconomic Theory I. 3 Credits.

Alternative theories of income, employment, and the price level; impact of monetary and fiscal policy; role of expectations in the economy; and microfoundations of macroeconomic models and dynamic analysis.

ECON 8306. Macroeconomic Theory II. 3 Credits.

Extensions of alternative models of income determination, economic growth, and the application of analytical frameworks to the U.S. and international economies. Prerequisite: ECON 8305.

ECON 8307. Macroeconomic Theory III. 3 Credits.

Extensions to stochastic and dynamic general equilibrium frameworks, with emphasis on economic policy. Prerequisite: ECON 8306.

ECON 8323. Monetary Theory and Policy I. 3 Credits.

Theory of monetary policy within the framework of contemporary American central banking.

ECON 8324. Monetary Theory and Policy II. 3 Credits.

Continuation of ECON 8323. Theory of monetary policy within the framework of contemporary American central banking.

ECON 8337. Environmental Economics. 3 Credits.**ECON 8341. Labor Economics I. 3 Credits.**

Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8342. Labor Economics II. 3 Credits.

Continuation of ECON 8341. Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8345. Industrial Organization I. 3 Credits.

Economic theory and evidence regarding industrial market structure, conduct, and economic performance.

ECON 8346. Industrial Organization II. 3 Credits.

Continuation of ECON 8345. Economic issues in antitrust and government regulation of the U.S. economy.

ECON 8351. Development Economics I. 3 Credits.

Major analytic concepts, measures, theoretical models, and empirical methods of development economics.

ECON 8352. Development Economics II. 3 Credits.

Continuation of ECON 8351. In-depth examination of special research topics with emphasis on methods in applied microeconomics.

ECON 8357. Regional Economics. 3 Credits.

Study of regional planning and growth models, including input-output, programming, and econometric models used by planning agencies; analysis of interregional production, trade, migration, firm location, and pricing models.

ECON 8358. Urban Economics. 3 Credits.

Analysis of spatial relationships among economic activities within an urban area including the urban land, labor, and housing markets; urban transportation models; fiscal relationships among jurisdictions.

ECON 8363. Public Finance I. 3 Credits.

Theoretical and empirical analysis of the economic role of the public sector and the effects of public expenditures on resource allocation and income distribution. Topics include public goods, externalities, social insurance, and benefit-cost analysis.

ECON 8364. Public Finance II. 3 Credits.

Theoretical and empirical analysis of the effects of taxes and transfers on the allocation of resources and income distribution. Topics include partial and general equilibrium models of tax incidence, effects of taxes on labor supply, saving, and portfolio choices of households and on investment and financing decisions of firms.

ECON 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as STAT 8375.

ECON 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as STAT 8376. Prerequisite: ECON 8375.

ECON 8377. Econometrics III. 3 Credits.

Econometric methods for systems of equations and panel data, with additional topics that may vary from year to year. Prerequisite: ECON 8376.

ECON 8378. Economic Forecasting. 3 Credits.

Introduction to the theoretical and applied aspects of economic forecasting. Topics include the role of forecasting, univariate time-series analysis, single equation models, multiple series models, and evaluation of forecasts. Prerequisites: ECON 8375 or permission of the instructor.

ECON 8379. Laboratory in Applied Econometrics. 3 Credits.

Application of econometric theory and the use of econometric software; students are required to write an empirical research paper. The course usually deals exclusively with either micro or macroeconomic issues. May be repeated for credit provided the topic differs.

ECON 8381. International Trade Theory. 3 Credits.

International trade theory, including alternative models of the gains from trade and evaluations of the new justifications for protectionism, and analysis of commercial policy, factor flows, and trade and investment with multinational corporations. Prerequisites: Most sections require calculus or permission of the instructor.

ECON 8382. International Finance and Open-Economy Macroeconomics. 3 Credits.

International finance, including alternative models of balance of payments behavior and adjustment, payments accounting, exchange markets, and alternative exchange-rate regimes.

ECON 8383. International Financial Markets. 3 Credits.

Financial economics and international financial markets. Topics include standard asset pricing theory, uncertainty in open economy macroeconomics models, financial market micro-structure, and incomplete markets.

ECON 8395. Advanced Special Topics. 3 Credits.

Topics vary depending upon current interests and faculty availability. Open to graduate students in economics. May be repeated for credit.

ECON 8397. Dissertation Proposal Seminar. 3 Credits.

Limited to Doctor of Philosophy candidates in Unit II. Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies.

ECON 8997. Independent Research. 3 Credits.

Prior to enrollment, a written plan of study must be submitted for approval of both the faculty member directing the research and the director of graduate studies for the PhD program or the department chair. May be repeated for a total of 6 credits. Restricted to doctoral degree candidates in economics. Prerequisites: departmental approval.

ECON 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ECON 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN ECONOMICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
ECON 1011	Principles of Economics I ¹	
ECON 1012	Principles of Economics II ¹	
ECON 2101 or ECON 2103	Intermediate Microeconomic Theory Intermediate Microeconomic Theory: A Mathematical Approach	
ECON 2102 or ECON 2104	Intermediate Macroeconomic Theory Intermediate Macroeconomic Theory: A Mathematical Approach	
ECON 4198W	Proseminar in Economics	
MATH 1221 or MATH 1231 or MATH 1252	Calculus with Precalculus II ² Single-Variable Calculus I Calculus for the Social and Management Sciences	
STAT 1111	Business and Economic Statistics I (or equivalent) ²	

or STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science
STAT 2112	Business and Economic Statistics II ²
or STAT 2118	Regression Analysis
or ECON 2123	Introduction to Econometrics

Electives

Six additional Economics (ECON) courses numbered between 2000 and 4999; a maximum of three of these courses can be regional and two international. Students may substitute up to two of the six ECON elective courses with FINA 3101 and FINA 3301. However, FINA 3301 and ECON 2121 cannot both be taken for credit. If ECON 2123 was taken instead of STAT 2112 as a required course, only five additional ECON courses are required.

Regional courses

ECON 2169	Introduction to the Economy of China
ECON 2170	Introduction to the Economy of Japan
ECON 2185	Economic History and Problems of Latin America
ECON 2198	Special Topics in Economics - Regional
ECON 3098	Variable Topics - Regional Economics
ECON 3198	Advanced Topics in Economics - Regional

International courses

ECON 2180	Survey of International Economics
ECON 2181	International Trade Theory and Policy
or ECON 3181	International Trade Theory
ECON 2182	International Macroeconomic Theory and Policy

¹ Post-matriculation residency requirement: For ECON 1011 and ECON 1012 to count toward the major, the course must be completed at GW with a minimum grade of C-. Students who matriculate with AP or transfer credit for one or both courses are exempt from this residency requirement for the relevant course(s).

² The selected MATH option, MATH 1221, MATH 1231, or MATH 1252, must be completed with a minimum grade of C-. STAT 1111, or STAT 1051, or STAT 1053 must be completed with a minimum grade of C-.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a grade-point average of at least 3.5 in economics courses taken at George Washington University. Upon review of the student’s ECON 4198W paper, the student may be recommended for graduation with Special Honors.

BACHELOR OF SCIENCE WITH A MAJOR IN ECONOMICS REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77) and the following curricular requirements.

Program-specific curriculum:

Code	Title	Credits
Required		
ECON 1011	Principles of Economics I ¹	
ECON 1012	Principles of Economics II ¹	
ECON 2103	Intermediate Microeconomic Theory: A Mathematical Approach	
or ECON 2101	Intermediate Microeconomic Theory	
ECON 2104	Intermediate Macroeconomic Theory: A Mathematical Approach	
or ECON 2102	Intermediate Macroeconomic Theory	
ECON 2123	Introduction to Econometrics	
ECON 4198W	Proseminar in Economics	
MATH 1221	Calculus with Precalculus II ²	
or MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II ²	

STAT 1111	Business and Economic Statistics I (or equivalent) ²
or STAT 1051	Introduction to Business and Economic Statistics
or STAT 1053	Introduction to Statistics in Social Science

Electives

Two courses (6 credits), completed with a minimum grade of C-, from the following:

CSCI 1011	Introduction to Programming with Java
CSCI 1012	Introduction to Programming with Python
CSCI 1111	Introduction to Software Development
CSCI 1112	Algorithms and Data Structures
CSCI 1311	Discrete Structures I
EMSE 2705	Mathematics of Operations Research
EMSE 3850	Quantitative Models in Systems Engineering
EMSE 4701	Optimization in Operations Research
EMSE 4710	Applied Optimization Modeling
MATH 2184	Linear Algebra I
MATH 2233	Multivariable Calculus ³
MATH 2971	Introduction to Mathematical Reasoning ³
MATH 3342	Ordinary Differential Equations ³
MATH 3410	Mathematics of Finance ³
MATH 4239	Real Analysis I ³
STAT 1129	Introduction to Computing
STAT 2183	Intermediate Statistics Lab/Packages
STAT 3119	Analysis of Variance
STAT 3187	Introduction to Sampling
STAT 4157	Introduction to Mathematical Statistics I
STAT 4158	Introduction to Mathematical Statistics II
STAT 4181	Applied Time Series Analysis
STAT 4188	Nonparametric Statistics Inference

STAT 4189	Mathematical Probability and Applications I
STAT 4190	Mathematical Probability and Applications II
STAT 4197	Fundamentals of SAS Programming for Data Management

Additional requirements

Five additional Economics (ECON) courses (15 credits) numbered between 2000 and 4999. The following guidelines and restrictions apply:

FINA 3101 and/or FINA 3301 may be used as substitutes for up to two ECON courses; however, credit may not be earned for both FINA 3301 and ECON 2121.

At least one of the five courses must be taken at the 3000 level. ECON 3098, ECON 3099, FINA 3101, and FINA 3301 may be counted toward the 15 credits of ECON electives, but do not count toward the required minimum of 3 credits of 3000-level courses.

No more than three courses may be selected from ECON 2169, ECON 2170, ECON 2185, ECON 2198, ECON 3098, and ECON 3198.

No more than two courses may be selected from ECON 2180; ECON 2181 or ECON 3181; and ECON 2182.

¹ Post-matriculation residency requirement: In order for ECON 1011 to count towards the major it must be completed at George Washington University with a minimum grade of C-. Students who matriculate with AP or transfer credit for ECON 1011 are exempt from this residency requirement. In order for ECON 1012 to count towards the major it must be completed at George Washington University with a minimum grade of C-. Students who matriculate with AP or transfer credit for ECON 1012 are exempt from this residency requirement.

² The MATH course selected from between MATH 1221 or MATH 1231 as well as MATH 1232, must be completed with a minimum grade of C-. Moreover, STAT 1111, or STAT 1051, or STAT 1053 must be completed with a minimum grade of C-.

³ MATH 2233, MATH 2971, MATH 3342, MATH 3410, and MATH 4239 are strongly recommended for those planning to pursue graduate study in economics.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that

enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a grade-point average of at least 3.5 in economics courses taken at George Washington University. Upon review of the student’s ECON 4198W paper, the student may be recommended for graduation with Special Honors.

DUAL BA OR BS WITH A MAJOR IN ECONOMICS AND MASTER OF PUBLIC POLICY

The Department of Economics and the Trachtenberg School of Public Policy and Public Administration in Columbian College offer dual bachelor of arts with a major in (p. 227)economics or bachelor of science with a major in (p. 229)economics and master of public policy (p. 448) degree programs. The programs allow students to take 12 graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's. All requirements for both degrees must be fulfilled. Students interested in the dual degree program should consult with their advisor.

Visit the program website (<https://economics.columbian.gwu.edu/ba-or-bs-economicsmpp/>) for additional information.

MINOR IN ECONOMICS REQUIREMENTS

The following requirements must be fulfilled: 24 credits

Code	Title	Credits
Required		
ECON 1011	Principles of Economics I	
ECON 1012	Principles of Economics II	
ECON 2101	Intermediate Microeconomic Theory *	
or ECON 2103	Intermediate Microeconomic Theory: A Mathematical Approach	
ECON 2102	Intermediate Macroeconomic Theory *	
or ECON 2104	Intermediate Macroeconomic Theory: A Mathematical Approach	
Two additional upper-division Economics (ECON) courses numbered between 2000 and 4999		
One of the following mathematics courses:		

MATH 1221	Calculus with Precalculus II *
MATH 1231	Single-Variable Calculus I *
MATH 1252	Calculus for the Social and Management Sciences *
And one of the following options	
Option A: One of the following statistics courses:	
STAT 1111	Business and Economic Statistics I
STAT 1051	Introduction to Business and Economic Statistics
STAT 1053	Introduction to Statistics in Social Science *
Option B:	
MATH 1232	Single-Variable Calculus II
Option C:	
One additional upper-division Economics (ECON) course numbered between 2000 and 4999, other than excluded courses.**	

*Must be completed with a minimum grade of C-.

** The following may not be used for Option C: ECON 2169 Introduction to the Economy of China, ECON 2170 Introduction to the Economy of Japan, ECON 2185 Economic History and Problems of Latin America, ECON 2198 Special Topics in Economics - Regional, and ECON 3098 Variable Topics - Regional Economics.

MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS

The master of arts (MA) in applied economics provides students with the tools needed to succeed as economists in today's data-driven world. The program teaches students how to draw meaningful implications from economic data, to apply economic theory and quantitative methods to answer real-world policy questions, and to integrate economic analysis into their professional lives.

The program helps students develop the ability to communicate ideas through coursework, workshops, and intensive data and economic analysis. The program is offered both full- and part time to accommodate students’ work schedules. Graduate certificate programs in areas such as data science, budget and public finance, accountancy, financial management, and digital marketing may be pursued simultaneously.

Graduates of the applied economics program are prepared for positions as economic analysts in government, private

consulting firms, financial institutions, international organizations, and applied policy research institutions. Coursework integrating academic scholarship with hands-on research and data projects prepares graduates to enter the job market with proven skills to succeed as economists in today's data-driven world.

Program students come from the United States and around the world and are a mix of recent graduates and students with years of work experience.

The MA in applied economics is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following curriculum requirements must be fulfilled: 30 credits, including 18 credits in core courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ECON 6300	Mathematical Methods for Economics	
ECON 6301	Applied Microeconomic Theory	
ECON 6305	Applied Macroeconomic Theory	
ECON 6374	Probability and Statistics for Economics	
ECON 6375	Applied Econometrics	
ECON 6376	Time Series Analysis	
Electives		

Twelve credits in elective economics (ECON) courses at the 6000 level or above selected in consultation with the program director.

Note: ECON 6217, ECON 6218, and ECON 6219 may not be used to fulfill the elective requirement. With program approval, students may select up to two graduate-level courses offered by the Trachtenberg School of Public Policy and Public Administration, School of Business, Milken Institute School of Public Health, and/or School of Engineering and Applied Science to fulfill the elective requirement. Courses in other graduate programs may meet this requirement subject to approval by the Program Director.

DOCTOR OF PHILOSOPHY IN THE FIELD OF ECONOMICS

Economics looks at choices under scarcity and how these choices affect production, market prices, national output, unemployment, inflation, economic growth and the use and distribution of resources within and across nations. GW's graduate economics program involves topics ranging from microeconomics, macroeconomics and econometrics to subject areas chosen from labor economics, international economics, and the economics of industry. It is part of the social and behavioral sciences program in the Columbian College of Arts and Sciences.

The PhD program is divided into two units. The first unit includes completing examinations in microeconomic and macroeconomic theory and two field examinations selected by the student and approved by the doctoral program committee. The second unit includes participation in a dissertation seminar, completion of the written dissertation, and an oral defense. The program is offered primarily on a full-time basis and students are expected to complete their degrees in five to six years. Occasionally, the program admits highly qualified part-time students.

This is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Pre-candidacy requirements

Pre-candidacy requirements include satisfactory completion of 48 credits, including 18 credits in required courses and 30 credits in elective courses, and achievement of a passing grade in the general examination.

Code	Title	Credits
Required		
Core theory and econometrics		
ECON 8301	Microeconomic Theory I	
ECON 8302	Microeconomic Theory II	
ECON 8305	Macroeconomic Theory I	
ECON 8306	Macroeconomic Theory II	
ECON 8375	Econometrics I	

ECON 8376 Econometrics II

Research Development Course

ECON 8397 Paper Proposal Seminar

Electives

30 credits in 8000-level (or approved 6000-level) courses.

Additional requirements

Students must achieve a passing grade in the general examination and on the research paper proposal.

General examination

The General Examination consists of two preliminary examinations, one in microeconomic theory and one in macroeconomic theory, and a research paper proposal. To pass the general examination, students must earn a grade of "pass" or "pass with distinction" in the preliminary examinations in microeconomic and macroeconomic theory and earn a grade of "pass" or "pass with distinction" on the research paper proposal.

Students are required to take the microeconomic and macroeconomic preliminary examinations in May of their first year in the PhD program. The exams may be retaken at the start of the following semester, with departmental approval. Both exams must be passed by the second attempt.

Electives

Students must complete 30 credits in 8000-level or approved 6000-level courses. Research credits such as those taken in ECON 8998 or ECON 8999 do not count as elective credits in pre-candidacy, nor does ECON 8397.

In cases where knowledge outside the discipline of economics or outside Department of Economics course offerings is critical to the student's research field, students may take up to 6 credits in pre-candidacy coursework outside the department, with departmental approval. In exceptional circumstances, a student may take 9 such credits, with departmental approval.

Research paper proposal

Students must submit the research paper proposal by the end of their third year in the program. Part-time students may submit the research paper proposal in the fourth or fifth year of the program, subject to departmental approval.

Post-candidacy requirements

Post-candidacy requirements include successful completion of 24 credits at the 8000 level, the formulation of a dissertation proposal, a formal presentation of the proposal by the student to a potential dissertation committee for approval, and completion of a dissertation that demonstrates the candidate's ability to do original research as determined by the dissertation committee.

The 24 credits must include a minimum of 6 credits in ECON 8999.

Once a student successfully completes 24 credits, they must register for 1 credit in CCAS 0940 each subsequent fall and spring semester until they have successfully defended their dissertation to the dissertation oral examination committee, thereby completing the degree program.

Students may apply for the master of philosophy (MPhil) degree after successfully defending a dissertation proposal.

Time limits

The pre-candidacy stage must be concluded within three years of matriculation in the program; part-time students may conclude the pre-candidacy stage within five years of matriculation, subject to departmental approval. Upon successful completion of pre-candidacy, students are considered for admission to candidacy, i.e., the dissertation stage. The dissertation stage must be completed within five years of entry into candidacy, or within eight years of matriculation in the program, whichever is sooner*.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN ACCOUNTANCY

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in accountancy (p. 588). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN BUDGET AND PUBLIC FINANCE

The Department of Economics works in conjunction with the Trachtenberg School of Public Policy and Public Administration to offer a dual master of arts in the field of applied economics (<http://bulletin.gwu.edu/arts-sciences/economics/ma-applied-economics/>) and g (<http://bulletin.gwu.edu/engineering-applied-science/computer-science/ms/>) graduate certificate in budget and public finance (<http://bulletin.gwu.edu/arts-sciences/public-policy-administration/certificate-budget-public-finance/>) program. Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/>) and Trachtenberg

School of Public Policy and Public Administration (<https://tspppa.gwu.edu/>) websites for more information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN BUSINESS ANALYTICS

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in business analytics (p. 590). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN DATA SCIENCE

The Department of Economics works in conjunction with the Department of Data Science to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in data science (p. 211). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN DIGITAL MARKETING AND COMMUNICATIONS

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in digital marketing and analytics (p. 592). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN ENVIRONMENTAL RESOURCE POLICY

The Department of Economics works in conjunction with the Trachtenberg School of Public Policy and Public Administration to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in environmental resource policy (p. 445). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN FINANCIAL MANAGEMENT

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in financial management (p. 593). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MASTER OF ARTS IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN GEOGRAPHIC INFORMATION SYSTEMS

The Department of Economics works in conjunction with the Department of Geography to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in geographical information systems (<http://bulletin.gwu.edu/arts-sciences/geography/certificate-geographical-information-systems/>). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MA IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN SPORTS MANAGEMENT

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in sports management (p. 597). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

DUAL MA IN THE FIELD OF APPLIED ECONOMICS AND GRADUATE CERTIFICATE IN WALKABLE URBAN REAL ESTATE DEVELOPMENT

The Department of Economics works in conjunction with the School of Business to offer a dual master of arts in the field of applied economics (p. 231) and graduate certificate in walkable urban real estate development (p. 599). Up to 6 credits may be shared between programs. All requirements for both programs must be fulfilled.

Visit the Department of Economics (<https://economics.columbian.gwu.edu/graduate-certificates-and-applied-economics-ma/>) website for additional information.

ENGLISH

Part of the Columbian College of Arts and Sciences' arts and humanities program, the Department of English fosters critical reflection on literature and culture, connecting reading practices with lucid writing and persuasive argumentation. Using a broad range of texts, students explore community, creativity, cultural conflict, history, and other relevant issues.

Visit the Department of English website (<https://english.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in creative writing and English (p. 246)
- Bachelor of Arts with a major in English (p. 248)

Combined program

- Dual Bachelor of Arts with a major in English and Master of Arts in the field of English (p. 251)
- Dual Bachelor of Arts with a major in English and Master of Education in the field of secondary education with a concentration in English (p. 656)

Minors

- Minor in creative writing (p. 252)
- Minor in English (p. 252)
- Minor in English for business students (p. 253)
- Minor in linguistics (p. 68) (interdisciplinary)

GRADUATE

Master's program

- Master of Arts in the field of English with optional concentrations in English or American literature (p. 251)

Doctoral program

- Doctor of Philosophy in the field of English with optional concentrations in English or American literature (p. 251)

FACULTY

Professors M. Alcorn (*Chair*), J.J. Cohen, R.L. Combs, P. Cook, M. Frawley, A. Huang, E.P. Jones, S. Knapp, T.V. Mallon, D. McAleavey, R. McRuer, D. Mitchell, K. Moreland, E. Schreiber, O.A. Seavey, J. Shore, C.W. Sten, A. Thompson, G. Wald, T.G. Wallace

Associate Professors G. Carter, P. Chu, K. Daiya, H. Dugan, J.M. Green-Lewis, P. Griffith, J. Hsy, J.C. James, A. López, D. Moshenberg, M.S. Soltan

Assistant Professors J. Chang, D. DeWispelare, J. Yun

Visiting Assistant Professors L. Page

Adjunct Professors A.C. Stokes

Jenny McKean Moore Writer in Washington M. Moustakis

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: The department strongly recommends a literature course, such as ENGL 1315 Literature and the Financial Imagination through ENGL 1711 or ENGL 1830 or ENGL 1840, as a prerequisite to upper-division English courses. All creative writing courses are limited to 15 students. Two creative writing courses in the same genre may not be taken during the same semester.

All graduate English courses, except ENGL 6100 Introduction to Literary Theory, may be repeated for credit with permission of the director of graduate studies.

ENGL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

ENGL 1050. Introduction to Literary Studies. 3 Credits.

How to read and interpret literature at the college level and beyond. Close readings of poetry, fiction, and drama, emphasizing genre and form.

ENGL 1099. Variable Topics. 1-36 Credits.

ENGL 111W. Preparation-Peer Tutors-Writing. 3 Credits.

ENGL 1210. Introduction to Creative Writing. 3 Credits.

An exploration of genres of creative writing (fiction, poetry, and/or playwriting). Basic problems and techniques; examples of modern approaches; weekly writing assignments; workshop and/or conference discussion of student writing.

ENGL 1300. The Bible as Literature. 3 Credits.

The Bible in translation as a literary object; the historical context in which its many parts were composed and its literary themes, styles, and structures.

ENGL 1305. Colonial/Post-Colonial British Literature. 3 Credits.

ENGL 1315. Literature and the Financial Imagination. 3 Credits.

Literary studies focused broadly on representations of business, finance, or commerce; the economics of literary production; and/or theories of economic class as they pertain to literary works. Topic, genre, and time period vary by instructor.

ENGL 1320. Literature of the Americas. 3 Credits.

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe. Same As: ENGL 1320W.

ENGL 1320W. Literature of the Americas. 3 Credits.

American literature considered in a global framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1320.

ENGL 1330. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor. Same As: ENGL 1330W.

ENGL 1330W. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1330.

ENGL 1340. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world? Same As: ENGL 1340W.

ENGL 1340W. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world? Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1340.

ENGL 1351. Shakespeare Seminar. 3 Credits.

Seminar course for first-year students in the Dean's Scholars in Shakespeare Program. Literary study of Shakespeare's poems and plays along with those of his contemporaries. Topic, genre, and time period vary by instructor.

ENGL 1360. Fantasy and Speculative Fiction. 3 Credits.

General overview of fantasy and speculative fiction. Topics may vary.

ENGL 1365. Literature and the Environment. 3 Credits.

The depiction of the nonhuman world in literature and film; how natural and built environments are translated into narrative; the relationship between literary production and environmental action.

ENGL 1370. Topics in Global Cinema. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more details.

ENGL 1500. American Political Fictions. 3 Credits.

Examination of writing about U.S. politics and political figures through intensively subjective first-person points of view. Writers as influential diagnosticians of governance practices.

ENGL 1712W. Bollywood Cinema. 3 Credits.**ENGL 1830W. Tragedy. 3 Credits.**

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 1840W. Comedy. 3 Credits.

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

ENGL 2100. Introduction to Asian American Studies through Literature. 3 Credits.

Major topics in Asian American culture and history, including identity, crosscultural and gender norms, racial formation, and exclusion. Writing and film about Asian Americans of East Asian, Southeast Asian, South Asian, Filipino, and mixed ancestry. Recommended background: Prior completion of UW 1020 or equivalent is suggested but not required.

ENGL 2210. Techniques in Creative Writing. 3 Credits.

The craft and technique of creative writing and/or theories of creative writing. Topics vary by semester. Consult the Schedule of Classes for more information.

ENGL 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature. Literary and theatrical techniques used by playwrights. Same As: CTAD 2240. Credit cannot be earned for this course and TRDA 2240.

ENGL 2250. Dramatic Writing. 3 Credits.

Workshop in playwriting and screenwriting, with emphasis on dramatic structure. (Same as TRDA 2250).

ENGL 2410. Introduction to English Literature I. 3 Credits.

Study of British authors from the Middle Ages to the French Revolution. These may include Chaucer, Shakespeare, Donne, Milton, Swift, Gay, Johnson, and Gray.

ENGL 2410W. Introduction to English Literature I. 3 Credits.

Study of British authors from the Middle Ages to the French Revolution. These may include Chaucer, Shakespeare, Donne, Milton, Swift, Gay, Johnson, and Gray. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2411. Introduction to English Literature II. 3 Credits.

Surveys literature from two of the traditional period units in British Literature, the Romantic Period (roughly 1785 to 1832), and the Victorian Period (roughly 1832 to 1901), with some additional twentieth century texts.

ENGL 2411W. Introduction to English Literature II. 3 Credits.

Surveys literature from two of the traditional period units in British Literature, the Romantic Period (roughly 1785 to 1832), and the Victorian Period (roughly 1832 to 1901), with some additional twentieth century texts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2460. Fiction Writing. 3,4 Credits.

The writing of fiction. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2470. Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2510. Introduction to American Literature I. 3 Credits.

Historical survey of early American writing through Melville, Whitman, and Dickinson.

ENGL 2510W. Introduction to American Literature I. 3 Credits.

Historical survey of early American writing through Melville, Whitman, and Dickinson. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2511. Introduction to American Literature II. 3 Credits.

Reading of significant works by modern American authors such as Wharton, Chopin, Crane, London, Frost, Morrison. Hughes, and Faulkner.

ENGL 2511W. Introduction to American Literature II. 3 Credits.

Reading of significant works by modern American authors such as Wharton, Chopin, Crane, London, Frost, Morrison. Hughes, and Faulkner. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2560. Intermediate Fiction Writing. 3 Credits.

The writing of fiction. Prerequisite: ENGL 2460 .

ENGL 2570. Intermediate Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2610. Introduction to Black Literature of America I. 3 Credits.

Survey of significant works of black American literature from the late eighteenth century to the turn of the twentieth century, with a particular emphasis on the slave narrative.

ENGL 2610W. Introduction to Black Literature of America I. 3 Credits.

Survey of significant works of black American literature from the late eighteenth century to the turn of the twentieth century, with a particular emphasis on the slave narrative. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2611. Introduction to Black Literature of America II. 3 Credits.

Influential black writers and literary trends of the twentieth century. How the Great Migration altered black American life and how black literature registered the concerns of the Civil Rights, Black Power, feminist, and anti-war movements.

ENGL 2611W. Introduction to Black Literature of America II. 3 Credits.

Influential black writers and literary trends of the twentieth century. How the Great Migration altered black American life and how black literature registered the concerns of the Civil Rights, Black Power, feminist, and anti-war movements. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2710. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Same As: WGSS 2710.

ENGL 2710W. Postcolonialism, Race, and Gender in Global Anglophone Literature and Film. 3 Credits.

How race and gender shaped empire and nationalism in international Anglophone literature and cinema from 1857 to 1960. Feminist, postcolonial, and critical race theory, engaged with modern literature, graphic narratives, and film. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2711. Postcolonialism and Migration in Global Anglophone Literature and Film. 3 Credits.

Migration and politics as represented in world Anglophone literature and film; theories and histories of migration, feminist theory, and ethnic studies engaged in conversation with cultural texts.

ENGL 2711W. Postcolonialism and Migration in Global Anglophone Literature and Film. 3 Credits.

Migration and politics as represented in world Anglophone literature and film; theories and histories of migration, feminist theory, and ethnic studies engaged in conversation with cultural texts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 2712. Bollywood Cinema. 3 Credits.

Introduction to the history and aesthetics of popular Hindi film known as Bollywood from the 1950s through the present; gender identities, melodrama, nationalism, modernity, religion, family, sexuality, globalization, and diaspora. Same As: ENGL 1712W.

Introduction to the history and aesthetics of popular Hindi film known as Bollywood from the 1950s through the present; gender identities, melodrama, nationalism, modernity, religion, family, sexuality, globalization, and diaspora. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 1712W.

ENGL 2800. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies. Same As: ENGL 2800W.

ENGL 2800W. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 2800.

ENGL 2830. Introduction to Tragedy. 3 Credits.

Tragic works of literature from the Greeks to Beckett.

ENGL 2840. Introduction to Comedy. 3 Credits.

Introduction to comic masterpieces from Chaucer to Tom Stoppard.

ENGL 3099. Variable Topics. 1-12 Credits.

ENGL 3210. Readings in Creative Writing. 3 Credits.

Intensive reading of one to three texts selected by the instructor with the goal of learning to read as a writer and developing close reading skills. Authors and texts vary. May be repeated for credit provided course coverage differs.

ENGL 3240. Introduction to Dramaturgy. 3 Credits.

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as TRDA 3240.

ENGL 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as TRDA 3250. Prerequisite: ENGL 2250 . May be repeated for credit with departmental approval.

ENGL 3360. Advanced Fiction Writing. 3 Credits.

Further workshop study of the writing of fiction. Prerequisite: ENGL 2560 . May be repeated for credit with departmental approval.

ENGL 3370. Advanced Poetry Writing. 3 Credits.

Further workshop study of the writing of poetry. May be repeated for credit with permission of the department. Prerequisite: ENGL 2570.

ENGL 3380. Creative Writing Workshop. 3 Credits.

Taught by the Jenny McKean Moore Writer in Washington; for undergraduates and graduate students. May be repeated for credit if taught by a different instructor. Prerequisites: One of the following upper-level creative writing courses: ENGL 2210, ENGL 2240, ENGL 2250, ENGL 2460, ENGL 2470, ENGL 2560, ENGL 2570, ENGL 3210, ENGL 3240, ENGL 3250, ENGL 3360, ENGL 3370, or ENGL 3390.

ENGL 3385. American Memoir. 3 Credits.

Contemporary American memoir as a literary construct; the history of the genre, its relationship to other literary models, and recent developments. Prerequisite: None.

ENGL 3390. Topics in Creative Writing. 3 Credits.

Topics announced prior to the registration period; may be repeated for credit provided the topic differs. Topics may include poetry and poetics; forms and methods in fiction; forms and methods in poetry; memoir and personal narratives; creative nonfiction; "Literature, Live"; avant-garde and experimental writing.

ENGL 3400. Topics in Literature and Finance. 3 Credits.

Capstone course for English minors in the School of Business. Analysis of economic theories as they pertain to literary works. Topics may vary. Recommended background: Prior completion of English 1315.

ENGL 3410. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English.

ENGL 3410W. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late fourteenth century. Focus on *The Canterbury Tales*, read in the original Middle English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3410.

ENGL 3420. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own.

ENGL 3420W. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3420.

ENGL 3430. The English Renaissance. 3 Credits.

Verse and prose written in the period 1515 to 1625, examined in relation to cultural practices and social institutions that shaped English life. More, Sidney, Spenser, Shakespeare, Donne, Jonson, Bacon, Herbert, many others.

ENGL 3440. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3440W. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3441. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3441W. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3445. Shakespeare on Film. 3 Credits.

Students learn in detail the history of a small but significant subset of American and European film production: adaptations of Shakespeare's plays using the original language.

ENGL 3446. Shakespearean London. 3 Credits.

Early modern London's emergence as a global capital and its influence on Shakespeare's plays. Instructor permission required.

ENGL 3450. Topics in Shakespeare Studies. 3 Credits.

Critical study of a particular aspect of Shakespeare's work, or of a distinctive approach to the plays. Projected topics: Shakespeare on film, the history plays and Elizabethan England, eighteenth-century rewritings of Shakespeare, Shakespeare as poet, cultural materialist readings of Shakespeare.

ENGL 3460. Milton. 3 Credits.

Study of the major works in verse and prose, following the course of Milton's career.

ENGL 3470. English Drama I. 3 Credits.

Shakespeare's contemporaries.

ENGL 3471. English Drama II. 3 Credits.

Continuation of ENGL 3470. Historical survey, 1660 to present.

ENGL 3480. Eighteenth-Century British Literature. 3 Credits.

Eighteenth-century British literature, including literature that reflects some of the upheavals of a period that produced the Enlightenment, the French Revolution, the United States of America, and the two-party system.

ENGL 3480W. The Eighteenth Century I. 3 Credits.

Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3481. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Same As: ENGL 3481W.

ENGL 3481W. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant eighteenth-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3481.

ENGL 3490. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others.

ENGL 3490W. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3510. Children's Literature. 3 Credits.

Nineteenth- and twentieth-century children's texts that illuminate the several worlds of childhood: the "small world" of childhood perception, the larger world of social and historical forces, and the "secondary world" of fantasy.

ENGL 3520. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others.

ENGL 3520W. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3530. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others. Same As: ENGL 3530W.

ENGL 3530W. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3530.

ENGL 3540. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens; Tennyson, Browning, Arnold; Darwin, Carlyle, Ruskin. Same As: ENGL 3540W.

ENGL 3540W. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens, Tennyson, Browning, Arnold, Darwin, Carlyle, Ruskin. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3540.

ENGL 3541. Victorian Literature II. 3 Credits.

Major writers between 1865 and 1900: Eliot, Hardy, Conrad, Swinburne, the Rossetts, Morris, Pater, and Wilde.

ENGL 3550. The English Novel I. 3 Credits.

The eighteenth century—Defoe, Richardson, Fielding, Sterne, and others.

ENGL 3551. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others.

ENGL 3551W. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The nineteenth century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3551.

ENGL 3560. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others.

ENGL 3560W. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3570. Nineteenth-Century Black Literature. 3 Credits.

Studies in nineteenth-century black literature of the Americas and the transatlantic. Writing from the United States, Latin America, the Caribbean, Britain, and Africa may be included. Topics and emphasis may vary.

ENGL 3610. Modernism. 3 Credits.

The emergence of modernist experimentation (and the sense of epistemological and moral crisis it expressed) in the poetry and prose of Pound, T.S. Eliot, Woolf, Kafka, and others.

ENGL 3620. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3620W.

ENGL 3620W. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early twentieth century: Poe, Emerson, Whitman, Dickinson, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3620.

ENGL 3621. American Poetry II. 3 Credits.

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery. Same As: ENGL 3621W.

ENGL 3621W. American Poetry II. 3 Credits.

This course examines important books by twelve American poets from throughout the twentieth century who collectively disrupt the continuity and traditions of English-language poetry, starting with the Georgian, even Horatian lyrics of Robert Frost (just before WW I), through the Modernist constructions of Gertrude Stein, T.S. Eliot, William Carlos Williams, Wallace Stevens, and Langston Hughes, and on through the post-WW II socially-conscious, Confessionalist, and Postmodern poetries of Brooks, Ginsberg, Plath, Bishop, Ammons, and Ashbery. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3621.

ENGL 3630. American Drama I. 3 Credits.

Nineteenth-century melodrama and the emergence of realism; works by O'Neill and other dramatists of the early twentieth century.

ENGL 3631. American Drama II. 3 Credits.

Continuation of ENGL 3630. Developments in modern American drama since World War II, including works by Williams, Miller, Albee, Shepard, Rabe, Guare, Mamet, Henley, Wasserstein, Shange, Hwang, Wilson, and others.

ENGL 3640. The American Novel I. 3-4 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others.

ENGL 3640W. The American Novel I. 4 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the nineteenth century: Hawthorne, Melville, James, Twain, Dreiser, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3641. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others.

ENGL 3641W. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The twentieth century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3650. The Short Story. 3 Credits.

An extensive survey of short fiction by a wide variety of writers of the 19th and 20th centuries, about half of them American; readings on the art of the short story by writers and literary critics.

ENGL 3660. Twentieth-Century Irish Literature I. 3 Credits.

Irish writers from the time of the literary revival in the late nineteenth century to the present. Yeats and other Irish poets and playwrights of his time and after—Synge, O’Casey, Kavanagh, Heaney, and others.

ENGL 3661. Twentieth-Century Irish Literature II. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O’Brien, Beckett, and others.

ENGL 3661W. Twentieth-Century Irish Literature I. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late nineteenth century to the present. Joyce through Ulysses and other fiction writers of later generations—O’Brien, Beckett, and others. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3710. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today’s audience.

ENGL 3710W. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today’s audience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3710.

ENGL 3720. Contemporary American Literature. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres.

ENGL 3720W. Contemporary American Literature. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3720.

ENGL 3730. Topics in Global Postcolonial Literature and Film. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Same As: WGSS 3730.

ENGL 3730W. Topics in Global Postcolonial Literature and Film. 3 Credits.

Representations of empire and culture in modern Anglophone literature and cinema from around the world; cross-cultural encounter, migration, identity, orientalism, gender, environment, conflict, and globalization. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. May be repeated for credit provided the topic differs. See department for more details.

ENGL 3800. The Literature of Hawaii. 3 Credits.

The history, culture, and politics of the settlement of the Hawaiian Islands through depictions in literature, poetry, film, journalism, archeological excavation reports, and diaries; the diversity of inhabitants on the islands and hybrid communicative forms they have developed.

ENGL 3810. Selected Topics in Literature. 3-4 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Same As: ENGL 3810W.

ENGL 3810W. Selected Topics in Literature. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3810.

ENGL 3820. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs.

ENGL 3820W. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3820.

ENGL 3826. Toni Morrison and William Faulkner. 3 Credits.

Commonalities between the fictional and discursive practices of Toni Morrison and William Faulkner; specifically, how their texts reenact and resist racism and patriarchal structures, explore the ways in which memory and the past construct identity, experiment with style.

ENGL 3830. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided that topic differs. Same As: ENGL 3830W.

ENGL 3830W. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3830.

ENGL 3840. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs.

ENGL 3840W. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3850. Ethnicity and Place in American Literature. 3 Credits.

The relationships among ethnic identity, authorship, regional setting, and national consciousness. Differences in the literary culture of ethnically, racially, and regionally diverse American populations, and how considerations of ethnicity and place have been reshaping the American literary canon. Texts and emphases vary by instructor.

ENGL 3860. Topics in the History of the English Language. 3 Credits.

The cultural and literary functions of English across time and space. Scope and methodology vary by instructor. Topics may include language and identity, theoretical and linguistic approaches to language, multilingualism, diasporic writing, or history and periodization.

ENGL 3910. Disability Studies. 3 Credits.

Consideration of cultural texts that illustrate or illuminate issues of ability and disability—terms that extend the prism through which human experience may be understood.

ENGL 3912. Disability and the Holocaust. 3 Credits.

Investigating the question of direct links between the medical mass murder of disabled people in German psychiatric institutions to the Holocaust during World War II; studies of contemporary memorialization practices are examined.

ENGL 3915. Literature and Madness. 3 Credits.

A literary history of mental unrest; madness as a condition of culture, as an adaptive cognitive style, and as a cognitive challenge; descriptive, medical, historical, and socio-critical perspectives.

ENGL 3918. Literature and Medicine. 3 Credits.

The experience of illness as determined by historical, social, and psychological contexts; narrative as a mode of both understanding and managing illness, pain, loss, and the injustice of suffering.

ENGL 3920. U.S. Latina/o Literature and Culture. 3 Credits.

Introduction to the basic texts in the Chicana/o, Cuban-American, Dominican-American, and Puerto Rican literary and cultural traditions. Works by U.S. writers of Central American origin are discussed as well.

ENGL 3930. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness, and latinidad.

ENGL 3930W. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness and latinidad. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 3940. Topics in African American Literary Studies. 3 Credits.

Intensive study of a single aspect of African American literature: major authors, genre, theme, movement. Substantial attention to the critical tradition.

ENGL 3945. African American Poetry. 3 Credits.

African American poetry from the Black Atlantic through contemporary spoken word and web-based experiments in hypertext composition. Topics vary and may include Langston Hughes, Gwendolyn Brooks, poetry manifestoes, poetry and social justice, or eco-poetics of the black experience.

ENGL 3950. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers. Same As: ENGL 3950W.

ENGL 3950W. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3950.

ENGL 3960. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of "America." Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn.

ENGL 3960W. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of "America." Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3960.

ENGL 3965. Topics in Asian American Cultural Studies. 3 Credits.

Literary and cinematic texts of Asian diasporic writers, with a focus on Asian American authors, history, and culture; the globalization of Asian American literature.

ENGL 3970. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing including fiction, nonfiction, autobiography, poetry, and drama. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition. Same As: ENGL 3970W.

ENGL 3970W. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing in fiction, autobiography, poetry, drama, and non-fictional prose. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3970.

ENGL 3980. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs. Same As: ENGL 3980W.

ENGL 3980W. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 3980.

ENGL 3990. Literary Studies Workshop. 1 Credit.

Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated once for credit provided the topic differs.

ENGL 4020. Studies in Contemporary Literature. 1-3 Credits.

Theme-based studies of specific issues or figures in twenty-first-century literature.

ENGL 4030. Service Learning with the Pen/ Faulkner Foundation. 3 Credits.

The role of literature in public life; how nonprofits bridge literary citizenship and civic engagement. This course is offered in collaboration with the PEN/Faulkner Foundation, a nonprofit organization that promotes literary achievement and excellence through various events programs.

ENGL 4040. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English. Same As: ENGL 4040W.

ENGL 4040W. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches –ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 4040.

ENGL 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as HIST 4135/ FREN 4135.

ENGL 4220. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, students compose an original manuscript of poetry or short fiction accompanied by an essay situating their work in the contemporary context. Restricted to seniors in the BA in English and and BA in creative writing and English programs.

ENGL 4220W. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

ENGL 4250. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English.

ENGL 4250W. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: ENGL 4250.

ENGL 4360. Independent Study. 1-4 Credits.

For exceptional students, typically majors, whose academic objectives are not accommodated in regular courses. Students must obtain departmental approval and arrange for supervision by an appropriate member of the faculty.

ENGL 4470. Internship. 1-3 Credits.

Position of responsibility with a publication, educational project, firm, or cultural organization offering practical experience in research, writing, editing, etc. May be repeated for credit; a maximum of 3 credits may be counted toward the English major. Permission of the supervising faculty required prior to enrollment. P/NP grading only. Restricted to juniors and seniors in the English program.

ENGL 5099. Variable Topics. 1-99 Credits.**ENGL 6100. Introduction to Literary Theory. 3 Credits.**

An overview of methodologies for examining texts as linguistic and cultural productions. Methodologies explored may include structuralism, formalism, deconstruction, cultural materialism, postcolonial theory, feminism, gender studies, and queer theory.

ENGL 6120. Advanced Literary Theory. 3 Credits.

The course focuses on a major figure or topic in theory (e.g., Foucault, Lacan, Barthes, Kristeva, Bakhtin, post-Marxist theory, language and power, the canon).

ENGL 6130. Selected Topics in Criticism. 3 Credits.

Topics may include cultural studies, film, gay/lesbian studies, others.

ENGL 6220. Topics in Medieval and Early Modern Studies. 3 Credits.

Topics may include gender and body; postcolonial approaches to the period; surveys of poetry and/or prose with a special thematic coherence.

ENGL 6240. Literature of the British Archipelago. 3 Credits.

The literary and historical texts of early modern and medieval Britain within a pan-insular framework: England in conflict and coexistence with Ireland, Wales, Scotland.

ENGL 6250. Transnational England. 3 Credits.

The early literature of England within a global framework: England, Spain, France, Italy, Turkey, the Levant, the Americas, Africa, India, the Caribbean.

ENGL 6260. Seminar in Medieval and Early Modern Studies. 3 Credits.

Trends and cutting-edge research in medieval and early modern studies.

ENGL 6350. Nineteenth Century I. 3 Credits.

Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6351. Nineteenth Century II. 3 Credits.

Continuation of ENGL 6350. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6352. Nineteenth Century III. 3 Credits.

Continuation of ENGL 6351. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6353. Nineteenth Century IV. 3 Credits.

Continuation of ENGL 6352. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6450. Twentieth Century I. 3 Credits.

Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6451. Twentieth Century II. 3 Credits.

Continuation of ENGL 6450. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6452. Twentieth Century III. 3 Credits.

Continuation of ENGL 6451. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6453. Twentieth Century IV. 3 Credits.

Continuation of ENGL 6452. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6510. Writing, Race, and Nation. 3 Credits.

Literary culture as a basis for exploration of intersections of origins and evolution of racial and ethnic identities and national myths and political objectives.

ENGL 6520. Ethnicity and Identity. 3 Credits.

Literary culture is used to explore how individuals, communities, and societies construct self-awareness and knowledge about others for cultural exchange.

ENGL 6530. Conceptualizing Genders. 3 Credits.

Structures of sex and gender difference considered historically and theoretically, including masculinity/femininity, sexualities, and their textual representations.

ENGL 6540. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as WGSS 6251.

ENGL 6550. Studies in Genre I. 3 Credits.

Questions of genre, considered theoretically and practically. Content varies.

ENGL 6551. Studies in Genre II. 3 Credits.

Continuation of ENGL 6550. Questions of genre, considered theoretically and practically. Content varies.

ENGL 6560. Postcolonialism. 3 Credits.

Exploration of aesthetics and politics through global and postcolonial literature and cinema, primarily from the twentieth and twenty-first centuries. Includes legal, theoretical, literary, and film texts. Restricted to graduate students and junior and senior undergraduate students. Same As: WGSS 6560.

ENGL 6620. Medicine and Society. 3 Credits.

The interaction of medicine and society in ways that touch on philosophy, economics, sociology, and public policy, but that cannot be fully understood in terms of any single perspective. Society's effect on medicine and medicine's effect on society.

ENGL 6630. Literature and Medicine. 3 Credits.

Methods of critical theory applied to issues concerning the practice of medicine. The polar constructs of illness and health, life and death, and life's worth or its waste.

ENGL 6720. Independent Research. 3 Credits.

Written permission of the instructor required prior to enrollment. May be repeated for credit to a maximum of 9 credits.

ENGL 6740. Mastering the Canon. 3 Credits.

Independent reading under a faculty member.

ENGL 6810. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6811. Folger Institute Seminars II. 3 Credits.

Continuation of ENGL 6810. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6998. Thesis Research. 3 Credits.

ENGL 6999. Thesis Research. 3 Credits.

ENGL 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

ENGL 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Must be taken as the final 12 credits of the degree. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN CREATIVE WRITING AND ENGLISH

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (33 credits):

Code	Title	Credits
Required		
One course (3 credits) in literature before the 18th century selected from the following:		
ENGL 3410	Chaucer	
or ENGL 3410W	Chaucer	
ENGL 3420	Medieval Literature	
or ENGL 3420W	Medieval Literature	
ENGL 3430	The English Renaissance	
ENGL 3440	Shakespeare I	
or ENGL 3440W	Shakespeare I	
ENGL 3441	Shakespeare II	
or ENGL 3441W	Shakespeare II	
ENGL 3450	Topics in Shakespeare Studies	
ENGL 3460	Milton	
ENGL 3470	English Drama I	
ENGL 3490	Early American Literature and Culture	
or ENGL 3490W	Early American Literature and Culture	
ENGL 4135	Folger Seminar	
One course (3 credits) in literature during the 18th and 19th century selected from the following:		
ENGL 3510	Children's Literature	
ENGL 3520	American Romanticism	
ENGL 3540	Victorian Literature I	
ENGL 3640	The American Novel I	
ENGL 3820	Major Authors	

One course (3 credits) in literature after the 19th century selected from the following:

ENGL 3510	Children's Literature
ENGL 3610	Modernism
ENGL 3621 or ENGL 3621W	American Poetry II
ENGL 3630	American Drama I
ENGL 3631	American Drama II
ENGL 3641 or ENGL 3641W	The American Novel II
ENGL 3650	The Short Story
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661 or ENGL 3661W	Twentieth-Century Irish Literature II
ENGL 3710 or ENGL 3710W	Contemporary Drama
ENGL 3720 or ENGL 3720W	Contemporary American Literature
ENGL 3730 or ENGL 3730W	Topics in Global Postcolonial Literature and Film
ENGL 3850	Ethnicity and Place in American Literature
ENGL 3930 or ENGL 3930W	Topics in U.S. Latina/o Literature and Culture
ENGL 3960 or ENGL 3960W	Asian American Literature
ENGL 3970 or ENGL 3970W	Jewish American Literature
One course (3 credits) in minority/postcolonial literature selected from the following:	
ENGL 3570	Nineteenth-Century Black Literature
ENGL 3660	Twentieth-Century Irish Literature I

ENGL 3661 Twentieth-Century Irish Literature II

or ENGL 3661W Twentieth-Century Irish Literature I

ENGL 3730 Topics in Global Postcolonial Literature and Film

or ENGL 3730W Topics in Global Postcolonial Literature and Film

ENGL 3850 Ethnicity and Place in American Literature

ENGL 3910 Disability Studies

ENGL 3920 U.S. Latina/o Literature and Culture

ENGL 3930 Topics in U.S. Latina/o Literature and Culture

or ENGL 3930W Topics in U.S. Latina/o Literature and Culture

ENGL 3940 Topics in African American Literary Studies

ENGL 3950 Cultural Theory and Black Studies

or ENGL 3950W Cultural Theory and Black Studies

ENGL 3960 Asian American Literature

or ENGL 3960W Asian American Literature

ENGL 3980 Queer Studies

or ENGL 3980W Queer Studies

Five creative writing workshops (15 credits), two of which must be at the 3000 level or above, selected from the following:

ENGL 2250 Dramatic Writing

or TRDA 2250 Dramatic Writing

ENGL 2460 Fiction Writing

ENGL 2470 Poetry Writing

ENGL 2560 Intermediate Fiction Writing

ENGL 2570 Intermediate Poetry Writing

ENGL 3250 Intermediate Dramatic Writing

or TRDA 3250 Intermediate Dramatic Writing

ENGL 3360 Advanced Fiction Writing

ENGL 3370 Advanced Poetry Writing

ENGL 3380 Creative Writing Workshop

ENGL 3390 Topics in Creative Writing

Other required courses (6 credits):

ENGL 2210 Techniques in Creative Writing

ENGL 3210 Readings in Creative Writing

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

Majors in Creative Writing and English who wish to be considered for Special Honors must apply in writing in the spring semester of the junior year; they must meet the requirements stated under University Regulations and have a GPA of 3.25 in courses in the English Department at the time of applying. Candidates take the Creative Writing Senior Thesis ENGL 4220 (<http://bulletin.gwu.edu/search/?P=ENGL%204250>) in the spring semester. To be eligible for graduation with Special Honors, candidates must earn an A or A– on the Honors Thesis and have achieved a 3.4 grade-point average in courses in the English Department.

BACHELOR OF ARTS WITH A MAJOR IN ENGLISH

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
Any one introductory, non-creative writing course at the 1000 level. Suggested courses include:		
ENGL 1000	Dean's Seminar	
ENGL 1050	Introduction to Literary Studies	
ENGL 1300	The Bible as Literature	

ENGL 1305	Colonial/Post-Colonial British Literature
ENGL 1315	Literature and the Financial Imagination
ENGL 1320	Literature of the Americas
or ENGL 1320W	Literature of the Americas
ENGL 1330	Myths of Britain
or ENGL 1330W	Myths of Britain
ENGL 1340	Essential Shakespeare
or ENGL 1340W	Essential Shakespeare
ENGL 1351	Shakespeare Seminar
ENGL 1360	Fantasy and Speculative Fiction
ENGL 1365	Literature and the Environment
ENGL 1370	Topics in Global Cinema
One course in creative writing at the 1000 or 2000 level. Suggested courses include:	
ENGL 1210	Introduction to Creative Writing
ENGL 2210	Techniques in Creative Writing
ENGL 2240	Play Analysis
ENGL 2460	Fiction Writing
ENGL 2470	Poetry Writing
ENGL 2560	Intermediate Fiction Writing
ENGL 2570	Intermediate Poetry Writing
Two introductory survey courses at the 2000 level. Suggested courses include:	
ENGL 2100	Introduction to Asian American Studies through Literature
ENGL 2410	Introduction to English Literature I
or ENGL 2410	Introduction to English Literature I
ENGL 2411	Introduction to English Literature II
or ENGL 2411W	Introduction to English Literature II
ENGL 2510	Introduction to American Literature I
or ENGL 2510W	Introduction to American Literature I
ENGL 2511	Introduction to American Literature II
or ENGL 2511W	Introduction to American Literature II

ENGL 2610	Introduction to Black Literature of America I
or ENGL 2610W	Introduction to Black Literature of America I
ENGL 2611	Introduction to Black Literature of America II
or ENGL 2611	Introduction to Black Literature of America II
ENGL 2710	Postcolonialism, Race, and Gender in Global Anglophone Literature and Film
or ENGL 2710W	Postcolonialism, Race, and Gender in Global Anglophone Literature and Film
ENGL 2711	Postcolonialism and Migration in Global Anglophone Literature and Film
or ENGL 2711W	Postcolonialism and Migration in Global Anglophone Literature and Film
ENGL 2712	Bollywood Cinema
or ENGL 2712W	Bollywood Cinema
ENGL 2830	Introduction to Tragedy
ENGL 2840	Introduction to Comedy
One course in critical theory:	
ENGL 2800	Introduction to Critical Theory
or ENGL 2800W	Introduction to Critical Theory
One minority/diversity course at the 3000 level. Suggested courses include:	
ENGL 3570	Nineteenth-Century Black Literature
ENGL 3660	Twentieth-Century Irish Literature I
ENGL 3661	Twentieth-Century Irish Literature II
or ENGL 3661W	Twentieth-Century Irish Literature I
ENGL 3730	Topics in Global Postcolonial Literature and Film
or ENGL 3730W	Topics in Global Postcolonial Literature and Film
ENGL 3800	The Literature of Hawaii
ENGL 3840	Gender and Literature
or ENGL 3840W	Gender and Literature
ENGL 3850	Ethnicity and Place in American Literature
ENGL 3910	Disability Studies

ENGL 3912	Disability and the Holocaust
ENGL 3920	U.S. Latina/o Literature and Culture
ENGL 3930	Topics in U.S. Latina/o Literature and Culture
or ENGL 3930W	Topics in U.S. Latina/o Literature and Culture
ENGL 3940	Topics in African American Literary Studies
ENGL 3945	African American Poetry
ENGL 3950	Cultural Theory and Black Studies
ENGL 3960	Asian American Literature
or ENGL 3960W	Asian American Literature
ENGL 3965	Topics in Asian American Cultural Studies
ENGL 3970	Jewish American Literature
or ENGL 3970W	Jewish American Literature
ENGL 3980	Queer Studies
or ENGL 3980W	Queer Studies

Electives

Four additional ENGL courses (12 credits) at the 3000 level, excluding creative writing courses. Up to two of these courses may be taken in foreign literature if determined to be equivalent to 3000-level English courses by the English Director of Undergraduate Advising.

With departmental approval, courses with appropriate subject matter may be substituted for those specified above. A single course may fulfill only one requirement.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must apply in writing in the spring semester of the junior year; and they must have a GPA of 3.25 in courses in the English Department at the time of applying. Candidates take ENGL 4040 Honors Seminar in the fall semester of the senior year and ENGL 4250 Honors Thesis

in the spring semester. Candidates must earn an A or A– on the Honors Thesis and have achieved a 3.4 grade-point average in courses in the English Department.

DOCTOR OF PHILOSOPHY IN THE FIELD OF ENGLISH WITH OPTIONAL CONCENTRATIONS IN ENGLISH OR AMERICAN LITERATURE

The PhD in English features areas of strength (<https://english.columbian.gwu.edu/areas-strength/>) in American Literature and Culture, British and Postcolonial Studies, Crip/Queer Studies and Medieval and Early Modern Studies. Within each of these areas, students are invited to construct their own specializations and methodologies, ranging from sociohistorical angles to digital humanities and film studies.

Doctoral-level seminars are small, encouraging discussion and equal participation. Seminar presentations are modeled on conference papers, and many of our students have turned their coursework into conference presentations and articles that are suitable for publication in scholarly journals.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Required:

1. Coursework planned in consultation with the department advisor
2. A comprehension exam in a language approved by the department
3. A qualifying examination passed at the beginning of the student's second year and a field examination passed by the end of the student's coursework, topics and reading lists for which are designed in consultation with two graduate faculty advisors
4. A dissertation proposal after the field exam
5. A dissertation on an approved topic, directed by a member of the department's graduate faculty, and completed by the end of the fifth year of study.

Each student plans a program of studies in consultation with the department advisor and a committee of the graduate faculty. Students must maintain a grade-point average of at least 3.5.

DUAL BACHELOR OF ARTS WITH A MAJOR IN ENGLISH AND MASTER OF ARTS IN THE FIELD OF ENGLISH

The Department of English offers a dual bachelor of arts with a major in English (p. 248) and master of arts in the field of English (p. 251) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://english.columbian.gwu.edu/combined-bama-program/>) for additional information.

MASTER OF ARTS IN THE FIELD OF ENGLISH WITH OPTIONAL CONCENTRATIONS IN ENGLISH OR AMERICAN LITERATURE

The MA program offers comprehensive training in critical theory as well as literary and cultural studies, exposing students to a diversity of texts within a global and transnational context. A large faculty serves a small student body to allow for close interaction and mentoring at every stage of graduate study. Students have access to extraordinary research archives, such as the Folger Shakespeare Library, Library of Congress, National Archives, and libraries connected to the many museums in Washington, DC.

Each semester, the graduate programs in English offer seminars on a variety of subjects and time periods. Special strengths include medieval and early modern studies, nineteenth century studies, and contemporary literatures. Students and faculty work closely together in and outside the classroom, especially through the Medieval and Early Modern Studies Institute, the nineteenth century studies seminar, the Wang Visiting Scholars series, and special events.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Non-thesis option—30 credits; including 30 credits in required courses and a final master's portfolio; thesis option—30 credits, including 24 credits in required courses and 6 credits of thesis.

Code	Title	Credits
Required		
ENGL 6100	Introduction to Literary Theory	
For students pursuing the thesis option only		
ENGL 6998	Thesis Research	
ENGL 6999	Thesis Research	
The remainder of the program is developed in consultation with the departmental advisor.		

Students must maintain a minimum grade-point average of 3.25.

MINOR IN CREATIVE WRITING

The following requirements must be fulfilled: 21 credits selected from the following options:

Code	Title	Credits
One introductory literature course (3 credits) from the following:		
ENGL 1305	Colonial/Post-Colonial British Literature	
ENGL 1315	Literature and the Financial Imagination	
ENGL 1320	Literature of the Americas	
or ENGL 1320W	Literature of the Americas	
ENGL 1330	Myths of Britain	
or ENGL 1330W	Myths of Britain	
ENGL 1340	Essential Shakespeare	
or ENGL 1340W	Essential Shakespeare	
ENGL 2410	Introduction to English Literature I	
or ENGL 2410W	Introduction to English Literature I	
ENGL 2411	Introduction to English Literature II	
or ENGL 2411W	Introduction to English Literature II	
ENGL 2510	Introduction to American Literature I	
or ENGL 2510W	Introduction to American Literature I	
ENGL 2511	Introduction to American Literature II	
or ENGL 2511W	Introduction to American Literature II	
ENGL 2710	Postcolonialism, Race, and Gender in Global Anglophone Literature and Film	

or ENGL 2710W Postcolonialism, Race, and Gender in Global Anglophone Literature and Film

ENGL 2711	Postcolonialism and Migration in Global Anglophone Literature and Film
or ENGL 2711W	Postcolonialism and Migration in Global Anglophone Literature and Film
ENGL 2830	Introduction to Tragedy
ENGL 2840	Introduction to Comedy

Code	Title	Credits
------	-------	---------

Six additional English (ENGL) courses (18 credits), of which five must be in creative writing:

At least three in poetry:

ENGL 2470	Poetry Writing
ENGL 2570	Intermediate Poetry Writing
ENGL 3370	Advanced Poetry Writing
ENGL 3380	Creative Writing Workshop

Or three in fiction:

ENGL 2460	Fiction Writing
ENGL 2560	Intermediate Fiction Writing
ENGL 3360	Advanced Fiction Writing
ENGL 3380	Creative Writing Workshop

Or two in dramatic writing:

ENGL 2250	Dramatic Writing
or TRDA 2250	Dramatic Writing
ENGL 3250	Intermediate Dramatic Writing
or TRDA 3250	Intermediate Dramatic Writing

ENGL 3390 Topics in Creative Writing

MINOR IN ENGLISH REQUIREMENTS

The following requirements must be fulfilled: 18 credits in selected courses.

Code	Title	Credits
------	-------	---------

One introductory courses (3 credits) from the following:

ENGL 1305	Colonial/Post-Colonial British Literature
-----------	---

ENGL 1315	Literature and the Financial Imagination
ENGL 1320/1320W	Literature of the Americas
ENGL 1330/1330W	Myths of Britain
ENGL 1340/1340W	Essential Shakespeare
ENGL 2410	Introduction to English Literature I
or ENGL 2410W	Introduction to English Literature I
ENGL 2411	Introduction to English Literature II
or ENGL 2411W	Introduction to English Literature II
ENGL 2510	Introduction to American Literature I
or ENGL 2510W	Introduction to American Literature I
ENGL 2511	Introduction to American Literature II
or ENGL 2511W	Introduction to American Literature II
ENGL 2610	Introduction to Black Literature of America I
or ENGL 2610W	Introduction to Black Literature of America I
ENGL 2611	Introduction to Black Literature of America II
or ENGL 2611W	Introduction to Black Literature of America II
ENGL 2710	Postcolonialism, Race, and Gender in Global Anglophone Literature and Film
or ENGL 2710W	Postcolonialism, Race, and Gender in Global Anglophone Literature and Film
ENGL 2711	Postcolonialism and Migration in Global Anglophone Literature and Film
or ENGL 2711W	Postcolonialism and Migration in Global Anglophone Literature and Film
ENGL 2830	Introduction to Tragedy
ENGL 2840	Introduction to Comedy

Remaining requirement

Five ENGL course (15 credits) in literature numbered 3000 or above. These may not include creative writing courses.

MINOR IN ENGLISH FOR BUSINESS STUDENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ENGL 1315	Literature and the Financial Imagination	
ENGL 3400	Topics in Literature and Finance	

Electives

Four elective courses (12 credits) in English (ENGL) courses at the 3000-level.

ENGLISH FOR ACADEMIC PURPOSES

OVERVIEW

The mission of the English for Academic Purposes (EAP) program is to help socialize international students who speak English as a second or additional language into the GW community. EAP helps prepare students to meet academic expectations for communication at a university level by offering core courses that focus on academic research and writing, as well as elective courses that target oral academic communication and other critical academic literacy skills. The program's instructional practices are grounded in the fields of TESOL, applied linguistics, and writing studies. Through their work in the program, students build an academic skill set that benefits them in their coursework and in their professional careers.

Visit the English for Academic Purposes program website (<https://eap.columbian.gwu.edu/>) for additional information.

FACULTY

Director M. Siczek

Teaching Assistant Professor N. Dolgova (Jacobsen)

Teaching Assistant Professor D. Stanchevici

Teaching Assistant Professor J. Paiz

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Students who are not placed into EAP 6110 Academic Writing and Research for International Graduate Students I and EAP 6111 Academic Writing and Research for International Graduate Students II require instructor's permission to register.

EAP 1010. Oral Academic Communication for International Students. 3 Credits.

Preparation for oral communication expectations of the U.S. undergraduate curriculum. Targets a variety of oral genres including in-class discussions, team and individual presentations, and multimodal assignments requiring the use of technology. Restricted to international students.

EAP 1015. Academic Writing for International Students. 3 Credits.

Structured academic writing course with a thematic focus on Washington, DC, culture. Development of academic literacy skills, source-based writing in a variety of genres, and drafting and revising written work. Followed by UW 1020. Restricted to international students.

EAP 1016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. Same As: EAP 6016.

EAP 1046. Independent Study. 1-4 Credits.

Individualized instruction in specific skill areas. Program director approval required. Credit for this course cannot be applied toward a degree.

EAP 3200. Special Topics in English for Academic Purposes. 3 Credits.

This special topics course targets academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

EAP 6000. Academic Communication. 3 Credits.

Acclimation to the oral communication expectations of graduate school through developing listening and note-taking skills, expanding communicative vocabulary, leading and participating in class discussions, and preparing and delivering informal and formal presentations. Classroom activities directed toward scholarly and professional communication in students' fields of study whenever possible. Credit does not apply to any degree or certificate offered by GW.

EAP 6016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. (Same as EAP 1016).

EAP 6110. Academic Writing and Research for International Graduate Students I. 3 Credits.

An introduction to academic writing at the graduate level. Focus on developing rhetorical awareness, working with academic sources, drafting and revising academic writing assignments, using academic vocabulary, and improving grammatical accuracy. Credit for this course does not apply toward any degree or certificate offered by GW.

EAP 6111. Academic Writing and Research for International Graduate Students II. 3 Credits.

An academic writing and research course for international graduate students who demonstrate high proficiency in English. Focus on evaluating and using sources, reading and analysis of academic genres and discourse (including grammar and vocabulary), following appropriate process for writing and revising an independent research paper, small-group discussion, and oral presentations on research. Credit for this course does not apply toward any degree or certificate offered by GW.

EAP 6200. Special Topics in English for Academic Purposes. 3 Credits.

Academic communication in specialized or advanced contexts. Class activities and assignments reflect an analysis of student needs in disciplinary or professional fields. Course content draws on authentic materials and tasks to prepare students for success in written and oral communication.

ENVIRONMENTAL STUDIES

The Columbian College of Arts and Sciences offers an interdisciplinary program in environmental studies leading to the degree of bachelor of arts. Housed in the Department of Geography (<https://geography.columbian.gwu.edu/>), the major combines courses drawn from biological sciences, geological sciences, and geography, as well as American studies, anthropology, economics, English, history, public health, religion, sociology, and statistics.

Visit the Environmental Studies program website (<https://geography.columbian.gwu.edu/environmental-studies-major/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in environmental studies (p. 255)

Combined Program

- Dual Bachelor of Arts with a major in environmental studies and Master of Arts in the field of environmental resource policy (p. 257)

FACULTY

Director M. Keeley

Adviser G. Allington

BACHELOR OF ARTS WITH A MAJOR IN ENVIRONMENTAL STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Foundational courses		
BISC 1006	The Ecology and Evolution of Organisms	
or BISC 1112	Introductory Biology: The Biology of Organisms	
GEOG 1002	Introduction to Physical Geography	
GEOG 1003	Society and Environment	
GEOG 2104	Introduction to Cartography and GIS	
STAT 1053	Introduction to Statistics in Social Science	
or STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1111	Business and Economic Statistics I	
or STAT 1127	Statistics for the Biological Sciences	

Code	Title	Credits
Requirements for the major		
GEOG 2196	Field Methods in Geography (or equivalent)	
ENVR 4195	Environmental Studies Capstone	
Three of the following science courses:		
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior	
BISC 2010	Global Change Biology	
BISC 2401	Biodiversity in A Changing World	
BISC 2452	Animal Behavior	
BISC 2454	General Ecology	
BISC 3454	Marine Ecology	
BISC 3458	Plant Comparative Structure and Function	
BISC 3459	Field Biology *	
BISC 3460	Conservation Biology	
or BISC 3460W	Conservation Biology	
BISC 3461	Plant-Animal Interactions	
BISC 3464	Ecology and Evolution of Societies	
CHEM 2085	Environmental Chemistry	
GEOG 2129	Biogeography	
or GEOG 2129W	Biogeography	
GEOG 2136	Water Resources	
GEOG 3108	Weather and Climate	
GEOG 3128	Geomorphology	
GEOG 3218	Arctic Systems	
GEOL 2106	Oceanography	
GEOL 2151	Introduction to Paleontology	
GEOL 3128	Sedimentology and Stratigraphy	
GEOL 3138	Hydrogeology	
GEOL 3191	Geology of Energy Resources	
Three of the following society courses:		

ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
ANTH 3502	Cultural Ecology
ECON 2136	Environmental and Natural Resource Economics
GEOG 2124	Urban Transportation
GEOG 2125	Transportation Systems and Networks
GEOG 2127	Population Geography
GEOG 2133	People, Land, and Food
GEOG 2134	Energy Resources
or GEOG 2134W	Energy Resources
GEOG 2137	Environmental Hazards
GEOG 2140	Cities and Societies
GEOG 2141	Cities in the Developing World
GEOG 3132	Environmental Quality and Management
GEOG 3143	Urban Sustainability
or GEOG 3143W	Urban Sustainability
GEOG 3810	Planning Cities
HIST 3001	Special Topics (an environmental topic)
IA 3350	Basic Sustainability Design Strategies
PHIL 2281	Philosophy of the Environment
PPPA 2701	Sustainability and Environmental Policy
PUBH 3132	Health and Environment
PUBH 3150	Sustainable Energy and Environmental Health
SUST 2002	The Sustainable City

Electives

Two additional upper-level courses selected from the science and society course lists, above.

*May count as either a science requirement or the field method requirement, but not both.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education

curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may

count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

DUAL BACHELOR OF ARTS WITH A MAJOR IN ENVIRONMENTAL STUDIES AND MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY

The Department of Geography and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in environmental studies (p. 255) and master of arts in the field of environmental resource policy (p. 446) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://enrp.columbian.gwu.edu/combined-bama-degree/>) for additional information.

FILM STUDIES

Housed in the Columbian College of Arts and Sciences, film studies covers classical film aesthetics, surveys the history of world cinema, and takes an in-depth look at films from the United States, China, France, Germany, Japan, the Middle East, Russia, and the Spanish-speaking world.

Visit the Film Studies program website (<https://filmstudies.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Minor

- Minor in film studies (p. 257)

FACULTY

Committee on Film Studies E. Anker (*Director*), Y. Captain, H. Feigenbaum, K. Harvey, A. Hildebeitel, P. Rollberg, N. Seavey

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FILM 1099. Variable Topics. 1-36 Credits.

FILM 2151. Film Theory. 3 Credits.

A reading-intensive immersion in classical film aesthetics and a survey of the theoretical and critical canon of cinema literature. Laboratory fee.

FILM 2152. Genres of Film. 3 Credits.

An exploration of the relationship between cinematic structure and narrative content in various types of film. Laboratory fee.

FILM 2153. History of World Cinema I. 3 Credits.

A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2154. History of World Cinema II. 3 Credits.

Continuation of FILM 2153. A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2155. Screenwriting. 3 Credits.

Introduction to the art and craft of screenwriting—concept, genre, character, structure, dialogue, scene/sequence construction, and, ultimately, the preparation of scripts and treatments for a variety of screen formats.

FILM 2156. Advanced Screenwriting. 3 Credits.

Advanced phases of screenwriting culminating in the preparation of a full-length screenplay, with contextual study of contemporary, international, and classical films toward a fuller appreciation of movies as a cultural whole.

FILM 3099. Variable Topics. 1-12 Credits.

FILM 3390. Screenwriting. 3 Credits.

FILM 5099. Variable Topics. 1-99 Credits.

MINOR IN FILM STUDIES

REQUIREMENTS

The following requirements must be fulfilled: 21 credits, including 12 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
Required		
FILM 2151	Film Theory	

FILM 2152	Genres of Film
FILM 2153	History of World Cinema I
FILM 2154	History of World Cinema II
Electives	
Three from the following:	
AMST/AH 1070	The American Cinema
AMST 1100	Politics and Film
AMST 6190	Topics in American Studies (Democracy in Film)
ARAB 3502	Arab Film and Culture in English
CHIN 3162	Chinese Culture Through Film
CHIN 3163	Taiwanese Literature and Film
CLAS 3103	
CLAS 3114	Topics in Ancient Literatures and Cultures (Classics and Film)
CLAS 3202	
ENGL 1712	
ENGL 3445	Shakespeare on Film
ENGL 3730W	Topics in Global Postcolonial Literature and Film (Gender and Sexuality in PocoFilm)
ENGL 3810	Selected Topics in Literature (Disability and Film)
FILM 2155	Screenwriting
FILM 2156	Advanced Screenwriting
FREN 3560	Topics in Contemporary Francophone Literature and Cinema
FREN 3700	History of French Cinema
GER 3181	History of German Cinema—in English
GER 3187	German Cinema after 1945
ITAL 4183	History of Italian Film
JAPN 3162	Japanese Culture Through Film
KOR 3162	Korean Culture through Film
MUS 1104	Topics in Music (Music on Film, Film on Music)

MUS 3174	Topics in Music Theory and Composition (Composing for Film)
PERS 3502	Post-Revolutionary Iranian Cinema
PHIL 1062	Philosophy and Film
SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II
SMPA 1000	Dean's Seminar (Hollywood and Politics)
SMPA 3194	Selected Topics in Political Communication *
or SMPA 3195	Selected Topics in Journalism and Mass Communication
SPAN 3560	
SPAN 3700	Cinema of Spain and Latin America
SMPA 6231	Documentary Filmmaking Practicum
SMPA 6274	Media and War

*Special topics courses must have the approval of the Program Director and will be considered only if the section covers a film-focused topic. SMPA 3194 and SMPA 3195 are offered on the same topic simultaneously. Topics offered include Film and Social Justice; Film and the American President; and War and Terrorism in Hollywood Film. For each section offered, students must choose to register under either SMPA 3194 or SMPA 3195.

FINE ARTS AND ART HISTORY

The Department of Fine Arts and Art History offers instruction in the visual and creative arts. Its programs strengthens a student's ability to develop visual literacy, as well as critical thinking and creative skills. Classroom study is supplemented by partnerships with the art museums and libraries of Washington, DC.

Fine Arts, an interdisciplinary program, fosters a rigorous, experimental approach to art as students cultivate creative pursuits in the studio and beyond.

Art History is rooted in direct, interpretive engagement with the visual arts. The program combines visual and historical analyses with philosophical hypotheses and theoretical, political debates. The curriculum promotes connections to the studio arts and interdisciplinary exchanges with other fields of inquiry. It also emphasizes the narrative qualities and rhetorical persuasiveness of art historical writing in dialogue with art objects, spaces, and performances.

Visit the Corcoran School of the Arts and Design website (<https://corcoran.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in art history (p. 263)
- Bachelor of Arts with a major in fine arts (p. 266)
- Bachelor of Arts with a dual major in art history and in fine arts (p. 259)

Minors

- Minor in art history (p. 270)
- Minor in fine arts (p. 270)
- Dual minor in art history and fine arts (p. 268)

Combined programs

- Dual Bachelor of Arts with a major in art history and Master of Arts in the field of art history (p. 267)
- Dual Bachelor of Arts with a major in fine arts and Master of Arts in the field of art therapy (p. 267)

GRADUATE

Master's programs

- Master of Arts in the field of art history (p. 268)
- Master of Fine Arts in the field of fine arts (p. 269)

FACULTY

Professors B. von Barghahn, D. Bjelajac, T. Ozdogan, P. Jacks, L.F. Robinson.

Associate Professors A.B. Dumbadze (*Chair*), D. Kessmann, B.K. Obler, S. Rigg.

Assistant Professors J. Brown, M. Natif, J.G.H. Sham.

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Upper-division undergraduate fine arts Special Topics and Critical Practices courses may be repeated for credit when topic is different with approval of the undergraduate fine arts advisor or the department chair. A course fee is charged for

all fine arts courses listed here except FA 1075 East Asian Calligraphy, FA 4195 , and FA 4199 Internship.

Note: Core graduate fine arts courses may be repeated for credit with approval of the department. A course fee is charged for all fine arts courses listed here except FA 6295 and FA 6998 –FA 6999 Thesis Research.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with

Special Honors, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult their advisor regarding eligibility, area of study, and a director of the research or creative arts project.

BACHELOR OF ARTS WITH A MAJOR IN ART HISTORY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

36 credits in courses for the major. These include at least one course from six of the seven categories below and one additional course from any of these categories (21 credits); one fine arts course (3 credits); two junior senior seminars (3 credits); and two elective courses selected as outlined below (6 credits).

Code	Title	Credits
Required		
At least one course from six of the seven categories below and one additional course from any category for a total of 21 credits.		
Classical, ancient Near East, and medieval worlds		
CAH 3101	Ancient Art of the Bronze Age and Greece	
CAH 3102	Ancient Art of the Roman Empire	
CAH 3103	Art and Archaeology of Egypt and the Near East	
CAH 3104	Art and Archaeology of the Aegean Bronze Age	
CAH 3105	Topics in Ancient Art and Archaeology	
CAH 3106	Art and Archaeology of Israel and Neighboring Lands	
CAH 3111	Early Christian and Byzantine Art and Architecture	
CAH 3112	Proseminar in Romanesque and Gothic Art and Architecture	
CAH 4109	Topics in Ancient Art and Archaeology	
CAH 4119	Seminar in Medieval Art and Architecture	
Islamic spheres		

CAH 3113	Islamic Art and Architecture
CAH 3114	Art of the Book in the Medieval Muslim World
CAH 4165	Topics in Islamic Art and Architecture
Renaissance and global Baroque	
CAH 3120	Italian Art and Architecture of the 13th through 15th Centuries
CAH 3121	Italian Art and Architecture of the Sixteenth Century
CAH 3122	Topics in Early Northern Renaissance Art and Architecture
CAH 3122W	Topics in Early Northern Renaissance Art and Architecture
CAH 3123	Topics in Northern Renaissance Art and Architecture

CAH 4179 Topics in Design History and Theory

Asia and the Indian Ocean

CAH 2190 East Asian Art

CAH 2191 South Asian Art

CAH 2192 Art of Southeast Asia

CAH 3181 Special Topics in Asian Art

CAH 3182 Special Topics in South Asian Art

CAH 3182W Special Topics in South Asian Art

CAH 4181 Topics in Asian Art

CAH 4182 Topics in South Asian Art

Central and South America

CAH 3107 Ancient Mexican Civilizations

CAH 3116 The Aztec Empire

CAH 3117 Special Topics in Precolumbian Art and Archaeology

CAH 3160 Topics in Latin American Art and Architecture

Junior and senior seminars

At least two of the following seminars for a total of 6 credits:

CAH 4109 Topics in Ancient Art and Archaeology

CAH 4119 Seminar in Medieval Art and Architecture

CAH 4129 Seminar in Renaissance Art and Architecture

CAH 4139 Seminar in Baroque Art and Architecture

CAH 4149 Seminar in Modern European Art and Architecture

CAH 4159 Seminar in American Art and Architecture

CAH 4159W Seminar in American Art and Architecture

CAH 4165 Topics in Islamic Art and Architecture

CAH 4169	Seminar in Contemporary Art
CAH 4179	Topics in Design History and Theory
CAH 4182	Topics in South Asian Art
CAH 4189	Seminar: Topics in Art History

Fine arts

One Fine Arts (FA) course at any level for a total of 3 credits.

Electives

Any two courses from the categories above and/or from the following list for a total of 6 credits. With prior approval from the Director of Undergraduate Studies up to 6 of these credits may be from relevant coursework in another department.

CAH 1001	
CAH 1031	Survey of Art and Architecture I
CAH 1032	Survey of Art and Architecture II
CAH 1070	The American Cinema
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts
CAH 1091	Art History II: Historical Perspectives in the Visual Arts
CAH 1099	Variable Topics
CAH 1135	History of Spanish Art From the Golden Age to Goya
CAH 1136	History of Spanish Art From Goya to the Present
CAH 2001	Special Topics
CAH 2001W	Special Topics
CAH 3099	Variable Topics
CAH 3170	Materials, Methods, and Techniques in Art History
CAH 4197	Senior Thesis
CAH 4198	Independent Study
CAH 4199	Internship in Art History

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC.

Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement.

and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

To be eligible to write a Senior Thesis and for Honors in Art History, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult the Director of Undergraduate Studies regarding eligibility and selection of an area of research and the appropriate faculty members to supervise the project. We recommend that students strongly consider taking the full two semesters to complete the thesis. If writing the thesis in one semester, students should consider basing their project on pre-existing research from a previous course. The student registers for AH 4197 Senior Thesis, which may count toward an elective in fulfillment of the major. The student works closely with a Thesis Advisor on the thesis, gaining additional feedback from one or two Readers at the draft stage. A faculty committee judges whether the Senior Thesis qualifies for Honors.

BACHELOR OF ARTS WITH A MAJOR IN FINE ARTS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
6 credits in foundational courses selected from the following:		
CFN 1090	First-Year Studio 1: Drawing and Surface	
CFN 1091	First-Year Studio 2: Form and Materials	
CFN 1092	First Year Studio 3: Time and Light	
CFN 1093	First-Year Studio 4: Interaction	
12 credits in fine art studio courses:		
CSA 1090	Fine Art Fundamentals I	
CSA 1091	Fine Art Fundamentals II	
CSA 2092	Fine Art Studio Experimental Materiality	
CSA 3093	Fine Art Studio Conceptual Strategies	

Studio electives	
3 credits in studio electives taken at any level, selected from subject areas CSA, CPJ, CDE, CGD, CIXD, or CIAR.	
Studio arts electives	
6 credits in studio arts electives taken at the 2000 level or above, selected from subject areas CSA or CPJ.	
Cross-disciplinary studio electives	
3 credits in cross-disciplinary studio electives selected from the following:	
CSA 3901	Special Topics: Cross-Disciplinary Studio Arts
CSA 3911	Collaborative Practices: Social Practices of Art
CSA 3912	The Cinematic in Contemporary Art
CSA 3913	Painting Off the Wall
CSA 3914	Art Outside the Gallery
CSA 3915	Public Spectacle in Socially Engaged Art
CSA 3951	Creative Photovoltaics
Professional practices	
3 credits in professional practices selected from the following:	
CSA 4070	Professional Practices for Lens-Based Media
CSA 4170	Professional Practices for Artists
Thesis	
6 credits in thesis:	
CSA 4092	Fine Art Thesis I
CSA 4093	Fine Art Thesis II
Art history	
9 credits in art history courses:	
CAH 1090	Art History I: Art Now, Contemporary Perspectives in the Visual Arts
and 6 additional credits in art history or CSA seminars selected from the following:	
CSA 3021W	Topics in Fine Art Seminar

CSA 3020W	Topics in Photography and Photojournalism
CSA 4020W	Photography and Photojournalism Studio Seminar
CSA 4021	Fine Art Studio Seminar

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained, by the end of the junior year, a grade-point average of at least 3.5 in the major and 3.3 overall. By the end of the junior year, students should consult their advisor regarding eligibility, selection of an area of study, and a director of the research or creative arts project.

DUAL BACHELOR OF ARTS AND MASTER OF ARTS PROGRAMS IN FINE ARTS AND ART HISTORY

The Corcoran School of the Arts and Design offers two options for a dual bachelor's/master's degree:

- Bachelor of Arts with a major in art history (p. 263) and Master of Arts in the field of art history (p. 268)
- Bachelor of Arts with a major in fine arts (p. 266) and Master of Arts in the field of art therapy (p. 133)

The program allows students to take 9-12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Undergraduate students interested in the dual program confer with the department's graduate adviser early in their junior year. Visit the program website (<https://corcoran.gwu.edu/graduate-studies/>) for more details.

DUAL MINOR IN ART HISTORY AND FINE ARTS

REQUIREMENTS

The dual minor requires 9 to 12 credits of coursework in Art History and 9 to 12 credits in Fine Arts, for a total of 21 credits. The student's program of study is developed in consultation with the undergraduate advisors in the Department of Fine Art and Art History.

Visit the Corcoran School of the Arts and Design (<http://art.columbian.gwu.edu/combined-degree-fine-arts-art-history/>) website (<http://art.columbian.gwu.edu/combined-degree-fine-arts-art-history/>) for more information.

MASTER OF ARTS IN THE FIELD OF ART HISTORY

The Master of Arts degree in Art History offers students a curriculum that covers a range of historical, theoretical, geographic, and transcultural topics. For some students, the Master of Arts degree is a terminal degree in preparation for curatorial or education careers in galleries and museums; for others, it is preparation to enter a PhD program elsewhere. All students receive training that hones their critical analysis, research, and writing skills. They additionally have the opportunity to immerse themselves in the study of diverse creative practices and visual material.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits in required and elective courses.

Code	Title	Credits
Required		
CAH 6258	Art Historiography	
Elective		
At least one course from five of the following seven categories:		
Ancient		
CAH 6201	Proseminar in Ancient Art of the Bronze Age and Greece	
CAH 6202	Proseminar in Ancient Art of the Roman Empire	
CAH 6205	Topics in Ancient Art	

CAH 6270	Special Topics in Art History
Medieval/Islamic World	
CAH 6211	Proseminar in Early Christian and Byzantine Art and Architecture
CAH 6212	Proseminar in Romanesque and Gothic Art and Architecture
CAH 6213	Islamic Art and Architecture
CAH 6214	Art of the Book in the Medieval Muslim World
CAH 6215	Seminar in Medieval Art and Architecture
CAH 6265	Seminar in Islamic Art and Architecture
CAH 6270	Special Topics in Art History
Renaissance/Baroque	
CAH 6220	Proseminar in Italian Art and Architecture of the Thirteenth Through Fifteenth Centuries
CAH 6221	Proseminar in Italian Art and Architecture of the Sixteenth Century
CAH 6222	Proseminar in Early Northern Renaissance Art and Architecture
CAH 6223	Proseminar in Northern Renaissance Art and Architecture
CAH 6225	Seminar in Renaissance Art
CAH 6231	Proseminar in Italian Art and Architecture of the Seventeenth Century
CAH 6232	Proseminar in Northern European Art and Architecture of the Seventeenth Century
CAH 6234	Proseminar in Spanish and Portuguese Art through the Sixteenth Century
CAH 6236	Seminar in Baroque Art
CAH 6270	Special Topics in Art History
18th-19th Century	
CAH 6240	Proseminar in European Art of the Eighteenth Century
CAH 6245	Seminar in European Art of the Nineteenth Century

CAH 6251	Proseminar in American Art in the Age of Revolution
CAH 6252	Proseminar in American Art in the Era of National Expansion
CAH 6254	Seminar in American Art before 1900
CAH 6270	Special Topics in Art History
Modern/Contemporary	
CAH 6246	Proseminar in Modern Architecture in Europe and America
CAH 6250	Seminar in Modern Art
CAH 6255	Seminar Studies in American Art and History
CAH 6256	Seminar in American Art of the Twentieth Century
CAH 6257	Seminar in Photography
CAH 6269	Seminar in Contemporary Art
CAH 6270	Special Topics in Art History
CAH 6286	Preventive Conservation Concepts
CAH 6287	Preventive Conservation Techniques
CAH 6400	History of Exhibitions
Asian/African	
CAH 6260	Seminar in African Art
CAH 6261	Seminar in Asian Art
CAH 6262	Seminar in South Asian Art
CAH 6270	Special Topics in Art History
Pre-Columbian/Latin American	
CAH 6270	Special Topics in Art History
Internship/Independent Study	
CAH 6298	Independent Research in Art History
CAH 6299	Museum Internship
Up to 6 credits of graduate coursework may be completed outside the department with approval of the graduate advisor.	
One qualifying paper must be submitted in the spring semester of the second year. Part-time students will submit one qualifying paper at date set in consultation with the graduate advisor.	

Foreign language proficiency is not required for the master's degree. However, students have the option of taking an examination in one of the following foreign languages: Arabic, Dutch, French, German, Hindi, Italian, Latin, Persian, Portuguese, or Spanish.

Museum Training Concentration

Code	Title	Credits
------	-------	---------

Prerequisites and requirements are the same as those for the MA in the field of art history. After completion of 18 credits in art history (AH) courses, students in the concentration take 6 credits of internship through enrollment in AH 6299.

Visit the program website (<https://corcoran.gwu.edu/art-history/>) for additional information.

MASTER OF FINE ARTS IN THE FIELD OF FINE ARTS

The MFA program at GW comprises a two-year commitment for emerging artists who wish to expand the material and intellectual dimensions of their work. The interdisciplinary nature of the program creates an environment where cross-pollination among fields flourishes. Simultaneously, graduate students enter into vibrant communities of peers, faculty, and visiting artists: intensive studio visits and critiques facilitate re-imagining the boundaries of art practice.

The MFA program in the Studio Arts Program is a 60 credit, full-time program. Students register for 15 credits per semester, per the standard recommended for a terminal degree by the College Art Association.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

60 credits, including 45 credits in required courses, 9 credits in elective courses, 6 credits in thesis, including a thesis exhibition.

Code	Title	Credits
------	-------	---------

Required

CSA 6091	Contemporary Art and Theory for Artists I
----------	---

CSA 6092	Contemporary Art and Theory for Artists II
----------	--

CSA 6093	Professional Practices
----------	------------------------

CSA 6094	Writing in Practice
----------	---------------------

CSA 6095	Critical Practices (taken for a total of 21 credits)
CSA 6096	Studio Visits (taken for a total of 12 credits)
Thesis exhibition	
CSA 6998	Thesis Research
CSA 6999	Thesis Research

A thesis exhibition consisting of the execution of creative work along with a critical statement about this work must be completed under the supervision of a committee consisting of at least two full-time departmental faculty members.

Electives

9 credits in studio and seminar electives

Studio and art history electives should be taken at the 6000 level or above. In consultation with the Director of Graduate Studies, MFA students may elect to take up to 6 credits of upper-level and graduate courses in other academic departments, assuming prerequisites have been met. Students may take one 3000-level course in another academic area with approval.

Visit the program website (<https://corcoran.gwu.edu/mfa-fine-arts/>) for additional information.

MINOR IN ART HISTORY REQUIREMENTS

The following requirements must be fulfilled: 18 credits in art history courses

Code	Title	Credits
Required		
CAH 1031	Survey of Art and Architecture I	
CAH 1032	Survey of Art and Architecture II	

Electives

Four upper-level Art History (AH) courses for a total of 12 credits.

Visit the program website (<https://corcoran.gwu.edu/art-history-undergraduate-programs/>) for additional information.

MINOR IN FINE ARTS REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required course and 12 credits in elective courses.

Code	Title	Credits
Required		
6 credits (two courses) from the following. Both courses cannot be in the same studio area.		
Ceramics		
CSA 1101	Introduction to Handbuilt Ceramics	
CSA 1102	Introduction to Wheelthrown Ceramics	
Sculptures		
CFN 1091	First-Year Studio 2: Form and Materials	
CSA 1201	Sculpture Fundamentals: Material Investigations	
Drawing		
CFN 1090	First-Year Studio 1: Drawing and Surface	
CSA 1301	Drawing Fundamentals	
Painting		
CSA 1401	Painting: Visual Thinking	
Photography		
CFN 1092	First Year Studio 3: Time and Light	
CSA 1501	Black and White Photography Fundamentals	
CSA 1502	Introduction to Digital Color Photography	
New media		
CFN 1093	First-Year Studio 4: Interaction	
CSA 1601	New Media Digital Art	

3 credits in any studio electives subject area taken at any level, selected from the CFN, CPJ, OR CSA subject areas.

9 credits in studio electives at the 2000 level or above, selected from the CPJ or CSA subject areas.

FORENSIC SCIENCES

As part of the Columbian College of Arts and Sciences' natural, mathematical, and biomedical sciences programs, forensic sciences provides an understanding of the integration of forensic disciplines with the investigation of criminal activity, while providing an overview of the analytical methods, procedures, equipment, and data used by forensic specialists. Coursework emphasizes the identification and analysis of evidence as well as the interpretation and reporting of the results.

The master of forensic sciences (MFS) degree is offered in the fields of forensic chemistry and forensic molecular biology. The field of forensic chemistry is intended for students who are interested in a career in forensic drug analysis and/or trace evidence, while the field of forensic molecular biology is intended for students interested in a career in forensic DNA analysis. Students interested in pursuing a career as forensic scientists in other fields, for example latent fingerprint examination, firearm and toolmark identification, or questioned document examination, should complete the master of forensic sciences degree without selecting a field.

The master of science (MS) degree is offered in the field of crime scene investigation. In addition, a graduate certificate is offered in forensic investigation.

GRADUATE

Master's programs

- Master of Forensic Sciences (<https://current.bulletin.gwu.edu/arts-sciences/forensic-sciences/ma/>)
- Master of Forensic Sciences in the field of forensic chemistry (<https://current.bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-chemistry/>)
- Master of Forensic Sciences in the field of forensic molecular biology (<https://current.bulletin.gwu.edu/arts-sciences/forensic-sciences/mfs-forensic-molecular-biology/>)
- Master of Science in the field of crime scene investigation (<https://current.bulletin.gwu.edu/arts-sciences/forensic-sciences/ms-crime-scene-investigation/>)

Combined program

- Dual Bachelor of Science with a major in chemistry and Master of Forensic Sciences with a concentration in forensic chemistry (<https://current.bulletin.gwu.edu/arts-sciences/chemistry/combined-bs-mfs-forensic-chemistry/>)

CERTIFICATE

Certificate programs

- Graduate certificate in forensic investigation (p. 274)

FACULTY

Professors I.S. Lurie (*Research*), W.F. Rowe, M.S. Schanfield, V. Weedn

Associate Professor D. Podini (*Chair*)

Assistant Professor I. Marginean

Professorial Lecturers E. Bernard, S. Brazelle, H. Elliott, N. Galbreth, K. Gerber, J. Miller, D. O'Neil, L. O'Daniel

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FORS 2102. Introduction to Forensic Science I. 3 Credits.

The application of science to the criminal justice system; crime scene processing, crime scene reconstruction, investigation of fires and explosions, impression evidence, trace evidence, and computer forensics. Completion of two semesters of a laboratory science other than astronomy and permission of the instructor are required prior to enrollment.

FORS 2104. Introduction to Forensic Sciences II. 3 Credits.

The application of science to the criminal justice system; personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Prerequisites: two semesters of a laboratory science other than astronomy and permission of instructor.

FORS 2104W. Introduction to Forensic Sciences. 3 Credits.

Topics in the application of science to the criminal justice system, including personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and FORS 2104.

FORS 2151. Crime Scene Investigation. 4 Credits.

Examination, analysis, and reconstruction of crime scenes; principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence.

FORS 2190. Topics in Forensic Science. 3 Credits.

. Restricted to juniors. Prerequisites: BISC 1005 or BISC 1006; and CHEM 1003 or CHEM 1004.

FORS 5099. Variable Topics. 1-99 Credits.**FORS 6004. Fundamentals of Forensic Science I. 3 Credits.**

This course surveys crime scene investigation techniques, medicolegal death investigation, and patterned evidence examination. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of crime scene investigation, physical evidence concepts, and pattern evidence. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of firearms and toolmarks, fingerprints, and questioned documents. Lectures are given by faculty members and guest lecturers who are subject matter experts on the topic presented. This course includes a four hour laboratory (fingerprints). This is a required course for MFS and CSI students. This course, along with FORS 6005 Fundamentals of Forensic Science II, replaces FORS 6213, Elements of Forensic Science (3 Credits). Prerequisite: None.

FORS 6005. Fundamentals of Forensic Science II. 3 Credits.

This course surveys the traditional crime laboratory (criminalistics) disciplines—specifically forensic drug chemistry, forensic toxicology, trace evidence, fire debris, explosives, and forensic molecular biology. This satisfies the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of analytical chemistry and instrumental methods of analysis, drug chemistry/toxicology, microscopy and materials analysis, and forensic biology. This course helps students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of forensic biology, trace evidence, fire debris, controlled substances, and toxicology/ blood alcohol determinations.

FORS 6010. Bloodstain Pattern Analysis I. 3 Credits.

Human blood in flight and the patterns it makes on target surfaces. Crime scene investigation, crime scene analysis, and crime scene reconstruction. Laboratory fee. Restricted to graduate students. Recommended background: FORS 6251 and FORS 6256.

FORS 6011. Bloodstain Pattern Analysis II. 3 Credits.

Continuation of the concepts learned in FORS 6010. Serving as an expert witness; refining blood pattern analysis and documentation skills; effectively communicating observations, analysis, and conclusions in the courtroom. Laboratory fee. Restricted to graduate students. Prerequisites: FORS 6010. Recommended background: FORS 6251 and FORS 6256.

FORS 6020. Ethics, Professional Responsibility, and Quality Assurance. 2 Credits.

Issues of forensic science laboratory professional responsibility, including ethics, public policy, and quality assurance. Satisfies 10 hours of instruction for a Forensic Science Education Programs Accreditation Commission (FEPAC) accredited MFS degree in the core topics of ethics and professional responsibility and quality assurance; also assists in preparation for the American Board of Criminalistics examination in the area of ethics. Taken online during the summer session.

FORS 6201. Forensic Biology. 3 Credits.

Principles of the forensic analysis of blood and other biological materials. Specific procedures and techniques used in forensic biology and serology. Laboratory fee.

FORS 6203. Examination of Questioned Documents. 3 Credits.

Theory and principles of handwriting and handprinting, duplicating processes, paper manufacture and fiber analysis; studies of paper and methods of examining questioned documents. Laboratory fee.

FORS 6204. Firearms and Toolmark Identification. 3 Credits.

Methods for identifying firearms, bullet cartridge casings, toolmarks, gunshot residue, obliterated serial numbers, tire marks, and footprints. Laboratory fee.

FORS 6206. Trace Evidence Analysis. 3 Credits.

Principles that govern the analysis of trace evidence, including recovery, transference, interpretation, and comparison. Assessment of evidentiary value, reporting, and court testimony. Laboratory fee.

FORS 6207. Photography in the Forensic Sciences. 3 Credits.

Basic use of forensic photography, including selection and use of equipment, photographs as evidence, close-up work, and common misconceptions. Laboratory fee.

FORS 6210. Advanced Instrumental Analysis. 3 Credits.

Theory and practice of modern instrumental methods used in forensic laboratories, including mass spectrometry, optical spectroscopy, microscopy, chromatographic and electrophoretic separations. It is a required course for MFS students with concentration in Forensic Chemistry and Forensic Toxicology. Recommended background: undergraduate analytical methods.

FORS 6213. Elements of Forensic Sciences. 3 Credits.**FORS 6215. Science of Fingerprints. 3 Credits.**

A general overview of the history and biology of and principles underlying the science of fingerprints. Latent print development methods, recording, classification, and methodology of comparison of fingerprints and palm prints to include latent prints. Subject matter is covered at an introductory level; additional study is required to develop expertise as a latent fingerprint examiner.

FORS 6216. Development of Latent Prints. 3 Credits.

This Advanced Fingerprint Science Course provides the students an increased understanding of the main principles of fingerprint identification: uniqueness and persistence. The course is broken down into three main sections, which address the chemistry behind processing fingerprints, the anatomy and physiology of friction ridge skin and the extensive research that has been conducted in the field of fingerprint science. The students are required to complete a skills processing exam to assess their understanding and ability to develop latent prints on items of evidence. In addition, there is a written examination covering the topics of biology and development of friction ridge skin and a final comprehensive exam. Upon conclusion of this course, each student should have a firm grasp of why friction ridge skin can be used as a means of identification. Recommended background: FORS 6215.

FORS 6217. Fingerprint Comparisons. 3 Credits.

In-depth study of analysis, comparison, evaluation, and verification (ACE-V) methodology; assessing the quality and quantity of information and establishing a tolerance for comparison using the effects of distortion; uniqueness and persistence; anatomy and embryology of friction ridge skin. Laboratory fee. Prerequisites: FORS 6215.

FORS 6219. Digital Image Processing. 3 Credits.

Digital images of marginal value can be processed to reveal details which had been in the original, but were difficult to see. These changes must be done in ways to survive court challenges. Best practices for doing so are provided. Prerequisites: FORS 6207 or permission of the instructor. Recommended background: graduate level work in MS/CSI, MFS/FRA, MS/FRA or Grad Cert in Forensic Investigations; graduate-level work in crime scene investigation and/or friction ridge analysis, or in the graduate certificate program in forensics investigations.

FORS 6224. Criminal Law for Forensic Scientists. 3 Credits.

This course provides an overview of criminal law offenses, criminal law procedures, issues of evidence recovery, admissibility of scientific evidence, and expert testimony, with an emphasis on the interaction between the criminal process and forensic science. A moot court experience is integral to this course. (This course combines and replaces Crim Law I and III.).

FORS 6225. Statistics for Forensic Scientists. 3 Credits.

Statistics with a focus on forensic applications. Emphasis on the Bayesian approach. Logical, probabilistic statistical reasoning skills, and R software skills. Course content is the basis for an examination question on the comprehensive examination. Prerequisite: An undergraduate statistics course.

FORS 6231. Principles of Toxicology. 3 Credits.

Concepts of toxicology, including its historical development and modern applications, drug disposition, mechanisms of toxicity; factors that influence toxicity and toxicity evaluation.

FORS 6232. Analytical Toxicology. 3 Credits.

Principles and procedures used in the isolation, identification, and quantitation of drugs of abuse from human samples.

FORS 6234. Medicinal Chemistry I. 3 Credits.

Theory and principles of classification, synthesis, and structure activity relationships of drugs. Discussion of the complex chemical events that take place between administration of a drug and its action on the user, with emphasis on drugs of abuse.

FORS 6235. Medicinal Chemistry II. 3 Credits.

Chemical, pharmacological, toxicological, and pathological characteristics of commonly abused drugs, including ethanol, barbiturates, narcotics, stimulants, and hallucinogens.

FORS 6236. Forensic Toxicology I. 3 Credits.

Biological, chemical, and pharmacological principles that underlie forensic toxicology. Prerequisites: FORS 6235 or permission of the instructor.

FORS 6237. Forensic Toxicology II. 3 Credits.

Lectures, student seminars, and projects dealing with topics of current interest in forensic toxicology. Prerequisites: FORS 6236 or permission of the instructor.

FORS 6238. Forensic Chemistry I. 3 Credits.

Examination of glass and soils. Laboratory exercises include refractive index measurements using immersion methods; polarized light observations of minerals; x-ray diffraction analysis of minerals; and classical chemical and physical methods of analysis. Laboratory fee.

FORS 6239. Forensic Chemistry II. 3 Credits.

Examination of arson accelerants, textile fibers, plastics, and paints. Laboratory exercises include infrared spectrometry and pyrolysis-gas-liquid chromatography of polymeric materials, as well as classical chemical and physical methods of analysis. Laboratory fee. Prerequisites: FORS 6238 or permission of the instructor.

FORS 6240. Forensic Drug Analysis. 3 Credits.

Examination of dosage forms of drugs. Laboratory exercises include color spot tests, crystal tests, infrared spectrometry and gas chromatography-mass spectrometry. Laboratory fee.

FORS 6241. Forensic Molecular Biology I. 3 Credits.

Techniques of molecular biology applied to the collection, examination, analysis, and interpretation of biological evidence.

FORS 6242. Forensic Molecular Biology II. 3 Credits.

Advanced methods of forensic molecular biology. Laboratory examinations and classifications of dried blood and other biological materials through a variety of nuclear and mitochondrial markers. Laboratory fee. Prerequisites: FORS 6241 and permission of the instructor.

FORS 6243. Forensic Molecular Biology III. 3 Credits.**FORS 6246. Human Genetic Variation. 3 Credits.**

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as ANTH 6406.

FORS 6247. Population Genetics. 3 Credits.

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as BISC 6228.

FORS 6250. Crime Scene Investigation for Lab Personnel. 3 Credits.

A condensed offering of the subject matter of FORS 6251–FORS 6252. FORS 6250 cannot be taken for credit toward the crime scene investigation concentration. Laboratory fee.

FORS 6251. Crime Scene Investigation I. 3 Credits.

Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6252. Crime Scene Investigation II. 3 Credits.

Continuation of FORS 6251. Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6254. Forensic Psychiatry. 3 Credits.

Introduction to the constructs of dynamic psychiatry, psychiatric treatment, and the nomenclature of mental disorders. Consideration of expert testimony, direct examination, and cross-examination in hospitalization and criminal cases.

FORS 6255. Investigation of Child Abuse. 3 Credits.

This course integrates medical, scientific, psychological, sociological and legal information for investigators and professionals involved in the field of child abuse. Special emphasis is placed on the application of research-supported data to situations involving the murder, abuse and exploitation of children.

FORS 6256. Forensic Pathology. 3 Credits.

Terminology and scientific techniques used in medico-legal investigations, sudden or unexpected deaths, homicides, suicides, accidental deaths, and trauma.

FORS 6257. Medicolegal Death Investigation. 3 Credits.

Medical, scientific, sociological, and legal methodologies applied to forensic investigations. Aspects of death scene analysis by a medical examiner, including autopsy procedures, unidentified remains, child death investigations, and mass disaster investigations. Laboratory fee. Prerequisites: FORS 6256 and permission of the instructor.

FORS 6258. The Investigation of Sexual Assault and Other Sex Crimes. 3 Credits.

This course integrates medical, psychological, sociological and legal information for investigators and professionals involved in the field of sex crime investigation. Special emphasis is placed on the application of research-supported data to situations involving the sexual exploitation and victimization of adults.

FORS 6290. Selected Topics. 3 Credits.

Current issues in research, investigation, and law.

FORS 6291. Computer Forensics III: Advanced Techniques. 3 Credits.

Further examination of methods and techniques used to conduct and report high-technology crime investigations. Open only to students enrolled in the department or by approval of the program director. Laboratory fee. Prerequisite: FORS 6278.

FORS 6292. Graduate Seminar. 1 Credit.

Students in designated forensic sciences degree programs must register for this course in their first semester and again after completion of the required independent research project.

FORS 6295. Research. 1-12 Credits.

Research on problems approved by the department, under the supervision of an appropriate member of the program faculty. Admission by permission only.

FORS 6298. Forensic Sciences Practicum. 1-3 Credits.

Internship experience in a forensic science laboratory or criminal justice agency, under the supervision of an appropriate member of the program faculty. Students must preregister for this course. Admission by permission only.

FORS 6998. Thesis Research. 3 Credits.**FORS 6999. Thesis Research. 3 Credits.**

GRADUATE CERTIFICATE IN FORENSIC INVESTIGATION

The graduate certificate in Forensic Investigation is designed for forensic sciences professionals who want to enhance their credentials and advance their careers. Proficiency in crime scene investigation and mastery of the techniques used to collect evidence are essential to success in the field. To foster this expertise, students pursue coursework including homicide investigation, forensic pathology and crime scene photography.

As part of GW's prestigious Department of Forensic Sciences, students in the Forensic Investigation program learn from a faculty comprised of experts and experienced forensic sciences practitioners. Students also have access to the department's state-of-the-art laboratories, and are in close proximity to federal crime labs and investigatory agencies in the Washington, DC area.

Upon completion of the Forensic Investigation graduate certificate, students can apply to GW's Master of Science (MS) in Crime Scene Investigation program after taking the GRE examination. Coursework from the Forensic Investigation graduate certificate program can count toward 18 credits of the MS program.

The graduate certificate in Forensic Investigation is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 15 credits in required courses and one 3-credit elective course.

Code	Title	Credits
Required		
FORS 6207	Photography in the Forensic Sciences	
FORS 6215	Science of Fingerprints	
FORS 6251	Crime Scene Investigation I	
FORS 6252	Crime Scene Investigation II	
FORS 6257	Medicolegal Death Investigation	
Elective		
One of the following:		
FORS 6203	Examination of Questioned Documents	
FORS 6204	Firearms and Toolmark Identification	
FORS 6254	Forensic Psychiatry	
FORS 6255	Investigation of Child Abuse	

Alternate courses can be selected with approval of advisor.

MASTER OF FORENSIC SCIENCES

As part of the Columbian College of Arts and Sciences’ natural, mathematical and biomedical sciences programs, the forensic sciences program provides an understanding of the integration of forensic disciplines with the investigation of criminal activity, along with an overview of the analytical methods, procedures, equipment and data used by forensic specialists. Coursework emphasizes the identification and analysis of evidence as well as the interpretation and reporting of the results.

In addition to forensic sciences, an MFS is available in the following programs of study: forensic chemistry and forensic molecular biology. An M.S. degree is available in crime scene investigation. The program’s location in Washington, D.C., provides students with opportunities to interact with federal, state and local agencies.

This is a STEM-designated degree program

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

37 credits, including 18 credits in required courses, 19 credits in courses selected in consultation with the advisor, and successful completion of a master's comprehensive examination.

Code	Title	Credits
Required		
FORS 6004	Fundamentals of Forensic Science I	
FORS 6005	Fundamentals of Forensic Science II	
FORS 6020	Ethics, Professional Responsibility, and Quality Assurance	
FORS 6224	Criminal Law for Forensic Scientists	
FORS 6225	Statistics for Forensic Scientists	
FORS 6292	Graduate Seminar (taken twice) *	

Code	Title	Credits
Electives		
19 elective credits are selected in consultation with the departmental advisor.		

Additional requirements

Successful completion of an independent research project is required.

Successful completion of a master’s comprehensive examination is required.

*Students must register for FORS 6292 in their first semester and again after or during the completion of the required independent research project.

MASTER OF FORENSIC SCIENCES IN THE FIELD OF FORENSIC CHEMISTRY

As part of the Columbian College of Arts and Sciences’ natural, mathematical and biomedical sciences programs, the forensic sciences program provides an understanding of the integration of forensic disciplines with the investigation of criminal activity, along with an overview of the analytical methods, procedures, equipment and data used by forensic specialists. Coursework emphasizes the identification and analysis of evidence as well as the interpretation and reporting of the results.

Forensic Chemistry teaches students to be lab analysts in drug chemistry and trace evidence analysis to include

analysis of hairs and fibers, glass and soil, ignitable liquids and explosive residues. With five full-time faculty members, GW now boasts the world's largest group of forensic chemists located at a university. The department has also acquired mass spectrometers and a new laboratory to support chemistry and toxicology.

This is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

37 credits, including 31 credits in required courses and 6 credits in elective courses, successful completion of a master's comprehensive examination, and successful completion of an independent research project.

Code	Title	Credits
Required		
FORS 6004	Fundamentals of Forensic Science I	
FORS 6005	Fundamentals of Forensic Science II	
FORS 6020	Ethics, Professional Responsibility, and Quality Assurance	
FORS 6206	Trace Evidence Analysis	
FORS 6210	Advanced Instrumental Analysis	
FORS 6224	Criminal Law for Forensic Scientists	
FORS 6225	Statistics for Forensic Scientists	
FORS 6238	Forensic Chemistry I	
FORS 6239	Forensic Chemistry II	
FORS 6240	Forensic Drug Analysis	
FORS 6292	Graduate Seminar (taken twice) *	
Electives		
6 credits in elective courses selected in consultation with the departmental advisor.		
Additional requirements		
Successful completion of the master's comprehensive examination.		
Successful completion of an independent research project.		

*Students must register for FORS 6292 in their first semester and again during or after completion of the required independent research project.

Program correction 9/6/19: FORS 6234 and FORS 6235 removed from the required curriculum and replaced with 6 elective credits.

MASTER OF FORENSIC SCIENCES IN THE FIELD OF FORENSIC MOLECULAR BIOLOGY

As part of the Columbian College of Arts and Sciences' natural, mathematical and biomedical sciences programs, the forensic sciences program provides an understanding of the integration of forensic disciplines with the investigation of criminal activity, along with an overview of the analytical methods, procedures, equipment and data used by forensic specialists. Coursework emphasizes the identification and analysis of evidence as well as the interpretation and reporting of the results.

The molecular biology program prepares students to work in crime laboratories as DNA analysts and technical leaders. Students learn chemical, physical, immunological and microscopic methods using state-of-the-art lab facilities, and the theoretical and practical aspects of advanced methods, such as DNA extraction and data interpretation. The program is particularly strong in population genetics and human genetic variation.

This is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

37 credits, including 31 credits in required courses and 6 credits in elective courses selected in consultation with the advisor. Successful completion of an independent study project and a master's comprehensive examination also is required.

Code	Title	Credits
Required		
FORS 6004	Fundamentals of Forensic Science I	
FORS 6005	Fundamentals of Forensic Science II	
FORS 6020	Ethics, Professional Responsibility, and Quality Assurance	
FORS 6201	Forensic Biology	
FORS 6224	Criminal Law for Forensic Scientists	

FORS 6225	Statistics for Forensic Scientists
FORS 6241	Forensic Molecular Biology I
FORS 6242	Forensic Molecular Biology II
FORS 6243	Forensic Molecular Biology III
FORS 6247	Population Genetics
FORS 6292	Graduate Seminar (taken twice) *

Electives

Six additional credits selected in consultation with the departmental advisor

Other requirements

Successful completion of an independent research project is required.

Successful completion of a master's comprehensive examination is required.

*Students must register for FORS 6292 in their first semester and again after or during the completion of the required independent research project.

MASTER OF SCIENCE IN THE FIELD OF CRIME SCENE INVESTIGATION

Increased proficiency in crime scene investigation is essential to all forensic sciences.

The Master of Science in Crime Scene Investigation teaches the scientific knowledge, skills, and abilities essential to investigative work. Designed for investigators, detectives, lawyers, special agents, medicolegal death investigators, crime scene technicians, and aspiring forensic investigators, the program trains students in techniques used to document crime scenes and to collect evidence. Students emerge from the program with skills in homicide investigation, forensic pathology, trace evidence analysis, crime scene photography, and examination of questioned documents, among other areas.

The MS is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 27 credits in required courses and 9 credits in elective courses, and successful completion of a master's comprehensive examination.

Code	Title	Credits
Required		
FORS 6005	Fundamentals of Forensic Science II	
FORS 6207	Photography in the Forensic Sciences	
FORS 6215	Science of Fingerprints	
FORS 6219	Digital Image Processing	
FORS 6224	Criminal Law for Forensic Scientists	
FORS 6251	Crime Scene Investigation I	
FORS 6252	Crime Scene Investigation II	
FORS 6256	Forensic Pathology	
FORS 6257	Medicolegal Death Investigation	

Electives

9 credits selected in consultation with the departmental advisor. Suggested electives include:

FORS 6010	Bloodstain Pattern Analysis I
FORS 6203	Examination of Questioned Documents
FORS 6204	Firearms and Toolmark Identification
FORS 6255	Investigation of Child Abuse
FORS 6290	Selected Topics (Crime Scene Investigation III)

Other requirements

Successful completion of a master's comprehensive examination is required.

GEOGRAPHY

The Department of Geography is dedicated to achieving excellence in research and education through the diffusion of geographic knowledge that focuses on the relationships between the physical world and its occupation and modification by humans. Students trained in geography understand society and environmental dynamics, the significance of scale, the uneven distribution of resources and levels of development, and the uses of geospatial techniques, including GIS (geographic information systems) and remote sensing.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in geography (p. 283)
- Bachelor of Arts with a major in environmental studies (p. 255)
- Bachelor of Science with a major in environmental and sustainability science (p. 285)

Minors

- Minor in geographic information systems (p. 288)
- Minor in geography (p. 289)

GRADUATE

Master's program

- Master of Science in the field of geography (p. 287)

Combined program

- Dual Master of Science in the field of geography and Graduate Certificate in geographical information systems (p. 288)

CERTIFICATE

Graduate certificate

- Graduate certificate in geographical information systems (p. 287)

FACULTY

Professors L. Benton-Short (*Chair*), E. Chacko, M.D. Price, N. Shiklomanov

Associate Professors M. Atia, R. Engstrom, M. Keeley, M. Mann, D. Rain, D. Streletskiy

Assistant Professors G. Allington, D. Cullen, B. Hurley, A. Luthra, M. Kansanga

Professorial Lecturers R. Hinton, S. Johnson, W. Reisser, S. Sklar, D. Squire

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOG 1000. Dean's Seminar. 3 Credits.

GEOG 1001. Introduction to Human Geography. 3 Credits.

A systematic survey of human geography; spatial perspectives on demographic, social, cultural, economic, and political changes around the world.

GEOG 1002. Introduction to Physical Geography. 4 Credits.

A systematic survey of environmental geography; perspectives on environments and human ecology, including ecosystems and their use, and resource geography. Laboratory fee.

GEOG 1003. Society and Environment. 3 Credits.

An introduction to the dynamic relationship between society and the physical environment, with focus on population, natural resources, environmental degradation, pollution, and conservation.

GEOG 1099. Variable Topics. 1-36 Credits.

GEOG 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

GEOG 2104. Introduction to Cartography and GIS. 3 Credits.

Fundamentals of cartography; geographic data structure and information systems. Laboratory fee.

GEOG 2120. World Regional Geography. 3 Credits.

Practical approach to the themes, concepts, and tools appropriate for in-depth examination of the geography of the world's. Historical and physical regional geographies; contemporary regional issues; and intra- and interregional issues.

GEOG 2124. Urban Transportation. 3 Credits.

The relationship between freight and passenger transportation systems and urban land use patterns and structure. Prerequisite: GEOG 1001.

GEOG 2125. Transportation Systems and Networks. 3 Credits.

The structure and evolution of transportation networks and their impact on regional development.

GEOG 2127. Population Geography. 3 Credits.

Patterns of world population; factors contributing to population pressures, growth, and migrations.

GEOG 2129. Biogeography. 3 Credits.

The spatial and temporal patterns of biological diversity and the processes that cause those patterns. Combines ecology, evolutionary biology, paleontology, and climatology.

GEOG 2129W. Biogeography. 3 Credits.

The spatial and temporal patterns of biological diversity and the processes that cause those patterns. Combines ecology, evolutionary biology, paleontology, and climatology. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GEOG 2133. People, Land, and Food. 3 Credits.

The relationship between humans and their food sources through exploration of nutritional dynamics, food sourcing, agricultural land use, and food markets.

GEOG 2134. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations.

Prerequisite: GEOG 1002.

GEOG 2134W. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1002.

GEOG 2136. Water Resources. 3 Credits.

Analysis of the global spatial patterns, development, use, and quality of water resources. Prerequisite: GEOG 1002.

GEOG 2137. Environmental Hazards. 3 Credits.

Examination of environmental hazards with an emphasis on physical geography, economics, and the basics of geographic information systems (GIS).

GEOG 2140. Cities and Societies. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change. Prerequisite: GEOG 1001.

GEOG 2140W. Urban Geography. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001.

GEOG 2141. Cities in the Developing World. 3 Credits.

Urbanization processes, problems, and management in the developing world. Focus on urban location, politics, housing, services, employment, and environmental issues. Prerequisite: GEOG 1001.

GEOG 2144. Explorations in Historical Geography. 3 Credits.

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as AMST 2144.

GEOG 2147. Military Geography. 3 Credits.

An examination of environmental and locational factors and their impact on military planning and operations.

GEOG 2148. Economic Geography. 3 Credits.

Locational influences on and spatial variation of the development of manufacturing, services, trade, and finance. Prerequisite: GEOG 1001.

GEOG 2196. Field Methods in Geography. 3 Credits.

For geography and environmental studies majors in their junior or senior year. Field research in human and physical geography. Students participate in several field exercises and develop their skills of observation, field mapping, repeat photography, and surveys. Laboratory fee.

GEOG 3099. Variable Topics. 1-12 Credits.**GEOG 3105. Techniques of Spatial Analysis. 3 Credits.**

Quantitative methods, tools, and approaches in spatial analysis to describe and test hypotheses about observations that have a spatial component. Prerequisites: GEOG 2104; and STAT 1051 or STAT 1053.

GEOG 3106. Intermediate Geographic Information Systems. 3 Credits.

Principles of geographic information systems and their use in spatial analysis and information management. Prerequisites: GEOG 2104.

GEOG 3107. Introduction to Remote Sensing. 3 Credits.

Remote-sensing techniques using digital satellite imagery and aerial photography; application to rural and urban settings, vegetation, and environmental monitoring. Prerequisites: GEOG 3105.

GEOG 3108. Weather and Climate. 3 Credits.

Fundamental physical principles that govern the Earth's climate; the science of global climate change and the impact of anthropogenic and natural phenomenon on the climate. Prerequisite: GEOG 1002.

GEOG 3128. Geomorphology. 3 Credits.

The influence of landforms and landscapes on human activities and the impact of humans on landscapes throughout history. Prerequisites: GEOG 1002 or GEOL 1005.

GEOG 3132. Environmental Quality and Management. 3 Credits.

The evolution of environmental management philosophies and tools. The global distribution, utilization, and degradation of natural resources. Prerequisite: GEOG 1002.

GEOG 3133. Social-Ecological Systems. 3 Credits.

Exploration of social processes and ecological dynamics by using interdisciplinary approaches that borrow tools and techniques from the social and natural sciences, as well as traditional knowledge systems. Prerequisites: GEOG 1001; and GEOG 1002 or GEOG 1003.

GEOG 3143. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Prerequisite: GEOG 1001.

GEOG 3143W. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001.

GEOG 3145. Cultural Geography. 3 Credits.

Themes, concepts, and tools appropriate for an in-depth geographic examination of the Earth's cultural landscape and of culture as a process. Prerequisite: GEOG 1001.

GEOG 3145W. Cultural Geography. 3 Credits.

Themes, concepts, and tools appropriate for an in-depth geographic examination of the Earth's cultural landscape and of culture as a process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: GEOG 1001. Same As: GEOG 3145.

GEOG 3146. Political Geography. 3 Credits.

The uneven distribution and exercise of political power in the world; interrelationships among the human and physical environment and political systems. Prerequisite: GEOG 1001.

GEOG 3154. Geography of the Middle East and North Africa. 3 Credits.

Cultural and physical regional patterns of the Middle East and North Africa. Prerequisites: GEOG 1001 or GEOG 1002.

GEOG 3161. Geography of Latin America. 3 Credits.

Examination of spatial characteristics of physical and cultural phenomena in Latin America.

GEOG 3164. The Geography of Africa. 3 Credits.

Human and environmental geography of Africa south of the Sahara desert, including study of patterns and processes, culture and environment, and development issues. Prerequisites: GEOG 1001 or GEOG 1002.

GEOG 3165. Geography of South Asia. 3 Credits.

An examination of the complex interplay of environmental, economic, sociocultural, and political factors in South Asia and their effects at the local and regional levels.

GEOG 3189. Readings in Geography I. 1-12 Credits.

. Prerequisites: 12 credits of geography and permission of the instructor.

GEOG 3190. Readings in Geography II. 1-12 Credits.

Continuation of GEOG 3189. Prerequisites: 12 credits of geography and permission of the instructor.

GEOG 3193. Environmental Law and Policy. 3 Credits.

An introduction to selected pieces of major environmental legislation. The role of the courts and bureaucracy in implementing and interpreting legislation and their impacts on decision making. Designed for students with no training in law. Prerequisites: None.

GEOG 3194. Special Topics in Physical Geography. 3 Credits.

Topics covering physical principles of the Earth's physical geography and natural environment including the hydrosphere, atmosphere, biosphere, and lithosphere. Enrollment requires permission of the instructor.

GEOG 3195. Special Topics in Human Geography. 3 Credits.

Topics in human geography including population, urban, cultural, political and economic issues amongst others. Enrollment requires permission of the instructor.

GEOG 3196. Special Topics in Techniques. 3 Credits.

Topics covering specific skills in geographic information systems and field methods. Enrollment requires permission of the instructor.

GEOG 3197. Special Topics in Regional Geography. 3 Credits.

Various topics in regional geography, including world regional geography as well studies of specific regions of interest. Enrollment requires permission of the instructor.

GEOG 3198. Special Topics. 3 Credits.

Consideration of geographic aspects of topical and future problems of society. May be repeated for credit provided that the topic differs. Prerequisite: GEOG 1001 or GEOG 1002.

GEOG 3218. Arctic Systems. 3 Credits.

Arctic regions examined from an interdisciplinary perspective, linking different elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; key issues involving interaction between humans and the environment; climate change and its effects in the Arctic. Prerequisite: GEOG 1002.

GEOG 3810. Planning Cities. 3 Credits.

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as AMST 3810. Prerequisite: GEOG 1001.

GEOG 4195. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Prerequisite: permission of the advisor.

GEOG 4195W. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Permission of the advisor required prior to enrollment.

GEOG 4199. Internship. 1-3 Credits.

Fieldwork, internship, or other controlled assignment with an agency or organization engaged in work in applied geography. May be repeated for credit to a maximum of 6 credits. Prerequisites: 12 credits of geography courses and permission of the instructor.

GEOG 4307. Digital Image Processing and Analysis. 3 Credits.

Land use/land cover change analysis using satellite and aircraft platforms. Digital image processing techniques, analysis, and applications. Prerequisites: GEOG 2104, GEOG 3105, and GEOG 3107.

GEOG 4308. Programming for Geospatial Applications. 3 Credits.

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, troubleshooting common errors, and using loops to test for conditions and execute different code based on the results. Prerequisites: GEOG 2104, GEOG 3105, and GEOG 3106.

GEOG 4309. GIS for Emergency Management. 3 Credits.

Introduction to the theoretical principles of geographic information systems and examination of its history, current uses, and potential for emergency management through case studies, guest lectures, and hands-on training on various GIS products. Prerequisites: GEOG 3106.

GEOG 4310. Geovisualization and Cartography. 3 Credits.

Introduction to cartographic design from gathering data to the final visualization; specific components involved in mapmaking, including purpose, generalization, and symbolization. Prerequisites: GEOG 2104 and GEOG 3106. Same As: GEOG 6310.

GEOG 4311. Open Source Solutions for Geospatial Project Management. 3 Credits.

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 3106. Same As: GEOG 6311.

GEOG 5099. Variable Topics. 1-99 Credits.

GEOG 6201. Geographic Thought. 3 Credits.

For first-year master's students, a survey of geographic thought and theories. Emphasis on contemporary issues in geography and on the development of research.

GEOG 6207. Urban Planning and Development. 3 Credits.

Selected problems in urban and regional planning: applications of zoning, environmental controls, and other techniques for achieving sustainable urban development.

GEOG 6208. Land Use and Urban Transportation Planning. 3 Credits.

Relationships between land use and the movement of goods and people. Examination of land use and transportation planning principles, issues, and techniques. Roles of public and private interests in land use and transportation planning and management.

GEOG 6218. Arctic Systems. 3 Credits.

Aspects of Arctic regions from an interdisciplinary perspective that links elements of physical and human geography; Arctic climate, oceans, landscapes, and ecosystems; interaction between humans and environment; climate change. Prerequisite: GEOG 1002.

GEOG 6219. Seminar: Climatology. 3 Credits.

Inadvertent climate modification due to urbanization and impacts on environmental and human health.

GEOG 6220. Seminar: Climatic Change. 3 Credits.

Examination of natural and human-induced climatic change, at global, regional, and local scales.

GEOG 6222. Seminar: Resources and the Environment. 3 Credits.

Topics related to the spatial variations and interrelationships of resources and the environment; applications of geographic information systems and remote sensing. Prerequisite: permission of instructor.

GEOG 6223. Seminar: Population and Health. 3 Credits.

Interrelationships between population characteristics and dynamics and impacts on human health.

GEOG 6224. Seminar: Political Geography. 3 Credits.

Examination of political factors in location theory and analysis of the nature of political territories and conflict.

GEOG 6225. Seminar: Transportation and Development. 3 Credits.

Transportation and communication in the organization of space.

GEOG 6226. Water Resources Policy and Management. 3 Credits.

The history and practice of water resources policy and management in an integrated context; the impact of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation, and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation.

GEOG 6230. Seminar: Environmental Issues in Development. 3 Credits.

A consideration of the geographical dimensions of the links between development and the environment.

GEOG 6232. Migration and Development. 3 Credits.

Analysis of migration's impact on development at various scales for both the sending and receiving localities.

GEOG 6233. Social-Ecological Systems. 3 Credits.

Exploration of social processes and ecological dynamics using interdisciplinary approaches that borrow tools and techniques from the social and natural sciences and traditional knowledge systems.

GEOG 6243. Seminar: Urban Geography. 3 Credits.

Topics concerning social, political, economic, and environmental issues in U.S. cities.

GEOG 6244. Urban Sustainability. 3 Credits.

Urban sustainability and environmental issues in developed and developing cities.

GEOG 6245. Water Resources Policy and Management. 3 Credits.

This course examines the history and practice of water resources policy and management in the context of integrated water resource management. Thus, the course addresses management issues and policy responses to such topics as the impacts of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation. In addition, non-human water requirements: e.g. for fish and wildlife, as well as the need to preserve the natural ecosystems that provide and sustain water resources are central to each discussion. Management and policy issues in the United States and worldwide at a range of scales (local, state, federal and international) will be examined. In the course of these examinations, students gain an understanding of how current issues such as growing populations, increasing affluence, and climate change may impact water resource policy and management.

GEOG 6250. Geographical Perspectives on Development. 3 Credits.

Theory and debates surrounding economic development in a globalizing world, with case studies.

GEOG 6261. Geographical Perspectives on Latin America. 3 Credits.

Natural resources, the environment, and population dynamics through time.

GEOG 6262. Geographical Perspectives on the Middle East. 3 Credits.

Examination of selected topics related to political, economic, social, cultural, and geographic patterns and processes in the region.

GEOG 6265. Geography of Russia and Its Neighbors. 3 Credits.

A deeper understanding of Post-Soviet geography with a focus on the physical and environmental characteristics of the region, geography of natural and human resources, ethnic, cultural and religious diversity, characteristics of economic and political regions, and recent geopolitical developments.

GEOG 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ SOC 6290/ STAT 6290.

GEOG 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ SOC 6291/ STAT 6291.

GEOG 6292. Qualitative Methods in Geography. 3 Credits.

Qualitative research methods, including questionnaires, focus groups, in-depth interviews, repeat photography, observation, reflective mapping, coding, and map interpretation that help appreciate the human experience and build upon ways to produce knowledge.

GEOG 6293. Special Topics. 3 Credits.

Consideration of geographic aspects of topical social or environmental problems. May be repeated for credit provided the topic differs. Credit cannot be earned for this course and IAFF 6118.

GEOG 6295. Research. 1-12 Credits.

May be repeated for credit.

GEOG 6299. Internship. 1-3 Credits.**GEOG 6300. Geography Capstone Internship. 3 Credits.**

This course provides hands-on experiential learning in a local government agency, NGO, or corporation while allowing the candidate to use his/her geographical skills in a real world setting. Restricted to graduate students in the geography program. Prerequisite: GEOG 6201.

GEOG 6303. Introduction to Remote Sensing. 3 Credits.

Theoretical, technical, and applied aspects of remote sensing as a tool for monitoring and managing Earth's resources.

GEOG 6304. Geographical Information Systems I. 3 Credits.

Fundamentals of cartography; geographic data structure and geographic information systems.

GEOG 6305. Geospatial Statistics. 3 Credits.

Nature of geographical inquiry and the analytical and statistical methods used in the study of spatial processes and patterns.

GEOG 6306. Geographical Information Systems II. 3 Credits.

Advanced principles of geographic information systems and their use in spatial analysis and information management. Prerequisites: GEOG 6304 and GEOG 6305.

GEOG 6307. Digital Image Processing. 3 Credits.

This course introduces students to the theoretical, technical and applied aspects of remote sensing as a tool for monitoring and managing earth resources. This course provides students with the knowledge for analyzing and applying remotely sensed data for problem solving as it applies to land cover. Prerequisite: GEOG 6304.

GEOG 6308. Programming for Geospatial Applications. 3 Credits.

Fundamental concepts for creating Python scripts in ArcGIS; guidelines for proper Python syntax, techniques to troubleshoot common errors, and using loops to test for conditions and execute code based on results. Prerequisites: GEOG 6304 and GEOG 6305.

GEOG 6309. GIS for Emergency Management. 3 Credits.

This course introduces students to the theoretical principles of geographic information systems and examines its history, current uses and potential for emergency management through case studies, guest lectures and hands-on training on various GIS products. Prerequisite: GEOG 6304.

GEOG 6310. Geovisualization and Cartography. 3 Credits.

Introduction to cartographic design; components of mapmaking, including purpose, generalization, and symbolization; spatial thinking and effective audience-specific communication Prerequisite: GEOG 6304.

GEOG 6311. Open Source Solutions for Geospatial Project Management. 3 Credits.

Geospatial project management, from design through implementation. Students work exclusively with open source technology for data capture, management, analysis, and communication; open source solutions and the effectiveness and sustainability of project management. Prerequisite: GEOG 6304. Same As: GEOG 4311.

GEOG 6998. Thesis Research. 3 Credits.

GEOG 6999. Thesis Research. 3 Credits.

BACHELOR OF ARTS WITH A MAJOR IN GEOGRAPHY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

For the major, 37 credits, including 16 credits in required courses, 18 credits in courses taken from among three subject groups, and one 3-credit elective course.

Code	Title	Credits
Required		
GEOG 1001	Introduction to Human Geography	
GEOG 1002	Introduction to Physical Geography	
GEOG 2104	Introduction to Cartography and GIS	
GEOG 3106	Intermediate Geographic Information Systems	
GEOG 4195	Proseminar in Geographic Thought *	

Group A: Physical Geography

At least two courses from the following, one of which must be taken at the 3000 level.

GEOG 2129 Biogeography

GEOG 2134 Energy Resources

GEOG 2136 Water Resources

GEOG 2137 Environmental Hazards

GEOG 3108 Weather and Climate

GEOG 3128 Geomorphology

GEOG 3194 Special Topics in Physical Geography

Group B: Human Geography

At least two courses from the following, one of which must be taken at the 3000 level.

GEOG 2124 Urban Transportation

GEOG 2125 Transportation Systems and Networks

GEOG 2127 Population Geography

GEOG 2133 People, Land, and Food

GEOG 2140 Cities and Societies

GEOG 2141 Cities in the Developing World

GEOG 2144 Explorations in Historical Geography

GEOG 2147 Military Geography

GEOG 2148 Economic Geography

GEOG 3145 Cultural Geography

GEOG 3146 Political Geography

GEOG 3195 Special Topics in Human Geography

GEOG 3810 Planning Cities

Group C: Techniques **

GEOG 2196 Field Methods in Geography

GEOG 3105 Techniques of Spatial Analysis

GEOG 3107 Introduction to Remote Sensing

GEOG 3196 Special Topics in Techniques

GEOG 4307 Digital Image Processing and Analysis

GEOG 4308 Programming for Geospatial Applications

GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography
GEOG 4311	Open Source Solutions for Geospatial Project Management

Group D: Nature and Society

At least two courses from the following, one of which must be taken at the 3000 level.

GEOG 1003	Society and Environment
GEOG 2120	World Regional Geography
GEOG 3132	Environmental Quality and Management
GEOG 3133	Social-Ecological Systems
GEOG 3143	Urban Sustainability
GEOG 3154	Geography of the Middle East and North Africa
GEOG 3161	Geography of Latin America
GEOG 3164	The Geography of Africa
GEOG 3165	Geography of South Asia
GEOG 3193	Environmental Law and Policy
GEOG 3197	Special Topics in Regional Geography
GEOG 3218	Arctic Systems

Elective

Any one course selected from Group A, B, C, or D.

* Offered in the fall semester only.

** All students take two techniques courses, GEOG 2104 and GEOG 3106, as part of the required major curriculum. Their elective course selection may be an additional techniques course or a course from one of the other three groups.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have a minimum grade-point average of 3.75 in geography courses and a 3.5 average overall.

BACHELOR OF SCIENCE WITH A MAJOR IN ENVIRONMENTAL AND SUSTAINABILITY SCIENCE REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs.

The program-specific curriculum:

Code	Title	Credits
Required		
Foundational courses		
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
GEOG 1002	Introduction to Physical Geography	
or GEOL 1005	Environmental Geology	
GEOG 1003	Society and Environment	
or SUST 1001	Introduction to Sustainability	
STAT 1051	Introduction to Business and Economic Statistics	
or STAT 1053	Introduction to Statistics in Social Science	
or STAT 1111	Business and Economic Statistics I	
or STAT 1127	Statistics for the Biological Sciences	
Two of the following course sets:		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II	
or MATH 1231	Single-Variable Calculus I	

PHYS 1011 & PHYS 1012	General Physics I and General Physics II
or PHYS 1021 & PHYS 1022	University Physics I and University Physics II
or PHYS 1025 & PHYS 1026	University Physics I with Biological Applications and University Physics II with Biological Applications
Upper-level major requirements	
Required courses	
GEOG 2104	Introduction to Cartography and GIS
GEOG 2196	Field Methods in Geography
or GEOG 3128	Geomorphology
or BISC 3459	Field Biology
ENVR 4195	Environmental Studies Capstone
Additional upper-level course requirements	
18 credits in courses in the major taken at or above the 2000 level. A minimum of 12 of these credits should be within one of the two concentrations below and include at least one 3000-level course. The remaining two courses can be selected from the other concentration or from the "other upper level courses in the major" category below.	
Earth and environmental science concentration	
CHEM 2085	Environmental Chemistry
CHEM 3140	Geochemistry
GEOG 2136	Water Resources
GEOG 3105	Techniques of Spatial Analysis
GEOG 3108	Weather and Climate
GEOG 3128	Geomorphology *
GEOG 3218	Arctic Systems
GEOL 2106	Oceanography
GEOL 2151	Introduction to Paleontology
GEOL 3138	Hydrogeology
GEOL 3191	Geology of Energy Resources
Ecological management concentration	
ANTH 3407	Conservation in a Changing World: Human and Animal Behavior
BISC 2010	Global Change Biology

BISC 2401	Biodiversity in A Changing World
BISC 2454	General Ecology
BISC 3454	Marine Ecology
BISC 3459	Field Biology *
BISC 3460W or BISC 3460	Conservation Biology
BISC 3461	Plant-Animal Interactions
BISC 3464	Ecology and Evolution of Societies
GEOG 2129W or GEOG 2129	Biogeography
GEOG 3132	Environmental Quality and Management
Other upper-level courses in the major **	
ECON 2136	Environmental and Natural Resource Economics
GEOG 3105	Techniques of Spatial Analysis
GEOG 3106	Intermediate Geographic Information Systems
GEOG 3107	Introduction to Remote Sensing
GEOG 3193	Environmental Law and Policy
GEOG 4309	GIS for Emergency Management
PHIL 2281	Philosophy of the Environment
PPPA 2701	Sustainability and Environmental Policy
PUBH 3132	Health and Environment

*BISC 3459 and GEOG 3128 cannot be double counted as concentration courses if already used to fulfill the upper-level major requirement.

**May be used to fulfill the total number of required credits in the major.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication

competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

Geographical Information Systems (GIS) allow us to capture, manage, query, analyze and model geospatially referenced data. GIS ties the idea of location to information, making it possible to visualize it all in map form. Using geospatial techniques we combine and overlay data to show complex scenarios from a geographic perspective. GIS also allows us to integrate data from diverse sources, helping identify relationships, trends, and patterns of distribution.

Our certificate program provides students with a solid grounding in geospatial theory and techniques, combined with the practical skills to apply these techniques to real world problems. Students are exposed to a combination of industry standard software and open source programs in classes that encourage an extensive hands-on approach. We feature service learning components in our courses that increasingly incorporate the growing field of open source GIS.

The demand for geospatial science skills is exploding in today's job market, and GIS is increasingly popular in many different disciplines and industries, such as; scientific investigation, resource management, marketing, archaeology, environmental research, urban planning, demography, development, policy, public health, emergency management, and logistics.

Certificate students have an opportunity to pick from a broad range of electives that match their interests. Our state-of-the-art Spatial Analysis Lab is available for student research and our faculty members have expertise in GIS, remote sensing and spatial analysis.

The certificate requires the completion of 12 graduate credit hours. Students take three required courses and one elective class. All students are expected to complete the program in two years (four semesters).

This is a STEM-designated degree program.

Visit the program website (<https://geography.columbian.gwu.edu/graduate-certificate-geographical-information-systems/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
GEOG 6304	Geographical Information Systems I	

GEOG 6305 Geospatial Statistics

Electives

Two of the following:

GEOG 6303	Introduction to Remote Sensing
GEOG 6306	Geographical Information Systems II
GEOG 6307	Digital Image Processing
GEOG 6308	Programming for Geospatial Applications
GEOG 6309	GIS for Emergency Management
GEOG 6310	Geovisualization and Cartography
GEOG 6311	Open Source Solutions for Geospatial Project Management

MASTER OF SCIENCE IN THE FIELD OF GEOGRAPHY

Part of the social and behavioral sciences in the Columbian College of Arts and Sciences, the program investigates societal and environmental dynamics, focusing on questions of sustainability, urbanization and uneven resource distribution. Our graduates pursue rewarding careers in governmental and non-governmental agencies and in the private sector.

The graduate program has three core areas that reflect the research interests of the geography faculty 1) urbanization, migration and development; 2) global environmental change and sustainability; and 3) geospatial techniques. Geography faculty members also have regional expertise in North America, Latin America, South Asia, Africa, the Middle East and the Arctic.

The MS program consists of required coursework and electives. The two-year program has both thesis and non-thesis options. Funding is available to support thesis-related summer field research through geography's Campbell Endowment. A number of fellowships and graduate student assistant-ships support students.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Thesis option—30 credits, including 6 credits in required courses, 18 credits in elective courses, and 6 credits in thesis; non-thesis option—36 credits, including 6 credits in required courses, 18 credits in elective courses, 9 credits in research, and a 3-credit capstone internship.

Code	Title	Credits
Required		
GEOG 6201	Geographic Thought	
GEOG 6304	Geographical Information Systems I	
Thesis option		
GEOG 6292	Qualitative Methods in Geography	
or GEOG 6305	Geospatial Statistics	
GEOG 6998	Thesis Research	
GEOG 6999	Thesis Research	
Non-thesis option		
Degree candidates selecting the non-thesis option must take 3 credits of directed research.		
GEOG 6292	Qualitative Methods in Geography	
or GEOG 6305	Geospatial Statistics	
GEOG 6295	Research	
or GEOG 6300	Geography Capstone Internship	
Electives		
18 credits of elective courses to include at least one of the following:		
GEOG 6226	Water Resources Policy and Management	
GEOG 6232	Migration and Development	
GEOG 6250	Geographical Perspectives on Development	
GEOG 6306	Geographical Information Systems II	
GEOG 6307	Digital Image Processing	
GEOG 6308	Programming for Geospatial Applications	
GEOG 6309	GIS for Emergency Management	
GEOG 6310	Geovisualization and Cartography	
GEOG 6311	Open Source Solutions for Geospatial Project Management	
GEOG 6300	Geography Capstone Internship	

Depending upon the chosen field of specialization, each student will select electives from appropriate courses within the department or from related programs and departments within the University or the Consortium of Universities.

The student's program of study is developed in consultation with the advisor and graduate committee.

Visit the program website (<https://geography.columbian.gwu.edu/masters-geography/>) for additional information.

DUAL MASTER OF SCIENCE IN THE FIELD OF GEOGRAPHY AND GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

REQUIREMENTS

The Department of Geography offers a dual master of science in the field of geography (p. 287) and graduate certificate in geographical information systems (p. 287) program. The 12 credits earned in the certificate program may be applied toward the master's degree.

Visit the Department of Geography website (<https://geography.columbian.gwu.edu/>) for additional information.

MINOR IN GEOGRAPHIC INFORMATION SYSTEMS

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
GEOG 2104	Introduction to Cartography and GIS	
GEOG 3105	Techniques of Spatial Analysis	
GEOG 3106	Intermediate Geographic Information Systems	
GEOG 3107	Introduction to Remote Sensing	
Electives		
One of the following:		
GEOG 3196	Special Topics in Techniques	

GEOG 4307	Digital Image Processing and Analysis
GEOG 4308	Programming for Geospatial Applications
GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography
GEOG 4311	Open Source Solutions for Geospatial Project Management

MINOR IN GEOGRAPHY

REQUIREMENTS

The following requirements must be fulfilled: 19 credits, including 7 credits in required courses and 12 credits selected from among four groups.

Code	Title	Credits
Required		
GEOG 1001	Introduction to Human Geography	
GEOG 1002	Introduction to Physical Geography	
One course from each of the following groups:		
Group A: Physical Geography		
GEOG 2129	Biogeography	
GEOG 2134	Energy Resources	
GEOG 2136	Water Resources	
GEOG 2137	Environmental Hazards	
GEOG 3108	Weather and Climate	
GEOG 3128	Geomorphology	
GEOG 3194	Special Topics in Physical Geography	
Group B: Human Geography		
GEOG 2124	Urban Transportation	
GEOG 2125	Transportation Systems and Networks	
GEOG 2127	Population Geography	
GEOG 2133	People, Land, and Food	
GEOG 2140	Cities and Societies	
GEOG 2141	Cities in the Developing World	
GEOG 2144	Explorations in Historical Geography	

GEOG 2147	Military Geography
GEOG 2148	Economic Geography
GEOG 3145	Cultural Geography
GEOG 3146	Political Geography
GEOG 3195	Special Topics in Human Geography
GEOG 3810	Planning Cities

Group C: Techniques

GEOG 2104	Introduction to Cartography and GIS
GEOG 2196	Field Methods in Geography
GEOG 3105	Techniques of Spatial Analysis
GEOG 3106	Intermediate Geographic Information Systems
GEOG 3107	Introduction to Remote Sensing
GEOG 3196	Special Topics in Techniques
GEOG 4307	Digital Image Processing and Analysis
GEOG 4308	Programming for Geospatial Applications
GEOG 4309	GIS for Emergency Management
GEOG 4310	Geovisualization and Cartography
GEOG 4311	Open Source Solutions for Geospatial Project Management

Group D: Nature and Society

GEOG 1003	Society and Environment
GEOG 2120	World Regional Geography
GEOG 3132	Environmental Quality and Management
GEOG 3133	Social-Ecological Systems
GEOG 3143	Urban Sustainability
GEOG 3154	Geography of the Middle East and North Africa
GEOG 3161	Geography of Latin America
GEOG 3164	The Geography of Africa
GEOG 3165	Geography of South Asia
GEOG 3193	Environmental Law and Policy

GEOLOGICAL SCIENCES

The geological sciences program offers undergraduate instruction in rigorous research techniques. It allows students to work directly with faculty in research on the geology and paleontology of the Appalachian mountains, the Rocky mountains, Asia, and elsewhere. The student-faculty partnership provides a broad education and hands-on training.

Visit the Department of Geological Sciences website (<https://geology.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in geological sciences (p. 291)
- Bachelor of Science with a major in geological sciences (p. 293)

Minor

- Minor in geological sciences (p. 294)

FACULTY

Committee on Geological Sciences C. E. Brown, C. Chazen, C. A. Forster, G. Mattiotti-Kysar, P. Nassar, R. P. Tollo

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOL 1001. Physical Geology. 4 Credits.

Lecture and laboratory. Introduction to the principal features of the composition and structure of the earth. The nature of minerals and rocks, surface and deep earth processes, mineral and energy resources, and plate tectonics. Credit cannot be earned for this course and GEOL 1005.

GEOL 1002. Historical Geology. 4 Credits.

Lecture and laboratory. Introduction to the history of the earth. Sedimentary environments, plate tectonics, origin of life, and evolution.

GEOL 1005. Environmental Geology. 4 Credits.

Lecture and laboratory. Introduction to the impact of geology on the environment, with emphasis on the relation of people and society to natural environments. Population evolution, natural hazards, and mineral resources.

GEOL 1099. Variable Topics. 1-36 Credits.

GEOL 2106. Oceanography. 3 Credits.

The ocean with its many environments represents the last largely unexplored frontier on earth. Origin of the ocean systems and plate tectonics, ocean habitats and their biota, marine hydrology and ocean currents; air-sea interaction and climate control; ocean mapping techniques; environmental regulations covering marine resources. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

GEOL 2111. Mineralogy. 4 Credits.

Lecture and laboratory. Introduction to the crystallography and chemical systematics of rock-forming and ore minerals. Exercises emphasize the analysis of mineralogic data and the paragenesis of mineral assemblages. Laboratory fee. Prerequisites: GEOL 1001 or GEOL 1005; or permission of the instructor.

GEOL 2112. Igneous and Metamorphic Petrology. 4 Credits.

Lecture and laboratory. Introduction to basic light theory and the identification and characterization of minerals through optical properties. Laboratory exercises provide an introduction to petrologic analysis of igneous and metamorphic mineral systems. Prerequisite: GEOL 2111 or permission of the instructor. Laboratory fee.

GEOL 2122. Structural Geology. 3 Credits.

Study of natural and experimental rock deformation and the relationships between stress and strain as recorded by geologic structures. Prerequisites: GEOL 1001 or GEOL 1002 or GEOL 1005.

GEOL 2151. Introduction to Paleontology. 3 Credits.

Review of the origin of life, the geologic record, and the evolutionary history of the major groups of organisms, including the origin of life and evolution of invertebrates, vertebrates, and plants. Prerequisites: GEOL 1002.

GEOL 2190. Special Topics in Geology. 1-3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

GEOL 2333. Evolution and Extinction of Dinosaurs. 3 Credits.

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1111 and BISC 1112; or GEOL 1001 and GEOL 1002; or GEOL 1002 and GEOL 1005. Credit cannot be earned for this course and BISC 2333.

GEOL 3099. Variable Topics. 1-12 Credits.

GEOL 3118. Volcanology. 3 Credits.

Fundamental principles and geologic processes associated with volcanism. Eruptive styles, processes leading to magma production and transport, triggering mechanisms, plate tectonic settings, volcanic hazards, and disaster mitigation. Case histories of selected volcanic eruptions examined in detail. Laboratory fee. Prerequisites: GEOL 2111 or permission of the instructor.

GEOL 3119. Field Experience in Volcanology. 1 Credit.

Weeklong field exercise at a major volcanic center in the western United States; field-based interpretation and analysis of volcanic and related rocks. Classroom discussion focuses on the processes responsible for volcanism. Deposit for expenses is required. Recommended background: Prior completion or concurrent enrollment in GEOL 2112 and GEOL 3118.

GEOL 3123. Crustal Dynamics. 3 Credits.

Basic plate tectonic processes and features; the plate tectonic paradigm in historical evolutionary framework. Students present an original research project orally and in writing. Prerequisite: GEOL 2122. Laboratory fee.

GEOL 3128. Sedimentology and Stratigraphy. 3 Credits.

Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Prerequisite: GEOL 1001.

GEOL 3129. Sedimentology and Stratigraphy Lab. 1 Credit.

Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Prerequisite: GEOL 2112.

GEOL 3131. Global Climate Change. 3 Credits.

Fundamental causes and patterns of climate change. Methods of reconstruction of past climates; modeling and predicting climate change.

GEOL 3138. Hydrogeology. 3 Credits.

Principles and theory of basic and applied hydrology: surface water hydrology, geology of groundwater systems, groundwater flow, surface water-groundwater interactions, contamination and remediation technologies, conservation, management, and regulations. Laboratory fee. Prerequisites: GEOL 2111 and GEOL 2122; and MATH 1221 or MATH 1231; or permission of the instructor.

GEOL 3140. Geochemistry. 3 Credits.

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Prerequisites: GEOL 1001 or GEOL 1005; and CHEM 1111 and CHEM 1112. (Same as CHEM 3140).

GEOL 3189. Geophysics. 3 Credits.

Principles of magnetic, gravity, seismic and electrical methods applied to geological problem-solving. Prerequisite: GEOL 2122 or permission of instructor.

GEOL 3191. Geology of Energy Resources. 3 Credits.

Principles of geology applied in energy exploration, exploitation, and production; the geology of energy resources in ocean basins; borehole and surface geophysical applications and reconnaissance mapping techniques; management and regulation of energy resources; sustainability, efficiency, and conservation issues. Laboratory fee. Prerequisites: GEOL 2122 or permission of the instructor.

GEOL 4195. Geological Field Methods. 4 Credits.

Weekend field trips. Methods of outcrop analysis, geologic mapping, and data interpretation. The geological evolution of the central Appalachian mountains and the plate tectonic processes responsible for their formation emphasized. Field trip fee. Prerequisites: GEOL 2111 and GEOL 2122.

GEOL 4195W. Geological Field Methods. 4 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

GEOL 4199. Undergraduate Research or Reading. 1-12 Credits.

Problems approved by the staff. May be repeated for credit.

GEOL 5099. Variable Topics. 1-99 Credits.

BACHELOR OF ARTS WITH A MAJOR IN GEOLOGICAL SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
Two courses selected from the following:		
GEOL 1002	Historical Geology	
GEOL 1001	Physical Geology	
GEOL 1005	Environmental Geology	
Code	Title	Credits
Required courses in related areas		
CHEM 1111	General Chemistry I	

Required courses for the major

GEOL 2111	Mineralogy
GEOL 2112	Igneous and Metamorphic Petrology
GEOL 2122	Structural Geology
GEOL 3128	Sedimentology and Stratigraphy
GEOL 3129	Sedimentology and Stratigraphy Lab
GEOL 4195	Geological Field Methods

Three upper-level elective courses selected from the following:

GEOL 2106	Oceanography
GEOL 2151	Introduction to Paleontology
GEOL 2190	Special Topics in Geology (3 credits only)
GEOL 2333	Evolution and Extinction of Dinosaurs
GEOL 3118	Volcanology
GEOL 3123	Crustal Dynamics
GEOL 3131	Global Climate Change
GEOL 3138	Hydrogeology
GEOL 3140	Geochemistry
GEOL 3191	Geology of Energy Resources
GEOL 4199	Undergraduate Research or Reading (3 credits only)

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must maintain a cumulative grade-point average of 3.3 both overall and for courses in the major, and must submit an approved Honors thesis.

BACHELOR OF SCIENCE WITH A MAJOR IN GEOLOGICAL SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
Two courses selected from the following:		
GEOL 1001	Physical Geology	
GEOL 1002	Historical Geology	
GEOL 1005	Environmental Geology	
Code	Title	Credits
Required courses in related areas		
CHEM 1111 & CHEM 1112	General Chemistry I and General Chemistry II	
PHYS 1011 & PHYS 1012	General Physics I and General Physics II	
or ASTR 1001 & ASTR 1002	Stars, Planets, and Life in the Universe and Origins of the Cosmos	
One course selected from the following:		
MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II	
MATH 1231	Single-Variable Calculus I	
STAT 1051	Introduction to Business and Economic Statistics	
STAT 1053	Introduction to Statistics in Social Science	
STAT 1111	Business and Economic Statistics I	
STAT 1127	Statistics for the Biological Sciences	
Required courses for the major		
GEOL 2111	Mineralogy	
GEOL 2112	Igneous and Metamorphic Petrology	

GEOL 2122	Structural Geology
GEOL 3128	Sedimentology and Stratigraphy
GEOL 3129	Sedimentology and Stratigraphy Lab
GEOL 4195	Geological Field Methods
Four courses selected from the following and approved by the program advisor:	
GEOL 2106	Oceanography
GEOL 2151	Introduction to Paleontology
GEOL 2190	Special Topics in Geology (3 credits only)
GEOL 2333	Evolution and Extinction of Dinosaurs
GEOL 3118	Volcanology
GEOL 3131	Global Climate Change
GEOL 3138	Hydrogeology
GEOL 3140	Geochemistry
GEOL 3189	Geophysics
GEOL 3191	Geology of Energy Resources
GEOL 4199	Undergraduate Research or Reading (3 credits only)

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.

- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must maintain a cumulative grade-point average of 3.3 both overall and for courses in the major, and must submit an approved Honors thesis.

MINOR IN GEOLOGICAL SCIENCES

REQUIREMENTS

The following requirements must be fulfilled: 19 credits for the minor and successful completion of all prerequisite courses.

Code	Title	Credits
Program prerequisites		
Two courses from the following:		
GEOL 1002	Historical Geology	
GEOL 1001	Physical Geology	
GEOL 1005	Environmental Geology	
Code	Title	Credits
Required for the minor		
GEOL 2111	Mineralogy	
Two upper-level GEOL courses from the following:		
GEOL 2106	Oceanography	
GEOL 2112	Igneous and Metamorphic Petrology	
GEOL 2122	Structural Geology	
GEOL 2151	Introduction to Paleontology	
GEOL 2333	Evolution and Extinction of Dinosaurs	
GEOL 3118	Volcanology	
GEOL 3128	Sedimentology and Stratigraphy	
GEOL 3138	Hydrogeology	
GEOL 3189	Geophysics	
GEOL 3191	Geology of Energy Resources	
GEOL 4195	Geological Field Methods	

HISTORY

The Department of History offers a curriculum that includes a wide range of geographical, thematic, and temporal fields. Students can choose from courses in American, European, Asian, Middle Eastern, Latin American, and African history in the early modern and modern time periods, as well as courses centering on cross-national themes such as the history of colonialism and imperialism, the Cold War, the Atlantic World, immigration, women's history, and military history. The program strengthens students' ability to understand the past in political, social, and cultural context and the relationship of the past to the present. It is also designed so that students gain experience in writing and acquire the knowledge and analytical tools necessary for success in a range of careers and professions.

Visit the Department of History website (<https://history.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in history (p. 308)

Combined program

- Dual Bachelor of Arts with a major in history and Master of Education in the field of secondary education with a concentration in social studies (p. 656)

Minor

- Minor in history (p. 312)

GRADUATE

Master's program

- Master of Arts in the field of history (p. 311)

Doctoral programs

- Doctor of Philosophy in the field of history (p. 311)
- Doctor of Philosophy in the field of American religious history (p. 310)

FACULTY

Professors H.L. Agnew, E. Arnesen, M.A. Atkin, N. Blyden, G.A. Brazinsky, E.H. Cline, R.J. Cottrol, H.M. Harrison, J. Hershberg, D.K. Kennedy, D.R. Khoury, D. Schwartz (*Chair*), D. Silverman, R. Thornton, J. Weissman Joselit, A. Zimmerman

Associate Professors P.M. Alonso-Gortari, D. Brunsman, E. Chapman, D. Cline, A. Dubnov, B. Hopkins, J. Kim, C. Klemek, J. Krug, S. McHale, S.N. Robinson, A.M. Smith II, K. Schultheiss, D. Yang

Assistant Professors A. Abigail Agresta, J. Blecher, S. Brady, T. Christov, T.W. Jackson, C.T. Long, S. Matthiesen, E. Schluessel, T. Shenk, J. Wells

Adjunct Professor A. Howard

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Course Accessibility: All listed undergraduate courses are open to students without history course prerequisites with the exception of HIST 3095 Internship, HIST 4098 Thesis Seminar, and HIST 4099 Senior Honors Thesis Tutorial.

HIST 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

HIST 1011. World History, 1500-Present. 3 Credits.

An introduction to world history over the past half millennium, stressing themes of exchange and integration, tracing the ways various peoples of the world became bound together in a common system.

HIST 1020. Approaches to Women's History. 3 Credits.

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as WGSS 1020.

HIST 1099. Variable Topics. 1-36 Credits.

HIST 1110. Foundations of Europe to 1715. 3 Credits.

Course examines more than 4,000 years of human history, and the processes, ideas, and events from ancient Mesopotamia to 1715 that formed European societies and culture, emphasizing primary sources and their interpretation.

HIST 1120. Europe in the World Since 1715. 3 Credits.

Introduction to the history of Europe from the early eighteenth century to the mid-twentieth century, emphasizing primary sources and their interpretation.

HIST 1120W. European Civilization in its World Context. 3 Credits.

European history from the early eighteenth century to the present; mutual influence and impact between Europe and the rest of the world. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 1121. The War of Ideas in European and International History, 1750-Present. 3 Credits.

The ideas that made people fight, from the French Revolution to the worldwide uprisings of the 1960s and beyond. Key texts whose ideas of freedom and slavery, tradition and progress, state authority and revolutionary violence changed the world. The political, economic, and social contexts and effects of these texts.

HIST 1310. Introduction to American History from the Pre-Columbian Era to 1877. 3 Credits.

The political, social, economic, and cultural history of the United States from pre-Columbian America to 1877.

HIST 1311. Introduction to American History since 1877. 3 Credits.

The political, social, economic, and cultural history of the United States. Since 1877.

HIST 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Instructor's permission is required.

HIST 2001. Special Topics. 3-4 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

HIST 2005. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Same As: HIST 2005W.

HIST 2005W. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 2005.

HIST 2006. Digital History. 3 Credits.

How the Internet and electronic technology have transformed the ways in which historians conduct research, present their work, and record, store, organize, and disseminate their findings; computational tools for data analysis.

HIST 2010. Early American Cultural History. 3 Credits.

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same As: AMST 2010.

HIST 2011. Modern American Cultural History. 3 Credits.

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as AMST 2011.

HIST 2015. Global Economic History From the Industrial Revolution to the Present. 3 Credits.

How governments and international organizations relied on market mechanisms and expert planning to spur economic growth, while at the same time creating new problems; Industrial Revolution, imperialism, Great Depression, postwar welfare state, economic development, and recent financial crises.

HIST 2016. Capitalism and Inequality from the Industrial Revolution to Present. 3 Credits.

History of global inequality and how it relates to capitalism. Introduces students to modern economic history through the lens of inequality.

HIST 2020. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same As: AMST 2020, AMST 2020W, HIST 2020W.

HIST 2020W. Washington, DC: History, Culture, and Politics. 3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2020, AMST 2020W, HIST 2020.

HIST 2050. History of Jewish Civilization: From the Bible to Modernity. 3 Credits.

Introduction to the richness and diversity of Jewish civilization from antiquity to the present. Examination of evolving notions of "who" or "what" is Jewish. Key concepts including "chosenness," community, peoplehood, diaspora, redemption, and Torah. How the boundaries of Jewishness have been formed, contested, and revised over time; how Jews managed to retain their identity throughout their millennial history of migration, dispersion, and persecution; what unites Jewish civilization; and whether a unified Jewish history over centuries and continents can be traced, as distinct from multiple "histories" of the Jews in the myriad times and places in which they lived. Emphasis on analysis of primary texts and cultural objects along with contextual understanding of Jews and Judaism.

HIST 2051. Antisemitism from Origins to the Present. 3 Credits.

Thematic and theoretical survey of the history of antisemitism from the late antique period to the twentieth century.

HIST 2060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community.

HIST 2061. Ghetto: History of a Concept. 3 Credits.

The history of the ghetto from the sixteenth century to the present. Case studies from Europe and the United States illustrate the different stages in the genealogy of the ghetto as a word, concept, metaphor, and place.

HIST 2105. Majors' Introductory Seminar: Europe. 3 Credits.**HIST 2105W. Majors' Introductory Seminar: Europe. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2112. History of Ancient Greece. 3 Credits.

A political and social survey of Bronze Age Minoan and Mycenaean civilizations, the Iron Age, Archaic Period, Classical Greece through Alexander the Great. (Same as CLAS 2112).

HIST 2113. The Roman World to 337 A.D.. 3 Credits.

Prehistoric Italy; rise and decline of the Roman Empire and Latin civilization; cultural, social, and political developments in the Greek world under Roman rule. Same As: CLAS 2113.

HIST 2114. Sport and Society in Ancient Greece. 3 Credits.

The place of athletics and sports in ancient Greek civilization. Religious, political, and economic contexts of athletics. Issues of class, gender, nationalism, and ethnicity.

HIST 2124. Nineteenth-Century Europe. 3 Credits.

Exploration of primary source documents and works of professional historians to introduce important issues of nineteenth-century European history.

HIST 2125. Twentieth-Century Europe. 3 Credits.

Diplomatic, political, and cultural developments from the turn of the century to the present.

HIST 2131. History of England Since 1689. 3 Credits.

Development of English civilization and its impact on Western culture.

HIST 2141. History of France Since 1789. 3 Credits.

Breaks and continuities in the succession of regimes; the interplay between revolution and tradition; the weakened international position of France; Gaullism and the survival of France; European Unity.

HIST 2160. History of Germany. 3 Credits.

Political, social, and cultural development.

HIST 2180. Russia to 1801. 3 Credits.

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power; political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

HIST 2181. Russia Since 1801. 3 Credits.

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era; contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

HIST 2301. Topics in U.S. History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

HIST 2305. Majors' Introductory Seminar: United States. 3 Credits.**HIST 2305W. Majors' Introductory Seminar: United States. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

The period 1824-1950 as a crucial era in American history; popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem.

HIST 2312. The American Civil War and Reconstruction, 1850-1877. 3 Credits.

Examination of the political crises of the 1850s to determine how and why the issue of slavery led to the American Civil War; the war's important battles, including how generals and common soldiers shaped outcomes; Reconstruction and the aftermath of the war, including how it shapes politics and race relations to the present day.

HIST 2313. History of the American West. 3 Credits.

A history of the trans-Mississippi West from first settlement by American Indians to the present; the pre-contact West, the coming of the Spanish, American settlement, the Indian Wars, women in the West, labor and racial conflict, and the West in the twentieth century.

HIST 2320. U.S. Media and Cultural History. 3 Credits.

History and analysis of twentieth-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. (Same as AMST 2320).

HIST 2321. U.S. History, 1890-1945. 3 Credits.

A survey of modern U.S. history from the late nineteenth century to the end of WWII. Emphasis on politics, public policy, and culture. Basic readings include biography, autobiography, and contemporary novels.

HIST 2322. U.S. History since 1945. 3 Credits.

Political, social, diplomatic, and intellectual developments, with particular emphasis on the Cold War, "silent" '50s, and disrupted '60s.

HIST 2340. U.S. Diplomatic History. 3 Credits.

American foreign relations in the twentieth century.

HIST 2340W. U.S. Diplomatic History. 3 Credits.

American foreign relations in the twentieth century. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2341. History of FBI Counterintelligence. 3 Credits.

The issues, controversies, and personalities that have played critical roles in the history of FBI foreign counterintelligence development.

HIST 2350. U.S. Religion and Politics. 3 Credits.

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as AMST 2350.

HIST 2367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

HIST 2380. Sexuality in U.S. History. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ WGSS 2380.

HIST 2410. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Same As: AMST 2410, AMST 2410W, HIST 2410W.

HIST 2410W. Twentieth Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2410, AMST 2410W, HIST 2410.

HIST 2440. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as AMST 2440.

HIST 2440W. The American City. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2440.

HIST 2490. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Same as AMST 2490.

HIST 2490W. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2490W).

HIST 2505. Majors' Introductory Seminar: Africa. 3 Credits.**HIST 2520. Africans in the Making of the Atlantic World. 3 Credits.**

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

HIST 2601. Topics: Asian History. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

HIST 2605. Majors' Introductory Seminar: Asia. 3 Credits.**HIST 2605W. Majors' Introductory Seminar: Asia. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2610. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Same As: AMST 2610, AMST 2610W, HIST 2610W.

HIST 2610W. Science, Technology, and Politics in Modern America. 3 Credits.

The history of science and technology and their role in political and social life from the late nineteenth century to the present. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: AMST 2610, AMST 2610W, HIST 2610.

HIST 2630. History of Korea. 3 Credits.

An introduction to the history and culture of Korea from antiquity to the present.

HIST 2705. Majors' Introductory Seminar: Latin America. 3 Credits.

HIST 2705W. Majors' Introductory Seminar: Latin America. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2710. The United States in the World. 3 Credits.

U.S. cultural and political engagement with the rest of the world in the twentieth and twenty-first centuries. Global culture, transnational ideas and social movements, travel and tourism, and the impact of media. Same As: AMST 2710.

HIST 2730. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Same as AMST 2730.

HIST 2730W. World War II in History and Memory. 3 Credits.

Examination of Americans' histories and memories of World War II. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as AMST 2730).

HIST 2803. The Ancient Near East and Egypt to 322 B.C.. 3 Credits.

Survey of Egyptian, Mesopotamian, Anatolian, West Semitic, and Iranian civilizations from the Neolithic period to Alexander's conquest. Credit cannot be earned for this course and CLAS 2803.

HIST 2804. History of Ancient Israel. 3 Credits.

The history of ancient Israel from the Patriarchs through the Romans. Topics include historical, archeological, political, social, cultural, religious, diplomatic, military, economic, and intellectual events, movements, and relationships. Same as CLAS 2804.

HIST 2805. Majors' Introductory Seminar: Middle East. 3 Credits.

HIST 2805W. Majors' Introductory Seminar: Middle East. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 2809. Imperial Islam. 3 Credits.

The history of the Ottoman, Safavid/Qajar, and Mughal Empires from their formation and expansion as effective military and bureaucratic states until the late nineteenth century.

HIST 2810. Jihad: Love and War in Islamic History. 3 Credits.

The evolving justifications for war in Islamic history; close readings of classical (Qur'an and hadith), medieval (fatwas, legal treatises), and contemporary sources (writings of ISIS, Bin Laden, and others).

HIST 2811. The Formation of Islam to 1500. 3 Credits.

Political, social, and intellectual history of the Islamic world from the seventh to fifteenth centuries; cultural contexts of Southern Europe, North Africa, the Near East, Central Asia, South Asia, and across the Indian Ocean.

HIST 2812. History of Zionism. 3 Credits.

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948. Same As: JSTD 2812.

HIST 2850. Modernization in Russia, Turkey, and Iran. 3 Credits.

Interrelated aspects of modernization, such as social and cultural issues, issues of power, and national identity, in Russia, Turkey, and Iran.

HIST 3001. Special Topics. 4 Credits.

May be repeated for credit provided the topic differs. Credit cannot be earned for this course and AMST 2490.

HIST 3001W. Special Topics. 4 Credits.

May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and AMST 2490W.

HIST 3030. Military History to 1860. 3 Credits.

The causes, conduct, and consequences of conflict in the ancient, medieval, renaissance, and early modern world. Examination of the Anglo-Dutch and Anglo-French wars leading to the Seven Years' War, American Revolution (including a "virtual staff ride" of the Saratoga Campaign), French Revolution, and Napoleonic Wars.

HIST 3031. Military History since 1860. 3 Credits.

Causes, conduct, and consequences of conflict from the American Civil War through the Austro- and Franco-Prussian Wars, Spanish-American War, Sino- and Russo-Japanese Wars, World Wars I and II (including a "virtual staff ride" of the Normandy Campaign), Korea, Vietnam, and modern "small wars".

HIST 3033. War and the Military in American Society from the Revolution to the Gulf War. 3 Credits.

Social and psychological dimensions of war and military service.

HIST 3035. The United States and the Wars in Indochina, 1945-1975. 3 Credits.

The American role in the Indochina Wars, emphasizing the period 1961 to 1975, and from the perspectives of the Vietnamese, French, and Americans in Vietnam. Related intellectual and political developments in the United States; Cold War relationships with China and the Soviet Union.

HIST 3038. Naval History to 1815. 3 Credits.

Causes, conduct, and consequences of war at sea from the Age of Reconnaissance and Conquest through the War of 1812 (including a "virtual staff ride" of the Battle of Trafalgar). Consideration of issues including technology, the impact of the environment, and theories of warfare associated with each period.

HIST 3039. Naval History since 1815. 3 Credits.

Causes, conduct, and consequences of war at sea in the Civil War, counterinsurgency operations of so-called small wars, World Wars I and II, and the post-Cold War period. The transition from sail to steam, asymmetric warfare, and the role of sea power in modern geopolitics. Students participate in a virtual staff ride of the Battle of Leyte Gulf.

HIST 3044W. The Price of Freedom: Normandy 1944. 4 Credits.

The causes, conduct, and consequences of warfare, considered through examination of the campaign in Normandy that began with the allied landings on D-Day. Assignments include researching and writing a biography of a member of the military who died in the campaign and presenting a eulogy at the soldier's graveside during a "staff ride" exploration of the battlefield conducted over spring break. The biography paper is submitted to and retained in the archives of the American Cemetery in Normandy. Permission of the Office for Study Abroad and interview with the instructor required prior to enrollment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3045. International History of the Cold War. 3 Credits.

Key events and themes of the Cold War, drawing on new evidence from U.S., Soviet, Chinese, German, East European, Vietnamese, Cuban, and other sources. Related historiographical controversies from multiple national perspectives. Why the Cold War began, why it lasted for 45 years, and why it ended.

HIST 3046. The Cold War in the Third World. 3 Credits.

The evolution of the Cold War in Asia, Africa, and Latin America. Decolonization and the response of the Great Powers, the political economy of the Third World, and American and Soviet interventions.

HIST 3047. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War.

HIST 3047W. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3061. The Holocaust. 3 Credits.

The origins, causes, and significance of the Nazi attempt to destroy European Jewry, within the context of European and Jewish history. Related themes include the behavior of perpetrators, victims, and bystanders; literary responses; contemporary implications of the Holocaust for religion and politics.

HIST 3062. War Crimes Trials. 3 Credits.

The Nuremberg trial and its legacy in subsequent international and hybrid tribunals. The need for judicial accountability for genocide, crimes against humanity, and war crimes.

HIST 3095. Internship. 1-3 Credits.

Study of history through internships in museums, libraries, the U.S. Congress, or other appropriate institutions and agencies. Prior approval of a departmental faculty member is required.

HIST 3097. Independent Study. 1-3 Credits.

Permission of instructor required.

HIST 3099. Variable Topics. 1-12 Credits.**HIST 3101. Topics: Europe. 3 Credits.****HIST 3101W. Topics: Europe. 3 Credits.**

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3103. European Intellectual History I. 3 Credits.

The "Century of Genius" and the Enlightenment; God, nature, man, and society, from Descartes to the French Revolution.

HIST 3104. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy.

HIST 3104W. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3111. Topics in Ancient History. 3 Credits.

May be repeated for credit provided the topic differs. Same as CLAS 3111.

HIST 3116. Identity in the Greco-Roman World. 3 Credits.

Questions of identity surrounding the Romans and non-Romans who populated the ancient Mediterranean world in classical antiquity and whose culture is considered the cornerstone of Western civilization. (Same as CLAS 3116).

HIST 3117. Alexander The Great. 3 Credits.

Close reading of ancient primary sources reveal the complex personality and remarkable deeds of Alexander the Great (356-323 BCE); the nature of Alexander's military success, lasting effects of his conquests, and long-term impact on the varied people and lands of his empire. Prerequisites: AH 3101 or HIST 2112. (Same as CLAS 3117).

HIST 3118. The Middle Ages: 500-1500. 3 Credits.

The evolution of European society from the end of the Roman Empire to the Renaissance. The nature of political power, role of religion, place of gender, cultural production, and changing social structures.

HIST 3119. The Ancient Economy. 3 Credits.

Economic history of ancient Greece and Rome; environment and ecology of the Mediterranean region, trade and transport, the invention of coinage and monetization, taxation, food production, consumption, and slavery. (Same as CLAS 3119).

HIST 3126. European Integration: A History. 3 Credits.

An examination of the origins and development of the European Union.

HIST 3130. History of England I. 3 Credits.

Development of English civilization and its impact on Western culture. To 1689.

HIST 3132. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485-1603.

HIST 3132W. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485 to 1603. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3134. Stuart England. 3 Credits.

The civil wars, Restoration, and Glorious Revolution. Political, religious, socioeconomic, and intellectual developments in England, 1603-1714.

HIST 3135. Victorian Britain. 3 Credits.

Major themes in nineteenth-century British history: industrialism, democratization, urbanization, imperial expansion, class and gender schisms.

HIST 3137. The British Empire. 3 Credits.

The British Empire from its rise in the seventeenth century to its demise in the twentieth century.

HIST 3139. Twentieth-Century Britain. 3 Credits.

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe.

HIST 3139W. Twentieth-Century Britain. 3 Credits.

Major themes of twentieth-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3140. History of France. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon.

HIST 3140W. History of France to 1814. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3145. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789-1799. Attention to its structural consequences in France and in Europe at large.

HIST 3145W. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789 to 1799. Attention to its structural consequences in France and in Europe at large. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3148. El Camino de Santiago. 3 Credits.

Walking the Camino de Santiago is a cultural phenomenon that has lasted over a thousand years. An important part of Spain's cultural and political history, the Camino has affected the structures that form Spain's political and institutional systems, society, economy, and ideology as well as artistic forms of expression. Students may earn their Pilgrim's passport by walking the last 100 kilometers of the Camino after the formal classes have ended. Offered at GW Madrid Study Center.

HIST 3149. History of Spain. 3 Credits.

Familiarizes students with the important milestones of Spain's history. Discusses the regime of the 40-year dictatorship, concluding with the advent of democracy through an exemplary transition that has served as an example to other nations. Offered only at GW Madrid Study Center.

HIST 3150. Spain and Its Empire, 1492-1700. 3 Credits.

Major transformations of the period: from cultural pluralism to ethnic homogeneity, from medieval fragmentation to imperial expansion in Europe and America; from religious reform to Catholic Reformation, from global dominance to decline.

HIST 3168. Divided and United Germany Since 1945. 3 Credits.

Why was Germany divided after World War II? Why did it stay divided for 45 years? How was it reunited in 1990? This course examines developments in East and West Germany, relations between the two Germanys during the Cold War, their foreign policies, and how other countries treated them.

HIST 3173. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I.

HIST 3173W. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3178. The Making of the Modern Balkans. 3 Credits.

States of the Balkan peninsula—Slovenia, Croatia, Serbia and Montenegro, Bosnia, Albania, Macedonia, Greece, Bulgaria, and Romania—including developments since the decline of the Ottoman Empire and the emergence of Balkan nationalist movements, and continuing through the collapse of the Soviet bloc.

HIST 3180. Russia to 1801. 3 Credits.

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power. Attention is given to the political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

HIST 3181. Russia Since 1801. 3 Credits.

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era. Attention is given to the contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

HIST 3301. Topics: U.S. History. 4 Credits.

HIST 3301W. Topics: U.S. History. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3302. America Before 1764. 3 Credits.

An examination of prehistory, colonization, and the shifting dynamics among European Americans, African Americans, and Native Americans before 1764.

HIST 3303. Revolutionary America. 3 Credits.

The American revolutionary era from the movement for independence through the establishment of the new federal government under the Constitution. Emphasis on changes to the inhabitants of North America, including Native Americans, African Americans, and European Americans, as well as to the broader Atlantic world.

HIST 3304. George Washington and His World. 3 Credits.

George Washington's life as soldier, politician, entrepreneur, slave holder, and national icon. Emphasis on the interpretation of original sources, including historical documents and the material culture of Washington's Mount Vernon estate, with tours and lectures by curators and historians. Departmental permission is required for registration.

HIST 3311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Focus on 1824 to 1850 as a crucial era in American history. Popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem. Same As: HIST 3311W.

HIST 3311W. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Study of 1824 to 1850 as an era in American history marked by widespread change. Impact of social and political reforms caused by the growth of the market economy; emergence of two national political parties; and new reforms increasingly focused on slavery as America's greatest problem. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 3311.

HIST 3322. The Modern American Presidency. 3 Credits.

Development of the modern American presidency from Theodore Roosevelt to Barack Obama. Examination of the lives of the presidents, revealing the intersection of personal and impersonal forces in the creation of modern politics and modern America.

HIST 3324. U.S. Urban History. 3 Credits.

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same As: AMST 3324.

HIST 3332. History of American Foreign Policy Since World War II. 3 Credits.

Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. World War II to the Vietnam .

HIST 3333. History of American Foreign Policy Since World War II. 3 Credits.

Continuation of HIST 3332. Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. Vietnam to the "New World Order."

HIST 3334. The Nuclear Arms Race. 3 Credits.

Political, military, diplomatic, scientific, and cultural consequences of the advent of nuclear weapons. The development and uses of the atomic bomb during World War II and the course and legacy of the U.S.-Soviet nuclear arms race during the Cold War.

HIST 3351. U.S. Social History. 3 Credits.

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as AMST 3351).

HIST 3352. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352).

HIST 3352W. U.S. Women's History to 1865. 3 Credits.

History of women in the Americas and in the United States from trans-Atlantic encounters through the Civil War. (Same as HIST 3352, WGSS 3352) Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3353. U.S. Women's History II. 3 Credits.

Continuation of HIST 3352. History of women in the Americas and in the United States from trans-Atlantic encounters from 1877 to present. Same as AMST 3353/WGSS 3353. (Same as AMST 3353, WGSS 3353).

HIST 3356. Epidemics in American History. 3 Credits.

Epidemics in American history.

HIST 3360. African American History to 1865. 3 Credits.

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as AMST 3360).

HIST 3361. African American History Since 1865. 3 Credits.

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as AMST 3361).

HIST 3362. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. (Same as AMST 3362, AMST 3362W, HIST 3362W, WGSS 3362, WGSS 3362W).

HIST 3362W. African American Women's History. 3 Credits.

The history of African American women's labor, cultural expression, institution-building, activism, and strategies to combat oppression from the antebellum period through the late twentieth century; the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement, and African American women's experiences. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same as AMST 3362W/WGSS 3362W.

HIST 3363. Race, Medicine, and Public Health. 3 Credits.

The experiences of African Americans as patients and health care providers; the history of the relationship between race, American medicine, and public health. Emphasis on the importance of understanding the historical roots of contemporary policy dilemmas such as racial and ethnic disparities in health and health care. Restricted to . Same As: AMST 4702W.

HIST 3366. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present. Focus on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree.

HIST 3366W. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present, focusing on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HIST 3366.

HIST 3367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

HIST 3370. U.S. Constitutional History. 3 Credits.

Examination of the text and interpretation of the document that is the foundation of the American government, with special attention to the changing character of race and gender as constitutional classes.

HIST 3501. Topics: Africa. 3 Credits.

A survey of African history from 1880 to the present.

HIST 3510. African History to 1880. 3 Credits.

Survey of the history of the African continent with emphasis on the history of sub-Saharan Africa.

HIST 3520. Africans in the Making of the Atlantic World. 3 Credits.

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

HIST 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as WGSS 3530.

HIST 3530W. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as HIST 3530, WGSS 3530, WGSS 3530W).

HIST 3540. West Africa to Independence. 3 Credits.

A thematic survey of West African history, focusing on the diversity of African culture, West African kingdoms and empires, Islam, the trans-Saharan trade, African contact with Europe, slavery and the slave trade, and the colonization of Africa.

HIST 3601. Topics: Asian History. 3 Credits.**HIST 3610. China to 1800. 3 Credits.**

Survey of Chinese civilization from its ancient beginnings to the last imperial dynasty.

HIST 3611. History of Modern China. 3 Credits.

China since 1840, with particular attention to political developments.

HIST 3614. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China.

HIST 3614W. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 3615. History of Chinese Communism. 3 Credits.

Survey of the leadership, ideology, structure, and foreign and domestic policies of the Chinese Communist Party from its inception to the present.

HIST 3621. History of Modern Japan. 3 Credits.

Japan's dramatic transformation from an isolated island country to Asia's only modern colonial empire, from unprecedented defeat to postwar "economic miracle." Emphasis on historical, political, economic, and cultural trends.

HIST 3631. History of Modern Korea. 3 Credits.

Modern Korean history from 1876 to contemporary society. Emphasis on colonialism, nationalism, the division of peninsula, the Cold War, and globalization.

HIST 3640. History of Southeast Asia. 3 Credits.

An examination of Vietnam and its neighbors from the pre-colonial period to the present.

HIST 3650. Modern South Asia, 1750-Present. 3 Credits.

The South Asian subcontinent, including Afghanistan, Pakistan, India, and Bangladesh, since the mid-eighteenth century. The period of British rule, from the late eighteenth to the mid-twentieth century. The different trajectories of the independent nation-states of South Asia following decolonization.

HIST 3701. Topics in Latin American History. 3 Credits.**HIST 3710. History of Latin America I. 3 Credits.**

Analysis of Spanish and Portuguese imperialism in the New World, 1492-1820.

HIST 3711. History of Latin America II. 3 Credits.

Continuation of HIST 3710. A problems approach to Latin America, 1820 to the present; thematic emphasis on neocolonialism, corporatism, liberalism, caudillismo, modernization, populism, and revolution.

HIST 3801. Topics in Middle Eastern History. 3 Credits.**HIST 3810. History of the Middle East to 1800. 3 Credits.**

Byzantine, Arab, Persian, and Islamic backgrounds; rise and decline of the Ottoman Empire; action of European powers in the area; Ottoman breakup into the Turkish Republic and other states.

HIST 3811. The Emergence of the Modern Middle East. 3 Credits.

The state system established after World War I; effects of colonialism, the rise of nationalism, the Cold War, and the oil industry; modes of identification that accompanied these processes, including pan-Arabism and Islamism.

HIST 3820. History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present; Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state.

HIST 3820W. The History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present. Topics include Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and HIST 3820.

HIST 3825. Land and Power in Israel/Palestine. 3 Credits.

Intensive reading seminar surveying key debates and turning points in the history of the Zionist-Palestinian conflict. Approach strikes a balance between structure and agency in understanding the ways in which people make their own history, but not under conditions of their choosing.

HIST 3830. History of Iraq. 3 Credits.

Modern Iraq's Ottoman background; its incorporation into a world market dominated by Europe, British influence and preconceptions in the creation of Iraq, and the emergence and survival of the Ba'ath dictatorship. Reforms in economic, political, and educational spheres.

HIST 3840. History of Central Asia. 3 Credits.

Introduction to the political, cultural, religious, and social history of the region, including Afghanistan, Kazakhstan, Tajikistan, Turkmenistan, and Uzbekistan.

HIST 3850. Modern Iran. 3 Credits.

Political, diplomatic, religious, and other developments in Iran from about 1800 to 1989.

HIST 4098. Thesis Seminar. 3 Credits.

For history majors only. Preparation of a research paper using primary sources.

HIST 4098W. Thesis Seminar. 3 Credits.

History majors identify an original research topic in an area of their interest and complete a major research paper based largely on primary sources. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: HIST 4098.

HIST 4099. Senior Honors Thesis Tutorial. 3 Credits.

Required of and restricted to undergraduate honors candidates in history. Prior approval of the instructor is required.

HIST 4099W. Senior Honors Thesis Tutorial. 3 Credits.

Required of and restricted to undergraduate honors candidates in history. Prior approval of the instructor is required. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

HIST 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ FREN 4135.

HIST 5099. Variable Topics. 1-99 Credits.**HIST 6001. Special Topics. 3-9 Credits.**

Open to doctoral and master's candidates and qualified undergraduates. May be repeated for credit provided the topic differs. Same As: SMPP 6290. Credit cannot be earned for this course and AMST 6190.

HIST 6005. History and Historians. 3 Credits.

Historiography and historical method for graduate students. Readings and discussions on major trends in history; selections from classics of historical literature.

HIST 6006. Teaching History. 3 Credits.

Pedagogic techniques and strategies particular to the discipline. Admission by permission of instructor.

HIST 6007. Writing History. 3 Credits.

Designed to improve graduate students' writing skills. Student strengths and weaknesses as writers are assessed through short assignments such as book reviews. Students prepare an article manuscript for submission to a refereed journal. Restricted to graduate students in history.

HIST 6011. Reading and Research in History and Public Policy. 3 Credits.

The use of historical insights and methods in policymaking, with emphasis on domestic issues.

HIST 6012. Internship in History and Public Policy. 3,6 Credits.

Supervised participation in an office or agency concerned with the formulation of public policy; terms of the internship are arranged with the director of the history and public policy program. Restricted to students in the history and public policy program.

HIST 6030. History and Its Uses in International Affairs. 3 Credits.

The multiple interconnections among history, politics, and international affairs, including how policymakers use or misuse "lessons" of history and how countries attempt to deal with difficult aspects of their past. Specific cases may vary.

HIST 6031. History of International Economic Systems. 3 Credits.

Development of arrangements and institutions designed to manage the international economy since the nineteenth century, with a focus on the period since World War II.

HIST 6032. Reading and Research Seminar: Strategy and Policy. 3 Credits.

A study of the historical development of strategy and the relationship of military thought to national policy.

HIST 6040. Topics in Modern Military and Naval History. 3 Credits.

Discussion, readings, and research in twentieth-century European and American military and naval history.

HIST 6041. The Age of the Battleship: An Introduction to Modern Naval History. 3 Credits.

The rich and varied literature of naval history, with emphasis on interactions among technology, nationalism, and domestic political/social developments in the late nineteenth and early twentieth century. The social history of navies is included.

HIST 6042. Seminar: World War II. 3 Credits.

Examination of statecraft and the management of force before, during, and after World War II. Special attention to broad aspects of military policy and strategy and their interaction with international politics and diplomacy.

HIST 6050. Modernization, Imperialism, Globalization. 3 Credits.

Readings seminar in classic and recent theories of modernization, imperialism, and globalization.

HIST 6051. Re-thinking Cold War History. 3 Credits.

A reading and research course that relies heavily on documents from formerly closed communist archives and recently declassified Western materials. Various issues and events of the Cold War; old and new historiographical controversies. Students write a primary-source research paper to elucidate one of the many aspects of the Cold War about which new evidence is available.

HIST 6097. Independent Readings and Research. 3 Credits.

Written permission of instructor required. May be repeated for credit with permission.

HIST 6101. Topics: Europe. 3 Credits.

HIST 6105. Seminar: European Intellectual History. 3 Credits.

Topics in eighteenth- and nineteenth-century European thought, with an emphasis on France. Specific topic announced in the Schedule of Classes.

HIST 6120. Seminar: Early Modern European History. 3 Credits.

Topics selected from Western European history of the fourteenth through seventeenth centuries.

HIST 6121. Reading and Research Seminar: Modern European History. 3 Credits.

.

HIST 6122. Reading and Research Seminar: 20th-Century History. 3 Credits.

Research or readings on selected topics.

HIST 6128. Europe and the World, 1500-Present. 3 Credits.

An introduction to some of the key debates and scholarship concerning European imperialism.

HIST 6130. Early Modern Britain. 3 Credits.

Analysis of some current issues in early modern historiography; contextualization of recent works in the field; consideration of different methodologies and the types of evidence on which they rely or that they illuminate.

HIST 6133. English People and Institutions. 3 Credits.

Selected topics in the political, social, intellectual, and economic history of England. Focus upon one time period and special area of interest. May be taken for research credit with instructor's approval.

HIST 6135. British Imperialism. 3 Credits.

Research seminar. Major debates and schools of thought on the history of British imperialism.

HIST 6138. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6139. Folger Institute Seminars II. 3 Credits.

Continuation of HIST 6138. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6170. Eastern European History I. 3 Credits.
1772-1918.

HIST 6171. Eastern European History II. 3 Credits.
Continuation of HIST 6170. 1919-1945.

HIST 6180. History of Modern Russia and the Soviet Union. 3 Credits.

Selected topics in the domestic history of modern Russia and Soviet Union. May be taken as a readings seminar or, with instructor's approval, as a research seminar.

HIST 6181. Research Seminar: Russian and Soviet Empires. 3 Credits.

HIST 6185. Seminar: Russian and Soviet Thought. 3 Credits.

Selected topics in the intellectual and cultural history of eighteenth to twentieth-century Russia and Soviet Union. May be taken as a readings seminar or, with permission of the instructor, as a research seminar. Permission of the instructor required prior to enrollment.

HIST 6188. The Soviet Union and the World, 1917 to 1991. 3 Credits.

Concepts and perceptions guiding Soviet relations with the outside world. From the blockade and intervention, through years of isolation, World War II, the Cold War, to "peaceful coexistence."

HIST 6301. Topics: U.S. History. 3 Credits.

HIST 6302. Colonial North America. 3 Credits.

The complex and turbulent world of colonial North America from the late sixteenth century to the late eighteenth century. Inter-cultural negotiations, Atlantic world connections, imperial conflict, gender construction, and race consciousness.

HIST 6303. Revolutionary America. 3 Credits.

The political and social conditions of the revolutionary era: the spiral of events that led to the American independence movement, the various meanings of the war to its participants, and the consequences of victory for the nation, its various subgroups, and other peoples of the colonial Atlantic world.

HIST 6304. American Indian History to 1890. 3 Credits.

North American Indian history from indigenous societies on the eve of first contact with Europeans until the conclusion of the Great Plains Wars of the late nineteenth century.

HIST 6310. Readings in Nineteenth-Century American History. 3 Credits.

Important trends in historical writing about nineteenth-century America.

HIST 6311. The Era of the Civil War, 1850-1877. 3 Credits.

Consideration of how and why the issue of slavery led to the American Civil War. Conflict on the battlefield and the political and social impact of the war in both the North and the South. Examination of the Reconstruction period as a means of understanding how the conflict and its aftermath continue to shape American politics and race relations to the present.

HIST 6312. The Law of Race and Slavery. 3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Admission by permission of instructor. Same as SOC 6286 and LAW 6596.

HIST 6320. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

HIST 6321. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Continuation of HIST 6320. Research or readings, depending on students' interests and curricular needs. Prerequisites: 6 credits of upper-level undergraduate American history courses.

HIST 6322. American Business History. 3 Credits.

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention is given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. (Same as SMPP 6293).

HIST 6330. Modern U.S. Foreign Policy. 3 Credits.

Readings, lectures, discussion on major developments in the conduct of American diplomacy from 1898 to 9/11.

HIST 6350. American Social Thought Since World War II. 3 Credits.

Consideration of C. Wright Mills, Daniel Bell, Abraham Maslow, Christopher Lasch, Paul Goodman, Martin Luther King, Jr., Barbara Ehrenreich, and other major social critics.

HIST 6360. Immigration and Ethnicity in the United States. 3 Credits.

The history of immigrant life in the United States; focus on the mass migration from Europe that began with the Irish Potato Famine of the 1840s and ended with the immigration restrictions of the 1920s that created the concept of the illegal immigrant.

HIST 6370. U.S. Legal History. 3 Credits.

The legal history of the United States from the seventeenth century to the present. The course examines legal change within the broader context of political, social, and economic change. Permission of the instructor required prior to enrollment. (Same as LAW 6591).

HIST 6410. Readings in American Cultural History. 3 Credits.

Studies in the cultural history of the United States, focusing on major historiographic debates and interventions. Examples of possible topics include cultural contact, the public sphere, and systems of religious and political belief. Same as AmSt 6410.

HIST 6420. Religion and American Culture. 3 Credits.

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as AMST 6420.

HIST 6430. Gender, Sexuality, and American Culture I. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-colonial to 1877. (Same as HIST 6430, WGSS 6430).

HIST 6431. Gender, Sexuality, and American Culture II. 3 Credits.

Continuation of HIST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/WGSS 6431.

HIST 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST 6435/WGSS 6435.

HIST 6450. Race in America. 3 Credits.

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as AMST 6450.

HIST 6455. American Social Movements. 3 Credits.

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as AMST 6455.

HIST 6470. Cityscapes. 3 Credits.

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as AMST 6470.

HIST 6475. U.S. Urban History. 3 Credits.

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as AMST 6475.

HIST 6480. Theory and Practice of Public History. 3 Credits.

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as AMST 6480.

HIST 6485. Contemporary Jewish Life. 3 Credits.

The changing nature of Jewish life, domestically and transnationally, from the 1950s through the present; how contemporary Jews, especially those in the United States, reckon with rupture, dissent, and freedom. Restricted to graduate students. Prerequisite: None. (Same as AMST 6190, JSTD 6001).

HIST 6495. Historic Preservation: Principles and Methods. 3 Credits.

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6495.

HIST 6496. Historic Preservation: Principles and Methods. 3 Credits.

Continuation of HIST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6496.

HIST 6501. Topics: Africa. 3 Credits.

HIST 6502. Western Representations of Africa. 3 Credits.

Representations of Africa by non-Africans from the earliest contact to more recent encounters.

HIST 6601. Topics: Asian History. 3 Credits.

HIST 6602. Asia: History, Memory, and Violence. 3 Credits.

Violence has been a defining experience for many of the populations and polities of Asia over the past century and a half. Focusing on the themes of violence and historical memory, the course takes a comparative approach, looking at how these issues have played out in different arenas throughout East, Southeast, and South Asia.

HIST 6610. Readings Seminar: Late Imperial China. 3 Credits.

Selected topics in the history of modern China in the late imperial period, with a particular focus on the internal and external challenges to the last Chinese dynasty in the nineteenth century.

HIST 6611. Readings Seminar: Twentieth-Century China. 3 Credits.

Selected topics in the history of modern China from the 1911 Revolution to the Cultural Revolution.

HIST 6621. Readings Seminar: Modern Japanese History. 3 Credits.

Selected topics in modern Japanese history from the Meiji Restoration of 1868 to the present. Research or readings depending on students' interests. Emphasis on how interpretations of the past are shaped by the present.

HIST 6625. Japan's Empire and Its Legacies. 3 Credits.

History of modern Japan's overseas expansion and empire building. Focus on issues including colonial modernity, resistance and collaboration, and postwar legacies such as politics of memory and prospects of reconciliation.

HIST 6630. Special Topics in Korean History. 3 Credits.

Intensive exploration of the history of Korea in modern times (1850–present). Korean identity and the challenges of foreign imperialism, industrialization, modernization, and globalization.

HIST 6641. Modern Southeast Asia. 3 Credits.

The modern history of Southeast Asia from the 1800s to 1975. Colonialism, rise of postcolonial states, revolutions and persistence of the past.

HIST 6701. Topics in Latin American History. 3 Credits.

HIST 6801. Topics in Middle Eastern History. 3 Credits.

HIST 6805. The Modern Middle East in World History. 3 Credits.

Draws on recent works that situate the social, economic, cultural, political, and environmental transformations that have swept the region over the past two centuries within broader global trends.

HIST 6811. Research Seminar: Modern Middle East. 3 Credits.

Readings, discussion, and research in selected political, economic, social, cultural, and intellectual trends.

HIST 6821. Islam and Social Movements. 3 Credits.

An examination of the relationship of religion and religious symbols to social and political movements in the Islamic world.

HIST 6822. Nationalism in the Middle East. 3 Credits.

Different interpretations of nationalism and their applicability to nationalism in the Middle East.

HIST 6823. Imperialism in the Middle East. 3 Credits.

An exploration of the process of European and American expansion in the Middle East.

HIST 6824. Reading/Research Seminar: Modern Iran. 3 Credits.

HIST 6998. Thesis Research. 3 Credits.

HIST 6999. Thesis Research. 3 Credits.

HIST 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

HIST 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN HISTORY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

A minimum of thirteen history (HIST) courses, including one to three introductory courses, one Majors' Introductory Seminar, eight to ten upper-level courses, and a thesis or capstone project, as described below:

Code	Title	Credits
General requirements for the major		

A minimum of 13 History (HIST) courses, some of which may be waived by examination, as follows:

Introductory course requirements

At least one but no more than three introductory courses numbered in the 1000s. These might include, but are not limited to, HIST 1011, HIST 1120, HIST 1121, HIST 1310, and HIST 1311.

Alternatively, the introductory course requirement may be fulfilled by examination as follows: Scoring 4 or 5 on the U.S. (6 credits combined for HIST 1310 and HIST 1311), European (3 credits for HIST 1120), and World (3 credits for HIST 1011) Advanced Placement Examination; or by scoring 7 or above in an appropriate International Baccalaureate program. In addition, the following courses may be waived by scoring 650 or above on the SAT II World (HIST 1011) or U.S. History (HIST 1310 and HIST 1311).

Majors' Introductory Seminar

One Majors' Introductory Seminar, selected from the following:

HIST 2005	Majors' Introductory Seminar
HIST 2105	Majors' Introductory Seminar: Europe
or HIST 2105W	Majors' Introductory Seminar: Europe
HIST 2305	Majors' Introductory Seminar: United States
or HIST 2305W	Majors' Introductory Seminar: United States
HIST 2505	Majors' Introductory Seminar: Africa
HIST 2605	Majors' Introductory Seminar: Asia
or HIST 2605W	Majors' Introductory Seminar: Asia
HIST 2705	Majors' Introductory Seminar: Latin America
or HIST 2705W	Majors' Introductory Seminar: Latin America
HIST 2805	Majors' Introductory Seminar: Middle East
or HIST 2805W	Majors' Introductory Seminar: Middle East

Senior or Honors thesis or capstone

Thesis

HIST 4098	Thesis Seminar
or HIST 4098W	Thesis Seminar

or

HIST 4099	Senior Honors Thesis Tutorial
or HIST 4099W	Senior Honors Thesis Tutorial

Students with an overall GPA of 3.3 and a GPA of 3.5 in completed History courses may write a Special Honors Thesis. Students must find a thesis advisor who is a full-time member of the faculty.

Capstone

An equivalent capstone project approved by the thesis instructor may be completed in lieu of the thesis.

Upper-level course requirements

In addition to the Majors' Introductory Seminar, eight to ten upper-level courses numbered in the 2000s and 3000s, taken as follows:

Topical courses

Of the upper-level courses (including, for this purpose, the Majors' Introductory Seminar), at least one course must be taken from three of the following groups. At least one of these courses must focus on the period before 1750.

HIST Group A: Europe (courses numbered in the 2100s or 3100s)

HIST Group B: North America (courses in the 2300s or 3300s)

HIST Group C: Africa (courses in the 2500s or 3500s)

HIST Group D: Asia (courses in the 2600s or 3600s)

HIST Group E: Latin America (courses in the 2700s or 3700s)

HIST Group F: Middle East (courses in the 2800s or 3800s)

HIST Group G: Theory/Methods

Dean's Seminars and Honors (HONR) courses taught by members of the History Department faculty, Majors' Introductory Seminars, and HIST 2001, HIST 2005 and HIST 3001 may count toward the topical requirement, to be determined on a case-by-case basis.

Specialization

With the approval of the Director of Undergraduate Studies or departmental delegate, a history major may, but is not required to, declare a specialization by having at least six courses contribute to the student's knowledge of a specific field. An area of specialization might be a geographic region, chronological period, or other topic (such as women's history, legal history, or military history), or a combination thereof. Up to two courses counting for the specialization may be taken in other departments with the approval of the Director of Undergraduate Studies or departmental delegate.

Foreign language

A foreign language is not required, but majors are strongly encouraged to take at least two semesters of a foreign language, particularly if they plan to pursue a graduate degree in history.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have an overall GPA of 3.3 and a GPA of 3.5 in the major at the time of graduation; and complete HIST 4099 Senior Honors Thesis Tutorial with a grade of A or A-.

DOCTOR OF PHILOSOPHY IN THE FIELD OF AMERICAN RELIGIOUS HISTORY

REQUIREMENTS

This program is offered in cooperation with the Department of Religion.

The following requirements must be fulfilled:

The requirements for the Doctor of Philosophy Program (p. 87).

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77), and the specific requirements of the Doctor of Philosophy in the field of history (p. 311).

Of the three fields required for the General Examination, one field must come from the list of major American fields noted below and one from the Department of Religion (typically history of religion in America). Major fields in American history include: Early America (to 1815), 19th-century America (1815-1900), and 20th-century America (1900-). The third field is normally topical (e.g. U.S. Cultural History, Historic Preservation, Gender and Women's History).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

DOCTOR OF PHILOSOPHY IN THE FIELD OF HISTORY

Students delve into history with GW's world-renowned scholars. The program's proximity to some of the most important research repositories in the world, including the National Archives, the Folger Shakespeare Library, the National Security Archive and the Smithsonian museums, makes GW an ideal place to examine a variety of fields, from Renaissance Europe to the Cold War, and from imperial and colonial studies to modern American political and social history. Because GW's programs are relatively small, students work closely with faculty and graduate with the knowledge, analytical tools, and writing skills for a range of professions.

The PhD program in history offers full tuition remission and a full fellowship to cover living expenses for five years. During that period, doctoral candidates master relevant historiography and write a dissertation. PhD students gain teaching experience by serving as teaching assistants for undergraduate lecture courses.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77), including the satisfactory completion of the General Examination.

The requirements for the Doctor of Philosophy Program (p. 87).

All students must take HIST 6005 History and Historians. Some students must pass language exams appropriate to their field and dissertation topic. Students must maintain a GPA of at least 3.5 to remain in the program.

Candidates in American history must select two major fields from early America (to 1815), 19th-century America (1815–1900), and 20th-century America (1900–). The minor field will normally be topical (e.g., U.S. social, U.S. diplomatic, historic preservation).

Candidates in imperial and colonial history take HIST 6128 Europe and the World, 1500–Present and HIST 6050 Modernization, Imperialism, Globalization and select two major and one minor field. Fields can include, but are not limited to, such combinations as Europe and the Americas (1500–1900), Europe and Asia, Europe and the Middle East, Europe and Africa, the U.S. and Asia, and China and Japan.

Candidates in Asian history select two major fields from modern China, modern Japan, modern Korea, and modern Southeast Asia. The minor field is chosen in consultation with the advisor.

Candidates concentrating in areas other than those outlined above must select one major and two minor fields. Major fields

are early modern Europe, modern Europe, Latin America, modern Middle East, modern Eastern Europe, modern Russia, and military history. The minor fields may be either topical (e.g., European intellectual) or chronological (e.g., Tudor and Stuart England, colonial Latin America).

All candidates may choose to be examined in one minor field other than history if it is relevant to the program of study.

MASTER OF ARTS IN THE FIELD OF HISTORY

Students delve into history with GW's world-renowned scholars. The program's proximity to some of the most important research repositories in the world—the National Archives, the Folger Shakespeare Library, the National Security Archive and the Smithsonian museums—makes GW an ideal place to examine a variety of fields, from Renaissance Europe to the Cold War, and from imperial and colonial studies to modern American political and social history. Because our programs are relatively small, students work closely with faculty and graduate with the knowledge, analytical tools and writing skills for a range of professions.

The MA program offers students the opportunity to focus on an area of their choice. Alternatively, students may opt to specialize in one of the departments concentrations: History and Public Policy; Imperial and Colonial Studies; and US Legal History. The program prepares students for PhD work and careers that range from teaching high school, working for the government or conducting research within the private sector.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Visit the program website (<https://history.columbian.gwu.edu/graduate/>) for additional information.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

A minimum of 36 credits in upper-division undergraduate and graduate-level courses, including completion of 9-credit field of focus*. 18 credits (six courses) must be taken at the graduate level.

Students must maintain a minimum GPA of 3.3 to remain in good standing and to earn the degree.

Code	Title	Credits
Required		
HIST 6005	History and Historians (taken in the first semester)	
Thesis students		
HIST 6998	Thesis Research	
HIST 6999	Thesis Research	
Note that HIST 6998 and HIST 6999 do not count toward the required six graduate-level courses.		
Non-thesis students		
Students choosing the non-thesis option must complete two research seminars for which a research paper is required.		
For all students, remaining credits are selected in consultation with the advisor. A minimum of six courses (18 credits) must be taken at the graduate level. To receive graduate credit for an undergraduate course, which must be taken at the 3000 level or above, students must arrange with the instructor for extra work. Unless otherwise stated under one of the concentrations listed below, a maximum of 6 credits in approved courses may be taken outside of the Department of History. Students may take up to four courses (12 credits) as part of the Consortium of Universities of the Washington Metropolitan area**.		

Code	Title	Credits
Concentrations		
Students may choose to complete one of the following concentrations as part of their program of study.		
Historic preservation		
The concentration in historic preservation combines courses in U.S. history and historic preservation. A minimum of 18 credits in courses in U.S. social history, U.S. urban history, man-made America, and the seminar sequence in historic preservation is required.		
Imperial and colonial studies		
The concentration in imperial and colonial studies emphasizes the comparative study of empires. HIST 6128 and HIST 6050, a 15-credit major regional field, and a 6 to 9 credit minor regional field are required. Up to 9 credits may be taken in related disciplines outside of the Department of History. Students should take HIST 6128 and HIST 6050 in the first semester they are offered, as they are taught only in alternate years.		
Public policy		

The concentration in public policy emphasizes the study of history as it relates to the analysis and conduct of public policy. An internship completed in conjunction with HIST 6012 is required. One-third of the coursework for this concentration is taken outside the Department of History in a discipline relevant to the student's policy interests.

U.S. legal history

The concentration in U.S. legal history combines a major field in U.S. history with a focus in U.S. legal history. Students may take up to 9 credits in courses in legal history offered by the Law School.

*A field of focus is centered on a specific period, region, or theme. Students work with the MA advisor to decide the specifics of their field of focus.

**Students may take up to four courses (12 credits) offered through the Consortium of Universities of the Washington Metropolitan Area (<https://www.consortium.org/>). Transfer credits for graduate courses taken at other institutions before matriculating at GW are deducted from the total consortium credits allowed. Students may not enroll in a consortium course if it duplicates a GW course offered in the same semester.

MINOR IN HISTORY REQUIREMENTS

Undergraduate students who select a minor in history must declare their intention to a departmental advisor no later than the beginning of their senior year.

Code	Title	Credits
Required		
One of the following:		
HIST 1011	World History, 1500-Present	
HIST 1110	Foundations of Europe to 1715	
HIST 1120	Europe in the World Since 1715	
HIST 1121	The War of Ideas in European and International History, 1750-Present	
HIST 1310	Introduction to American History from the Pre-Columbian Era to 1877	
HIST 1311	Introduction to American History since 1877	
At least five upper-division history courses numbered 2000 and higher		

HUMAN PALEOBIOLOGY

The Columbian College of Arts and Sciences offers an interdisciplinary program leading to the doctor of philosophy in the field of hominid paleobiology. The program features training in molecular and developmental biology, evolutionary anatomy, hominid paleontology, and archaeology. It emphasizes problem-based learning and training and internships. Participating faculty are drawn from the Departments of Anthropology, Speech and Hearing Science, Biological Sciences, and Anatomy and Regenerative Biology at GW; the Departments of Anthropology and Paleobiology at the National Museum of Natural History, Smithsonian Institution; the Department of Physiology and Biophysics at Howard University; and the National Institutes of Health.

GRADUATE

Master's program

- Master of Science in the field of human paleobiology (p. 315)

Doctoral program

- Doctor of Philosophy in the field of human paleobiology (p. 313)

FACULTY

Center for Advanced Study in Human Paleobiology: B. Wood (*Director*), W.A. Barr, K. Behrensmeyer, B.J. Bradley, D.R. Braun, A.S. Brooks, S.C. McFarlin, C.M. Murray, B. Pobiner, R. Potts, C.C. Sherwood, F. Subiaul

DOCTOR OF PHILOSOPHY IN THE FIELD OF HUMAN PALEOBIOLOGY

The human paleobiology doctoral program is the graduate education and training effort of GW's Center for the Advanced Study of Human Paleobiology (<https://cashp.columbian.gwu.edu/>), which promotes interdisciplinary research on human evolution. Because fossils, artifacts, and genomes are complex and mostly indirect sources of data for testing evolutionary hypotheses, research questions in human evolutionary studies exemplify the importance of an interdisciplinary approach.

This five-year program features rigorous core training in human paleontology, archaeology, molecular biology, genomics, behavior, ecology, and statistical methods. It emphasizes problem-based learning and training and internships in how science is communicated to the public—for example, through television, news media, museums, and the internet. The first two years of the program primarily consist of coursework, a professional skills and ethics seminar, a grant-writing course focused on preparing a dissertation proposal, and practical experiences that integrate original research and coursework

from the earliest stages of graduate training. During the second and third years, students participate in two topically distinct laboratory rotations to broaden their research skills. Following the second year, students begin directed research on their doctoral dissertations while participating in a capstone seminar. Students are encouraged to submit their dissertation in a ready-to-publish format by the end of the fifth year.

There are two separate PhD programs affiliated with the Department of Anthropology, in the fields of anthropology (p. 129) and human paleobiology (p. 313). These programs have separate admissions procedures; prospective students should be sure to submit their application to the correct program.

The PhD in human paleobiology is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy program (p. 87).

72 credits.

Recommended Preparatory Courses

Code	Title	Credits
Advanced undergraduate courses in biology, including courses in evolution and any two of the following: genetics, developmental biology/embryology, anatomy, physiology, ethology, ecology, and paleontology. GW courses that correspond to these subjects are:		
BISC 2207	Genetics	
BISC 2208	Genetics Laboratory	
BISC 2214	Developmental Biology	
BISC 2332	Comparative Vertebrate Anatomy	
BISC 2450	Organic Evolution	
BISC 2451	History of Life	
BISC 2452	Animal Behavior	
BISC 2454	General Ecology	
BISC 3122	Human Physiology	

Advanced undergraduate courses in anthropology, including courses in any two of the following: osteology, human biology, paleoanthropology, primatology, and Paleolithic archaeology corresponding to:

ANTH 3832	Paleoanthropological Field Program
ANTH 3401	Human Functional Anatomy
ANTH 3402	Human Evolutionary Anatomy
ANTH 3403	Forensic Anthropology Laboratory
ANTH 3404	Human Variation
ANTH 3412	Hominin Evolution
ANTH 3411	Primatology
ANTH 3491	Topics in Biological Anthropology
ANTH 3801	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
One course in statistics corresponding to:	
STAT 1127	Statistics for the Biological Sciences
One course in mathematics, including precalculus, corresponding to:	
MATH 1220	Calculus with Precalculus I
MATH 1221	Calculus with Precalculus II

Advanced undergraduate courses in one or more of the following subjects: chemistry, biochemistry, physics, geoscience, and calculus

Doctoral Program

Code	Title	Credits
------	-------	---------

The following requirements must be fulfilled: 72 credits, including 6 to 24 credits in dissertation research.

Students complete a program of study including a minimum of 48 credits of coursework developed in consultation with the advisor prior to advancing to PhD candidacy.

Required

Foundations core (5 to 7 credits)

ANTH 6491	Topics in Biological Anthropology (Special Topics: Grant-Writing)
HOMP 6202	Lab Techniques: Paleoanthropology
HOMP 6203	Ethics and Professional Practice I

Modern and paleobiology core (12 credits)

One exemption may be allowed depending upon prior education. Program approval is required.

ANTH 6407	Anthropological Genetics
ANTH 6801	Paleolithic Archaeology
HOMP 6201	Hominid Paleobiology
In addition, one 3-credit course in animal/primate biology, behavior, or ecology such as ANTH 6404, BISC 6206, or another approved course chosen in consultation with the advisor.	
Statistical methods core (3 credits)	
ANTH 6413	Analytical Methods in Human Evolutionary Studies
or an alternative course selected in consultation with the advisor.	
Engagement and application core (9 credits)	
HOMP 8302	Public Understanding of Science Internship
HOMP 8303	Paleobiology Lab Rotation (taken twice for 3 credits for a total of 6 credits)
Electives	
The remainder of credits in coursework selected in consultation with the advisor from among various interdisciplinary courses, including but not limited to, the following:	
ANTH 3401	Human Functional Anatomy
ANTH 3408	The Evolution of Human Families
ANTH 3411	Primatology
ANTH 3413	Evolution of the Human Brain
ANTH 3801	African Roots from Australopithecus to Zimbabwe
ANTH 3802	Human Cultural Beginnings
ANTH 6406	Human Genetic Variation
ANTH 6491	Topics in Biological Anthropology
BISC 6210	Methods of Study of Evolution
BISC 6215	Vertebrate Phylogeny
BISC 6216	Morphological Systematics
BISC 6228	Population Genetics
BISC 6230	Human Genetics
BISC 6249	Seminar: Developmental Biology

BMSC 8210	Genes to Cells
GEOL 3140	Geochemistry
HOMP 6995	Independent Research
Or, any 6000-level course in ANAT, ANTH, BISC, BIOCHEM, BIOSTAT, CHEM, GEOL, HOMP, PHYS, or PSYC.	
Dissertation research (6 to 24 credits)	
HOMP 8999	Dissertation Research (6 to 24 credits)

Advanced Requirements

Students must successfully complete general comprehensive examinations, a dissertation proposal defense and examination, and a final dissertation defense and examination.

General examinations prior to PhD candidacy

General examinations, including the dissertation proposal defense, must be successfully completed before the end of the third year of the program, prior to advancing to candidacy. These comprise two written comprehensive examinations, and a dissertation proposal defense and examination.

The first comprehensive examination includes written questions that integrate comprehension across all core thematic areas (hominid paleobiology; paleolithic archaeology; anthropological genetics; and primate biology, behavior, and ecology) and tests foundational knowledge, concepts, theory, and/or methods learned in the core curriculum.

The second comprehensive examination is written in the form of an authoritative review of a chosen topic, including a history of previous relevant research, discussion of theoretical issues, and identification of outstanding questions or directions for future research.

For the dissertation proposal defense, students must prepare a research proposal that meets funding agency guidelines and successfully complete an oral defense and examination of this proposal.

After PhD candidacy

After candidacy, students proceed to completing their doctoral research plan and writing the dissertation. Successful completion of a final dissertation defense and oral examination is required to earn the PhD degree.

MASTER OF SCIENCE IN THE FIELD OF HUMAN PALEOBIOLOGY

Students enrolled in the Master of Science in Human Paleobiology program investigate the origins and evolution of humankind through interdisciplinary research using the latest instrumentation.

The STEM-designated program works in tandem with the Anthropology Department's Center for the Advanced Study of Human Paleobiology (<http://cashp.columbian.gwu.edu/>) and incorporates faculty from the GW Departments of Biological Sciences; Speech, Language and Hearing Sciences; and Anatomy and Regenerative Biology. MS students also benefit from the program's ties to the Smithsonian Institution's Human Origins Program and other research centers in the greater Washington, D.C., area.

Master's level coursework includes small-group seminars, original research in our state-of-the-art facilities and two laboratory rotations or fieldwork (<https://anthropology.columbian.gwu.edu/fieldwork/>) at institutions outside of GW.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits in a program developed in consultation with the advisor.

Code	Title	Credits
Required		
ANTH 6413	Analytical Methods in Human Evolutionary Studies	
HOMP 6202	Lab Techniques: Paleoanthropology	
HOMP 6203	Ethics and Professional Practice I	
ANTH 6801	Paleolithic Archaeology	
or HOMP 6201	Hominid Paleobiology	
ANTH 3411	Primatology	
or ANTH 6407	Anthropological Genetics	
Electives		
17 to 19 credits in elective courses. Courses should be selected in consultation with the faculty, and may include a combination of the following: independent laboratory or field-based research; a field course; relevant courses in Anatomy, Anthropology, Biological Sciences, Geography, Geology, Human Paleobiology, Psychology, and Speech, Language, and Hearing Science available at GW; and/or relevant courses from the Consortium of Universities of the Washington Metropolitan Area.		
Thesis		
HOMP 6999	Thesis Research (taken for 6 credits)	

*In order to maintain a 9-credit per semester courseload, students register for 1 to 3 credits in HOMP 6202, depending on the other courses for which they are concurrently enrolled.

INTERIOR ARCHITECTURE

OVERVIEW

The goal of the Department of Interior Architecture is to foster an environment that encourages creativity and pushes the boundaries of design with an emphasis on conceptual thinking and the design process. The studio-based curriculum, the core of the program, is where students learn to design three-dimensional space through the use of dynamic concepts, leading-edge materials, and innovative methods and techniques.

Visit the program website (<https://corcoran.gwu.edu/mfa-interior-architecture/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Fine Arts with a major in interior architecture (p. 318)

GRADUATE

Master's program

- Master of Fine Arts in the field of interior architecture (p. 319)

FACULTY

Associate Professor S. Travis (*Director*)

Assistant Professors E. Speck, N. Evans, C. Anderson, N. Volchansky

Adjunct Professors M. Abrams

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: Enrollment in interior architecture courses requires candidacy in the degree program or permission of the program director. A course fee is charged for all IA courses.

IA 1099. Variable Topics. 1-36 Credits.

IA 2100. Studio 1. 6 Credits.

Introduction to design through study and application of fundamental design principles and elements to two- and three-dimensional projects. Restricted to undergraduate IA majors.

IA 2125. Introduction to Graphic Communications. 3 Credits.

Introduction to a variety of techniques used in communicating design ideas; image creation, logo design and branding, rendering, basic layouts, modeling, printed and digital presentation skills.

IA 2150. Beginning Sketching for Designers. 3 Credits.

Freehand sketching developed and applied as a tool in all phases of the creative design process.

IA 3200. Studio 2. 6 Credits.

All phases of design, from development of a concept through producing a complete presentation; implementing the different aspects of the design process. Restricted to undergraduate IA majors. Prerequisite: IA 2100.

IA 3225. Understanding Materials and Color. 3 Credits.

The visual perception and interaction of color; interior and exterior materials for use in residential and commercial environments.

IA 3250. Introductory Digital Design Tools. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting, and enhancement of presentations; using CAD for the production of construction drawings. Restricted to undergraduate IA majors.

IA 3300. Studio 3. 6 Credits.

Studio course emphasizing continued refinement of the design process as applied to multifaceted and complex problems in non-residential space. Restricted to undergraduate IA majors. Prerequisite: IA 3200.

IA 3325. Concepts in Modern Architecture. 3 Credits.

Introduction to the history and concepts of architecture, interiors, and furniture, from the Bauhaus movement to the present. Emphasis on creative thinking and cross-cultural perspectives. Credit cannot be earned for this course and CIAR 3325.

IA 3350. Basic Sustainability Design Strategies. 3 Credits.

Introduction to sustainable design and to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) Rating Systems for Interior Design and Construction.

IA 4400. Studio 4. 6 Credits.

Continuation and refinement of the design process to further advance conceptual thinking for development of larger-scale and more complex design problems. Restricted to undergraduate IA majors. Prerequisite: IA 3300.

IA 4425. Fundamentals of Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to undergraduate IA majors.

IA 4450W. Pre-Design for Studio 5. 3 Credits.

Research methodology applied to development of the senior project. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors. Prerequisite: IA 4300.

IA 4500. Studio 5. 6 Credits.

Culmination of skills and knowledge gained through the program as demonstrated by the development of an interior design project covering all aspects from conception through presentation. Restricted to undergraduate IA majors. Prerequisite: IA 4400.

IA 4525W. Professional Practice and Internship. 3 Credits.

Industry professionals provide students with guidance concerning the roles and responsibilities of the professional interior designer; written business procedures and practices, legal implications, ethics, trade relations, and designer-client relations. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to undergraduate IA majors.

IA 4550. Building Systems: Methods and Processes. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; building systems (mechanical, electrical, plumbing) relevant to function and design of interior spaces. Restricted to undergraduate IA majors.

IA 4560. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details.

IA 4570. Independent Study. 1-3 Credits.

Independent research and special projects. Students must submit a written plan of study and obtain approval of the faculty member directing the study prior to enrollment. Restricted to junior and senior IA majors.

IA 6100. Studio 1 Graduate. 6 Credits.

Introduction to the theory and application of design principles and elements in the built environment and to two- and three-dimensional projects; understanding the design process while adhering to a concept or parti. Restricted to graduate IA majors.

IA 6125. Graphic Communications. 3 Credits.

Concepts and techniques used successfully in communicating design; graphic design principles, including hierarchy, emphasis, balance, rhythm and contrast, tools used in creating two-dimensional communication ideas; image creation, logo design and branding, rendering, basic layouts, three-dimensional modeling, printed and digital presentation skills.

IA 6150. Sketching Architecture and Design. 3 Credits.

Three-dimensional mechanical drafting and free-hand sketching developed and applied as a tool in all phases of the creative design process; using line value, 2D and 3D representation of the built environment.

IA 6200. Studio 2 Graduate. 6 Credits.

Application of fundamental knowledge of design to complex three-dimensional projects and small scale interior projects. Restricted to graduate IA majors. Prerequisite: IA 6100.

IA 6225. Interior Materials and Color Theory. 3 Credits.

Visual perception and interaction of color; interior and exterior materials for residential and commercial environments; interior building methods and materials as they relate to interior build-outs, furniture grade materials, and construction; materials qualities, strengths, weaknesses, and appropriate usage.

IA 6250. Digital Drafting and Modeling. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Restricted to graduate IA majors.

IA 6300. Studio 3 Graduate. 6 Credits.

Continued exploration of the design process as applied to medium scale projects. Restricted to graduate IA majors. Prerequisite: IA 6200.

IA 6325. Case Studies: Bauhaus to Bilbao. 3 Credits.

Modern and contemporary architectural ideas and concepts explored through key buildings and interiors of the twentieth and twenty-first centuries; focus on modernist works in Washington, DC. Credit cannot be earned for this course and CIAR 6325.

IA 6350. Sustainability and the Built Environment. 3 Credits.

The application of sustainable design; introduction to the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED) rating system, the Living Building Challenge, and the WELL Building Standard.

IA 6400. Studio 4 Graduate. 6 Credits.

Continued refinement of the design process to further advance conceptual thinking for development of larger-scaled and more complex design problems. Restricted to graduate IA majors. Prerequisite: IA 6300.

IA 6425. Lighting and Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Restricted to graduate IA majors.

IA 6450. Research Seminar for Studio 5. 3 Credits.

Students synthesize knowledge and define an area of interest that is well established or newly emerging within the discipline in preparation for the capstone project in Studio 5. Restricted to graduate IA majors. Prerequisite: IA 6300.

IA 6500. Studio 5 Graduate. 6 Credits.

Students create and design an individual capstone interior design project that meets the learning objectives, accreditation standards, and requirements of the program. Restricted to graduate IA majors. Prerequisite: IA 6400.

IA 6525. Practicum and Internship. 3 Credits.

Students work with professional interior designers, architects, or industry-related professionals participating in a project based setting. Roles and responsibilities of the professional interior designer; business procedures, legal-implications, ethics, trade relations, and designer-client-contractor relations. Restricted to graduate IA majors. Prerequisite: IA 6400.

IA 6550. Structures and Building Systems. 3 Credits.

Organization and preparation of construction documents; methods and materials; application of codes; mechanical, electrical, and plumbing building systems as related to function and design of interior spaces. Restricted to graduate IA majors.

IA 6560. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

BACHELOR OF FINE ARTS WITH A MAJOR IN INTERIOR ARCHITECTURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

60 credits in program-specific coursework.

Code	Title	Credits
Sophomore year		
Spring semester		
CIAR 2100	Studio 1	
CIAR 2125	Introduction to Graphic Communications	
CIAR 2150	Beginning Sketching for Designers	
Junior year		
Fall semester		
CIAR 3200	Studio 2	
CIAR 3225	Understanding Materials and Color	
CIAR 3250	Introductory Digital Design Tools	

Spring semester

CIAR 3300	Studio 3
CIAR 3325	Concepts in Modern Architecture
CIAR 3350	Basic Sustainability Design Strategies

Senior year

Fall semester	
CIAR 4400	Studio 4
CIAR 4425	Fundamentals of Lighting and Acoustics
CIAR 4450W	Pre-Design for Studio 5
Spring semester	
CIAR 4500	Studio 5
CIAR 4525W	Professional Practice and Internship
CIAR 4550	Building Systems: Methods and Processes

Additional coursework

9 credits in art or design courses.

9 credits in art, architecture, or design history courses; 3 of these credits may be from IA program short-term summer study abroad.**

Internship requirement *

All students are required to complete a 120-hour internship as part of CIAR 4525 Professional Practice and Internship. The student's work in the internship counts toward the final grade in the course.

Optional courses

**CIAR 4560 Special Topics: Reserved for enrollment in IA program short-term summer study abroad.

CIAR 4570 Independent Study: Advanced research proposed by the student, whose proposal must be accepted by the faculty.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

MASTER OF FINE ARTS IN THE FIELD OF INTERIOR ARCHITECTURE

Students in the MFA program in the field of Interior architecture learn about habitable environments ranging from small, basic residential interiors to larger, more complex commercial and institutional spaces. With projects focusing on current design issues as well as lectures and visits from professionals to enhance assignments, the curriculum is a carefully sequenced series of courses building on theoretical, technical, and creative competencies.

Because of the program's location in Washington DC, students benefit from viewing exhibitions at the National Building Museum, pursuing research at the Library of Congress, attending trade shows such as NeoCon East, attending lectures offered by the Washington Design Center, and visiting organizations such as the United States Green Building Council. Taking advantage of these offerings moves learning outside the classroom and into the industry with practicing professionals in interior design.

The program is for candidates who have completed undergraduate work at an accredited institution in an area of study other than interior design or a related field, such as architecture. Students explore theory and research as they build toward a culminating final project.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

60 credits in required courses and a 120-hour internship.

Spring semester	
CIAR 6500	Studio 5 Graduate
CIAR 6525	Practicum and Internship
CIAR 6550	Structures and Building Systems
Internship requirement	

All students are required to complete a 120-hour internship. Students must be enrolled in the first semester of the program before the internship begins, and it must be completed before the end of their final semester. The internship is a part CIAR 6525 and counts toward the final grade in the course.

Visit the program website (<https://corcoran.gwu.edu/mfa-interior-architecture/>) for additional information.

JUDAIC STUDIES

At the undergraduate level, the Department of Judaic Studies offers the bachelor of arts with a major in Judaic Studies. The purview of the program extends from the ancient Near East to modern-day America, and showcases and interprets the artistic expression, history, languages, literatures, philosophy, politics, and religion of the Jews over time and place. A minor in the field is also offered.

At the graduate level, students may opt for the master of arts in the field of Jewish cultural arts or master of arts in the field of experiential education and Jewish cultural arts.

Visit the Department of Judaic Studies website (<https://judaic.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in Judaic studies (p. 321)

Minor

- Minor in Judaic studies (p. 323)

GRADUATE

Master's program

- Master of Arts in Education and Human Development in the field of experiential Jewish education (p. 647)

Certificate program

- Graduate certificate in Jewish cultural arts (p. 322)

FACULTY

Committee on Judaic Studies A. Agresta, E. Brown, N. Brown, C. Chiswick, E. Cline, A. Dubnov (*Director*), R. Eisen, B. Jacobs, J. Weissman Joselit, W. Reich, J. Richter, C. Rollston, D. Schwartz, O. Zakai

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

A full list of courses for the Judaic Studies Program may be found on the Judaic Studies website and under the designations of CLAS, ENGL, HEBR, HONR, HIST and REL.

JSTD 1099. Variable Topics. 1-36 Credits.

JSTD 2001. Topics in Judaic Studies: Pre-modern. 3 Credits.

Focus on the pre-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 2002. Topics in Judaic Studies: Modern. 3 Credits.

Focus on the post-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 2060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the seventeenth century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community. Same As: HIST 2060.

JSTD 2812. History of Zionism. 3 Credits.

Critical historical survey of the development of Jewish nationalist thought in general and Zionism in particular, from its genesis in the 1880s up until the establishment of the State of Israel in May 1948. Same As: HIST 2812.

JSTD 3099. Variable Topics. 1-12 Credits.

JSTD 4018. Senior Thesis. 1 Credit.

For Judaic studies majors. Students choose a topic in any major subfield of Judaic studies, select a faculty advisor who specializes in the subfield, conduct research, and produce an annotated bibliography and a proposal that previews the main arguments of the thesis.

JSTD 4019. Senior Thesis. 3 Credits.

Continuation of JSTD 4018. For Judaic studies majors. Completion of the thesis and oral presentation before Judaic studies students and faculty.

JSTD 5099. Variable Topics. 1-99 Credits.

JSTD 6001. Topics in Judaic Studies. 3 Credits.

JSTD 6097. Independent Readings/Research. 1-3 Credits.

Written permission of the instructor required prior to enrollment. May be repeated for credit with permission.

JSTD 6154. Internship. 1-6 Credits.

Elective internship in areas related to Jewish cultural study.

JSTD 6201. Jewish Life in Contemporary America. 3 Credits.

JSTD 6211. Displaying Jewish Culture: Landmark Exhibitions on Judaism and the Jewish Experience. 3 Credits.

JSTD 6298. Capstone Seminar in Jewish Cultural Arts. 3 Credits.

The culminating experience for graduate students in the Jewish Cultural Arts program, the capstone synthesizes the skills and knowledge gained in the course of the degree program. Students conceptualize, develop, and execute a public cultural event of their own devising. Taken in the final spring semester of the student's program.

BACHELOR OF ARTS WITH A MAJOR IN JUDAIC STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Foreign language requirement		
Two semesters of study in a single foreign language (or the equivalent)		
Code	Title	Credits
Required		
REL 2201	Judaism	
HIST 2050	History of Jewish Civilization: From the Bible to Spinoza	
JSTD 4019	Senior Thesis	
One course (3 credits) from the following:		
ANTH 3805	Archaeology of Israel and Neighboring Lands	
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.	
CLAS 2804	History of Ancient Israel	
HIST 2051	Antisemitism from Origins to the Present	
HIST 2116	Muslims, Christians, and Jews in Medieval Spain	
JSTD 2001	Topics in Judaic Studies: Pre-modern	
REL 1009	The Hebrew Scriptures	
REL 2211	Rabbinic Thought and Literature	
REL 3923	Violence and Peace in Judaism, Christianity, and Islam	
One course (3 credits) from the following:		
HEBR 3101	Modern Hebrew Literary Classics in Translation	
HEBR 3301	Modern Hebrew Fiction	
HEBR 3302	The Israeli Media	
HIST 2060	Modern Jewish History	
HIST 2061	Ghetto: History of a Concept	
HIST 2812	History of Zionism	
HIST 3061	The Holocaust	
HIST 3062	War Crimes Trials	
HIST 3367	The American Jewish Experience	

JSTD 2002	Topics in Judaic Studies: Modern
PSC 2379	Politics and Foreign Policy of Israel
PSC 2476	The Arab-Israeli Conflict
or PSC 2476W	The Arab-Israeli Conflict
REL 3291	Modern Jewish Thought

Five additional courses (15 credits) from the two lists above.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one

course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Judaic Studies, a candidate must attain a GPA of at least 3.7 in courses counted toward the major in Judaic Studies and 3.3 overall, and earn a grade of A both for JSTD 4018 Senior Thesis–JSTD 4019 Senior Thesis and for the senior thesis. Having fulfilled these requirements, the student may be recommended for graduation with Special Honors.

GRADUATE CERTIFICATE IN JEWISH CULTURAL ARTS

This program, a response to the growing prominence of art and culture within the contemporary Jewish community, offers both emerging and seasoned professionals an opportunity to deepen their understanding of Jewish cultural expression and its relationship to community building and civic engagement. Students are exposed to a wide range of issues and institutions as well as to leaders in the fields of Jewish cultural arts and experiential education and emerge from their training with the skills necessary to be an effective advocate for and proponent of the arts.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits

Code	Title	Credits
------	-------	---------

Required

Four courses from the following:

EDUC 6803	Introduction to Experiential Jewish Education
HIST 6001	Special Topics (Contemporary Jewish Life)
or JSTD 6001	Topics in Judaic Studies
HIST 6001	Special Topics (Multiple Lives: The Fate(s) of Jewish Cultural Expression)
or JSTD 6001	Topics in Judaic Studies
HIST 6001	Special Topics (Displaying Jewish Culture)
or JSTD 6001	Topics in Judaic Studies
HIST 6001	Special Topics (Soundscapes: The Sonic Turn in Jewish History and Culture)
or JSTD 6001	Topics in Judaic Studies

MINOR IN JUDAIC STUDIES

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
Required		
HIST 2050	History of Jewish Civilization: From the Bible to Spinoza	
or REL 2201	Judaism	
Electives		
Five of the following:		
ANTH 3805	Archaeology of Israel and Neighboring Lands	
CLAS 2803	The Ancient Near East and Egypt to 322 B.C.	
CLAS 2804	History of Ancient Israel	
ENGL 3970	Jewish American Literature	
HEBR 3101	Modern Hebrew Literary Classics in Translation	
HEBR 3301	Modern Hebrew Fiction	
HEBR 3302	The Israeli Media	

HIST 2050	History of Jewish Civilization: From the Bible to Spinoza
HIST 2051	Antisemitism from Origins to the Present
HIST 2060	Modern Jewish History
HIST 2061	Ghetto: History of a Concept
HIST 2116	Muslims, Christians, and Jews in Medieval Spain
HIST 3061	The Holocaust
HIST 3062	War Crimes Trials
HIST 3367	The American Jewish Experience
HIST 3820	History of Israel
JSTD 2001	Topics in Judaic Studies: Pre-modern
JSTD 2002	Topics in Judaic Studies: Modern
PSC 2379	Politics and Foreign Policy of Israel
PSC 2476	The Arab-Israeli Conflict
PSC 2476W	The Arab-Israeli Conflict
REL 1009	The Hebrew Scriptures
REL 2201	Judaism
REL 2211	Rabbinic Thought and Literature
REL 3221	Issues in Jewish Ethics
REL 3291	Modern Jewish Thought
REL 3923	Violence and Peace in Judaism, Christianity, and Islam

MATHEMATICS

The Department of Mathematics, part of the natural and mathematical sciences discipline in the Columbian College of Arts and Sciences, offers the bachelor of arts in mathematics and bachelor of science in mathematics degrees. The undergraduate mathematics major has three concentrations: pure, applied, and interdisciplinary. Each concentration is designed to give students a solid background in the theory and practice of modern mathematics. A minor in mathematics is also available to undergraduate students.

At the graduate level, the department offers the master of arts in mathematics, master of science in applied mathematics, and doctor of philosophy in the field of mathematics. Course offerings are complemented by a generous selection of research seminars and by the department colloquium series. Faculty expertise covers a wide range of research specialties,

allowing students to choose from a rich array of potential dissertation areas.

In addition, graduate certificates in mathematics and in financial mathematics are offered for those who seek to strengthen their mathematical backgrounds in order to better position themselves in their careers or to prepare themselves for graduate work in quantitative disciplines.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in mathematics (p. 329)
- Bachelor of Science with a major in mathematics (p. 331)

Minor

- Minor in mathematics (p. 336)

GRADUATE

Master's programs

- Master of Arts in the field of mathematics (p. 334)
- Master of Science in the field of applied mathematics (p. 335)

Doctoral program

- Doctor of Philosophy in the field of mathematics (p. 332)

CERTIFICATE

Certificate programs

- Graduate certificate in financial mathematics (p. 333)
- Graduate certificate in mathematics (p. 334)

FACULTY

Professors F.E. Baginski (Chair), J. Bonin, M.M. Gupta, V. Harizanov, H.D. Junghenn, J.H. Przytycki, X. Ren, E.A. Robinson, D.H. Ullman

Associate Professors M. Alekseyev, M. Moses, H. Wu

Assistant Professors J. Lewis, L. Kao, Y. Zhao

Teaching Assistant Professor G. Daigle

Visiting Assistant Professor X. Wan

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: MATH 1220 Calculus with Precalculus I and MATH 1221 Calculus with Precalculus II each cover one-half the material of MATH 1231 Single-Variable Calculus I. Because MATH 1221 Calculus with Precalculus II, MATH 1231 Single-Variable Calculus I, and MATH 1252 Calculus for the Social and Management Sciences are related in their subject matter, credit for only one of the three may be applied toward a degree. The placement exam (<http://math.columbian.gwu.edu/gw-mathematics-placement-test/>) is the only option for placing into Math 1051, 1220, 1231, or 1252. Students with appropriate backgrounds may be admitted to any other course in the department by permission of the instructor in lieu of the listed prerequisites.

MATH 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

MATH 1007. Mathematics and Politics. 3 Credits.

A mathematical treatment of fair representation, voting systems, power, and conflict; impossibility theorems of Balinski and Young and of Arrow; the electoral college; the prisoner's dilemma.

MATH 1008. History of Mathematics. 3 Credits.

The history of mathematics, with emphasis on its importance in the evolution of human thought. Students learn some useful mathematics from areas such as geometry, number theory, and probability and develop an appreciation of the mathematical endeavor.

MATH 1009. Mathematical Ideas I. 3 Credits.

Elementary mathematical models of growth and decay, scaling, chaos, and fractals.

MATH 1010. Mathematical Ideas II. 3 Credits.

Continuation of MATH 1009. Elementary graph theory, scheduling, probability theory.

MATH 1051. Finite Mathematics for the Social and Management Sciences. 3 Credits.

Systems of linear equations, matrix algebra, linear programming, probability theory, and mathematics of finance. Restricted to students with a minimum score of 61 on the ALEKS placement examination.

MATH 1099. Variable Topics. 1-36 Credits.**MATH 1220. Calculus with Precalculus I. 3 Credits.**

An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisites: students with a minimum score of 61 on the ALEKS placement examination.

MATH 1221. Calculus with Precalculus II. 3 Credits.

Continuation of MATH 1220. An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisite: MATH 1220.

MATH 1231. Single-Variable Calculus I. 3 Credits.

Limits and continuity; differentiation and integration of algebraic and trigonometric functions with applications. Restricted to students with a minimum score of 76 on the ALEKS placement examination.

MATH 1232. Single-Variable Calculus II. 3 Credits.

The calculus of exponential and logarithmic functions. L'Hopital's rule. Techniques of integration. Infinite series and Taylor series. Polar coordinates. Prerequisite: MATH 1221 or MATH 1231.

MATH 1252. Calculus for the Social and Management Sciences. 3 Credits.

Differential and integral calculus of functions of one variable; applications to business and economics. Students who might wish to take MATH 1232 should take one of its prerequisites, MATH 1221 or MATH 1231, instead of this course. Prerequisites: A minimum test score of 61 on the ALEKS placement examination.

MATH 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small, seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. See department for more details.

MATH 2020. Joint Math and Physics Seminar. 1 Credit.**MATH 2184. Linear Algebra I. 3 Credits.**

Linear equations, matrices, inverses, and determinants. Vector spaces, rank, eigenvalues, and diagonalization. Applications to geometry and ordinary differential equations. Credit cannot be earned for both MATH 2184 and MATH 2185. Prerequisites: MATH 1221 or MATH 1231 or MATH 1252; or permission of the instructor.

MATH 2185. Linear Algebra I for Math Majors. 3 Credits.

For current or prospective math majors. Introduction to theory and computations involving linear equations, matrices, inverses, determinants, vector spaces, rank, eigenvalues, diagonalization, inner products, norms, and orthogonality. Credit may not be earned for both MATH 2185 and MATH 2184. MATH 2971 or MATH 2971W may be taken as a corequisite. Prerequisites: MATH 1221 or MATH 1231; and MATH 2971 or MATH 2971W.

MATH 2233. Multivariable Calculus. 3 Credits.

Partial derivatives and multiple integrals. Vector-valued functions. Line and surface integrals and the theorems of Gauss, Green, and Stokes. Prerequisite: MATH 1232.

MATH 2971. Introduction to Mathematical Reasoning. 3 Credits.

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. MATH 1232 may be taken as a corequisite. Prerequisites: MATH 1232 or permission of the department undergraduate advisor.

MATH 2971W. Introduction to Mathematical Reasoning. 3 Credits.

Introduction to the fundamental abstract concepts of modern mathematics; various proof techniques demonstrated using examples from discrete and continuous mathematics. Math 1232 may be taken concurrently; permission of instructor or the departmental undergraduate advisor may substituted for the prerequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MATH 1232.

MATH 2991. Introductory Special Topics. 1-3 Credits.

Permission of the instructor required prior to enrollment. May be repeated for credit.

MATH 3099. Variable Topics. 1-12 Credits.**MATH 3120. Elementary Number Theory. 3 Credits.**

Divisibility of integers, prime numbers, greatest common divisor, the Euclidean algorithm, congruence, the Chinese remainder theorem, number theoretic functions, Möbius inversion, Euler's phi function, and applications to cryptography and primality testing. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3125. Linear Algebra II. 3 Credits.

Advanced topics in linear algebra; duality of vector spaces, normal and self-adjoint operators, the singular value decomposition theorem, the spectral theorem, bilinear and quadratic forms, the geometry of orthogonal operators, the Jordan canonical form, and minimal polynomials. Prerequisites: MATH 2971 or MATH 2971W and MATH 2185.

MATH 3257. Introduction to Complex Variables. 3 Credits.

Analytic functions and power series; contour integration and the calculus of residues; conformal mapping; physical applications. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

MATH 3342. Ordinary Differential Equations. 3 Credits.

A first course in ordinary differential equations, with an emphasis on mathematical modeling: solution curves, direction fields, existence and uniqueness, approximate solutions, first-order and second-order linear equations, linear systems, and phase portraits. Prerequisites: MATH 2233; MATH 2184 or MATH 2185.

MATH 3343. Partial Differential Equations. 3 Credits.

A first course in partial differential equations. Fourier series and separation of variables, vibrations of a string, Sturm–Liouville problems, series solutions, Bessel’s equation, linear partial differential equations, wave and heat equations. Prerequisite: MATH 3342.

MATH 3359. Introduction to Mathematical Modeling. 3 Credits.

Introduction to the fundamental modeling ideas of dimensional analysis, scaling, and elementary approximations of curves and functions; applications to development of models from science and engineering. Prerequisites: CSCI 1011 or CSCI 1012 or CSCI 1041 or CSCI 1111 or CSCI 1121 or CSCI 1131; and MATH 3342.

MATH 3410. Mathematics of Finance. 3 Credits.

Mathematical development and analysis of realistic models for financial option pricing; mathematical underpinnings and financial concepts. Prerequisite: MATH 2233.

MATH 3411. Stochastic Calculus Methods in Finance. 3 Credits.

Review of probability theory, Brownian motion, Ito integrals, Ito’s formula, martingales, stochastic differential equations, boundary value problems, the Dirichlet problem, the Black–Scholes equation, optimal stopping, and American options. Prerequisites: MATH 2184 or MATH 2185; and MATH 3410; or permission of the instructor.

MATH 3553. Introduction to Numerical Analysis. 3 Credits.

Accuracy and precision; linear systems and matrices; direct and iterative methods for solution of linear equations; sparse matrices; solution of nonlinear equations. Interpolation and approximate representation of functions, splines. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233; and CSCI 1011 or CSCI 1012 or CSCI 1041 or CSCI 1111 or CSCI 1121 or CSCI 1131.

MATH 3613. Introduction to Combinatorics. 3 Credits.

Introduction to combinatorial enumeration; basic counting techniques, inclusion–exclusion principle, recurrence relations, generating functions, pigeonhole principle, bijective correspondences. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3632. Introduction to Graph Theory. 3 Credits.

Fundamental concepts, techniques, and results of graph theory; connectivity, traversability, matchings, coverings, colorability, planarity, networks, and Polya enumeration. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3710. Introduction to Mathematical Logic. 3 Credits.

Symbolic logic as a precise formalization of deductive thought; logical correctness of reasoning; formal languages, interpretations, and truth; propositional logic and first-order quantifier logic suited to deductions encountered in mathematics; Goedel’s completeness theorem; compactness. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3720. Axiomatic Set Theory. 3 Credits.

Cantor’s theory of sets. Russell’s paradox. Axiomatization of set theory as a framework for a contradiction-free mathematics. The Zermelo–Fraenkel axioms and the axiom of choice. Finite, countable, and uncountable sets; ordinal and cardinal arithmetic. The continuum hypothesis. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

MATH 3730. Computability Theory. 3 Credits.

The unlimited register machine as a model of an idealized computer. Computable and partial computable functions; Church–Turing thesis. Kleene’s recursion theorem. Algorithmic enumerability. Unsolvability of the halting problem and other theoretical limitations on what computers can do. Discussion of Goedel’s incompleteness theorem. Prerequisites: MATH 2971 or MATH 2971W or permission of instructor.

MATH 3740. Computational Complexity. 3 Credits.

Automata and languages; deterministic and nondeterministic Turing machines; space and time complexity measures and classes; P-versus-NP problem; traveling salesman problem and other NP-complete problems; intractability; circuit complexity; introduction to probabilistic and quantum algorithms. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3806. Introduction to Topology. 3 Credits.

Metric spaces: completeness, compactness, continuity; Topological spaces: continuity, bases, subbases, separation axioms, compactness, local compactness, connectedness, product and quotient spaces. Prerequisites: MATH 2971 or MATH 2971W.

MATH 3848. Differential Geometry. 3 Credits.

Curves in space, regular surfaces, tensors, fundamental forms of a surface, Gauss–Bonnet theory, minimal surfaces; the geometry of the Gauss map. Prerequisites: MATH 2184 or MATH 2185; MATH 2233; and MATH 2971 or MATH 2971W.

MATH 4121. Introduction to Abstract Algebra I. 3 Credits.

Study of groups and associated concepts, including Lagrange’s theorem, Cayley’s theorem, the fundamental theorem of homomorphisms, and applications to counting. Prerequisites: MATH 2184 or MATH 2185; and MATH 2971 or MATH 2971W.

MATH 4122. Introduction to Abstract Algebra II. 3 Credits.

Study of rings, through maximal and prime ideals, and the study of fields, through Galois theory. Prerequisites: MATH 4121 or permission of the instructor.

MATH 4239. Real Analysis I. 3 Credits.

Rigorous study of differentiation, integration, and convergence; sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Prerequisites: MATH 1232 and MATH 2971 or MATH 2971W or permission of instructor. Same As: MATH 6201.

MATH 4239W. Real Analysis I. 3 Credits.

A rigorous study of differentiation, integration, and convergence. Topics include sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MATH 1232; and MATH 2971 or MATH 2971W. Same As: MATH 4239, MATH 6201.

MATH 4240. Real Analysis II. 3 Credits.

Continuation of MATH 4239. Topology of n -dimensional space, derivatives of functions of several variables, inverse and implicit function theorems, multiple integrals, generalized Stokes's theorem. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233; and MATH 4239 or MATH 4239W. Credit cannot be earned for this course and MATH 6202.

MATH 4981. Seminar: Topics in Mathematics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details. Prerequisites: MATH 2184 or MATH 2185; and MATH 2233.

MATH 4991. Special Topics. 1-12 Credits.

Permission of the instructor required prior to enrollment. May be repeated for credit.

MATH 4995. Reading and Research. 1-6 Credits.

Under the personal direction of an instructor. Limited to majors with demonstrated capability. May be repeated for credit. Restricted to permission from instructor.

MATH 5099. Variable Topics. 1-99 Credits.**MATH 6101. Algebra I. 3 Credits.**

Group theory including symmetric groups, free abelian groups, finitely generated abelian groups, group actions, Sylow theorems, solvable groups. Ring theory including factorization in commutative rings, rings of polynomials, chain conditions.

MATH 6102. Algebra II. 3 Credits.

Continuation of MATH 6101. Theory of modules, including modules over a principal ideal domain and tensor product of modules. Theory of fields, including finite fields and Galois theory.

MATH 6120. Topics in Algebra. 3 Credits.

Topics may include, but are not limited to, Lie groups and Lie algebras, non-associative algebras, abelian groups, classical groups, algebraic number theory, representation theory, algebraic geometry, and ring theory. May be repeated for credit with permission. Prerequisites: MATH 6101 and MATH 6102.

MATH 6201. Real Analysis I. 3 Credits.

A rigorous study of the real number system, metric spaces, topological spaces, product topology, convergence, continuity and differentiation. Topics include Dedekind's cuts, Tychonoff's theorem, sequences and series, Abel's theorem, continuity and differentiability of real-valued functions of a real variable. Credit may not be earned for both MATH 6201 and MATH 4239.

MATH 6202. Real Analysis II. 3 Credits.

Continuation of MATH 6201. Topics include Riemann-Stieltjes integrals, equicontinuity, Arzela-Ascoli theorem, Stone-Weierstrass theorem, derivatives of functions of several variables, contraction mapping theorem, inverse and implicit function theorems, differential forms, exterior differentiation, Stoke's theorem, differentiable manifolds. Credit may not be earned for both MATH 6202 and MATH 4240.

MATH 6214. Measure and Integration Theory. 3 Credits.

Lebesgue measure and integration in abstract spaces. Probability measures. Absolute continuity, the Radon-Nikodym theorem, measures on product spaces, and the Fubini theorem. L^p spaces and their properties. Prerequisite: MATH 4239.

MATH 6215. Introduction to Functional Analysis. 3 Credits.

Topological and metric spaces; Tychonoff theorem; Banach spaces; linear functionals and operators; Hahn-Banach, closed graph, and open-mapping theorems; uniform boundedness; Hilbert spaces; eigenvalues, projections. Prerequisite: MATH 6214.

MATH 6225. Ergodic Theory. 3 Credits.

Ergodicity, mixing, the K-property and the Bernoulli property. Poincaré recurrence, the Rohlin lemma, the ergodic theorem, and entropy theory. Additional topics from isomorphism theory, spectral theory, the theory of joinings, and coding theory. Prerequisites: MATH 6214 or permission of the instructor.

MATH 6226. Dynamical Systems and Chaos. 3 Credits.

Linear and nonlinear systems, flows, Poincaré maps, structural stability. Examples of chaotic systems in the physical sciences. Local bifurcations, center manifold theory, normal forms, the averaging theorem. Hyperbolic invariant sets, strange attractors, the Smale horseshoe, symbolic dynamics. Prerequisites: MATH 2184 and MATH 4240; or permission of the instructor.

MATH 6230. Complex Analysis. 3 Credits.

Topology of the complex plane; complex differentiation and integration; Cauchy's theorem and its consequences; Taylor and Laurent series; classification of singularities; residue theory; conformal mapping; the Riemann mapping theorem. Prerequisite: MATH 4239.

MATH 6240. Topics in Real and Functional Analysis. 3 Credits.

Possible topics include Banach algebras, function algebras, spectral theory for bounded and unbounded operators, harmonic analysis on topological groups and semigroups, topological vector spaces and operator algebras. May be repeated for credit with permission. Prerequisites: Permission of the instructor.

MATH 6318. Applied Mathematics I. 3 Credits.

Boundary value problems in one dimension, first order equations, method of characteristics, shock waves, linear elliptic and evolution equations, calculus of variations. In addition to the specified prerequisites, students must have completed an undergraduate course in differential equations prior to enrollment. Prerequisites: MATH 2184 and Math 2233.

MATH 6319. Applied Mathematics II. 3 Credits.

Stability and bifurcation, perturbation methods, Sobolev spaces, wave equation, nonlinear partial differential equations. Students must have taken an undergraduate course in real analysis in addition to the specified prerequisites. Prerequisites: MATH 2184 and Math 2233.

MATH 6330. Ordinary Differential Equations. 3 Credits.

Existence and uniqueness of solutions, continuity and differentiability of solutions with respect to initial conditions. Properties of linear systems, phase portraits, planar systems and Poincaré-Bendixson theory. Prerequisite: MATH 4240.

MATH 6340. Modern Partial Differential Equations. 3 Credits.

Emphasis on modern theory and analytical techniques applied to the solution of partial differential equations. Topics include Sobolev spaces, generalized solutions, strong solutions and regularity; Sobolev imbedding theorem; Rellich-Kondrachov theorem; Leray-Schauder fixed-point theorems; nonlinear eigenvalue problems. Prerequisites: MATH 6319 or permission of the instructor.

MATH 6350. Topics in Applied Mathematics. 3 Credits.

Possible topics include, but are not limited to, the calculus of variations, control theory, nonlinear partial differential equations, and mathematical programming. May be repeated for credit with permission.

MATH 6441. Introduction to Financial Mathematics. 3 Credits.

Elementary finance. Basic probability. Discrete random variables. Forwards, futures, and options. Options and arbitrage. The binomial model. Cox-Ross- Rubenstein formula. Martingales. Continuous random variables. The continuous model as a limit of the binomial model. Prerequisites: MATH 2184 and MATH 2233.

MATH 6442. Stochastic Calculus Methods in Finance. 3 Credits.

Review of finance and probability theory. Brownian motion. Ito's formula. Martingales. Stochastic differential equations. The Black-Scholes equation. Optimal stopping. American options. Prerequisites: MATH 2184 and MATH 2233.

MATH 6522. Introduction to Numerical Analysis. 3 Credits.

Computer arithmetic and round-off errors. Solution of linear and nonlinear systems. Interpolation and approximations. Numerical differentiation and integration. Eigenvalues and eigenvectors. Prerequisite: MATH 1232 and MATH 2184 and knowledge of a programming language.

MATH 6523. Numerical Solution of Ordinary and Partial Differential Equations. 3 Credits.

Initial and boundary value problems for ordinary differential equations. Error propagation, convergence and stability. Finite difference and finite element methods for partial differential equations. Prerequisite: MATH 3342 and knowledge of a programming language.

MATH 6540. Topics in Numerical Analysis. 3 Credits.

Numerical methods and software. Introductions to the methods, tools, and ideas of numerical computation. Problem solving using standard mathematical software. Interpolation; linear and nonlinear equations. Differential equations. Prerequisites: MATH 3342 and knowledge of a programming language.

MATH 6610. Combinatorics. 3 Credits.

An introduction to fundamental methods and current research problems in partially ordered sets and enumeration. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

MATH 6620. Graph Theory. 3 Credits.

Graphical enumeration, factors, planarity and graph coloring, algebraic graph theory, extremal graph theory, applications. Prerequisites: Undergraduate modern algebra and linear algebra or permission of the instructor.

MATH 6630. Topics in Combinatorial Mathematics. 3 Credits.

Topics selected from a wide range of research subjects in combinatorics, its relations with other areas of mathematics, and applications. Recent selections have included matroid theory, topological methods in ordered sets, algebraic methods in combinatorics, fractional graph theory, combinatorics of polytopes, the symmetric group. May be repeated for credit with permission.

MATH 6710. Mathematical Logic. 3 Credits.

Model theory: the relation between a formal language (syntax) and its interpretations (semantics). Consistency, completeness, and compactness. Tarski's theorem on the inexpressibility of truth. Godel's incompleteness theorem and its impact on mathematics.

MATH 6720. Topics in Logic. 3 Credits.

Topics selected from a broad spectrum of areas of logic and applications, based on students' suggestions and interests. Recent selections have included computable mathematics, computable model theory, computability theory, set theory, and algorithmic learning theory. May be repeated for credit with permission.

MATH 6810. General Topology. 3 Credits.

Topological spaces, bases and subbases, open sets and closed sets; continuous maps and homeomorphisms; connectedness and compactness; metric topology, product topology, and quotient topology; separation axioms; finite topological spaces, covering spaces, and fundamental groups.

MATH 6820. Algebraic Topology. 3 Credits.

Fundamental groups and the Van Kampen theorem; simplicial complexes, simplicial homology, and Euler characteristic; singular homology, Mayer-Vietoris sequences. Topics may include cohomology, cup products, and Poincaré duality; classification of surfaces; knots and their fundamental groups. Prerequisites: MATH 6810 or permission of the instructor.

MATH 6850. Knot Theory and Low Dimensional Topology. 3 Credits.

Introduction to fundamental methods and current research in knot theory and 3-dimensional topology. Topics include Reidemeister moves, Alexander invariants, Jones-type invariants, skein modules, Khovanov homology, incompressible surfaces, and torus decomposition. Prerequisites: MATH 6810 or permission of the instructor.

MATH 6860. Topics in Knot Theory and Low Dimensional Topology. 3 Credits.

Possible topics include, but are not limited to, topology of 3-manifolds and work of Perelman, quantum invariants and their categorizations, topology of 4-manifolds after Freedman and Donaldson, computational complexity in topology, and applications in biology, chemistry, and physics. May be repeated for credit with permission. Prerequisites: MATH 6850 or permission of the instructor.

MATH 6890. Topics in Topology. 3 Credits.

Topics may include hyperbolic structures on surfaces and 3-manifolds; knot theory; topology of 3-manifolds; topology of 4-manifolds. Prerequisite: MATH 6820 or permission of the instructor. May be repeated for credit with permission.

MATH 6991. Graduate Student Experience. 0 Credits.

Introduction to the experience of studying mathematics as a graduate student at GW. Understanding University rules and regulations, handling the literature in the subject, conducting research and delivering presentations, and pursuing a successful career as a mathematician. Restricted to graduate students in the department.

MATH 6995. Reading and Research. 12 Credits.

May be repeated for credit.

MATH 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN MATHEMATICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
MATH 1231	Single-Variable Calculus I (or equivalent)	
MATH 1232	Single-Variable Calculus II	
MATH 2185 or MATH 2184	Linear Algebra I for Math Majors * Linear Algebra I	
MATH 2233	Multivariable Calculus	
MATH 2971	Introduction to Mathematical Reasoning	
One course (3 credits) from the following:		
CSCI 1011	Introduction to Programming with Java	
CSCI 1012	Introduction to Programming with Python	
CSCI 1041	Introduction to FORTRAN Programming	
CSCI 1111	Introduction to Software Development	
CSCI 1121	Introduction to C Programming	
CSCI 1131	Introduction to Programming with C	
Students in the pure mathematics concentration may substitute an additional elective, approved by the department, for the CSCI course.		

* Of the two options for linear algebra, MATH 2185 is preferred.

Concentration requirement

All students must complete requirements for one of the following three concentrations:

Pure mathematics concentration

Code	Title	Credits
Required		
MATH 4121	Introduction to Abstract Algebra I	
MATH 4239	Real Analysis I	
Two courses (6 credits) from the following:		
MATH 3125	Linear Algebra II	

MATH 3257	Introduction to Complex Variables
MATH 3806	Introduction to Topology
MATH 4122	Introduction to Abstract Algebra II
MATH 4240	Real Analysis II
Three additional mathematics (MATH) courses (9 credits) numbered 3000 or above.	

Applied mathematics concentration

Code	Title	Credits
Required		
MATH 3342	Ordinary Differential Equations	
MATH 3343	Partial Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
MATH 4239	Real Analysis I	
Two additional mathematics (MATH) courses (6 credits) numbered 3000 or above.		

Interdisciplinary mathematics concentration

Code	Title	Credits
Required		
MATH 3342	Ordinary Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
Four additional mathematics (MATH) courses (12 credits) numbered 3000 or above.		
Minor or second major requirement: students in the interdisciplinary concentration must complete an approved minor or second major in a field in which mathematics is applied. The pre-approved fields are astronomy and astrophysics, biology, bioinformatics, biophysics, chemistry, economics, physics, statistics, finance, and all fields in the School of Engineering and Applied Science.		

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the

liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW

courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a grade-point average of at least 3.5 in courses in the major; complete 3 credits of MATH 4995 Reading and Research in addition to the other required courses in the major; and present an oral defense of a senior thesis prepared for MATH 4995 Reading and Research.

BACHELOR OF SCIENCE WITH A MAJOR IN MATHEMATICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
MATH 1231	Single-Variable Calculus I (or the equivalent)	
MATH 1232	Single-Variable Calculus II	
MATH 2185	Linear Algebra I for Math Majors *	
or MATH 2184 & MATH 3125	Linear Algebra I and Linear Algebra II	
MATH 2233	Multivariable Calculus	
MATH 2971	Introduction to Mathematical Reasoning	
One course (3 credits) from the following:		
CSCI 1011	Introduction to Programming with Java	
CSCI 1012	Introduction to Programming with Python	
CSCI 1041	Introduction to FORTRAN Programming	
CSCI 1111	Introduction to Software Development	
CSCI 1121	Introduction to C Programming	
CSCI 1131	Introduction to Programming with C	
For students in the pure mathematics concentration, an alternative course may substituted for the CSCI course with the approval of the department.		

*Of the two options for linear algebra, MATH 2185 is preferred.

Concentration requirement

All students must complete requirements for one of the following three concentrations:

Pure mathematics concentration

Code	Title	Credits
Required		
MATH 4121	Introduction to Abstract Algebra I	
MATH 4239	Real Analysis I	
Two courses (6 credits) from the following:		
MATH 3125	Linear Algebra II	
MATH 3257	Introduction to Complex Variables	
MATH 3806	Introduction to Topology	
MATH 4122	Introduction to Abstract Algebra II	
MATH 4240	Real Analysis II	
Five additional mathematics (MATH) courses (15 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to three additional MATH courses (9 credits) numbered 3000 or above.		

Applied mathematics concentration

Code	Title	Credits
Required		
MATH 3342	Ordinary Differential Equations	
MATH 3343	Partial Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	
MATH 4239	Real Analysis I	
Four additional mathematics (MATH) courses (12 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to two additional MATH courses (6 credits) numbered 3000 or above.		

Interdisciplinary mathematics concentration

Code	Title	Credits
Required		
MATH 3342	Ordinary Differential Equations	
MATH 3553	Introduction to Numerical Analysis	
MATH 3359	Introduction to Mathematical Modeling	

Six additional mathematics (MATH) courses (18 credits) numbered 3000 or above. For students who complete the bachelor of science requirements for a major in astronomy and astrophysics, biology, biophysics, chemistry, economics, physics, statistics, finance, or any major in SEAS, this requirement is reduced to four additional mathematics MATH courses (12 credits) numbered 3000 or above.

Minor or second major requirement: students in the interdisciplinary concentration must complete an approved minor or second major in a field in which mathematics is applied. The pre-approved fields are astronomy and astrophysics, biology, bioinformatics, biophysics, chemistry, economics, physics, statistics, finance, and all fields in the School of Engineering and Applied Science.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

To graduate with Special Honors, a student must meet the general requirements stated under University Regulations; maintain a grade-point average of at least 3.5 in courses in the major; complete 3 credits of MATH 4995 Reading and Research in addition to the other required courses in the major; and present an oral defense of a senior thesis prepared for MATH 4995 Reading and Research.

DOCTOR OF PHILOSOPHY IN THE FIELD OF MATHEMATICS

Faculty expertise covers a wide range of research fields, including analysis, ordinary and partial differential equations, dynamical systems, applied math (including numerical analysis), combinatorics, logic, topology and knot theory. With about 30 graduate students and 20 faculty members, there is lively interaction as well as extensive individual attention.

All graduate students have individual advisers throughout their enrollment, starting from the time of admission. New students also receive peer advisers. In addition, research

seminars and the department colloquium series help students explore potential research areas. Teaching assistantships are available for full-time Ph.D. students. Each assistant gains teaching experience with a moderate workload, leading recitations for one introductory undergraduate course per semester. The post-baccalaureate certificate for those who seek to strengthen their mathematical backgrounds—at the advanced undergraduate and beginning graduate levels—is offered to better position students in their careers or to prepare for graduate work in quantitative disciplines.

The PhD in Mathematics is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationstext>).

The requirements for the Doctor of Philosophy Program (<http://bulletin.gwu.edu/arts-sciences/#doctoralstext>).

Pre-candidacy

Pre-candidacy requirements include satisfactory completion of 48 credits of coursework and achievement of a passing grade in the general examination.

Coursework

After completing 36 credits of coursework, students may petition the graduate committee for approval to take MATH 6995, but students may take no more than 12 credits in any combination of MATH 6995 and MATH 8999 in a single academic year.

Students wishing to take courses outside the department must petition and obtain the approval of the graduate committee. The committee may limit the number of such courses that students take.

Subject to the approval of the graduate committee (requested via petition), students may take up to 12 credits of courses offered by other institutions in the Consortium of Universities of the Washington Metropolitan Area. Students wishing to take such courses must petition and obtain the approval of the graduate committee.

Subject to the approval of the graduate committee (requested via petition) and the agreement of the instructor, students may take up to 12 credits from the following upper-level undergraduate courses for graduate credit, provided that additional graduate-level coursework is completed in these classes.

Code	Title	Credits
MATH 3613	Introduction to Combinatorics	
MATH 3632	Introduction to Graph Theory	
MATH 3710	Introduction to Mathematical Logic	
MATH 3720	Axiomatic Set Theory	
MATH 3730	Computability Theory	
MATH 3740	Computational Complexity	
MATH 3848	Differential Geometry	
MATH 4239	Real Analysis I	
MATH 4240	Real Analysis II	
MATH 4981	Seminar: Topics in Mathematics	

General examination

The general examination consists of two preliminary examinations. One examination is in two to four subjects selected from algebra, analysis, topology, and applied math, and the other is a specialty examination in a research area approved by the department.

Post-candidacy requirements

Post-candidacy requirements include the successful completion of an additional 24 credits of graduate coursework, including at least 6 credits of MATH 8999; the completion of the dissertation; and the successful defense of the dissertation in a final oral examination.

No more than 15 credits in any combination of MATH 6995 and MATH 8999 may be among the student's final 18 credits of required coursework.

Once a student successfully completes 24 post-candidacy credits, they must register for 1 credit of CCAS 0940 (<http://bulletin.gwu.edu/search/?P=CCAS%200940>) each subsequent fall and spring semester until they have successfully defended their dissertation, thereby completing the degree program.

GRADUATE CERTIFICATE IN FINANCIAL MATHEMATICS

The graduate certificate in financial mathematics, offered through the Columbian College of Arts and Sciences Department of Mathematics, trains students in sophisticated mathematical techniques so they may analyze problems arising from financial economics. Examples include the use of stochastic processes and partial differential equations to study stock markets and to price financial derivatives.

Graduates will be well-positioned to advance careers in public, private, and governmental financial institutions with a heavy

emphasis on analytic methods and quantitative skills. This two-year, 12-credit certificate is also ideal for those planning to pursue graduate programs in economics or finance and who wish to supplement their mathematical training.

This is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 9 credits in required courses and one 3-credit elective course.

Code	Title	Credits
Required		
MATH 6201	Real Analysis I	
MATH 6441	Introduction to Financial Mathematics	
MATH 6442	Stochastic Calculus Methods in Finance	
One of the following:		
MATH 6202	Real Analysis II	
MATH 6214	Measure and Integration Theory	
MATH 6318	Applied Mathematics I	
MATH 6330	Ordinary Differential Equations	
MATH 6522	Introduction to Numerical Analysis	

Alternate courses may be selected in consultation with the certificate program advisor.

GRADUATE CERTIFICATE IN MATHEMATICS

The aim of graduate certificate in mathematics program is to strengthen the mathematical backgrounds of students so that graduates are well positioned to pursue further study in a variety of quantitative fields. This program is ideal, for instance, for those planning to apply to top graduate programs in economics or finance and who wish they had taken more math during their undergraduate years. It is also ideal for those who want to pursue graduate study in mathematics but do not yet have sufficient background.

Four graduate-level courses make up the program. If it is appropriate academically and fits a student's career goals, the department may approve variations. For instance, in place of one of the standard options, a different course in mathematics or in a related field (e.g., statistics) may be accepted.

The courses that make up this program are part of the regular graduate-level curriculum. As much as possible, the

department schedules these courses around the lunch hour or after 5 pm for the convenience of those in the program.

The graduate certificate in mathematics is a STEM-designated programs.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required:		
MATH 6201	Real Analysis I	
MATH 6202	Real Analysis II	
Two of the following:		
MATH 6214	Measure and Integration Theory	
MATH 6215	Introduction to Functional Analysis	
MATH 6318	Applied Mathematics I	
MATH 6319	Applied Mathematics II	
MATH 6810	General Topology	

Alternate courses may be selected in consultation with the certificate advisor.

MASTER OF ARTS IN THE FIELD OF MATHEMATICS

Faculty expertise covers a wide range of research fields, including analysis, ordinary and partial differential equations, dynamical systems, applied math (including numerical analysis), combinatorics, logic, topology and knot theory. With about 30 graduate students and 20 faculty members, there is lively interaction as well as extensive individual attention.

All graduate students have individual advisers throughout their enrollment, starting from the time of admission. New students also receive peer advisers. In addition, research seminars and the department colloquium series help students explore potential research areas.

The MA in Mathematics is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits in approved coursework divided between mathematics and one of the following areas of application: computer science, economics, engineering (civil, electrical, mechanical, or systems), operations research, physics, or statistics. No more than 12 credits toward the degree can be outside mathematics. Students must petition and obtain the approval of the graduate committee in order to register for courses outside the department. MATH 6995 Reading and Research (independent study), can be taken only by petition to, and with the approval of, the graduate committee.

Up to 6 credits in courses taken at other institutions of the Consortium of Universities of the Washington Metropolitan Area (<https://registrar.gwu.edu/consortium/>) may count toward degree requirements. Students wishing to take such courses must petition and obtain the approval of the graduate committee.

Code	Title	Credits
Subject to the approval of the graduate committee (requested via petition) and the agreement of the instructor, mathematics graduate students may take up to 6 credits in the undergraduate courses listed below for graduate credit. Appropriate additional work must be assigned for students to receive graduate credit in an undergraduate course.		
MATH 3613	Introduction to Combinatorics	
MATH 3632	Introduction to Graph Theory	
MATH 3710	Introduction to Mathematical Logic	
MATH 3720	Axiomatic Set Theory	
MATH 3730	Computability Theory	
MATH 3740	Computational Complexity	
MATH 3848	Differential Geometry	
MATH 4239	Real Analysis I	
MATH 4240	Real Analysis II	
MATH 4981	Seminar: Topics in Mathematics	

MASTER OF SCIENCE IN THE FIELD OF APPLIED MATHEMATICS

The Department of Mathematics offers two master's degree programs: the master of arts in mathematics and the master of science in applied mathematics. Faculty expertise covers a wide range of research specialties. With about 25 graduate students and 20 faculty members, there is lively interaction as well as extensive individual attention. All graduate students have individual advisers throughout their enrollment, starting from the time of admission. New students also receive peer advisers. In addition, research seminars and the department

colloquium series help students explore potential research areas.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs.

Successful completion of 30 credits in coursework*.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits in approved courses divided between mathematics and one of the following areas of application: computer science, economics, engineering (civil, electrical, mechanical, or systems), operations research, physics, or statistics. No more than 12 credits may be in non-MATH courses. Students must petition and obtain the approval of the graduate committee in order to register for courses outside the department.

Students who wish to register for MATH 6995 Reading and Research must petition and obtain the approval of the graduate committee.

Up to 6 credits in courses taken at other institutions of the Consortium of Universities of the Washington Metropolitan Area may count toward degree requirements. Students wishing to take such courses must petition and obtain the approval of the graduate committee.

Subject to the approval of the graduate committee (requested via petition) and the agreement of the instructor, mathematics graduate students may take up to 6 credits in the undergraduate courses listed below for graduate credit. Appropriate additional work must be assigned for students to receive graduate credit in an undergraduate course.

Code	Title	Credits
MATH 3613	Introduction to Combinatorics	
MATH 3632	Introduction to Graph Theory	
MATH 3710	Introduction to Mathematical Logic	
MATH 3720	Axiomatic Set Theory	
MATH 3730	Computability Theory	
MATH 3740	Computational Complexity	
MATH 4239	Real Analysis I	
MATH 4240	Real Analysis II	
MATH 4981	Seminar: Topics in Mathematics	

MINOR IN MATHEMATICS

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
Required		
MATH 2184	Linear Algebra I	
or MATH 2185	Linear Algebra I for Math Majors	
Electives		
15 credits in elective courses with a minimum of 9 credits taken at the 3000 level or above. Courses are selected in consultation with a departmental advisor.		

MEDIA AND PUBLIC AFFAIRS

The School of Media and Public Affairs (SMPA), as part of the Columbian College of Arts and Sciences, is dedicated to the study of media, journalism, and political communication with a focus on the connections between ideas and information and how the media inform and influence policy and politics in a democracy. Students have the opportunity for internships and access to decision makers, community leaders, and power brokers. SMPA offers programs of study leading to the bachelor of arts degree with majors in journalism and mass communication, and in political communication. Entering freshmen may be admitted to majors within SMPA through a highly selective application process. In addition, a limited number of students are admitted through a competitive application process that begins after the student is accepted to the University.

Visit the School of Media and Public Affairs website (<https://smpa.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in journalism and mass communication (p. 342)
- Bachelor of Arts with a major in political communication (p. 344)

Combined programs

- Dual Bachelor of Arts in an SMPA Major and Master of Arts in the field of Media and Strategic Communication or Master of Professional Studies in the field of Political Management (p. 346)

Minor

- Minor in journalism and mass communication (p. 347)

GRADUATE

Master's program

- Master of Arts in the field of media and strategic communication (p. 346)

CERTIFICATE

GW's School of Media and Public Affairs offers a program leading to the graduate certificate in documentary filmmaking.

Applications for the program are not being accepted for spring 2021.

Visit The Documentary Center website (<https://documentarycenter.gwu.edu/>) for more information.

FACULTY

Professors L. Huebner, S.L. Livingston, S.V. Roberts, F. Sesno, J. Steele, S. Waisbord (*Director*)

Associate Professors S. Aday, C.S. Bailard, K.A. Gross, K. Harvey, M. Hindman, I.M. Cheers, D.A. Karpf, P. Loge, J. Osder, P.F. Phalen, C.W. Thompson, R. Tromble, W.L. Youmans

Assistant Professors B. Benitez-Curry, J. Holland, E. Porter

Emeritus Professors R. Entman, J. Manheim, C. Sterling

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SMPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SMPA 1050. Media in a Free Society. 3 Credits.

The role of mass communication in democratic political systems: informational requirements of democracy, sources of political information and the role of news media and other channels in creating and disseminating it; issues relating to propaganda and public information; and the interaction between information flows and democratic political culture. Not open to SMPA majors.

SMPA 1099. Variable Topics. 1-36 Credits.**SMPA 1225. Forensics Practice (Debate). 1 Credit.****SMPA 2101. Journalism: Theory & Practice. 3 Credits.**

Overview of theories and key issues in journalism in the United States. News and democracy, the historical and social evolution of journalism, news values, journalism as occupation/profession, technologies, and changes in journalistic practices. Restricted to SMPA students.

SMPA 2102. Introduction to Political Communication. 3 Credits.

Basic concepts and theories of political communication; development of a framework for analyzing political communication; applications in the United States, other countries, and the international system. Open only to SMPA majors. Prerequisite: PSC 1002.

SMPA 2110W. Introduction to News Writing and Reporting. 3 Credits.

Fundamentals of news reporting and writing, with emphasis on print media; news judgment, information gathering skills, and crafting news and feature stories. Directly admitted freshmen may enroll in their second semester; all other freshmen require departmental permission. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 2111W. Advanced News Reporting. 4 Credits.

Reporting, writing, and computer skills for covering beats and developing in-depth news stories. Techniques in researching, observing, and interviewing to frame stories of public interest; outside and in-class reporting and writing assignments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Restricted to journalism and mass communication majors, or students with permission of the instructor. Prerequisite: SMPA 2110W.

SMPA 2112. Digital Media I: Introduction to Video Production. 3 Credits.

Foundational introduction to digital media production. Videography and non-linear editing, with emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

SMPA 2113. Digital Media II: Introduction to Web Production and Social Media. 3 Credits.

Foundational introduction to digital media production. Web content and design; photography and audio applied to the web; and using social media. Emphasis on use in journalism and political communication. Laboratory fee. Restricted to students in the political communication and journalism and mass communication programs.

SMPA 2120. Public Opinion. 3 Credits.

Key aspects of the literature on public opinion, with emphasis on the role of media in opinion formation and change. Topics include the meaning of public opinion in a democratic society, a review of methods used to measure opinions, and media effects on opinion.

SMPA 2151. Research Methods. 3 Credits.

Processes of inquiry within mediated communication. The concepts of framing research questions, conducting literature reviews, developing a research design, and interpreting results of cultural and social science research within a societal framework. Prerequisites: STAT 1053 or STAT 1051 or STAT 1111 or STAT 1127.

SMPA 2152. Data Analysis for Journalism and Political Communication. 3 Credits.

Understanding, critiquing, and performing analysis of data sets with applications to journalism and political communication; using data to tell stories and answer questions. Analyzing A/B tests and field experiments; basics of visualizing data; regression. Laboratory fee. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

SMPA 2173. Media Law. 3 Credits.

Freedom of the press. Changing laws of journalism and mass communication, including defamation, privacy, reporting access, obscenity and indecency, media ownership, intellectual property, advertising, and electronic communication.

SMPA 2177. Media History. 3 Credits.

American media from colonial times to the present, set against a backdrop of ongoing political, social, and economic developments. The development of press, radio, television, cable, satellite, and the Internet; government regulation and media relations; journalistic rights and responsibilities.

SMPA 3099. Variable Topics. 1-12 Credits.**SMPA 3150. Journalism Ethics. 3 Credits.**

Principles of media ethics; application to contemporary and developing issues and challenges in journalism. Restricted to juniors and seniors only. Prerequisite: SMPA 2111W.

SMPA 3193. Selected Topics in Journalism and Mass Communication Skills. 3-4 Credits.

Topics announced in Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3194. Selected Topics in Political Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated if the topic differs, but may only count once toward the political communication major.

SMPA 3195. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3195W. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 3196. Independent Study. 1-3 Credits.

Students pursue a program of directed reading, research, and writing under the direction of a faculty advisor. Restricted to seniors.

SMPA 3197. Internship. 1-3 Credits.

Students spend at least five hours per week per credit with an approved news organization, agency, or office under the general guidance of a faculty advisor. Guidelines are available in the SMPA office and online. May be taken P/NP only. Restricted to SMPA majors and minors in the junior and senior year. May be repeated for up to 6 credits.

SMPA 3230. Reporting in the Digital Age. 3 Credits.

Understanding the emerging tools and developing the technological skills needed to analyze data for news. Students learn to find reliable information through social media and other online tools, use spreadsheets as a reporting tool, and download data for analysis, to create graphics, and to report and write stories based on the analysis. Laboratory fee. Prerequisite: SMPA 2110W.

SMPA 3232. Online Journalism Workshop. 4 Credits.

Capstone production experience for SMPA majors. Provides advanced journalism and multimedia production skills needed to produce and report for a news website. Laboratory fee. Prerequisites: SMPA 2110W and SMPA 2112.

SMPA 3233. Photojournalism. 3 Credits.

Elements of effective news and feature photos, including study and evaluation of slides taken by students. Picture selection, cropping, captions. Student costs include film and developing. Laboratory fee.

SMPA 3234. Editing and Design for Print and Web. 3 Credits.

Editing, design, layout, and photo selection for newspapers, magazines, and web. Selecting and editing stories; writing headlines and photo captions; sizing and cropping graphic materials; laying out pages. Ethics of editing. Prerequisites: SMPA 2110W.

SMPA 3235W. Broadcast News Writing. 3 Credits.

Introduction to writing television news scripts based on actual events. Using workshop techniques, scripts are evaluated for content, structure, and use of words, pictures, and sound. Extensive writing and rewriting using streaming video from professional newscasts. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3236W. Broadcast News Reporting. 3 Credits.

Advanced techniques in television news reporting and editing. Students produce, shoot, and edit news packages by teaming up to report in the field. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: SMPA 2110W and SMPA 2112.

SMPA 3239. Television News Practicum. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcast. Laboratory fee. Prerequisites: SMPA 3235W and SMPA 3236W.

SMPA 3240W. Washington Reporting. 3 Credits.

Examination of reporting and writing techniques employed in news coverage of the national government, with an emphasis on serving a regional readership or audience. Using Washington as a laboratory, students focus on contemporary issues and news makers in the legislative and executive branches of government. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3241W. Campaign Reporting. 3 Credits.

Development of news gathering and writing skills needed for the coverage of political campaigns. Using in-class exercises and outside assignments, students acquire reporting and writing proficiency to illuminate how campaigns work and how politics affects the lives of citizens. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3242. Investigative Reporting. 3 Credits.

Hands-on intensive training in reporting and writing in-depth enterprise news stories that expose hidden problems or wrongdoing. Prerequisite: SMPA 2110W.

SMPA 3243W. Feature Writing. 3 Credits.

Learn to frame, research, and write a wide range of feature articles, including profiles, interviews and personal memoirs. Weekly writing assignments and a major final project are discussed and scrutinized in a workshop setting. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3244W. Narrative Journalism. 3 Credits.

The narrative or story-telling tradition in journalism. Students experiment with narrative techniques in a series of written exercises and a final project. Enrollment limited to 15 students with preference given to upper-class SMPA majors and graduate students. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

SMPA 3245W. Editorial and Persuasive Writing. 3 Credits.

Techniques of editorial and column writing; editorial page and public affairs programming; function of commentary in a free press. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110.

SMPA 3246. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Prerequisite: SMPA 2110W.

SMPA 3246W. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: SMPA 2110W.

SMPA 3247. Documentary Production. 4 Credits.

Advanced techniques in writing, researching, producing, and editing long-form documentaries. Prerequisites: SMPA 2112 and SMPA 3479; or permission of the instructor.

SMPA 3333. Media Organizations and Audiences. 3 Credits.

Organizations and economic relationships in the U.S. entertainment industry, particularly television and film; relationships within and between organizations, how media industries operate, and how media professionals carry out their work.

SMPA 3350. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 3352. Principles of Public Relations. 3 Credits.

Principles, problems, ethics, and law of public relations for government, private concerns, educational and other public institutions.

SMPA 3353. Strategic Political Communication. 3 Credits.

Origins of strategic approaches to political communication; techniques. Use of strategic communication by individuals, groups, organizations, and governments in both domestic politics and policymaking and in the international system. Prerequisites: SMPA 2102 or permission of the instructor.

SMPA 3354. Political Campaign Communication. 3 Credits.

Communication aspects of political campaigns for candidates and ballot issues. Examination of techniques and channels of communication, role of communication in campaign strategy, ethics and implications of campaign decision making.

SMPA 3355. Campaign Advertising. 3 Credits.

Introduction to the theory and practice of campaign advertising. Emphasis on televised political campaign spots, but a range of campaign advertising media are included: radio, direct mail, and the Internet. Prerequisite: SMPA 2112.

SMPA 3357W. Political Speech Writing. 4 Credits.

Theory and practice of public speaking in the context of mediated political communication. Students analyze, write, and give speeches. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SMPA 3358. Strategic Practicum. 3 Credits.

Working in small groups, students research and develop full-scale plans for hypothetical, reality-based, strategic communication campaigns that test and apply theoretical advances in the field. Prerequisite: SMPA 3353.

SMPA 3428. Media, Politics, and Government. 3 Credits.

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Instructor permission required. Same As: PSC 2228.

SMPA 3450. Social Media. 3 Credits.

Practical and theoretical implications of social media; what it means to be social and how social media has changed how individuals interact and do business; birth and history of social media and why certain forms of social media flourish while others fail.

SMPA 3459. Language and Politics. 3 Credits.

Connections between language and the political world. Theory and practice of language in politics and the impact on the creation and consumption of politics.

SMPA 3460. Race, Media, and Politics. 3 Credits.

Examination of the place of race in American society and politics, with attention to the role of media reporting in helping to shape understanding of race and racial matters, public opinion about race, and race and electoral politics.

SMPA 3461. Campaigns and Elections. 3 Credits.

The role of the news media in campaigns and elections. Offered in even-numbered years.

SMPA 3463. Media Bias. 3 Credits.

Exploration of empirical and theoretical understanding of media bias, its effects on power, and implications for democracy.

SMPA 3467. Globalization and Media. 3 Credits.

The media have played a central role in shaping the rapidly changing international scene –both its new global connectedness and its intensifying tribal impulses. At the same time, a new category of media has emerged which is truly global in scope, even while national and regional media have retained their own distinctive characteristics. The great challenges confronting media in a time of technological revolution and cultural tension are sometimes broadly shared across national frontiers and sometimes sharply differentiated. These themes are explored in this course which includes a short term abroad component in Paris over spring break. Students meet with journalists, executives, government officials and scholars who bring both an international and European perspective on major media issues.

SMPA 3468. Communication and Global Social Change. 3 Credits.

The study and practice of communication, development, and social change; theories and arguments informing debates and communication programs, merits and impact of various approaches, and design and implementation of communication programs.

SMPA 3469. International Communication. 3 Credits.

A survey of theoretical themes in international communication and their practical applications: information production and circulation, global media industries, and cultures.

SMPA 3470. Comparative Media Systems. 3 Credits.

In-depth study of the developmental, regulatory, political, economic, and cultural dimensions of selected foreign communication systems.

SMPA 3471. Media in the Developing World. 3 Credits.

Contemporary views of media roles in developing nations. The role of the press and electronic media in economic, social, and national development, including media as agents of modernization, development journalism, and post-colonial responses to Western "cultural imperialism." Media and Islam; role of the Internet; and theories of media and globalization.

SMPA 3472. Media and Foreign Policy. 3 Credits.

The emerging role of news media in international affairs and diplomacy. Globalization of news media advances in digital information and communication technologies and consequences for the international system and diplomacy.

SMPA 3475. Media Management. 3 Credits.

Decision making, strategic planning, and daily operations of all types of media organizations. Sales strategies, promotion, and research.

SMPA 3476. Media, Technology, and Culture. 3 Credits.

Concepts, principles, and socio-political implications of new and changing media and related technologies. Focus on intersection of new technologies and the anthropology of everyday life, in particular self-governance, policy development, cultural rupture and cohesion, the tension between national security and individual privacy rights, and First Amendment issues.

SMPA 3477. Information Technology and Politics. 3 Credits.

The effect of new information technologies on the media, public discourse, and political life; ways in which politics has shaped the development of technology.

SMPA 3479. Documentary. 3 Credits.

Origins, genres, and analysis of documentary film. Power, reach, and conceptual frameworks of documentary filmmaking.

SMPA 3480. The Future of Journalism. 3 Credits.

Reasons behind the decline of traditional newspaper and broadcast journalism; the impact of the web and other digital tools on traditional journalism values; new business models for news.

SMPA 4180. Online Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. Advanced journalism and multimedia production skills needed to produce and report for a news website. Prerequisites: SMPA 2112 and SMPA 2113; and SMPA 2111W. (Same as SMPA 3232).

SMPA 4181. Television News Workshop. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcasts. Laboratory fee. Prerequisites: SMPA 2111 or SMPA 2111W; and SMPA 2112, SMPA 2113 and SMPA 3236W. (Same as SMPA 3239).

SMPA 4182. Specialized Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. In-depth study of advanced journalism skills or specific topic areas. Laboratory fee. Prerequisites: SMPA 2111W; and SMPA 2112 and SMPA 2113.

SMPA 4198. Special Honors Research Seminar. 3 Credits.

. Restricted to senior special honors candidates in political communication. Prerequisites: SMPA 4199 and permission of the department.

SMPA 4199. Senior Seminar. 3 Credits.

Capstone course limited to SMPA majors.

SMPA 5099. Variable Topics. 1-99 Credits.**SMPA 6201. Strategic Communications Skills. 1.5 Credit.**

Specialized skills, such as crisis communication, political uses of social media, digital PR, web development and strategy, and speechwriting. Topics vary by semester. May be repeated for a maximum of 6 credits provided the topic differs. See department for more details.

SMPA 6202. Media Effects, Public Opinion, and Persuasion. 3 Credits.

Theories of media effects and persuasion. Institutional functions and individual effects of mediated communication. Impacts of different textual content and format on individual thinking and emotion; forces that shape content production.

SMPA 6203. Information, Technology, and Political Communication. 3 Credits.

Issues pertaining to the political uses of the Internet, social media, and other new media; the effect that new information technologies have on political life and the ways in which politics shape technology development.

SMPA 6204. Strategic Political Communication. 3 Credits.

Theory, techniques, and implications of strategic communication as employed by individuals, groups, organizations, and governments to advance their interests; applications to non-electoral politics and policymaking; use of political, psychological, sociological, and other processes; methodological considerations; domestic and international applications.

SMPA 6205. Media, Development, and Globalization. 3 Credits.

Theories of media and globalization. The changing role of communication media, including the Internet and other newer technologies as well as traditional books, film, newspapers, telephone, and satellite in establishing closer relationships and interdependencies among people, their cultures, and their organizations in various countries.

SMPA 6206. Advocacy Communication and Political Networks. 3 Credits.

Cross-disciplinary approaches to global changes in the nature of governance and collective action. The role of new technology, social movements, NGOs and transnational advocacy networks. Information campaigns and advocacy communication.

SMPA 6207. Political Persuasion and Public Opinion. 3 Credits.

Major theories and perspectives in public opinion and persuasion research. Information processing, psychological models applied to politics and media research (cognition, attitudes, resistance, heuristics), public opinion dynamics.

SMPA 6208. Politics and Public Relations Fundamentals. 3 Credits.

Basic knowledge of the skills to design, implement, and evaluate public relations activities. Case studies of public relations applied to politics. Techniques and tactics used by public relations professionals.

SMPA 6210. Media and Foreign Policy. 3 Credits.

The effects of U.S. media on U.S. and foreign governments, and of foreign media on the U.S.; effects of other countries' media on each other; the impact of the Internet, inexpensive global phoning, CNN, al Jazeera, and other newer technologies and networks on the stuff of international relations: diplomacy, military operations, trade negotiations.

SMPA 6220. Strategic Practicum. 3 Credits.

Design of strategy for an information and influence campaign. Research on issues and actors, identification of critical decision-making points and key constituencies, development of communication strategies more likely to achieve stated objectives of a campaign. Prerequisite: SMPA 6204. For students doing a strategic communication capstone project, this course replaces SMPA 6297.

SMPA 6230. Principles and Methods of Documentary Filmmaking. 6 Credits.

Analytical and practical exploration of the elements of documentary filmmaking. The genres of nonfiction filmmaking; fundamentals of film conceptualization, documentary screenwriting, story structure, and production theory; and basic practical elements of production. Permission of the instructor required prior to enrollment.

SMPA 6231. Documentary Filmmaking Practicum. 3 Credits.

Intensive practical experience in documentary film production. Students produce a 10 to 15-minute documentary film on a selected topic. Emphasis on major markers in film production: treatment and script writing, location shooting, Final Cut Pro editing, graphics, music, and final sound mix. Prerequisites: SMPA 6230 and permission of the instructor.

SMPA 6241. Research Design. 3 Credits.

Design, applications, and limitations of quantitative research as applied to the field of media and strategic communication. Framing of research questions, identification of variables and formulation of hypotheses, measurement, sampling, data gathering techniques, and preparation of research reports. Brief exposure to qualitative research.

SMPA 6242. Analytics and Data Analysis for Strategic Communication. 3 Credits.

Familiarity with major data analytic and analysis techniques used by strategic communication practitioners. Topics covered include basic statistical analysis, multivariate regression, experiments, focus groups, and survey research. Prerequisite: An undergraduate statistics course.

SMPA 6250. Topics in Media Processes and Institutions. 3 Credits.

Topics address such issues as the history of media content, institutions, and process; impact of changing communication technology on culture; history and development of mass-produced culture; and professional ideology and practice of journalism. May be repeated for credit provided the topic differs.

SMPA 6270. Special Topics in Media and Public Affairs. 3 Credits.

Topics vary by semester. Consult the Schedule of Classes for more details.

SMPA 6272. Media Bias, Power, and Democracy. 3 Credits.

Consideration of the available scholarly evidence in order to develop a more sophisticated empirical and theoretical understanding of what constitutes media bias. How do we recognize and measure bias? Are there patterns in decisions about news coverage that indicate bias? Which political parties and economic interests benefit from patterns of news coverage?.

SMPA 6274. Media and War. 3 Credits.

Historic and contemporary examination of the media's role in wartime. Topics include covering war, the role of the media in generating support for foreign intervention, propaganda, effects of war coverage on public opinion, media and genocide, and public diplomacy. Ethical, philosophical and political implications of the media's role.

SMPA 6275. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 6295. Internship. 3 Credits.

Students identify a suitable employer for an internship relevant to program themes and goals. Permission of the director of graduate studies required prior to enrollment.

SMPA 6296. Directed Readings and Research. 3 Credits.

Independent research with SMPA faculty member. Must be approved in advance by supervising professor and director of graduate studies.

SMPA 6297. Capstone Project. 3 Credits.**SMPA 6298. Capstone Project. 3 Credits.****SMPA 6998. Thesis Research. 3 Credits.****SMPA 6999. Thesis Research. 3 Credits.**

BACHELOR OF ARTS WITH A MAJOR IN JOURNALISM AND MASS COMMUNICATION

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required courses (34 credits):		
PSC 1002	Introduction to American Politics and Government	
or PSC 1002W	Introduction to American Politics and Government	
STAT 1053	Introduction to Statistics in Social Science	
SMPA 2101	Journalism: Theory & Practice	
SMPA 2110W	Introduction to News Writing and Reporting (minimum grade of B required)	
SMPA 2111W	Advanced News Reporting	
SMPA 2112	Digital Media I: Introduction to Video Production	
SMPA 2113	Digital Media II: Introduction to Web Production and Social Media	
SMPA 2151	Research Methods	
SMPA 2152	Data Analysis for Journalism and Political Communication	
SMPA 2173	Media Law	
SMPA 3150	Journalism Ethics	
One required advanced writing/reporting course (3 credits) from the following:		
SMPA 3230	Reporting in the Digital Age	
SMPA 3235W	Broadcast News Writing	
SMPA 3242	Investigative Reporting	
Five additional courses (15 to 18 credits) from the advanced writing/reporting courses listed above or from the following:		
SMPA 2120	Public Opinion	
SMPA 2177	Media History	
SMPA 3193	Selected Topics in Journalism and Mass Communication Skills	
SMPA 3195	Selected Topics in Journalism and Mass Communication	
SMPA 3196	Independent Study	
SMPA 3197	Internship (Only one, three-credit internship can count toward the major)	

SMPA 3233	Photojournalism
SMPA 3234	Editing and Design for Print and Web
SMPA 3236W	Broadcast News Reporting
SMPA 3240W	Washington Reporting
SMPA 3241W	Campaign Reporting
SMPA 3243W	Feature Writing
SMPA 3244W	Narrative Journalism
SMPA 3245W	Editorial and Persuasive Writing
SMPA 3246	Specialized Reporting
SMPA 3247	Documentary Production
SMPA 3333	Media Organizations and Audiences
SMPA 3428	Media, Politics, and Government
SMPA 3450	Social Media
SMPA 3460	Race, Media, and Politics
SMPA 3463	Media Bias
SMPA 3469	International Communication
SMPA 3470	Comparative Media Systems
SMPA 3471	Media in the Developing World
SMPA 3472	Media and Foreign Policy
SMPA 3475	Media Management
SMPA 3476	Media, Technology, and Culture
SMPA 3477	Information Technology and Politics
SMPA 3479	Documentary
SMPA 3480	The Future of Journalism
SMPA 4198	Special Honors Research Seminar

One capstone course (4 credits) from the following:

SMPA 4180	Online Journalism Workshop
SMPA 4181	Television News Workshop
SMPA 4182	Specialized Journalism Workshop

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education

curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may

count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must have attained a 3.7 GPA in all courses completed at GW and in all courses required for the major. Students intending to apply for Special Honors must consult their advisor at the start of the senior year. Application must be made by the mid-point of the student's final semester (October 15 or March 15), and must include a letter of application and a portfolio of published or broadcast work. The journalism and mass communication faculty evaluates the work on the basis of professional standards as outlined by the department. Students interested in pursuing Special Honors through writing a research thesis should consult their advisor.

BACHELOR OF ARTS WITH A MAJOR IN POLITICAL COMMUNICATION

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required courses (30 credits):		
PSC 1001 or PSC 1003	Introduction to Comparative Politics Introduction to International Politics	
PSC 1002	Introduction to American Politics and Government	
STAT 1053	Introduction to Statistics in Social Science	
SMPA 2102	Introduction to Political Communication (which requires a minimum grade of C to remain in the major)	
SMPA 2110W	Introduction to News Writing and Reporting	
SMPA 2112	Digital Media I: Introduction to Video Production	
SMPA 2113	Digital Media II: Introduction to Web Production and Social Media	

SMPA 2151	Research Methods
SMPA 2152	Data Analysis for Journalism and Political Communication
SMPA 4199	Senior Seminar
Electives	
Seven courses (21 credits) from the following:	
SMPA 2173	Media Law
SMPA 3194	Selected Topics in Political Communication (May be repeated once for credit)
SMPA 3196	Independent Study
SMPA 3197	Internship (only one, 3-credit internship may be taken for credit toward the major)
SMPA 3245W	Editorial and Persuasive Writing
SMPA 3240W	Washington Reporting
SMPA 3241W	Campaign Reporting
SMPA 3333	Media Organizations and Audiences
SMPA 3350	Public Diplomacy
SMPA 3352	Principles of Public Relations
SMPA 3353	Strategic Political Communication
SMPA 3354	Political Campaign Communication
SMPA 3355	Campaign Advertising
SMPA 3358	Strategic Practicum
SMPA 3428	Media, Politics, and Government
SMPA 3450	Social Media
SMPA 3459	Language and Politics
SMPA 3460	Race, Media, and Politics
SMPA 3461	Campaigns and Elections
SMPA 3463	Media Bias
SMPA 3469	International Communication
SMPA 3470	Comparative Media Systems
SMPA 3471	Media in the Developing World
SMPA 3472	Media and Foreign Policy

SMPA 3476	Media, Technology, and Culture
SMPA 3477	Information Technology and Politics
SMPA 4198	Special Honors Research Seminar

Two political science (PSC) courses (6 credits) numbered 2000 or above

Students must achieve specified grades in some courses. Consult the School of Media and Public Affairs (<http://smpa.gwu.edu/>) for particular grade and course sequencing requirements.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.

- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students with a 3.7 GPA in all courses completed at GW and in all courses required for the major may declare for Special Honors in political communication at the beginning of the senior year. Students take SMPA 4199 Senior Seminar in the first semester of the senior year and SMPA 4198 Special Honors Research Seminar in the second semester. To achieve Special Honors, the student must maintain the required GPA and present a successful oral defense of a research paper prepared for the Honors Research Seminar before a committee that includes the seminar instructor and two other faculty members nominated by the student and approved by the seminar instructor.

DUAL BACHELOR OF ARTS AND MASTER OF ARTS AND BACHELOR OF ARTS AND MASTER OF PROFESSIONAL STUDIES

REQUIREMENTS

The dual bachelor of arts and master of arts (BA/MA) and bachelor of arts and master of professional studies (BA/MPS) degree programs allow students to double-count a specified number of credits of graduate course work toward both the BA and the MA degrees. Interested students should consult their advisor.

- **Dual Bachelor of Arts in an SMPA major and Master of Arts in the field of media and strategic communication**

Visit the program website (<http://smpa.gwu.edu/combined-degree-programs/>) for additional information.

- **Dual Bachelor of Arts in an SMPA major and Master of Professional Studies in the field of political management**

Visit the program website (<http://smpa.gwu.edu/combined-degree-programs/>) for additional information.

DUAL BACHELOR OF ARTS IN AN SMPA MAJOR AND MASTER OF ARTS OR MASTER OF PROFESSIONAL STUDIES DEGREE PROGRAMS

The School of Media and Public Affairs, in cooperation with the Graduate School of Political Management, offer two options for a dual bachelor's/master's degree:

- B (p. 336)achelor of Arts with an SMPA major (<https://smpa.gwu.edu/journalism-and-mass-communication/>) and Master of Arts in the field of media and strategic communication (p. 346)
- Bachelor of Arts with an SMPA major (p. 336) and Master of Professional Studies in the field of political management (p. 1167)

The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://smpa.gwu.edu/combined-degree-program-admissions/>) for additional information.

MASTER OF ARTS IN THE FIELD OF MEDIA AND STRATEGIC COMMUNICATION

Master of Arts candidates in School of Media and Public Affairs study with leading political communication scholars and award-winning journalists. They explore how the changing media landscape affects politics, journalism and the fundamental ways in which governments and other organizations interact with the public. Master's Degree The Master of Arts in Media and Strategic Communication is designed for students interested in media and strategic political communication.

Students gain a full understanding of how political actors use communication, as well as the history and theory behind

how various forms of communication affect the operation of both governmental and non-governmental organizations. The focus on strategic political communication provides the necessary theoretical and practical knowledge as well as high-level networking opportunities to excel in a wide range of professional fields, including public opinion and policy analysis, advocacy communication, media, academia, and political public relations. The program consists of 12 courses (36 credit hours) that combine core theoretical and media skills courses with opportunities to develop an area of specialization chosen by the student. It can be completed either full-time or part-time.

Students take core courses (12 credit hours) in strategic communication, media theory, research methods and media skills. Students work with faculty advisors to tailor 18 elective credit hours toward their future goals. The remaining six credit hours are completed through a thesis or capstone project showcasing their expertise. The School of Media and Public Affairs also offers a MA in Global Communication in conjunction with the Elliott School of International Affairs.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including, 18 credits in required courses, 12 credits in elective courses, and 6 credits in capstone courses.

Code	Title	Credits
Required ¹		
SMPA 6202	Media Effects, Public Opinion, and Persuasion	
SMPA 6204	Strategic Political Communication	
SMPA 6208	Politics and Public Relations Fundamentals	
SMPA 6241	Research Design	
SMPA 6242	Analytics and Data Analysis for Strategic Communication	
SMPA 6201	Strategic Communications Skills (taken twice for a total of three credits) ²	
Electives ³		
12 credits of elective courses selected with the approval of the advisor.		
Capstone ⁴		
6 credits in one of three options selected with the approval of the advisor.		

Research thesis	
SMPA 6998 & SMPA 6999	Thesis Research and Thesis Research
Media project	
SMPA 6297 & SMPA 6298	Capstone Project and Capstone Project
Strategic communication project	
SMPA 6220 & SMPA 6298	Strategic Practicum and Capstone Project

¹On the basis of academic or professional preparation, students may petition to waive any required course with substitution of another approved course.

²Taken on different topics.

³Students may take an additional 3 credits of SMPA 6201 Strategic Communications Skills as electives. Students who select the strategic communication capstone option may not count SMPA 6220 Strategic Practicum as an elective.

With permission of the advisor, a limited number of upper-division undergraduate courses may be taken for graduate credit; additional coursework is required.

⁴Students should consult with their advisor regarding the capstone in the second semester of the program.

Visit the program website (<https://smpa.gwu.edu/media-strategic-communication/>) for additional information.

MINOR IN JOURNALISM AND MASS COMMUNICATION REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
SMPA 1050	Media in a Free Society	
SMPA 2110W	Introduction to News Writing and Reporting	
9 credits from the following:		
SMPA 2111W	Advanced News Reporting	
SMPA 3230	Reporting in the Digital Age	
SMPA 3232	Online Journalism Workshop	

SMPA 3233	Photojournalism
SMPA 3234	Editing and Design for Print and Web
SMPA 3235	
SMPA 3235W	Broadcast News Writing
SMPA 3236W	Broadcast News Reporting
SMPA 3237W	
SMPA 3238	
SMPA 3239	Television News Practicum
SMPA 3240W	Washington Reporting
SMPA 3241W	Campaign Reporting
SMPA 3242	Investigative Reporting
SMPA 3243W	Feature Writing
SMPA 3244W	Narrative Journalism
SMPA 3245W	Editorial and Persuasive Writing
SMPA 3246	Specialized Reporting
SMPA 3246W	Specialized Reporting
SMPA 3247	Documentary Production
SMPA 3193	Selected Topics in Journalism and Mass Communication Skills
SMPA 3197	Internship (Students are limited to 3 credits of SMPA 3197 toward the minor)
3 credits from the following:	
SMPA 2173	Media Law
SMPA 2177	Media History
SMPA 3428	Media, Politics, and Government
SMPA 3450	Social Media
SMPA 3469	International Communication
SMPA 3470	Comparative Media Systems
SMPA 3471	Media in the Developing World
SMPA 3472	Media and Foreign Policy
SMPA 3474	
SMPA 3475	Media Management
SMPA 3476	Media, Technology, and Culture

SMPA 3479	Documentary
SMPA 3480	The Future of Journalism
SMPA 3195	Selected Topics in Journalism and Mass Communication

MUSEUM STUDIES

The Corcoran School of the Arts and Design in the Columbian College of Arts and Sciences offers an interdepartmental program leading to the degree of master of arts in the field of museum studies. Courses in museum studies are supplemented by additional courses offered by departments such as American Studies, Anthropology, History, Educational Leadership, Fine Arts and Art History, Interior Architecture and Design, and Theatre and Dance.

The program is designed for those who seek a deepening of their primary academic interest along with training in the broad range of talents required in the successful operation of museums. The goal of the program is to produce graduates who are prepared to assume museum positions that require both scholarship and functional skills.

In addition to the master's degree, the program offers graduate certificates (<http://bulletin.gwu.edu/arts-sciences/museum-studies/#certificatetext>) in museum studies and museum collections management.

Students whose career interests are primarily in museum education should refer to the master of arts in teaching in the field of museum education (p. 656) program in the Graduate School of Education and Human Development.

Visit the Museum Studies program website (<https://corcoran.gwu.edu/museum-studies/>) for additional information.

GRADUATE

Master's program

- Master of Arts in the field of museum studies (p. 351)

Combined program

- Dual Master of Arts in the field of museum studies and Graduate Certificate in Jewish cultural arts (p. 204)

CERTIFICATE

Certificate programs

- Graduate certificate in museum studies
- Graduate certificate in museum collections management and care (p. 350)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CMST 6101. Museum Management. 3 Credits.

Overall operation of the museum; legal status of the museum and its obligations to the public, governance, staffing, and policymaking as a nonprofit organization. Theory applied to practical situations. Restricted to graduate students. Same As: MSTD 6101.

CMST 6102. Museum Financial Management. 3 Credits.

Financial management of museums, including how the roles and responsibilities of a variety of museum professionals involve financial management, revenue generation, and budgeting in order to assure a museum's daily operation, growth and sustainability. Restricted to graduate students.

CMST 6103. Leading Change. 3 Credits.

Leadership challenges and styles as they relate to organizational change efforts; museums undergoing change; best practices in leadership at all levels of the museum. Restricted to graduate students.

CMST 6104. Managing People and Projects. 3 Credits.

Organizational development and modern management concepts as applied to museums. Managing people in the organization; the importance of project management systems to museum administration. Restricted to graduate students.

CMST 6105. Museum Fundraising. 3 Credits.

Introductory topics in museum fundraising, including sources of funds, best practices and approaches, annual funds and capital campaigns, and the internal management of the fundraising effort. Restricted to graduate students.

CMST 6106. Museum Marketing. 3 Credits.

Opportunities and responsibilities within museum marketing. Development of a marketing plan; situational analysis and market research; segmentation and targeting; positioning and intent; identification of business, strategies and key performance metrics. Restricted to graduate students.

CMST 6107. Museum Ethics and Values. 3 Credits.

Ethical questions museums face in practical, political, and institutional contexts, including governance and funding, collecting and preservation, exhibiting culture, and education and public programs. Restricted to graduate students.

CMST 6201. Introduction to Museum Collections. 3 Credits.

Issues and practices in creating, controlling, protecting, and providing access to collections. Fundamentals of planning, policies, records, accession and the physical protection of objects; legal and ethical issues related to registrarial work and cultural heritage. Restricted to graduate students.

CMST 6202. Collections Management: Practical Applications. 3 Credits.

Development and implementation of policies and procedures relevant to management of museum collections. Practical experience with acquisition, documentation, loans, preservation, exhibition, storage, packing, transportation and disposal. Restricted to graduate students. Prerequisite: CMST 6201.

CMST 6203. Preventive Conservation Concepts. 3 Credits.

Histories of preventive conservation, ethics, team approaches to conservation. Basics of materials testing, interactions of materials, condition reports, museum storage and exhibition materials, and risk assessment. Restricted to graduate students. (Same as ANTH 6203).

CMST 6204. Preventive Conservation Techniques. 3 Credits.

Continuation of CMST 6203. Practical exercises and ethical issues; evaluation and monitoring of collections; development and implementation of policies and procedures to facilitate collections care. Prerequisites: One of the following: ANTH 6203, CAH 6286, or CMST 6203. Credit cannot be earned for this course and AH 6287, ANTH 6204.

CMST 6205. Archival Practice. 3 Credits.

Introduction for museum professionals to the core ideas and practices of archivists and archival institutions. Restricted to graduate students.

CMST 6206. Digitization and Digital Asset Management. 3 Credits.

Management of digital assets, projects, or programs involving digitization and access for museum professionals. Current methods in creation and dissemination of digital surrogates, associated metadata, and digital descriptive records of museum collections. Restricted to graduate students.

CMST 6301. Museum Exhibition Curatorial Research and Planning. 3 Credits.

The role of the curator in contemporary museums with an emphasis on curatorial work on exhibitions. Includes ethics, collecting, documentation, communication, scholarly research, and public presentation. Restricted to graduate students. Credit cannot be earned for this course and MSTD 6301.

CMST 6302. Museum Exhibition Design. 3 Credits.

Language, materials, and processes for developing and designing museum exhibitions.

CMST 6304. Exhibition Development and Scriptwriting. 3 Credits.

Exhibition development from a content perspective. How exhibitions incorporate storytelling, the role of the audience including community stakeholders, and the collaborative work of exhibitions teams. Restricted to graduate students. Prerequisites: CMST 6301 or permission of the Director for Graduate Studies.

CMST 6305. Visitor Perspectives: Museum Evaluation. 3 Credits.

Theory and practice of museum evaluation with emphasis on how evaluation informs stages of exhibition development, including concept generation, design, interpretation, and installation. Students conduct an evaluation study and present evaluation results to museum staff. Restricted to graduate students. Same As: MSTD 6305. Credit cannot be earned for this course and EDUC 6706.

CMST 6306. Race, Gender, Sexuality, and the Museum. 3 Credits.

Exploration of the role that museums play in the construction, reification, and representation of ideas about race and gender. Restricted to graduate students.

CMST 6307. Interpreting Historic Sites and House Museums. 3 Credits.

Interpretation of historic sites and house museums, the most common type of museum in the United States, including historical significance, visitor needs and interests, and online and on-site interpretive methods. Restricted to graduate students.

CMST 6403. Museums and Technology. 3 Credits.

Critical analysis of the historical and contemporary relationships between museums and digital technologies. How human and institutional cultures shape and are shaped by their technologies and how such ideas inform museum practices. (Same as EDUC 6710).

CMST 6404. Museums and Social Media. 3 Credits.

How museums engage users through the internet. Online platforms used to evaluate the complexities of social media including strategies, tactics, and benchmarks for measuring online engagement and associated challenges and risks. Restricted to graduate students.

CMST 6501. Museum Studies Internship. 1-3 Credits.

Individual work experience in museums of the Washington area or elsewhere. Students are supervised by staff members of the cooperating museum in the areas of museum management, object care and conservation, or exhibitions. Restricted to students in the master's and certificate programs in museum studies.

CMST 6502. Directed Research. 3 Credits.

Individual research on special topics in the museum field under supervision by a professor or museum professional. Topics must be approved by the director of the Museum Studies Program. May be repeated for credit. Restricted to graduate students.

CMST 6601. Special Topics in Museum Studies. 3 Credits.
Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Restricted to graduate students.

CMST 6701. Museum History and Theory. 3 Credits.
Origins of the modern museum and the history of museums. Theorists whose ideas have been accessed to inform our understanding of museums as places of meaning making, power and empowerment, and cultural authority. Restricted to graduate students.

CMST 6703. Museums and Community Engagement. 3 Credits.
How museums engage with local communities as primary audiences for programming and support. Students perform community-engaged work with a local museum or historic site. Restricted to graduate students.

CMST 6704. Museums and Cultural Property. 3 Credits.
Legal and ethical principles of ownership and restitution of stolen art and other cultural property wrongfully removed from its owners or countries of origin. Current museum policies and procedures for acquisition, exhibition, retention, and restitution of their collections analyzed using claims brought against museums. Restricted to graduate students. Prerequisite: CMST 6201.

GRADUATE CERTIFICATE IN MUSEUM COLLECTIONS MANAGEMENT AND CARE

The graduate certificate in museum collections management and care features four graduate-level courses designed for those working or volunteering in museums with collections management responsibilities and either lacking prior formal museum studies training or desiring a refresher. Students complete the four 3-credit courses totally online (1 course per semester). Students in the program work at a variety of types and sizes of museums in locations across the country and around the world.

Visit the Museum Studies Program (<http://museumstudies.columbian.gwu.edu/>) website for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
Required		
MSTD 6201		
MSTD 6202		

MSTD 6203	Preventive Conservation Concepts
MSTD 6204	Preventive Conservation Techniques

GRADUATE CERTIFICATE IN MUSEUM STUDIES

The graduate certificate in museum studies is intended primarily for international museum professionals who wish to study museum administration, collections management, or exhibition development in the United States. The certificate program also is available to U.S. students who hold at least a master's degree in an appropriate subject.

Visit the program website (<https://corcoran.gwu.edu/graduate-certificate-museum-studies/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in elective courses and two 3-credit internships.

Code	Title	Credits
Required		
12 credits from the following		
MSTD 6101	Museum Management	
MSTD 6102		
MSTD 6103		
MSTD 6104		
MSTD 6201		
MSTD 6202		
MSTD 6203	Preventive Conservation Concepts	
MSTD 6204	Preventive Conservation Techniques	
MSTD 6301	Museum Exhibitions: Curatorial Research	
MSTD 6302		
MSTD 6304		
MSTD 6305	Visitor Perspectives: Museum Evaluation in Exhibitions	
MSTD 6701		
MSTD 6710		

Internship requirement:

MSTD 6501 (taken for 6 credits)

MASTER OF ARTS IN THE FIELD OF MUSEUM STUDIES

Part of the arts and humanities program in the Corcoran School of the Arts and Design of the Columbian College of Arts and Sciences, Museum Studies combines traditional academic training and the practical experience necessary to begin a successful museum career. The program ranks among the top museum training programs in the United States. Students come from a variety of disciplines, from anthropology to history, art history, and the natural sciences. Students complete advanced study and practical work experience through internship affiliations with more than 60 museums and cultural organizations, including the Smithsonian Institution.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 36 credits, including 6 credits in required courses and a 3-credit internship, and 27 credits in elective courses; fulfillment of a graduate writing requirement; delivery of an oral presentation based on the internship; and successful completion of a master's comprehensive examination.

Code	Title	Credits
Required		
CMST 6107	Museum Ethics and Values	
CMST 6501	Museum Studies Internship (Taken for 3 credits. Requires 200 hours per semester.)	
Field		
15 credits in courses focused on collections management, museum management, exhibitions and visitor experience, or public engagement.		
Electives		
15 credits in courses which may be drawn from within Museum Studies (CMST), including a second internship, or from outside the program. Up to 12 credits in non-CMST courses are permitted.		
Additional requirements		
Fulfillment of the graduate writing requirement.		

Delivery of an oral presentation based on the internship.

Successful completion of a master's comprehensive examination.

MUSIC

The music program of the Corcoran School of Arts & Design within the Columbian College of Arts and Sciences offers a broad base for understanding music as an art form and as a social, economic, and political practice. All students, regardless of their major, may perform in vocal, instrumental jazz, and chamber music groups; in choruses, orchestras, and bands; and in opera and musical theater productions.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in music (p. 355)

Minor

- Minor in music (p. 356)

FACULTY

Associate Professors K. Ahlquist, D. Boyce,

Assistant Professors R. Baker (*Chair*), E. Montague

Adjunct Professors C. Lornell, M. Scarlett (*Voice*)

Adjunct Instructor A.B. Clark (*Choral*), A.S. Wood (*Orchestra*)

Professorial Lecturers J. Albertson (*Guitar*), L. Barnett (*Cello*), R. Birch (*Trumpet*), M. Duhagon (*Classical Guitar*), M. Findley (*Violin*), P. Fraize (*Jazz Performance/Saxophone*), J.D. Levy (*Jazz*), P. O'Donnell (*Piano*), M. Orlando (*Piano*), J. Ozment (*Jazz Piano*), M. Peris (*Piano*)

Lecturers J. Connell (*Percussion*), G. Corella (*Tuba*), A. Crockett (*Voice*), E. Dirksen (*Bassoon*), S.M. Fearing (*French Horn*), L. Ferguson (*Clarinet*), E. Field (*Violin*), E. Guenther (*Pipe Organ*), D. Jones (*Clarinet*), C. Libelo (*Oboe*), A. Lucini (*Latin Percussion*), A. Reiff (*Voice*), B.R. Seidman (*Harp*), S. Stang (*Flute*), U. Wassertzug (*Viola*), S. Wellman (*Voice*), T. Wilson (*Jazz Trumpet*)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Performance Study

Performance study courses are offered both fall and spring, and may be repeated for credit. Music majors and minors, Presidential Arts Scholarship (<http://departments.columbian.gwu.edu/music/scholarships/>) students, and other students with skills or potential appropriate to the department's select ensembles are eligible for private lessons. Eligibility and placement for students new to private performance study are determined at a placement fair held at the beginning of each semester. For courses numbered in the 1500s, students may not register in the same semester for both the 1- and 2-credit course in the same instrument or in voice. Some performance study courses include individual lessons and require a supplementary fee. Supplementary fees for private performance courses are nonrefundable after the first two weeks of the fall and spring semesters; consult the Music Department (<http://departments.columbian.gwu.edu/music/>) for details. The supplementary fee is waived during the fall and spring semesters for full-time music majors and minors and for music Presidential Scholars in the Arts (<http://departments.columbian.gwu.edu/music/scholarships/>).

Required practice: a minimum of three hours a week for 1-credit courses and six hours a week for 2-credit courses.

MUS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

MUS 1061. Instrumental Ensemble. 1 Credit.

Chamber ensemble groups are approved by audition. Section numbers are .11 guitar ensemble, .12 percussion ensemble, .13 jazz combo, .14 keyboard ensemble, .15 string ensemble, .16 woodwind ensemble, .17 brass ensemble, .18 Baroque ensemble, .19 Latin band, .20 blues band.

MUS 1071. Jazz Band. 1 Credit.

Preparation and performance of classic and contemporary "big band" literature. Prerequisite: audition before director.

MUS 1081. Orchestra. 1 Credit.

Preparation and performance of orchestral literature. Prerequisite: audition before director.

MUS 1083. University Band. 1 Credit.

Consisting of two ensembles: The University Symphonic Band and GW Colonial Brass. See schedule of classes for section information. Audition before director required.

MUS 1091. University Singers. 1 Credit.

Preparation and performance of choral literature. Prerequisite: audition before director. Section .10 is University Singers; Section .11 is Chamber Choir.

MUS 1093. University Singers/Chamber Choir. 1 Credit.

Preparation and performance of choral literature. Section .10 is University Singers; Section .11 is Chamber Choir. Prerequisites: audition before director.

MUS 1095. Vocal Theater Workshop. 1 Credit.

Development of body awareness for the stage, acting improvisations, and character development. Scenes chosen from the opera, operetta, and musical theater repertoire. Musical coaching, use of makeup, and audition preparation.

MUS 1099. Variable Topics. 1-36 Credits.

MUS 1101. Elements of Music Theory. 3 Credits.

Elements necessary for the study of music, including practical musicianship and musical notations; develops skills in music reading, writing, and aural acuity. Concurrent registration in a music reading lab is required.

MUS 1102. Comprehensive Musicianship I. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard. Prerequisite: MUS 1101.

MUS 1103. Music in the Western World. 3 Credits.

Introductory history of musical styles, related to listening; study of music materials and media. Not open to music majors.

MUS 1104. Topics in Music. 3 Credits.

A rotating set of classes; topics may include: American music, a composer, the opera, and musical life in Washington, DC.

MUS 1105. Introduction to Musical Thought and Practice. 3 Credits.

Introduction to concepts, methods, and practices that guide the study and performance of music. Old and new paradigms of musical thought are subject to discussion and critical investigation.

MUS 1106. Introduction to Musical Performance and Experience. 3 Credits.

Through discussion, writing, and performance, students engage with issues such as the putative transcendent character of music, the false divisions between interpretation, improvisation, and composition, and the impact of modernity on expressive culture. Placing their own processes of musical decision making within these conceptual frames allows students to interrogate and develop their performative and social selves. Restricted to Register for this course in the Music department.

MUS 1107. Music of the World. 3 Credits.

Introduction to music in culture through comparative study of music from a variety of cultures worldwide.

MUS 1108. History of Jazz. 3 Credits.

Introduction to the styles, composers, and performers of jazz music from its origins to the present.

MUS 1151. Conducting. 3 Credits.

Technique of conducting, score reading, rehearsal procedures, analysis, and interpretation of selected musical literature; practice in conducting. Prerequisite: MUS 2101.

MUS 1511. Piano. 1 Credit.
MUS 1512. Piano. 2 Credits.
MUS 1513. Voice. 1 Credit.
MUS 1514. Voice. 2 Credits.
MUS 1515. Organ. 1 Credit.
MUS 1516. Organ. 2 Credits.
MUS 1517. Classical Guitar. 1 Credit.
MUS 1518. Classical Guitar. 2 Credits.
MUS 1519. Violin. 1 Credit.
MUS 1520. Violin. 2 Credits.
MUS 1521. Viola. 1 Credit.
MUS 1522. Viola. 2 Credits.
MUS 1523. Cello. 1 Credit.
MUS 1524. Cello. 2 Credits.
MUS 1525. Bass. 1 Credit.
MUS 1526. Bass. 2 Credits.
MUS 1527. Flute. 1 Credit.
MUS 1528. Flute. 2 Credits.
MUS 1529. Recorder. 1 Credit.
MUS 1530. Recorder. 2 Credits.
MUS 1531. Oboe. 1 Credit.
MUS 1532. Oboe. 2 Credits.
MUS 1533. Clarinet. 1 Credit.
MUS 1534. Clarinet. 2 Credits.
MUS 1535. Saxophone. 1 Credit.
MUS 1536. Saxophone. 2 Credits.
MUS 1537. Bassoon. 1 Credit.
MUS 1538. Bassoon. 2 Credits.
MUS 1539. French Horn. 1 Credit.
MUS 1540. French Horn. 2 Credits.
MUS 1541. Trumpet. 1 Credit.
MUS 1542. Trumpet. 2 Credits.
MUS 1543. Trombone. 1 Credit.
MUS 1544. Trombone. 2 Credits.
MUS 1545. Tuba. 1 Credit.
MUS 1546. Tuba. 2 Credits.
MUS 1547. Harp. 1 Credit.
MUS 1548. Harp. 2 Credits.
MUS 1549. Percussion. 1 Credit.
MUS 1550. Percussion. 2 Credits.
MUS 1555. Lute. 1 Credit.
MUS 1556. Lute. 2 Credits.
MUS 1557. Harpsichord. 1 Credit.

MUS 1572. Jazz Performance Techniques. 2 Credits.

MUS 2012. Piano. 2 Credits.

Prerequisite: Open by examination.

MUS 2014. Voice. 2 Credits.

Prerequisite: Open by examination.

MUS 2016. Organ. 2 Credits.

Prerequisite: Open by examination.

MUS 2018. Classical Guitar. 2 Credits.

Prerequisite: Open by examination.

MUS 2020. Violin. 2 Credits.

Prerequisite: Open by examination.

MUS 2022. Viola. 2 Credits.

Prerequisite: Open by examination.

MUS 2024. Cello. 2 Credits.

Prerequisite: Open by examination.

MUS 2026. Bass. 2 Credits.

Prerequisite: Open by examination.

MUS 2028. Flute. 2 Credits.

Prerequisite: Open by examination.

MUS 2030. Recorder. 2 Credits.

Prerequisite: Open by examination.

MUS 2032. Oboe. 2 Credits.

Prerequisite: Open by examination.

MUS 2034. Clarinet. 2 Credits.

Prerequisite: Open by examination.

MUS 2036. Saxophone. 2 Credits.

Prerequisite: Open by examination.

MUS 2038. Bassoon. 2 Credits.

Prerequisite: Open by examination.

MUS 2040. French Horn. 2 Credits.

Prerequisite: Open by examination.

MUS 2042. Trumpet. 2 Credits.

Prerequisite: Open by examination.

MUS 2044. Trombone. 2 Credits.

Prerequisite: Open by examination.

MUS 2046. Tuba. 2 Credits.

Prerequisite: Open by examination.

MUS 2048. Harp. 2 Credits.

Prerequisite: Open by examination.

MUS 2050. Percussion. 2 Credits.

Prerequisite: Open by examination.

MUS 2058. Harpsichord. 2 Credits.

Prerequisite: Open by examination.

MUS 2071. Jazz Performance Techniques. 1-3 Credits.

MUS 2072. Jazz Performance Techniques. 2 Credits.

Prerequisite: Open by examination.

MUS 2101. Harmony. 3 Credits.

Study of tonal harmonic practice from Baroque, Classical, Romantic, and twentieth-century repertoires. Concurrent registration in the weekly keyboard lab is required. Prerequisite: MUS 1102.

MUS 2102. Comprehensive Musicianship II. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard. Prerequisite: MUS 2101.

MUS 2105. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor. Application and critique of models in the design and execution of student independent field research. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor. Same As: ANTH 2505.

MUS 2105W. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor. Application and critique of models in the design and execution of student independent field research. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MUS 1101 or ANTH 1002 or ANTH 1004; or permission of the instructor. Same As: ANTH 2505.

MUS 2106. Music History III: Twentieth-Century Art Traditions. 3 Credits.

Western musical traditions and styles since Romanticism and approaches to music as art in contemporary society. Prerequisite: MUS 1101.

MUS 2122. Music in the U.S.. 3 Credits.

History of music and musical life in the United States, emphasizing relationships among traditions of diverse origin. Prerequisites: MUS 1101 or permission of the instructor.

MUS 2122W. Music in the U.S.. 3 Credits.

History of music and musical life in the United States, emphasizing relationships among traditions of diverse origin. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: MUS 1101 or permission of the instructor. Same As: MUS 2122.

MUS 2123. Musical Cultures of Black Americans. 3 Credits.

Musical genres and styles developed by African Americans since Reconstruction in their historical and cultural contexts. Emphasis on black musical contributions to the cultural life of Washington, DC.

MUS 2134. Composition. 3 Credits.

Introduction to twenty-first-century compositional practice; concepts of post-tonal analysis; emphasis on style studies and original student works. May be repeated for credit. Prerequisite: MUS 2101.

MUS 2140. Pedagogy. 3 Credits.

Principles, materials, and methods of teaching in selected areas. Permission of the instructor required prior to enrollment.

MUS 2173. Comprehensive Musicianship for Jazz. 2 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard, with emphasis given to skills associated with jazz performance. Prerequisite: MUS 1102.

MUS 2174. Introduction to Jazz Harmony. 3 Credits.

Analysis and composition of tunes in jazz/pop styles. Study of rhythmic characteristics, voice-leading, and chord/scale relationships within a jazz context. Prerequisite: MUS 1102.

MUS 2318. Orchestral Instrument. 2 Credits.

Prerequisite: Open by examination.

MUS 2661. Electronic and Computer Music I. 3 Credits.

Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee.

MUS 2662. Electronic and Computer Music II. 3 Credits.

Continuation of MUS 2661. Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee. Prerequisite: MUS 2661.

MUS 3099. Variable Topics. 1-12 Credits.**MUS 3126. Music History I: Antiquity through Early Baroque. 3 Credits.**

The development of Western European music from its earliest traceable roots to the end of the early, experimental Baroque period. Prerequisite: MUS 1102 and sophomore standing.

MUS 3127. Music History II: The Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late 17th through the late 19th centuries. Prerequisite: MUS 1102.

MUS 3127W. Music History II: Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late seventeenth through the late nineteenth centuries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 1102.

MUS 3139. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Prerequisite: MUS 2101.

MUS 3139W. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: MUS 2101.

MUS 3174. Topics in Music Theory and Composition. 3 Credits.

A seminar on variable topics in the discipline of music theory, analysis, and composition. Topics may include analysis of post-tonal music, advanced jazz arranging, analysis of fourteenth-century vocal music, developments in extended instrumental techniques since 1950. Prerequisites depend on the topic; consult the department.

MUS 3175. Topics in Music History and Literature. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department. Credit cannot be earned for this course and TRDA 2185.

MUS 3175W. Topics in Music History and Literature. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, DC. Prerequisites depend on the topic; consult the department. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Credit cannot be earned for this course and TRDA 2185.

MUS 4085. Senior Capstone Project. 2-4 Credits.

Research, composition, or performance project. Students must consult with a faculty mentor and present a written proposal prior to enrollment and meet regularly with their mentor throughout the semester. Restricted to senior music majors. Recommended background: prior completion of MUS 4198.

MUS 4184. Advanced Composition. 3 Credits.

Private instruction in composition in tutorial format. Prerequisite: MUS 2134.

MUS 4198. Senior Seminar. 3 Credits.

Methodologies of musical research, including studies in performance, composition, history, bibliography, and cultural theory. Recommended for students completing senior capstone projects. Restricted to music majors.

MUS 4199. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite.

MUS 4199W. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

MUS 5099. Variable Topics. 1-99 Credits.

BACHELOR OF ARTS WITH A MAJOR IN MUSIC

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required courses in the major		
MUS 1102	Comprehensive Musicianship I	
MUS 2101	Harmony	
MUS 2106	Music History III: Twentieth-Century Art Traditions	
One of the following		
MUS 3126	Music History I: Antiquity through Early Baroque	
MUS 3127	Music History II: The Tonal Era	
Electives		
15 credits in courses in the following groupings: MUS 1100-1199, MUS 2100-2199, MUS 3100-3199, and MUS 4100-4199. These are to include (1) a maximum of 6 credits in courses in the MUS 1100-1199 grouping, and (2) a minimum of 3 credits in the 3100-3199 or 4100-4199 groupings.		
4 credits in courses selected from the following groupings: MUS 1000-1099 (ensembles), MUS 1500-1599, MUS 2000-2099, and MUS 2500-2599 (private study).		
6 credits in unrestricted electives selected from courses offered by the Music Department.		
Senior Experience		
MUS 4198	Senior Seminar	
MUS 4085	Senior Capstone Project	

All majors are expected to attend departmental lectures, master classes, and concerts, as appropriate.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the

liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW

courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in music, a student must maintain a 3.5 grade-point average in music courses and at least a 3.0 average overall. The student must complete the required senior independent project for at least 3 credits with a minimum grade of A-.

MINOR IN MUSIC REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including one 3-credit required course and 15 credits in elective courses.

Code	Title	Credits
Required		
MUS 1102	Comprehensive Musicianship I	
Electives		
Two courses (5-6 credits) from among the MUS 1100, MUS 2100, and MUS 3100 groupings; only one course in the 1100 grouping may be counted toward this requirement.		
Additional electives selected from among all Music (MUS) courses, including academic, performance study, and ensemble courses.		

All minors are expected to attend departmental lectures, master classes, and concerts, as appropriate.

ORGANIZATIONAL SCIENCES AND COMMUNICATION

The Department of Organizational Sciences and Communication provides a multidisciplinary home for faculty and undergraduate, master's, and doctoral students interested in the study, interpretation, and improvement of organizational and communication phenomena. The department seeks to increase understanding of communication and organizations at the individual, interpersonal, group, organizational, societal, and global levels, by incorporating a variety of epistemological and methodological approaches. The department comprises three programs:

Communication

The Communication program explores how people constitute and share meaning in an abstract world. Current curricular offerings probe communication events as media-bound occurrences, studying the verbal and nonverbal, oral or written,

live or mass media nature of communication phenomena. A major in communication, two minors (communication and organizational communication), and a master's degree in communication management are offered.

Organizational Sciences

Centered within a social systems framework, Organizational Sciences offers undergraduate and graduate programs that focus on the for-profit, nonprofit, government, military, service, and other sectors. The premise of the program's offerings is that success comes with a deep understanding of the theory and practice underlying individual and organizational effectiveness. Major, minor, and master's degree in organizational sciences are offered.

I/O Psychology (industrial and organizational psychology)

I/O Psychology offers a doctoral program in areas such as personnel selection, training and development, work motivation, leadership, and work teams. The program of study is designed in accordance with guidelines established by the Society for Industrial and Organizational Psychology.

In addition, the Department of Organizational Sciences and Communication, through the Columbian College of Arts and Sciences, offers an interdisciplinary program leading to the degree of master of arts in leadership education and development (LEAD) to a cohort of designated officers from the U.S. Naval Academy (USNA). The Department awards the degree in partnership with the Division of Leadership at USNA.

Visit the Department of Organizational Sciences and Communication website (<https://orgsciandcomm.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in communication (p. 357)
- Bachelor of Arts with a major in organizational sciences (p. 359)

Minors

- Minor in communication (p. 365)
- Minor in organizational communication (p. 366)
- Minor in organizational sciences (p. 366)

GRADUATE

Master's programs

- Master of Arts in the field of communication management (p. 363)
- Master of Arts in the field of leadership education and development (p. 364)

- Master of Arts in the field of organizational sciences (p. 364)

Doctoral program

- Doctor of Philosophy in the field of industrial/organizational psychology (p. 361)

FACULTY

Professors M. Liu (Chair), L. Offermann, C. Warren

Associate Professors D.P. Costanza, G. Debebe, K. Pariera

Assistant Professors J.C. Miller, N. Olsen, Y. Peng, J. Proulx

Visiting Professor M. Koplovsky

Adjunct Professors K. Ball, M. Lee, L. Lu, L. Peters, C. Wood

Professorial Lecturers Q. Ahmed, D. Barry, M. Brindle, M.A. DiMola, P. Frecknall, T. Hayes, E. Hoffman, J. MacDoniels

Lecturers T. Alexander, N. Chaaban, D. Jackson, C. Kennedy, B. McConnell, J. McDonald, B. Piatt, S. Tomasovic, J. Walker, A. Weiner, N. Wolfson

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Within the Department of Organizational Sciences and Communication, any course counted toward the major may not also be counted toward the minor. Students taking more than one minor in the department may not double-count electives.

- Communication (COMM) (p. 1468)
- Organizational Sciences (ORSC) (p. 1714)

BACHELOR OF ARTS WITH A MAJOR IN COMMUNICATION

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required (21 credits)		
COMM 1025	Introduction to Communication Studies	
COMM 1040	Public Communication	
COMM 1041	Interpersonal Communication	
COMM 2100	Communication Theory	
COMM 3110	Research Methods in Communication	
COMM 4150	Persuasion	
COMM 4199W	Senior Seminar	
Electives (18 credits)		
Six additional Communication (COMM) courses at the 2000 level or above.		
Courses in related areas (15 credits)		
15 credits in upper-division courses in one other department, program, or field of study, as approved by the major advisor. This requirement may be fulfilled by completion of a second major, a minor, or a field of study other than organizational communication.		

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

Students may graduate with Special Honors if they meet the following criteria:

1. Special Honors requirements stated under University Regulations;
2. Selection to Lambda Pi Eta, the National Communication Association Honor Society, which maintains a chapter in the GW Communication Program (i.e., open to majors who have completed a minimum of 24 hours in communication coursework, who hold a grade-point average of 3.3 in communication courses and a grade-point average of 3.0 overall, and who are recommended by a majority of the full-time communication faculty); and,
3. A minimum grade of A- on the thesis required in COMM 4199W Senior Seminar.

BACHELOR OF ARTS WITH A MAJOR IN ORGANIZATIONAL SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required courses (24 credits):		
COMM 3170	Organizational Communication	
ECON 1011	Principles of Economics I	
or ECON 1012	Principles of Economics II	
ORSC 1109	Introduction to Organizational Sciences *	
ORSC 2046	Global Organizations	
ORSC 2544	Industrial/Organizational Psychology	
ORSC 4161	Research Methods in Organizational Sciences	
ORSC 4197W	Senior Research Seminar	
STAT 1053	Introduction to Statistics in Social Science	
Five courses (15 credits) from the following:		
ORSC 2116	Leading Change	
ORSC 2123	Negotiation and Conflict Resolution	
ORSC 2143	Leadership and Performance	
ORSC 2560	Group Dynamics	
ORSC 3141	Strategy in Organizations	
ORSC 3159	Extreme Decisions	
ORSC 3165	Organizational Network Analysis	
ORSC 3190	Special Topics	
ORSC 4195	Independent Study	
Two courses (6 credits) both within the same department, from the following:		
AMST 2010	Early American Cultural History	

or HIST 2010	Early American Cultural History
AMST 2011	Modern American Cultural History
or HIST 2011	Modern American Cultural History
AMST 2020	Washington, DC: History, Culture, and Politics
or AMST 2020W	Washington, DC: History, Culture, and Politics
or HIST 2020	Washington, DC: History, Culture, and Politics
or HIST 2020W	Washington, DC: History, Culture, and Politics
AMST 2320	U.S. Media and Cultural History
or HIST 2320	U.S. Media and Cultural History
AMST 2490	Themes in U.S. Cultural History
or AMST 2490W	Themes in U.S. Cultural History
or HIST 2490	Themes in U.S. Cultural History
or HIST 2490W	Themes in U.S. Cultural History
AMST 2520	American Architecture I
or AH 2154	American Architecture I
AMST 2521	American Architecture II
or AH 2155	American Architecture II
AMST 2533	Material Culture in America
or ANTH 2533	Material Culture in America
AMST 3900	Critiquing Culture
AMST 3901	Examining America
ANTH 2008	Foundations of Anthropological Thought
or ANTH 2008W	Foundations of Anthropology
ANTH 3501	Anthropology of Development
ANTH 3502	Cultural Ecology
ANTH 3503	Psychological Anthropology
ANTH 3506	Politics, Ethnicity, and Nationalism
ANTH 3513	Anthropology of Human Rights
or ANTH 3513W	Anthropology of Human Rights
ANTH 3531	Methods in Sociocultural Anthropology
ANTH 3601	Language, Culture, and Cognition

or LING 3601	Language, Culture, and Cognition
ANTH 3802	Human Cultural Beginnings
or ANTH 3802W	Human Cultural Beginnings
COMM 2120	Small Group Communication
COMM 2140	Nonverbal Behavior
COMM 3171	Professional Communication
COMM 3173	Communication in a Mediated World
COMM 3174	Intercultural Communication
COMM 3176	Issues and Image Management
ECON 2136	Environmental and Natural Resource Economics
ECON 2157	Urban and Regional Economics
ECON 2158	Industrial Organization
ECON 2159	Government Regulation of the Economy
ECON 2169	Introduction to the Economy of China
ECON 2170	Introduction to the Economy of Japan
ECON 2180	Survey of International Economics
ECON 3142	Labor Economics
ECON 3165	Economics of Human Resources
ECON 3191	Game Theory
GEOG 2127	Population Geography
GEOG 2133	People, Land, and Food
GEOG 2134	Energy Resources
or GEOG 2134W	Energy Resources
GEOG 2140	Cities and Societies
or GEOG 2140W	Urban Geography
GEOG 2141	Cities in the Developing World
GEOG 2148	Economic Geography
GEOG 3143	Urban Sustainability
or GEOG 3143W	Urban Sustainability
HIST 2321	U.S. History, 1890-1945
HIST 2340	U.S. Diplomatic History
or HIST 2340W	U.S. Diplomatic History

HIST 2440	The American City
or AMST 2440	The American City
HIST 3033	War and the Military in American Society from the Revolution to the Gulf War
or AMST 3324	U.S. Urban History
HIST 3324	U.S. Urban History
or AMST 3324	U.S. Urban History
HIST 3351	U.S. Social History
or AMST 3351	U.S. Social History
HIST 3366	Immigration, Ethnicity, and the American Experience
or HIST 3366W	Immigration, Ethnicity, and the American Experience
HIST 3611	History of Modern China
HIST 3621	History of Modern Japan
PSC 2216	The American Presidency
PSC 2217	Executive Branch Politics
or PPPA 2117	Executive Branch Politics
PSC 2218	Legislative Politics
or PSC 2218W	Legislative Politics
PSC 2219	Political Parties and Interest Groups

*If a grade below C- is earned in ORSC 1109, the course must be repeated. Credit for the repetition will not count toward the degree.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations (p. 27), in order to be considered for graduation with Special Honors, students must have a minimum grade-point average of 3.5 in courses required for the major, earn a minimum grade of A- in ORSC 4197W Senior Research Seminar, and take a graduate-level seminar with permission of the department or complete an independent study project in ORSC 4195 Independent Study with a minimum grade of A-.

DOCTOR OF PHILOSOPHY IN THE FIELD OF INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

The Industrial/Organizational (I/O) Psychology Doctoral Program, a degree in psychology offered through the Department of Organizational Sciences & Communication, provides graduate education in areas such as personnel selection, training and development, work motivation, leadership, work teams, and organizational development. The program of study is designed in accordance with guidelines established by the Society for Industrial and Organizational Psychology (SIOP; Division 14, APA).

REQUIREMENTS

The following requirements must be fulfilled: 72 credits, including 42 credits in required courses, 12 credits in elective courses, and 18 credits in dissertation.

Code	Title	Credits
Required		
Methods/statistics		
DNSC 6274	Statistical Modeling and Analysis	3
DNSC 6275	Advanced Statistical Modeling and Analysis	3
DNSC 6276	Exploratory and Multivariate Data Analysis	3
ORSC 8261	Research Methods in Organizational Sciences	3

STAT 2118	Regression Analysis	3
STAT 3119	Analysis of Variance	0,3
Dissertation		
PSYC 8998	Advanced Reading and Research (taken for 3 credits)	1-12
PSYC 8999	Dissertation Research (taken for 15 credits)	3-12

*Can be used as an elective only if it is not chosen to fulfill the breadth requirement.

** The list of electives is not exhaustive. At least 3 credits must be taken in a course outside of the PSYC designation.

MASTER OF ARTS IN THE FIELD OF COMMUNICATION MANAGEMENT

The Department of Organizational Sciences and Communication offers an interdisciplinary program leading to the degree of Master of Arts in the field of Communication Management. Communication management explores systematic planning, implementing, monitoring, and revising of communication messages and processes (including technology and networks) within and across organizations. The program is designed to meet the needs of a diverse pool of students with varying career aspirations in this growing field.

Understanding how people inform, influence, and persuade each other is central to the program's curriculum. By applying theory to practical issues and research problems, students learn to envision and facilitate communication management strategies such as intergroup dialogues, communication campaigns and organizational interventions. Rigorous coursework enables students to build a solid foundation for assessing and enhancing communication management in intercultural, organizational, public, and health contexts. In addition, the program offers both a thesis and non-thesis option.

Students develop their problem-solving, strategic decision-making, and written and oral advocacy skills throughout the course of the program. In the end, graduates are well-equipped for communication management objectives including more effective leadership, better flow of essential communications, higher employee satisfaction, stronger brand recognition, and increased profits. The MA program also prepares students planning to continue to doctoral programs in communication and related disciplines, such as international affairs, organizational sciences and public health. GW's location in the heart of Washington DC also provides students with unique access to a wealth of government and media agencies, consulting firms and other notable organizations that enhance the graduate studies experience.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits: Thesis option—15 credits in required courses, including 6 credits in thesis and 9 credits in elective courses, with a minimum of 3 credits in an elective COMM course; non-thesis option—15 credits in required courses and 15 credits in

elective courses, with a minimum of 6 credits in elective COMM courses.

MASTER OF ARTS IN THE FIELD OF LEADERSHIP EDUCATION AND DEVELOPMENT

The Leadership Education and Development (LEAD) Program is the product of a partnership with the Division of Leadership at the U.S. Naval Academy (USNA). Together, USNA and the Department of Organizational Sciences and Communication offer an interdisciplinary Master of Arts in Leadership Education and Development. Each year, the competitive program accepts a cohort of talented officers from the USNA.

LEAD Program participants hone their critical and analytical thinking and develop the skills necessary to understand, design and foster leadership and team development. Coursework is

shared between GW and the USNA and includes a required research capstone project. Participants also network with LEAD Distinguished Speakers at an annual lecture and reception designed for LEAD fellows who may go on to careers in the U.S. Navy or Marine Corps.

Students complete the MA program in three academic terms (a summer session plus the following academic year). Following completion of the degree, participants serve a two-year tour as company officers, for a total LEAD program commitment of three years.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including 18 credits taken at GW and 15 credits taken at the U.S. Naval Academy (USNA)

MASTER OF ARTS IN THE FIELD OF ORGANIZATIONAL SCIENCES

The program emphasizes that individuals and organizations must be ready to think and act quickly and effectively. Students are prepared to analyze and solve problems by synthesizing information, rethinking processes, enhancing collaboration, sculpting organizational culture and integrating interests of diverse stakeholders. An understanding of the systems

and relationships among individuals, organizations and the environment is pivotal to success. The program also focuses on a systems perspective, including aspects such as leadership, strategy, change, talent management, negotiation and relevant methodological and statistical techniques. Graduate students in organizational sciences work in managerial and leadership positions in every type of organization. Related areas include industrial and organizational psychology and organizational communication.

Visit the program website (<https://orgsciandcomm.columbian.gwu.edu/organizational-sciences-ma/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 27 credits in required courses, 9 credits in elective courses, and successful completion of a master's comprehensive examination.

Code	Title	Credits

PEACE STUDIES

The Peace Studies program is designed to strengthen a student's ability to explore the multiple meanings of peace, the relationship between peace and conflict, and the role of peace on local and global levels. The program fosters the study of peace in its philosophical and religious dimensions, as an important aspect of international affairs, and as a

vital part of social, economic, and environmental justice. Peace Studies focuses on the examination of peace and conflict through the lens of the humanities and the liberal arts. Housed within the Department of Religion (<http://religion.columbian.gwu.edu/>) in the Columbian College of Arts and Sciences, the Peace Studies program emphasizes the role of world religions in peace building and conflict resolution.

Visit the Peace Studies Program website (<https://religion.columbian.gwu.edu/peace-studies-program/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in peace studies (p. 367)

Minor

- Minor in peace studies (p. 370)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSTD 1010. Introduction to Peace Studies and Conflict Resolution. 3 Credits.

Major thinkers and themes in the field of peace studies and conflict resolution. Focus on philosophical and religious foundations of peace and justice movements in the twentieth century. Examination of peace and conflict through an interdisciplinary lens and on personal, local, and international levels.

PSTD 1099. Variable Topics. 1-36 Credits.

PSTD 3099. Variable Topics. 1-12 Credits.

PSTD 3190. Capstone Seminar. 3 Credits.

Capstone seminar for peace studies majors and minors in their junior or senior year. Taken concurrently with a relevant internship or as part of a long-term research project to probe the relationship between peace studies and conflict resolution in practice and in theory. Offered in the fall semester only. Restricted to peace studies majors and minors.

PSTD 3191. Special Topics Peace Studies. 1-6 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

PSTD 3999. Independent Study. 1-3 Credits.

Tutorial designed by an undergraduate student under the guidance of a faculty member to pursue an academic topic in the area of Peace Studies and Conflict Resolution outside available course offerings.

PSTD 5099. Variable Topics. 1-99 Credits.

BACHELOR OF ARTS WITH A MAJOR IN PEACE STUDIES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below)

Two years of a single foreign language, or placement into the third year of a foreign language by examination, or one year each of two modern foreign languages.*

Special Topics courses may count toward the major with the approval of the Peace Studies Program Director.

*Students are encouraged to study abroad.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement,

G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW

courses that have been approved by the University and the College.

SPECIAL HONORS

Special Honors are awarded to students who meet the requirements stated under University Regulations, maintain a grade-point average of 3.5, and receive a minimum grade of A- in PSTD 3190 Peace Studies Seminar.

MINOR IN PEACE STUDIES

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

One additional elective

An internship in a relevant agency may also count for 3 credits, with advisor's prior approval, through the following:

CCAS 2154 Elective Internship

* Lists of courses that can fulfill each category (<http://religion.columbian.gwu.edu/undergraduate-academic-programs/>) are available in the Department of Religion.

PHILOSOPHY

From reading the works of Plato and Aristotle to studying logic and phenomenology, the Department of Philosophy provides a broad-based learning experience. One of the arts and humanities disciplines in the Columbian College of Arts and Sciences, the program also examines the intersection of philosophy with other subjects, including law, biomedicine, science, and politics.

Two options are offered for the major, both of which are designed to give a broad background in philosophy, but

with somewhat different emphases. The first option reflects the traditional structure of the discipline and its subfields; it is especially (but not exclusively) recommended for those considering graduate study in philosophy. The second option is designed for those primarily interested in the relationship of philosophy to public affairs.

Visit the program website (<https://philosophy.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in philosophy (p. 378)
- Bachelor of Arts with a major in philosophy (public affairs focus) (p. 379)

Minors

- Minor in applied ethics (p. 383)
- Minor in linguistics (p. 68) (interdisciplinary)
- Minor in logic (p. 383)
- Minor in mind-brain studies (p. 383)
- Minor in philosophy (p. 384)

Combined programs

- Dual Bachelor of Arts with a major in philosophy and Master of Arts in the field of philosophy (p. 381)
- Dual Bachelor of Arts with a major in philosophy and Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 381)
- Dual Bachelor of Arts with a major in philosophy (public affairs focus) and Master of Arts in the field of philosophy (p. 380)
- Dual Bachelor of Arts with a major in philosophy (public affairs focus) and Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 380)

GRADUATE

Master's programs

- Master of Arts in the field of philosophy (p. 381)
- Master of Arts in the field of public policy with a concentration in philosophy and social policy (p. 382)

FACULTY

Professors D. DeGrazia, G. Weiss

Associate Professors J.C. Brand, M. Friend, L. Papish, M. Ralkowski, T. Zawidzki (Chair)

Assistant Professors A. Archer, E.J. Saidel, J. Trullinger, V.C. Wills

Adjunct Professors M. Davis, C. Venner

Affiliated Faculty E. Aviv, D. Malone-France, L. Rafanelli

Professorial Lecturers R. Carr, L. Eby, A. Jurkiewicz, D. Kirilov, S. Renault-Steele

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHIL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PHIL 1051. Introduction to Philosophy. 3 Credits.

Readings from major philosophers and study of their positions on the most basic questions of human life. Topics include such issues as: What is justice? What is knowledge? What is reality? Does God exist? What is the mind? Do humans have free will?

PHIL 1062. Philosophy and Film. 3 Credits.

Philosophical problems and theories of perception, meaning, personal identity, and moral agency and their illustration in the context of cinema. Cinema and its derivatives (TV, video) as prime routes to experience of the natural and social worlds in an age of communication. Readings in classical and contemporary philosophy and in film theory; screening of a series of films.

PHIL 1099. Variable Topics. 1-36 Credits.

PHIL 1153. The Meaning of Mind. 3 Credits.

Introductory course for students with no background in philosophy or the sciences of the mind. The central questions, assumptions, and hypotheses about the human mind. The nature of thought, consciousness, and self; knowledge of other minds; implications of the sciences of the mind for freedom of the will and responsibility; and the relationship between the mind and the brain.

PHIL 1193. Introduction to Existentialism. 3 Credits.

The philosophical themes of selfhood, mortality, authenticity, and ethical responsibility from an existentialist perspective, including the writings of Kierkegaard, Heidegger, Nietzsche, Camus, and Sartre. The place of existentialism in the history of philosophy.

PHIL 2045. Introduction to Logic. 3 Credits.

Introduction to informal logic, scientific argument, and formal logic. The informal logic component focuses on fallacies of reasoning and practical applications of logic. The formal logic component focuses on translation from English into propositional logic, truth tables, and proofs in propositional logic.

PHIL 2111. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2111W. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (sixth century BCE to first century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2112. History of Modern Philosophy. 3 Credits.

History of Western philosophy of the 16th through 18th centuries; Continental Rationalism and British Empiricism from the scientific revolution through the Enlightenment; major emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Prerequisite: PHIL 1051 .

PHIL 2124. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights. Same As: PHIL 2124W.

PHIL 2124W. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 2124.

PHIL 2125. Philosophy of Race and Gender. 3 Credits.

Differing theoretical perspectives on how race, sexuality, gender, class, and ethnicity inform (and re-form) individual as well as group identities; consequences of being marginalized because one is associated with an allegedly inferior race, sex, and/or gender.

PHIL 2125W. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2131. Ethics: Theory and Applications. 3 Credits.

Examination of leading ethical theories (e.g., utilitarianism, deontology, virtue ethics), and methodology in ethics. Engagement with contemporary problems.

PHIL 2132. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2132W. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 2133. Philosophy and Nonviolence. 3 Credits.

Violence and nonviolence in the personal and social struggle for meaningful, just, and peaceful existence; philosophical foundations of pacifism and nonviolent resistance in the thought of Tolstoy, Gandhi, King, and others; philosophical inquiry into war, terrorism, genocide, and ethnic conflict, as well as human rights, humanitarian intervention, and just war theory.

PHIL 2134. Philosophy of Human Rights. 3 Credits.

Conceptual, ethical, and theoretical analyses of human rights with emphasis on the justification of human rights, the debate over cultural relativism, and the application of human rights norms in domestic and global contexts.

PHIL 2135. Ethics in Business and the Professions. 3 Credits.

Ethical theories and basic concepts for analysis of moral issues arising in business and in professional practice.

PHIL 2136. Contemporary Issues in Ethics. 3 Credits.

Introduction to a range of debates in applied ethics, including both classic debates concerning topics such as the permissibility of abortion, animal treatment, and suicide as well as more current debates concerning our interactions with the environment and our obligations to the poor in a global context.

PHIL 2140. Philosophy of Love, Sex, and Friendship. 3 Credits.

Introduction to the philosophy of love, sex, and friendship through historical and contemporary texts; the differences between love and friendship, whether love and friendship require an ethical justification, and feminist approaches to sex and sexuality.

PHIL 2281. Philosophy of the Environment. 3 Credits.

Three models of environmental sustainability: the current paradigm in economic and cultural thinking (neoclassical economics); redistribution of resources toward greater global equity (a macroeconomic perspective); and de-growth in the developed economies (ecological economics). The models offer different perspectives on what environmental sustainability means and how it can impact the cultural, religious, moral, metaphysical, and existential situation.

PHIL 3099. Variable Topics. 1-12 Credits.**PHIL 3100. Selected Topics. 3 Credits.**

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3100W. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 3113. Nineteenth-Century Philosophy. 3 Credits.

European philosophy of the nineteenth century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051.

PHIL 3113W. Nineteenth-Century Philosophy. 3 Credits.

European philosophy of the 19th century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PHIL 1051. Same As: PHIL 3113.

PHIL 3121. Symbolic Logic. 3 Credits.

Analysis and assessment of deductive arguments, using propositional, predicate, and other logics; philosophical basis and implications of logical analysis; metatheory of logic; modal and non-standard logics. Prerequisites: Permission of the instructor.

PHIL 3142. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3142W. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 3151. Philosophy of Science. 3 Credits.

Philosophical issues raised by the sciences. The distinction between scientific and non-scientific explanations, the nature of causality and natural laws, the role of empirical evidence in science, the status of unobservable, theoretical posits in science, and the historical sources of scientific hypotheses. A 2000-level philosophy course may be substituted for the prerequisite. Prerequisite: PHIL 1051.

PHIL 3151W. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or two semesters of college-level science.

PHIL 3152. Theory of Knowledge. 3 Credits.

Inquiry into the basis and structure of knowledge, the problems of skepticism and justification, the relations between subjectivity and objectivity, and the contributions of reason, sense experience, and language. Prerequisite: PHIL 1051. Recommended background: PHIL 2112.

PHIL 3153. Mind, Brain, and Artificial Intelligence. 3 Credits.

Investigation of the nature of mind from a variety of perspectives, including neuroscience, cognitive psychology, and artificial intelligence, as well as traditional philosophy of mind. Possible additional topics include consciousness, mental disorders, animal minds, and the nature and meaning of dreams. Prerequisites: PHIL 1051 or PHIL 1153 or PHIL 2112 or permission of the instructor.

PHIL 3161. Philosophy and Literature. 3 Credits.

Critical investigation of the sociopolitical commitments that inform the practices of reading and writing as discussed by Sartre, Barthes, Foucault, and others. Focus on the development of existentialist themes, including authenticity, freedom, temporality, and death in the work of Kafka, Tolstoy, Mann, Woolf, and others.

PHIL 3162. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113. Same As: PHIL 3162W.

PHIL 3162W. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113. Same As: PHIL 3162.

PHIL 3172. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3172W. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late nineteenth through mid-twentieth centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 3172.

PHIL 3201. Perspectives on Math and Science. 3 Credits.

Topics and episodes in the history of science and math. Processes by which math and science evolve. Perspectives include biology, physics, geology, astronomy, chemistry, and math. Historical perspectives on the content and direction of the sciences. Same As: GTCH 3201.

PHIL 3251. Philosophy of Biology. 3 Credits.

An introduction to conceptual and methodological issues raised by contemporary biology, including teleology, reductionism, units of selection, the structure of evolutionary theory, genetics, taxonomy, and the nature of scientific explanation. Other issues may include the nature-nurture debate, creationism/intelligent design, the evolution of altruism, and the relevance of evolutionary theory to ethical questions.

PHIL 4000. Special Topics in the History of Philosophy. 3 Credits.

In-depth reading of two Kantian masterpieces, Critique of Pure Reason (1781; second edition 1787) and Groundwork for the Metaphysics of Morals. Restricted to juniors. Prerequisites: PHIL 2111, or PHIL 2112, or PHIL 3113 or PHIL 4193.

PHIL 4192. Analytic Philosophy. 3 Credits.

The dominant movements of twentieth-century Anglo-American philosophy, including logical positivism, British ordinary language philosophy, and neopragmatism, as represented by Russell, G.E. Moore, Wittgenstein, Ayer, Quine, Kripke, et al. Students must have completed one other upper-division philosophy course prior to enrollment. Recommended background: PHIL 2112 and PHIL 3121.

PHIL 4193. Twentieth-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisites: PHIL 2112 or PHIL 3113.

PHIL 4193W. Twentieth-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PHIL 2112 or PHIL 3113. Same As: PHIL 4193.

PHIL 4195. Topics in Value Theory. 3 Credits.

Variable topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4195W. Topics in Value Theory. 3 Credits.

Various topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy, such as contemporary philosophy of religion. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: PHIL 4195.

PHIL 4196. Topics in Theory of Knowledge. 3 Credits.

Variable topics in epistemology, philosophy of science and mathematics, philosophy of mind, and similar subfields. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4198. Proseminar. 3 Credits.

Variable topics; preparation and presentation of a major research paper. May be repeated for credit. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

PHIL 4198W. Proseminar in Philosophy. 3 Credits.

Preparation and presentation of a major research paper. May be repeated for credit provided the topic differs. Topics vary by semester. Consult the Schedule of Classes for more details. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the philosophy program with permission of the major advisor.

PHIL 4199. Readings and Research. 1-3 Credits.

Independent study to be arranged with a faculty sponsor. Permission of the department required prior to enrollment.

PHIL 4199W. Readings and Research. 3 Credits.

Independent study to be arranged with a faculty sponsor. Departmental approval is required prior to enrollment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PHIL 5099. Variable Topics. 1-99 Credits.

PHIL 6000. Topics in Advanced Analytic Philosophy. 3 Credits.

The application of the methods and insights of twentieth and twenty-first century analytic philosophy to contemporary questions and/or social issues; philosophy of language, philosophy of mind, epistemology, and value theory. Topics vary by semester. See department for details. Restricted to graduate students; undergraduate students may enroll only with the permission of the instructor.

PHIL 6201. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6202. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6211. Topics in the History of Ancient Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6212. Topics in the History of Modern Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6221. Advanced Logic. 3 Credits.

Intensive reading of a difficult text in an advanced logical system or a series of logical systems. Focus on analyzing reasoning under partial information, using the formal system to analyze fallacies of reasoning and analyzing quantum phenomena using the formal system. Restricted to graduate students. Recommended background: Good formal training in logic - propositional logic: natural deduction, tables and trees; first-order logic: language (translation from English), trees and natural deduction; some limitative results, eg, decidability, compactness, completeness, Lovenheim-Skolem properties, soundness, etc.

PHIL 6222. Philosophy of Mathematics. 3 Credits.

Examination of several philosophies of mathematics, with in-depth concentration on Field's "fictionalism." A fictionalist believes that all of the ontology of mathematics is favorably compared to a fictional object, so it does not literally exist. Students develop reactions to Field's philosophical position using the resources of alternative philosophical positions. Restricted to graduate students. Recommended background: Basic understanding of first-order logic.

PHIL 6223. Philosophy of Logic. 3 Credits.

Central concepts in the philosophy of logic, including truth, reasoning, inference, deduction, induction, judgment, assertion, warrant, proof, demonstration, meaning, semantics, syntax, paradox, mathematical models, and the relationship between a formal representation of logical reasoning and the philosophical ideal of the practice of reasoning. Recommended background: Some grounding in first-order logic is presupposed.

PHIL 6225. Queer(ing) Philosophy. 3 Credits.

Examination of how queer theory, which emerged as a field in its own right in the early 1990s, has posed significant challenges to traditional, taken-for-granted understandings of time, space, the body, race, sexuality, normality, culture, violence, and disability. Restricted to graduate students.

PHIL 6230. Ethical Issues in Policy Arguments. 3 Credits.

Critical analysis of ethical foundations of public policy arguments, e.g., about protection of the environment or health and safety, equality of opportunity. Case studies of appeals to "welfare improvements," to norms of duty, to "the social contract," and to rights-claims. Attention to historical contexts and biases. May be taken for undergraduate credit with permission of the instructor.

PHIL 6231. Seminar: Economic Justice. 3 Credits.

Ethical and economic analysis of equity and efficiency of current U.S. income distribution patterns. Theories of justice; economic theories of distribution; assessment of redistribution policies. May be taken for undergraduate credit with permission of the instructor.

PHIL 6232. Topics in Contemporary Political Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6233. Contemporary Moral Philosophy. 3 Credits.

Investigation of contemporary debates in normative ethics and/or metaethics. Topics may include the virtue ethics revival in the twentieth century, the distinction between the right and the good, or important metaethical positions such as fictionalism, expressivism, and constitutivist accounts of moral principles. Restricted to graduate students.

PHIL 6234. Consequentialism and Its Critics. 3 Credits.

An overview of the debate over consequentialism, culminating in discussion of recent literature. Forms of consequentialism (act, rule, motive, cooperative); direct versus indirect; classic objections and replies; partiality; friendship; agent-relative considerations; doctrine of doing and allowing; doctrine of double effect. Restricted to graduate students.

PHIL 6236. Moral Status. 3 Credits.

Examination of the question of what sorts of beings matter morally in their own right and how much they matter. While the paradigm bearers of moral status are persons, the course considers competing ways of thinking about the possible moral status of human nonpersons, nonhuman persons, great apes, dolphins, other sentient animals, nonsentient lifeforms, the environment, future people, and advanced forms of artificial intelligence. Restricted to graduate students.

PHIL 6237. Animal Ethics. 3 Credits.

The moral status of animals and the ethics of human use of animals. Major topics include models of moral status, animals' mental life, and specific ethical issues associated with the eating of animal products, the use of animals in research, and the keeping of animals in homes and zoos. Restricted to graduate students.

PHIL 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems, such as respecting cultural differences, dependency, disability. Prerequisites: PHIL 2125 or PHIL 2131. (Same as WGSS 6238).

PHIL 6239. Virtue Ethics. 3 Credits.

Historical and/or contemporary approaches to virtue ethics and key readings in the virtue ethical tradition. Topics include empirical work on virtue in philosophy and psychology, the divide between "radical" virtue ethics and contemporary virtue ethics, "hybrid" approaches to virtue ethics (e.g., consequentialist virtue ethics), and meta-ethical issues relevant to the study of virtue. Restricted to graduate students.

PHIL 6242. Philosophy, Law, and Social Policy. 3 Credits.

Consideration of the relationship between legal interpretation and policy goals. Theories concerning the role of the judiciary in a constitutional democracy and methods of constitutional and statutory interpretation. Representative policy topics include capital punishment, pornography, affirmative action, welfare, property rights, racial gerrymandering, gun control.

PHIL 6245. Biomedical Ethics. 3 Credits.

An in-depth introduction to the field of biomedical ethics. Following a brief review of ethical theory, the course proceeds to several central topics in biomedical ethics before ending with students' presentations of their original research. The emphasis is on normative ethical reasoning, with considerable attention to the empirical assumptions underlying particular ethical judgments and to policy dimensions of several of the central topics.

PHIL 6250. Topics in Health Policy. 3 Credits.

Topics in health policy from the perspective of philosophical ethics, including human and animal research, the enhancement of human traits, justice and health care allocation.

PHIL 6251. Advanced Introduction to Philosophy of Mind. 3 Credits.

Critical examination of classical philosophical arguments pertaining to the mind/body problem, the problem of consciousness, the problem of intentionality, the problem of freedom of the will, and the problem of personal identity. Focus on careful analysis of classical philosophical writings on these topics. Restricted to graduate students.

PHIL 6252. Advanced Introduction to Philosophy of Cognitive Science. 3 Credits.

The emergence of cognitive phenomena in phylogeny and ontogeny, social cognition, nativist vs. empiricist approaches to cognition, models of reasoning and decision-making, representationalist vs. embodied/embedded/enactive approaches to cognition, and theories of perception, memory, and concepts. Restricted to graduate students.

PHIL 6253. Cognitive Science and Public Policy. 3 Credits.

The cognitive sciences are providing new insights into the nature of human decision making at an accelerating pace. Cognitive psychology, cognitive neuroscience, neuroeconomics, evolutionary psychology, and developmental and comparative psychology are rewriting theories about human nature with significant implications for public policy. The course examines recent work in the cognitive sciences with the intent of drawing out its public policy implications.

PHIL 6254. Mental Representation. 3 Credits.

Thoughts are like pictures of the world in that they represent the world. But thoughts sometimes represent the world in ways that don't correspond to the way it actually is. How do thoughts come to have representational content? Why do we have thoughts? Such questions are considered through the careful reading of recent work on the subject. Restricted to graduate students.

PHIL 6257. The Nature of Animal Minds. 3 Credits.

Do nonhuman animals have minds? If so, what are they like? How are they similar and how are they different from our minds? What might count as evidence that an animal has a mind? Consideration of some of the questions philosophers and scientists have been asking and issues these questions raise when we think about the possibility that nonhuman animals are thinking creatures. Restricted to graduate students.

PHIL 6262. Normative Issues in Foreign Policy. 3 Credits.

Selected issues on foreign policy from a normative perspective; emphasis on human rights, economic globalization, global poverty, sustainable development, and the ethics of military intervention.

PHIL 6281. Environmental Philosophy and Policy. 3 Credits.

Examination of philosophical frameworks for assessing policy approaches to environmental problems. Representative topics include duties to future generations, environmental justice, legal rights for natural objects, critiques of cost-benefit analysis, sustainability, risk measurement, the intrinsic value of nature.

PHIL 6290. Special Topics in Public Policy. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 6293. Contemporary Continental Philosophy. 3 Credits.

Focus on several powerful philosophical concepts introduced by late twentieth/early twenty-first-century continental scholars, and the influence these scholars have had upon one another. Critical examination of the theoretical resources the works provide in articulating some of the most urgent ethical, social, and political demands of contemporary human existence. Restricted to graduate students.

PHIL 6294. Special Topics in Continental Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to graduate students.

PHIL 6998. Thesis Research. 3 Credits.

PHIL 6999. Thesis Research. 3 Credits.

BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Recommended		
PHIL 1051 or PHIL 1051W	Introduction to Philosophy	
Required		
The following three courses (9 credits):		
PHIL 2045	Introduction to Logic	
PHIL 2111 or PHIL 2111W	History of Ancient Philosophy	
PHIL 2112	History of Modern Philosophy	
One of the following courses (3 credits) :		
PHIL 3113 or PHIL 3113W	Nineteenth-Century Philosophy	
PHIL 3172 or PHIL 3172W	American Philosophy	
PHIL 4192 or PHIL 4192W	Analytic Philosophy	
PHIL 4193 or PHIL 4193W	Twentieth-Century Continental Philosophy	
Four additional philosophy (PHIL) courses (12 credits) numbered 2000 or above.		
One of the following options:		
A: Two Proseminar courses		
PHIL 4198	Proseminar (6 credits)	

B: Honors thesis option (requires departmental approval and a senior thesis)

PHIL 4198	Proseminar (3 credits)
PHIL 4199	Readings and Research (3 credits)

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement.
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must

1. have at least a 3.7 grade-point average in the major and a 3.3 average overall;
2. submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper are Special Honors recommended.

BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS)

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Recommended		
PHIL 1051 or PHIL 1051W	Introduction to Philosophy	
Required		
PHIL 2045	Introduction to Logic (3 credits)	
One course from the following (3 credits):		
PHIL 2111	History of Ancient Philosophy	

or PHIL 2111W	History of Ancient Philosophy
PHIL 2112	History of Modern Philosophy
Two courses from the following (6 credits):	
PHIL 2131	Ethics: Theory and Applications
PHIL 2132	Social and Political Philosophy
or PHIL 2132W	Social and Political Philosophy
PHIL 2136	Contemporary Issues in Ethics
Four additional philosophy (PHIL) courses numbered 2000 or above (12 credits)	
One of the following options:	
A: Two Proseminar Courses	
PHIL 4198	Proseminar (6 credits)
B: Honors Thesis option (requires departmental approval and a senior thesis)	
PHIL 4198	Proseminar (3 credits)
or PHIL 4198W	Proseminar in Philosophy
PHIL 4199	Readings and Research (3 credits)

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.

- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must: have at least a 3.7 grade-point average in the major and a 3.3 average overall; and submit an honors paper prepared under the supervision of a faculty advisor in the department.

Only if a committee of three faculty members in the department approves the honors paper are Special Honors recommended.

DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS) AND MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Department of Philosophy offers a dual bachelor of arts with a major in philosophy (public affairs focus) (p. 379) and master of arts in the field of philosophy (p. 381) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY (PUBLIC AFFAIRS FOCUS) AND MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The Department of Philosophy and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in philosophy (public affairs focus) (p. 379) and master of arts in the field of public policy with a concentration in philosophy and social justice (p. 382) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY AND MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Department of Philosophy offers a dual bachelor of arts with a major in philosophy (p. 378) and master of arts in the field of philosophy (p. 381) degree program. The program allows students to take 6 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN PHILOSOPHY AND MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The Department of Philosophy and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in philosophy (p. 378) and master of arts in the field of public policy with a concentration in philosophy and social justice (p. 382) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://philosophy.columbian.gwu.edu/combined-bama-program-philosophy/>) for additional information.

MASTER OF ARTS IN THE FIELD OF PHILOSOPHY

The Master of Arts degree in Philosophy develops the critical thinking, close reading, persuasive writing and oral communication skills needed for success in a doctoral program or teaching career. Students that graduate from this degree track often go on to obtain their PhD in Philosophy or a related field, such as political theory, biomedical ethics and gender

studies. Others draw upon the broad base of philosophical knowledge to instruct at a secondary or two-year college level. Unlike other Philosophy MA degrees, this program includes a high degree of analytical philosophy curriculum in addition to the more traditional study of historical texts and scholarship.

Students pursuing this two-year terminal Master's in Philosophy can expect to gain a distinct and in-depth education across a variety of courses. Classes such as "Economic Justice," "Moral Status," and "Feminist Ethics and Policy" teach the practical applications of philosophy and schools of thought on contemporary issues, while "Advanced Logic" and "Philosophy of Artificial Intelligence" develop knowledge in the areas of logic and science. Additionally, students study contemporary continental theories and the classics, such as Plato and Socrates.

Located in the heart of Washington D.C., GW has access to a wealth of museums, cultural institutes and other notable resources to enhance the graduate studies experience.

Visit the program website (<https://philosophy.columbian.gwu.edu/ma-philosophy-0/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

30 credits in philosophy coursework at the 6000 level. A thesis option is available at the discretion of the faculty; if this option is approved, the student's program of study must include 3 credits in PHIL 6998, Thesis Research.

Code	Title	Credits
Required		
One of the following:		
PHIL 6211	Topics in the History of Ancient Philosophy	
PHIL 6212	Topics in the History of Modern Philosophy	
For thesis option:		
PHIL 6998	Thesis Research	

Remaining coursework is selected in consultation with the advisor.

MASTER OF ARTS IN THE FIELD OF PUBLIC POLICY WITH A CONCENTRATION IN PHILOSOPHY AND SOCIAL POLICY

The formulation and evaluation of public policy has become a major concern for both public officials and citizens in U.S. society. Even technical policy issues raise questions about social values and assume knowledge of concepts that call for philosophical exploration. As part of the Columbian College of Arts and Sciences, the master's program in philosophy and social policy addresses questions of public policy from a humanistic perspective. Our MA offers an interdisciplinary course of study in the field of public policy, with a concentration in philosophy and social policy.

The "policy core" includes courses in political science, economics, quantitative methods and a variety of approaches to policy analysis. These courses ensure that all candidates for the degree acquire methodological skills indispensable for the analysis of policy issues. In the "philosophy core," students examine the broad normative and institutional backgrounds within which specific policy decisions are framed.

The program prepares students to bring the normative, historical and logical tools of philosophical inquiry to bear upon policy issues. Through case studies, students analyze the underlying concepts and value implications of specific policies in areas including welfare programs, access to health care, protection of the environment, health and safety, equality of opportunity and protection of human rights. Concentrations within this program include bioethics and health policy, urban and welfare policy, and environmental philosophy and policy. Students may choose to pursue specific concentrations reflecting their interests.

Visit the program website (<https://philosophy.columbian.gwu.edu/ma-philosophy-and-social-policy/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

Two options are available at the discretion of the faculty. Thesis option—30 credits, including 24 credits in required courses and 6 credits in thesis; non-thesis option—36 credits, including 24 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
Four of the following:		
PHIL 6230	Ethical Issues in Policy Arguments	
PHIL 6231	Seminar: Economic Justice	
PHIL 6238	Feminist Ethics and Policy Implications	
PHIL 6242	Philosophy, Law, and Social Policy	
PHIL 6250	Topics in Health Policy	
PHIL 6262	Normative Issues in Foreign Policy	
PHIL 6281	Environmental Philosophy and Policy	
One course from each of the following groups:		
Group A		
PPPA 6010	Politics and The Policy Process	
PSC 8212	Urban Policy Problems	
Group B		
ECON 6217	Survey of Economics I	
ECON 6237	Economics of the Environment and Natural Resources	
ECON 6248	Health Economics	
Group C		
PSC 6103	Approaches to Public Policy Analysis	
PPPA 6006	Policy Analysis	
SOC 6248	Race and Urban Redevelopment	
WGSS 6240	Gender and Public Policy	
WGSS 6265	Women, Welfare, and Poverty	
HIST 6011	Reading and Research in History and Public Policy	
Group D		
PPPA 6002	Research Methods and Applied Statistics (or substitute as approved by the advisor)	
For thesis option:		
PHIL 6998	Thesis Research	
PHIL 6999	Thesis Research	

Electives

Electives may focus on a particular policy area (e.g., biomedical/health care, urban/welfare, or environmental policy), or may explore varied approaches and policy issues.

Other requirements

Successful completion of a master's comprehensive examination.

MINOR IN APPLIED ETHICS

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required courses (9 credits):

PHIL 2131	Ethics: Theory and Applications
PHIL 2135	Ethics in Business and the Professions
PHIL 2136	Contemporary Issues in Ethics

Three additional courses (9 credits) from the following:

PHIL 2124	Philosophies of Disability
or PHIL 2124W	Philosophies of Disability
PHIL 2125	Philosophy of Race and Gender
or PHIL 2125W	Philosophy of Race and Gender
PHIL 2132	Social and Political Philosophy
or PHIL 2132W	Social and Political Philosophy
PHIL 2133	Philosophy and Nonviolence
PHIL 2134	Philosophy of Human Rights
PHIL 2281	Philosophy of the Environment
PHIL 3142	Philosophy of Law
or PHIL 3142W	Philosophy of Law
PHIL 4195	Topics in Value Theory
or PHIL 4195W	Topics in Value Theory

MINOR IN LOGIC

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required

One course (3 credits) from the following:

PHIL 2045	Introduction to Logic
PHIL 3121	Symbolic Logic

One course (3 credits) from the following:

MATH 3710	Introduction to Mathematical Logic
MATH 3720	Axiomatic Set Theory
MATH 3730	Computability Theory
or MATH 3730W	
MATH 3740	Computational Complexity
or MATH 3740W	

Four additional courses (12 credits) from the lists above or from the following:

CSCI 1112	Algorithms and Data Structures
CSCI 3313	Foundations of Computing
CSCI 4222	Theory of Computer Translators
LING 2601	
or ANTH 2601	

No more than two courses may count toward both the student's major and the minor in logic.

MINOR IN MIND-BRAIN STUDIES

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required

PHIL 3153	Mind, Brain, and Artificial Intelligence
PSYC 3122	Cognitive Neuroscience

Electives

Four courses from the following, with a maximum of two courses from any one department:

ANTH 1005	The Biological Bases of Human Behavior
ANTH 3413	Evolution of the Human Brain
ANTH 3601 or LING 3601	Language, Culture, and Cognition
ANTH 3603 or LING 3603	Psycholinguistics
BISC 2220	Developmental Neurobiology
BISC 2452	Animal Behavior
BISC 3320	Human Neurobiology
PHIL 1153	The Meaning of Mind
PHIL 3151 or PHIL 3151W	Philosophy of Science
PHIL 3152	Theory of Knowledge
PHIL 3251	Philosophy of Biology
PSYC 2014	Cognitive Psychology
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition
PSYC 3124	Visual Perception
SPHR 1071 or SPHR 1071W	Foundations of Human Communication
SPHR 2104 or SPHR 2104W	Speech and Language Disorders
SPHR 2106	Neural Substrates of Speech, Language, and Hearing
SPHR 2131	Language Acquisition and Development
SPHR 3116	Brain and Language

MINOR IN PHILOSOPHY

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses.

Code	Title	Credits
Electives		
Two of the following:		
PHIL 2111 or PHIL 2111W	History of Ancient Philosophy	
PHIL 2112	History of Modern Philosophy	
PHIL 3113 or PHIL 3113W	Nineteenth-Century Philosophy	
PHIL 3172 or PHIL 3172W	American Philosophy	
PHIL 4192 or PHIL 4192W	Analytic Philosophy	
PHIL 4193 or PHIL 4193W	Twentieth-Century Continental Philosophy	

Four additional PHIL courses, only one of which may be numbered below 2000.

PHYSICS

The physics program offers instruction in the fundamental laws of the discipline as it strengthens a student's ability to see how these laws apply to all the sciences and everyday occurrences. Physics is part of the natural, mathematical, and biomedical sciences discipline in the Columbian College of Arts and Sciences. Through courses ranging from classical mechanics to electromagnetic theory, the physics program prompts students to use mathematical logic, deductive reasoning, developed intuition, and careful observation.

Visit the Department of Physics website (<https://physics.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in physics (p. 385)
- Bachelor of Science with a major in astronomy and astrophysics

- Bachelor of Science with a major in biophysics (p. 388)
- Bachelor of Science with a major in physics (p. 389)

Minors

- Minor in astronomy and astrophysics (p. 392)
- Minor in biophysics (p. 392)
- Minor in physics (p. 393)

GRADUATE

Master's program

- Master of Science in the field of physics (p. 391)

Doctoral program

- Doctor of Philosophy in the field of physics (p. 390)

FACULTY

Professors W.J. Briscoe, G. Feldman, M.E. Reeves, F.X. Lee, I. Strakovsky (Research), C. Zeng, C. Kouveliotou (*Chair*), W. Peng, N. Johnson

Associate Professors K.S. Dhuga, H. Habertzettl, R.L. Workman (Research), H. Griesshammer, A. Alexandru, E.J. Downie, A. Afanasev, O. Kargaltsev, X. Qiu, B. Cobb Kung, M. D#ring, A.J. van der Horst

Assistant Professors S. Guiriec, A. Schmidt

Adjunct Professors G. White, I. Moskowitz, D. Cioffi

Professorial Lecturers L. Medsker, C. O'Donnell, N. Jha,

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: Consent of a departmental graduate advisor is required for admission to all graduate courses in physics.

- Astronomy (ASTR) (p. 1428)
- Physics (PHYS) (p. 1731)

BACHELOR OF ARTS WITH A MAJOR IN PHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
Introductory courses (29 credits):		
CSCI 1012	Introduction to Programming with Python	
or MAE 1117	Introduction to Engineering Computations	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1026	University Physics II with Biological Applications	
PHYS 2023	Modern Physics	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2184	Linear Algebra I	
MATH 3342	Ordinary Differential Equations	
Advanced courses (21 credits):		
PHYS 2151W	Intermediate Laboratory I: Techniques and Methods	
PHYS 3161	Mechanics	
PHYS 3164	Thermal and Statistical Physics	
PHYS 3165	Electromagnetic Theory I	
PHYS 4195W	Physics Capstone	
Electives		
Two courses (6 credits) in Physics (PHYS) numbered 3000 or above and/or Astronomy (ASTR) numbered 2000 or above.		

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

BACHELOR OF SCIENCE WITH A MAJOR IN ASTRONOMY AND ASTROPHYSICS REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Introductory courses (26 credits):		
PHYS 1021	University Physics I	
PHYS 1022	University Physics II	
PHYS 2023	Modern Physics	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2184	Linear Algebra I	
MAE 1117	Introduction to Engineering Computations	
or CSCI 1012	Introduction to Programming with Python	
Advanced courses (49 credits):		
MATH 3342	Ordinary Differential Equations	

PHYS 3100	Math Methods for Physics
PHYS 2151W	Intermediate Laboratory I: Techniques and Methods
PHYS 2152	Intermediate Laboratory II: Instrumentation
ASTR 2121	Introduction to Modern Astrophysics
PHYS 3161	Mechanics
PHYS 3164	Thermal and Statistical Physics
PHYS 3165	Electromagnetic Theory I
PHYS 3166	Electromagnetic Theory II
PHYS 3167	Principles of Quantum Physics
PHYS 3181	Computational Physics
PHYS 4195W	Physics Capstone
ASTR 4195	Undergraduate Research in Astrophysics
PHYS 4200	Physics Symposium

Electives

Two of the following:

ASTR 2131 Astrophysics Seminar

ASTR 3141 Data Analysis in Astrophysics

ASTR 3161 Space Astrophysics

One of the following:

PHYS 3127 Biophysics: Macroscopic Physics in the Life Sciences

PHYS 3128 Biophysics: Microscopic Physics in the Life Sciences

PHYS 3163 Physical and Quantum Optics

PHYS 4170 Solid-State Physics

PHYS 4175 Nuclear Physics

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that

enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

BACHELOR OF SCIENCE WITH A MAJOR IN BIOPHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required introductory courses (48 credits):		
APSC 3115	Engineering Analysis III	
or STAT 1127	Statistics for the Biological Sciences	
BISC 1111	Introductory Biology: Cells and Molecules	
BISC 1112	Introductory Biology: The Biology of Organisms	
CHEM 1111	General Chemistry I	
CHEM 1112	General Chemistry II	
CSCI 1111	Introduction to Software Development	
or CSCI 1041	Introduction to FORTRAN Programming	
or CSCI 1121	Introduction to C Programming	
or CSCI 1131	Introduction to Programming with C	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2184	Linear Algebra I	
MATH 2233	Multivariable Calculus	
MATH 3342	Ordinary Differential Equations	
PHYS 1025	University Physics I with Biological Applications	
or PHYS 1021	University Physics I	
PHYS 1026	University Physics II with Biological Applications	
or PHYS 1022	University Physics II	
PHYS 2023	Modern Physics	

Code	Title	Credits
------	-------	---------

Other required (9 credits):

BISC 3209	Molecular Biology
or BISC 3261	Introductory Medical Biochemistry
or CHEM 3165	Biochemistry I

CHEM 2151	Organic Chemistry I
-----------	---------------------

CHEM 2152	Organic Chemistry II
-----------	----------------------

Advanced required (25 credits):

PHYS 2151	Intermediate Laboratory I: Techniques and Methods
or PHYS 2151W	Intermediate Laboratory I: Techniques and Methods

PHYS 3127	Biophysics: Macroscopic Physics in the Life Sciences
-----------	--

PHYS 3128	Biophysics: Microscopic Physics in the Life Sciences
-----------	--

PHYS 3161	Mechanics
-----------	-----------

PHYS 3164	Thermal and Statistical Physics
-----------	---------------------------------

PHYS 3165	Electromagnetic Theory I
-----------	--------------------------

PHYS 4195	Physics Capstone
or PHYS 4195W	Physics Capstone

One course (3 credits) from the following:

PHYS 4196	Undergraduate Research in Biophysics (One 3000 or higher biology or medical sciences (3 hrs))
or PHYS 4197	Undergraduate Research in Nuclear Physics
or ASTR 4195	Undergraduate Research in Astrophysics

PHYS 4200	Physics Symposium
-----------	-------------------

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

BACHELOR OF SCIENCE WITH A MAJOR IN PHYSICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
Introductory courses (26 credits)		
CSCI 1012	Introduction to Programming with Python	
or MAE 1117	Introduction to Engineering Computations	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1026	University Physics II with Biological Applications	
PHYS 2023	Modern Physics	
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
MATH 2184	Linear Algebra I	
Advanced courses (46 credits)		
MATH 3342	Ordinary Differential Equations	
PHYS 2151W	Intermediate Laboratory I: Techniques and Methods	
PHYS 2152	Intermediate Laboratory II: Instrumentation	
PHYS 3100	Math Methods for Physics	

PHYS 3161	Mechanics
PHYS 3164	Thermal and Statistical Physics
PHYS 3165	Electromagnetic Theory I
PHYS 3166	Electromagnetic Theory II
PHYS 3167	Principles of Quantum Physics
PHYS 3181	Computational Physics
PHYS 4195W	Physics Capstone
PHYS 4196	Undergraduate Research in Biophysics
or PHYS 4197	Undergraduate Research in Nuclear Physics
or ASTR 4195	Undergraduate Research in Astrophysics
PHYS 4200	Physics Symposium

Electives

Three courses (9 credits) in Physics (PHYS) numbered 3000 or above and/or Astronomy (ASTR) numbered 2000 or above.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must submit for departmental approval an honors thesis based on a two-semester research project. In addition, the student must have a cumulative grade-point average of at least 3.5 in physics courses and 3.5 overall.

DOCTOR OF PHILOSOPHY IN THE FIELD OF PHYSICS

OVERVIEW

The Department of Physics is part of the natural, mathematical and biomedical sciences discipline in the Columbian College of Arts and Sciences.

Graduate students in physics gain knowledge of advanced physics concepts, including advanced mechanics, electromagnetic theory, advanced quantum mechanics and statistical mechanics, along with mathematical methods in physics and computational physics. Additional courses in quantum field theory, solid-state physics, nuclear physics,

astrophysics and biophysics are offered. An integral part of the program involves students in active and frontier research.

For students interested in experimental, observational, and applied physics, the department's association with national and international laboratories allows hands-on training and original research. The department maintains research affiliations and collaborations with researchers at the Jefferson Lab National Accelerator Facility, the Naval Research Laboratories, the National Institute of Standards and Technology and the National Aeronautics and Space Administration. The department also has ties with international research institutions.

Concentrations include nuclear physics, astrophysics, and condensed-matter physics as well as interdisciplinary studies in materials science and biophysics.

The PhD in physics is a STEM-designated degree program.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Students must pass a general examination and an oral defense of the doctoral research program.

Code	Title	Credits
Required		
PHYS 6110	Mathematical Methods of Theoretical Physics	
PHYS 6120	Advanced Mechanics	
PHYS 6210	Electrodynamics and Classical Field Theory	
PHYS 6220	Quantum Mechanics I	
PHYS 6310	Statistical Mechanics	
PHYS 6320	Quantum Mechanics II	
PHYS 6130	Computational Physics I	
PHYS 6230	Computational Physics II	
PHYS 6330	Computational Physics III	
PHYS 6510	Communications in Physics	
One of the following options:		
Option A		

PHYS 6610	Nuclear and Particle Physics I
PHYS 6710	Nuclear and Particle Physics II
Option B	
PHYS 6620	Biophysics I
PHYS 6720	Biophysics II
Option C	
PHYS 6630	Astrophysics I
PHYS 6730	Astrophysics II

Specific course requirements can be waived on a case-by-case basis upon approval of the department's graduate advisor.

Research fields

- Nuclear physics—experimental and theoretical studies on the structure, electromagnetic, weak and strong interactions, and scattering of few-body systems at low and intermediate energies;
- Biophysics and condensed-matter physics—experimental, theoretical, and computational studies of structures and functions of cells, biological networks and biomolecules, deciphering information encoded in genome;
- Theoretical and observational astrophysics—high-energy astrophysics, multi-wavelength studies of extreme energy-density environments and huge energy releases in astrophysical objects;
- Interdisciplinary physics, including energy research and physics education research.

MASTER OF SCIENCE IN THE FIELD OF PHYSICS

The Department of Physics is part of the natural, mathematical and biomedical sciences discipline in the Columbian College of Arts and Sciences. Graduate students in physics gain knowledge of advanced physics concepts, including advanced mechanics, electromagnetic theory, advanced quantum mechanics and statistical mechanics, along with mathematical methods in physics and computational physics.

Additional courses in quantum field theory, solid-state physics, nuclear physics, astrophysics and biophysics are offered. An integral part of the program involves students in active and frontier research. For students interested in experimental, observational and applied physics, our association with national and international laboratories allows hands-on training and original research.

We maintain research affiliations and collaborations with researchers at the Jefferson Lab National Accelerator Facility, the Naval Research Laboratories, the National Institute of Standards and Technology and the National Aeronautics and

Space Administration. We also have ties with international research institutions. Concentrations include nuclear physics, astrophysics and condensed-matter physics as well as interdisciplinary studies in materials science and biophysics.

The MS is a STEM-designated degree program.

REQUIREMENTS

Prerequisite: a bachelor’s degree with a major in physics at this University, or an equivalent degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 30 credits in required courses and 6 credits in either elective courses or thesis.

Code	Title	Credits
Required		
PHYS 6110	Mathematical Methods of Theoretical Physics	
PHYS 6120	Advanced Mechanics	
PHYS 6210	Electrodynamics and Classical Field Theory	
PHYS 6220	Quantum Mechanics I	
PHYS 6310	Statistical Mechanics	
PHYS 6510	Communications in Physics	
PHYS 6130	Computational Physics I	
PHYS 6230	Computational Physics II	
PHYS 6330	Computational Physics III	
PHYS 6590	Seminar	
DATS 6202	Machine Learning I: Algorithm Analysis	

Non-thesis option—two of the following:

PHYS 6610	Nuclear and Particle Physics I
PHYS 6710	Nuclear and Particle Physics II
PHYS 6720	Biophysics II
PHYS 6630	Astrophysics I
PHYS 6730	Astrophysics II

or

Thesis option

PHYS 6998	Thesis Research
PHYS 6999	Thesis Research

MINOR IN ASTRONOMY AND ASTROPHYSICS

REQUIREMENTS

The following requirements must be fulfilled: 15 credits, including 12 credits in required courses and one 3-credit elective course.

Code	Title	Credits
Required		
PHYS 1011	General Physics I	
or PHYS 1021	University Physics I	
PHYS 1012	General Physics II	
or PHYS 1022	University Physics II	
ASTR 1001	Stars, Planets, and Life in the Universe	
or ASTR 1002	Origins of the Cosmos	
ASTR 2121	Introduction to Modern Astrophysics	
One of the following:		
ASTR 2131	Astrophysics Seminar	
ASTR 3141	Data Analysis in Astrophysics	
ASTR 3161	Space Astrophysics	

MINOR IN BIOPHYSICS

REQUIREMENTS

The following requirements must be met: 17 credits in required courses.

Code	Title	Credits
Required		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	

PHYS 1022	University Physics II
or PHYS 1026	University Physics II with Biological Applications
or PHYS 1022W	
PHYS 2023	Modern Physics
PHYS 3127	Biophysics: Macroscopic Physics in the Life Sciences
PHYS 3128	Biophysics: Microscopic Physics in the Life Sciences

Visit the program website (<https://physics.columbian.gwu.edu/minor-requirements/>) for additional information.

MINOR IN PHYSICS

REQUIREMENTS

The following requirements must be fulfilled: 17 credits, including 11 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
PHYS 1021	University Physics I	
or PHYS 1025	University Physics I with Biological Applications	
PHYS 1022	University Physics II	
or PHYS 1022W		
or PHYS 1026	University Physics II with Biological Applications	
PHYS 2023	Modern Physics	
or PHYS 1023W		
Electives		

Two PHYS courses (6 credits) at the 3000 level or above approved by the department.

POLITICAL SCIENCE

The Department of Political Science, part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, offers a program that examines politics in depth

on both a national and international scale. Classroom study is supplemented by opportunities to intern on Capitol Hill or at government agencies.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in political science (p. 403)
- Bachelor of Arts with a major in political science (public policy focus) (p. 405)
- Bachelor of Science with a major in political science (p. 409)

Combined programs

- Dual Bachelor of Arts with a major in political science and Master of Arts in the field of political science (p. 412)
- Dual Bachelor of Arts with a major in political science and Master of Public Administration (p. 412)
- Dual Bachelor of Arts with a major in political science (public policy focus) and Master of Public Policy (p. 412)
- Dual Bachelor of Arts with a major in political science and Master of Professional Studies in the field of legislative affairs (p. 1146)
- Dual Bachelor of Arts with a major in political science and Master of Professional Studies in the field of political management (p. 1146)
- Dual Bachelor of Science with a major in political science and Master of Public Policy (p. 411)

Minors

- Minor in political science (p. 412)
- Minor in public policy (p. 413)

GRADUATE

Master's program

- Master of Arts in the field of political science (p. 413)

Doctoral program

- Doctor of Philosophy in the field of political science (p. 416)

FACULTY

University Professors M. Barnett, M. Finnemore

Professors S. Binder, M.E. Brown, N.J. Brown, C.J. Deering, B. Dickson (*Chair*), H. Farrell, H.B. Feigenbaum, C. Glaser, H.E. Hale, J.H. Lebovic, M. Lynch, F. Maltzman, C. McClintock, K.J. Morgan, H.R. Nau, D. Shambaugh, J.M. Sides, M.J. Sodaro, R.P. Stoker, P. Wahlbeck, S.L. Wolchik

Associate Professors S.J. Balla, B. Bartels, A. Bowie, I. Creppell, A. Downes, E. Grynawski, D. Hayes, S. Kaplan,

E.D. Lawrence, Y. Lupu, C. McConaughy, M. Miller, M.M. Mochizuki, C. Mylonas, E.J. Teitelbaum, S. Wiley

Assistant Professors M. Allendoerfer, C. Arrington, A. Dean, S. Goldman, E. Kramon, R. Stein, D. Szakonyi, Y. Velez, C. Warshaw, W.J. Winstead

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSC 1001 Introduction to Comparative Politics is prerequisite to Group A courses (comparative politics), PSC 1002 Introduction to American Politics and Government is prerequisite to Group B courses (American government and politics), and PSC 1003 Introduction to International Politics is prerequisite to Group C courses (international politics, law, and organizations). Honors course equivalents are acceptable substitutes. Students who have taken PSC 1011 Introduction to Politics I–PSC 1012W Introduction to Politics II have fulfilled prerequisites to all three groups. Elliott School students substitute IAFF 1005 Introduction to International Affairs for PSC 1003 Introduction to International Politics as a prerequisite to Group C courses.

PSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PSC 1001. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1001W. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1002. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1002W. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1003. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues. Credit cannot be earned for this course and IAFF 1005.

PSC 1003W. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues. Credit cannot be earned for this course and IAFF 1005.

PSC 1011. Introduction to Politics I. 6 Credits.

Role of personal and social values in politics. Problems in the Western (especially American) tradition of political science. Admission by special selection process.

PSC 1012W. Introduction to Politics II. 6 Credits.

Continuation of PSC 1011. Role of personal and social values in politics. Thinking outside the Western state: culture, nationalism, ethnic conflict, democratization, international conflict. Admission by special selection process. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 1099. Variable Topics. 1-36 Credits.

PSC 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester; see department for more details. Permission of the instructor required prior to enrollment.

PSC 2099. Variable Topics. 1-12 Credits.

Use denotes upper-level transfer credit in political science.

PSC 2101. Scope and Methods of Political Science. 3 Credits.

Nature of political inquiry, approaches to the study of politics and government, empirical methods of research.

PSC 2102. Visualizing and Modeling Politics. 3 Credits.

The class builds on PSC 2101, Scope and Methods of Political Science, with emphasis on working with data to examine political questions. Prerequisites: PSC 2101 or STAT 1051 or STAT 1053 or STAT 1111.

PSC 2105. Major Issues of Western Political Thought I. 3 Credits.

Foundations of Western political thought—Plato to Aquinas.

PSC 2106. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers.

PSC 2106W. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the sixteenth through the late nineteenth century, as set forth in the works of representative thinkers. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 2107. Twentieth-Century Political Thought. 3 Credits.

Recent Western political thought; analysis and critique of the legacies of modern political theories and ideologies.

PSC 2108. Freedom and Equality. 3 Credits.

Case analysis of major ideas related to freedom and equality in the Western political tradition.

PSC 2110. American Political Thought. 3 Credits.

Political thought in the U.S. from colonial times to the present as seen through major representative writings.

PSC 2120W. Freedom in American Thought and Popular Culture. 3 Credits.

An inquiry into definitions of freedom through examination of American political thought and popular culture. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement (Same as AMST 2120W).

PSC 2211. State and Urban Politics. 3 Credits.

Comparative analysis of context, institutions, processes, and policies of state and urban political systems. Prerequisite: PSC 1002.

PSC 2212. State and Urban Policy Problems. 3 Credits.

Selected issues in state and urban policymaking, with emphasis on urban and metropolitan settings. Prerequisite: PSC 1002.

PSC 2213. Judicial Politics. 3 Credits.

An examination of judicial process and behavior. Emphasis on judicial selection, decision making, interaction with the political environment, and impact and implementation of decisions. Prerequisite: PSC 1002.

PSC 2214. U.S. Constitutional Law and Politics I. 3 Credits.

Separation of powers, federal-state relationships, economic regulation. Prerequisites: PSC 1002.

PSC 2215. U.S. Constitutional Law and Politics II. 3 Credits.

Political and civil rights. Prerequisites: PSC 1002.

PSC 2216. The American Presidency. 3 Credits.

Examination of the politics of presidential selection, the authority of the contemporary institution, the mechanisms and processes for formulating public policy, and the influences of personality on performance in office. Prerequisite: PSC 1002.

PSC 2217. Executive Branch Politics. 3 Credits.

Basic concepts in public administration; influence of bureaucratic politics on policy formulation and implementation. Prerequisite: PSC 1002. Same as PPPA 2117.

PSC 2218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Prerequisite: PSC 1002.

PSC 2218W. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1002.

PSC 2219. Political Parties and Interest Groups. 3 Credits.

The emergence and evolution of political parties in the United States; role of parties as a linkage between mass preferences and government policies; organization, nominations, voting, and activities in legislative and executive branches. Prerequisite: PSC 1002.

PSC 2220. Public Opinion. 3 Credits.

How public opinion is measured, how it is shaped, and its consequences for policymaking. Prerequisite: PSC 1002.

PSC 2221. African American Politics. 3 Credits.

The evolution, nature, and role of African Americans within the U.S. political system. How the African American experience has shaped American politics (specifically public opinion, political behavior, political institutions, and salient public policy debates) and how black Americans have come to understand their position within the American political system. Prerequisites: PSC 1002.

PSC 2222. Science, Technology, and Politics. 3 Credits.

Multiple impacts of scientific and technological developments on the political systems. Discussion of public policies for support, use, and control of science and technology. Prerequisite: PSC 1002.

PSC 2223. Campaigns and Elections. 3 Credits.

Examination of the various forms of American political participation in electoral and governmental politics and their effects on the political process. Prerequisite: PSC 1002.

PSC 2224. Issues in Domestic Public Policy. 3 Credits.

Examination of the decision-making process and the substance of various issues in domestic public policy in such areas as crime, economics, education, energy, the environment, poverty, and health. Prerequisite: PSC 1002.

PSC 2225. Women and Politics. 3 Credits.

An examination of the role and impact of women in politics, including women's interests and access to the political system; specific public policy issues with a particular focus on the role of women. Prerequisite: PSC 1002.

PSC 2228. Media, Politics, and Government. 3 Credits.

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Instructor permission required. Same As: SMPA 3428.

PSC 2229. Media and Politics. 3 Credits.

The impact of the media on American politics, including the nature of coverage of political issues and campaigns, dynamics of selecting and presenting news stories, and consequences of media messages for public opinion and action. Prerequisite: PSC 1002.

PSC 2230. Law and Justice: The View from Hollywood. 3 Credits.

Analysis of films that focus on justice, the law, and the legal system. Consideration of what they tell us about political and legal culture and what messages they may have for contemporary legal issues. Focus on the relationship between law and justice, the practice of law, and the role of courts and trials in a political system. Prerequisites: PSC 1002.

PSC 2240. Poverty, Welfare, and Work. 3 Credits.

The elements and politics of America's welfare state. Social welfare policies and how they relate to work and poverty. Prerequisites: PSC 1002.

PSC 2330. Comparative Politics of Western Europe. 3 Credits.

Comparative political analysis with primary focus on the principal states of Western Europe. Prerequisite: PSC 1001.

PSC 2331. Comparative Politics of Central and Eastern Europe. 3 Credits.

Specific countries vary, to include nations of central and Eastern Europe and/or the newly independent states of the former Soviet Union. Prerequisite: PSC 1001.

PSC 2332. European Integration. 3 Credits.

The history of the European Union, its accomplishments as an international actor, and the vibrant debates over its future. Prerequisite: PSC 1001.

PSC 2334. Global Perspectives on Democracy. 3 Credits.

International experiences with the historical evolution and current nature of democratic political systems. Prerequisite: PSC 1001.

PSC 2336. State-Society Relations in the Developing World. 3 Credits.

Historically informed exploration of enduring issues of concern in state-society relations, with an empirical focus on selected countries and regions of the developing world. Prerequisite: PSC 1001.

PSC 2337. Development Politics. 3 Credits.

An examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions? Prerequisite: PSC 1001.

PSC 2338. Nationalism. 3 Credits.

Causes and the effects of nationalism, covering cases from around the world. Prerequisite: PSC 1001.

PSC 2339. Comparative Political Economy. 3 Credits.

The interaction of politics and economy from a comparative perspective. Prerequisite: PSC 1001.

PSC 2366. Russian Politics. 3 Credits.

An examination of political institutions, processes, and issues of Russian politics. Prerequisite: PSC 1001.

PSC 2367. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Prerequisite: PSC 1001.

PSC 2367W. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Writing intensive. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001. Credit cannot be earned for this course and CLAS 2105W, CLAS 3901W, HIST 3820W.

PSC 2368. Politics in the Two Koreas. 3 Credits.

An examination of political institutions, processes, and issues in South Korea and North Korea as well as in inter-Korean relations and major-power involvement in peninsular affairs. Prerequisites: PSC-1001 or PSC-001 or PSC-1001W or PSC-001W or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2369. Comparative Politics of South Asia. 3 Credits.

A comparative examination of colonialism, economic development, and identity politics in South Asia. Prerequisite: PSC 1001.

PSC 2370. Comparative Politics of China and Northeast Asia. 3 Credits.

Political institutions and processes of China (including Taiwan), Japan, and Korea since World War II. Influence of indigenous traditions and foreign contacts. Prerequisite: PSC 1001.

PSC 2371. Politics and Foreign Policy of China. 3 Credits.

An examination of political institutions, processes, history, and issues of Chinese politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

PSC 2373. Comparative Politics of Southeast Asia. 3 Credits.

Political forces, processes, and outcomes, using empirical examples from Southeast Asia. Prerequisite: PSC 1001.

PSC 2374. Politics and Foreign Policy of Japan. 3 Credits.

An examination of political institutions, processes, and issues of Japanese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2377. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Prerequisite: PSC 1001.

PSC 2377W. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1001.

PSC 2379. Politics and Foreign Policy of Israel. 3 Credits.

Examination of the institutions, processes, and issues of Israeli politics and foreign policy. Prerequisites: IAFF 1005 or PSC 1001 or PSC 1001W or PSC 1003.

PSC 2381. Comparative Politics of Sub-Saharan Africa. 3 Credits.

Comparative analysis of political systems in selected countries of Sub-Saharan Africa. Prerequisite: PSC 1001.

PSC 2383. Comparative Politics of Latin America. 3 Credits.

Exploration of the democratic advances in Latin America in recent decades as well as the continuing severe social, economic, and political challenges to democracy. Prerequisite: PSC 1001.

PSC 2439. International Political Economy. 3 Credits.

Analysis of the political aspects of global economic relationships, focusing on such issues as economic hegemony, interdependence, trade relations, development assistance, multinational corporations, and the role of international organizations. Prerequisite: PSC 1003.

PSC 2440. Theories of International Politics. 3 Credits.

Exploration of alternative theoretical approaches to understanding world politics in its historical and contemporary dimensions. Prerequisite: PSC 1003.

PSC 2442. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Prerequisite: PSC 1003.

PSC 2442W. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 2444. Public International Law. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2446. U.S. Foreign Policy. 3 Credits.

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Prerequisite: PSC 1003.

PSC 2446W. U.S. Foreign Policy. 3 Credits.

Constitutional, political, and international factors that determine the formulation, execution, and substance of U.S. foreign policy. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003 or IAFF 1005. Same As: PSC 2446.

PSC 2447. American Presidents at War. 3 Credits.

How American presidents have thought about and conducted wars using an analytical and historical approach. Prerequisites: PSC 1003 or IAFF 1005.

PSC 2449. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Prerequisite: PSC 1003.

PSC 2449W. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 2451. Theory of War. 3 Credits.

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency/counterinsurgency, and nuclear war. Prerequisites: PSC 1003. Same As: PSC 2451W.

PSC 2451W. Theory of War. 3 Credits.

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency and counterinsurgency, and nuclear war. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003. Same As: PSC 2451.

PSC 2453. U.S. Foreign Policy Perspectives. 3 Credits.

Examination of alternative historical and contemporary perspectives on U.S. foreign policy. Prerequisite: PSC 1003.

PSC 2454. Humanitarianism. 3 Credits.

Norms, principles, and institutions designed to alleviate suffering and improve the welfare of vulnerable populations. Prerequisite: PSC 1003.

PSC 2455. Global Governance. 3 Credits.

The creation, revision, and enforcement of the rules that are intended to govern the world. Prerequisite: PSC 1003.

PSC 2461. European-Atlantic Relations. 3 Credits.

International politics of the North Atlantic area, the European Union, and U.S.-European relations. Prerequisite: PSC 1003.

PSC 2468. Post-Soviet Foreign Policy. 3 Credits.

External problems and policies of Russia and the other successor states of the former USSR (especially the Baltics, Ukraine, and southern rim of the former Soviet Union). Prerequisite: PSC 1003.

PSC 2475. International Relations of East Asia. 3 Credits.

Analysis of the foreign policies of selected East Asian countries and the foreign policies of major powers toward the region. Prerequisite: PSC 1003.

PSC 2476. The Arab-Israeli Conflict. 3 Credits.

History and current state of the Arab-Israeli Conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Prerequisite: PSC 1003.

PSC 2476W. The Arab-Israeli Conflict. 3 Credits.

The history and current state of the Arab-Israeli conflict; the Jewish and Arab nationalism movements; Palestine under the British Mandate and after the establishment of the State of Israel; the peace process and its collapse; and recent political developments. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSC 1003.

PSC 2478. International Relations of the Middle East. 3 Credits.

Analysis of the regional and international relations of the Middle East. Prerequisite: PSC 1003.

PSC 2482. African International Politics. 3 Credits.

Analysis of interstate relations in Africa and of selected aspects of African relations with the outside world. Prerequisite: PSC 1003. Recommended background: Prior completion of PSC 2381.

PSC 2484. International Relations of Latin America. 3 Credits.

Analyzes the trajectory of Latin America's role in the world, with particular focus on conflict and cooperation between Latin America and the United States. Prerequisite: PSC 1003.

PSC 2987. Internship: Political Science. 1-3 Credits.

Study of political behavior and institutions through internship experience. Open to departmental majors only. Admission requires departmental approval and junior standing.

PSC 2990. Selected Topics. 3 Credits.

.

PSC 2990W. Selected Topics. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

PSC 2991. Special Topics in Political Thought. 3 Credits.**PSC 2992. Special Topics in American Politics and Government. 3 Credits.**

Prerequisite: PSC 1002.

PSC 2993. Special Topics in Comparative Politics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Prerequisite: PSC 1001.

PSC 2994. Special Topics in International Relations. 3 Credits.

Prerequisite: PSC 1003.

PSC 2994W. Special Topics in International Relations. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSC 1003.

PSC 3099. Variable Topics. 1-12 Credits.**PSC 3192W. Proseminar: Political Science. 3 Credits.**

Examination of selected problems in political science. May be repeated once for credit. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to juniors and seniors in the political science program.

PSC 3500. Advanced Topics in Political Science. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for details. Students must have completed four PSC courses at the 2000 level in addition to the prerequisite courses prior to enrollment. Prerequisites: PSC 1001, PSC 1002 and PSC 1003; and PSC 2101 or PSC 2102.

PSC 4991. Independent Study. 1-3 Credits.

Permission of the undergraduate program advisor and the faculty member who will direct the study required prior to enrollment. Restricted to seniors in the political science program. Prerequisite: 15 credits of upper-division political science courses.

PSC 5099. Variable Topics. 1-99 Credits.**PSC 6103. Approaches to Public Policy Analysis. 3 Credits.**

Primarily for master's students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 6113. The Constitution: History and Ideas. 3 Credits.

With a focus on the history and ideas that influenced James Madison, consideration of ideas that formed the common heritage of all the framers of the Constitution. The separate traditions of liberty that were fused together in the Constitution. Early changes in American society that placed one of those traditions at the center of America's self-understanding.

PSC 6114. Theories of Judicial Review. 3 Credits.

How and why the U.S. Supreme Court interprets the Constitution. The theory behind the practice of judicial review. Consideration of such questions as whether the Constitution intended judicial review and how the two wings of today's Court justify their own position on judicial review.

PSC 6187. Selected Topics in Political Theory. 3 Credits.

In-depth study of significant issues in political theory. Topics vary by semester. Consult the Schedule of Classes for more details. For advanced students.

PSC 6330. Comparative Government and Politics. 3 Credits.

Examination of basic approaches to comparative politics. Restricted to students in the Elliott School.

PSC 6333. Comparative Politics of Russia and Eurasia. 3 Credits.

Comparative analysis of politics in the post-Soviet region. Theoretical and methodological approaches to understanding important issues, frequently including democracy/autocracy, ethnic conflict, political economy, center-periphery relations, and state building.

PSC 6336. The Political Economy of China, India, and Beyond. 3 Credits.

Comparative analysis of how development problems have been defined from both political and economic perspectives and the solutions proposed by outsiders and insiders. Emphasis on the rise, demise, and recovery of development orthodoxies.

PSC 6338. U.S. Foreign Economic Policy. 3 Credits.

Exploration of ideas and issues involved in U.S. foreign economic policy, including relationship of economic and security issues, interdependence, protectionism, role of the dollar, industrial policy, and the debt crisis.

PSC 6345. Comparative Foreign Policy. 3 Credits.

The relationship of international actors with one another and with their external environment analyzed in a comparative framework. Focus on nation-states as well as non-state actors, such as international organizations. Differences and similarities in policies on economics, diplomacy, security, and global issues.

PSC 6346. The Politics of U.S. Foreign Policy. 3 Credits.

Patterns and problems in contemporary U.S. foreign policy. Special attention given to the domestic political factors shaping foreign policy.

PSC 6347. U.S. Foreign Policy Traditions. 3 Credits.

Contemporary debate about the substance of American foreign policy through the lens of alternative theoretical approaches to the study of international relations. Classical realist (national interest), neorealist (balance of power), neoliberal (international interdependence and institutions), and constructivist (national identity) interpretations are compared.

PSC 6348. Politics of U.S. National Security Policy. 3 Credits.

Examines competing theoretical approaches to the study of national security policy and tests these on a variety of substantive issue areas in the United States. (May include such topics as nuclear non-proliferation, responses to regional conflicts, definition of new security goals, etc.).

PSC 6349. International Security Politics. 3 Credits.

Overview of the major theoretical debates in international security. How different theoretical approaches inform policy decisions and options.

PSC 6350. Foreign Policy Analysis—Selected Topics. 3 Credits.

Analysis of U.S. foreign policy toward selected world regions.

PSC 6351. Civil-Military Relations. 3 Credits.

Substantive and theoretical issues and debates in the study of civil-military relations.

PSC 6360. Western European Politics. 3 Credits.

Examination of the principal characteristics of the British, French, German, and Italian political systems, comparing their institutional and behavioral adaptations to the problems of advanced industrial democracies.

PSC 6361. Politics of European Integration. 3 Credits.

The origins, institutions, and politics of West European integration, with emphasis on theories of regional integration and the development of the European Union.

PSC 6362. Nation-Building in the Balkans. 3 Credits.

The various nation-building policies Balkan nation-states have pursued toward different non-core groups over the nineteenth and twentieth centuries.

PSC 6364. Comparative Governments and Politics of Central And Eastern Europe. 3 Credits.

Comparative analysis of domestic political processes and policies in Central and Eastern Europe.

PSC 6366. Government and Politics of Russia. 3 Credits.

The politics and development of the Russian state.

PSC 6367. Post-Soviet Politics. 3 Credits.

How the study of former Soviet countries contributes to major debates in comparative politics. Focus includes regimes, political economy, revolutions, ethnic politics, nationalism.

PSC 6368. Japanese Politics and Foreign Policy. 3 Credits.

Japan's path to modernity and the impact its pattern of development has had on the nation's democratization, political economy, and political institutions in the post-1945 period.

PSC 6370. Politics of China I. 3 Credits.

Readings and discussion of the political dynamics and policy process in contemporary China.

PSC 6371. Politics of China II. 3 Credits.

Research seminar on selected topics in Chinese politics, using official and other primary sources. Prerequisites: PSC 6370 or permission of the instructor.

PSC 6372. Foreign Policy of China. 3 Credits.

Readings and research on the main approaches to analyzing China's foreign policy and foreign relations.

PSC 6373. Political Economy of Industrializing Asia. 3 Credits.

Comparative analysis of the relationship between economic interests and politics in East and Southeast Asia. Emphasis on industrializing economies and their integration into global trade and investment networks.

PSC 6374. Korean Politics. 3 Credits.

An examination of Korean politics from the perspectives of four major research areas: authoritarian regime and economic growth; democratic transition and consolidation; the Asian financial crisis and its consequences; and the two Koreas and international relations.

PSC 6377. Comparative Politics of the Middle East. 3 Credits.

Readings and research on selected problems of the governments and politics of the Middle East.

PSC 6379. Government and Politics of Africa. 3 Credits.

Major theories and themes of African politics considering the context shaping political and economic reforms, formal and informal institutions, and prospects for political reform.

PSC 6383. Comparative Politics of Latin America. 3 Credits.

Exploration of the democratic advances in Latin America in recent decades as well as the continuing severe social, economic, and political challenges to democracy.

PSC 6388. Topics in Comparative Politics. 3 Credits.

PSC 6390. Politics and Culture. 3 Credits.

Study of the intersection of culture and politics.

PSC 6439. International Political Economy. 3 Credits.

Research seminar exploring alternative theoretical approaches to the study of international political economy and their application to the explanation and interpretation of historical and contemporary events in world political and economic affairs. Primarily for Elliott School degree candidates.

PSC 6440. Theory in International Relations. 3 Credits.

Theories of international relations. Restricted to students in the Elliott School.

PSC 6442. Politics and Practice of International Institutions. 3 Credits.

The politics of international institutions in the areas of collective security, peace keeping, trade, money, development, environment, human rights.

PSC 6444. Politics of International Law. 3 Credits.

The political sources and consequences of international law and norms.

PSC 6456. Origins of Major Wars and Terrorism. 3 Credits.

An examination of the origins of major wars, including terrorism, from the eighteenth to the twentieth centuries from the theoretical perspectives of realism, liberalism, and constructivism/identity.

PSC 6457. Arms Control and Disarmament. 3 Credits.

Major issues and trends in the postwar development of U.S. arms control and disarmament policy.

PSC 6465. The International Politics of Central and Eastern Europe. 3 Credits.

Major historical, political, social, and regional factors that have shaped the interwar, World War II, and postwar evolution of Eastern Europe; emphasis on foreign relations with outside powers and on regional East-West contacts.

PSC 6467. Asian Security. 3 Credits.

An examination of the major issues in Asian Security using various theoretical perspectives involving a mix of political science and policy analysis.

PSC 6475. International Politics of East Asia. 3 Credits.

Foreign policies and international behavior of the regional states (especially China, Japan, and Vietnam) and the extraregional powers (especially the U.S. and Russia).

PSC 6476. The Arab-Israeli Conflict. 3 Credits.

Readings and research on the origins, evolution, and issues of the Arab-Israeli conflict.

PSC 6478. International Relations of the Middle East. 3 Credits.

Readings and research on the regional and international relations of the Middle East.

PSC 6484. International Relations of Latin America. 3 Credits.

The trajectory of Latin America's role in the world, with a particular focus on conflict and cooperation between Latin America and the United States.

PSC 6489. Topics in International Relations. 3 Credits.

PSC 6987. Legal Internship. 3 Credits.

Study of the interior workings of legal institutions and related organizations through an approved internship with a court, law firm, legal advocacy group, public defender's office, or legal think tank. A research paper is required.

PSC 6996. Reading. 3 Credits.

Written permission of the instructor required prior to enrollment. Restricted to graduate degree candidates.

PSC 6997. Research. 3 Credits.

Written permission of the instructor required prior to enrollment. Restricted to graduate students in the political science program.

PSC 6998. Thesis Research. 3 Credits.

PSC 6999. Thesis Research. 3 Credits.

PSC 8101. Introduction to Empirical Political Analysis. 3 Credits.

Statistical foundations of empirical political analysis and computer applications. Basic probability theory, exploratory and descriptive data analysis, statistical inference, and introduction to linear regression.

PSC 8102. Empirical Political Analysis. 3 Credits.

Techniques of social science data analysis. Model building, estimation, and interpretation. Linear models and extensions. Introduction to discrete choice models. Prerequisite: PSC 8101 or permission of the instructor.

PSC 8103. Approaches to Policy Analysis. 3 Credits.

Primarily for doctoral students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 8104. Qualitative Research Methods. 3 Credits.

Theoretical, practical, and ethical aspects of conducting qualitative research.

PSC 8105. Readings in Political Theory. 3 Credits.

Selected major works, both ancient and modern, that illuminate basic problems and questions of political theory.

PSC 8106. Topics in Political Theory. 3 Credits.

Advanced readings and group discussions. Analysis and interpretation of selected concepts and schools of thought.

PSC 8107. Modern Political Thought and Ideologies. 3 Credits.

Analysis of some main currents in modern political thought and ideologies.

PSC 8108. Craft of Political Inquiry. 3 Credits.

Logic of inquiry in political science: theories of knowledge, inference, and research methods.

PSC 8109. Dissertation Development Workshop. 3 Credits.

Design and development of dissertation research proposal for political science PhD Students.

PSC 8120. Nonlinear Models. 3 Credits.

Introduction to maximum likelihood estimation interpretation of non-linear statistical models. Statistical inference, appropriate use, and presentation and interpretation of results.

PSC 8121. Causal Inference. 3 Credits.

Tools used in the social sciences to infer causation, including classical experiments, natural experiments, instrumental variables, regression discontinuity, and panel designs. Restricted to students in the PhD in political science program. Prerequisite: PSC 8101.

PSC 8122. Logitudinal Analysis. 3 Credits.

Examination of two classes of statistical models for longitudinal data—(1) models for time-series, cross-sectional and panel data and (2) modeling event history (i.e., duration, survival, hazard).

PSC 8124. Multilevel Modeling. 3 Credits.

Statistical issues and models for multilevel (hierarchical) data structures, including the variance components, random intercept, and random coefficient models. Handling cross-level interactions.

PSC 8128. Surveys and Experiments. 3 Credits.

Design and analysis of sample surveys and experiments, including lab, survey, and field experiments. Restricted to students in the PhD in political science program. Prerequisite: PSC 8101.

PSC 8130. Game Theory I. 3 Credits.

Introduction to the core elements of game theory and how it has been utilized in political science. Applications of formal models to political phenomena and the major insights that have come from this work. Restricted to graduate students in the political science program.

PSC 8131. Game Theory II. 3 Credits.

Builds on the introductory material in Game Theory I to focus on examples of formal work in political science. Students expand their knowledge of advanced games and learn the principles behind exemplary published research. Restricted to graduate students in the political science program.

PSC 8132. Network Analysis. 3 Credits.

Sociological and psychological foundations of network theory; network measurement and inferential tools; applications of these tools and concepts to political science. Restricted to graduate students in the political science program.

PSC 8185. Topics in Empirical and Formal Political Analysis. 3 Credits.

Selected topics in quantitative political methodology and formal political theory with varying emphasis on maximum likelihood estimation, nonlinear models, causal inference, formal theories, and mathematical/computational tools for the social sciences. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PSC 8187. Selected Topics in Political Theory. 3 Credits.

In-depth coverage of significant issues in political theory, including such topics as justice, toleration, and political community. For advanced students.

PSC 8210. American Political Process. 3 Credits.

A survey of American political institutions, processes, and behavior.

PSC 8211. Urban Politics. 3 Credits.

Comparative analysis of the context, institutions, processes, and policies of urban political systems.

PSC 8212. Urban Policy Problems. 3 Credits.

Analysis of public policy issues confronting urban governments; emphasis on the theoretical roots and empirical impact of past and present programs in such areas as housing, education, poverty, and crime.

PSC 8213. Judicial Politics. 3 Credits.

Introduction to the literature of judicial process and behavior studies; specific focus on selected topics. Emphasis on the major subfields of law, courts, and judicial process.

PSC 8215. Law, Politics, and Society. 3 Credits.

Role of the judiciary in policy formulation; emphasis on the U.S. Supreme Court and civil liberties issues.

PSC 8216. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with particular emphasis on the politics of contemporary policymaking.

PSC 8217. Executive Branch Politics. 3 Credits.

Structure and operation of governmental bureaucracy with particular emphasis on the politics of formulating and implementing public policy.

PSC 8218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

PSC 8219. Political Parties and Elections. 3 Credits.

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

PSC 8220. Public Opinion and Political Psychology. 3 Credits.

Sources and dynamics of public opinion and political socialization.

PSC 8221. Interest-Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

PSC 8226. Politics and Organizations. 3 Credits.

Theoretical approaches to understanding organizational behavior and change; applications to specific political problems in U.S., international, and comparative politics.

PSC 8229. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis.

PSC 8286. Selected Topics in American Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics. For advanced students. (Offered as the demand warrants).

PSC 8331. Advanced Theories of Comparative Politics. 3 Credits.

Major concepts, methods, and theoretical debates in comparative politics, including cultural, rational, and institutional approaches.

PSC 8333. Political Violence. 3 Credits.

Theoretical and methodological approaches to studying violence, such as civil wars, ethnic riots, suicide bombings, and genocide, and the impact of violence on societies and people. Restricted to graduate students in the political science program.

PSC 8334. Democracy and Democratization in Comparative Perspective. 3 Credits.

Theoretical approaches to processes of democratization. Evaluation of cultural, economic, institutional, and international-actor approaches. Case analysis of recently transitioned or transitioning nations. Primarily for PhD students in political science.

PSC 8337. Theories of Political Development. 3 Credits.

Examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions?.

PSC 8338. Nationalism and Nation-Building. 3 Credits.

Nationalism, ethnic conflict, and nation-building; the effects of nationalism on political identities, state formation, patterns of political violence, definitions of citizenship, migration policies, and voting behavior.

PSC 8340. Authoritarianism and Democratization. 3 Credits.

The political science scholarship on authoritarian regimes, including their institutional features, strategies for survival, and prospects for change.

PSC 8341. Theories of Ethnic Politics. 3 Credits.

Focus on cutting-edge interdisciplinary theories of ethnicity's role in politics. Ethnicity's relationship to democracy, economy, psychology, conflict, and solutions. Cases worldwide.

PSC 8388. Selected Topics in Comparative Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in comparative politics, including such topics as democratization, the politics of development, the role of the state in advanced industrial societies, gender and ethnicity, and the politics of nationalism. (Offered as the demand warrants).

PSC 8441. Advanced Theories of International Politics. 3 Credits.

Perspectives examined range from realism to critical theory and focus upon a variety of explanatory variables.

PSC 8450. Topics in International Relations. 3 Credits.

.

PSC 8452. Theories of International Security. 3 Credits.

Focus on conflict in different systems and scenarios and on causes and consequences of different strategies. The role of ethics in international security.

PSC 8453. Advanced Theories of Political Economy. 3 Credits.

Major theories of political economy, from classical perspectives on problems of international cooperation to modern treatments of trade, finance, investment, and regulation.

PSC 8454. Domestic Politics and International Relations. 3 Credits.

Theoretical and empirical approaches to exploring the relationship between domestic politics and international relations. Restricted to PhD students in the political science program and MA students with permission of the instructor.

PSC 8460. Military Intervention. 3 Credits.

Theoretical and empirical approaches to the study of military interventions. The challenges of designing political science research on a complex and policy-relevant topic like military intervention.

PSC 8461. Military Effectiveness. 3 Credits.
Theories of military effectiveness in conventional wars. Case studies of several conflicts and brief exploration of effectiveness in unconventional wars.

PSC 8462. Civil War. 3 Credits.
Theories of causes, conduct, and termination of civil wars. Consideration of violence against civilians, rebel recruitment, counterinsurgency, and civil war outcomes.

PSC 8489. Selected Topics in International Politics. 3 Credits.
In-depth coverage of significant theoretical and empirical issues in international politics, including such topics as comparative foreign policy, ethics and norms in international politics, the politics of military intervention, and theories of security in a post-Cold War environment. For advanced students. (Offered as the demand warrants).

PSC 8997. Advanced Reading. 1-3 Credits.
Advanced reading course. Restricted to doctoral candidates preparing for the general examination.

PSC 8998. Advanced Research. 1-12 Credits.
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

PSC 8999. Dissertation Research. 3-12 Credits.
May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (https://current.bulletin.gwu.edu/arts-sciences/#General_Education_Curriculum_Requirement).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics (or the equivalent)	

The program strongly recommends that students take 12 credits in introductory foreign language and statistics.

Code	Title	Credits
Required for the major		
Six 2000-level political science courses (18 credits) selected from the groups below, including one course from group D and one from group E: *		
Group A (comparative politics)		
PSC 2330	Comparative Politics of Western Europe	
PSC 2331	Comparative Politics of Central and Eastern Europe

or PSC 2449W	International Security Politics		
PSC 2451	Theory of War		

PSC 3192W Proseminar: Political Science (taken in the junior or senior year)

PSC 3500 Advanced Topics in Political Science

*No more than 3 credits of PSC 2987 Internship: Political Science may be credited to the 2000-level course requirement.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a GPA in upper level Political Science courses of 3.7 or higher.

The GPA in upper level PSC classes is calculated using only PSC upper level or 2000, 3000, and 4000 level classes with no substitution classes and no transfer classes.

The designation of Honors appears on the student's transcript, not on the diploma.

BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE (PUBLIC POLICY FOCUS)

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics	

Required for the major

18 credits of 2000-level courses in political science, distributed as follows: *

Three courses (9 credits) from the following:

PSC 2212 State and Urban Policy Problems

PSC 2213 Judicial Politics

PSC 2216 The American Presidency

PSC 2217 Executive Branch Politics

PSC 2218 Legislative Politics

or PSC 2218W Legislative Politics

PSC 2219 Political Parties and Interest Groups

PSC 2240 Poverty, Welfare, and Work

PSC 2222 Science, Technology, and Politics

PSC 2224 Issues in Domestic Public Policy

PSC 2446 U.S. Foreign Policy

PSC 2468 Post-Soviet Foreign Policy

Three courses (9 credits) from the following groups. One course must from group D.

Group A (comparative politics)

PSC 2330 Comparative Politics of Western Europe

PSC 2331 Comparative Politics of Central and Eastern Europe

PSC 2332 European Integration

PSC 2334 Global Perspectives on Democracy

PSC 2336 State-Society Relations in the Developing World

PSC 2337 Development Politics

PSC 2338 Nationalism

PSC 2339 Comparative Political Economy

PSC 2366 Russian Politics

PSC 2367 Human Rights

or PSC 2367W Human Rights

PSC 2368 Politics in the Two Koreas

PSC 2369 Comparative Politics of South Asia

PSC 2370 Comparative Politics of China and Northeast Asia

PSC 2371 Politics and Foreign Policy of China

PSC 2373 Comparative Politics of Southeast Asia

PSC 2374 Politics and Foreign Policy of Japan

PSC 2377 Comparative Politics of the Middle East

or PSC 2377W Comparative Politics of the Middle East

PSC 2379 Politics and Foreign Policy of Israel

PSC 2381 Comparative Politics of Sub-Saharan Africa

PSC 2383 Comparative Politics of Latin America

PSC 2993 Special Topics in Comparative Politics

Group B (American government and politics)

PSC 2211 State and Urban Politics

PSC 2213 Judicial Politics

PSC 2214 U.S. Constitutional Law and Politics I

PSC 2215 U.S. Constitutional Law and Politics II

PSC 2216 The American Presidency

PSC 2218 Legislative Politics

or PSC 2218W Legislative Politics

PSC 2219 Political Parties and Interest Groups

PSC 2220 Public Opinion

PSC 2221 African American Politics

PSC 2223 Campaigns and Elections

PSC 2225 Women and Politics

PSC 2228 Media, Politics, and Government

PSC 2229 Media and Politics

PSC 2230 Law and Justice: The View from Hollywood

PSC 2992 Special Topics in American Politics and Government

Group C (international politics, law, and organizations)

PSC 2439 International Political Economy

PSC 2440 Theories of International Politics

PSC 2442	International Organizations
or PSC 2442W	International Organizations
PSC 2444	Public International Law
PSC 2446	U.S. Foreign Policy
PSC 2447	American Presidents at War
PSC 2449	International Security Politics
or PSC 2449W	International Security Politics
PSC 2451	Theory of War
or PSC 2451W	Theory of War
PSC 2453	U.S. Foreign Policy Perspectives
PSC 2454	Humanitarianism
PSC 2455	Global Governance
PSC 2461	European-Atlantic Relations
PSC 2468	Post-Soviet Foreign Policy
PSC 2475	International Relations of East Asia
PSC 2476	The Arab-Israeli Conflict
or PSC 2476W	The Arab-Israeli Conflict
PSC 2478	International Relations of the Middle East
PSC 2482	African International Politics
PSC 2484	International Relations of Latin America
PSC 2994	Special Topics in International Relations
Group D (research methods)	
PSC 2101	Scope and Methods of Political Science
PSC 2102	Visualizing and Modeling Politics
Group E (political thought)	
PSC 2105	Major Issues of Western Political Thought I
PSC 2106	Major Issues of Western Political Thought II
or PSC 2106W	Major Issues of Western Political Thought II
PSC 2107	Twentieth-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought

PSC 2120W Freedom in American Thought and Popular Culture

PSC 2991 Special Topics in Political Thought

One proseminar (3 credits) and one advanced topics course (3 credits)

PSC 3192W Proseminar: Political Science (Taken in the junior or senior year. Topic must be policy oriented.)

PSC 3500 Advanced Topics in Political Science

Code	Title	Credits
------	-------	---------

Six courses (18 credits) in other social sciences and statistics, which must include:

Four required courses:

ECON 1011 Principles of Economics I

ECON 1012 Principles of Economics II

ECON 2101 Intermediate Microeconomic Theory

STAT 1051 Introduction to Business and Economic Statistics

or STAT 1053 Introduction to Statistics in Social Science

or STAT 1111 Business and Economic Statistics I

and two of the following:

ECON 2122 Monetary Theory and Policy

ECON 2136 Environmental and Natural Resource Economics

ECON 2151W Economic Development

ECON 2151 Economic Development

ECON 2157 Urban and Regional Economics

ECON 2158 Industrial Organization

ECON 2159 Government Regulation of the Economy

ECON 2167 Economics of Crime

ECON 3142 Labor Economics

ECON 3148 Health Economics

ECON 3161 Public Finance: Expenditure Programs

ECON 3162 Public Finance: Taxation

ECON 3181 International Trade Theory

ECON 3190	Law and Economics
ECON 3191	Game Theory
SOC 2105	Social Problems in American Society
SOC 2112	Evaluation Research
SOC 2135	Youth and Delinquency
SOC 2136	Criminology
SOC 2137	Transnational Crime
SOC 2139	Alternatives to Imprisonment
SOC 2143	Criminal Justice System Arrest Through Appeal
SOC 2145	Criminal Law
SOC 2146	The Bill of Rights and Criminal Justice
SOC 2161	Sociology of Complex Organizations
SOC 2162	Sociology of the Family
SOC 2163	Sociology of Education
SOC 2169	Urban Sociology
SOC 2170	Class and Inequality in American Society
SOC 2174	Sociology of Immigration
SOC 2179	Race and Minority Relations
STAT 1129	Introduction to Computing
STAT 2118	Regression Analysis
STAT 2123	Introduction to Econometrics
STAT 2183	Intermediate Statistics Lab/Packages

*No more than 3 credits of PSC 2987 Internship: Political Science may be credited to the 2000-level course requirement.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible

citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a GPA in upper level Political Science courses of 3.7 or higher.

The GPA in upper level PSC classes is calculated using only PSC upper level or 2000, 3000, and 4000 level classes with no substitution classes and no transfer classes.

The designation of Honors appears on the student's transcript, not on the diploma.

BACHELOR OF SCIENCE WITH A MAJOR IN POLITICAL SCIENCE REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics	
Required for the major		
Six 2000-level political science courses (18 credits) from the groups below, including one course from group D and one from group E: *		
Group A (comparative politics)		
PSC 2330	Comparative Politics of Western Europe	
PSC 2331	Comparative Politics of Central and Eastern Europe	
PSC 2332	European Integration	
PSC 2334	Global Perspectives on Democracy	
PSC 2336	State-Society Relations in the Developing World	
PSC 2337	Development Politics	
PSC 2338	Nationalism	
PSC 2339	Comparative Political Economy	

PSC 2366	Russian Politics
PSC 2367	Human Rights
or PSC 2367W	Human Rights
PSC 2368	Politics in the Two Koreas
PSC 2369	Comparative Politics of South Asia
PSC 2370	Comparative Politics of China and Northeast Asia
PSC 2371	Politics and Foreign Policy of China
PSC 2373	Comparative Politics of Southeast Asia
PSC 2374	Politics and Foreign Policy of Japan
PSC 2377	Comparative Politics of the Middle East
or PSC 2377W	Comparative Politics of the Middle East
PSC 2379	Politics and Foreign Policy of Israel
PSC 2381	Comparative Politics of Sub-Saharan Africa
PSC 2383	Comparative Politics of Latin America
PSC 2993	Special Topics in Comparative Politics
Group B (American government and politics)	
PSC 2211	State and Urban Politics
PSC 2212	State and Urban Policy Problems

or PSC 2442W	International Organizations
PSC 2444	Public International Law
PSC 2446	U.S. Foreign Policy
PSC 2447	American Presidents at War
PSC 2449	International Security Politics
or PSC 2449W	International Security Politics
PSC 2451	Theory of War
or PSC 2451W	Theory of War
PSC 2453	U.S. Foreign Policy Perspectives
PSC 2454	Humanitarianism
PSC 2455	Global Governance
PSC 2461	European-Atlantic Relations
PSC 2468	Post-Soviet Foreign Policy
PSC 2475	International Relations of East Asia
PSC 2476	The Arab-Israeli Conflict
or PSC 2476W	The Arab-Israeli Conflict
PSC 2478	International Relations of the Middle East
PSC 2482	African International Politics
PSC 2484	International Relations of Latin America
Group D (research methods)	
PSC 2101	Scope and Methods of Political Science
PSC 2102	Visualizing and Modeling Politics

Group E (political thought)

PSC 2105	Major Issues of Western Political Thought I
PSC 2106	Major Issues of Western Political Thought II
or PSC 2106W	Major Issues of Western Political Thought II
PSC 2106W	Major Issues of Western Political Thought II
PSC 2107	Twentieth-Century Political Thought
PSC 2108	Freedom and Equality
PSC 2110	American Political Thought
PSC 2120W	Freedom in American Thought and Popular Culture
PSC 2991	Special Topics in Political Thought
One proseminar (3 credits) and one advanced topics course (3 credits)	
PSC 3192W	Proseminar: Political Science (taken in the junior or senior year)
PSC 3500	Advanced Topics in Political Science
Required courses in related areas	
MATH 1232	Single-Variable Calculus II
STAT 1051	Introduction to Business and Economic Statistics (only one may be taken for credit)
or STAT 1053	Introduction to Statistics in Social Science
or STAT 1111	Business and Economic Statistics I
Four additional courses in statistics, mathematics, and computer science, excluding the following:	
CSCI 1010	Computer Science Orientation
CSCI 1011	Introduction to Programming with Java
CSCI 1020	Applications Software
CSCI 1021	Introduction to Computers and the Internet
CSCI 1022	Introduction to Internet Technology
CSCI 1023	Introduction to Web Software Development
CSCI 1030	Technology and Society

or CSCI 1030W Technology and Society

MATH 1000	Dean's Seminar
MATH 1008	History of Mathematics
MATH 1009	Mathematical Ideas I
MATH 1010	Mathematical Ideas II
MATH 1220	Calculus with Precalculus I
MATH 1221	Calculus with Precalculus II
MATH 1231	Single-Variable Calculus I
MATH 1252	Calculus for the Social and Management Sciences
MATH 2991	Introductory Special Topics
STAT 1000	Dean's Seminar
STAT 1129	Introduction to Computing
STAT 4195	Reading and Research

*No more than 3 credits of PSC 2987 Internship: Political Science may be credited to the 2000-level course requirement.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.

- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a student must have a GPA in upper level Political Science courses of 3.7 or higher.

The GPA in upper level PSC classes is calculated using only PSC upper level or 2000, 3000, and 4000 level classes with no substitution classes and no transfer classes.

The designation of Honors appears on the student's transcript, not on the diploma.

DUAL BS IN POLITICAL SCIENCE AND MPP

The Departments of Political Science and Public Policy and Public Administration in Columbian College offer a dual bachelor of science (BS) in political science (p. 409) and master of public policy (MPP) (p. 448) degree program. The

program allows students to take 12 graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's. All requirements for both degrees must be fulfilled. Students interested in the dual degree program should consult with their advisor.

DUAL BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE (PUBLIC POLICY FOCUS) AND MASTER OF PUBLIC POLICY

The Department of Political Science and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in political science (public policy focus) (p. 403) and master of public policy (p. 382) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://tspppa.gwu.edu/combined-bampa-political-science-program/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE AND MASTER OF ARTS IN THE FIELD OF POLITICAL SCIENCE

The Department of Political Science offers a dual bachelor of arts with a major in political science (p. 403) and master of arts in the field of political science (p. 413) degree program. The program allows students to take 9 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://politicalscience.columbian.gwu.edu/combined-degree-programs/>) for additional information.

DUAL BACHELOR OF ARTS WITH A MAJOR IN POLITICAL SCIENCE AND MASTER OF PUBLIC ADMINISTRATION

The Department of Political Science and the Trachtenberg School of Public Policy and Public Administration work in cooperation to offer a dual bachelor of arts with a major in

political science (p. 403) and master of public administration (p. 447) degree program. The program allows students to take 12 graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://politicalscience.columbian.gwu.edu/combined-degree-programs/>) for additional information.

MINOR IN POLITICAL SCIENCE REQUIREMENTS

The following requirements must be fulfilled: 18 credits in political science (PSC) courses.

Code	Title	Credits
Required		
One course from the following:		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 1003	Introduction to International Politics	
One course from the following:		
PSC 2105	Major Issues of Western Political Thought I	
PSC 2106	Major Issues of Western Political Thought II	
or PSC 2106W	Major Issues of Western Political Thought II	
PSC 2107	Twentieth-Century Political Thought	
PSC 2108	Freedom and Equality	
PSC 2110	American Political Thought	
PSC 2120		
or PSC 2120W	Freedom in American Thought and Popular Culture	
or AMST 2120W	Freedom in American Thought and Popular Culture	
PSC 2991	Special Topics in Political Thought	
Four additional PSC courses.		

MINOR IN PUBLIC POLICY

The following requirements must be fulfilled: 24 credits, including 15 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
Required		
PSC 1001	Introduction to Comparative Politics	
PSC 1002	Introduction to American Politics and Government	
PSC 2101 or PSC 2102	Scope and Methods of Political Science Visualizing and Modeling Politics	
ECON 1011	Principles of Economics I	
ECON 1012	Principles of Economics II	
Electives		
Three courses (9 credits) from the following:		
PSC 2212	State and Urban Policy Problems	
PSC 2213	Judicial Politics	
PSC 2216	The American Presidency	
PSC 2217	Executive Branch Politics	
PSC 2218	Legislative Politics	
PSC 2219	Political Parties and Interest Groups	
PSC 2222	Science, Technology, and Politics	
PSC 2224	Issues in Domestic Public Policy	
PSC 2240	Poverty, Welfare, and Work	
PSC 2446	U.S. Foreign Policy

MASTER OF ARTS IN THE FIELD OF POLITICAL SCIENCE

As part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program examines politics on a national and international scale, with emphases on American politics, comparative politics and international relations. The nationally recognized political science program at GW offers graduate students an opportunity to work with prominent scholars in a wide range of

fields and to take advantage of the resources and opportunities of the nation’s capital.

We train students broadly and emphasize mastery of a variety of research methods. Our graduate students have won prestigious dissertation and post-doctoral awards and are active in all aspects of the profession. Our graduates have secured tenure-track positions at such schools as William & Mary, DePaul University, the University of Indiana, the University of Toronto, Colorado State University, Occidental College, SOAS/University of London, and the University of Oregon.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

33 credits, including a minimum 15 credits in a single track, selected according to departmental guidelines, and 18 credits selected from among all tracks; and successful completion of a comprehensive examination.

Code	Title	Credits
Required		
15 credits (five courses) in one of the three tracks listed below and 18 credits (six courses) selected from among all tracks.		
American politics track		
PSC 6103	Approaches to Public Policy Analysis	
PSC 6114	Theories of Judicial Review	
PSC 6346	The Politics of U.S. Foreign Policy	
PSC 6347	U.S. Foreign Policy Traditions

Other requirements

Successful completion of a comprehensive examination.

DOCTOR OF PHILOSOPHY IN THE FIELD OF POLITICAL SCIENCE

As part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the PhD in political science examines politics on a national and international scale, with emphasis on American politics, comparative politics, and international relations. The nationally recognized program offers graduate students an opportunity to work with prominent scholars in a wide range of fields and to take advantage of the resources and opportunities of the nation's capital.

The program trains students broadly, with emphasis on mastering a variety of research methods. Students have won prestigious dissertation and post-doctoral awards and are active in all aspects of the profession. Students are able to construct a program consisting of a major and minor field of study. The three major fields are American politics, international relations, and comparative politics. The PhD program allows students to construct a program consisting of a major and a minor field of study. The three major fields are American politics, international relations and comparative politics. Any of the major fields—plus public policy, political theory, or research methodology—is an option for a minor. In addition, the Trachtenberg School of Public Policy and Public Administration and the Department of Political Science offer a dual master of public policy (MPP) (p. 448) and doctor of philosophy in political science (PhD) (p. 416) degree program.

Program graduates have secured tenure-track positions at such schools as William & Mary, DePaul University, University of Indiana, University of Toronto, Colorado State University, Occidental College, SOAS/University of London, and University of Oregon. Graduates seeking positions outside of a university setting have found positions at the Congressional Research Service, the World Bank, and the Federal Bureau of Investigation, among others.

REQUIREMENTS

Students of outstanding ability are admitted to the doctoral program upon recommendation of a departmental graduate committee and the concurrence of Columbian College.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Code	Title	Credits
------	-------	---------

Required

PSC 8101	Introduction to Empirical Political Analysis
----------	--

PSC 8108	Craft of Political Inquiry
----------	----------------------------

PSC 8109	Dissertation Development Workshop
----------	-----------------------------------

Five major field courses, including a field seminar, if applicable.

Four minor field courses, including a field seminar, if applicable.

Additional requirements

In addition to required coursework, program requirements consists of two comprehensive examinations covering a primary and supporting field, an original research paper, and a dissertation demonstrating the capacity to undertake original and significant research. The research paper, to be completed by the second year in the program, must reflect the student's ability to conduct original research. Students prepare for the comprehensive exams by taking at least five courses in their primary field and at least four courses in their supporting field, selected according to departmental guidelines. Three primary fields are available: American politics, international relations, and comparative politics. In addition, political theory, public policy, and research methodology are available as supporting fields. Petitions for a self-designed minor field (e.g., political communications) composed primarily of courses not offered by the established fields can be jointly proposed by students and faculty. All students must complete a sequence of courses in research methodology comprising PSC 8101, PSC 8108, and PSC 8109.

A recommendation to the Dean for Admissions to candidacy, or the dissertation research stage, will be considered upon satisfactory completion of all coursework, research paper, field examinations, and successful defense of the dissertation prospectus. Students must pass their primary field examination with a satisfactory pass or above and must pass their supporting field examination with a bare pass or above in order to be considered eligible for promotion to candidacy. Admission to candidacy is permitted only if the student's performance on the examinations and in the coursework gives a good indication of success in the second unit. Passing the field examinations does not in itself ensure admission to candidacy.

The dissertation prospectus must outline the central research question(s), relate the proposed research to the existing literature, detail a research methodology, and explain the nature of the original contribution that the completed project will provide. The prospectus must be presented and defended in an open forum, which all faculty and doctoral students are invited to attend. The full dissertation must be similarly defended. A dual degree program enables students to earn the master of public policy along with the PhD in the field of political science.

PROFESSIONAL PSYCHOLOGY

Offered through the Columbian College of Arts and Sciences social and behavioral sciences discipline, the professional psychology program offers the graduate degrees master of arts in the field of forensic psychology and doctor of psychology (PsyD) in the field of clinical psychology.

The MA degree program is designed to address a growing need for criminal profilers, competency experts, psychological evaluators, and counselors. Students are immersed in courses ranging from the psychopathology of serial criminals and terrorist agents to the treatment of sex offenders and ethical issues involving interrogation. The forensic psychology degree program offers two tracks; the applied forensics track prepares students for careers in law enforcement or homeland security, while the applied psychology track prepares students for careers as providers of direct services to clients in organizations such as rehabilitational facilities and community action organizations, and can serve as a springboard for clinical work at the doctoral level. Students are required to complete 250 hours of externship training, tailored to their professional interests.

The PsyD program offers a substantive introduction to the basic science aspects of psychology and the skills required of a clinical psychologist. Students take a series of foundation courses outlining biological, cognitive, social, and cultural foundations; basic and more advanced clinical courses, such as psychopathology, group dynamics, assessment, psychotherapy, supervision, and consultation; and research methods, statistics, history and systems, and ethics courses. The advanced curriculum offers courses tailored within three broad tracks: adult, assessment, and child. In addition to didactic courses, students work with a diverse patient population at different public and private agencies as well as at the department's in-house clinic. Upon completion of coursework and prior to receiving the PsyD, students perform a one-year, full-time internship.

The professional psychology program also offers the graduate certificate in LGBT health policy and practice.

Visit the Professional Psychology Program website (<https://psyd.columbian.gwu.edu/>) for additional information.

GRADUATE

Master's program

- Master of Arts in the field of forensic psychology (p. 420)

Doctoral program

- Doctor of Psychology in the field of clinical psychology (p. 418)

CERTIFICATE

- Graduate Certificate in LGBT health policy and practice (p. 419)

FACULTY

Professors Emeriti D. Holmes, R. Ruth

Professor L. Ingraham (*Director*)

Associate Professors R. Cooter, P. Gedo (Deputy Director and Director of Clinical Training), C. Marmarosh

Assistant Professors R. Lopez Sharifi, J. Sexton, S. Hedlund

Adjunct Professors Y. Aleshina, H. Devinney, K. Marshall Woods, K. Weise, L. Sheehi

Professorial Lecturers M. Forbes, S. Forssell, A. Gartner, D. Grasso, J. Gorin, C. Holl, S. Kane, P. Magaletta, B. McConnell, J. McNamara, B. Sheppard, P. Snejevski, A. Washington, N. Xenakis, H. Zelle

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: PSYD courses are limited to students enrolled in the Professional Psychology program except by permission of the director. See the Department of Psychology for the degree program leading to the Doctor of Philosophy in the field of clinical psychology.

- Forensic Psychology (FORP) (p. 1597)
- Professional Psychology (PSYD) (p. 1750)

DOCTOR OF PSYCHOLOGY IN THE FIELD OF CLINICAL PSYCHOLOGY

Offered through the Columbian College of Arts and Sciences' social and behavioral sciences discipline, the professional psychology program teaches students clinical research methods for new discoveries. Students receive in-depth psychodynamic training that combines extensive practical experience with classes on scientific foundations of psychology taught by seasoned clinicians, scholars, and researchers. Students also study cognitive behavioral, systems, and community consultation approaches. They have opportunities to learn group, family, and short-term interventions and to work in hospital, forensic, and school settings.

The professional psychology program offers a substantive introduction to the basic science aspects of psychology and the skills required of a clinical psychologist. Students take a series of foundation courses outlining biological, cognitive, social, and cultural foundations; basic and more advanced clinical courses, such as psychopathology, group dynamics, assessment, psychotherapy, supervision, and consultation; and research methods, statistics, history, and systems and ethics courses.

The advanced curriculum offers courses tailored within three broad tracks: adult, assessment, and child. In addition to coursework, students work with a diverse patient population at different public and private agencies as well as at the department's in-house clinic.

Upon completion of curriculum requirements and prior to receiving the PsyD, students perform a one-year, full-time internship.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Satisfactory completion of at least 83 credits of approved graduate coursework. A maximum of 12 credits may be taken in courses offered by the other affiliated members of the Consortium of Universities of the Washington DC Metropolitan Area (<https://www.consortium.org/>). Doctor of psychology students must complete all degree requirements within five years of matriculation in the program.

Successful completion of all required coursework and practical requirements and the general examination.

Code	Title	Credits
Curriculum requirements		
Core courses		
PSYD 8201	Psychological Assessment	
PSYD 8202	Psychological Assessment	
PSYD 8203	Practicum in Clinical Psychology	
PSYD 8204	Biological Bases of Clinical Psychology	
PSYD 8205	Psychodynamic Psychopathology	
PSYD 8206	Cognitive Bases of Clinical Psychology	
PSYD 8207	Group and Organizational Dynamics	
PSYD 8209	Statistics and Research Design	
PSYD 8210	Professional Issues	
PSYD 8220	Psychodynamic Psychotherapy	
PSYD 8221	Psychodynamic Psychotherapy	
PSYD 8222	Behavioral-Cognitive Therapies	
PSYD 8225	Theories of Mind	
PSYD 8226	Ego Psychology/Object Relations Theory	
PSYD 8227	History and Systems of Clinical Psychology	
PSYD 8231	Short-Term Psychotherapy	
or PSYD 8240	Group Psychotherapy	
PSYD 8246	Community Intervention (Consultation)	
PSYD 8261	Life Span Development	
PSYD 8270	Current Topics in Clinical Psychology *	
*Topics offered annually include Psychological Assessment III, Empirical Research, Prevention, and Supervision.		
Additional coursework		
Courses chosen from one of three tracks (adult, assessment, or child and adolescent) to complete the minimum requirement of 83 credits in graduate coursework.		
Practical requirements		
Practicum		

Successful completion of the practicum seminar PSYD 8203 in summer of first year and each fall and spring semester thereafter, as well as an additional practicum during a summer session.

Externship

Successful completion of an externship comprising a year-long, part-time supervised clinical assignment in two years of the program. A failed externship may, in exceptional circumstances and with the approval of the program director, be repeated. If the student fails a second time, no further opportunity will be provided, and the student’s degree candidacy is terminated.

Internship

Successful completion of a one-year, full-time internship at an institution approved by the program faculty is required. If the student fails the internship, no further opportunity will be provided and the student’s degree candidacy is terminated.

General examination

Satisfactory completion of the general examination.

Degree of master of psychology

Students who have earned 53 credits toward the PsyD may receive the degree of master of psychology (MPsy).

Transfer of Credit

Provisions are the same as those of the doctor of philosophy program, above, except that up to 27 credits may be transferred into the program.

Transfer of Credit

Provisions are the same as those of the Doctor of Philosophy Program, above, except that up to 27 credits may be transferred into the program.

The General Examination

Students are required to complete the general examination no later than the beginning of the final semester of the program. A student who fails to pass any part of the general examination may, in exceptional circumstances, and with the approval of the program, repeat the examination at the next scheduled date. If the student fails a second time, no further opportunity to take the examination is permitted and the student’s degree candidacy is terminated.

GRADUATE CERTIFICATE IN LGBT HEALTH POLICY AND PRACTICE

The graduate certificate program in Lesbian, Gay, Bisexual and Transgender (LGBT) Health Policy and Practice—the first of its kind in applied health for the LGBT community—trains current and future healthcare leaders to develop strategies that address health issues and reduce health disparities for LGBT

people. The one-year, 18-credit program provides students with a solid base in the psychological, medical, and policy-based issues faced by LGBT individuals.

Designed for working professionals, the program is a distance learning program with a combination of online coursework (completed throughout the year) and two, one-week residencies on the GW campus in Foggy Bottom. Core courses cover topics relating to LGBT health and well-being, mental health, and health policy. The required capstone projects enable students to put coursework into practice.

Each student will create a product designed to improve health outcomes for LGBT people that he or she can use in his or her place of employment to further his or her career, or can feature as a “real world” accomplishment in his or her resume in job applications. This program may be completed on either a two-year or a one-year schedule.

Visit the program website (<https://lgbt.columbian.gwu.edu/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses and three 2-credit elective courses.

Code	Title	Credits
Required		
PSYD 6201	Multi-disciplinary LGBT Health *	
PSYD 6202	LGBT Mental Health *	
PSYD 6203	LGBT Health Policy *	
Capstone		
PSYD 6211	LGBT Health Capstone	
Electives		
6 credits in elective courses selected from the following:**		
AMST 6430	Gender, Sexuality, and American Culture I	
PSYC 8275 or WGSS 8275	Women and Health	
PSYD 6221	Topics in LGBT Health	
PSYD 8270	Current Topics in Clinical Psychology	
PUBH 6099	Topics in Public Health (Designing and Evaluating HIV Prevention Programs)	
PUBH 6514	Preventing Health Disparities	
SOC 6268	Race, Gender, and Class	

SOC 6273	The Sex Industry
WGSS 6257	Gender and Sexuality

*Taken for 3 credits to meet program requirements.

**Students may petition the Program Director to include other courses as electives. Electives should be graduate-level courses offered at GW that pertain to the LGBT population (specifically, not the broader minority population), physical or mental health with a focus on minority/underserved populations, or public policy with a focus on health and/or minority/underserved populations.

MASTER OF ARTS IN THE FIELD OF FORENSIC PSYCHOLOGY

The Forensic Psychology program offers two tracks: Applied Forensics, which prepares students for careers in law enforcement or homeland security; and Applied Psychology, which prepares students for careers as providers of direct services to clients in organizations such as correctional facilities and community action organizations and can serve as a springboard for clinical work at the doctoral level. Students are required to complete 250 hours of externship training, tailored to their professional interest. Day, evening and weekend classes are offered to accommodate both full-time students and working professionals.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeeregulationtext>).

37 credits, including 25 credits in required courses and 12 credits in elective courses, and successful completion of a master's comprehensive examination.

Code	Title	Credits
Required		
FORP 6101	Psychology and the Legal System I	
FORP 6102	Psychology and the Legal System II	
FORP 6103	Theories of Criminal Behavior	
FORP 6104	Psychopathology	
FORP 6105	Basics of Psychological Assessment	
FORP 6106	Ethics in Forensic Psychology	
FORP 6107	Research and Statistics	
FORP 6108	Consultation and Testimony

FORP 6117	Interrogation and Interviewing
FORP 6118	Psychological Profiling
FORP 6119	Police Psychology
FORP 6120	Counterintelligence
FORP 6128	Terrorism and Counterterrorism
FORP 6129	Investigative Psychology

Applied psychology

Four of the following recommended elective courses:

FORP 6109	Evaluation and Treatment of Offenders
FORP 6110	Forensic Psychological Assessment
FORP 6111	Evaluation and Treatment of Sex Offenders
FORP 6112	Substance Abuse Evaluation and Treatment
FORP 6113	Victimology
FORP 6115	Children and Adolescents in the Legal System
FORP 6131	Individuals with Mental Illness in the Legal System

PSYCHOLOGICAL AND BRAIN SCIENCES

The Department of Psychological and Brain Sciences, part of the social and behavioral sciences division within the Columbian College of Arts and Sciences, seeks to advance the science and practice of psychology through research and its dissemination, and to provide outstanding education and training to undergraduate and doctoral students. The faculty encourages a scientist/applied approach to psychology, which is achieved through research and coursework that emphasize psychological knowledge, theories and methods, and apply psychological science to important issues individuals, communities, and society face.

UNDERGRADUATE

Bachelor's programs

- Bachelor of arts with a major in psychological and brain sciences (p. 427)
- Bachelor of science with a major in cognitive neuroscience (p. 429)

Combined program

- Dual bachelor of arts with a major in psychological and brain sciences and master of arts in the field of art therapy (p. 431)

Minor

- Minor in psychological and brain sciences (p. 431)

GRADUATE

Doctoral programs

- Doctor of Philosophy in the field of applied social psychology (p. 431)
- Doctor of Philosophy in the field of clinical psychology (p. 432)
- Doctor of Philosophy in the field of cognitive neuroscience (p. 434)

FACULTY

Professors P. Barratt, I.A. Bowleg, J.M. Ganiban, G. Howe, H.N. Le, S. Mitroff, L.R. Offermann, J.W. Philbeck (*Chair*), P.J. Poppen, L.A. Rothblat, S. Shomstein, C.K. Sigelman, P. Wirtz, M.C. Zea

Associate Professors D.P. Costanza, T.L. Dodge, S. Dopkins, C. Gee, S. Lambert, S.D. Molock, P.J. Moore, C.A. Rohrbeck, M.H. Sohn, M. Stock

Assistant Professors C. Beil (*Research*), S. K. Calabrese, D.J. Kravitz, D.E. Schell, G.K. Wu

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Departmental prerequisite: PSYC 1001 General Psychology is prerequisite to all undergraduate psychology courses.

PSYC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PSYC 1001. General Psychology. 3 Credits.

Fundamental principles underlying human behavior.

PSYC 1099. Variable Topics. 1-36 Credits.

PSYC 2011. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001. Same As: PSYC 2011W.

PSYC 2011W. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PSYC 1001. Same As: PSYC 2011.

PSYC 2012. Social Psychology. 3 Credits.

Social foundations of behavior: cognition, motivation, role behavior, communication, small-group processes, and attitudes. Prerequisite: PSYC 1001.

PSYC 2013. Developmental Psychology. 3 Credits.

Introduction to the study of human development; theory and research concerning changes in physical, cognitive, and social functioning and influences on the developing individual. Prerequisite: PSYC 1001.

PSYC 2014. Cognitive Psychology. 3 Credits.

Introduction to the study of cognition; review of data and theories on the topics of perception, attention, memory, language, reasoning, and decision making. Prerequisite: PSYC 1001.

PSYC 2015. Biological Psychology. 3 Credits.

Introduction to the biological basis of behavior; review of data and empirical methods on the topics of neural structure and function, brain damage, neuroanatomy, genes, hormones, and their influence on behavior. Prerequisite: PSYC 1001.

PSYC 2099. Variable Topics. 1-12 Credits.

PSYC 2101. Research Methods in Psychology. 3 Credits.

Survey of research designs (e.g., case studies, correlational designs, experiments), methods (e.g., questionnaires, observations), and measurement issues (e.g., reliability and validity). PSYC 1001 and STAT 1053 may be taken as a corequisite. Prerequisites: PSYC 1001 and STAT 1053.

PSYC 2199. Special Topics in Psychology. 3 Credits.

Special topics in psychology for students without advanced psychology background. Topics vary by semester. May be repeated once for credit provided the topic differs. See department for more details. Prerequisite: PSYC 1001. Credit cannot be earned for this course and PSYC 3199.

PSYC 2508. Humanistic Psychology. 3 Credits.

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. (Formerly PSYC 3108) Prerequisites: PSYC 1001.

PSYC 2514. Adult Development and Aging. 3 Credits.

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. (Formerly PSYC 3114) Prerequisites: PSYC 1001.

PSYC 2529. Theories of Personality. 3 Credits.

Survey of personality theories; emphasis on their application to problems of individuals. (Formerly PSYC 3129) Prerequisites: PSYC 1001.

PSYC 2531. Psychological Tests. 3 Credits.

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. (Formerly PSYC 3131) Prerequisites: PSYC 1001.

PSYC 2533. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind; broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment. Prerequisite: PSYC 1001. Same As: SPHR 2133.

PSYC 2541. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisites: PSYC 1001; and SPHR 1071 or SPHR 2135. Credit cannot be earned for this course and SPHR 2131.

PSYC 2544. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Formerly PSYC 2144. Prerequisites: ORSC 1109 or PSYC 1001. (Same as ORSC 2544).

PSYC 2550. Psychology of Sex Differences. 3 Credits.

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. (Formerly PSYC 3150) Prerequisites: PSYC 1001.

PSYC 2554. Psychology of Crime and Violence. 3 Credits.

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. (Formerly PSYC 3154) Prerequisites: PSYC 1001.

PSYC 2556. Psychology of Attitudes and Public Opinion. 3 Credits.

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. (Formerly PSYC 3156) Prerequisites: PSYC 1001.

PSYC 2570. Peer Education. 3 Credits.

This is a course designed to train George Washington University undergraduate students to be health peer educators. Students are trained in various topics related to mental health, physical health, and alcohol and/or other drugs, and gain the skills needed for outreach programming. Prerequisite: PSYC 1001.

PSYC 2571. Helping Skills. 3 Credits.

Training for undergraduate students preparing to be entry-level support professionals as a part of the GW Listens program or similar programs offering support to individuals who have mental and physical health issues. Prerequisite: PSYC 1001.

PSYC 2588. Attitudes Toward Death and Dying. 3 Credits.

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. (Formerly PSYC 3188) Prerequisites: PSYC 1001.

PSYC 2596. History and Systems of Psychology. 3 Credits.

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. (Formerly PSYC 4196) Prerequisites: PSYC 1001.

PSYC 2945. Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly PSYC 3945. Prerequisite: PSYC 1001.

PSYC 3099. Variable Topics. 1-12 Credits.**PSYC 3112. Psychology of Adolescence. 3 Credits.**

Psychological characteristics and problems peculiar to adolescence, with emphasis on application of psychology to the solution of such problems. Prerequisite: PSYC 2101 and PSYC 2013.

PSYC 3115. Developmental Psychopathology. 3 Credits.

The origins of child psychopathology, including developmental perspectives and the potential contributions of child-, family-, and community-based characteristics to the emergence of psychopathology. The development of specific childhood disorders. Prerequisites: PSYC 2011 and PSYC 2101; or PSYC 2013.

PSYC 3116. Brain and Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3118. Neuropsychology. 3 Credits.

Analysis of neural processes underlying behavior. Basic structure and functions of the nervous system, with emphasis on sensory processes, learning and memory, motivation, and emotion. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3119. Cognitive Science in the District. 3 Credits.

Study of cognitive psychology abilities (e.g., memory, attention, perception, decision making) through primary research articles and class discussion; firsthand experiences in the practical application of cognitive psychology through field trips in the DC area. Prerequisites: PSYC 2014 or PSYC 2015.

PSYC 3120. Neuroscience of Consciousness. 3 Credits.

The phenomenon of human consciousness using the methods and concepts of neuroscience. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015. Recommended background: psychology or cognitive neuroscience major.

PSYC 3121. Memory and Cognition. 3 Credits.

An examination of the psychological processes underlying human memory and cognition. Topics cover theoretical and experimental issues involving a range of cognitive function from attention and pattern recognition to learning and memory. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3122. Cognitive Neuroscience. 3 Credits.

How the structure and functions of the brain are related to cognitive processes and their associated behaviors. The biological bases of behavior and mental activity. Research and case studies by cognitive psychologists, neuroscientists, psychiatrists, and linguists, focusing on how the brain affects pattern recognition, attention, short-term and long-term memory processes, and language. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3124. Visual Perception. 3 Credits.

An overview of human perception, ranging from the detection of simple stimuli to the identification of objects and events; perceptions of color, motion, and spatial layout; research methodology, biological foundations, and theoretical issues. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2014 or PSYC 2015.

PSYC 3125. Cross-Cultural Psychology. 3 Credits.

Introduction to the theory, methods, and research of cross-cultural psychology, with emphasis on immigrants and ethnic minorities in the United States and on other cultures. Prerequisites: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisite: PSYC 2101 and PSYC 2011 or PSYC 2012. Same As: PSYC 3126W.

PSYC 3126W. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts. Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: PSYC 2011 or PSYC 2012; and PSYC 2101. Same As: PSYC 3126.

PSYC 3128. Health Psychology. 3 Credits.

Current research in the area of health psychology, with special attention to psychological factors related to health and illness, psychological intervention with medical patients, and psychological approaches to illness prevention and health promotion. Prerequisite: PSYC 2101.

PSYC 3132. Social and Personality Development. 3 Credits.

Examination of personal, emotional, and social development from infancy to adolescence and influences on that development. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 3170. Clinical Psychology. 3 Credits.

An exploration of the history, functions, and concerns of the clinical psychologist. Assessment, treatment, community approaches, ethics. Prerequisite: PSYC 2011 and PSYC 2101.

PSYC 3172. Psychopathology and the Media. 3 Credits.

How abnormal behaviors and mental disorders are portrayed in film and the media, including analysis of the accuracy of these portrayals, focusing on symptomatology, etiology, and treatment of adult psychopathology. Prerequisites: PSYC 2011 and PSYC 2101.

PSYC 3173. Community Psychology. 3 Credits.

Origins and current practice of community psychology, and comparison of community psychological approaches with traditional clinical perspectives; the role of psychology in addressing social issues facing communities; methods for research and intervention targeting communities. Prerequisites: PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 3180. Seminar in Cognitive Science. 3 Credits.

Advanced seminar for undergraduate students focusing on recent developments in cognitive science. Topics vary and may include perception, attention, memory, representation, and cognitive control, as well as neural bases of cognitive processes. Prerequisites: PSYC 3118 or PSYC 3121 or PSYC 3122 or PSYC 3124 or PSYC 4106W or PSYC 4107W.

PSYC 3193. Seminar in Industrial/Organizational Psychology. 3 Credits.

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. (Formerly PSYC 4193). Prerequisites: PSYC 1001 and PSYC 2544; or permission of the instructor.

PSYC 3198. Current Research Issues. 3 Credits.

Recent studies in psychology, including studies performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3199. Current Topics in Psychology. 3 Credits.

Topics vary. May be repeated once for credit provided the topic differs. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3591. Supervised Research Internship. 1-3 Credits.

Open to qualified students with permission of a supervising faculty member. Arrangements must be made with the faculty supervisor prior to registration; a list of participating faculty members and their research specialties is available from the department. May be repeated for credit; PSYC 3591 and PSYC 4591 combined may be taken for a total of 9 credits maximum. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3592. Field Internship. 3 Credits.

Advanced psychology majors spend a minimum of six hours per week in a supervised internship in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. May be repeated for credit, but the repeat enrollment does not count toward the major. Restricted to psychology majors. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 4106W. Research Lab in Sensation and Perception. 4 Credits.

Capstone course focused on the study of sensation and perception. Students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

PSYC 4107W. Research Lab in Cognitive Neuroscience. 4 Credits.

A capstone course focused on the study of cognitive neuroscience in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2014 or PSYC 2015.

PSYC 4201W. Research Lab in Clinical/Community Psychology. 4 Credits.

A capstone course focused on the study of clinical/community psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4202W. Research Lab in Applied Social Psychology. 4 Credits.

A capstone course focused on the study of topics in applied social psychology, such as discrimination and health, in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4203W. Research Lab in Developmental Psychology. 4 Credits.

A capstone course focused on the study of developmental psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: PSYC 1001 and PSYC 2101; and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4285. Foundations of Experimental Neuroscience. 3 Credits.

Current theories of cognitive neuroscience; the link between transduction of sensory input to behavior output, link between cortical circuits and complex cognition and behavior, and development of these circuits during embryonic, fetal, and early post-natal development. Prerequisites: BISC 2220 or BISC 2320 or PSYC 2015 or PSYC 3118 or PSYC 3122. (Same as NRSC 8285).

PSYC 4591. Independent Research. 1-3 Credits.

Open to qualified students by permission to pursue an independent research project with the supervision of a faculty member; arrangements must be made with the sponsoring faculty member prior to registration. May be repeated for credit; PSYC 3591 and PSYC 4591 may be taken for a total of 9 credits maximum. (Formerly PSYC 4191) Restricted to . Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 4997. Honors Seminar. 3 Credits.

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101. (Formerly PSYC 4197).

PSYC 5099. Variable Topics. 1-99 Credits.**PSYC 6998. Thesis Research. 3 Credits.****PSYC 6999. Thesis Research. 3 Credits.****PSYC 8202. Psychological Research Methods and Procedures. 3 Credits.**

Required in all graduate psychology programs. Includes philosophy of science, types of research design, and methods of data collection. Restricted to graduate students. Prerequisites: One laboratory course in psychology, and a course in statistics.

PSYC 8203. Experimental Foundations of Psychology: Learning, Memory, and Cognition. 3 Credits.

Current conceptions of learning, memory, and cognition; the research upon which these conceptions are based; applications to practical contexts. Restricted to graduate students.

PSYC 8204. Experimental Foundations of Psychology: Biological Basis of Behavior. 3 Credits.

Introduction to the structure and function of the nervous system. Topics include neural communication, sensory processes, memory, neuroendocrinology of sex differences and stress, psychiatric and neurodegenerative disorders. Restricted to graduate students.

PSYC 8207. Psychological Assessment I. 3 Credits.

Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to students in the PhD in clinical psychology program.

PSYC 8208. Psychological Assessment II. 3 Credits.

Continuation of PSYC 8207. Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to students in the clinical psychology program.

PSYC 8210. Developmental Theories and Issues. 3 Credits.

Orientation to the field of developmental psychology, with emphasis on traditional and contemporary theories, fundamental concepts and issues, and methodological approaches. Restricted to graduate students.

PSYC 8211. Community Psychology I. 3 Credits.

Survey of the history, theories, and values guiding community psychology; models of service delivery. Restricted to graduate students.

PSYC 8212. Community Psychology II. 3 Credits.

Continuation of PSYC 8211. Applications of the principles and theories of community psychology to interventions and research. Restricted to graduate students. Prerequisite: PSYC 8211.

PSYC 8218. Evidence-Based Interventions. 3 Credits.

Introduction to theory and technique of psychotherapeutic approaches of proven effectiveness. Restricted to graduate students.

PSYC 8219. Group Dynamics. 3 Credits.**PSYC 8220. Ethics and Professional Issues. 3 Credits.**

The foundations of ethics and ethical decision making, with an emphasis on the APA Ethics Code. Ethical conflicts and issues in the areas of research and practice. Restricted to graduate students.

PSYC 8223. Seminar: Human Memory. 3 Credits.

Selected topics of current research interest in the area of human memory. Emphasis on encoding and retrieval processes, amnesia, and disorders of memory. Restricted to graduate students.

PSYC 8225. Behavioral Approaches to Child Assessment and Therapy. 3 Credits.

Child assessment and treatment from a behavioral viewpoint. The application of conditioning, reinforcement, and shaping principles with reference to specific disorders of childhood. Restricted to graduate students.

PSYC 8227. Seminar: Principles of Psychotherapy. 3 Credits.

For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8228. Seminar: Principles of Psychotherapy. 3 Credits.

Continuation of PSYC 8227. For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8231. Development of Psychometric Instruments. 3 Credits.

Quantitative techniques and principles used in construction, standardization, and evaluation of personality and ability measures for research and practice; quantification of human judgment for measurement purposes. Restricted to graduate students. Prerequisites: course in tests and measurements and an elementary course in statistics.

PSYC 8236. Ethnic and Racial Diversity in Psychology. 3 Credits.

Basic theoretical models of research in ethnic, racial, and cultural diversity and new directions in the field. The impact of being an ethnic minority in the United States. Restricted to graduate students.

PSYC 8237. The Practice of General Psychology I. 3 Credits.

Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

PSYC 8238. The Practice of General Psychology II. 3 Credits.

Continuation of PSYC 8237. Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to students in the clinical psychology program.

PSYC 8239. Lifespan Developmental Psychopathology I. 3 Credits.

Infancy, childhood, and adolescence. Restricted to graduate students.

PSYC 8240. Lifespan Developmental Psychopathology II. 3 Credits.

Continuation of PSYC 8239. Restricted to graduate students.

PSYC 8243. Seminar: Psychology of Leadership in Organizations. 3 Credits.

Theories and issues related to the emergence and effectiveness of leaders, with focus on leadership behaviors and processes in organizations. Restricted to graduate students.

PSYC 8244. Theories and Processes of Organizational Management. 3 Credits.

Basic functions and techniques of organizational management—design, control, direction, and decision making—examined from the viewpoint of behavioral science. Restricted to graduate students.

PSYC 8245. Seminar: Organizational Behavior. 3 Credits.

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to graduate students.

PSYC 8246. Seminar: Personnel Evaluation Techniques. 3 Credits.

Techniques of personnel selection and performance evaluation. Employment tests, personal data, assessment interviews, performance ratings, and assessment centers. Federal guidelines in employee selection. Includes practicum. Restricted to graduate students.

PSYC 8248. Research Applications to Organizational Intervention and Change. 3 Credits.

Emphasis on development of models of organizational effectiveness; design of valid diagnostic instruments; implementation of research strategies; establishment of program evaluation criteria. Restricted to graduate students.

PSYC 8250. Seminar in Cognitive Neuroscience. 3 Credits.

Advanced topics in the fundamentals of cognitive neuroscience; attention, memory, scene processing, space perception, decision making, and social and affective functioning. Restricted to graduate students. Recommended background: a working knowledge of cognitive psychology concepts and core neuronal physiology.

PSYC 8251. Behavioral Neuroscience. 3 Credits.

The neural basis of behavior, with special focus on the psychobiological determinants of learning, memory, and cognition. Methodologies used for different levels of analysis with normal and brain-impaired subjects. Restricted to graduate students.

PSYC 8253. Social Cognition. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Social cognition, person perception, attribution, information processing, attraction, stereotyping. Restricted to graduate students.

PSYC 8254. Social Influence. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Analysis of intentional and unintentional social influence processes and their effects on behavior. Current research on conformity, social power, social exchange, and impression management. Restricted to graduate students.

PSYC 8255. Attitudes and Attitude Change. 3 Credits.

Current theory and research on attitudes and attitude change. Restricted to graduate students.

PSYC 8256. Introduction to Survey Research. 3 Credits.

Theory and practice of face-to-face telephone and mail surveys. Practical experience with all stages from the formulation of research questions and hypotheses to questionnaire design, sampling, pilot, testing, interviewing, coding, and data cleaning. Prerequisite: STAT 2105 .

PSYC 8257. Current Topics in Social Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas within field of social psychology. Topic changes each semester. Restricted to graduate students.

PSYC 8258. Qualitative Research and Analysis. 3 Credits.

Qualitative research and analysis with a focus on theory, didactic material relevant to qualitative methodologies, and applied qualitative research design and analysis. Restricted to graduate students.

PSYC 8259. Psychology of Individual and Group Decision Making. 3 Credits.

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to graduate students.

PSYC 8260. Psychology of Work Group Development. 3 Credits.

Examination of theory and research on groups as task performance systems. Approaches to team development as a means of improving work group effectiveness, including goal setting, role clarification, increasing interpersonal skills, and conflict resolution. Restricted to graduate students.

PSYC 8268. Seminar: Neuropsychology. 3 Credits.

Selected problems in research relating the brain and behavior. Independent topics each semester, such as sensory processing, brain development and behavior, clinical aspects of nervous system function. Restricted to graduate students.

PSYC 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Restricted to graduate students. (Same as WGSS 8275).

PSYC 8277. Health Psychology. 3 Credits.

Social psychological theories and research that relate to health and illness. Application of theories of social learning, attribution, attitude change, and social influence to topics such as health promotion and disease prevention, health compliance, and coping with illness and disability. Restricted to graduate students.

PSYC 8279. Special Topics in Health Psychology. 3 Credits.

May be repeated for credit provided the topic differs. Admission by permission of instructor. Restricted to graduate students.

PSYC 8280. Theories and Practice of Clinical Supervision. 0 Credits.

Theory and practice of clinical supervision through instruction and a supervision practicum in the clinical facilities. Restricted to clinical psychology graduate students.

PSYC 8283. First Year Seminar I: Motivational Interviewing. 0 Credits.

This course develops in clinical psychology doctoral students basic skills necessary for therapeutic effectiveness through motivational interviewing and familiarizes them with goals and values in their clinical training. Restricted to students in the clinical psychology program.

PSYC 8284. First Year Seminar II: Introduction to Therapy. 0 Credits.

Clinical psychology doctoral students gain basic familiarity with assessment and psychotherapy practices and understanding of the inner workings of the Meltzer Center clinic. Restricted to students in the clinical psychology program.

PSYC 8285. History and Systems of Psychology. 0 Credits.

Clinical psychology doctoral students engage in self-study of the history and systems of psychology. Restricted to students in the clinical psychology program.

PSYC 8286. Clinical Psychology Externship. 0 Credits.

Clinical psychology doctoral students participate in externship placements in clinical settings to develop their clinical skills and competencies. Restricted to students in the clinical psychology program.

PSYC 8287. Current Topics in Clinical Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8288. Current Topics in Industrial/Organizational Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to graduate students.

PSYC 8289. Seminar: Current Topics in Experimental Psychology. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. See department for more details. Restricted to graduate students.

PSYC 8291. Theories of Organizational Behavior. 3 Credits.

Examination of current theoretical models and research. Restricted to graduate students.

PSYC 8295. Independent Research. 3 Credits.

Individual library or experimental research under supervision of staff member. Arrangements must be made with sponsoring faculty member prior to registration. May be repeated for credit. Restricted to Psychology graduate students only.

PSYC 8998. Advanced Reading and Research. 1-12 Credits.

May be repeated for credit. Restricted to doctoral candidates preparing for the major field examination.

PSYC 8999. Dissertation Research. 3-12 Credits.

May be repeated for credit. Restricted to PhD students in the psychology program.

BACHELOR OF ARTS WITH A MAJOR IN PSYCHOLOGICAL AND BRAIN SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Required		
PSYC 1001	General Psychology	
PSYC 2101	Research Methods in Psychology	
STAT 1053	Introduction to Statistics in Social Science (or equivalent)	

Two survey courses (6 credits) selected from the following:

PSYC 2011 Abnormal Psychology

or PSYC 2011W Abnormal Psychology

PSYC 2012 Social Psychology

PSYC 2013 Developmental Psychology

One survey course (3 credits) selected from the following:

PSYC 2014 Cognitive Psychology

PSYC 2015 Biological Psychology

One course (3 credits) selected from the following:

PSYC 3112 Psychology of Adolescence

PSYC 3115 Developmental Psychopathology

PSYC 3125 Cross-Cultural Psychology

PSYC 3126 Multicultural Psychology

or PSYC 3126W Multicultural Psychology

PSYC 3128 Health Psychology

PSYC 3132 Social and Personality Development

PSYC 3170 Clinical Psychology

PSYC 3173 Community Psychology

One course (3 credits) selected from the following:

PSYC 3118 Neuropsychology

PSYC 3119 Cognitive Science in the District

PSYC 3120 Neuroscience of Consciousness

PSYC 3121 Memory and Cognition

PSYC 3122 Cognitive Neuroscience

PSYC 3124 Visual Perception

One advanced research lab course (4 credits) selected from the following:

PSYC 4106W Research Lab in Sensation and Perception

or PSYC 4107W Research Lab in Cognitive Neuroscience

PSYC 4201W Research Lab in Clinical/Community Psychology

or PSYC 4202W Research Lab in Applied Social Psychology

or PSYC 4203W Research Lab in Developmental Psychology

Electives

Four additional psychology (PSYC) courses (12 credits) numbered 2000 or above. Only 3 credits in PSYC 3591 or PSYC 4591 may be applied toward the major.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to meeting the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, the student must submit an application to the Psychology Department before the beginning of the senior year, take an honors seminar (PSYC 4997 Honors Seminar) and a graduate-level seminar, and complete a research experience (PSYC 3591 Supervised Research Internship or PSYC 4591 Independent Research). The grade-point average in psychology required for graduation with Special Honors is 3.5.

BACHELOR OF SCIENCE WITH A MAJOR IN COGNITIVE NEUROSCIENCE

The bachelor of science in cognitive neuroscience degree program addresses the fundamental theories, methods, and results involved in neurobiology, cognitive neuroscience, and the study of complex behavior. The major takes an integrated and rigorous approach that emphasizes convergence between the subfields of cognitive neuroscience and skill in presenting compelling neuroscientific arguments in both written and oral form. Students with sufficient interest and skill assist in undergraduate research and external internships.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
------	-------	---------

Required

11 to 14 credits in introductory natural science courses, including 8 credits in biological sciences and 3 or 6 credits in mathematics.

BISC 1111	Introductory Biology: Cells and Molecules
-----------	---

BISC 1112	Introductory Biology: The Biology of Organisms
-----------	--

MATH 1220 & MATH 1221	Calculus with Precalculus I and Calculus with Precalculus II
-----------------------	--

or MATH 1231	Single-Variable Calculus I
--------------	----------------------------

Two courses in analytical methods (6 credits) selected from the following:

BISC 2584	Introduction to Bioinformatics
-----------	--------------------------------

CSCI 1012	Introduction to Programming with Python
-----------	---

STAT 1127	Statistics for the Biological Sciences ¹
-----------	---

Three gateway courses (9 to 10 credits) that introduce core concepts selected from the following:

ANAT 2160	Human Functional Neuroanatomy
-----------	-------------------------------

or SPHR 2106	Neural Substrates of Speech, Language, and Hearing
--------------	--

ANTH 1005	The Biological Bases of Human Behavior
-----------	--

BISC 2320	Neural Circuits and Behavior
-----------	------------------------------

PHIL 1153	The Meaning of Mind
-----------	---------------------

PHIL 2045	Introduction to Logic
-----------	-----------------------

PSYC 2014	Cognitive Psychology
-----------	----------------------

PSYC 2015	Biological Psychology
-----------	-----------------------

Six intermediate content courses (18 credits), which must include two courses from each of the following three groups:

Cellular/molecular/systems neuroscience

ANTH 3413	Evolution of the Human Brain
-----------	------------------------------

BISC 2220	Developmental Neurobiology
-----------	----------------------------

BISC 3320	Human Neurobiology
-----------	--------------------

Cognitive neuroscience

PSYC 3118	Neuropsychology
-----------	-----------------

PSYC 3121	Memory and Cognition
-----------	----------------------

PSYC 3122	Cognitive Neuroscience
-----------	------------------------

PSYC 3124	Visual Perception
-----------	-------------------

SPHR 2133	Autism
SPHR 3116	Brain and Language
Cognitive science	
PHIL 3121	Symbolic Logic
PHIL 3153	Mind, Brain, and Artificial Intelligence
SPHR 2131	Language Acquisition and Development
SPHR 2135	Language: Structure, Meaning, and Use
One research/laboratory experience (3 to 4 credits). This requirement may be fulfilled by one semester of guided or independent research in ANTH, BISC, CHEM, PHIL, PSYC, or SPHR, or one of the following options: ²	
BISC 2452 & BISC 2453	Animal Behavior and Animal Behavior Lab
PSYC 4106W	Research Lab in Sensation and Perception
PSYC 4107W	Research Lab in Cognitive Neuroscience

Electives

Four advanced content courses (12 credits) selected from the following:

ANTH 3413	Evolution of the Human Brain
ANTH 3491	Topics in Biological Anthropology ³
ANTH 3601	Language, Culture, and Cognition
ANTH 3603	Psycholinguistics
ANTH 3691	Special Topics in Linguistic Anthropology ³
BISC 2220	Developmental Neurobiology
BISC 2452 & BISC 2453	Animal Behavior and Animal Behavior Lab
BISC 3165	Biochemistry I
BISC 3166	Biochemistry II
BISC 3209	Molecular Biology
BISC 3320	Human Neurobiology
CHEM 2151 & CHEM 2153	Organic Chemistry I and Organic Chemistry Laboratory I
CHEM 2152 & CHEM 2154	Organic Chemistry II and Organic Chemistry Laboratory II

PHIL 3151	Philosophy of Science
PHIL 3153	Mind, Brain, and Artificial Intelligence
PHIL 4196	Topics in Theory of Knowledge ³
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition
PSYC 3122	Cognitive Neuroscience
PSYC 3124	Visual Perception
PSYC 3180	Seminar in Cognitive Science ³
PSYC 3198	Current Research Issues ³
PSYC 3199	Current Topics in Psychology ³
PSYC 4997	Honors Seminar
SPHR 2133	Autism
SPHR 2135	Language: Structure, Meaning, and Use
SPHR 3116	Brain and Language

¹STAT 1127 is recommended, but an equivalent course may be substituted.

²For SPHR, available only to students who have a minimum 3.5 GPA in major courses and/or the permission of the instructor.

³When the topic is relevant and with permission of the Program Director.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.

- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

DUAL BA IN PSYCHOLOGICAL AND BRAIN SCIENCES AND MA IN ART THERAPY

The Department of Psychological and Brain Sciences offers a combined bachelor of arts with a major in psychological and brain sciences (p. 427) and a master of arts in the field of art therapy (p. 133) program. The program allows students to take a specified number of graduate credits as part of their undergraduate program, thereby decreasing the number of credits normally required for the master's degree. All requirements for both degrees must be fulfilled.

Students interested in the dual degree program should confer with the department's graduate adviser early in their junior year. Visit the program website (<https://psychology.columbian.gwu.edu/bachelors-psychologymasters-art-therapy-bama/>) for additional information.

MINOR IN PSYCHOLOGICAL AND BRAIN SCIENCES

REQUIREMENTS

The following requirements must be fulfilled: 9 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required

PSYC 1001	General Psychology	
-----------	--------------------	--

Two survey courses (6 credits) from the following, including at least one of PSYC 2014 or PSYC 2015:

PSYC 2011	Abnormal Psychology	
or PSYC 2011W	Abnormal Psychology	

PSYC 2012	Social Psychology	
-----------	-------------------	--

PSYC 2013	Developmental Psychology	
-----------	--------------------------	--

PSYC 2014	Cognitive Psychology	
-----------	----------------------	--

PSYC 2015	Biological Psychology	
-----------	-----------------------	--

Electives

At least three additional psychology (PSYC) courses (9 credits) numbered 2000 or above, not including PSYC 3591 or PSYC 4591

Students considering graduate study in psychology are advised to take PSYC 2101, which is a prerequisite for 3000 and 4000 level courses.

DOCTOR OF PHILOSOPHY IN THE FIELD OF APPLIED SOCIAL PSYCHOLOGY

The PhD in Applied Social Psychology program trains students to apply social psychological theories and methods to understand and address major health problems and health disparities.

Following the scientist-practitioner model, the program provides a solid foundation in social psychological topics such as attitudes, social cognition, social influence and decision-making, and also promotes mastery of research methods (i.e., experimental and correlational approaches, and quantitative,

qualitative and mixed methods research). Students may round out their academic experience with electives from other areas of study including, but not limited to, public health, public policy, economics, and minority and community psychology.

In addition, because faculty specialize in a broad range of analysis in their own research, students in the program also learn multiple perspectives on human behavior. With the program’s applied focus on health promotion and disease prevention, students have collaborated with faculty on research related to HIV/AIDS, obesity, sexual risk, substance use, sun exposure and the doctor-patient relationship.

Many students also add to their portfolio of skills by pursuing service-sector research and internship opportunities at consulting firms, government agencies, health care organizations, nonprofits, corporations and other organizations. This is a STEM-designated program.

Visit the program website (<https://psychology.columbian.gwu.edu/applied-social/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits, including 33 credits in core requirements, 21 to 27 credits in elective courses, and 12 to 18 credits in dissertation, and successful completion of a comprehensive examination.

Code	Title	Credits
Required core		
Applied social		
PSYC 8253	Social Cognition	
PSYC 8254	Social Influence	
PSYC 8255	Attitudes and Attitude Change	
PSYC 8277	Health Psychology	
Methods/statistics		
DNSC 6274	Statistical Modeling and Analysis	
DNSC 6275	Advanced Statistical Modeling and Analysis	
DNSC 6276	Exploratory and Multivariate Data Analysis	

PSYC 8202	Psychological Research Methods and Procedures
PSYC 8256	Introduction to Survey Research
Breadth	
6 credits in psychology (PSYC) courses out of the applied social program.	
Electives	
21 to 27 credits in elective courses. Recommended electives are listed below; other courses may be selected in consultation with the advisor.	
PSYC 8218	Evidence-Based Interventions
PSYC 8231	Development of Psychometric Instruments
PSYC 8245	Seminar: Organizational Behavior
PSYC 8257	Current Topics in Social Psychology
PSYC 8258	Qualitative Research and Analysis
PSYC 8259	Psychology of Individual and Group Decision Making
PSYC 8279	Special Topics in Health Psychology
PSYC 8295	Independent Research
Dissertation	
12 to 18 credits in dissertation.	
PSYC 8998	Advanced Reading and Research
PSYC 8999	Dissertation Research
Comprehensive examination	
Students must successfully complete a comprehensive examination.	

DOCTOR OF PHILOSOPHY IN THE FIELD OF CLINICAL PSYCHOLOGY

The PhD in clinical psychology program follows the scientist-practitioner model. In this American Psychological Association-accredited program, students are trained as applied researchers and scientists, developing skills in the research methods used to advance knowledge of the causes, prevention and treatment of emotional, behavioral and interpersonal problems.

Program faculty subscribe to a range of theoretical orientations, including cognitive-behavioral, family systems, social ecology, and community frameworks. These faculty perspectives enable

students to develop a broad base of knowledge, as well as specialize in particular areas of research and/or evidence-based application.

The program’s coursework, research, and clinical training embrace a community psychology perspective that emphasizes the importance of understanding the associations between individuals and the settings and systems in which they are embedded. This ecological orientation is evident throughout the curriculum and reflects the program theme: prevention and health promotion in diverse urban communities. Because of this focus, the clinical psychology program is also recognized by the Society for Community Research and Action as a doctoral clinical-community training program.

The PhD in clinical psychology is a STEM-designated program.

Visit the program website (<https://psychology.columbian.gwu.edu/clinical/>) for additional information

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits, including 54 credits in required courses, 6 credits in elective courses, and 12 credits in dissertation. Students also take five zero-credit courses and successfully complete a comprehensive examination.

In addition, students are required to obtain clinical training, including a minimum of two assessment practica and two therapy practica in the Meltzer Center (<https://psychology.columbian.gwu.edu/meltzer-center/>)’s Psychological and Community-Based Services, and to complete a one-year Psychology Internship Training Program. In almost all cases this will be an APA- approved predoctoral internship program.

Breadth	
PSYC 8210	Developmental Theories and Issues
PSYC 8250	Seminar in Cognitive Neuroscience
PSYC 8253	Social Cognition
Clinical core	
PSYC 8207	Psychological Assessment I
PSYC 8208	Psychological Assessment II
PSYC 8211	Community Psychology I
PSYC 8212	Community Psychology II
PSYC 8218	Evidence-Based Interventions
PSYC 8220	Ethics and Professional Issues
PSYC 8236	Ethnic and Racial Diversity in Psychology
PSYC 8237	The Practice of General Psychology I
PSYC 8238	The Practice of General Psychology II
PSYC 8239	Lifespan Developmental Psychopathology I
PSYC 8240	Lifespan Developmental Psychopathology II

Required zero-credit courses

PSYC 8280	Theories and Practice of Clinical Supervision
PSYC 8283	First Year Seminar I: Motivational Interviewing
PSYC 8284	First Year Seminar II: Introduction to Therapy
PSYC 8285	History and Systems of Psychology
PSYC 8286	Clinical Psychology Externship

Electives

6 credits in elective courses outside of the clinical program.

Dissertation

PSYC 8998	Advanced Reading and Research
PSYC 8999	Dissertation Research

DOCTOR OF PHILOSOPHY IN THE FIELD OF COGNITIVE NEUROSCIENCE

The PhD in Cognitive Neuroscience program trains students to become independent scientists who perform research in academic and research institutions. Unlike clinical neuropsychology programs, this doctoral program does not provide any training in diagnosing or treating brain or neurological disorders.

Instead, the cognitive neuroscience curriculum offers an intense, focused research experience in the areas of perception, attention and memory, with an emphasis on the neural bases of these capacities. Students utilize diverse research methods throughout their studies, including patient-based testing, neuro-imaging, animal modeling, psychophysical scaling and computational modeling. The program also emphasizes faculty-student collaboration through joint research projects.

Students benefit from GW's location in Washington, D.C., where it is in close proximity to the National Institutes of Health and other major research institutions. On campus, GW's School of Medicine and Health Sciences and its associated teaching hospital are also great resources for cognitive neuroscience research, with their intensive Neuroscience Program and world-class Departments of Neurology, Neurosurgery and Neuroradiology. This is a STEM-designated degree program.

Visit the program website (<https://psychology.columbian.gwu.edu/cognitive-neuroscience/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

72 credits, including 33 credits in required courses, 21 to 27 credits in elective courses, 12 to 24 credits in dissertation, and successful completion of a comprehensive examination.

Code	Title	Credits

Comprehensive examination

Students must successfully complete a comprehensive examination.

PUBLIC POLICY AND PUBLIC ADMINISTRATION

Through its Trachtenberg School of Public Policy and Public Administration, Columbian College of Arts and Sciences offers master of public policy, master of public administration, and doctor of philosophy in the field of public policy and administration degree programs. The master's programs

provide academic preparation toward professional careers in government, business, and the nonprofit sector. The PhD program is designed to help students master subjects in multiple academic disciplines, including politics, economics, and quantitative and qualitative methods in policy research. In addition, a graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations.

The Environmental Resource Policy (ENRP) program within the Trachtenberg School of Public Policy and Public Administration offers a multidisciplinary approach to environmental and sustainability studies. The master of arts degree prepares students to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy. In addition to the MA degree program, ENRP offers two graduate certificate programs. The graduate certificate in environmental resource policy provides an alternative to the MA for working professionals who may not have the need for or the time to commit to the full master's; however, once completed, the credits earned toward the certificate may be applied to the master's degree requirements. The graduate certificate in the contexts of environmental policy is designed to help support the professional development of current and future leaders of the National Park Service who are responsible for the preservation and protection of public lands and cultural heritage.

Visit the Trachtenberg School of Public Policy and Public Administration website (<https://tspppa.gwu.edu/>) for additional information.

GRADUATE

Master's programs

- Master of Arts in the field of environmental resource policy (p. 446)
- Master of Public Administration (p. 447)
- Master of Public Policy (p. 448)

Combined programs

- Dual Master of Arts in the field of environmental resource policy and Graduate Certificate in geographical information systems (p. 447)
- Dual Master of Public Administration and Graduate Certificate in homeland security emergency preparedness and response (p. 442)
- Dual Master of Public Administration and Graduate Certificate in nonprofit management (p. 445)
- Dual Master of Public Policy and Doctor of Philosophy in the field of political science (p. 443)
- Dual Master of Public Policy and Graduate Certificate in data science (p. 443)

Doctoral program

- Doctor of Philosophy in the field of public policy and administration (p. 441)

CERTIFICATE

Graduate Certificates

- Budget and public finance (p. 443)
- Contexts of environmental policy (p. 444)
- Environmental resource policy (p. 445)
- Nonprofit management (p. 445)

FACULTY

Professors W. Adams, B. Barnow, S. Cellini, D. Conger (*Associate Director*), J. Cordes, J. Brinkerhoff, K. Newcomer, S. Pandey, M. Tschirhart (*Director*), M. Worth

Associate Professors L. Brainard, L. Brooks, C. Carrigan, J.M. Johnson, J. Kastle, P. Linquiti, E. Rigby

Assistant Professors A. Nathan, E. Strader, L. Yang, N. Kelsey

Regular Part-Time Faculty N. Augustine, D. Brunori

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Programs in Public Administration are offered at the graduate level by the Trachtenberg School of Public Policy and Public Administration. Courses with 2000 designations are open to undergraduates.

PPPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

PPPA 1099. Variable Topics. 36 Credits.

PPPA 2000. Justice and the Legal System I. 3 Credits.

The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country.

PPPA 2001. Justice and the Legal System II. 3 Credits.

Continuation of PPPA 2000. The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country. Prerequisite: PPPA 2000.

PPPA 2117. Executive Branch Politics. 3 Credits.

Contemporary concepts and issues in public administration and management. Major trends and approaches to governmental administration in the U.S., including the changing federal role, roles of the public sector in relation to the private sector, and managing public agencies at all levels. Same as PSC 2217.

PPPA 2701. Sustainability and Environmental Policy. 3 Credits.

A survey of the intersection of the principles of sustainability and the set of public policies that affect environmental management in the United States. Consideration of the idea that environmental policy is inevitably implemented in a complex interaction of both natural and human systems. Topics applicable to most environmental policy debates, such as the the balance between costs and benefits of environmental protection. Introduction to a "toolkit" of environmental policy instruments ranging from highly prescriptive command-and-control regulations to flexible market-based policies.

PPPA 5099. Variable Topics. 1-99 Credits.**PPPA 6000. Perspectives on Public Values. 1 Credit.**

The underpinnings and skills necessary for a functioning democratic society; empathy and the ability to have civil discourse to create, analyze, pass, implement, and evaluate policy and programs.

PPPA 6001. Introduction to Public Service and Administration. 3 Credits.

Introduction to the discipline of public administration. The intellectual traditions and theoretical frames of reference that inform public administration as a field of professional practice and study. Current and continuing challenges and controversies.

PPPA 6002. Research Methods and Applied Statistics. 3 Credits.

Development of skills and knowledge for conducting original research and critically evaluating empirical studies. Various research designs and data collection techniques are examined. Focus on computerizing data sets for quantitative analysis, analyzing strength of relationships, selecting appropriate statistical techniques, and testing statistical hypotheses.

PPPA 6003. Economics for Public Decision-Making. 3 Credits.

The basic tools and concepts in microeconomic analysis and how these tools can be useful in public decision-making.

PPPA 6004. Managing Public Organizations. 3 Credits.

Organizational dynamics, management approaches, and workplace relationships that affect behavior in public organizations. Prerequisite: PPPA 6001.

PPPA 6005. Public Budgeting, Revenue, and Expenditure Analysis. 3 Credits.

Survey of institutions and analytical tools associated with raising revenue and allocating/managing resources at all levels of government. Hands-on budgeting skills and communication of analysis to decision-makers.

PPPA 6006. Policy Analysis. 3 Credits.

Development of skills in conducting and critiquing policy analyses. Application of methodologies used in analyzing possible consequences of specified alternatives as applied in the public policy decision-making process. Appropriate applications and limitations of policy analysis and its relationship to politics and the policy process.

PPPA 6007. Microeconomics for Public Policy I. 3 Credits.

Intermediate microeconomics with a focus on policy-related topics and examples. Restricted to students in the MA in environmental resource policy, public affairs, and public policy programs.

PPPA 6008. MPA/MPP Capstone. 3 Credits.

For MPA and MPP students completing their degree program at the end of the fall semester. This course substitutes for PPPA 6009 and PPPA 6019, respectively.

PPPA 6009. MPA Capstone Seminar. 3 Credits.

Integration and synthesis of the knowledge and skills acquired during the MPA program. Analysis and integration of ethical, political, economic, managerial, and personal values and issues in the field. Prerequisites: Completion of all core courses in the MPA curriculum.

PPPA 6010. Politics and The Policy Process. 3 Credits.

The role of policy analysts in public policymaking. The impact that the political, economic, cultural, and bureaucratic context has on the policymaking process and outcomes. Political and ethical issues raised by the intricate interface of the private, not-for-profit, and public sectors in public policy formulation and implementation.

PPPA 6011. Politics and Policy Analysis. 3 Credits.

Foundations of the public policy field; the role of policy analysts in the policy making process; agenda setting, decision making, policy implementation, program evaluation, and policy feedback.

PPPA 6013. Econometrics for Policy Research I. 3 Credits.

Multivariate research methods in policy analysis.

PPPA 6014. Microeconomics for Public Policy II. 3 Credits.

The application of intermediate microeconomic theory to the study of public policy; models of individual choice in policy analysis, policy aspects of models of the firm, theory of market failure and welfare economics, and resource allocation decisions in the public sector. Credit cannot be earned for both PPPA 6014 and SMPP 6206. Prerequisite: PPPA 6007.

PPPA 6015. Benefit-Cost Analysis. 3 Credits.

The application of microeconomic theory and welfare economics to the empirical evaluation of public policies and programs. Applied welfare economics as a framework for policy analysis; empirical measures of welfare change; techniques of benefit-cost analysis. Prerequisite: PPPA 6014.

PPPA 6016. Public and Nonprofit Program Evaluation. 3 Credits.

Theory and practice of program evaluation and evaluative research. Exploration of scope and limitations of current practice in evaluation, considering economic, political, social, and administrative factors. Examination of methodological considerations for design, data collection, analysis, and dissemination. Prerequisite: PPPA 6002 .

PPPA 6017. Introductory Microeconomics for Public Policy. 3 Credits.

Intermediate microeconomics with a focus on policy-relevant topics and examples. Restricted to MPA and MPP degree candidates.

PPPA 6018. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets, and globalization. The evolution of national, transatlantic, and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization, and industry standards.

PPPA 6019. MPP Capstone. 3 Credits.

Policy theory and typologies; policy formulation, implementation, and evaluation; ethics and practice in policy analysis, processes, content, and contexts; policy linkages to multiple disciplines. Students submit an analysis of a substantive policy primarily utilizing resources in the DC region.

PPPA 6020. Decision Modeling for Public Policy. 3 Credits.

Practical modeling approaches used by policy analysts to explain and assess complex problems, bound a solution space, or determine what data is needed to support policy decisions; using spreadsheets (specifically, Microsoft Excel) to begin modeling policy problems. Prerequisite: PPPA 6002.

PPPA 6021. Data Visualization. 3 Credits.

How graphics can be used to obfuscate, illuminate, and compel. Focusing on the programming language R, includes working with large-scale data and distilling such data into pictures that communicate. Prerequisite: PPPA 6013.

PPPA 6024. Leadership in Complex Organizations. 3 Credits.

What the manager must know and do to provide leadership and guidance in large, complex organizations. An exploration of leadership theories and the factors and processes that condition effective leadership.

PPPA 6025. Ethics and Public Values. 3 Credits.

Ethical dimensions of personal and professional judgments of public officials. Cases are used to consider the ethos of public organizations and the moral foundations of public policy.

PPPA 6027. Program Management. 1 Credit.

Program management as a basis for developing policy and evaluating programs; how managers look at problems, the competing demands they face, what (and who) influences their decisions and actions, and how they get things done.

PPPA 6031. Governing and Managing Nonprofit Organizations. 3 Credits.

Historical, legal, and social foundations of the nonprofit sector. Developing organizational strategy and capacity; managing staff, boards, and volunteers; financial management; fund raising, marketing, public advocacy, and other external relations; partnerships and entrepreneurial activities; measuring performance; and policy issues.

PPPA 6032. Managing Fund Raising and Philanthropy. 3 Credits.

Fund-raising for nonprofit organizations and the management of relationships between donors and recipient organizations. Positioning the organization for fund raising; roles of staff and volunteers; principal techniques for identifying, cultivating, and soliciting donors; ethical principles; emerging trends; and relevant policy issues.

PPPA 6033. Nonprofit Enterprise. 3 Credits.

The use of business methods by nonprofit organizations, commercialization in the nonprofit sector, and the relationship between nonprofit and for-profit entities in pursuing social purposes. Case studies.

PPPA 6034. Managing Nonprofit Boards. 3 Credits.

Overview of the responsibilities, roles, and management of nonprofit boards. The emphasis is on governing boards, but advisory councils and boards of other types are also considered.

PPPA 6042. Managing State and Local Governments. 3 Credits.

Examination of state and local governmental structures and functions, their place within the federal system, their revenue sources, their limitations, and the alternatives available to encourage more effective administration to meet public and private demands.

PPPA 6043. Land Use Planning and Community Development. 3 Credits.

Theory and practice of land use planning. Issues of competing land uses in an era of increased sprawl, population pressure, and environmental threat. Growth management techniques and practices in states and localities; the use of various regulatory controls and economic incentives to achieve desired outcomes. The idea of "sustainable community."

PPPA 6044. State Politics and Policy. 3 Credits.

Important concepts of state politics and government with emphasis on how those concepts affect the formulation and implementation of policy. The functions of state government and the political, economic, and legal factors that shape state public policies.

PPPA 6048. Financing State and Local Government. 3 Credits.

Analysis of the theory and practice of public finance in state and local governments. Includes the financing of services through municipal taxation, intergovernmental funds, debt instruments, and other revenue sources. Review of expenditures as well as financial management practices.

PPPA 6049. Urban and Regional Policy Analysis. 3 Credits.

Examination of selected national policies and their effects on urban areas and governments. Emphasis on policy dimensions of urban systems and their relationship to the social, political, and economic context. Against the background of urban politics and administration, areas of health, education, welfare, manpower, transportation, and housing are addressed.

PPPA 6051. Governmental Budgeting. 3 Credits.

Survey of the actors, institutions, and processes in the federal budgeting system. Executive budget preparation/execution, legislative review and approval of budget requirements, and independent audit of government spending.

PPPA 6052. Tax Policy Analysis. 3 Credits.

This course provides a guided, critical study of budgeting by the U.S. Government: its conceptual foundations, structure, processes, accounting, scoring, and results. This process is evaluated, as a system and by its component elements, using the criteria of performance with respect to its fundamental objectives; fiscal and economic stability and efficiency, including for those programs aimed at promoting equity. Because of the dominant role of the Congress in the budget process, attention is focused on the system and process created by the Congressional Budget Act of 1974.

PPPA 6053. Financial Management for Public and Nonprofit Organizations. 3 Credits.

Intensive analysis, using the case study approach, of concepts and principles used in the not-for-profit sector for financial management purposes. Disciplines of accounting, budgeting, operations control, management, and auditing are integrated into comprehensive management control systems and include issues of system design and implementation.

PPPA 6054. Issues in Federal Budgeting. 3 Credits.

Policy tools available to pursue social objectives, including grants, loans, contracting out, regulation, tax credits, and tax expenditures. Focus on criteria such as effectiveness, efficiency, equity, legitimacy, and administrative ease.

PPPA 6055. Contracting Out and Public-Private Partnerships. 3 Credits.

Contracting out and public-private partnerships as methods of delivering government goods and services. Policy and implementation issues, including when and how contracting out may provide a more efficient and effective method of delivering government goods and services.

PPPA 6056. Regulatory Comment Clinic. 3 Credits.

Survey of regulatory theories, institutions, policies, and procedures. Application of economic tools to analyze the effect of existing and proposed regulations on social welfare. Communication of analysis to decision makers and the public.

PPPA 6057. International Development Administration. 3 Credits.

An institutional and policy context for work in the international development industry. Mainstream policies, reform efforts, and alternative approaches. Major actors, selected policy areas, and regional and comparative perspectives.

PPPA 6058. International Development NGO Management. 3 Credits.

Provides an understanding of the primary implementers of international development assistance. Overview of NGO management, highlighting those features that are particular to NGOs active in international development, including NGO relations with government and donors. Recommended background: PPPA 6057 or permission of the instructor.

PPPA 6059. International Development Management Processes and Tools. 3 Credits.

Training in development management tools and processes; application of international development approaches specific to the development management profession. Key theories and perspectives of community development and development management. Recommended background: PPPA 6057 or permission of the instructor.

PPPA 6060. Policy Formulation and Administration. 3 Credits.

Impact of economic and political factors on public policy formulation and implementation; intensive analysis of the analytical, normative, and decision-making models of the policy process with special emphasis on their relationship to current policy problems.

PPPA 6061. Banking and Financial Institutions Policy. 3 Credits.

This course examines the broad range of policy issues applicable to banking and financial institutions – including those related to monetary policy, financial stability, consumer protection, and community reinvestment. This area includes a number of questions that are at the forefront of the current national policy debate about the appropriate role of government and how best to regulate financial institutions and financial markets.

PPPA 6062. Community Development Policy and Management. 3 Credits.

This course examines the policy and practice of community development, including how private sector developers and lenders work with nonprofits, foundations, and the public sector to promote sustainable affordable housing, economic development, and other community-based projects that meet both financial as well as social impact criteria. This category of finance and development is intended to help people and communities just outside the margins of conventional, mainstream finance join the economic mainstream – and to help the economic mainstream enter emerging opportunity markets. The course explores different types of community development opportunities, including affordable housing, charter school, community facility, small business lending, and nonprofit real estate projects. The course also addresses emerging trends that are likely to affect community development policymakers and practitioners, including transportation oriented development, “green” development, use of technology, comprehensive community initiatives, and new ways of raising capital for community development projects.

PPPA 6063. Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing. 3 Credits.

This course examines the role of the public and nonprofit sectors in supporting corporate and investor activities that are intended to have social and environmental, in addition to financial, benefits. These activities – often referred to as “corporate Social Responsibility” (CSR) and “impact investing” – have been described as having significant potential to create social benefits in addition to being in the financial best interests of the corporation or investor. At the same time, some critics of these activities have said that they are less about producing social benefits and more about marketing private sector activities that are primarily designed to produce corporate financial gains. The course explores what is meant by these two terms, what steps the public and nonprofit sectors have taken to support the wide range of activities that these terms encompass, and what have been the results of this work both in the United States and in other countries. The course also addresses emerging trends that are likely to affect the public and nonprofit role in CSR and impact investing in the future.

PPPA 6065. Federalism and Public Policy. 3 Credits.

PPPA 6066. U.S. Environmental Policy. 3 Credits.

Current issues in environmental policy; biodiversity, land use including wilderness protection, climate change, environmental justice, economic growth, and ecological sustainability.

PPPA 6067. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as SMPP 6207.

PPPA 6068. Leading Diverse and Inclusive Organizations. 3 Credits.

Organizational leadership, decision-making, and communications skills necessary for leading in a diverse, multicultural, multi-generational environment.

PPPA 6072. Legislative Management and Congress. 3 Credits.

Analysis of Congress as a management system; examination of its internal administration and its role in formulating policy through legislation. Staffing practices, leadership, rules and procedures, oversight functions, and coalition building.

PPPA 6075. Law and the Public Administrator. 3 Credits.

Exploration and analysis of the functions of law in a democratic society. Emphasis is placed upon the procedural, historical, and jurisprudential dimensions of American law. This broad perspective seeks to convey understanding of the law as a legal and moral force guiding and constraining public decision making.

PPPA 6076. Federal Government Regulation of Society. 3 Credits.

Analysis of the federal regulatory process as it affects the public and private sectors. The regulatory process from legal, economic, administrative, and political perspectives.

PPPA 6077. Case Studies in Public Policy. 1-3 Credits.

Critical analysis of topical issues in public policy, using a case-study approach. Specific issues covered vary.

PPPA 6081. Poverty and Social Policy. 3 Credits.

Introduction to analytical and political issues surrounding the ongoing American and British debates on poverty and social policy; evaluating social assistance programs; the complementary roles of policy analysis and public management.

PPPA 6085. Special Topics in Public Policy. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more information.

PPPA 6097. Practicum in Public Policy and Public Administration. 0 Credits.

PPPA 6098. Independent Research. 1-12 Credits.

Permission of the instructor and program director required prior to enrollment.

PPPA 6140. Introduction to Environmental Law. 3 Credits.

Federal environmental statutes, implementing regulations, state regulatory programs, international environmental agreements; environmental governance tools; strengths, weaknesses of legal, administrative, private approaches to environmental threats; the role of federal courts, administrative law in environmental protection.

PPPA 6145. Global Environmental Justice and Policy. 3 Credits.

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

PPPA 6198. Environmental Resource Policy Capstone. 3 Credits.

Team development of a project sponsored by an external entity, such as a government or nongovernmental agency, or participation in an aspect of a research project directed by a faculty member. The student team functions as an external consultant tasked with analysis of the chosen issue.

PPPA 6207. Program Management. 1 Credit.

PPPA 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.

May be repeated for credit to a maximum of 6 credits.

PPPA 8022. Econometrics for Policy Research II. 3 Credits.

For doctoral students who wish to use econometric tools in their research. An equivalent course in introductory econometrics may be substituted for the prerequisite with permission. Prerequisite: PPPA 6013.

PPPA 8023. Mixed Methods in Research Design. 3 Credits.

The historical and philosophical foundations of mixed method research design; review of canonical designs; developing and honing skills to implement mixed methods research designs.

PPPA 8085. U.S. Social Policy. 3 Credits.

Development and implementation of social welfare policy in the United States. Introduction to welfare state theory and different welfare models. Critical interrogation of the values and ideologies underlying the policy formulation process. Restricted to doctoral students. Recommended background: A general understanding of the public sector is helpful.

PPPA 8100. Seminar: Literature of Public Administration. 3 Credits.

Contemporary and historical literature in the institutional and intellectual development of public administration.

PPPA 8101. Research Methods. 3 Credits.

Doctoral seminar on theory and practice in research methodology. Data sources and gathering, research models and designs. Critical evaluation of research studies. Emphasis on application of research methods to policy questions.

PPPA 8105. Public Finance and Human Capital. 3 Credits.

The many facets of budgeting and finance and the research approaches used to study issues in this field.

PPPA 8111. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Restricted to doctoral candidates. Credit cannot be earned for this course and SMPP 8311.

PPPA 8123. Seminar: The Policy Organization. 3 Credits.

Unique problems of complex organizations: public, private, and mixed. Emerging concepts and theories. Selected issues.

PPPA 8164. Seminar on Program Evaluation. 3 Credits.

Doctoral seminar on theory and practice in public and nonprofit program evaluation. The broad range of approaches undertaken, current controversies in the field, and the political and ethical context for evaluators.

PPPA 8174. Seminar: Public Management. 3 Credits.

Public organization theory and behavior. Organizational behavior, organization theory, and public management. Key traditions of inquiry in the study of public organizations.

Restricted to students in the PhD in public policy and administration program.

PPPA 8183. Current Topics and Research. 1 Credit.

Current scholarship discussed in a seminar setting. The conduct of research and presentation of research findings. May be repeated for credit.

PPPA 8190. Philosophical Foundations of Policy and Administrative Research. 3 Credits.

Philosophy of science as applied to research in public policy and public administration. The nature of and current problems related to epistemology, development and role of theories, and relationships among theory, methodology, and empirical data.

PPPA 8191. Dissertation Workshop. 3 Credits.

Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

PPPA 8197. Doctoral Seminar: Special Topics. 1-3 Credits.

.

PPPA 8998. Advanced Reading and Research. 1-12 Credits.

Restricted to doctoral candidates preparing for the general examination.

PPPA 8999. Dissertation Research. 3-12 Credits.

Doctoral candidates in dissertation research. Restricted to doctoral candidates.

ENRP 5099. Variable Topics. 1-99 Credits.

ENRP 6085. Topics in Environmental Resource Policy. 1-3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ENRP 6097. Practicum in Environmental Resource Policy. 0 Credits.

International students engage in an unpaid internship. Restricted to students enrolled in the MA in environmental resource policy program. Credit cannot be earned for this course and PPPA 6097.

ENRP 6101. Environmental Sciences I: Physical Sciences. 3 Credits.

Basic physical sciences crucial to environmental issues, including chemistry, geology, hydrology, climate science, and cross-media interactions; land, air, and water pollution, climate change, production and consumption of energy, sea level rise, and anthropogenic changes in the cryosphere. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6102. Environmental Sciences II: Life Sciences. 3 Credits.

Basic life sciences crucial to environmental issues, including biology, ecology, environmental health and toxicology, epidemiology, and agriculture; biodiversity, ecosystem services, habitat preservation, deforestation, conservation biology, nutrient cycling, and the impacts of climate change on living systems. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6145. Global Environmental Justice and Policy. 3 Credits.

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

ENRP 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.

May be repeated for credit to a maximum of 6 credits.

DOCTOR OF PHILOSOPHY IN THE FIELD OF PUBLIC POLICY AND ADMINISTRATION

Our curriculum emphasizes interdisciplinary, applied research in public policy and administration and related subfields as it prepares students for traditional faculty or public-policy

research positions. Trachtenberg School classes are held on the Foggy Bottom Campus. Most classes are in the evenings, enabling full-time and part-time students to pursue their degree while working.

The PhD is a 72-credit program offered through the Trachtenberg School of Public Policy and Public Administration; the Columbian College of Arts and Sciences grants the degree. The multidisciplinary PhD is designed to develop a range of competencies needed to undertake sophisticated research in public policy and public administration. Core courses cover multiple academic disciplines, including politics, economics, and quantitative and qualitative methods in policy research. Built upon the diversity and strengths of academic departments and faculty distributed throughout TSPPPA and the University community, our program offers an exceptional education across these disciplines. Graduates of the doctoral program pursue careers in teaching and research related to public policy and administration and as policy researchers and analysts in government and the private sector. Some hold administrative positions in these sectors and many are closely involved in the development and evaluation of public policies.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87).

Completion of 72 credits beyond the baccalaureate or a minimum of 48 credits beyond the master's degree. Students who have completed graduate coursework judged to satisfy program requirements may be granted advanced standing of up to 24 credits toward the overall 72 credits required for the PhD.

Students must maintain a minimum grade-point average of 3.3 to remain in the program.

Code	Title	Credits
Required		
Core Courses		
PPPA 6014	Microeconomics for Public Policy II *	
PPPA 8100	Seminar: Literature of Public Administration *	
PPPA 8101	Research Methods *	
PPPA 8105	Public Finance and Human Capital	
PPPA 8174	Seminar: Public Management	

PPPA 8190	Philosophical Foundations of Policy and Administrative Research
PSC 8229	Politics and Public Policy *
One of the following to fulfill the intermediate quantitative course requirement:	
DNSC 6274	Statistical Modeling and Analysis
ECON 8375	Econometrics I
ECON 8379	Laboratory in Applied Econometrics
PPPA 6013	Econometrics for Policy Research I *
PSC 8102	Empirical Political Analysis
One of the following to fulfill the advanced quantitative course requirement:	
DNSC 6275	Advanced Statistical Modeling and Analysis
ECON 8376	Econometrics II
ECON 8377	Econometrics III
PPPA 8022	Econometrics for Policy Research II
One of the following to fulfill the qualitative course requirement:	
EDUC 8122	Qualitative Research Methods
EDUC 8131	Case Study Research Methods
HIST 6030	History and Its Uses in International Affairs
PPPA 8023	Mixed Methods in Research Design
PSC 8104	Qualitative Research Methods
PUBH 8417	Qualitative Research Methods and Analysis
SOC 6232	Qualitative Methodology: Doing Field Research
A written qualifying examination covering designated core courses. *	
A minimum of 12 credits in one of the following fields:	
Education policy; budgeting and public finance; program evaluation; science and technology policy; public and nonprofit management; and social policy. **	
Dissertation research	
PPPA 8191	Dissertation Workshop

PPPA 8999	Dissertation Research (taken for 6 to 12 credits)
-----------	---

*Course is covered by the core comprehensive examination.

**The social policy field has four subfields, each with specific requirements: gender and social policy, poverty and inequality, ethnicity and public policy, and urban policy.

Visit the program website (<https://tspppa.gwu.edu/phd-public-policy-and-administration/>) for additional information.

DUAL MASTER OF PUBLIC ADMINISTRATION AND GRADUATE CERTIFICATE IN HOMELAND SECURITY EMERGENCY PREPAREDNESS AND RESPONSE

REQUIREMENTS

Master of public administration students can earn a graduate certificate in homeland security emergency preparedness and response in the school of engineering and applied science.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

Code	Title	Credits
Required		
PPPA 6000	Perspectives on Public Values	
PPPA 6001	Introduction to Public Service and Administration	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6003	Economics for Public Decision-Making	
PPPA 6004	Managing Public Organizations	
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
PPPA 6006	Policy Analysis	
PPPA 6009	MPA Capstone Seminar	
Policy field		
Three or four courses		

Policy fields include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives.

Requirements toward the graduate certificate fulfill the elective credits toward the Master of Public Administration degree and are as follows:

EMSE 6300	Homeland Security: The National Challenge
-----------	---

Five additional courses from the following:

EMSE 6305	Crisis and Emergency Management
-----------	---------------------------------

EMSE 6310	Information Technology in Crisis and Emergency Management
-----------	---

EMSE 6315	Management of Risk and Vulnerability for Hazards and Terrorism
-----------	--

EMSE 6320	International Disaster Management
-----------	-----------------------------------

EMSE 6325	Medical and Public Health Emergency Management
-----------	--

EMSE 6330	Management of Terrorism Preparedness and Response
-----------	---

EMSE 6992	Special Topics
-----------	----------------

EMSE 6345	Disaster Recovery and Organizational Continuity
-----------	---

EMSE 6350	Hazard Mitigation in Disaster Management
-----------	--

EMSE 6240	Environmental Hazard Management
-----------	---------------------------------

Visit the program website (<https://tspppa.gwu.edu/master-public-administration-mpa/>) for additional information.

DUAL MPA AND GC IN NONPROFIT MANAGEMENT

The Trachtenberg School in Columbian College of Arts and Sciences offers a dual master of public administration (MPA) (p. 447) and graduate certificate in nonprofit management (p. 445) program. The 12 credits required for the certificate may be shared with the MPA by using them as field and/or elective courses. This allows students to earn both credentials in a shorter amount of time and at a lower cost than if pursued separately. All requirements for both programs must be fulfilled.

Visit the program website (<https://tspppa.gwu.edu/combined-degree-programs/>) for additional information.

DUAL MPP AND PHD IN POLITICAL SCIENCE

The Master of Public Policy Program and the Department of Political Science offer a dual master of public policy (MPP) (p. 448) and doctor of philosophy in political science (PhD) (p. 416) degree program. Students receive both the MPP and PhD within the same 72 credit hours that would be normally required for a PhD in Political Science. Interested students must apply to and be accepted by both the Public Policy and Political Science programs. All requirements for both degrees must be fulfilled.

Visit the MPP and PhD in political science website (<https://tspppa.gwu.edu/combined-mppphd-political-science-program/>) for additional information.

DUAL MPP AND GRADUATE CERTIFICATE IN DATA SCIENCE

The Trachtenberg School in Columbian College of Arts and Sciences offers a dual master of public policy (MPP) (p. 448) and graduate certificate in data science (p. 211) program. Of the 12 credits required for the certificate, 9 may be shared with the MPP, thereby decreasing the number of credits normally required for the master's. All requirements for both programs must be fulfilled. Students interested in the dual degree program should consult with their advisor.

Visit the program website (<https://tspppa.gwu.edu/combined-masters-and-graduate-certificate-programs/>) for additional information.

GRADUATE CERTIFICATE IN BUDGET AND PUBLIC FINANCE

The certificate in budgeting and public finance provides course work in the theoretical and practical foundations of public budgeting and in the formulation and evaluation of public budgets, as well as the complex choices of economic reasoning in response to resource allocation in the process of formulating and implementing public budgets. The courses in the certificate provide a background in budget policy and process, characteristics of public revenue and expenditure, and governmental accounting and financial reporting. This certificate is particularly well suited for those who are, or envision becoming, budget analysts or financial management officers in public agencies at any level of government.

Visit the program website (<https://tspppa.gwu.edu/certificate-budget-public-finance/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: 12 credits, including 3 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
Required		
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
Electives		
Three of the following:		
PPPA 6048	Financing State and Local Government	
PPPA 6051	Governmental Budgeting	
PPPA 6052	Tax PolicyAnalysis	
or PPPA 6054	Issues in Federal Budgeting	
PPPA 6053	Financial Management for Public and Nonprofit Organizations	
PPPA 6055	Contracting Out and Public-Private Partnerships	

GRADUATE CERTIFICATE IN CONTEXTS OF ENVIRONMENTAL POLICY

This program is offered exclusively to National Park Service (NPS) employees who have served for three years or more.

The Contexts of Environmental Policy graduate certificate program is designed to help prepare current and future leaders who are responsible for the preservation and protection of our public lands and cultural heritage. Inspired by a gift from Roger and Frances Kennedy and made possible by the Friends of Roger Kennedy, this program funds NPS students to undertake a course of study that strengthens their knowledge of the natural and cultural resources which lie at the heart of the NPS mission. Offering a wide range of courses that contextualize environmental policy, the certificate allows both flexibility and purpose to NPS students.

Visit the program website (<https://enrp.columbian.gwu.edu/national-park-service-contexts-environmental-policy-graduate-certificate/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including one 3-credit required course and 9 credits in elective courses.

Code	Title	Credits
Required:		
PPPA 6006	Policy Analysis	
or PPPA 6066	U.S. Environmental Policy	
Electives		
9 credits in elective courses selected from the following:		
AMST 6530	Field Methods in Architectural Documentation	
ANTH 6101	Proseminar in Biological Anthropology	
ANTH 6807	Public Archaeology	
ENGL 6510	Writing, Race, and Nation	
ENGL 6520	Ethnicity and Identity	
ENRP 6101	Environmental Sciences I: Physical Sciences	
ENRP 6102	Environmental Sciences II: Life Sciences	
GEOG 6219	Seminar: Climatology	
GEOG 6230	Seminar: Environmental Issues in Development	
HIST 6011	Reading and Research in History and Public Policy	
HIST 6302	Colonial North America	
HIST 6304	American Indian History to 1890	
HIST 6420	Religion and American Culture	
HIST 6480	Theory and Practice of Public History	
HIST 6495	Historic Preservation: Principles and Methods	
MSTD 6101	Museum Management	
MSTD 6203	Preventive Conservation Concepts	
PHIL 6281	Environmental Philosophy and Policy	
PPPA 6010	Politics and The Policy Process	

PPPA 6031	Governing and Managing Nonprofit Organizations
PPPA 6043	Land Use Planning and Community Development
PPPA 6067	Environment, Energy, Technology, and Society
PPPA 6140	Introduction to Environmental Law
PSC 6103	Approaches to Public Policy Analysis
SMPA 6201	Strategic Communications Skills
SOC 6250	Urban Sociology
STAT 6104	Statistics in Management, Administration, and Policy Studies
Students may be permitted to take alternative electives with permission of the advisor.	

Students should consult with Environmental and Resource Policy Director of Graduate Studies to construct an individualized curriculum best suited to their needs and interests.

GRADUATE CERTIFICATE IN ENVIRONMENTAL RESOURCE POLICY

The Environmental Resource Policy (ENRP) Program at GW offers a multidisciplinary approach to environmental and sustainability studies. The Master of Arts program prepares students to enter environmental policy careers in government, non-profit organizations, the private sector, and environmental advocacy groups. ENRP is built on a multidisciplinary curriculum that includes environmental economics, environmental law, public policy, research methods, and a two-semester environmental science course. ENRP blends theory and practical experience with a professional, client-oriented, capstone project, academic credit for relevant internships and research, and a wide range of DC-based internship opportunities.

The MA is a STEM-designated program.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits in required courses.

Code	Title	Credits
Required		
ENRP 6101	Environmental Sciences I: Physical Sciences	

or ENRP 6102	Environmental Sciences II: Life Sciences
PPPA 6006	Policy Analysis
PPPA 6007	Microeconomics for Public Policy I
or ECON 6237	Economics of the Environment and Natural Resources
PPPA 6066	U.S. Environmental Policy
or PPPA 6140	Introduction to Environmental Law

If, by virtue of prior coursework, a student can demonstrate competency in all topics covered in a required course, another graduate course relevant to environmental policy may be substituted for that course. Permission of the Environmental Resource Policy Program Director or Director of Graduate Studies is required.

GRADUATE CERTIFICATE IN NONPROFIT MANAGEMENT

The graduate certificate in nonprofit management provides an overview of central concepts in managing nonprofit organizations and is intended to meet the needs of students seeking a focused experience in preparation for a career in nonprofit organizations. It may be appropriate for students who seek to expand their knowledge but who do not wish to commit to a master's degree program.

Certificate students enroll in regular courses of the Trachtenberg School of Public Policy and Public Administration, which carry graduate credit. Regular graduate tuition and fees apply. Under certain circumstances, credit earned in the certificate program also may be applied toward the Master of Public Administration (MPA) degree. However, admission to the MPA degree program has separate requirements from those of the certificate program and students considering going on for a degree should consult with a faculty advisor early in their program.

Visit the program webpage (<http://tspppa.gwu.edu/graduate-certificate-nonprofit-management/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 12 credits, including 6 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
PPPA 6031	Governing and Managing Nonprofit Organizations	

PPPA 6032 Managing Fund Raising and Philanthropy

or PPPA 6033 Nonprofit Enterprise

Electives, Trachtenberg School

At least one course (3 credits) and as many as two courses (6 credits) selected from the following:

PPPA 6016 Public and Nonprofit Program Evaluation *

PPPA 6033 Nonprofit Enterprise *

PPPA 6032 Managing Fund Raising and Philanthropy *

PPPA 6034 Managing Nonprofit Boards

PPPA 6053 Financial Management for Public and Nonprofit Organizations

PPPA 6055 Contracting Out and Public-Private Partnerships

PPPA 6058 International Development NGO Management

PPPA 6062 Community Development Policy and Management

PPPA 6063 Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing

PPPA 6068 Leading Diverse and Inclusive Organizations

Electives, other GW schools

Students may select one course (3 credits) from the following**:

ACCY 6701 Government Accounting

MGT 6285 Social Entrepreneurship

PMGT 6414 Lobbying

PUBH 6054 Community Engagement and Advocacy

SMPA 6206 Advocacy Communication and Political Networks

*If not taken as a core course.

**Students may supplement or substitute elective courses with other relevant courses in related disciplines with the permission of a field advisor. Field advisors can recommend courses

in various schools of the university that address a student's particular interest and career goals.

MASTER OF ARTS IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY

The Environmental Resource Policy (ENRP) Program at GW offers a multidisciplinary approach to environmental and sustainability studies. The Master of Arts program prepares students to enter environmental policy careers in government, non-profit organizations, the private sector, and environmental advocacy groups. ENRP is built on a multidisciplinary curriculum that includes environmental economics, environmental law, public policy, research methods, and a two-semester environmental science course. ENRP blends theory and practical experience with a professional, client-oriented, capstone project, academic credit for relevant internships and research, and a wide range of DC-based internship opportunities.

The MA and Graduate Certificate in Environmental Resource Policy are STEM-designated programs.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 24 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ECON 6237	Economics of the Environment and Natural Resources	
ENRP 6101	Environmental Sciences I: Physical Sciences	
ENRP 6102	Environmental Sciences II: Life Sciences	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6006	Policy Analysis	
PPPA 6007	Microeconomics for Public Policy I	
PPPA 6140	Introduction to Environmental Law	
PPPA 6198	Environmental Resource Policy Capstone	
Electives		

12 credits of approved elective drawn from a number of departments throughout the University.

Students who previously completed required courses may be allowed to substitute additional elective courses with program approval. Students may substitute PPPA 6017, PPPA 6014, or Econ 6217 for PPPA 6007.

MA IN THE FIELD OF ENVIRONMENTAL RESOURCE POLICY AND GRADUATE CERTIFICATE IN GEOGRAPHICAL INFORMATION SYSTEMS

The Trachtenberg School of Public Policy and Public Administration in the Columbian College of Arts and Sciences and the Department of Geography offer a dual master of arts in environmental resource policy (p. 446) (ENRP) and graduate certificate in geographical information systems (p. 287) (GIS) program. The 12 credits earned for the certificate may be shared between programs, thereby decreasing the total number of credits normally required.

The program offers a multidisciplinary approach to environmental and sustainability studies, blending theory and practical experience with a curriculum that includes environmental economics, environmental law, public policy, research methods, and environmental science. Elective courses can be taken in almost any department at the University, including, but not limited to, biology, chemistry, geography, international affairs, public policy, economics, political science, engineering management and systems engineering, business administration, and public health. Students graduate prepared to enter environmental policy careers in government, nonprofit organizations, the private sector, and environmental advocacy groups. The GIS certificate curriculum guides students through all aspects of GIS theory and practice, from the science of cartography to analyzing geographical statistics to database design and geospatial modeling. Students are equipped with a solid grounding in geospatial theory and techniques as well as its practical applications.

MASTER OF PUBLIC ADMINISTRATION

The master of public administration degree (MPA) is the recognized professional degree in public administration, public management, and public service. It is designed principally, but not exclusively, for those who are pursuing careers in public service. Graduates are employed in government agencies at all levels, national associations, public interest groups, research and consulting firms, and in the private sector.

The MPA degree program provides an opportunity to study management and policy issues in an intergovernmental and

intersectoral context. The program focuses on developing critical intellectual capacities, sound analytical skills, and a sensitivity to the ethical and value concerns that are central to the traditions of the field of public administration.

Visit the program website (<https://tspppa.gwu.edu/master-public-administration-mpa/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (<http://bulletin.gwu.edu/arts-sciences/#degreeregulationtext>).

40 credits, including 22 credits in required courses, 9 to 12 credits in a selected policy field, and 3 to 6 credits in elective courses.

Code	Title	Credits
Required		
PPPA 6000	Perspectives on Public Values	
PPPA 6001	Introduction to Public Service and Administration	
PPPA 6002	Research Methods and Applied Statistics	
PPPA 6003	Economics for Public Decision-Making	
PPPA 6004	Managing Public Organizations	
PPPA 6005	Public Budgeting, Revenue, and Expenditure Analysis	
PPPA 6006	Policy Analysis	
PPPA 6016	Public and Nonprofit Program Evaluation	
PPPA 6009	MPA Capstone Seminar	

Policy field

Completion of a 9- or 12-credit policy field. Field options include budget and public finance; federal policy, politics, and management; international development management; managing state and local governments; homeland security and emergency management; nonprofit management; policy analysis and evaluation; public-private policy and management. With approval, a special field may be constructed, tailored to the student's academic interests and career objectives..

Electives

3 to 6 credits in graduate-level elective courses selected in consultation with the faculty advisor. Courses may be from any related program or discipline.

*Students completing their degree program at the end of the fall semester take PPPA 6008 instead of PPPA 6009.

MASTER OF PUBLIC POLICY

We prepare students for positions in public policy research and analysis; we also prepare them for leadership roles in the field. Trachtenberg School classes are held on the Foggy Bottom Campus. Many classes are in the evenings, enabling full-time and part-time students to pursue their degree while working. The MPP is a 40-credit degree offered through the Trachtenberg School of Public Policy and Public Administration; the Columbian College of Arts and Sciences grants the degree. The curriculum balances coverage of public policy theory and practice with contemporary policy issues.

Policy fields include budget and public finance; education policy; environmental policy; health policy; national security policy; philosophy and social policy; program and policy evaluation; public-private policy and management; science and technology policy; social policy; urban policy; and international development management. Students can also design their own field of concentration. The MPP can be combined with the GW Law School's JD for a dual MPP-JD degree and with the PhD in political science for a dual MPP-PhD degree.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

40 credits, including 19 credits in required core courses, 6 credits in tools courses, a minimum of 9 credits in a policy field, and 6 credits in elective courses.

Code	Title	Credits
Required		
Policy core		
PPPA 6000	Perspectives on Public Values	
PPPA 6002	Research Methods and Applied Statistics (taken for 3 credits)	
PPPA 6007	Microeconomics for Public Policy I	
PPPA 6011	Politics and Policy Analysis	
PPPA 6013	Econometrics for Policy Research I	
PPPA 6014	Microeconomics for Public Policy II	

PPPA 6019 MPP Capstone

Tools of analysis (two courses from the following):

PPPA 6005 Public Budgeting, Revenue, and Expenditure Analysis

PPPA 6015 Benefit-Cost Analysis

PPPA 6016 Public and Nonprofit Program Evaluation

PPPA 6020 Decision Modeling for Public Policy

PPPA 6021 Data Visualization

PPPA 6085 Special Topics in Public Policy

PPPA 8022 Econometrics for Policy Research II

PPPA 8023 Mixed Methods in Research Design

Field of study/electives

Students must complete a policy field of at least 9 credits. The remaining 6 credits required for the degree may be taken in that field or they may be used as electives to, e.g., include more tools courses or courses in other fields in their program of study.

The master of public policy is available in a dual degree program with the PhD in the field of political science and a joint degree program with the JD in the Law School.

Visit the program website (<https://tspppa.gwu.edu/master-public-policy-mpp/>) for additional information.

RELIGION

The study of religion at GW promotes analysis rather than advocacy of religion or a particular tradition. At the undergraduate level, the Department of Religion offers the bachelor of arts with a major in religion. The program curriculum fosters knowledge of the world's religions, as well as their history, literature, and community structure. Areas of study include Biblical literature, Judaism, Christianity, Islam, Hinduism, ethics, sociology of religion, contemporary movements in theology, and religion in American culture. A minor in religion is also offered.

At the graduate level, the cross-disciplinary master of arts in the field of Islamic studies program focuses on the study of Islam in its classical and contemporary formations, with an emphasis on developing competence in classical Islamic intellectual traditions.

The graduate certificate in Islamic studies is also offered for professionals in related fields who benefit from instruction in critical aspects of Islam.

The doctor of philosophy in the field of American religious history is offered by the Department of History in cooperation with the Department of Religion.

Visit the Department of Religion website (<https://religion.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in religion (p. 455)

Minor

- Minor in religion (p. 458)
- Minor in linguistics (p. 68) (interdisciplinary)

GRADUATE

Master's program

- Master of Arts in the field of Islamic studies (p. 457)

Doctoral program

- Doctor of Philosophy in the field of American religious history (p. 310)

CERTIFICATE

Certificates

- Graduate certificate in Islamic studies (p. 456)

FACULTY

University Professor S.H. Nasr

Professors P.B. Duff, R.J. Eisen (*Chair*), R.W. Tuttle

Associate Professors X. Kang, I. Oh-Koukios, D. Malone-France, K. Pemberton

Assistant Professors E. Aviv, J.D. Wood

Adjunct Professors M. Faghfoory

Professorial Lecturers B.N. Hebbar, E.C. Hostetter

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

REL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

REL 1003. Introduction to World Religions. 3 Credits.

Introduction to the major religions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Daoism. Examination of the central aspects of these religions including the doctrinal, ethical, ritual, experiential, and social dimensions. Exploration of similarities and differences between these religious traditions.

REL 1009. The Hebrew Scriptures. 3 Credits.

The literature, history, and religious thought represented by the Hebrew Scriptures (Old Testament). Continuities and contrasts between Israel and the ancient Near East are considered through study of the world view, oral and literary tradition, main religious ideas, and chief figures and movements of the biblical literature.

REL 1010. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 1010W. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 1099. Variable Topics. 1-36 Credits.

REL 2165. The Gospels. 3 Credits.

Study of the four canonical gospels (traditionally those of Matthew, Mark, Luke, and John) in terms of each presenting a distinct literary portrait of Jesus of Nazareth and each being the product of a religious community that shared at least some beliefs and practices with surrounding "pagan" and Jewish communities.

REL 2169. Lost Gospels. 3 Credits.

Examination of some of the gospels not included in the Christian canon. These include, among others, Q, the Gospel of Thomas, the Gospel of Mary, and the Gospel of Judas. These lost gospels provide a fresh perspective on the development and diversity of early Christianity.

REL 2201. Judaism. 3 Credits.

A survey of Jewish thought and practice from the biblical to the modern period; introduction to the Hebrew Bible, rabbinic Judaism, Jewish philosophy and mysticism, Judaism in the modern period; an examination of the central rituals in Judaism, including Sabbath, dietary laws, and major festivals.

REL 2211. Rabbinic Thought and Literature. 3 Credits.

The thought-world of rabbinic Judaism in its formative period, 100 to 500 CE, through a close reading of primary texts in translation selected from Mishnah, Talmud, and Midrash. Topics include Oral Torah, the mechanics of rabbinic law, conceptions of God, views on suffering. The influence of rabbinic Judaism on modern Jewish ethics and thought.

REL 2301. Christianity. 3 Credits.

Typical themes, patterns, and points of diversity within the Christian religion; commonly shared and contested features and complex relationship with broader culture.

REL 2314. Contemporary Philosophy of Religion. 3 Credits.

The arguments of major figures in contemporary schools of thought within the philosophy of religion, including analytic, continental, deconstructionist, and process philosophy.

REL 2401. Islam. 3 Credits.

Islam as both a religion and a civilization. The basic Islamic beliefs and practices: the Qur'an, Hadith, and Islamic intellectual legacy; and the history of Islam from 632 to the present with particular attention to its encounter with the West.

REL 2501. Hinduism. 3 Credits.

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

REL 2506. Religion, Myth, and Magic. 3 Credits.

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious processes and change. (Same as ANTH 2506).

REL 2562. Mythologies of India. 3 Credits.

The lore of Indian gods (Vedic, Puranic), heroes (epics), and holy men (Hindu, Buddhist, Jain, Tantric); ties with Indian art, caste, cult, cosmology, and spiritual ideals.

REL 2601. Buddhism. 3 Credits.

Consideration of the Buddhist tradition both thematically and historically, focusing on topics such as Buddhist doctrine, meditation, and rituals. The lived tradition in the pre-modern and modern periods.

REL 2802. Introduction to Chinese Religions. 3 Credits.

General introduction to Chinese religions focusing on religious doctrines and institutions; religious practices, including ancestor worship, family and communal rituals, spirit possession, fengshui theories, pilgrimage, popular worship of ghosts and gods. (Same as EALL 2802).

REL 2811. Confucian Literature in East Asia. 3 Credits.

Introduction to Confucian literature in China and other parts of East Asia, from its beginnings to the present day. The various historical, philosophical, and religious dimensions of Confucian texts and practices; the role of Confucianism in the formation and development of Chinese and East Asian political systems, family systems, and gender relationships; recent intellectual debates on Confucianism in East Asia. (Same as EALL 3811, EALL 6811).

REL 2814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions how these traditions evolved over time, and the way each cultures assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. (Same as EALL 3814, REL 3814).

REL 2831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Those who take it for graduate credit will have extra assignments. (Same as EALL 3831, EALL 6831).

REL 2921. The Religions Wage Peace. 3 Credits.

Resources in various world religions that contribute to peacemaking in interpersonal relations and in domestic and international politics. Consideration of ways in which religions contribute to intolerance and violence. Case-based approach to religions as related to peace and conflict resolution.

REL 2922. Ethics and World Religions. 3 Credits.

Modern concepts of ethics and their relation to major world religions, religion as stimulus and barrier to moral change, and modern moral issues ranging from bioethics to war.

REL 2945. Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Formerly REL 3945. Recommended background: Prior completion of a religion (REL) course. Same As: PSYC 2945.

REL 2981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity; special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. Same as WSTU 3981.

REL 2990. Selected Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

REL 3099. Variable Topics. 1-12 Credits.**REL 3141. Second Temple/Hellenistic Judaism. 3 Credits.**

History of Judaism from the time of Ezra through the destruction of Jerusalem in 70 CE—canonization of the Pentateuch, Hellenism, Maccabean revolt, growth of sectarian movements, Herod, ferment against Rome in context of Eastern and Western political currents. Use of primary sources, especially the Bible, Josephus, and noncanonical writings.

REL 3151. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus. Same As: REL 3151W.

REL 3151W. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Same As: REL 3151.

REL 3161. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3161W. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3221. Issues in Jewish Ethics. 3 Credits.

Exploration of current debates about major ethical issues among Jewish thinkers in the Orthodox, Conservative, and Reform denominations; issues in bioethics, feminism, attitudes towards non-Jews, social action, the ethics of war.

REL 3291. Modern Jewish Thought. 3 Credits.

Jewish thought from 1800 to the present through an exploration of six preeminent Jewish theologians: Moses Mendelssohn, Hermann Cohen, Martin Buber, A.J. Heschel, J.B. Soloveitchik, and Mordecai Kaplan. The relationship between these thinkers and the major Jewish denominations: Orthodox, Conservative, Reform, and Reconstructionist.

REL 3310. Apocalypse and Social Change. 3 Credits.

Investigation of typical ideas, patterns, and areas of social engagement associated with the genre of religious literature known as apocalypse. Why and how diverse groups within Jewish, Christian, and Muslim traditions crafted apocalypses that have shaped cultures across the globe from past to present.

REL 3321. Christian Ethics and Modern Society. 3 Credits.

Nature and principles of Christian life as developed by the Christian community; problems of personal conduct; application to various social institutions.

REL 3341. Christianity in the Ancient World. 3 Credits.

Rise and development of Christianity in relation to the culture, philosophy, mystery religions, and general religious life of the Greco-Roman world to A.D. 500.

REL 3342. Medieval Faith and Symbolism. 3 Credits.

Christian life and thought in the Middle Ages; mystics, saints, popes, and philosophers.

REL 3343. Religion in the Renaissance and Reformation. 3 Credits.

Transformation of the Western understanding of human identity and destiny from the end of the Middle Ages to the Age of Reason.

REL 3344. Christianity in the Modern World. 3 Credits.

Changes in Christian life and thought since 1700, as seen in theology, literature, political life, and religious institutions.

REL 3405. Shi'ite Islam. 3 Credits.

This course examines the emergence and development of Shi'ism as a branch of Islamic orthodoxy with particular emphasis on its doctrine, practices, theology, the law, politics, and the geographical and political context within which a distinct Shi'i identity developed.

REL 3414. Islamic Philosophy and Theology. 3 Credits.

Major schools of Islamic philosophy and theology considered in morphological and historical contexts. Relation between revelation and reason, determination and free will, and divine and human knowledge, and among science, philosophy, and religion. Recommended background: REL 2401 or basic knowledge of Islam. Same As: REL 6414.

REL 3419. Islamic Civilization and the West. 3 Credits.

Interaction between Islamic and Western civilization during the past fourteen centuries. Christian contact with and development of views about Islam; formation of Islamic civilization and the influence of Islamic ideas upon the West; encroachment upon and subsequent colonization of the Islamic world by the West; the spread of Western ideas among Muslims; and Islamic responses to the advent of modernism coming from the West. Present day relations.

REL 3425. Islamic Political Thought. 3 Credits.

Islamic political thought from inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists and its encounter with political thought from the Western world in the modern period. Same As: REL 6425.

REL 3431. Sufism/Islamic Mysticism. 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Same As: REL 6431.

REL 3432. Persian Sufi Literature East and West. 3 Credits.

The teachings of Sufism as reflected in the history of Persian Sufi literature. The influence of that literature on literary figures outside of the Islamic world, especially in the West, but also in India and China, from the 18th to the 20th centuries.

REL 3475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design. Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same As: REL 6475.

REL 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. (Same as WGSS 3481).

REL 3482. Gender and Piety in Islam. 3 Credits.

Issues related to gender, sainthood, and piety in Islam. Reading of classical primary texts and historical, ethnographic, and philosophical works. Focus on mysticism and metaphysics in Sufi and Shi'i traditions. Final projects are creative or research oriented.

REL 3566. Dharma in Hinduism and Buddhism. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3612. Buddhist Ethics. 3 Credits.

Introduction to basic concepts in Buddhist ethics. Exploration of the unique landscape of Buddhist moral psychology. Analysis of the moral thought of leading contemporary Buddhists Thich Nhat Hanh and the Dalai Lama. Prerequisites: .

REL 3614. Buddhist Philosophy. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3615. Buddhist Contemplative Traditions in Theory and Practice. 3 Credits.

Exploration of Buddhist meditation. The meditation movement in the West and the emerging science of meditation. Includes discussion of and practicing different styles of Buddhist meditation.

REL 3666. The Book of Revelation and Other Apocalypses. 3 Credits.

Examination of the Book of Revelation in its original historical context. This includes investigation of the origins of apocalyptic thought within Judaism and comparison of the Book of Revelation with other apocalypses such as Daniel, 1 Enoch, and 4 Ezra.

REL 3701. Religion in the United States. 3 Credits.

Growth of religious groups and institutions in relation to American culture, development of religious thought, and analysis of the contemporary religious scene.

REL 3711. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3711W. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3814W. Religion and Philosophy in East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3814).

REL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. (Same as EALL 3831).

REL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage. Same As: EALL 3832.

REL 3841. Religion and Politics in China. 3 Credits.

The changes, destructions, and reconstructions of Chinese religions from the late nineteenth century to the present. The relationship between the (re)making of Chinese religions and the making of a modern Chinese nation state. Same As: CHIN 3841.

REL 3881. Women, Gender, and Religion in China. 3 Credits.

Historical introduction to women and men as gendered subjects and the construction of gender and power in Chinese religions. May be taken for graduate credit with extra work assigned. Same as EALL 3881/WGSS 3811. (Same as EALL 3881, WGSS 3881).

REL 3901. Thinking About Religion: Classic and Contemporary Approaches. 3 Credits.

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 3910. Perennial Philosophy. 3 Credits.

The meaning of the concept of 'perennial philosophy' as understood by various scholars of thought throughout Eastern and Western history, including its contemporary significance. Perennial philosophy as it concerns the nature of the 'divine reality,' the human state, the cosmos, the arts, and relations between religions.

REL 3912. Religion and Science. 3 Credits.

The relationship between religion and science globally and over time. Egypt, Greece, the Far East, India, and the Islamic world; the West during the Renaissance, with a focus on alchemy and the hermetical tradition; and the Scientific Revolution in the 17th century and biological revolution in the 19th century. Issues and various currents of thought in the contemporary world.

REL 3915. Islam and Hinduism in South Asia. 3 Credits.

Investigation of the historical development and contemporary practice of Islam in South Asia (India, Nepal, Pakistan, Bangladesh, and Afghanistan). Particular attention to devotional traditions within Sufism and Bhakti Hinduism.

REL 3923. Violence and Peace in Judaism, Christianity, and Islam. 3 Credits.

Historical analysis of the violent and peaceful dimensions of the three Abrahamic faiths, with focus on the relationship of the scriptures of each of the three traditions to the later interpretations that supported both violent and peaceful readings of those texts.

REL 3930. Mysticism East and West. 3 Credits.

Mysticism and its various meanings in Eastern and Western religious and spiritual traditions. Comparative study of major figures and works. What schools of mysticism teach about the nature of God and the world and the human state. The rapport between mysticism and various forms of sacred and traditional art.

REL 3931. Interfaith Dialogue in World Religions. 3 Credits.

Comparison of certain families of religions and the doctrinal debates in which they have engaged, including Hindu-Buddhist, inter-Hindu, inter-Buddhist, Buddhist-Confucian, Jewish-Christian, inter-Christian (Catholic-Protestant), Christian-Islamic, and inter-Islamic debates.

REL 3989. The Goddess in India and Beyond. 3 Credits.

The goddess traditions of Hinduism, with some attention to goddess traditions in the ancient Near East and the Mediterranean. Classical Sanskrit, Tantric, and popular expressions of Hindu goddess worship. Comparative studies and issues of gender.

REL 3990. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3990W. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 3999. Readings and Research. 2-3 Credits.

REL 4101W. Senior Capstone Seminar. 3 Credits.

Required of religion majors. Students refine and consolidate what they have learned over the course of their studies. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 4191W. Senior Honors Thesis. 3 Credits.

Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

REL 5099. Variable Topics. 1-99 Credits.

REL 5701. Selected Topics. 4 Credits.

REL 6201. Special Topics in Religion. 3 Credits.

May be repeated for credit provided the topic differs.

REL 6401. Islamic Historiographies. 3 Credits.

Muslim historiographic traditions from the 7th to 15th centuries, including what they looked like and how they developed; the development of scholarly methods used to evaluate the source materials for these traditions in the formative and classical periods of Islam; key developments in postclassical, non-Arabic Muslim historiographic traditions in the Indian Subcontinent, Ottoman Turkey, and the Persian lands.

REL 6402. Qur'an and Hadith. 3 Credits.

The structure, major themes, and literary aspects of the twin sources of Islam. Commentaries written by Muslim scholars and their part in spreading the teachings of the sacred book of Islam. The general principle elements of Islamic theology, law, politics, ethics, philosophy, and art and architecture. The science of Hadith, its types, its relation to the Qur'an, and methods used for authentication of the sayings of the Prophet. The historical role of the Qur'an and Hadith both in classical as well as modern period with particular emphasis on its part in forming Muslim perception of society, history, and politics.

REL 6412. Shi'i Thought. 3 Credits.

Introduction to Shi'i Islam, with a particular focus on the integration of textual, rational, polemical, and philosophical sources in the development of the fundamental doctrines of Twelver, Isma'ili, and Zaydi (Imami) Shi'ism. Restricted to MA students in Islamic Studies.

REL 6413. Philosophy and Mysticism in the Shi'i World. 3 Credits.

Major figures and concepts in philosophy and mysticism in the Shi'i world, including Sufism and the 'irfān tradition, with a focus on ethics. Parallel phenomena in Judaism and Christianity. Restricted to students in the MA in Islamic studies program.

REL 6414. Islamic Philosophy and Theology. 3 Credits.

Major schools of Islamic philosophy and theology considered in morphological and historical contexts. Relation between revelation and reason, determination and free will, and divine and human knowledge, and among science, philosophy, and religion. Recommended background: REL 2401 or basic knowledge of Islam. Same As: REL 3414.

REL 6420. Shi'i Political Thought. 3 Credits.

Survey of contemporary Twelver Shi'i political thought, focusing on scholars from Lebanon, Iraq, and Iran, during the twentieth and twenty-first centuries. Restricted to students in the MA in Islamic studies program.

REL 6425. Islamic Political Thought. 3 Credits.

Islamic political thought from inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists and its encounter with political thought from the Western world in the modern period. Same As: REL 3425.

REL 6431. Sufism/Islamic Mysticism. 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Same As: REL 3431.

REL 6441. Islamic Law. 3 Credits.

Islamic positive law in the contemporary context. The family law of Islam (marriage, dowry, custody, guardianship and various forms of divorce); the law of inheritance and public trust (waqf) as two selected topics of Islamic private law. Examination of theories of jihad and siyar in the contemporary context of nation-state systems of international relationships. Islamic rituals ('ibadat) whose spirituality prevails the totality of the Islamic set of laws and regulations.

REL 6442. Principles of Shi'i Jurisprudence. 3 Credits.

Islamic legal theory in the Shi'i tradition. Topics include sources of Shi'i law; resolving contradictory reports from divinely-inspired sources; authentic vs. inauthentic evidence; distinguishing which actions are obligatory, forbidden, and permissible; and parallels with secular legal systems. Restricted to students in the MA in Islamic studies program.

REL 6460. Topics in the Study of Islam. 3 Credits.

Study of topics in Islam, as selected by the instructor, that may include philosophy, theology, mysticism, law, and/or literature. Prerequisites: A course on Islam or permission of the instructor.

REL 6461. Topics in Islamic Thought. 3 Credits.

Perennial major issues in Islamic theology, philosophy, and Sufism such as Divine Unity, prophetology, eschatology, religious knowledge, sacred law, and ethics. Prerequisites: A course on Islam or permission of the instructor.

REL 6475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design. Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same As: REL 3475.

REL 6481. Global Islamic Feminisms. 3 Credits.

History and current trajectory of Islamic feminism, beginning with various debates over understandings of its meanings and manifestations. Introduction to multidisciplinary methods of analysis for national and global contexts. Recommended background: Previous knowledge of or coursework in Islam.

REL 6511. Currents of Modern Hinduism. 3 Credits.

Hinduism since the early seventeenth century. Colonialism, the impact of missionaries, orientalism, reform, relations between Brahmanical and popular Hinduism, Sanskrit and vernacular traditions, regionalism, communalism, nationalism, fundamentalism, politicized "syndicated" Hinduism, and secularism.

REL 6557. India's Great Epics. 3 Credits.

The Mahabharata and the Ramayana are treated in alternate offerings of the course. These founding epic texts of devotional (bhakti) Hinduism are taught in English translation. Vernacular and performative versions of the epics and Western adaptations.

REL 6771. American Religion to 1830. 3 Credits.

Religious thought and life during the Colonial and early National periods.

REL 6773. American Religion Since 1830. 3 Credits.

Religious thought and life from the Civil War to the present.

REL 6831. Introduction to Daoism. 3 Credits.

A general introduction to the Daoist tradition from the antiquity to contemporary times, through reading major Daoist classics, scriptures, poems, novels, and examining Daoist material cultures and bodily cultivation techniques. Students taking the course for graduate credit must complete additional work. (Same as EALL 3831W, EALL 6831, REL 3831W).

REL 6901. Thinking about Religion: Classic and Contemporary Approaches. 3 Credits.

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 6911. Myth, Ritual, and Language. 3 Credits.

Method and theory in the interpretation of myth and narrative, ritual and sacrifice, and symbolism, with primary reference to the history of religions.

REL 6997. Readings and Research. 2-3 Credits.

Investigation of special problems.

REL 6998. Thesis Research. 3 Credits.

REL 6999. Thesis Research. 3 Credits.

BACHELOR OF ARTS WITH A MAJOR IN RELIGION

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
REL 1003	Introduction to World Religions	
Required		
REL 3901	Thinking About Religion: Classic and Contemporary Approaches	
REL 4101W	Senior Capstone Seminar	
Electives		
Students take nine elective REL courses. Two of these courses must be taken at the 2000 level. Two must be courses focused on Abrahamic religions and two must be focused on non-Abrahamic religions.		
Abrahamic religions courses		
REL 1009	The Hebrew Scriptures	
REL 1010	The New Testament	
REL 1010W	The New Testament	
REL 2165	The Gospels	
REL 2169	Lost Gospels	
REL 2201	Judaism	
REL 2211	Rabbinic Thought and Literature

REL 3841 Religion and Politics in China

REL 3881 Women, Gender, and Religion in China

REL 3915 Islam and Hinduism in South Asia

REL 3989 The Goddess in India and Beyond

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a grade-point average of 3.5 in courses in the major, and receive a minimum grade of A- in REL 4101.

GRADUATE CERTIFICATE IN ISLAMIC STUDIES

The graduate certificate, offered by the Department of Religion, focus on the study of Islam in its classical and contemporary formations, with an emphasis on developing competence in classical Islamic intellectual traditions. The cross-disciplinary program allows students to study with a variety of faculty members who are knowledgeable about the classical formulations of Islam, and have on-the-ground experience in Muslim-majority countries and communities. Centrally located in Washington, D.C., the program offers students the opportunity to interact with U.S. government agencies, think tanks, non-governmental institutions, and the large Muslim community residing and working in the metro area. The program also offers "non-traditional students" such as working professionals, civil servants, and employees of international agencies the opportunity to tailor the program to their particular needs.

Visit the program website (<https://religion.columbian.gwu.edu/islamic-studies-graduate-certificate/>) for additional information.

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
REL 6401	Islamic Historiographies	
REL 6402	Qur'an and Hadith	
REL 6441	Islamic Law	
REL 6460	Topics in the Study of Islam	
Electives		
Two additional courses chosen from an approved list in a variety of disciplines, most of which focus on Islam in the contemporary world		

MASTER OF ARTS IN THE FIELD OF ISLAMIC STUDIES

The Master of Arts in Islamic Studies, offered by the Department of Religion, focus on the study of Islam in its classical and contemporary formations, with an emphasis on developing competence in classical Islamic intellectual traditions. The cross-disciplinary program allows students to study with a variety of faculty members who are knowledgeable about the classical formulations of Islam, and have on-the-ground experience in Muslim-majority countries and communities. Centrally located in Washington, D.C., the program offers students the opportunity to interact with U.S. government agencies, think tanks, non-governmental institutions, and the large Muslim community residing and working in the metro area. The program also offers “non-traditional students” such as working professionals, civil servants, and employees of international agencies the opportunity to tailor the program to their particular needs.

A concentration in Shi'ism is available in the MA program. Please see the website for the Department of Religion for more information on the requirements for the concentration. The division between Sunnis and Shi'ites lies at the root of much of the strife in the Islamic world today. Our program uniquely features not only an education in Sunni Islam, but Shi'ite Islam as well. A comprehensive study must include both major branches of Islamic tradition for a full understanding of current issues in the world of Islam, and what its future holds.

Qualified applicants who intend to pursue the concentration in Shi'ism may be eligible for community supported fellowships. These fellowships are not sponsored, awarded, or managed by the university.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

36 credits, including 18 credits in required courses and 18 credits in pre-approved elective courses.

All students must complete at least four semesters of Arabic, which do not count toward the 36 credits required for the program. Alternatively, students may demonstrate competence in Arabic through examination. Depending on their focus of study, students may also be asked to take courses in other languages, which do not count toward the degree. In rare instances, students may substitute another language for Arabic, such as Persian, Turkish, or Urdu, if their research focuses on texts composed in one of these languages.

Code	Title	Credits
Islamic studies program		
Required core courses		
REL 6401	Islamic Historiographies	
REL 6402	Qur'an and Hadith	
REL 6441	Islamic Law	
REL 6460	Topics in the Study of Islam	
REL 6998	Thesis Research	
REL 6999	Thesis Research	
Electives		
Six additional courses (18 credits) selected from a pre-approved list in consultation with the graduate program advisor(s). Most of the selected courses should focus on Islam in the contemporary world.		
Code	Title	Credits
Concentration in Shi'ism		
In addition to the required core curriculum, students pursuing the concentration take the following:		
Required		
REL 6412	Shi'i Thought	
REL 6413	Philosophy and Mysticism in the Shi'i World	
REL 6420	Shi'i Political Thought	
REL 6442	Principles of Shi'i Jurisprudence	
Electives		

Two additional courses (6 credits) selected from a pre-approved list in consultation with the graduate program advisor(s). Selected courses should focus on Islam in the contemporary world.

MINOR IN RELIGION

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in elective courses, of which no more than 9 credits may be taken in any one of the major religious traditions listed below:

Code	Title	Credits
Buddhism		
REL 2601	Buddhism	
REL 3566	Dharma in Hinduism and Buddhism	
REL 3614	Buddhist Philosophy	
Christianity		
REL 2165	The Gospels	
REL 2169	Lost Gospels	
REL 2301	Christianity	
REL 3151	The Historical Jesus	
or REL 3151W	The Historical Jesus	
REL 3161	The Life and Thought of Paul	
or REL 3161W	The Life and Thought of Paul	
REL 3321	Christian Ethics and Modern Society	
REL 3341	Christianity in the Ancient World	
REL 3342	Medieval Faith and Symbolism	
REL 3343	Religion in the Renaissance and Reformation	
REL 3344	Christianity in the Modern World	
REL 3666	The Book of Revelation and Other Apocalypses	
Hinduism		
REL 2562	Mythologies of India

or CHIN 3841	Religion and Politics in China
REL 3881	Women, Gender, and Religion in China
or EALL 3881	Women, Gender, and Religion in China
or WSTU 3881	

REL 3901 is recommended.

ROMANCE, GERMAN, AND SLAVIC LANGUAGES AND LITERATURES

The Department of Romance, German, and Slavic Languages and Literatures offers undergraduate instruction in French, German, Italian, Portuguese, Russian, and Spanish. In general, Romance language courses are conducted entirely in the language concerned. The proficiency-based curriculum emphasizes skills in aural comprehension, speaking, reading, and writing. Culture, an essential dimension of language acquisition, is integrated from the start.

The undergraduate program is designed to strengthen a student's ability to communicate, reason, and understand the linguistic, social, cultural, and physical environments that inform the lives of the people who speak the target language. Course work fosters critical thinking, based in the linguistic, cultural, and historical roots of the locations where the language is spoken. The curriculum prepares students for careers in academia, business, diplomacy, government, medicine, and law, among other fields.

Classroom and laboratory study is supplemented by the diverse resources of Washington, DC, through field trips, foreign films, lectures, and cultural programs at embassies.

Visit the department's website (<http://rgsll.columbian.gwu.edu/>) for information concerning eligibility, requirements, and procedures for the wide variety of opportunities to study abroad (<https://studyabroad.gwu.edu/>).

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in French language, literature, and culture (p. 460)
- Bachelor of Arts with a major in German language and literature (p. 461)
- Bachelor of Arts with a major in Russian language and literature (p. 463)
- Bachelor of Arts with a major in Spanish and Latin American languages, literatures, and cultures (p. 464)

Minors

- Minor in French language, literature, and culture (p. 466)
- Minor in German language and literature (p. 467)
- Minor in Italian language and literature (p. 467)
- Minor in Russian language and literature (p. 467)
- Minor in Spanish and Latin American languages, literatures, and cultures (p. 468)

Combined program

- Dual Bachelor of Arts with a major in Spanish and Latin American languages, literatures, and cultures, and Master of

Education in Secondary Education, with a concentration in foreign language education (p. 657)

FACULTY

Professors M. Belenky, C. Britt, M. de la Fuente, P. Rollberg, R. Robin, S. Waisman, L.L. Westwater

Associate Professors Y. Captain-Hidalgo, M.R. Gonglewski, H. Bamford,, K. Kleppinger, D.B. Marshall, M.B. Stein

Assistant Professors A. Caras, M. Cuellar, P. Goul, S.K. Hurst, , A. LaBoda, G. Shatalina, A. Waberi, A. Martin (*Visiting*), V. Valdivia

Adjunct Faculty S. Erradi, B. Marguerre, B. Mazurkiewicz, L. Michael, E. Ovtcharenko, B. Schaefer

Instructors C. Adoyo, H. Anaye, A. Behzadi, M. Dieppa Perea, N. Erradi, J. Freedman, C. Goldenberg, N. Khavari, A. Jurado, A.J. Kratz, T. Leyva, A. Longoni, M. Marinose, R. McPeak, Z. Mirsharif, P. Montilla Keeling, S. Norlan, E. Parker, A. Pechnikova, D.G. Perillan, A. Pichs, E. Piera Rosa, P. Rappoport, M. Rodman, R. Rogan, F. Santoro, E. Sieg Barthold, M. Sitzler-Sawicki, A. Suarez-Touzon, J. Vidal Gandia, S. Vistamehr, P. Warfield

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Placement examinations: A student who has not been granted advanced standing and who wishes to continue in college the language begun in high school must take a placement examination (<http://departments.columbian.gwu.edu/rgsll/>) before registration. Upon completion of the examination, assignment is made to the appropriate course.

Note: In general, Romance language courses are conducted entirely in the language concerned. Oral comprehension, speaking, reading, and writing are the basis of all courses through FREN 2006 Language, Culture, and Society II/ITAL 2006 Language, Culture, and Society II/PORT 2006 Applied Portuguese Grammar/SPAN 2006 Advanced Spanish II, with culture integrated from the start as an essential dimension of language acquisition.

- French (FREN) (p. 1602)
- Germanic Language and Literature (GER) (p. 1611)
- Italian (ITAL) (p. 1669)
- Portuguese (PORT) (p. 1749)
- Slavic Language and Literature (SLAV) (p. 1819)
- Spanish (SPAN) (p. 1826)

BACHELOR OF ARTS WITH A MAJOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite courses		
FREN 1001	Basic French I	
FREN 1002	Basic French II	
FREN 1003	Intermediate French I	
FREN 1004	Intermediate French II	
FREN 2005	Language, Culture, and Society I	
Code	Title	Credits
Required for the major		
30 credits including:		
FREN 3100	Introduction to French Literature	
FREN 4910	Proseminar: Readings for the Major	
FREN 4920W	Proseminar II	
Seven additional upper-level courses numbered 2006 and above. Four of these courses must be in French literature and culture. Two must be FREN courses in the 4000 range. With approval of the major advisor, two may be in a related field.		
FREN 2500	Cultural Politics of Food in France	
FREN 3010W	Advanced French Language, Structure, and Composition	
FREN 3020	Contemporary France	
FREN 3100W	Introduction to French Literature	

FREN 3210	Medieval and Early Modern French Literature in Context
FREN 3220	Modern French Literature
FREN 3290	Textual Analysis
FREN 3300	Topics in French and Francophone Literatures and Cultures in Translation

FREN 4135	Folger Seminar
FREN 4470	Writing Women
FREN 4500	Studies in Medieval French Literature
FREN 4510	French Literature of the Renaissance
FREN 4540	Nineteenth-Century French Literature and Culture
FREN 4600	Special Topics in French Literature
FREN 4700	Race Matters: Literature, Culture, and Identity in Contemporary France

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the

CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in French language, literature, and culture, candidates must have attained a 3.75 GPA in the major and at

least a 3.0 average overall. Qualified students may be invited to write an honors thesis by their major advisor and proseminar professor by the beginning of the fall semester of the senior year.

BACHELOR OF ARTS WITH A MAJOR IN GERMAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisites		
One of the following options:		
Option A:		
GER 1005 & GER 1006	Intensive Beginning German I and Intensive Beginning German II	
Option B:		
GER 1001 & GER 1002	First-Year German I and First-Year German II	
GER 1003 & GER 1004	Second-Year German I and Second-Year German II	
Code	Title	Credits
Required		
GER 2009 & GER 2100	Intermediate German I and Intermediate German II	
GER 2109 & GER 2110	Advanced Conversation and Composition and Germany in the Age of Globalization	
Two courses from the following:		
GER 2091 & GER 2092	Introduction to German Literature—in English I and Introduction to German Literature—in English II	
GER 2161 & GER 2162	German Culture—in English I and German Culture—in English II	
Electives		

Two courses from the following:

GER 2111	Business German
GER 2161 & GER 2162	German Culture-in English I and German Culture-in English II (if not taken above)
GER 2165	Twentieth-Century German Literature-in English
GER 3181	History of German Cinema-in English

- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, candidates must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (GER 4197 Senior Honors Thesis I–GER 4198 Senior Honors Thesis II).

BACHELOR OF ARTS WITH A MAJOR IN RUSSIAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum:

Code	Title	Credits
Prerequisite		
All courses in one of the following options:		
Option A:		
SLAV 1012	Intensive Basic Russian I	
SLAV 1034	Intensive Basic Russian II	
Option B:		
SLAV 1001	First-Year Russian I	
SLAV 1002	First-Year Russian II	
SLAV 1003	Second-Year Russian I	
SLAV 1004	Second-Year Russian II	
Code	Title	Credits
Required in the major		
SLAV 1391	Introduction to Russian Literature I	
SLAV 1392	Introduction to Russian Literature II	
SLAV 2005	Intermediate Russian I	
SLAV 2006	Intermediate Russian II	

SLAV 2007	Russia Today: Topics in Advanced Russian I
SLAV 2008	Russia Today: Topics in Advanced Russian II
SLAV 2361	Russian Culture
SLAV 2362	Russian Culture
Two of the following:	
SLAV 2471	Nineteenth-Century Russian Prose
SLAV 2472	Nineteenth-Century Russian Poetry
SLAV 2473	20th-Century Russian Prose
SLAV 2474	Twentieth-Century Russian Poetry
Two of the following:	
SLAV 2365	Twentieth-Century Russian Literature to World War II
SLAV 2366	Russian Literature from World War II to the Present
SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II
SLAV 4595W	Special Topics

Proficiency requirements for the Russian major

After completing SLAV 2006, students should consult their advisor to choose one of the following proficiency tracks:

1. Emphasis on proficiency in speaking—students choosing this track must attain speaking proficiency at the intermediate high level, as measured by the ACTFL Oral Proficiency Interview. A semester of intensive language study in Russia on an approved program is required unless waived by the department.
2. Emphasis on proficiency in reading—students choosing this track must attain reading proficiency at the advanced level on the ACTFL scale, as measured by a departmental examination. Students should consult their advisor and use the Russian reading resource site (<https://sites.google.com/site/russianesia/>).

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that

enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, a candidate must have attained a 3.5 grade-point average in the major and at least a 3.0 average overall. Students must apply for honors candidacy by the end of the first semester of the junior year; must attain speaking proficiency at the advanced level, as measured by the ACTFL (American Council on the Teaching of Foreign Languages) Oral Proficiency Interview; and must successfully complete an honors thesis (SLAV 4597 Senior Honors Thesis I–SLAV 4598 Senior Honors Thesis II).

BACHELOR OF ARTS WITH A MAJOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

The major-specific curriculum.

Code	Title	Credits
Required		
SPAN 1095	The Spanish-Speaking World: Spain, Latin America, and the United States	
SPAN 2006	Advanced Spanish II	
or SPAN 2026	Advanced Spanish for Heritage Learners	
or SPAN 2056	Intensive Advanced Spanish	
or SPAN 2156	Intensive Advanced Spanish for Heritage Learners	
SPAN 3100W	Texts and Contexts of the Spanish-Speaking World	
SPAN 4910W	Senior Seminar (required of all Spanish majors in the fall semester of the senior year)	
Two courses (6 credits) from the following:		
SPAN 3500	Medieval Iberia in the Modern World	
SPAN 3510	Heresy and the Other in Early Modern Iberia	
SPAN 3520	Decolonizing the Empire: Colonial Latin America	

SPAN 3530	Enlightenment Spain
SPAN 3600	Special Topics
SPAN 4510	Cervantes Don Quixote
Four courses (12 credits) from the following. Two of these courses may be substituted with courses from outside the program, with the approval of the Spanish major advisor.	
SPAN 3200	Bilingualism in the Spanish-Speaking World
SPAN 3400	Theatre of Spain and Latin America

SPAN 4560	Modern Poetry of Spain and Latin America
SPAN 4600	Special Topics
SPAN 4650	Literary Translation
SPAN 4700	Film as Text in Latin America
SPAN 4800	Independent Study

Excluding courses taught at GW Study Centers abroad, no more than four courses taken abroad or at another institution may count toward the major.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in

addition to the one course in this category required by the University General Education Requirement.

- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors in Spanish and Latin American languages, literatures, and cultures, candidates must have attained a 3.75 GPA in the major and at least a 3.0 average overall. Qualified students may be invited to write an honors thesis by the Director of the Spanish and Latin American Literatures and Cultures program by the end of the spring semester of their junior year. Students writing an honors thesis complete thesis research in the fall of the senior year and thesis writing in the spring of the senior year.

MINOR IN FRENCH LANGUAGE, LITERATURE, AND CULTURE

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, as follows:

Code	Title	Credits
Prerequisites		
FREN 1001	Basic French I	
FREN 1002	Basic French II	
FREN 1003	Intermediate French I	
FREN 1004	Intermediate French II (AP credit may be substituted)	
Minor curriculum		
Required		
FREN 3100W	Introduction to French Literature	
One course from the following:		
FREN 3210	Medieval and Early Modern French Literature in Context	

FREN 3520	The Age of Classicism
FREN 3530	The Age of Enlightenment

GER 2101	Readings in Contemporary German I
GER 2102	Readings in Contemporary German II

MINOR IN ITALIAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
Required		
ITAL 2005	Language, Culture, and Society I *	
ITAL 2006	Language, Culture, and Society II *	
If a student places out of ITAL 2005 and/or ITAL 2006, they must take the equivalent number of credits in elective courses.		
Electives		
A minimum of 12 credits in ITAL courses at the 3000 level or above. At least 6 of these credits must be taken in courses taught in Italian. See course descriptions in this Bulletin.		

MINOR IN RUSSIAN LANGUAGE AND LITERATURE

REQUIREMENTS

The following requirements must be fulfilled: 38 credits in required courses.

Code	Title	Credits
Required courses:		
One of the following options:		
Option A:		
SLAV 1001	First-Year Russian I	
SLAV 1002	First-Year Russian II	
SLAV 1003	Second-Year Russian I	
SLAV 1004	Second-Year Russian II	
Option B		

SLAV 1012	Intensive Basic Russian I
SLAV 1034	Intensive Basic Russian II
And also:	
SLAV 2005 & SLAV 2006	Intermediate Russian I and Intermediate Russian I
And four courses from the following:	
SLAV 1391	Introduction to Russian Literature I
SLAV 1392	Introduction to Russian Literature II
SLAV 2361	Russian Culture
SLAV 2362	Russian Culture
SLAV 2365	Twentieth-Century Russian Literature to World War II
SLAV 2366	Russian Literature from World War II to the Present
SLAV 2471	Nineteenth-Century Russian Prose
SLAV 2472	Nineteenth-Century Russian Poetry
SLAV 2473	20th-Century Russian Prose
SLAV 2474	Twentieth-Century Russian Poetry
SLAV 2785	Introduction to Russian Cinema I
SLAV 2786	Introduction to Russian Cinema II

MINOR IN SPANISH AND LATIN AMERICAN LANGUAGES, LITERATURES, AND CULTURES

REQUIREMENTS

The following requirements must be fulfilled: 18 credits in courses for the minor and satisfactory completion of the prerequisite introductory language sequence.

Code	Title	Credits
Required		
SPAN 2006	Advanced Spanish II *	
or SPAN 2026	Advanced Spanish for Heritage Learners	
or SPAN 2056	Intensive Advanced Spanish	
or SPAN 2156	Intensive Advanced Spanish for Heritage Learners	

SPAN 3100	Texts and Contexts of the Spanish-Speaking World
or SPAN 3100W	Texts and Contexts of the Spanish-Speaking World

12 credits in any Spanish (SPAN) courses at the 3000 level or above. At least 3 of these credits must be in literary studies. Literary studies courses include:

SPAN 3400	Theatre of Spain and Latin America
SPAN 3410	Latin American Short Fiction
SPAN 3420	The Essay in Spain and Latin America
SPAN 3440	Caribbean Literature and Culture
SPAN 3500	Medieval Iberia in the Modern World
SPAN 3510	Heresy and the Other in Early Modern Iberia
SPAN 3520	Decolonizing the Empire: Colonial Latin America
SPAN 3530	Enlightenment Spain
SPAN 3540	Major Authors of Spain and Latin America
SPAN 3550	Queer Latin America
SPAN 3570	Women Writers of Spain and Latin America
SPAN 3600	Special Topics
SPAN 3650	Literature and Dictatorship
SPAN 3700	Cinema of Spain and Latin America
SPAN 4410	Contemporary Narrative in Latin America
SPAN 4450	Mexican Literature and Culture
SPAN 4460	Southern Cone Literature and Culture
SPAN 4480	Studies in Latinx Cultural Production
SPAN 4510	Cervantes Don Quixote
SPAN 4520	Experimental Literature
SPAN 4540	The Myth of the Two Spains
SPAN 4550	1898 to 1998: Spain's First Century without Empire
SPAN 4560	Modern Poetry of Spain and Latin America

SPAN 4650	Literary Translation
SPAN 4700	Film as Text in Latin America

*Only 3 of the 6 credits earned in SPAN 2056 are applied to this requirement.

Note: No more than three courses taken abroad may count toward the minor, excluding GW Study Centers in Chile and Spain.

SOCIOLOGY

One of the social and behavioral sciences disciplines in the Columbian College of Arts and Sciences, the sociology program offers undergraduate and graduate degree programs and a range of courses, from deviant behavior to sociology of sport. It is designed to strengthen a student's knowledge about human social structure and activity. By living in a city that offers a rich social laboratory, students gain real-life experience conducting quantitative and qualitative research and developing skills in sociological observation and analysis.

Visit the Department of Sociology website (<http://sociology.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's programs

- Bachelor of Arts with a major in sociology (p. 472)
- Bachelor of Arts with a major in criminal justice (p. 469)
- Bachelor of Arts with a major in human services and social justice (p. 471)
- Combined programs (p. 473)

Minors

- Minor in sociology (p. 476)
- Minor in criminal justice (p. 475)
- Minor in law and society (p. 476)
- Minor in human services and social justice (p. 475)

GRADUATE

Master's programs

- Master of Arts in the field of sociology (p. 474)
- Master of Arts in the field of criminology (p. 473)

FACULTY

University Professor A. Etzioni

Professors R.J. Cottrol, X. Mangcu, H. Silver, G.D. Squires, S.A. Tuch, R. Weitzer

Associate Professors D.S. Eglitis, H. Ishizawa (*Chair*), A. Jones, I. Ken

Assistant Professors F. Buntman, M. Kelso, E. Morrison

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office
- Human Services and Social (HSSJ) (p. 1650))
- Sociology (SOC) (p. 1821)

BACHELOR OF ARTS WITH A MAJOR IN CRIMINAL JUSTICE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below).

Achievement of a minimum grade of C- in any course that counts toward the degree.

Code	Title	Credits
------	-------	---------

Prerequisites

SOC 1001	Introduction to Sociology
or SOC 1002	The Sociological Imagination
SOC 1003	Introduction to Criminal Justice

Code	Title	Credits
------	-------	---------

Required

SOC 2101	Social Research Methods (recommended to be taken before the senior year)
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)
SOC 2135	Youth and Delinquency
SOC 2136	Criminology

SOC 2145	Criminal Law
SOC 4192	Advanced Seminar in Criminal Justice
SOC 4193	Internship in Criminal Justice

Electives

Five of the following courses, including at least one Sociology (SOC) course and at least one non-Sociology course:

ANTH 3513	Anthropology of Human Rights
ECON 2167	Economics of Crime
FORS 2104	Introduction to Forensic Sciences II
FORS 2151	Crime Scene Investigation
HIST 2341	History of FBI Counterintelligence
HIST 3370	U.S. Constitutional History
PSC 2213	Judicial Politics
PSC 2215	U.S. Constitutional Law and Politics II
PSYC 2011	Abnormal Psychology
PSYC 2554	Psychology of Crime and Violence
SOC 2137	Transnational Crime
SOC 2139	Alternatives to Imprisonment

SOC 2164	Sociology of the Holocaust and Genocide
SOC 2167	Sociology of Law
SOC 2177	Sociology of the Sex Industry
SOC 2178	Deviance and Control
SOC 2184	Violence and the Family
SOC 2189	Special Topics in Criminal Justice

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that

enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered for 3 credits of SOC 3195 Research during the senior year, and must receive a grade of A on the research paper.

BACHELOR OF ARTS WITH A MAJOR IN HUMAN SERVICES AND SOCIAL JUSTICE

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below).

Achievement of a minimum grade of C- in all courses that count toward the degree.

Code	Title	Credits
Prerequisites		
HSSJ 1100	Introduction to Human Services and Social Justice	3
SOC 1001	Introduction to Sociology	3
or SOC 1002	The Sociological Imagination	
Code	Title	Credits
Required		
HSSJ 1177	Organizing for Social Justice in Human Services	
HSSJ 2170	Interpersonal Relationships in Human Services	
HSSJ 2171	Human Interactions: Child and Adolescent Development	
HSSJ 2172	Human Interactions: Adult Development	
HSSJ 2200	Principles of Ethical Leadership	
HSSJ 3100W	Program Planning and Evaluation	
HSSJ 3110W	Nonprofit and Organizational Management	

HSSJ 3152 & HSSJ 3153	Fact/Field/Fiction: Intersections in HSSJ and Internship in Human Services and Social Justice*
HSSJ 4195	Capstone Seminar in Human Services and Social Justice
SOC 2101	Social Research Methods
*HSSJ 3152 and HSSJ 3153 must be taken concurrently.	
Electives	
Two courses (6 credits) selected from the following:	
HSSJ 2160	Role of NGOs in International Humanitarian Assistance
SOC 2104	Contemporary Sociological Theory
SOC 2105	Social Problems in American Society
SOC 2163	Sociology of Education
SOC 2170	Class and Inequality in American Society
SOC 2173	Social Movements
SOC 2175	Sociology of Sex and Gender
SOC 2179	Race and Minority Relations

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.

- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered in HSSJ 4193 Research and Independent Study during the senior year (fall and spring), and must receive an A grade on the research paper.

BACHELOR OF ARTS WITH A MAJOR IN SOCIOLOGY

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum (below)

Achievement of a minimum grade of C- in all courses that count toward the degree.

Code	Title	Credits
------	-------	---------

Prerequisites

SOC 1001	Introduction to Sociology	
or SOC 1002	The Sociological Imagination	

Code	Title	Credits
------	-------	---------

Required

SOC 2101	Social Research Methods (recommended to be taken before the senior year)	
SOC 2102	Techniques of Data Analysis (recommended to be taken before the senior year)	
SOC 2103	Classical Sociological Theory	
SOC 2104	Contemporary Sociological Theory	
SOC 4195	Senior Research Seminar	

Electives

Seven additional upper-division Sociology (SOC) courses, including at least two courses in the 2160s or 2170s.

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations (<http://bulletin.gwu.edu/university-regulations/>), in order to be considered for graduation with Special Honors, students must maintain a 3.5 grade-point average in the major, must be registered in SOC 4195 Senior Research

Seminar during the senior year, and must receive an A grade on the research paper.

COMBINED PROGRAMS, SOCIOLOGY

REQUIREMENTS

The Department of Sociology offers four programs leading to combined bachelor's and master's degrees. The programs allow students to take a specified number of graduate credits as part of their undergraduate degree, thereby decreasing the number of credits normally required for the master's degree.

- Bachelor of Arts and Master of Arts in Sociology
- Bachelor of Arts and Master of Arts in Criminal Justice/Criminology
- Bachelor of Arts in Criminal Justice and Master of Public Administration
- Bachelor of Arts in Human Services and Social Justice and Master of Arts in Public Administration

Interested students should contact their advisor. Visit the Department of Sociology website (<http://sociology.columbian.gwu.edu/combined-degree-bama-programs/>) for application deadlines and other program information.

MASTER OF ARTS IN THE FIELD OF CRIMINOLOGY

One of the social and behavioral sciences disciplines in the Columbian College of Arts and Sciences, the program looks at the historical development of criminal justice, its evolution into modern legal systems and ongoing problems and reforms in policing, the courts and corrections. Students develop an understanding of the causes of criminal behavior and the social conditions that contribute to crime, and they analyze how the criminal justice system operates.

Students who complete the program and receive an MA degree may continue to pursue training in a PhD program. Or they may secure a position in a research organization, government agency or related jobs in the criminal justice field.

The MA in criminology is a joint program between GW's sociology and forensic sciences departments. The program combines training in traditional criminology, criminal justice and forensic sciences. Requirements include courses in research methods, statistics, criminology, criminal law and forensic sciences.

REQUIREMENTS

This program is a joint offering of the Department of Sociology and the Department of Forensic Sciences.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The following requirements must be fulfilled: Non-thesis option—36 credits, including 21 credits in required courses and 15 credits in elective courses; thesis option—36 credits, including 27 credits in required courses and 9 credits in elective courses.

Code	Title	Credits
Required		
SOC 6230	Sociological Research Methods	
SOC 6231	Data Analysis	
SOC 6232	Qualitative Methodology: Doing Field Research	
or SOC 6240	Field Research in Organizational Settings	
SOC 6238	Development of Sociological Theory	
or SOC 6239	Contemporary Sociological Theory	
SOC 6257	Criminal Law for Forensic Scientists	
SOC 6258	Deviance and Control	
SOC 6259	Criminology	
Electives		
Five elective courses in criminology, of which at least two are in forensic sciences and at least one is selected from the following:		
SOC 6260	Special Topics in Criminology	
SOC 6261	Sociology of Law	
SOC 6262	Corrections	
SOC 6263	Race and Crime	
SOC 6264	Organized Crime	
SOC 6266	Gender and Criminal Justice	
SOC 6273	The Sex Industry	
Thesis option		
Students choosing the thesis option substitute the following for two elective courses:		
SOC 6998	Thesis Research	
SOC 6999	Thesis Research	

MASTER OF ARTS IN THE FIELD OF SOCIOLOGY

Part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the sociology graduate program provides students with a solid grounding in sociological theory and research methods. Students gain hands-on experience conducting quantitative and qualitative research and develop skills in data collection and analysis.

The MA program offers comprehensive coverage of the core areas of sociological theory and social research methods, along with a range of disciplinary substantive areas. Examples of courses include research methods, data analysis, qualitative methodology, field research in organizational settings, development of sociological theory and modern sociological theory. To graduate, all students must complete 30 credit hours and write a publishable thesis. Students are required to identify major and minor concentrations, selecting from the department's three core areas: social stratification, criminology and urban sociology.

Training provided by experienced faculty members prepares students for further graduate work or immediate employment in social research positions, government agencies and related jobs. After completing the master's program, students may enroll in a doctoral program in sociology. The Department of Sociology also offers a Master of Arts in criminology with the Forensics Sciences department, and a PhD in race, ethnicity and public policy through the Trachtenberg School of Public Policy & Public Administration. The department awards teaching assistantships on a competitive basis for students pursuing an MA in sociology.

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 86).

36 credits, including 15 credits in required courses, 9 credits in primary and secondary field courses, six credits in elective courses, and 6 credits of thesis.

Code	Title	Credits
Required		
SOC 6230	Sociological Research Methods	
SOC 6231	Data Analysis	
SOC 6232	Qualitative Methodology: Doing Field Research	
or SOC 6240	Field Research in Organizational Settings	
SOC 6238	Development of Sociological Theory	

SOC 6239	Contemporary Sociological Theory
Primary and secondary fields	
Students take two courses in a primary field of specialization and one course in a secondary field of specialization. Fields of specialization are criminology, social inequality, and urban sociology. With the consent of an advisor, one graduate course in a related department or program can be used for either one of the primary required courses or for the the secondary required course.	
Electives	
Any two other Sociology (SOC) courses at the 6000 level or above..	
SOC 6295 may be taken once (3 credits) toward degree requirements	
Thesis	
Six credits of the following taken in the final two semesters:	
SOC 6998	Thesis Research
SOC 6999	Thesis Research

MINOR IN CRIMINAL JUSTICE REQUIREMENTS

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
Required		
SOC 1001 or SOC 1002	Introduction to Sociology The Sociological Imagination	
SOC 1003	Introduction to Criminal Justice	
SOC 2136	Criminology	
SOC 2145	Criminal Law	
Electives		
Two of the following courses (6 credits), at least one of which must be a Sociology (SOC) course.		
ANTH 3513	Anthropology of Human Rights	
FORS 2104	Introduction to Forensic Sciences II	

HIST 2341	History of FBI Counterintelligence
PSC 2213	Judicial Politics
PSC 2215	U.S. Constitutional Law and Politics II
PSYC 2011	Abnormal Psychology
PSYC 2554	Psychology of Crime and Violence
SOC 2135	Youth and Delinquency
SOC 2137	Transnational Crime
SOC 2139	Alternatives to Imprisonment
SOC 2146	The Bill of Rights and Criminal Justice
SOC 2164	Sociology of the Holocaust and Genocide
SOC 2167	Sociology of Law
SOC 2177	Sociology of the Sex Industry
SOC 2178	Deviance and Control
SOC 2184	Violence and the Family
SOC 2189	Special Topics in Criminal Justice

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

Visit the program website (<https://sociology.columbian.gwu.edu/ba-criminal-justice/>) for additional information.

MINOR IN HUMAN SERVICES AND SOCIAL JUSTICE REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 9 credits in required courses and 9 credits in elective courses.

Achievement of a minimum grade of C- in any course that counts toward the degree.

Code	Title	Credits
Required		
HSSJ 1100	Introduction to Human Services and Social Justice	
HSSJ 3152	Fact/Field/Fiction: Intersections in HSSJ *	

HSSJ 3153	Internship in Human Services and Social Justice*
-----------	--

Electives

Three elective HSSJ courses (at least 9 credits total), with no more than one course taken at the 1000 level, selected in consultation with the program director.

*HSSJ 3152 and HSSJ 3153 must be taken together in the same semester during which all coursework for the minor will be completed.

MINOR IN LAW AND SOCIETY REQUIREMENTS

Admission to this minor requires a minimum 3.3 GPA based on at least 30 credits of coursework at GW.

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

18 credits, including 6 credits in required courses and 12 credits in elective courses.*

Code	Title	Credits
------	-------	---------

Required

SOC 2167	Sociology of Law
----------	------------------

UW 2031	Equality and the Law
---------	----------------------

or UW 2031W	Equality and the Law
-------------	----------------------

One of the following:

AMST 1160	Race, Gender, and Law
-----------	-----------------------

PHIL 3142	Philosophy of Law
-----------	-------------------

PSC 2214	U.S. Constitutional Law and Politics I
----------	--

PSC 2215	U.S. Constitutional Law and Politics II
----------	---

Three courses (9 credits), which may include any of the three remaining courses listed immediately above and/or the courses listed below.

BADM 4101	Business Ethics and the Legal Environment
-----------	---

ECON 3190	Law and Economics
-----------	-------------------

HIST 3370	U.S. Constitutional History
-----------	-----------------------------

MAE 3171	Patent Law for Engineers
----------	--------------------------

PSC 2213	Judicial Politics
----------	-------------------

PSC 2444	Public International Law
----------	--------------------------

PUBH 3136	Health Law
-----------	------------

SMPA 2173	Media Law
-----------	-----------

SOC 2145	Criminal Law
----------	--------------

SOC 2146	The Bill of Rights and Criminal Justice
----------	---

SOC 2988	Internship in Law and Society
----------	-------------------------------

WGSS 3470/3170	Sexuality and the Law
----------------	-----------------------

A student may take a maximum of two courses from any one department (except for SOC 2988). No more than two courses may be counted both for this minor and any other major or minor.

*Correction: The total number of credits required for the program is 18, not 19 as was stated due to a typographical error. Updated 11/24/20.

MINOR IN SOCIOLOGY REQUIREMENTS

The following requirements must be fulfilled:

Achievement of a minimum grade of C- in any course that counts toward the minor.

18 credits, including 6 credits in required courses and 12 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required

SOC 1001	Introduction to Sociology
----------	---------------------------

or SOC 1002	The Sociological Imagination
-------------	------------------------------

SOC 2103	Classical Sociological Theory
----------	-------------------------------

or SOC 2104	Contemporary Sociological Theory
-------------	----------------------------------

Electives

Four courses (12 credits) at the 2000 level or above; these may not include SOC 4192 or SOC 4195.

Note: A student majoring in sociology may not declare a second major or a minor in criminal justice, or vice versa.

SPEECH, LANGUAGE, AND HEARING SCIENCES

Whether learning about communication sciences, the relationship between language and society, or preparing to

become a speech-language pathologist, students studying in the Department of Speech, Language, and Hearing Sciences at GW receive in-depth knowledge of all aspects of communication and its disorders. As part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program provides deep knowledge of language and communication, including the consequences of speech and hearing challenges to individuals and society, and the treatment of communication delays and disorders.

Visit the Department of Speech, Language, and Hearing Sciences website (<https://speechhearing.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Arts with a major in speech, language, and hearing sciences (p. 481)

Minor

- Minor in speech, language, and hearing sciences (p. 485)
- Minor in linguistics (p. 68) (interdisciplinary)

GRADUATE

Master's program

- Master of Arts in the field of speech-language pathology (p. 484) (For students with an undergraduate degree in speech-language pathology.)

Post-baccalaureate program

- Speech-language pathology post-baccalaureate (p. 486) (For students with an undergraduate degree in a field other than speech-language pathology.)

DOCTORAL

Doctoral program

- Doctor of Philosophy in the field of speech, language, and hearing science (p. 483)

FACULTY

Professors L. Bernstein, S. Brundage (*Chair*), J. Mahshie, G.M.Schulz

Associate Professors C. Core, A.B. Hancock, F. Subiaul, M. Thoathathiri, G. Wallace

Assistant Professors S. Campbell (*Teaching*), M. Fama, W. Krok, M.E. O'Donnell (*Teaching*)

Adjunct Professors L. Barrett, A. Clare, M. Dorn, L. Edwards-Gaither, S. Kothari, J. Kumar, K. Lim, S. Martin, V. Sisskin

Professional Lecturers M. Bamdad

Clinical Instructors L. Barrett, E.A. Cardman, A. Clare, G. Greenman, N. Jordan, J. Kumar, K. Lim, J. McHugh, L. Siegfriedt, D. Smiley,

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPHR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

SPHR 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance. Laboratory fee.

SPHR 1071. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1071W. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SPHR 1072. Multicultural Issues in Human Communication. 3 Credits.

The influences of culture and bilingualism on language development and use, and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

SPHR 1081. American Sign Language I. 3 Credits.

Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills.

SPHR 1082. American Sign Language II. 3 Credits.

Continuation of SPHR 1081. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1081.

SPHR 1084. Perspectives in Deaf Culture. 3 Credits.

Introduction to the Deaf community as a linguistic and cultural minority group. The roles of deaf people in the larger society, including political activism. Generational differences concerning education, socioeconomic status, medical issues, and language.

SPHR 1099. Variable Topics. 1-36 Credits.**SPHR 2083. American Sign Language III. 3 Credits.**

Continuation of SPHR 1082. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1082.

SPHR 2101. Research Methods. 3 Credits.

Introduction to fundamental research principles (e.g., hypothesis testing, sampling, validity and reliability), designs (e.g., experiments, case studies), and methods (e.g., behavioral observations, acoustic and physiologic measurements, neuro-imaging) used in the study of speech, language, and hearing. Prerequisites: SPHR 1071.

SPHR 2102. Neural Substrates-SpHr & Lang. 3 Credits.**SPHR 2104. Speech and Language Disorders. 3 Credits.**

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2104W. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement.

SPHR 2105. Anatomy and Physiology for Speech and Hearing. 3 Credits.

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; cranial nerves.

SPHR 2106. Neural Substrates of Speech, Language, and Hearing. 3 Credits.

Neuroanatomy and neurophysiology for speech, language and hearing. Anatomy of the auditory and vestibular systems; physiology of hearing.

SPHR 2107. Acoustics. 3 Credits.

This course focuses on speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. Recommended background: Prior or concurrent registration in SPHR 2105 and SPHR 2136. Credit cannot be earned for this course and SLHS 2107.

SPHR 2108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. SPHR 2106 may be taken as a corequisite. Laboratory fee. Prerequisites: SPHR 2106 and SPHR 2107.

SPHR 2117. Hearing and Perception. 3 Credits.

Consideration of the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Topics in speech perception that build upon psychoacoustics and speech acoustics. Prerequisite: SPHR 2108.

SPHR 2130. Phonetics and Phonological Development. 3 Credits.

Detailed study of English phonetics and phonology; prespeech vocalization and phonological development; multicultural issues in phonological development; intensive practice in phonetic transcription. SPHR 2105 may be taken as a corequisite. Laboratory fee. Prerequisite: SPHR 2105.

SPHR 2131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisite: SPHR 2135.

SPHR 2132. Literacy. 3 Credits.

An overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Prerequisites: SPHR 1071 or SPHR 1071W.

SPHR 2133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SPHR 2135. Language: Structure, Meaning, and Use. 3 Credits.

A survey of basic linguistic terminology and the components of language structures. Major topics include language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics). Credit cannot be earned for this course and LING 3603.

SPHR 3099. Variable Topics. 1-12 Credits.

SPHR 3109. Auditory Learning/Aural Rehabilitation. 3 Credits.

Introduction to theories and procedures used to provide aural and audiological (re)habilitation to children and adults who have hearing loss and to provide concomitant services to their family members; assessment and prosthetic management of children and adults with hearing loss; effects of hearing loss on conversational fluency and everyday speech communication; and means for developing aural rehabilitation plans and assessing their effectiveness. Corequisite: SPHR 2108. Prerequisite: none. Recommended background: major in speech, language and hearing sciences.

SPHR 3116. Brain and Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. SPHR 2106 may be taken as a corequisite. Prerequisite: SPHR 2106.

SPHR 3199. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

SPHR 4118. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Laboratory fee. Prerequisite: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4118W. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4119. Principles and Methods in Speech-Language Pathology. 3 Credits.

Survey of evaluation and treatment of communication disorders across the lifespan, including: ethics, test administration, interpretation, intervention procedures, and clinical writing. Emphasis on clinical scenarios and practice. Restricted to seniors majoring in speech, language and hearing sciences. Laboratory fee. Restricted to seniors majoring in speech, language and hearing sciences.

SPHR 4120. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

SPHR 4120W. Senior Research Seminar in Speech, Language, and Hearing Sciences. 3 Credits.

Introduction to the speech, language, and hearing sciences (SLHS) research literature and how to critically evaluate it; the process of scientific writing and analysis; the creation of presentations for different audiences on research-based topics; and how SLHS research can be applied in a variety of research and clinical domains. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Restricted to seniors in the speech, language, and hearing sciences program, neuroscience of language and communication and language across cultures and the life span concentrations. Prerequisites: SPHR 1071 or SPHR 1071W, SPHR 2101, and SPHR 2104 or SPHR 2104W.

SPHR 4196. Independent Study. 1-6 Credits.

Independent research and special projects. Before students are permitted to register for SPHR 4196, they must submit a written proposal of the plan of study and obtain approval of the staff member who directs the study and of the department chair.

SPHR 4201. Early Social and Cognitive Development. 3 Credits.

Infants' understanding of social concepts and how these concepts influence the development of memory, attention, and executive functions; children's ability to imitate across different domains and how children's social concepts and social learning abilities underlie language and culture. Prerequisites: SPHR 1071 or SPHR 1071W.

SPHR 4221. Language and Communication in Aging. 2 Credits.

Communication and swallowing abilities in older adults; distinguishing the normal changes of aging from pathological symptoms to better assess older patients' capabilities and provide more effective intervention.

SPHR 5099. Variable Topics. 1-99 Credits.

SPHR 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated for up to 6 credits.

SPHR 6202. Clinical Practicum in Audiology. 1-6 Credits.

Supervised clinical practice in behavioral and electrophysiologic assessment of hearing, hearing aid assessment and fitting, and aural rehabilitation; counseling clients and families; writing evaluation and progress reports. Permission of the instructor required prior to enrollment. May be repeated, but may not be taken for more than 6 credits.

SPHR 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.

SPHR 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions.

SPHR 6210. Research in Communication Sciences and Disorders. 1,3 Credit.

Fundamental issues and methods in clinical research; group and single-subject experimental designs; application of clinical research methodology and findings to assessment and treatment. Non-thesis students register for 3 credits; thesis students register for 1 credit concurrent with SPHR 6211. Restricted to graduate students in the speech and hearing science program.

SPHR 6211. Preparing the Thesis Prospectus. 2 Credits.

For first-year graduate students. Introduction to the fundamentals of quantitative research design and procedures in the speech and hearing sciences. Critical evaluation of research in speech and hearing sciences; scientific writing skills; the process and expectations for conducting thesis research. Students register for SPHR 6210 for 1 credit. Restricted to speech and hearing sciences master's thesis students.

SPHR 6220. Disorders of Articulation and Phonology. 3 Credits.

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Laboratory fee.

SPHR 6221. Neurodevelopmental Disorders of Speech Production. 2 Credits.

Evaluation and treatment of infants and children with neurodevelopmental speech disorders, including cerebral palsy. Emphasis on management of prespeech oral motor and feeding impairments. Laboratory fee.

SPHR 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Laboratory fee.

SPHR 6230. Pediatric Language and Speech Disorders I. 3 Credits.

Survey of current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Review of standardized, observational, and ethnographic approaches used in language assessment; current models of intervention and service delivery. Laboratory fee.

SPHR 6231. Pediatric Language and Speech Disorders II. 3 Credits.

SPHR 6240. Neurogenic Communication Disorders. 3 Credits.

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasias acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Laboratory fee.

SPHR 6241. Applied Neuroanatomy. 3 Credits.

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Laboratory fee.

SPHR 6250. Eval/Treatment-Speech Disorder. 3 Credits.

SPHR 6251. Seminar: Speech Fluency Disorders. 3 Credits.

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial points of view. Investigation of evidence-based approaches to assessment and treatment.

SPHR 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Laboratory fee.

SPHR 6261. Seminar: Voice Disorders. 2 Credits.

SPHR 6276. Aural Rehabilitation. 3 Credits.

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Laboratory fee.

SPHR 6277. Psychoeducational Management of Children With Hearing Impairment. 3 Credits.

SPHR 6281. Dysphagia. 2 Credits.

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination and radiologic methods; treatment. Laboratory fee.

SPHR 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.

Principles of assessment, development, and selection of augmentative and alternative communication systems; application through case studies. Computer applications, including review of selected hardware and software and selection criteria. Laboratory fee.

SPHR 6283. Multicultural Perspectives in Communication Development and Disorders. 2 Credits.

Application of culturally appropriate and theoretically based speech and language procedures to clinical assessment and intervention with multilingual/multicultural populations.

SPHR 6284. Autism. 2 Credits.

The various facets of Autism Spectrum Disorder (ASD); clinical aspects and how speech-language pathologists are involved in the assessment, diagnosis, and treatment of ASD; the relationship between typical cognitive and brain development throughout the lifespan and how it is manifested in ASD. Restricted to graduate students.

SPHR 6290. Selected Topics in Clinical Audiology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues. May be repeated, but may not be taken for more than a total of 6 credits.

SPHR 6291. Selected Topics in Speech-Language Pathology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues regarding various aspects of practice in speech-language pathology. May be repeated but not for more than a total of 6 credits.

SPHR 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.

SPHR 6998. Thesis Research. 2 Credits.

SPHR 6999. Thesis Research. 2 Credits.

Needs to be added:

SPHR 6211: Preparing the Thesis Prospectus (2)

SPHR 6284: Autism (2)

BACHELOR OF ARTS WITH A MAJOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

44 credits, including 9 credits in core courses, and 35 credits in a concentration.

Core Curriculum

Code	Title	Credits
Required		
SLHS 1071	Foundations of Human Communication	
SLHS 2101	Research Methods	
SLHS 2135	Language: Structure, Meaning, and Use	

Communication Sciences and Disorders Concentration

Code	Title	Credits
Required		
SLHS 2104W	Speech and Language Disorders	
or SLHS 2104W	Speech and Language Disorders	
SLHS 2105	Anatomy and Physiology for Speech and Hearing	
SLHS 2106	Neural Substrates of Speech, Language, and Hearing	
SLHS 2107	Acoustics	
SLHS 2108	Introduction to Audiology	
SLHS 2131	Language Acquisition and Development	
SLHS 2136	Phonetics	
SLHS 3109	Auditory Learning and Aural Rehabilitation	
SLHS 4118W	Senior Research Seminar in Communication Sciences and Disorders	
SLHS 4119	Principles and Methods in Speech-Language Pathology	

STAT 1053	Introduction to Statistics in Social Science
-----------	--

Elective

One course selected from the following:

SLHS 1072	Multicultural Issues in Human Communication
SLHS 1082	American Sign Language II
SLHS 3132	Literacy
SLHS 3133	Autism
SLHS 3116	Brain and Language
SLHS 4201	Social Communication Development
SLHS 4221	Language and Communication in Aging

Neuroscience of Language and Communication Concentration

Code	Title	Credits
Required		
PSYC 2014	Cognitive Psychology	
SLHS 2106	Neural Substrates of Speech, Language, and Hearing	
SLHS 3117	Hearing and Perception	
SLHS 3116	Brain and Language	
SLHS 4201	Social Communication Development	
SLHS 4221	Language and Communication in Aging	
SLHS 4118W	Senior Research Seminar in Communication Sciences and Disorders	
STAT 1053	Introduction to Statistics in Social Science	

Electives

Three courses selected from the following:

SLHS 2104	Speech and Language Disorders
SLHS 2105	Anatomy and Physiology for Speech and Hearing
SLHS 2106	Neural Substrates of Speech, Language, and Hearing
SLHS 2107	Acoustics
SLHS 3132	Literacy

SLHS 3133	Autism
-----------	--------

One course selected from the following:

PSYC 2013	Developmental Psychology
PSYC 2015	Biological Psychology
PSYC 3118	Neuropsychology
PSYC 3121	Memory and Cognition

Language Across Cultures and the Life Span Concentration

Code	Title	Credits
Required		
SLHS 1072	Multicultural Issues in Human Communication	
SLHS 1082	American Sign Language II	
SLHS 1084	Perspectives in Deaf Culture	
SLHS 2131	Language Acquisition and Development	
SLHS 3132	Literacy	
SLHS 4201	Social Communication Development	
SLHS 4221	Language and Communication in Aging	
SLHS 4118W	Senior Research Seminar in Communication Sciences and Disorders	

Electives

Three courses selected from the following:

SLHS 2104	Speech and Language Disorders
SLHS 2105	Anatomy and Physiology for Speech and Hearing
SLHS 2106	Neural Substrates of Speech, Language, and Hearing
SLHS 2107	Acoustics
SLHS 3108	Introduction to Audiology
SLHS 3109	Auditory Learning and Aural Rehabilitation
SLHS 3116	Brain and Language
SLHS 3133	Autism
SLHS 3136	Phonetics

One course selected from the following:

ANTH 1004	Language in Culture and Society
ANTH 3601	Language, Culture, and Cognition
ANTH 3602	Ethnographic Analysis of Speech
ANTH 3603	Psycholinguistics
PSYC 2514	Adult Development and Aging

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.
- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one

course in this category required by the University General Education Requirement).

- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement.
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

To qualify for graduation with Special Honors, the student must fulfill the general requirements stated under University Regulations, submit an application to the department before the beginning of the senior year, register for at least 1 credit of SPHR 4196 Independent Study, and complete an independent study honors project with distinction. Students must confer with an advisor before beginning the work. A 3.75 grade-point average in the major and overall is required both for acceptance and for graduation with Special Honors.

DOCTOR OF PHILOSOPHY IN THE FIELD OF SPEECH, LANGUAGE, AND HEARING SCIENCE

As part of GW's nationally ranked speech-language pathology graduate program, students receive in-depth education on all aspects of communication and hands-on experience evaluating patients and administering therapy treatments. The program is fully accredited by the Council of Academic Programs in Speech-Language Pathology and Audiology. Part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program provides full insight into communication, including the consequences and rehabilitation of communication disorders for individuals and society.

The doctoral program in Speech-Language-Hearing Sciences (SLHS) is an individualized, mentored, and interdisciplinary research degree aimed at educating future members of the SLHS professoriate, industry researchers, and clinical practitioners. The program's aim is to provide education and preparation in basic and translational research and teaching related to human speech, language, and hearing sciences. The translational nature of our research involves scientific

methods and lines of inquiry that address real-world problems SLHS domains. Under the guidance of a dissertation director and advisory committee, doctoral students will demonstrate depth and breadth of knowledge in their area of specialization, conduct and communicate scholarly research, and demonstrate competence in professional skills. Students develop expertise in working with the diverse populations of an ever-connected global society.

REQUIREMENTS

Program Requirements

Required

DNSC 6274	Statistical Modeling and Analysis
DNSC 6275	Advanced Statistical Modeling and Analysis
SLHS 8100	Communication Disorders Across the Lifespan
SLHS 8200	Research Methods and Ethics and Grant Writing
SLHS 8201	Research Rotation
SLHS 8202	Teaching Rotation
SLHS 8203	Doctoral Seminar Leadership
SLHS 8300	Statistical Applications for Translational Research
SLHS 8999	Dissertation Research

Electives

A minimum of 8 credits in elective courses selected from the following:

SPHR 6205	Professional and Clinical Issues in Speech and Hearing
SPHR 6207	Diagnostic Procedures in Speech and Hearing
SPHR 6210	Research in Communication Sciences and Disorders
SPHR 6220	Disorders of Articulation and Phonology
SPHR 6222	Acquired Neuromotor Disorders of Speech Production
SPHR 6230	Pediatric Language and Speech Disorders I
SPHR 6231	Pediatric Language and Speech Disorders II
SPHR 6240	Neurogenic Communication Disorders
SPHR 6241	Applied Neuroanatomy
SPHR 6251	Seminar: Speech Fluency Disorders
SPHR 6260	Voice Disorders: Evaluation and Treatment

SPHR 6276	Aural Rehabilitation
SPHR 6281	Dysphagia
SPHR 6282	Augmentative Communication and Computer Applications in Communication Disorders
SPHR 6284	Autism
SPHR 6295	Independent Research in Speech, Language, and Hearing
SPHR 6291	Selected Topics in Speech-Language Pathology (Aging)

MASTER OF ARTS IN THE FIELD OF SPEECH-LANGUAGE PATHOLOGY

As part of GW's nationally ranked speech-language pathology graduate program, students receive in-depth education on all aspects of communication and hands-on experience evaluating patients and administering therapy treatments. The program is fully accredited by the Council of Academic Programs in Speech-Language Pathology and Audiology. Part of the social and behavioral sciences discipline in the Columbian College of Arts and Sciences, the program provides full insight into communication, including the consequences and rehabilitation of communication disorders for individuals and society.

The master's program for students with a BA in speech-language pathology includes two years of intensive full-time study. Learning environments encompass traditional classroom instruction and clinical education with mentors in the GW Speech and Hearing Center.

REQUIREMENTS

The master of arts in the field of speech-language pathology degree program is for students with an undergraduate degree in speech-language pathology.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

42 credits: Non-thesis option—38 credits in required courses and 4 credits in elective courses; thesis option—36 credits in required courses and 6 credits of thesis. For all students, satisfactory completion of supervised practica and a master's summative assessment is required.

Code	Title	Credits
Required		
SLHS 6201	Clinical Practicum in Speech-Language Pathology (taken for five semesters for 1 credit each semester)	

SLHS 6205	Professional and Clinical Issues in Speech and Hearing
SLHS 6207	Diagnostic Procedures in Speech and Hearing
SLHS 6210	Research in Communication Sciences and Disorders *
SLHS 6220	Disorders of Articulation and Phonology
SLHS 6230	Pediatric Language and Speech Disorders I
SLHS 6231	Pediatric Language and Speech Disorders II
SLHS 6240	Neurogenic Communication Disorders
SLHS 6241	Applied Neuroanatomy
SLHS 6251	Speech Fluency Disorders Seminar
SLHS 6260	Voice Disorders: Evaluation and Treatment
SLHS 6276	Aural Rehabilitation
SLHS 6281	Dysphagia

Thesis students

Students selecting the thesis option complete 6 credits in thesis research from the following courses:

SLHS 6211	Preparing the Thesis Prospectus
SLHS 6998	Thesis Research
SLHS 6999	Thesis Research

Non-thesis students

Students selecting the non-thesis option take 4 credits in elective courses selected from the following:

SLHS 6222	Acquired Neuromotor Disorders of Speech Production
SLHS 6284	Autism
SLHS 6291	Special Topics in Speech-Language Pathology (Literacy)
SLHS 6291	Special Topics in Speech-Language Pathology (Bilingualism)
SLHS 6291	Special Topics in Speech-Language Pathology (Global Engagement)
SLHS 6291	Special Topics in Speech-Language Pathology (Aging)

Additional requirements

Satisfactory completion of supervised practica and a master's summative assessment.

*Non-thesis students take SLHS 6210 for 3 credits, thesis students take the course for 1 credit.

MINOR IN SPEECH, LANGUAGE, AND HEARING SCIENCES REQUIREMENTS

The following requirements must be fulfilled: 18 credits, including 12 credits in required courses and 6 credits in elective courses.

Code	Title	Credits
------	-------	---------

Required

SLHS 1071	Foundations of Human Communication	
or SLHS 1071W	Foundations of Human Communication	
SLHS 2105	Anatomy and Physiology for Speech and Hearing	
SLHS 2107	Acoustics	
SLHS 2135	Language: Structure, Meaning, and Use	

Electives

Two courses selected from the following:

SLHS 2104	Speech and Language Disorders	
or SLHS 2104W	Speech and Language Disorders	
SLHS 2106	Neural Substrates of Speech, Language, and Hearing	
SLHS 2108	Introduction to Audiology	
SLHS 3131	Language Acquisition and Development	
SLHS 3132	Literacy	
SLHS 3133	Autism	
SLHS 3108	Introduction to Audiology	
SLHS 3136	Phonetics	
SLHS 3116	Brain and Language	

SPEECH-LANGUAGE PATHOLOGY POST-BACCALAUREATE PROGRAM

To participate in the post-baccalaureate program, students apply to the MA in Speech-Language Pathology (<https://speechhearing2.drupal.gwu.edu/ma-speech-language-pathology/>) and may be granted conditional admission (<https://speechhearing2.drupal.gwu.edu/post-baccalaureate-program/#conditional>) to the master's program. In order to maintain conditional admission status, students must complete nine prerequisite courses (26 credits) in the post-baccalaureate program. Students must maintain a minimum cumulative GPA of 3.0 and earn a minimum grade of B- in each course. No other grades, including I (Incomplete), W (Authorized Withdraw), or Z (Unauthorized Withdraw), are acceptable.

Credits earned in courses taken for the post-baccalaureate program count toward the master's degree and grades earned in those courses are included in the student's cumulative GPA. Once the student successfully completes the required post-baccalaureate curriculum, they are guaranteed entry into the MA program. Applicants may be eligible to transfer prerequisite credits previously completed. Such cases will be reviewed on an individual basis during the admissions process.

In addition, all post-baccalaureate students perform 25 hours of clinical observation, as mandated by the American Speech-Language-Hearing Association (ASHA), before beginning clinical practica.

Code	Title	Credits
Required		
SLHS 2104	Speech and Language Disorders	
SLHS 2105	Anatomy and Physiology for Speech and Hearing	
SLHS 2106	Neural Substrates of Speech, Language, and Hearing	
SLHS 2107	Acoustics	
SLHS 2108	Introduction to Audiology	
SLHS 2131	Language Acquisition and Development	
SLHS 2135	Language: Structure, Meaning, and Use	
SLHS 3136	Phonetics	
SLHS 4119	Principles and Methods in Speech-Language Pathology	

STATISTICS

Statistics is one of the natural, mathematical, and biomedical sciences programs in the Columbian College of Arts and Sciences. The curriculum emphasizes the important role of statistics as it provides methodologies for making advances in medicine, genetics, and other research arenas and supports decision making in business and public policy. Students learn reasoning skills and methods for analyzing and understanding data and how these skills can be applied to develop new initiatives.

Visit the Department of Statistics website (<https://statistics.columbian.gwu.edu/>) for additional information.

UNDERGRADUATE

Bachelor's program

- Bachelor of Science with a major in statistics (p. 491)

Minor

- Minor in statistics (p. 494)

GRADUATE

Master's programs

- Master of Science in the field of biostatistics (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/ms-biostatistics/>)*
- Master of Science in the field of statistics (p. 493)

Combined program

- Dual Master of Science in the field of statistics and graduate certificate in the field of data science (p. 493)

Doctoral programs

- Doctor of Philosophy in the field of biostatistics (<http://bulletin.gwu.edu/public-health/epidemiology-biostatistics/phd-biostatistics/>)*
- Doctor of Philosophy in the field of statistics (p. 492)

*Jointly administered by the Department of Statistics in Columbian College of Arts and Sciences and the School of Public Health's Department of Biostatistics Bioinformatics.

FACULTY

Professors J.L. Gastwirth, F. Hu, J.M. Lachin III, Y. Lai (*Chair*), Z. Li, H. Liang, H.M. Mahmoud, R. Modarres, T.K. Nayak, H.J. Wang

Associate Professors T. Apanasovich, S. Bose, S. Kundu

Assistant Professors S. Balaji, A.E. Barut, J. Landon, L. Wang, X. Zhang

Adjunct Professors A. Amini, T. Vadakkeveetil

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000s to 4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

Note: STAT 1051 Introduction to Business and Economic Statistics, STAT 1053 Introduction to Statistics in Social Science, STAT 1111 Business and Economic Statistics I, and STAT 1127 Statistics for the Biological Sciences are related in their subject matter, and credit for only one of these courses may be applied toward a degree. One entrance unit in algebra is prerequisite to all courses in statistics.

STAT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester; see department for more details.

STAT 1051. Introduction to Business and Economic Statistics. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, probability distributions, sampling, estimation, tests of hypotheses, regression and correlation, with applications to business. Credit cannot be earned for this course and STAT 1053, STAT 1111, STAT 1127.

STAT 1053. Introduction to Statistics in Social Science. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, sampling, estimation, tests of hypotheses, regression and correlation, with applications to social sciences. Credit cannot be earned for this course and STAT 1051, STAT 1111, STAT 1127.

STAT 1099. Variable Topics. 1-36 Credits.

STAT 1111. Business and Economic Statistics I. 3 Credits.

Descriptive statistics, graphical methods, probability, special distributions, random variables, sampling, estimation and confidence intervals, hypothesis testing, correlation and regression. Credit cannot be earned for this course and STAT 1051, STAT 1053, STAT 1127.

STAT 1127. Statistics for the Biological Sciences. 3 Credits.

Introduction to statistical techniques and reasoning applicable to the biomedical and related sciences. Properties of basic probability functions: binomial, Poisson, and normal. Data analysis, inference, and experimental design. Credit cannot be earned for this course and STAT 1051, STAT 1053, STAT 1111.

STAT 1129. Introduction to Computing. 3 Credits.

Introduction to elements of computer programming and problem-solving using a computer programming language. Hands-on experience is acquired through computer programming projects, including some simple statistical applications.

STAT 2000. Sophomore Colloquium. 3 Credits.

Sophomore colloquia are small, seminar-type classes that deeply engage CCAS second-year students in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects. May be repeated provided topic differs. Consult the Schedule of Classes for more details. Restricted to CCAS sophomores.

STAT 2112. Business and Economic Statistics II. 3 Credits.

Continuation of STAT 1111. Emphasis on techniques of regression, chi-square, nonparametric inference, index numbers, time series, decision analysis, and other topics relevant to economics and business. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111.

STAT 2118. Regression Analysis. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Simple and multiple linear regression, partial correlation, residual analysis, stepwise model building, multicollinearity and diagnostic methods, indicator variables. Prerequisites: STAT 1051, 1053 and STAT 1111.

STAT 2123. Introduction to Econometrics. 3 Credits.

Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: ECON 1011 or HONR 2043; and ECON 1012 or HONR 2044; and MATH 1221 or MATH 1231; and STAT 1051 or STAT 1053 or STAT 1111. Same As: ECON 2123.

STAT 2183. Intermediate Statistics Lab/Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisites: An introductory statistics course.

STAT 2183W. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisites: An introductory statistics course.

STAT 3099. Variable Topics. 1-12 Credits.

STAT 3119. Analysis of Variance. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Introduction to the design of experiments and analysis of variance; randomized block, factorial, Latin square designs, and analysis of covariance. Prerequisite: STAT 2118.

STAT 3187. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051 .

STAT 3187W. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: STAT 1051. Same As: STAT 3187.

STAT 4157. Introduction to Mathematical Statistics I. 3 Credits.

Basic concepts of probability theory, including random variables, independence, distribution theory, and sampling theory. Prerequisite: MATH 1232 .

STAT 4158. Introduction to Mathematical Statistics II. 3 Credits.

Continuation of STAT 4157. Inference procedures, including estimation, hypothesis testing, regression analysis, and experimental design. Prerequisite: MATH 1232 .

STAT 4181. Applied Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate time series. Estimation of spectral density functions, white noise tests, and tests for periodicities. Theory and applications using statistical software. Prerequisites: STAT 4157 and STAT 4158 or STAT 2118.

STAT 4188. Nonparametric Statistics Inference. 3 Credits.

Statistical inference when the form of the underlying distribution is not fully specified. Nonparametric procedures for estimation and testing hypotheses. An introduction to robust procedures. Prerequisite: STAT 1051.

STAT 4189. Mathematical Probability and Applications I. 3 Credits.

Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4190. Mathematical Probability and Applications II. 3 Credits.

Continuation of STAT 4189. Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4195. Reading and Research. 1-12 Credits.

May be repeated once for credit. Permission of the department chair required prior to enrollment.

STAT 4197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing; data modification, programming, file handling, and macro writing. Students are expected to have knowledge of computer programming and to have completed an introductory statistics course. Credit cannot be earned for both STAT 4197 and STAT 6197.

STAT 4198. Special Topics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

STAT 5099. Variable Topics. 1-99 Credits.**STAT 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.**

Introductory study of statistical techniques for research problems. For graduate students in fields other than statistics who have no previous statistics training. May not be taken by graduate students in statistics.

STAT 6197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of Statistical Analysis System (SAS) software for data management, statistical analysis, and report writing. Data modification, programming, file handling, and macro writing. Recommended background: An introductory statistics course and knowledge of computer programming. Credit cannot be earned for this course and STAT 4197.

STAT 6201. Mathematical Statistics I. 3 Credits.

Basic Probability theory, Random variables and transformations, Common families of distribution, Conditional expectations and distributions, Bivariate and Multivariate distributions and transformations, Sampling distributions. Prerequisites: MATH 2233 and MATH 2184.

STAT 6202. Mathematical Statistics II. 3 Credits.

Continuation of STAT 6201. Order Statistics, Convergence concepts, Sufficient and Complete statistics, Likelihood Principle, Point and Interval Estimation, Hypothesis Testing, Bayesian Tests and Intervals. Prerequisites: MATH 2233, MATH 2184 and STAT 6201.

STAT 6207. Methods of Statistical Computing I. 3 Credits.

Error analysis, computational aspects of linear models, sweep operator, random number generation, simulation, resampling. Optimization, numerical integration (Gaussian quadrature, Simpson's rule); E-M algorithm. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

STAT 6208. Methods of Statistical Computing II. 3 Credits.

Numerical linear algebra, matrix decomposition and eigenvalue problems. Smoothing and density estimation. Graphics, interactive and dynamic techniques for data display. Object-oriented programming. Prerequisites: STAT 2118, STAT 4157 and STAT 4158; and MATH 2184; and knowledge of a programming language.

STAT 6210. Data Analysis. 3 Credits.

Review of statistical principles of data analysis, using computerized statistical procedures. Multiple regression and the general linear model, analysis of contingency tables and categorical data, logistic regression for qualitative responses. Prerequisites: STAT 2118 or STAT 4157 or STAT 6201; and STAT 2183.

STAT 6213. Intermediate Probability and Stochastic Processes. 3 Credits.

Discrete and continuous random variables and their distributions, conditional distributions and conditional expectation, generating functions and their applications, convergence of random variables; introduction to Brownian motion, homogeneous and nonhomogeneous Poisson processes and martingales. Prerequisites: STAT 6201 and STAT 6202.

STAT 6214. Applied Linear Models. 3 Credits.

Introduction to regression techniques for discrete and continuous response variables. The course includes a computing component using SAS and S> Prerequisite: MATH 2233 and MATH 2184.

STAT 6215. Applied Multivariate Analysis I. 3 Credits.

Statistical analysis of several variables, possibly dependent, following a joint normal distribution. matrix algebra and random vectors, multivariate sample geometry, multivariate normal distribution, inferences about a mean vector, and comparisons of several population means. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 4157 and STAT 4158; and MATH 2184.

STAT 6216. Applied Multivariate Analysis II. 3 Credits.

Continuation of STAT 6215. Statistical analysis of random vectors, following a multivariate normal distribution. multivariate linear regression models, principal components, factor analysis, inference for structured covariance matrices, canonical correlations, discrimination and classification, clustering and distance methods. Applications of multivariate techniques to the analysis of data from the behavioral, social, medical, and physical sciences. Prerequisites: STAT 3119, STAT 4157 and STAT 4158; and MATH 2184.

STAT 6217. Design of Experiments. 3 Credits.

Design and analysis of single- and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, response surface experimentation. Prerequisites: STAT 4157 and STAT 4158; and MATH 2184.

STAT 6218. Linear Models. 3 Credits.

Theory of the general linear parametric model. Includes least squares estimation, multiple comparisons procedures, variance components estimation. Prerequisites: STAT 6201, STAT 6202, STAT 2118 and MATH 2184.

STAT 6223. Bayesian Statistics: Theory and Applications. 3 Credits.

An overview of Bayesian statistics, including its foundational issues, decision under uncertainty, linear models, expert opinion, and computational issues. Prerequisites: STAT 6201 and STAT 6202.

STAT 6225. Longitudinal Data Analysis. 3 Credits.

Introduction to the statistical models, estimation methods, and inferences for the analysis of longitudinal data; modern methods for the analysis of repeated measures as well as parametric and nonparametric regression models for longitudinal analysis. Restricted to master of science and doctoral program candidates. Prerequisites: Stat 2118, Stat 6201 and Stat 6202.

STAT 6227. Survival Analysis. 3 Credits.

Parametric and nonparametric methods for the analysis of events observed in time (survival data), including Kaplan-Meier estimate of survival functions, logrank and generalized Wilcoxon tests, the Cox proportional hazards model and an introduction to counting processes. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

STAT 6231. Categorical Data Analysis. 3 Credits.

A study of the theoretical bases underlying the analysis of categorical data. Measures and tests of association; Mantel-Haenszel procedure; weighted least squares and maximum likelihood estimators in linear models; generalized linear models including Poisson and logistic regression models, generalized estimating equations; random effects models. Prerequisites: Graduate level mathematical statistics courses - STAT 6201 and STAT 6202. Recommended background: Courses in Mathematical Statistics and Linear Models.

STAT 6233. Questionnaire Design. 3 Credits.

Questionnaire development from the perspective of cognitive techniques. Questionnaire issues range from choosing the mode of data collection (mail, telephone, or in-person) to selecting the respondent to the differences between asking attitude and factual questions. Pretesting the instrument chosen.

STAT 6234. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. This course is specifically designed for SDDA program. Prerequisites: An introductory statistics course.

STAT 6236. Applied Sampling Techniques. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051.

STAT 6238. Survey Management. 3 Credits.

Tools used in the management of a survey operation from the initial customer contacts through training, fieldwork, data processing, data analysis, report writing, and presentation of results. Issues in budgeting, staffing, and scheduling, with emphasis on quality management.

STAT 6240. Statistical Data Mining. 3 Credits.

Introduction to basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Students are expected to be familiar with R programming. Restricted to statistics majors or with the permission of the instructor. Prerequisites: STAT 6201, STAT 6202, and STAT 6214 or equivalents. Recommended background: coursework in mathematical statistics, applied linear models, and multivariate statistics.

STAT 6242. Modern Regression Analysis. 3 Credits.

Methodology, major software tools and applications of modern nonparametric methods. Regularized regression: shrinkage, ridge and lasso; nonparametric regression: kernels and splines; nonparametric classification: K-Nearest Neighbors and Decision Trees; resampling methods: bootstrap, boosting and bagging. Prerequisites: STAT 6201 or STAT 6202 or STAT 6214 or STAT 6218.

STAT 6245. Statistical Consulting. 3 Credits.

This course focuses on the following themes: (i) understanding the statistical consulting process; (ii) developing effective verbal and written communication skills; (iii) comprehending consulting environments in different industries; and (iv) obtaining consulting experience through case studies. Prerequisites: STAT 6201, STAT 6202, STAT 6214 and STAT 6215. Recommended background: second-year status in the graduate statistics or biostatistics program.

STAT 6252. Statistical Methods in Bioinformatics and Computational Biology. 3 Credits.**STAT 6253. Legal Statistics. 3 Credits.****STAT 6254. Statistical Genetics. 3 Credits.**

Theories of population genetics and Mendelian genetics, Hardy-Weinberg equilibrium and linkage disequilibrium, statistical software (R or SAS) for linkage analysis and association analysis, research in statistical genetics. Prerequisites: STAT 6201 and STAT 6202.

STAT 6255. Clinical Trials. 3 Credits.

Introduction to the design and analysis of clinical trials. Clinical trials as a tool for medical research; phases and endpoints; the role of randomization, power, and sample size; statistical analysis of data; interim analysis and data monitoring. Recommended background: Knowledge of basic design of experiments, mathematical statistics (probability and inference), and familiarity with R and SAS.

STAT 6287. Sample Surveys. 3 Credits.

Application of statistical theory to the sampling of finite populations. Simple, stratified, cluster, double and subsampling. Special topics, including super-populations and randomized response. Prerequisites: STAT 4157 and STAT 4158.

STAT 6289. Topics in Statistics. 3 Credits.

Topics vary by semester. May be repeated for credit provided the topic differs. See department for more details.

STAT 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290.

STAT 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291.

STAT 6295. Reading and Research. 3 Credits.

May be repeated once for credit.

STAT 6298. Seminar: Special Topics. 3 Credits.**STAT 6998. Thesis Research. 3 Credits.****STAT 6999. Thesis Research. 3 Credits.****STAT 8226. Advanced Biostatistical Methods. 3 Credits.**

Statistical methods for the analysis of longitudinal data: nonparametric, fixed effects, mixed effects, generalized estimating equations. Methods for the analysis of emerging data: group sequential analysis, Brownian motion, Bayesian methods, and stochastic curtailment. Other advanced topics of current research in biostatistics. Prerequisites: STAT 6201 and STAT 6202; or permission of the instructor.

STAT 8257. Probability. 3 Credits.

Probabilistic foundations of statistics, probability distributions, random variables, moments, characteristic functions, modes of convergence, limit theorems, probability bounds. Prerequisites: STAT 6201 and STAT 6202; and knowledge of calculus through functions of several variables and series.

STAT 8258. Distribution Theory. 3 Credits.

Special distributions of statistics, small and large sample theory, order statistics, and spacings. Prerequisite: STAT 8257.

STAT 8259. Advanced Probability. 3 Credits.

Conditional expectation and martingales; weak convergence in general metric spaces and functional central limit theorems for i.i.d. random variables and martingales; applications to biostatistics. Prerequisite: STAT 8257 or an equivalent measure-theoretic introduction to probability.

STAT 8262. Nonparametric Inference. 3 Credits.

Inference when the form of the underlying distribution is unspecified. Prerequisites: STAT 6201 and STAT 6202.

STAT 8263. Advanced Statistical Theory I. 3 Credits.
Decision theoretic estimation, classical point estimation, hypothesis testing. Prerequisites: STAT 6201 and STAT 6202.

STAT 8264. Advanced Statistical Theory II. 3 Credits.
Asymptotic theory, hypothesis testing, confidence regions. Prerequisites: STAT 8257 and STAT 8263.

STAT 8265. Multivariate Analysis. 3 Credits.
Characterization and properties of the multivariate normal distribution, conditional distributions, multiple correlation, partial correlation, estimation of the mean vector and the covariance matrix, Wishart and Hotelling distributions and applications to hypothesis testing, discrimination, classification, and principle component analysis. Prerequisites: STAT 6201 and STAT 6202.

STAT 8266. Topics-Multivariate Analysis. 3 Credits.
Multivariate analysis of variance, principal component analysis, canonical correlation, factor analysis. Prerequisites: STAT 6201, STAT 6202 and STAT 8265.

STAT 8271. Foundational and Philosophical Issues in Statistics. 3 Credits.
Axiomatic underpinnings of Bayesian statistics, including subjective probability, belief, utility, decision and games, likelihood principle, and stopping rules. Examples from legal, forensic, biological, and engineering sciences. Students are expected to have a background in computer science, economics, mathematics, or operations research. Prerequisites: STAT 6201 and STAT 6202.

STAT 8273. Stochastic Processes I. 3 Credits.
Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

STAT 8274. Stochastic Processes II. 3 Credits.
Continuation of STAT 8273. Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201 and STAT 6202.

STAT 8281. Advanced Time Series Analysis. 3 Credits.
Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate and multivariate time series. Statespace or Kalman filter models, spectral analysis of multiple time series. Theory and applications using the University computer. Prerequisites: MATH 2233, STAT 6201 and STAT 6202.

STAT 8288. Topics in Sample Surveys. 3 Credits.
Advanced topics and research in sample surveys. Prerequisite: STAT 6287.

STAT 8289. Seminar. 3 Credits.
Admission by permission of instructor. May be repeated for credit provided the content differs.

STAT 8375. Econometrics I. 3 Credits.
Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as ECON 8375.

STAT 8376. Econometrics II. 3 Credits.
Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as ECON 8376. Prerequisite: STAT 8375.

STAT 8998. Advanced Reading and Research. 1-12 Credits.
May be repeated for credit. Restricted to doctoral candidates preparing for the general examination.

STAT 8999. Dissertation Research. 3-12 Credits.
May be repeated for credit. Restricted to doctoral candidates.

BACHELOR OF SCIENCE WITH A MAJOR IN STATISTICS

REQUIREMENTS

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Undergraduate Programs (p. 77).

Program-specific curriculum—all courses in the major, including prerequisites, must be completed with a minimum grade of C-:

Code	Title	Credits
Prerequisite courses:		
MATH 1231	Single-Variable Calculus I	
MATH 1232	Single-Variable Calculus II	
MATH 2233	Multivariable Calculus	
STAT 1051	Introduction to Business and Economic Statistics (or equivalent)	
or STAT 1053	Introduction to Statistics in Social Science	
STAT 1129	Introduction to Computing (or equivalent)	
or CSCI 1121	Introduction to C Programming	
Code	Title	Credits
Required courses in the major:		
MATH 2184	Linear Algebra I	
or MATH 2185	Linear Algebra I for Math Majors	
STAT 2118	Regression Analysis	
STAT 3119	Analysis of Variance	

STAT 4157	Introduction to Mathematical Statistics I
STAT 4158	Introduction to Mathematical Statistics II
STAT 2183	Intermediate Statistics Lab/Packages
or STAT 4197	Fundamentals of SAS Programming for Data Management
Four approved upper-division courses, some of which, in special circumstances, may be taken in other departments. To assure a balanced program, departmental approval of electives is required for all majors. Some suggested electives are:	
STAT 2112	Business and Economic Statistics II
STAT 3187	Introduction to Sampling
STAT 4181	Applied Time Series Analysis
STAT 4188	Nonparametric Statistics Inference
STAT 4189	Mathematical Probability and Applications I
STAT 4198	Special Topics

GENERAL EDUCATION

In addition to the University General Education Requirement (p. 42), undergraduate students in Columbian College must complete a further, College-specific general education curriculum—Perspective, Analysis, Communication, or G-PAC. Together with the University General Education Requirement, G-PAC engages students in active intellectual inquiry across the liberal arts. Students achieve a set of learning outcomes that enhance their analytical skills, develop their communication competencies, and invite them to participate as responsible citizens who are attentive to issues of culture, diversity, and privilege.

G-PAC approved courses, Dean's Seminars, and Sophomore Colloquia that may be available for registration are listed on the CCAS Advising website (<https://advising.columbian.gwu.edu/general-education-courses/>).

Coursework for the University General Education Requirement is distributed as follows:

- Writing—one approved course in university writing and two approved writing in the disciplines (WID) courses.
- Humanities—one approved course in the humanities that involves critical or creative thinking skills.
- Mathematics or Statistics—one approved course in either mathematics or statistics.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry.

- Social Sciences—two approved courses in the social sciences.

Coursework for the Columbian College general education curriculum is distributed as follows:

- Arts—one approved course in the arts that involves the study or creation of artwork based on an understanding or interpretation of artistic traditions or knowledge of art in a contemporary context.
- Global or Cross-Cultural Perspective—one approved course that analyzes the ways in which institutions, practices, and problems transcend national and regional boundaries.
- Humanities—one approved course in the humanities that involves critical thinking skills (in addition to the one course in this category required by the University General Education Requirement).
- Local or Civic Engagement—one approved course that develops the values, ethics, disciplines, and commitment to pursue responsible public action.
- Natural or Physical Science—one approved laboratory course that employs the process of scientific inquiry (in addition to the one course in this category required by the University General Education Requirement).
- Oral Communication—one course in oral communication.

Certain courses are approved to fulfill the requirement in more than one of these categories.

Courses taken in fulfillment of G-PAC also may be counted toward majors or minors. Transfer courses taken prior to, but not after, admission to George Washington University may count toward the University General Education Requirement and G-PAC, if those transfer courses are equivalent to GW courses that have been approved by the University and the College.

SPECIAL HONORS

In addition to the general requirements stated under University Regulations, in order to be considered for graduation with Special Honors, students who seek Special Honors in statistics should check with the Department.

DOCTOR OF PHILOSOPHY IN THE FIELD OF STATISTICS

OVERVIEW

Statistics plays an important role throughout society, providing methodologies for advances in medicine, genetics and other research arenas, and for making decisions in business and public policy. Statistics is part of the natural, mathematical and biomedical sciences field in the Columbian College of Arts and Sciences.

The PhD program offers faculty expertise in statistical genetics, inference, Bayesian statistics, robust inference, computational

statistics, reliability, statistics in law and regulatory policy, and probabilistic analysis of algorithms.

To enter the PhD. program, graduate students typically have earned a master’s degree in statistics or a related discipline. Students need a strong background in mathematics, including courses in advanced calculus, linear algebra and mathematical statistics.

REQUIREMENTS

Prerequisite: a master’s degree in statistics or a related discipline. The main requirement is a strong background in mathematics, including courses in advanced calculus, linear algebra, probability and mathematical statistics. Some deficiencies may be made up concurrently during the student’s first year. In some instances, a student may enter the PhD program with a bachelor’s degree.

The following requirements must be fulfilled:

The general requirements stated under Columbian College of Arts and Sciences, Graduate Programs (p. 77).

The requirements for the Doctor of Philosophy Program (p. 87)

Code	Title	Credits
Required		
STAT 6201	Mathematical Statistics I
